(2) In inventory at the end of the month of fluid milk products in bulk or packaged form and products specified in paragraph (b) (1) of this section in bulk form;

(3) In fluid milk products and products specified in paragraph (b) (1) of this section that are disposed of by a handler for animal feed;

(4) In fluid milk products and products specified in paragraph (b) (1) of this section that are dumped by a handler if the market administrator is notified of such dumping in advance and is given the opportunity to verify such disposition;

(5) In skim milk in any modified fluid milk product that is in excess of the quantity of skim milk in such product that was included within the fluid milk product definition pursuant to § 1063.15; and

(6) In shrinkage assigned pursuant to § 1063.41(a) to the receipts specified in § 1063.41(a) (2) and in shrinkage specified in § 1063.41 (b) and (c).

§ 1063.41 Shrinkage.

For purposes of classifying all skim milk and butterfat to be reported by a handler pursuant to § 1063.30, the market administrator shall determine the following:

(a) The pro rata assignment of shrinkage of skim milk and butterfat, respectively, at each pool plant to the respective quantities of skim milk and butterfat:

(1) In the receipts specified in paragraph (b) (1) through (6) of this section on which shrinkage is allowed pursuant to such paragraph; and

(2) In other source milk not specified in paragraph (b) (1) through (6) of this section which was received in the form of a bulk fluid milk product or a bulk fluid cream product;

(b) The shrinkage of skim milk and butterfat, respectively, assigned pursuant to paragraph (a) of this section to the receipts specified in paragraph (a) (1) of this section that is not in excess of:

(1) Two percent of the skim milk and butterfat, respectively, in producer milk (excluding milk diverted by the plant operator to another plant).

(2) [Reserved]

(3) Plus 0.5 percent of the skim milk and butterfat, respectively, in producer milk diverted from such plant by the plant operator to another plant, except that if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be zero;

(4) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other pool plants;

(5) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other order plants, excluding the quantity for which Class II or Class III classification is requested by the operators of both plants;

(6) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received from unregulated supply plants, excluding the quantity for which Class II or Class III classification is requested by the handler; and

(7) Less 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products transferred to other plants that is not in excess of the respective amounts of skim milk and butterfat to which percentages are applied in paragraphs (b) (1), (4), (5), and (6) of this section; and

(c) The quantity of skim milk and butterfat, respectively, in shrinkage of milk from producers for which a cooperative association is the handler pursuant to § 1063.9(b), but not in excess of 0.5 percent of the skim milk and butterfat, respectively, in such milk. If the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this paragraph for the cooperative association shall be zero.

§ 1063.42 Classification of transfers and diversions.

(a) *Transfers to pool plants.* Skim milk or butterfat transferred in the form of a fluid milk product or a bulk fluid cream product from a pool plant to another pool plant shall be classified as Class I milk unless the operators of both

plants request the same classification in another class. In either case, the classification of such transfers shall be subject to the following conditions:

(1) The skim milk or butterfat classified in each class shall be limited to the amount of skim milk and butterfat, respectively, remaining in such class at the transferee-plant after the computations pursuant to § 1063.44(a)(12) and the corresponding step of § 1063.44(b);

(2) If the transferor-plant received during the month other source milk to be allocated pursuant to § 1063.44(a)(7) or the corresponding step of § 1063.44(b), the skim milk or butterfat so transferred shall be classified so as to allocate the least possible Class I utilization to such other source milk; and

(3) If the transferor-handler received during the month other source milk to be allocated pursuant to § 1063.44 (a) (11) or (12) or the corresponding steps of § 1063.44(b), the skim milk or butterfat so transferred, up to the total of the skim milk and butterfat, respectively, in such receipts of other source milk, shall not be classified as Class I milk to a greater extent than would be the case if the other source milk had been received at the transferee-plant.

(b) *Transfers and diversions to other order plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream product from a pool plant to an other order plant shall be classified in the following manner. Such classification shall apply only to the skim milk or butterfat that is in excess of any receipts at the pool plant from the other order plant of skim milk and butterfat, respectively, in fluid milk products and bulk fluid cream products, respectively, that are in the same category as described in paragraph (b) (1), (2), or (3) of this section:

(1) If transferred as packaged fluid milk products, classification shall be in the classes to which allocated as a fluid milk product under the other order;

(2) If transferred in bulk form, classification shall be in the classes to which allocated under the other order (including allocation under the conditions set forth in paragraph (b) (3) of this section);

(3) If the operators of both plants so request in their reports of receipts and utilization filed with their respective market administrators, transfers or diversions in bulk form shall be classified as Class II or Class III milk to the extent of such utilization available for such classification pursuant to the allocation provisions of the other order;

(4) If information concerning the classes to which such transfers or diversions were allocated under the other order is not available to the market administrator for the purpose of establishing classification under this paragraph, classification shall be as Class I, subject to adjustment when such information is available;

(5) For purposes of this paragraph, if the other order provides for a different number of classes of utilization than is provided for under this part, skim milk or butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I milk, and skim milk or butterfat allocated to the other classes shall be classified as Class III milk; and

(6) If the form in which any fluid milk product that is transferred to an other order plant is not defined as a fluid milk product under such other order, classification under this paragraph shall be in accordance with the provisions of § 1063.40.

(c) *Transfers to producer-handlers.* Skim milk or butterfat transferred in the following forms from a pool plant to a producer-handler under this or any other Federal order shall be classified:

(1) As Class I milk, if transferred in the form of a fluid milk product; and

(2) In accordance with the utilization assigned to it by the market administrator, if transferred in the form of a bulk fluid cream product. For this purpose, the producer-handler's utilization of skim milk and butterfat in each class, in series beginning with Class III, shall be assigned to the extent possible to his receipts of skim milk and butterfat, respectively, in bulk fluid cream products, pro rata to each source.

(d) *Transfers and diversions to other nonpool plants.* Skim milk or butterfat transferred or diverted in the following forms from a pool plant to a nonpool plant that is not an other order plant or a producer-handler plant shall be classified:

(1) As Class I milk, if transferred in the form of a packaged fluid milk product; and

(2) As Class I milk, if transferred or diverted in the form of a bulk fluid milk product or a bulk fluid cream product, unless the following conditions apply:

(i) If the conditions described in paragraph (d) (2) (i) (*a*) and (*b*) of this section are met, transfers or diversions in bulk form shall be classified on the basis of the assignment of the nonpool plant's utilization to its receipts as set forth in paragraph (d) (2) (ii) through (viii) of this section:

(*a*) The transferor-handler or divertor-handler claims such classification in his report of receipts and utilization filed pursuant to § 1063.30 for the month within which such transaction occurred; and

(*b*) The nonpool plant operator maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available for verification purposes if requested by the market administrator;

(ii) Route disposition of fluid milk products in the marketing area of each Federal milk order from the nonpool plant and transfers of packaged fluid milk products from such nonpool plant to plants fully regulated thereunder shall be assigned to the extent possible in the following sequence:

(*a*) Pro rata to receipts of packaged fluid milk products at such nonpool plant from pool plants;

(*b*) Pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from other order plants;

(*c*) Pro rata to receipts of bulk fluid milk products at such nonpool plant from pool plants; and

(*d*) Pro rata to any remaining unassigned receipts of bulk fluid milk products at such nonpool plant from other order plants;

(iii) Any remaining Class I disposition of packaged fluid milk products from the nonpool plant shall be assigned to the extent possible pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from pool plants and other order plants;

(iv) Transfers of bulk fluid milk products from the nonpool plant to a plant fully regulated under any Federal milk order, to the extent that such transfers to the regulated plant exceed receipts of fluid milk products from such plant and are allocated to Class I at the transferee-plant, shall be assigned to the extent possible in the following sequence:

(*a*) Pro rata to receipts of fluid milk products at such nonpool plant from pool plants; and

(*b*) Pro rata to any remaining unassigned receipts of fluid milk products at such nonpool plant from other order plants;

(v) Any remaining unassigned Class I disposition from the nonpool plant shall be assigned to the extent possible in the following sequence:

(*a*) To such nonpool plant's receipts from dairy farmers who the market administrator determines constitute regular sources of Grade A milk for such nonpool plant; and

(*b*) To such nonpool plant's receipts of Grade A milk from plants not fully regulated under any Federal milk order which the market administrator determines constitute regular sources of Grade A milk for such nonpool plant;

(vi) Any remaining unassigned receipts of bulk fluid milk products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class I utilization, then to Class III utilization, and then to Class II utilization at such nonpool plant;

(vii) Receipts of bulk fluid cream products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class III utilization, then to any remaining Class II utilization, and then to Class I utilization at such nonpool plant; and

(viii) In determining the nonpool plant's utilization for purposes of this subparagraph, any fluid milk products and bulk fluid cream products transferred from such nonpool plant to a plant not fully regulated under any Federal milk order shall be classified on the basis of the second plant's utilization using the same assignment priorities at the second

V 39 I 90 MAY 8 74 XUM

plant that are set forth in this subparagraph.

§ 1063.43 General classification rules.

In determining the classification of producer milk pursuant to § 1063.44, the following rules shall apply:

(a) Each month the market administrator shall correct for mathematical and other obvious errors all reports filed pursuant to § 1063.30 and shall compute separately for each pool plant and for each cooperative association with respect to milk for which it is the handler pursuant to § 1063.9(b) the pounds of skim milk and butterfat, respectively, in each class in accordance with §§ 1063.40, 1063.41, and 1063.42;

(b) If any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk in such product that are to be considered under this part as used or disposed of by the handler shall be an amount equivalent to the nonfat milk solids contained in such product plus all of the water originally associated with such solids; and

(c) The classification of producer milk for which a cooperative association is the handler pursuant to § 1063.9(b) shall be determined separately from the operations of any pool plant operated by such cooperative association.

§ 1063.44 Classification of producer milk.

For each month the market administrator shall determine the classification of producer milk of each handler described in § 1063.9(a) for each of his pool plants separately and of each handler described in § 1063.9(b) by allocating the handler's receipts of skim milk and butterfat to his utilization as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk in shrinkage specified in § 1063.41(b);

(2) Subtract from the total pounds of skim milk in Class I the pounds of skim milk in receipts of packaged fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in fluid milk products received in packaged form from an other order plant, except that to be subtracted pursuant to paragraph (a)(7)(vi) of this section, as follows:

(i) From Class III milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(4) Subtract from the pounds of skim milk in Class II the pounds of skim milk in products specified in § 1063.40(b)(1) that were received in packaged form from other plants, but not in excess of the pounds of skim milk remaining in Class II;

(5) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in products specified in § 1063.40(b)(1) that were in inventory at the beginning of the month in packaged form, but not in excess of the pounds of skim milk remaining in Class II. This subparagraph shall apply only if the pool plant was subject to the provisions of this subparagraph or comparable provisions of another Federal milk order in the immediately preceding month;

(6) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in other source milk (except that received in the form of a fluid milk product or a fluid cream product) that is used to produce, or added to, any product specified in § 1063.40(b), but not in excess of the pounds of skim milk remaining in Class II;

(7) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk (except that received in the form of a fluid milk product) and, if paragraph (a)(5) of this section applies, packaged inventory at the beginning of the month of products specified in § 1063.40(b)(1) that was not subtracted pursuant to paragraph (a)(4), (5), and (6) of this section;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established;

(iii) Receipts of fluid milk products from unidentified sources;

(iv) Receipts of fluid milk products from a producer-handler as defined under this or any other Federal milk order;

(v) Receipts of reconstituted skim milk in filled milk from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) of this section; and

(vi) Receipts of reconstituted skim milk in filled milk from an other order plant that is regulated under any Federal milk order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor-plant;

(8) Subtract in the order specified below from the pounds of skim milk remaining in Class II and Class III, in sequence beginning with Class III:

(i) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) and (7)(v) of this section for which the handler requests a classification other than Class I, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(ii) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (7)(v), and (8)(i) of this section which are in excess of the pounds of skim milk determined pursuant to paragraph (a)(8)(ii)(a) through (c) of this section. Should the pounds of skim milk to be subtracted from Class II and Class III combined exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount:

(*a*) Multiply by 1.25 the sum of the pounds of skim milk remaining in Class I at this allocation step at all pool plants of the handler (excluding any duplication of Class I utilization resulting from reported Class I transfers between pool plants of the handler);

(*b*) Subtract from the above result the sum of the pounds of skim milk in receipts at all pool plants of the handler of producer milk, fluid milk products from pool plants of other handlers, and bulk fluid milk products from other order plants that were not subtracted pursuant to paragraph (a)(7)(vi) of this section; and

(*c*) Multiply any plus quantity resulting above by the percentage that the receipts of skim milk in fluid milk products from unregulated supply plants that remain at this pool plant is of all such receipts remaining at this allocation step at all pool plants of the handler; and

(iii) The pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) of this section, if Class II or Class III classification is requested by the operator of the other order plant and the handler, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(9) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in fluid milk products and products specified in § 1063.40(b)(1) in inventory at the beginning of the month that were not subtracted pursuant to paragraph (a)(5) and (7)(i) of this section;

(10) Add to the remaining pounds of skim milk in Class III the pounds of skim milk subtracted pursuant to paragraph (a)(1) of this section;

(11) Subject to the provisions of paragraph (a)(11)(i) and (ii) of this section, subtract from the pounds of skim milk remaining in each class at the plant, pro rata to the total pounds of skim milk remaining in Class I and in Class II and Class III combined at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler), with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, the pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (7)(v), and (8)(i) and (ii) of this section and that were not offset by transfers or diversions of fluid milk products to the same unregulated supply plant from which fluid milk products to be allocated at this step were received:

(i) Should the pounds of skim milk to be subtracted from Class II and Class III combined pursuant to this subparagraph exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(ii) Should the pounds of skim milk to be subtracted from Class I pursuant to this subparagraph exceed the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount, beginning with the nearest plant at which Class I utilization is available;

(12) Subtract in the manner specified below from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) and (8)(iii) of this section:

(i) Subject to the provisions of paragraph (a)(12)(ii), (iii), and (iv) of this section, such subtraction shall be pro rata to the pounds of skim milk in Class I and in Class II and Class III combined, with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, with respect to whichever of the following quantities represents the lower proportion of Class I milk:

(*a*) The estimated utilization of skim milk of all handlers in each class as announced for the month pursuant to § 1063.45(a); or

(*b*) The total pounds of skim milk remaining in each class at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler);

(ii) Should the proration pursuant to paragraph (a)(12)(i) of this section result in the total pounds of skim milk at all pool plants of the handler that are to be subtracted at this allocation step from Class II and Class III combined exceeding the pounds of skim milk remaining in Class II and Class III at all such plants, the pounds of such excess shall be subtracted from the pounds of skim milk remaining in Class I after such proration at the pool plants at which such other source milk was received;

(iii) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12)(i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class II and Class III combined that exceeds the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(iv) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12)(i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class I that exceeds the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount beginning with the nearest plant at which Class I utilization is available;

(13) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products and bulk fluid cream products from another pool plant according to the classification of such products pursuant to § 1063.42(a); and

(14) If the total pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class III. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) The quantity of producer milk in each class shall be the combined pounds of skim milk and butterfat remaining in each class after the computations pursuant to paragraph (a)(14) of this section and the corresponding step of paragraph (b) of this section.

§ 1063.45 Market administrator's reports and announcements concerning classification.

The market administrator shall make the following reports and announcements concerning classification:

(a) Whenever required for the purpose of allocating receipts from other order plants pursuant to § 1063.44(a)(12) and the corresponding step of § 1063.44(b), estimate and publicly announce the utilization (to the nearest whole percentage) in each class during the month of skim milk and butterfat, respectively, in producer milk of all handlers. Such estimate shall be based upon the most current available data and shall be final for such purpose.

(b) Report to the market administrator of the other order, as soon as possible after the report of receipts and utilization for the month is received from a handler who has received fluid milk products or bulk fluid cream products from an other order plant, the class to which such receipts are allocated pursuant to § 1063.44 on the basis of such report, and, thereafter, any change in such allocation required to correct errors disclosed in the verification of such report.

(c) Furnish to each handler operating a pool plant who has shipped fluid milk products or bulk fluid cream products to an other order plant the class to which such shipments were allocated by the market administrator of the other order on the basis of the report by the receiving handler, and, as necessary, any changes in such allocation arising from the verification of such report.

(d) On or before the 10th day after the end of each month, report to each cooperative association, which so requests, the percentage of milk caused to be delivered by the cooperative association or its members to the pool plant(s) of each handler during the month, which was utilized in each class. For the purpose of this report, the milk so delivered shall be allocated to each class for each handler in the same ratio as all producer milk received by such handler during the month.

Class Prices

§ 1063.50 Class prices.

Subject to the provisions of § 1063.52, the class prices for the month per hundredweight of milk containing 3.5 percent butterfat shall be as follows:

V 39 I 90
MAY 8 74
XUM

(a) *Class I price.* The Class I price shall be the basic formula price for the second preceding month plus $1.33.

(b) *Class II price.* The Class II price shall be the basic formula price for the month plus 10 cents.

(c) *Class III price.* The Class III price shall be the basic formula price for the month.

§ 1063.51 Basic formula price.

The "basic formula price" shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Minnesota and Wisconsin, as reported by the Department for the month, adjusted to a 3.5 percent butterfat basis and rounded to the nearest cent. For such adjustment, the butterfat differential (rounded to the nearest one-tenth cent) per one-tenth percent butterfat shall be 0.12 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92 score) bulk butter per pound at Chicago, as reported by the Department for the month. For the purpose of computing the Class I price, the resulting price shall be not less than $4.33.

§ 1063.52 Plant location adjustments for handlers.

(a) For milk received from producers at a pool plant and disposed of as Class I milk or assigned Class I location adjustment credit pursuant to paragraph (b) of this section, the price specified in § 1063.50(a) shall be adjusted as follows:

(1) At a plant in Dubuque and Jackson Counties, Iowa, and East Dubuque, Ill., subtract 10 cents;

(2) At a plant located outside the marketing area, north of U.S. Highway No. 80, and, except as provided in paragraph (a) (3) and (4) of this section, 70 miles or more, by the shortest hard-surfaced highway distance as determined by the market administrator, from the nearer of the City Hill, Rock Island, Ill., or the Post Office, West Liberty, Iowa, subtract 10 cents and subtract an additional 1.5 cents for each 10 miles or fraction thereof that such distance exceeds 80 miles;

(3) At a plant located in that Iowa territory beyond 70 miles from the nearer of the City Hall, Rock Island, Ill., or the Post Office, West Liberty, Iowa, and south of U.S. Highway No. 80, or within the Des Moines, Iowa, marketing area as specified in Part 1079, add any amount by which the price specified in § 1063.50(a) is exceeded by the applicable Class I price at the same location pursuant to Part 1079 regulating the handling of milk in the Des Moines, Iowa, marketing area; and

(4) At a plant located within the Central Illinois marketing area as specified in Part 1050, add any amount by which the price specified in § 1063.50(a) is exceeded by the applicable Class I price at the same location pursuant to Part 1050 regulating the handling of milk in the Central Illinois marketing area.

(b) For purposes of calculating such adjustments, transfers between pool plants shall be assigned Class I disposition at the tranferee-plant, in excess of the sum of receipts at such plant from producers, and the volume assigned as Class I to receipts from other order plants and unregulated supply plants, such assignment to be made first to transferor-plants having the same Class I price, next to transferor-plants having a higher Class I price, and then in sequence to the plants having a lower Class I price beginning with the plant at which the highest Class I price would apply.

(c) The Class I price applicable to other source milk shall be adjusted at the rates set forth in paragraph (a) of this section, except that the adjusted Class I price shall not be less than the Class III price.

§ 1063.53 Announcement of class prices.

The market administrator shall announce publicly on or before the fifth day of each month the Class I price for the following month and the Class II and Class III prices for the preceding month.

§ 1063.54 Equivalent price.

If for any reason a price or pricing constituent required by this part for computing class prices or for other purposes is not available as prescribed in this part, the market administrator shall use a price or pricing constituent determined by the Secretary to be equivalent to the price or pricing constituent that is required.

UNIFORM PRICE

§ 1063.60 Handler's value of milk for computing uniform price.

For the purpose of computing the uniform price, the market administrator shall determine for each month the value of milk of each handler with respect to each of his pool plants and of each handler described in § 1063.9(b) as follows:

(a) Multiply the pounds of producer milk in each class as determined pursuant to § 1063.44 by the applicable class prices and add the resulting amounts;

(b) Add the amounts obtained from multiplying the pounds of overage subtracted from each class pursuant to § 1063.44(a)(14) and the corresponding step of § 1063.44(b) by the respective class prices, as adjusted by the butterfat differential specified in § 1063.74, that are applicable at the location of the pool plant;

(c) Add the amount obtained from multiplying the difference between the Class III price for the preceding month and the Class I price applicable at the location of the pool plant or the Class II price, as the case may be, for the current month by the hundredweight of skim milk and butterfat subtracted from Class I and Class II pursuant to § 1063.44 (a)(9) and the corresponding step of § 1063.44(b);

(d) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the pool plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1063.44(a)(7) (i) through (iv) and the corresponding step of § 1063.44 (b), excluding receipts of bulk fluid cream products from an other order plant;

(e) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the transferor-plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1063.44(a)(7) (v) and (vi) and the corresponding step of § 1063.44 (b); and

(f) Add the amount obtained from multiplying the Class I price applicable at the location of the nearest unregulated supply plants from which an equivalent volume was received by the pounds of skim milk and butterfat subtracted from Class I pursuant to § 1063.44 (a)(11) and the corresponding step of § 1063.44(b), excluding such skim milk and butterfat in receipts of bulk fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order.

§ 1063.61 Computation of uniform price.

For each month the market administrator shall compute a uniform price for milk of 3.5 percent butterfat content f.o.b. Rock Island, Ill., as follows:

(a) Combine into one total the values computed pursuant to § 1063.60 for all handlers who made the reports prescribed in § 1063.30 for such month, except those in default of payments required pursuant to § 1063.71 for the preceding month;

(b) Add the aggregate of the values of minus location adjustments and subtract the aggregate of all plus location adjustments pursuant to § 1063.75;

(c) Add an amount equal to one-half of the unobligated cash balance in the producer-settlement fund;

(d) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(1) The total hundredweight of producer milk; and

(2) The total hundredweight for which a value is computed pursuant to § 1063.60(f); and

(e) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to paragraph (d) of this section. The result shall be known as the uniform price for milk received from producers.

§ 1063.62 Announcement of uniform price and butterfat differential.

The market administrator shall announce publicly on or before:

(a) The fifth day after the end of each month the butterfat differential for such month; and

(b) The 10th day after the end of each month the uniform price for such month.

PAYMENTS FOR MILK

§ 1063.70 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1063.71, 1063.76, and 1063.77 and out of which he shall make all payments to handlers pursuant to §§ 1063.72 and 1063.77.

§ 1063.71 Payments to the producer-settlement fund.

(a) On or before the 12th day after the end of the month, each handler shall pay to the market administrator the amount, if any, by which the amount specified in paragraph (a)(1) of this section exceeds the amount specified in paragraph (a)(2) of this section:

(1) The total value of milk of the handler for such month as determined pursuant to § 1063.60.

(2) The sum of:

(i) The value at the uniform price, as adjusted pursuant to § 1063.75, of such handler's receipts of producer milk; and

(ii) The value at the uniform price applicable at the location of the plant from which received of other source milk for which a value is computed pursuant to § 1063.60(f).

(b) On or before the 25th day after the end of the month each person who operated an other order plant that was regulated during such month under an order providing for individual-handler pooling shall pay to the market administrator an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk in route disposition from such plant in the marketing area which was allocated to Class I at such plant. If there is such route disposition from such plant in marketing areas regulated by two or more market-wide pool orders, the reconstituted skim milk allocated to Class I shall be prorated to each order according to such route disposition in each marketing area; and

(2) Compute the value of the reconstituted skim milk assigned in paragraph (b)(1) of this section to route disposition in this marketing area by multiplying the quantity of such skim milk by the difference between the Class I price under this part that is applicable at the location of the other order plant (but not to be less than the Class III price) and the Class III price.

§ 1063.72 Payments from the producer-settlement fund.

On or before the 14th day after the end of each month the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1063.71(a)(2) exceeds the amount computed pursuant to § 1063.71(a)(1): *Provided,* That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available. A handler who has not received the balance of such payments from the market administrator shall not be considered in violation of § 1063.73 if he reduces his payments to producers by not more than the amount of the reduction in payment from the producer-settlement fund.

§ 1063.73 Payments to producers and to cooperative associations.

Each handler shall make payment as follows:

(a) On or before the 17th day after the end of each month during which milk was received, to each producer for milk received from him and for which payment is not made pursuant to paragraph (b) of this section, at not less than the uniform price as adjusted pursuant to §§ 1063.74 and 1063.75.

(b) On or before the 15th day after the end of each month during which the milk was received, to a cooperative association for milk which it caused to be delivered to such handler from producers, if such cooperative association is authorized to collect such payments for its member producers and exercises such authority, an amount equal to the sum of the individual payments otherwise payable to such producers.

(c) On or before the 10th day after the end of the month, each handler shall pay to each cooperative association which is also a handler, for milk received from it not less than the value of such milk as classified pursuant to this part at the respective class prices, as adjusted by the butterfat differential specified in § 1063.74, that are applicable at the location of the receiving handler's pool plant.

§ 1063.74 Butterfat differential.

For milk containing more or less than 3.5 percent butterfat, the uniform price shall be increased or decreased, respectively, for each one-tenth percent butterfat variation from 3.5 percent by a butterfat differential, rounded to the nearest one-tenth cent, which shall be 0.115 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month.

§ 1063.75 Plant location adjustments for producers and on nonpool milk.

(a) The uniform price for producer milk pursuant to § 1063.61 received at a pool plant shall be adjusted according to the location of the pool plant, at the rates set forth in § 1063.52; and

(b) For purposes of computations pursuant to §§ 1063.71 and 1063.72 the uniform price shall be adjusted at the rates set forth in § 1063.52 applicable at the location of the nonpool plant from which the milk was received, except that the adjusted uniform price shall not be less than the Class III price.

§ 1063.76 Payments by handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant shall pay on or before the 25th day after the end of the month to the market administrator for the producer-settlement fund the amount computed pursuant to paragraph (a) of this section. If the handler submits pursuant to §§ 1063.30(b) and 1063.31(b) the information necessary for making the computations, such handler may elect to pay in lieu of such payment the amount computed pursuant to paragraph (b) of this section:

(a) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the pounds of route disposition of fluid milk products in the marketing area from the partially regulated distributing plant;

(2) Subtract the pounds of fluid milk products received at the partially regulated distributing plant:

(i) As Class I milk from pool plants and other order plants, except that subtracted under a similar provision of another Federal milk order; and

(ii) From another nonpool plant that is not an other order plant to the extent that an equivalent amount of fluid milk products disposed of to such nonpool plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract the pounds of reconstituted skim milk in route disposition of fluid milk products in the marketing area from the partially regulated distributing plant;

(4) Multiply the remaining pounds by the difference between the Class I price and the uniform price, both prices to be applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price); and

(5) Add the amount obtained from multiplying the pounds of reconstituted skim milk specified in paragraph (a)(3) of this section by the difference between the Class I price applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price) and the Class III price.

(b) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the value that would have been computed pursuant to § 1063.60 for the partially regulated distributing plant if the plant had been a pool plant, subject to the following modifications:

(i) Fluid milk products and bulk fluid cream products received at the partially regulated distributing plant from a pool plant or an other order plant shall be allocated at the partially regulated distributing plant to the same class in which

V 39 I 90
MAY 8 74
XUM

such products were classified at the fully regulated plant;

(ii) Fluid milk products and bulk fluid cream products transferred from the partially regulated distributing plant to a pool plant or an other order plant shall be classified at the partially regulated distributing plant in the class to which allocated at the fully regulated plant. Such transfers shall be allocated to the extent possible to those receipts at the partially regulated distributing plant from pool plants and other order plants that are classified in the corresponding class pursuant to paragraph (b)(1)(i) of this section. Any such transfers remaining after the above allocation which are classified in Class I and for which a value is computed for the handler operating the partially regulated distributing plant pursuant to § 1063.60 shall be priced at the uniform price (or at the weighted average price if such is provided) of the respective order regulating the handling of milk at the transferee-plant, with such uniform price adjusted to the location of the nonpool plant (but not to be less than the lowest class price of the respective order), except that transfers of reconstituted skim milk in filled milk shall be priced at the lowest class price of the respective order; and

(iii) If the operator of the partially regulated distributing plant so requests, the value of milk determined pursuant to § 1063.60 for such handler shall include, in lieu of the value of other source milk specified in § 1063.60(f) less the value of such other source milk specified in § 1063.71(a)(2)(ii), a value of milk determined pursuant to § 1063.60 for each nonpool plant that is not an other order plant which serves as a supply plant for such partially regulated distributing plant by making shipments to the partially regulated distributing plant during the month equivalent to the requirements of § 1063.7(b) subject to the following conditions:

(*a*) The operator of the partially regulated distributing plant submits with his reports filed pursuant to §§ 1063.30(b) and 1063.31(b) similar reports for each such nonpool supply plant;

(*b*) The operator of such nonpool supply plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for verification purposes; and

(*c*) The value of milk determined pursuant to § 1063.60 for such nonpool supply plant shall be determined in the same manner prescribed for computing the obligation of such partially regulated distributing plant; and

(2) From the partially regulated distributing plant's value of milk computed pursuant to paragraph (b)(1) of this section, subtract:

(i) The gross payments by the operator of such partially regulated distributing plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1063.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated;

(ii) If paragraph (b)(1)(iii) of this section applies, the gross payments by the operator of such nonpool supply plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1063.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated; and

(iii) The payments by the operator of the partially regulated distributing plant to the producer-settlement fund of another order under which such plant is also a partially regulated distributing plant and like payments by the operator of the nonpool supply plant if paragraph (b)(1)(iii) of this section applies.

§ 1063.77 Adjustment of accounts.

Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses errors resulting in moneys due (a) the market administrator from such handler, (b) such handler from the market administrator, or (c) any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payment set forth in the provisions under which such error occurred.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

§ 1063.85 Assessment for order administration.

As his pro rata share of the expense of administration of the order, each handler shall pay to the market administrator on or before the 15th day after the end of the month 3 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to: (a) Producer milk, (b) other source milk allocated to Class I pursuant to § 1063.44(a)(7) and (11) and the corresponding steps of § 1063.44(b), except such other source milk that is excluded from the computations pursuant to § 1063.60(d) and (f), and (c) Class I milk disposed of from a partially regulated distributing plant on routes in the marketing area that exceeds the skim milk and butterfat subtracted pursuant to § 1063.76(a)(2).

§ 1063.86 Deduction for marketing services.

(a) Except as set forth in paragraph (b) of this section, each handler in making payments to each producer pursuant to § 1063.73, shall deduct 6 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to all milk received by such handler from such producer (except such handler's own farm production), during the month, and shall pay such deductions to the market administrator not later than the 15th day after the end of the month. Such money shall be used by the market administrator to verify or establish weights, samples, and tests of milk received by handlers from such producers during the month and to provide such producers with market information.

(b) In the case of producers for whom a cooperative association is actually performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall make in lieu of the deductions specified in paragraph (a) of this section, such deductions as are authorized by such producers and, on or before the 15th day after the end of each month, pay over such deductions to the association rendering such services.

PART 1064—MILK IN THE GREATER KANSAS CITY MARKETING AREA

Subpart—Order Regulating Handling

GENERAL PROVISIONS

Sec.
1064.1 General provisions.

DEFINITIONS

1064.2 Greater Kansas City marketing area.
1064.3 Route disposition.
1064.4 [Reserved]
1064.5 Distributing plant.
1064.6 Supply plant.
1064.7 Pool plant.
1064.8 Nonpool plant.
1064.9 Handler.
1064.10 Producer-handler.
1064.11 [Reserved]
1064.12 Producer.
1064.13 Producer milk.
1064.14 Other source milk.
1064.15 Fluid milk product.
1064.16 Fluid cream product.
1064.17 Filled milk.
1064.18 Cooperative association.

HANDLER REPORTS

1064.30 Reports of receipts and utilization.
1064.31 Payroll reports.
1064.32 Other reports.

CLASSIFICATION OF MILK

1064.40 Classes of utilization.
1064.41 Shrinkage.
1064.42 Classification of transfers and diversions.
1064.43 General classification rules.
1064.44 Classification of producer milk.
1064.45 Market administrator's reports and announcements concerning classification.

CLASS PRICES

1064.50 Class prices.
1064.51 Basic formula price.
1064.52 Plant location adjustments for handlers.
1064.53 Announcement of class prices.
1064.54 Equivalent price.

UNIFORM PRICES

1064.60 Handler's value of milk for computing uniform price.
1064.61 Computation of uniform price (including weighted average price and base and excess prices).
1064.62 Announcement of uniform prices and butterfat differential.

PAYMENTS FOR MILK

1064.70 Producer-settlement fund.
1064.71 Payments to the producer-settlement fund.
1064.72 Payments from the producer-settlement fund.
1064.73 Payments to producers and to cooperative associations.
1064.74 Butterfat differential.
1064.75 Plant location adjustments for producers and on nonpool milk.
1064.76 Payments by handler operating a partially regulated distributing plant.
1064.77 Adjustment of accounts.
1064.78 Charges on overdue accounts.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

1064.85 Assessment for order administration.
1064.86 Deduction for marketing services.

BASE-EXCESS PLAN

1064.90 Base milk and excess milk.
1064.91 Computation of daily base for each producer.
1064.92 Daily base rules.
1064.93 Announcement of bases.

ADVERTISING AND PROMOTION PROGRAM

1064.110 Agency.
1064.111 Composition of Agency.
1064.112 Term of office.
1064.113 Selection of Agency members.
1064.114 Agency operating procedure.

1064.120 Procedure for requesting refunds.
1064.121 Duties of the market administrator.
1064.122 Liquidation.

AUTHORITY: Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674).

Subpart—Order Regulating Handling

GENERAL PROVISIONS

§ 1064.1 General provisions.

The terms, definitions, and provisions in Part 1000 of this chapter are hereby incorporated by reference and made a part of this order.

DEFINITIONS

§ 1064.2 Greater Kansas City marketing area.

"Greater Kansas City marketing area," hereinafter called "marketing area," means all the territory within the boundaries of the counties listed below, including territory within such boundaries occupied by government (municipal, State, or Federal) reservations, installations, institutions, or other similar establishments:

MISSOURI COUNTIES

Andrew.
Atchison.
Bates.
Buchanan.
Cass.
Clay.
Clinton.
Daviess.
De Kalb.
Gentry.
Henry.
Holt.
Jackson.
Johnson.
Lafayette.
Nodaway.
Pettis.
Platte.
St. Clair.
Worth.

KANSAS COUNTIES

Atchison.
Brown.
Clay.

Marshall.
Miami.
Morris.
Nemaha.
Ottawa.
Pottawatomie.
Republic.
Riley.
Saline.
Shawnee.
Wabaunsee.
Washington.
Wyandotte.

§ 1064.3 Route disposition.

"Route disposition" means a delivery (either direct or through a distributing facility such as a distribution point, a plant store, a vendor, or vending machine), other than a delivery to a pool plant or a nonpool plant, of a fluid milk product classified as Class I milk.

§ 1064.4 [Reserved]

§ 1064.5 Distributing plant.

"Distributing plant" means a plant from which during the month there is route disposition in the marketing area of Grade A fluid milk products that are processed or packaged in such plant.

§ 1064.6 Supply plant.

"Supply plant" means a plant from which a Grade A fluid milk product is shipped during the month to a pool plant.

§ 1064.7 Pool plant.

Except as provided in paragraph (d) of this section, "pool plant" means:

(a) A distributing plant from which during the month or the immediately preceding month there is:

(1) Route disposition, except filled milk, in the marketing area that is not less than 15 percent of the total Grade A fluid milk products, except filled milk, received at such plant, including producer milk diverted to other plants pursuant to § 1064.13 by the handler operating such plant; and

(2) Route disposition, except filled milk, that is not less than the following percentage of the total Grade A fluid milk products, except filled milk, received at such plant, including producer milk diverted to other plants pursuant to § 1064.13 by the handler operating such plant: *Provided*, That the combined receipts and disposition of each handler who operates more than one distributing plant, each of which meets the performance requirements of paragraph (a)(1) of this section, shall be used in determining the percentages specified in this subparagraph:

(i) April through June, 35 percent;

(ii) September and October, 50 percent; and

(iii) All other months, 45 percent.

(b) A supply plant from which during the month 50 percent or more of the Grade A milk received at such plant from dairy farmers (including receipts from handler described in § 1064.9(c), except receipts of milk diverted pusuant to § 1064.13) is disposed of as fluid milk products (except filled milk) in one or both of the following ways: (1) Shipped to and received at pool distributing plants, or (2) as a route disposition sale in the marketing area. A supply plant which is a pool plant under this paragraph during each month of September through January shall be pooled for the following months of February through August, if the required percentage pursuant to this paragraph is not met, unless the plant operator files written request with the market administrator that such plant not be a pool plant, such nonpool status to be effective the first month following such request and thereafter until the plant qualifies as a pool plant on the basis of shipments.

(c) A supply plant operated by a cooperative association in any month in which the member producer milk of such cooperative association received at pool distributing plants during the current month, or immediately preceding 12-month period ending with the current month, either by transfer from such supply plant or directly from member producers' farms, is 50 percent or more of such cooperative's total member producer milk. Such direct deliveries from member producers' farms shall be considered as having been received first at the plant of such cooperative association for the purpose of determining the qualification of such plant as a pool plant pursuant to this paragraph. If two or more cooperative associations desire to qualify a supply plant operated by one of the associations as a pool plant on the basis of their combined deliveries to pool distributing plants and have filed a written request to this effect with the market administrator on or before the first day of the month the agreement is effective, such a supply plant shall be a pool plant during the month if the above specified percentage of the total member producer milk of such cooperative associations was received at pool distributing plants during the current month, or the immediately preceding 12-month period ending with the current month.

(d) The term "pool plant" shall not apply to the following plants:

(1) A producer-handler plant;

(2) A distributing plant or supply plant operated by a State educational institution;

(3) A plant from which there is route disposition in the marketing area of less than an average of 600 pounds per day;

(4) A distributing plant qualified pursuant to paragraph (a) of this section which also meets the pooling requirements of another Federal order and from which during the month a greater volume of fluid milk products, except filled milk, was disposed of as route disposition in such other marketing area and to pool plants qualified on the basis of route disposition in such other marketing area than was so disposed of in this marketing area except that if such plant was subject to all the provisions of this part in the immediately preceding month, it

V 39 I 90 MAY 8 74 XUM

shall continue to be subject to all the provisions of this part until the third consecutive month in which a greater proportion of its fluid product disposition, except filled milk, is made in the above described manner in such other marketing area, unless, notwithstanding the provisions of this subparagraph, it is regulated under such other order;

(5) A distributing plant qualified pursuant to paragraph (a) of this section which also meets the pooling requirements of another Federal order and from which during the month a greater volume of fluid milk products, except filled milk, was disposed of as route disposition in this marketing area and to pool plants qualified on the basis of route disposition in this marketing area than was so disposed of in such other Federal order marketing area but which plant is, nevertheless, fully regulated under such other Federal order;

(6) A supply plant meeting the pooling requirements of paragraph (b) of this section which also meets the pooling requirements of another Federal order, and which has greater direct marketing area route disposition, except filled milk, and qualifying shipments to plants regulated under such other order than are made under this order, unless during any month of February through August automatic pool plant status for such plant is retained under this part for such month; and

(7) A supply plant which would be subject to the classification and pricing provisions of another order issued pursuant to the Act, unless such plant also qualified as a pool plant pursuant to paragraph (c) of this section.

§ 1064.8 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing, or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant (except the plant of a handler pursuant to § 1064.9(h), an other order plant, or a producer-handler plant) from which there is route disposition in consumer-type packages or dispenser units in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant which is not an other order plant, a producer-handler plant, or a plant of a handler pursuant to § 1064.9(h) from which a fluid milk product is shipped during the month to a pool plant.

§ 1064.9 Handler.

"Handler" means:

(a) Any person in his capacity as the operator of a pool plant;

(b) Any cooperative association with respect to producer milk which it causes to be diverted pursuant to § 1064.13 for the account of such cooperative association;

(c) Any cooperative association with respect to the milk of its producers which is received by the cooperative from the farm for delivery to the pool plant of another handler in a tank truck owned or operated by or under contract to such cooperative association if the cooperative association, prior to delivery, notifies the market administrator in writing that it will be the handler for the milk. Such milk shall be considered to have been received at the location of the pool plant to which delivery is made;

(d) Any person who operates a partially regulated distributing plant;

(e) A producer-handler;

(f) Any person who operates an other order plant that is either a distributing plant or a supply plant;

(g) Any person who operates an unregulated supply plant; and

(h) A State educational institution which operates either a nonpool distributing plant or supply plant.

§ 1064.10 Producer-handler.

"Producer-handler" means a person who operates both a dairy farm and a distributing plant at which each of the following conditions is met during the month:

(a) Milk is received from the dairy farm of such person but from no other dairy farm;

(b) The butterfat or skim milk disposed of in the form of a fluid milk product does not exceed the butterfat or skim milk, respectively, received in the form of milk from the dairy farm of such person and in the form of a fluid milk product from pool plants of other handlers; and

(c) Such person shall furnish proof satisfactory to the market administrator that the care and management of the dairy animals and other resources necessary for the production of milk in his name and the operation of the processing and packaging business are the personal enterprise and risk of such person.

§ 1064.11 [Reserved]

§ 1064.12 Producer.

(a) Except as provided in paragraph (b) of this section, "producer" means any person who produces milk in compliance with Grade A inspection requirements of a duly constituted health authority, which milk is received at a pool plant or diverted pursuant to § 1064.13.

(b) "Producer" shall not include:

(1) A producer-handler as defined in any order (including this part) issued pursuant to the Act or a handler pursuant to § 1064.9(h);

(2) Any person with respect to milk produced by him which is diverted to a pool plant from an other order plant if the other order designates such person as a producer under that order and such milk is allocated to Class II or Class III utilization pursuant to § 1064.44(a)(8)(iii) and the corresponding step of § 1064.44(b); and

(3) Any person with respect to milk produced by him which is reported as diverted to an other order plant if any portion of such person's milk so moved is assigned to Class I under the provisions of such other order.

§ 1064.13 Producer milk.

"Producer milk" means the skim milk and butterfat contained in Grade A milk of a producer which is:

(a) Received at a pool plant directly from a producer or a handler described in § 1064.9(c);

(b) Received by a handler described in § 1064.9(c) from producers in excess of the quantity delivered to pool plants; or

(c) Diverted, subject to the following conditions, from a pool plant to a pool supply plant or to a nonpool plant that is not a producer-handler plant. "Diverted milk" is milk normally received at a pool distributing plant but which is moved directly from a dairy farm to a nonpool plant as specified in this paragraph or to a pool supply plant for the account of a handler operating a pool distributing plant or a handler described in § 1064.9(b). Such milk shall be deemed to have been received by the diverting handler at the location of the pool plant from which diverted except that milk diverted to a plant located more than 125 miles by the shortest highway distance as determined by the market administrator from the nearest of the City Halls of Kansas City, Mo., or Topeka, Kans., shall be deemed to have been received at the location of the plant to which diverted in applying §§ 1064.52 and 1064.75:

(1) A handler described in § 1064.9(b) may divert for its account the milk of any member producer whose milk is received at a pool distributing plant for at least 1 day's delivery during the month, without limit during the other days of the month. The total quantity of milk so diverted may not exceed the larger of the following amounts:

(i) The total quantity of its member producer milk received at all pool distributing plants during the current month, or

(ii) The average daily quantity of its member producer milk received at pool distributing plants during the previous month, multiplied by the number of days in the current month.

(2) A handler operating a pool distributing plant may divert for his account the milk of any producer, other than a member of a cooperative association which has diverted milk pursuant to paragraph (c)(1) of this section, whose milk is received at his pool distributing plant for at least 1 day's delivery during the month, without limit during the other days of the month. However, the total quantity of milk so diverted may not exceed the larger of the following amounts:

(i) The total quantity of milk received at such plant during the current month from producers who are not members of a cooperative association that has diverted milk pursuant to paragraph (c)(1) of this section; or

(ii) The average daily quantity of milk received at such plant during the previous month from producers who are not members of a cooperative association that has diverted milk in the current month pursuant to paragraph (c)(1) of this section, multiplied by the number of days in the current month.

(3) Diversions in excess of the applicable percentages pursuant to paragraph (c)(1) and (2) of this section shall first be assigned to diversions to nonpool plants and any excess quantity assigned to nonpool plants shall not be producer milk and shall not be deemed to have been received by the diverting handler. The diverting handler shall specify the dairy farmers whose milk shall not be included as producer milk pursuant to this subparagraph. Excess diversions to a pool supply plant shall be producer milk at the supply plant in applying §§ 1064.7, 1064.52, and 1064.75.

§ 1064.14 Other source milk.

"Other source milk" means all skim milk and butterfat contained in or represented by:

(a) Receipts of fluid milk products and bulk products specified in § 1064.40(b)(1) from any source other than producers, handlers described in § 1064.9(c), or pool plants;

(b) Receipts in packaged form from other plants of products specified in § 1064.40(b)(1);

(c) Products (other than fluid milk products, products specified in § 1064.40(b)(1), and products produced at the plant during the same month) from any source which are reprocessed, converted into, or combined with another product in the plant during the month; and

(d) Receipts of any milk product (other than a fluid milk product or a product specified in § 1064.40(b)(1)) for which the handler fails to establish a disposition.

§ 1064.15 Fluid milk product.

(a) Except as provided in paragraph (b) of this section, "fluid milk product" means any of the following products in fluid or frozen form:

(1) Milk, skim milk, lowfat milk, milk drinks, buttermilk, filled milk, and milkshake and ice milk mixes containing less than 20 percent total solids, including any such products that are flavored, cultured, modified with added nonfat milk solids, concentrated (if in a consumer-type package), or reconstituted; and

(2) Any milk product not specified in paragraph (a)(1) of this section or in § 1064.40 (b) or (c)(1) (i) through (v) if it contains by weight at least 80 percent water and 6.5 percent nonfat milk solids and less than 9 percent butterfat and 20 percent total solids.

(b) The term "fluid milk product" shall not include:

(1) Evaporated or condensed milk (plain or sweetened), evaporated or condensed skim milk (plain or sweetened), formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers, any product that contains by weight less than 6.5 percent nonfat milk solids, and whey; and

(2) The quantity of skim milk in any modified product specified in paragraph (a) of this section that is in excess of the quantity of skim milk in an equal volume of an unmodified product of the same nature and butterfat content.

§ 1064.16 Fluid cream product.

"Fluid cream product" means cream (other than plastic cream or frozen cream), sour cream, or a mixture (including a cultured mixture) of cream and milk or skim milk containing 9 percent or more butterfat, with or without the addition of other ingredients.

§ 1064.17 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted, or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers, or flavoring) resembles milk or any other fluid milk product, and contains less than 6 percent nonmilk fat (or oil).

§ 1064.18 Cooperative association.

"Cooperative association" means any cooperative marketing association of producers which the Secretary determines after application by the association:

(a) To be qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and is engaged in making collective sales of or marketing milk or milk products for its members.

HANDLER REPORTS

§ 1064.30 Reports of receipts and utilization.

On or before the seventh day after the end of each month, each handler shall report for such month to the market administrator, in the detail and on the forms prescribed by the market administrator, as follows:

(a) Each handler, with respect to each of his pool plants, shall report the quantities of skim milk and butterfat contained in or represented by:

(1) Receipts of producer milk, including producer milk diverted by the handler from the pool plant to other plants;

(2) Receipts of milk from handlers described in § 1064.9(c);

(3) Receipts of fluid milk products and bulk fluid cream products from other pool plants;

(4) Receipts of other source milk;

(5) Inventories at the beginning and end of the month of fluid milk products and products specified in § 1064.40(b)(1); and

(6) The utilization or disposition of all milk, filled milk, and milk products required to be reported pursuant to this paragraph.

(b) Each handler operating a partially regulated distributing plant shall report with respect to such plant in the same manner as prescribed for reports required by paragraph (a) of this section. Receipts of milk that would have been producer milk if the plant had been fully regulated shall be reported in lieu of producer milk. Such report shall show also the quantity of any reconstituted skim milk in route disposition in the marketing area.

(c) Each handler described in § 1064.9(b) and (c) shall report:

(1) The quantities of all skim milk and butterfat contained in receipts of milk from producers; and

(2) The utilization or disposition of all such receipts.

(d) Each handler not specified in paragraphs (a) through (c) of this section shall report with respect to his receipts and utilization of milk, filled milk, and milk products in such manner as the market administrator may prescribe.

§ 1064.31 Payroll reports.

(a) On or before the 23d day after the end of each month, each handler described in § 1064.9 (a), (b), and (c) shall report to the market administrator his producer payroll for such month, in the detail prescribed by the market administrator, showing for each producer:

(1) His name and address;

(2) The total pounds of milk received from such producer;

(3) The average butterfat content of such milk; and

(4) The price per hundredweight, the gross amount due, the amount and nature of any deductions, and the net amount paid.

(b) Each handler operating a partially regulated distributing plant who elects to make payment pursuant to § 1064.76(b) shall report for each dairy farmer who would have been a producer if the plant had been fully regulated in the same manner as prescribed for reports required by paragraph (a) of this section.

§ 1064.32 Other reports.

In addition to the reports required pursuant to §§ 1064.30 and 1064.31, the following shall be reported to the market administrator:

(a) On or before the seventh day after the end of each month with respect to receipts at each plant of milk from each producer, each handler described in § 1064.9 (a) and (b) shall report the average butterfat test, the pounds of butterfat contained therein, the number of days on which milk was received from such producer and for each of the months of February through July, the pounds of base and excess milk received from each producer;

(b) On or before the seventh day after the end of each month of February through July, each handler described in § 1064.9(c) shall report the quantities of

V 39 190
MAY 8 74
XUM

skim milk and butterfat in producer milk for which it is the handler that is base milk and excess milk; and

(c) Each handler shall report such other information as the market administrator deems necessary to verify or establish such handler's obligation under the order.

CLASSIFICATION OF MILK

§ 1064.40 Classes of utilization.

Except as provided in § 1064.42, all skim milk and butterfat required to be reported by a handler pursuant to § 1064.30 shall be classified as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid milk product, except as otherwise provided in paragraphs (b) and (c) of this section; and

(2) Not specifically accounted for as Class II or Class III milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid cream product, eggnog, yogurt, and any product containing 6 percent or more nonmilk fat (or oil) that resembles a fluid cream product, eggnog, or yogurt, except as otherwise provided in paragraph (c) of this section;

(2) In packaged inventory at the end of the month of the products specified in paragraph (b) (1) of this section;

(3) In bulk fluid milk products and bulk fluid cream products disposed of to any commercial food processing establishment (other than a milk or filled milk plant) at which food products (other than milk products and filled milk) are processed and from which there is no disposition of fluid milk products or fluid cream products other than those received in consumer-type packages; and

(4) Used to produce:

(i) Cottage cheese, lowfat cottage cheese, and dry curd cottage cheese;

(ii) Milkshake and ice milk mixes (or bases) containing 20 percent or more total solids, frozen desserts, and frozen dessert mixes;

(iii) Any concentrated milk product in bulk, fluid form other than that specified in paragraph (c) (1) (iv) of this section;

(iv) Plastic cream, frozen cream, and anhydrous milkfat;

(v) Custards, puddings, and pancake mixes; and

(vi) Formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers.

(c) *Class III milk.* Class III milk shall be all skim milk and butterfat:

(1) Used to produce:

(i) Cheese (other than cottage cheese, lowfat cottage cheese, and dry curd cottage cheese);

(ii) Butter;

(iii) Any milk product in dry form;

(iv) Any concentrated milk product in bulk, fluid form that is used to produce a Class III product;

(v) Evaporated or condensed milk (plain or sweetened) in a consumer-type package and evaporated or condensed skim milk (plain or sweetened) in a consumer-type package; and

(vi) Any product not otherwise specified in this section;

(2) In inventory at the end of the month of fluid milk products in bulk or packaged form and products specified in paragraph (b) (1) of this section in bulk form;

(3) In fluid milk products and products specified in paragraph (b) (1) of this section that are disposed of by a handler for animal feed;

(4) In fluid milk products and products specified in paragraph (b) (1) of this section that are dumped by a handler if the market administrator is notified of such dumping in advance and is given the opportunity to verify such disposition;

(5) In skim milk in any modified fluid milk product that is in excess of the quantity of skim milk in such product that was included within the fluid milk product definition pursuant to § 1064.15; and

(6) In shrinkage assigned pursuant to § 1064.41(a) to the receipts specified in § 1064.41(a)(2) and in shrinkage specified in § 1064.41 (b) and (c).

§ 1064.41 Shrinkage.

For purposes of classifying all skim milk and butterfat to be reported by a handler pursuant to § 1064.30, the market administrator shall determine the following:

(a) The pro rata assignment of shrinkage of skim milk and butterfat, respectively, at each pool plant to the respective quantities of skim milk and butterfat:

(1) In the receipts specified in paragraph (b) (1) through (6) of this section on which shrinkage is allowed pursuant to such paragraph; and

(2) In other source milk not specified in paragraph (b) (1) through (6) of this section which was received in the form of a bulk fluid milk product or a bulk fluid cream product;

(b) The shrinkage of skim milk and butterfat, respectively, assigned pursuant to paragraph (a) of this section to the receipts specified in paragraph (a) (1) of this section that is not in excess of:

(1) Two percent of the skim milk and butterfat, respectively, in producer milk (excluding milk diverted by the plant operator to another plant and milk received from a handler described in § 1064.9(c));

(2) Plus 1.5 percent of the skim milk and butterfat, respectively, in milk received from a handler described in § 1064.9(c) and in milk diverted to such plant from another pool plant, except that, in either case, if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be 2 percent;

(3) Plus 0.5 percent of the skim milk and butterfat, respectively, in producer milk diverted from such plant by the plant operator to another plant, except that if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be zero;

(4) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other pool plants;

(5) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other order plants, excluding the quantity for which Class II or Class III classification is requested by the operators of both plants;

(6) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received from unregulated supply plants, excluding the quantity for which Class II or Class III classification is requested by the handler; and

(7) Less 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products transferred to other plants that is not in excess of the respective amounts of skim milk and butterfat to which percentages are applied in paragraph (b) (1), (2), (4), (5), and (6) of this section; and

(c) The quantity of skim milk and butterfat, respectively, in shrinkage of milk from producers for which a cooperative association is the handler pursuant to § 1064.9 (b) or (c), but not in excess of 0.5 percent of the skim milk and butterfat, respectively, in such milk. If the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this paragraph for the cooperative association shall be zero.

§ 1064.42 Classification of transfers and diversions.

(a) *Transfers and diversions to pool plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream product from a pool plant to another pool plant (to a pool supply plant, in the case of diversion) shall be classified as Class I milk unless the operators of both plants request the same classification in another class. In either case, the classification of such transfers or diversions shall be subject to the following conditions:

(1) The skim milk or butterfat classified in each class shall be limited to the amount of skim milk and butterfat, respectively, remaining in such class at the transferee-plant or divertee-plant after the computations pursuant to § 1064.44 (a)(12) and the corresponding step of § 1064.44(b);

(2) If the transferor-plant or diverter-plant received during the month other source milk to be allocated pursuant to § 1064.44(a)(7) or the corresponding step of § 1064.44(b), the skim milk or butterfat so transferred or diverted shall be classified so as to allocate the least possible Class I utilization to such other source milk; and

(3) If the transferor-handler or diverter-handler received during the month other source milk to be allocated pursuant to § 1064.44(a) (11) or (12) or the corresponding steps of § 1064.44(b), the skim milk or butterfat so transferred or diverted, up to the total of the skim milk and butterfat, respectively, in such receipts of other source milk, shall not be classified as Class I milk to a greater extent than would be the case if the other source milk had been received at the transferee-plant or divertee-plant.

(b) *Transfers and diversions to other order plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream product from a pool plant to an other order plant shall be classified in the following manner. Such classification shall apply only to the skim milk or butterfat that is in excess of any receipts at the pool plant from the other order plant of skim milk and butterfat, respectively, in fluid milk products and bulk fluid cream products, respectively, that are in the same category as described in paragraph (b) (1), (2), or (3) of this section:

(1) If transferred as packaged fluid milk products, classification shall be in the classes to which allocated as a fluid milk product under the other order;

(2) If transferred in bulk form, classification shall be in the classes to which allocated under the other order (including allocation under the conditions set forth in paragraph (b) (3) of this section);

(3) If the operators of both plants so request in their reports of receipts and utilization filed with their respective market administrators; transfers or diversions in bulk form shall be classified as Class II or Class III milk to the extent of such utilization available for such classification pursuant to the allocation provisions of the other order;

(4) If information concerning the classes to which such transfers or diversions were allocated under the other order is not available to the market administrator for the purpose of establishing classification under this paragraph, classification shall be as Class I, subject to adjustment when such information is available;

(5) For purposes of this paragraph, if the other order provides for a different number of classes of utilization than is provided for under this part, skim milk or butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I milk, and skim milk or butterfat allocated to the other classes shall be classified as Class III milk; and

(6) If the form in which any fluid milk product that is transferred to an other order plant is not defined as a fluid milk product under such other order, classification under this paragraph shall be in accordance with the provisions of § 1064.40.

(c) *Transfers to producer-handlers and transfers and diversions to a State educational institution plant.* Skim milk or butterfat in the following forms that is transferred from a pool plant to a producer-handler under this or any other Federal order or transferred or diverted from a pool plant to a plant of a handler described in § 1064.9(h) shall be classified:

(1) As Class I milk, if so moved in the form of a fluid milk product, except that if a handler described in § 1064.9(h) certifies that the fluid milk product is acquired for use in Class II or Class III products for research or educational purposes, such fluid milk product shall be classified in the applicable lower class; and

(2) In accordance with the utilization assigned to it by the market administrator, if transferred in the form of a bulk fluid cream product. For this purpose, the transferee's utilization of skim milk and butterfat in each class, in series beginning with Class III, shall be assigned to the extent possible to his receipts of skim milk and butterfat, respectively, in bulk fluid cream products, pro rata to each source.

(d) *Transfers and diversions to other nonpool plants.* Skim milk or butterfat transferred or diverted in the following forms from a pool plant to a nonpool plant that is not an other order plant, a producer-handler plant, or a plant of a handler pursuant to § 1064.9(h) shall be classified:

(1) As Class I milk, if transferred in the form of a packaged fluid milk product; and

(2) As Class I milk, if transferred or diverted in the form of a bulk fluid milk product or a bulk fluid cream product, unless the following conditions apply:

(i) If the conditions described in paragraph (d)(2)(i) (*a*) and (*b*) of this section are met, transfers or diversions in bulk form shall be classified on the basis of the assignment of the nonpool plant's utilization to its receipts as set forth in paragraph (d)(2) (ii) through (viii) of this section:

(*a*) The transferor-handler or diverter-handler claims such classification in his report of receipts and utilization filed pursuant to § 1064.30 for the month within which such transaction occurred; and

(*b*) The nonpool plant operator maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available for verification purposes if requested by the market administrator;

(ii) Route disposition in the marketing area of each Federal milk order from the nonpool plant and transfers of packaged fluid milk products from such nonpool plant to plants fully regulated thereunder shall be assigned to the extent possible in the following sequence:

(*a*) Pro rata to receipts of packaged fluid milk products at such nonpool plant from pool plants;

(*b*) Pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from other order plants;

(c) Pro rata to receipts of bulk fluid milk products at such nonpool plant from pool plants; and

(*d*) Pro rata to any remaining unassigned receipts of bulk fluid milk products at such nonpool plant from other order plants;

(iii) Any remaining Class I disposition of package fluid milk products from the nonpool plant shall be assigned to the extent possible pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from pool plants and other order plants;

(iv) Transfers of bulk fluid milk products from the nonpool plant to a plant fully regulated under any Federal milk order, to the extent that such transfers to the regulated plant exceed receipts of fluid milk products from such plant and are allocated to Class I at the transferee-plant, shall be assigned to the extent possible in the following sequence:

(*a*) Pro rata to receipts of fluid milk products at such nonpool plant from pool plants; and

(*b*) Pro rata to any remaining unassigned receipts of fluid milk products at such nonpool plant from other order plants;

(v) Any remaining unassigned Class I disposition from the nonpool plant shall be assigned to the extent possible in the following sequence:

(*a*) To such nonpool plant's receipts from dairy farmers who the market administrator determines constitute regular sources of Grade A milk for such nonpool plant; and

(*b*) To such nonpool plant's receipts of Grade A milk from plants not fully regulated under any Federal milk order which the market administrator determines constitute regular sources of Grade A milk for such nonpool plant;

(vi) Any remaining unassigned receipts of bulk fluid milk products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class I utilization, then to Class III utilization, and then to Class II utilization at such nonpool plant;

(vii) Receipts of bulk fluid cream products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class III utilization, then to any remaining Class II utilization, and then to Class I utilization at such nonpool plant; and

(viii) In determining the nonpool plant's utilization for purposes of this subparagraph, any fluid milk products and bulk fluid cream products transferred from such nonpool plant to a plant not fully regulated under any Federal milk order shall be classified on the basis of the second plant's utilization using the same assignment priorities at the second plant that are set forth in this subparagraph.

V 39 I 90 MAY 8 74 XUM

§ 1064.43 General classification rules.

In determining the classification of producer milk pursuant to § 1064.44, the following rules shall apply:

(a) Each month the market administrator shall correct for mathematical and other obvious errors all reports filed pursuant to § 1064.30 and shall compute separately for each pool plant and for each cooperative association with respect to milk for which it is the handler pursuant to § 1064.9 (b) or (c) the pounds of skim milk and butterfat, respectively, in each class in accordance with §§ 1064.40, 1064.41, and 1064.42;

(b) If any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk in such product that are to be considered under this part as used or disposed of by the handler shall be an amount equivalent to the nonfat milk solids contained in such product plus all of the water originally associated with such solids; and

(c) The classification of producer milk for which a cooperative association is the handler pursuant to § 1064.9 (b) or (c) shall be determined separately from the operations of any pool plant operated by such cooperative association.

§ 1064.44 Classification of producer milk.

For each month the market administrator shall determine the classification of producer milk of each handler described in § 1064.9(a) for each of his pool plants separately and of each handler described in § 1064.9 (b) and (c) by allocating the handler's receipts of skim milk and butterfat to his utilization as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk in shrinkage specified in § 1064.41(b);

(2) Subtract from the total pounds of skim milk in Class I the pounds of skim milk in receipts of packaged fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in fluid milk products received in packaged form from an other order plant, except that to be subtracted pursuant to paragraph (a)(7)(vi) of this section, as follows:

(i) From Class III milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(4) Subtract from the pounds of skim milk in Class II the pounds of skim milk in products specified in § 1064.40(b)(1) that were received in packaged form from other plants, but not in excess of the pounds of skim milk remaining in Class II;

(5) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in products specified in § 1064.40(b)(1) that were in inventory at the beginning of the month in packaged form, but not in excess of the pounds of skim milk remaining in Class II. This subparagraph shall apply only if the pool plant was subject to the provisions of this subparagraph or comparable provisions of another Federal milk order in the immediately preceding month;

(6) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in other source milk (except that received in the form of a fluid milk product or a fluid cream product) that is used to produce, or added to, any product specified in § 1064.40(b), but not in excess of the pounds of skim milk remaining in Class II;

(7) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk (except that received in the form of a fluid milk product) and, if paragraph (a)(5) of this section applies, packaged inventory at the beginning of the month of products specified in § 1064.40(b)(1) that was not subtracted pursuant to paragraph (a) (4), (5), and (6) of this section;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established;

(iii) Receipts of fluid milk products from unidentified sources;

(iv) Receipts of fluid milk products from a producer-handler as defined under this or any other Federal milk order and from a handler described in § 1064.9(h);

(v) Receipts of reconstituted skim milk in filled milk from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) of this section; and

(vi) Receipts of reconstituted skim milk in filled milk from an other order plant that is regulated under any Federal milk order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor-plant;

(8) Subtract in the order specified below from the pounds of skim milk remaining in Class II and Class III, in sequence beginning with Class III:

(i) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) and (7)(v) of this section for which the handler requests a classification other than Class I, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(ii) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (7)(v), and (8)(i) of this section which are in excess of the pounds of skim milk determined pursuant to paragraph (a)(8)(ii) (a) through (c) of this section. Should the pounds of skim milk to be subtracted from Class II and Class III combined exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount:

(a) Multiply by 1.25 the sum of the pounds of skim milk remaining in Class I at this allocation step at all pool plants of the handler (excluding any duplication of Class I utilization resulting from reported Class I transfers between pool plants of the handler);

(b) Subtract from the above result the sum of the pounds of skim milk in receipts at all pool plants of the handler of producer milk, fluid milk products from pool plants of other handlers, and bulk fluid milk products from other order plants that were not subtracted pursuant to paragraph (a)(7)(vi) of this section; and

(c) Multiply any plus quantity resulting above by the percentage that the receipts of skim milk in fluid milk products from unregulated supply plants that remain at this pool plant is of all such receipts remaining at this allocation step at all pool plants of the handler; and

(iii) The pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) of this section, if Class II or Class III classification is requested by the operator of the other order plant and the handler, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(9) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in fluid milk products and products specified in § 1064.40(b)(1) in inventory at the beginning of the month that were not subtracted pursuant to paragraph (a)(5) and (7)(i) of this section;

(10) Add to the remaining pounds of skim milk in Class III the pounds of skim milk subtracted pursuant to paragraph (a)(1) of this section;

(11) Subject to the provisions of paragraph (a)(11) (i) and (ii) of this section, subtract from the pounds of skim milk remaining in each class at the plant, pro rata to the total pounds of skim milk remaining in Class I and in Class II and

Class III combined at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler), with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, the pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (7)(v), and (8)(i) and (ii) of this section and that were not offset by transfers or diversions of fluid milk products to the same unregulated supply plant from which fluid milk products to be allocated at this step were received:

(i) Should the pounds of skim milk to be subtracted from Class II and Class III combined pursuant to this subparagraph exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(ii) Should the pounds of skim milk to be subtracted from Class I pursuant to this subparagraph exceed the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount, beginning with the nearest plant at which Class I utilization is available;

(12) Subtract in the manner specified below from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) and (8)(iii) of this section:

(i) Subject to the provisions of paragraph (a)(12)(ii), (iii), and (iv) of this section, such subtraction shall be pro rata to the pounds of skim milk in Class I and in Class II and Class III combined, with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, with respect to whichever of the following quantities represents the lower proportion of Class I milk:

(a) The estimated utilization of skim milk of all handlers in each class as announced for the month pursuant to § 1064.45(a); or

(b) The total pounds of skim milk remaining in each class at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler);

(ii) Should the proration pursuant to paragraph (a)(12)(i) of this section result in the total pounds of skim milk at all pool plants of the handler that are to be subtracted at this allocation step from Class II and Class III combined exceeding the pounds of skim milk remaining in Class II and Class III at all such plants, the pounds of such excess shall be subtracted from the pounds of skim milk remaining in Class I after such proration at the pool plants at which such other source milk was received;

(iii) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12)(i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class II and Class III combined that exceeds the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(iv) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12) (i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class I that exceeds the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount beginning with the nearest plant at which Class I utilization is available;

(13) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products and bulk fluid cream products from another pool plant according to the classification of such products pursuant to § 1064.42(a); and

(14) If the total pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class III. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) The quantity of producer milk in each class shall be the combined pounds of skim milk and butterfat remaining in each class after the computations pursuant to paragraph (a)(14) of this section and the corresponding step of paragraph (b) of this section.

§ 1064.45 Market administrator's reports and announcements concerning classification.

The market administrator shall make the following reports and announcements concerning classification:

(a) Whenever required for the purpose of allocating receipts from other order plants pursuant to § 1064.44(a)(12) and the corresponding step of § 1064.44(b), estimate and publicly announce the utilization (to the nearest whole percentage) in each class during the month of skim milk and butterfat, respectively, in producer milk of all handlers. Such estimate shall be based upon the most current available data and shall be final for such purpose.

(b) Report to the market administrator of the other order, as soon as possible after the report of receipts and utilization for the month is received from a handler who has received fluid milk products or bulk fluid cream products from an other order plant, the class to which such receipts are allocated pursuant to § 1064.44 on the basis of such report, and, thereafter, any change in such allocation required to correct errors disclosed in the verification of such report.

(c) Furnish to each handler operating a pool plant who has shipped fluid milk products or bulk fluid cream products to an other order plant the class to which such shipments were allocated by the market administrator of the other order on the basis of the report by the receiving handler, and, as necessary, any changes in such allocation arising from the verification of such report.

(d) On or before the 14th day after the end of each month, report to each cooperative association which so requests the amount and class utilization of milk received by each handler from such cooperative association in its capacity as a handler described in § 1064.9(c) and directly from members of such cooperative association. For the purpose of this report, the milk so received shall be prorated to each class in proportion to the utilization by such handler in each class remaining after the allocation pursuant to § 1064.44(a) (1) through (13) and the corresponding steps of § 1064.44(b).

CLASS PRICES

§ 1064.50 Class prices.

Subject to the provisions of § 1064.52, the class prices for the month per hun-

V 39 I 90 MAY 8 74 XUM

dredweight of milk containing 3.5 percent butterfat shall be as follows:

(a) *Class I price.* The Class I price shall be the basic formula price for the second preceding month plus $1.74.

(b) *Class II price.* The Class II price shall be the basic formula price for the month plus 10 cents.

(c) *Class III price.* The Class III price shall be the basic formula price for the month.

§ 1064.51 Basic formula price.

The "basic formula price" shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Minnesota and Wisconsin, as reported by the Department for the month, adjusted to a 3.5 percent butterfat basis and rounded to the nearest cent. For such adjustment, the butterfat differential (rounded to the nearest one-tenth cent) per one-tenth percent butterfat shall be 0.12 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month. For the purpose of computing the Class I price, the resulting price shall be not less than $4.33.

§ 1064.52 Plant location adjustments for handlers.

(a) For milk received from producers at a pool plant located outside the marketing area and more than 50 miles but not more than 70 miles by shortest highway distance as measured by the market administrator, from the nearer of the City Halls in Kansas City, Mo., or Topeka, Kans., which is classified as Class I milk or assigned Class I location adjustment credit pursuant to paragraph (b) of this section, the price computed pursuant to § 1064.50(a) shall be reduced by 10 cents, and by an additional 1.5 cents for each 10 miles or fraction thereof that such plant is more than 70 miles from such City Hall.

(b) For purposes of calculating such adjustment, bulk transfers between pool plants shall be assigned to the Class I disposition at the transferee-plant prorated with the sum of receipts at such plant of producer milk and the pounds assigned as Class I to receipts from other order plants and unregulated supply plants.

(c) The Class I price applicable to other source milk shall be adjusted at the rates set forth in paragraph (a) of this section, except that the adjusted Class I price shall not be less than the Class III price.

§ 1064.53 Announcement of class prices.

The market administrator shall announce publicly on or before the fifth day of each month the Class I price for the following month and the Class II and Class III prices for the preceding month.

§ 1064.54 Equivalent price.

If for any reason a price or pricing constituent required by this part for computing class prices or for other purposes is not available as prescribed in this part, the market administrator shall use a price or pricing constituent determined by the Secretary to be equivalent to the price or pricing constituent that is required.

UNIFORM PRICES

§ 1064.60 Handler's value of milk for computing uniform price.

For the purpose of computing the uniform price, the market administrator shall determine for each month the value of milk of each handler with respect to each of his pool plants and of each handler described in § 1064.9 (b) and (c) as follows:

(a) Multiply the pounds of producer milk in each class as determined pursuant to § 1064.44 by the applicable class prices and add the resulting amounts;

(b) Add the amounts obtained from multiplying the pounds of overage subtracted from each class pursuant to § 1064.44(a)(14) and the corresponding step of § 1064.44(b) by the respective class prices, as adjusted by the butterfat differential specified in § 1064.74, that are applicable at the location of the pool plant;

(c) Add the amount obtained from multiplying the difference between the Class III price for the preceding month and the Class I price applicable at the location of the pool plant or the Class II price, as the case may be, for the current month by the hundredweight of skim milk and butterfat subtracted from Class I and Class II pursuant to § 1064.44(a)(9) and the corresponding step of § 1064.44(b);

(d) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the pool plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1064.44(a)(7)(i) through (iv) and the corresponding step of § 1064.44(b), excluding receipts of bulk fluid cream products from an other order plant;

(e) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the transferor-plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1064.44(a)(7)(v) and (vi) and the corresponding step of § 1064.44(b); and

(f) Add the amount obtained from multiplying the Class I price applicable at the location of the nearest unregulated supply plants from which an equivalent volume was received by the pounds of skim milk and butterfat subtracted from Class I pursuant to § 1064.44(a)(11) and the corresponding step of § 1064.44(b), excluding such skim milk and butterfat in receipts of bulk fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order.

§ 1064.61 Computation of uniform price (including weighted average price and base and excess prices).

(a) For each month the market administrator shall compute the "uniform price" per hundredweight of milk of 3.5 percent butterfat content received from producers (or "weighted average price") as follows:

(1) Combine into one total the values computed pursuant to § 1064.60 for all handlers who filed the reports prescribed by § 1064.30 for the month and who made the payments pursuant to §§ 1064.71 and 1064.73 for the preceding month;

(2) Add an amount equal to the total value of the location adjustments computed pursuant to § 1064.75;

(3) Add an amount equal to not less than one-half of the unobligated balance in the producer-settlement fund;

(4) Subtract an amount computed by multiplying the total hundredweight of producer milk included pursuant to paragraph (a)(1) of this section by 5 cents;

(5) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(i) The total hundredweight of producer milk; and

(ii) The total hundredweight for which a value is computed pursuant to § 1064.60(f); and

(6) Subtract not less than 4 cents nor more than 5 cents per hundredweight. The result shall be the "weighted average price" and for the months of August through January shall be the "uniform price" for milk received from producers.

(b) For each month of February through July, the market administrator shall compute the uniform prices per hundredweight for base milk and for excess milk as follows:

(1) Subtract from the amount resulting from the computations made pursuant to paragraph (a)(1) through (4) of this section an amount computed by multiplying the weighted average price plus 5 cents times the hundredweight of milk specified in paragraph (a)(5)(ii) of this section;

(2) Determine the value of excess milk by multiplying the hundredweight of producer milk determined to be excess milk in series beginning with Class III by the respective class prices minus 5 cents and adding together the resulting amounts;

(3) Divide the total value of excess milk obtained in paragraph (b)(2) of this section by the total hundredweight of such milk and adjust to the nearest cent. The resulting figure shall be the uniform price for excess milk of 3.5 percent butterfat content received from producers;

(4) Subtract the value of excess milk obtained in paragraph (b)(2) of this section from the aggregate value of milk obtained in paragraph (b)(1) of this section and adjust by any amount involved in adjusting the uniform price of excess milk to the nearest cent;

(5) Divide the amount obtained in paragraph (b)(4) of this section by the total hundredweight of producer milk determined to be base milk; and

(6) Subtract not less than 4 cents nor more than 5 cents from the amount computed pursuant to paragraph (b)(5) of this section. The resulting figure shall be the uniform price for base milk of 3.5 percent butterfat content received from producers.

§ 1064.62 Announcement of uniform prices and butterfat differential.

The market administrator shall announce publicly on or before:

(a) The fifth day after the end of each month the butterfat differential for such month; and

(b) The 12th day after the end of each month the uniform prices for such month.

PAYMENTS FOR MILK

§ 1064.70 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all funds received pursuant to paragraph (a) of this section and out of which he shall make all payments required pursuant to paragraph (b) of this section.

(a) Payments made by handlers pursuant to §§ 1064.71, 1064.76, and 1064.77.

(b) Payments due handlers pursuant to §§ 1064.72 and 1064.77: *Provided,* That payments due any handler shall be offset by payments due from such handler pursuant to §§ 1064.71, 1064.76, 1064.77, 1064.85, and 1064.86.

§ 1064.71 Payments to the producer-settlement fund.

(a) On or before the 14th day after the end of the month, each handler shall pay to the market administrator the amount, if any, by which the amount specified in paragraph (a)(1) of this section exceeds the amount specified in paragraph (a)(2) of this section:

(1) The total value of milk of the handler for such month as determined pursuant to § 1064.60.

(2) The sum of:

(i) The amount required to be paid producers (including payments to producers through cooperative associations) pursuant to § 1064.73 before adjustment for butterfat content and before deductions authorized by the producer or cooperative association or for marketing services pursuant to § 1064.86; and

(ii) The value at the weighted average price applicable at the location of the plant from which received plus 5 cents of other source milk for which a value is computed pursuant to § 1064.60(f).

(b) During each month of February through July each handler pursuant to § 1064.9(c), on or before the 14th day after the end of the month, shall pay to the market administrator the amount, if any, by which the amount specified in paragraph (b)(1) of this section exceeds the amount specified in paragraph (b)(2) of this section:

(1) The total value of such association's member producer milk at the applicable weighted average price computed pursuant to § 1064.61; and

(2) The total value of such association's member producer base and excess milk at the applicable uniform base and excess prices computed pursuant to § 1064.61.

(c) On or before the 25th day after the end of the month each person who operated an other order plant that was regulated during such month under an order providing for individual-handler pooling shall pay to the market administrator an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk in route disposition from such plant in the marketing area which was allocated to Class I at such plant. If there is such route disposition from such plant in marketing areas regulated by two or more market-wide pool orders, the reconstituted skim milk allocated to Class I shall be prorated to each order according to such route disposition in each marketing area; and

(2) Compute the value of the reconstituted skim milk assigned in paragraph (c)(1) of this section to route disposition in this marketing area by multiplying the quantity of such skim milk by the difference between the Class I price under this part that is applicable at the location of the other order plant (but not to be less than the Class III price) and the Class III price.

§ 1064.72 Payments from the producer-settlement fund.

On or before the 14th day after the end of each month the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1064.71 (a)(2) or (b)(2) exceeds the amount computed pursuant to § 1064.71 (a)(1) or (b)(1). If at such time the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payment and shall complete such payments as soon as the necessary funds are available.

§ 1064.73 Payments to producers and to cooperative associations.

Each handler shall make payment as follows:

(a) On or before the 15th day after the end of each month during which the milk was received, to each producer for whom payment is not made pursuant to paragraph (c) or (d) of this section, at not less than the applicable uniform price(s) pursuant to § 1064.61, adjusted by the butterfat differential computed pursuant to § 1064.74 and the location adjustment to producers pursuant to § 1064.75, and less the following amounts: (1) the payments made pursuant to paragraph (b) of this section, (2) deductions for marketing services made pursuant to § 1064.86, and (3) any deductions authorized by the producer: *Provided,* That if by such date such handler has not received full payment for such month pursuant to § 1064.72 he may reduce his total payment to all producers uniformly by not less than the amount of reduction in payment from the market administrator; the handler shall, however, complete such payments not later than the date for making such payments pursuant to this paragraph next following receipt of the balance from the market administrator.

(b) On or before the 25th day of each month to each producer (1) for whom payment is not received from the handler by a cooperative association pursuant to paragraphs (c) and (d) of this section; and (2) who had not discontinued shipping milk to such handler before the 18th day of the month, a partial payment with respect to milk received from such producer during the first 15 days of the month at the approximate value of such milk, not to be less than the Class III price for the preceding month, without deduction for hauling.

(c) To a cooperative association which has filed a written request for such payment with such handler and with respect to producers for whose milk the market administrator determines such cooperative association is authorized to collect payment as follows:

(1) On or before the 20th day of the month, an amount equal to not less than the sum of the individual payments otherwise payable to producers pursuant to paragraph (b) of this section less any deductions authorized in writing by such cooperative association; and

(2) On or before the 14th day after the end of each month an amount equal to not less than the sum of the individual payments otherwise payable to producers pursuant to paragraph (a) of this section, less proper deductions authorized in writing by such cooperative association.

(d) To a cooperative association with respect to milk for which such association is acting in the capacity of a handler pursuant to § 1064.9(c):

(1) On or before the 20th day of the month an amount equal to the rate specified in paragraph (b) of this section times the volume received during the first 15 days of the month; and

(2) On or before the 14th day after the end of each month an amount equal to not less than the value of such milk at the applicable weighted average or uniform price pursuant to § 1064.61(a), as adjusted pursuant to §§ 1064.74 and 1064.75, less payment made pursuant to paragraph (d)(1) of this section.

(e) In making payments to producers pursuant to paragraph (a) of this section, each handler shall furnish each producer with a supporting statement in such form that it may be retained by the producer, which shall show:

(1) The month and the identity of the handler and of the producer;

(2) The pounds per shipment, the total pounds, and the average butterfat test of milk delivered by the producer;

(3) The minimum rate or rates at which payment to the producer is re-

V 39 90
MAY 8 74
XUM

quired under the provisions of §§ 1064.73, 1064.74, and 1064.75;

(4) The rate which is used in making payment, if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight of each deduction claimed by the handler, including any deduction claimed under paragraph (b) of this section and § 1064.86 together with a description of the respective deductions; and

(6) The net amount of payment to the producer.

(f) Each handler who receives milk from producers, payment for which is to be made to a cooperative association pursuant to paragraph (c) of this section, shall report to such cooperative association with respect to each such producer, on forms approved by the market administrator, as follows:

(1) On or before the 23d day of the month, the total pounds of milk received during the first 15 days of the month; and

(2) On or before the seventh day after the end of the month:

(i) The pounds per shipment, the total pounds of milk and the average butterfat test of milk received from such producer during the month;

(ii) The amount or rate and nature of any deductions; and

(iii) The amount of any payments due such producer pursuant to § 1064.77.

§ 1064.74 Butterfat differential.

For milk containing more or less than 3.5 percent butterfat, the uniform prices shall be increased or decreased, respectively, for each one-tenth percent butterfat variation from 3.5 percent by a butterfat differential, rounded to the nearest one-tenth cent, which shall be 0.115 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month.

§ 1064.75 Plant location adjustments for producers and on nonpool milk.

(a) The uniform price pursuant to § 1064.61(a) and the uniform price for base milk pursuant to § 1064.61(b) for producer milk received at a pool plant or diverted from a pool plant shall be reduced according to the location of the pool plant at the rate set forth in § 1064.52, subject to § 1064.13(c).

(b) For purposes of computations pursuant to §§ 1064.71 and 1064.72 the weighted average price shall be adjusted at the rates set forth in § 1064.52 applicable at the location of the nonpool plant from which the milk was received, except that the adjusted weighted average price plus 5 cents shall not be less than the Class III price.

§ 1064.76 Payments by handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant, except a plant described in § 1064.7(d)(3), shall pay on or before the 25th day after the end of the month to the market administrator for the producer-settlement fund the amount computed pursuant to paragraph (a) of this section. If the handler submits pursuant to §§ 1064.30(b) and 1064.31(b) the information necessary for making the computations, such handler may elect to pay in lieu of such payment the amount computed pursuant to paragraph (b) of this section:

(a) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the pounds of route disposition in the marketing area from the partially regulated distributing plant;

(2) Subtract the pounds of fluid milk products received at the partially regulated distributing plant:

(i) As Class I milk from pool plants and other order plants, except that subtracted under a similar provision of another Federal milk order; and

(ii) From another nonpool plant that is not an other order plant to the extent that an equivalent amount of fluid milk products disposed of to such nonpool plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract the pounds of reconstituted skim milk in route disposition in the marketing area from the partially regulated distributing plant;

(4) Multiply the remaining pounds by the difference between the Class I price and the weighted average price plus 5 cents, both prices to be applicable at the location of the partially regulated distributing plant (except that the Class I price and the weighted average price plus 5 cents shall not be less than the Class III price); and

(5) Add the amount obtained from multiplying the pounds of reconstituted skim milk specified in paragraph (a)(3) of this section by the difference between the Class I price applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price) and the Class III price.

(b) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the value that would have been computed pursuant to § 1064.60 for the partially regulated distributing plant if the plant had been a pool plant, subject to the following modifications:

(i) Fluid milk products and bulk fluid cream products received at the partially regulated distributing plant from a pool plant or an other order plant shall be allocated at the partially regulated distributing plant to the same class in which such products were classified at the fully regulated plant;

(ii) Fluid milk products and bulk fluid cream products transferred from the partially regulated distributing plant to a pool plant or an other order plant shall be classified at the partially regulated distributing plant in the class to which allocated at the fully regulated plant. Such transfers shall be allocated to the extent possible to those receipts at the partially regulated distributing plant from pool plants and other order plants that are classified in the corresponding class pursuant to paragraph (b)(1)(i) of this section. Any such transfers remaining after the above allocation which are classified in Class I and for which a value is computed for the handler operating the partially regulated distributing plant pursuant to § 1064.60 shall be priced at the uniform price (or at the weighted average price if such is provided) of the respective order regulating the handling of milk at the transferee-plant, with such uniform price adjusted to the location of the nonpool plant (but not to be less than the lowest class price of the respective order), except that transfers of reconstituted skim milk in filled milk shall be priced at the lowest class price of the respective order; and

(iii) If the operator of the partially regulated distributing plant so requests, the value of milk determined pursuant to § 1064.60 for such handler shall include, in lieu of the value of other source milk specified in § 1064.60(f) less the value of such other source milk specified in § 1064.71(a)(2)(ii), a value of milk determined pursuant to § 1064.60 for each nonpool plant that is not an other order plant which serves as a supply plant for such partially regulated distributing plant by making shipments to the partially regulated distributing plant during the month equivalent to the requirements of § 1064.7(b), subject to the following conditions:

(a) The operator of the partially regulated distributing plant submits with his reports filed pursuant to §§ 1064.30(b) and 1064.31(b) similar reports for each such nonpool supply plant;

(b) The operator of such nonpool supply plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for verification purposes; and

(c) The value of milk determined pursuant to § 1064.60 for such nonpool supply plant shall be determined in the same manner prescribed for computing the obligation of such partially regulated distributing plant; and

(2) From the partially regulated distributing plant's value of milk computed pursuant to paragraph (b)(1) of this section, subtract:

(i) The gross payments by the operator of such partially regulated distributing plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1064.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated;

(ii) If paragraph (b)(1)(iii) of this section applies, the gross payments by the operator of such nonpool supply plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1064.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated; and

(iii) The payments by the operator of the partially regulated distributing plant to the producer-settlement fund of another order under which such plant is also a partially regulated distributing plant and like payments by the operator of the nonpool supply plant if paragraph (b)(1)(iii) of this section applies.

§ 1064.77 Adjustment of accounts.

Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses errors resulting in moneys due the market administrator or any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of the amount due and payment therefor shall be made within 5 days if such amount is due the market administrator, or on or before the next date for making payments to producers or a cooperative association, if such amount is due them. Whenever such audit discloses errors resulting in moneys due such handler from the market administrator, payment shall be made within 5 days.

§ 1064.78 Charges on overdue accounts.

Any unpaid obligation of a handler pursuant to §§ 1064.71, 1064.73, 1064.77, 1064.85, and 1064.86 shall be increased one-half of 1 percent on the first day of the month next following the due date of such obligation and on the first day of each month thereafter until such obligation is paid.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

§ 1064.85 Assessment for order administration.

As his pro rata share of the expense of administration of the order, each handler shall pay to the market administrator on or before the 12th day after the end of the month 3 cents per hundredweight, or such lesser amount as the Secretary may prescribe, of:

(a) Producer milk (including such handler's own production);

(b) Other source milk allocated to Class I pursuant to § 1064.44(a)(7) and (11) and the corresponding steps of § 1064.44(b), except such other source milk that is excluded from the computations pursuant to § 1064.60(d) and (f); and

(c) Class I milk disposed of from a partially regulated distributing plant (except from a plant described in § 1064.7(d)(3)) as route disposition in the marketing area that exceeds the skim milk and butterfat subtracted pursuant to § 1064.76(a)(2).

§ 1064.86 Deduction for marketing services.

(a) *Deductions.* Except as set forth in paragraph (b) of this section, each handler in making payments to producers other than himself pursuant to § 1064.73(a), shall deduct 6 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to all milk received by such handler from producers during the month, and shall pay such deductions to the market administrator on or before the 12th day after the end of such month. Such moneys shall be used by the market administrator to verify weights, samples, and tests of milk received from and to provide market information to such producers.

(b) *Deductions with respect to members of a cooperative association.* In the case of producers for whom a cooperative association is actually performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall, in lieu of the deductions specified in paragraph (a) of this section, make such deductions from the payments to be made directly to producers pursuant to § 1064.73(a), as are authorized by such producers, and on or before the 12th day after the end of each month, pay over such deductions to the association of which such producers are members, accompanied by a statement showing the amount of the deduction and the quantity of milk for which it was computed for each such producer.

BASE-EXCESS PLAN

§ 1064.90 Base milk and excess milk.

(a) "Base milk" means that producer milk received by a handler from a producer in each month of February through July that is not in excess of such producer's daily base computed pursuant to § 1064.91 multiplied by the number of days of production in the month that such milk was received by the handler.

(b) "Excess milk" means that producer milk received by a handler from a producer in each month of February through July that is in excess of base milk received from such producer in such month and shall include all milk received from a producer for whom no daily base can be computed pursuant to § 1064.91.

§ 1064.91 Computation of daily base for each producer.

The daily base for each producer applicable during each month of February through July, inclusive, shall be determined by the market administrator as follows: Divide the total pounds of milk received by a handler at a pool plant from such producer during the immediately preceding months of September through December by the number of days during such period on which milk was received from such producer or by 90 whichever is greater. In the case of producers delivering milk to a plant which first became a pool plant during or after the end of the base-forming period, the daily average base for each producer at such plant shall be that which would have been calculated for such producers for the entire base-forming period if the handler's plant had been a pool plant during such period.

§ 1064.92 Daily base rules.

(a) Except as provided in paragraph (b) of this section, a daily base shall apply only to milk produced by the producer in whose name such milk was delivered to the handler(s) during the base-forming period.

(b) A producer may transfer his daily base during the period of February through July by notifying the market administrator in writing before the last day of any delivery period that such base is to be transferred to the person named in such notice but under the following conditions only:

(1) In the event of the death or entry into military service of a producer, the entire daily base may be transferred to a member of such producer's immediate family who carries on the dairy operation on the same farm; and

(2) If a base is held jointly and such joint holding is terminated on the basis of written notice to the market administrator from the joint holders the entire daily base may be transferred to one of the joint holders, or divided in accordance with such notice between the former joint holders if they continue dairy operations.

§ 1064.93 Announcement of bases.

On or before February 1 of each year the market administrator shall notify in writing each producer who made deliveries of milk during the previous September through December and the handler receiving milk from such producer of the daily base established by such producer.

ADVERTISING AND PROMOTION PROGRAM

§ 1064.110 Agency.

"Agency" means an agency organized by producers and producers' cooperative associations in such form and with methods of operation specified in this part, which is authorized to expend funds made available pursuant to § 1064.121(b)(1), on approval by the Secretary, for the purposes of establishing or providing for establishment of research and development projects, advertising (excluding brand advertising), sales promotion, educational, and other programs, designed to improve or promote the domestic marketing and consumption of milk and its products. Members of the Agency shall serve without compensation but shall be reimbursed for reasonable expenses incurred in the performance of duties as members of the Agency.

§ 1064.111 Composition of Agency.

Subject to the conditions of paragraph (a) of this section, each cooperative association or combination of cooperative associations, as provided for under § 1064.113(b), is authorized one agency representative for each full 5 percent of the participating member producers (producers who have not requested refunds for the most recent quarter) it represents. Cooperative associations with less than 5 percent of the total participating producers that have elected not to combine pursuant to § 1064.113(b), and participating producers who are not members of cooperatives, are authorized to select from such group of participating producers, in total, pursuant to § 1064.113

V 39 I 90 MAY 8 74 XUM

(c), one Agency representative for each full 5 percent that such producers constitute of the total participating producers. If such group of producers in total constitutes less than 5 percent but not less than 1 percent of the total participating producers, it shall nevertheless be authorized to select from such group in total one agency representative. For the purpose of the agency's initial organization, all persons defined as producers shall be considered as participating producers.

(a) If any cooperative association or combination of cooperative associations, as provided for under § 1064.113(b), has a majority of the participating producers, representation from such cooperative or group of cooperatives, as the case may be, shall be limited to the minimum number of representatives necessary to constitute a majority of the agency representatives but not less than five.

§ 1064.112 Term of office.

The term of office of each member of the Agency shall be 1 year, or until a replacement is designated by the cooperative association or is otherwise appropriately elected.

§ 1064.113 Selection of Agency members.

The selection of Agency members shall be made pursuant to paragraphs (a), (b), and (c) of this section. Each person selected shall qualify by filing with the market administrator a written acceptance promptly after being notified of such selection.

(a) Each cooperative association authorized one or more representatives to the Agency shall notify the market administrator of the name and address of each representative who shall serve at the pleasure of the cooperative.

(b) For purposes of this program, cooperative associations may elect to combine their participating memberships and, if the combined total of participating producers of such cooperatives is 5 percent or more of the total participating producers, such cooperatives shall be eligible to select a representative(s) to the Agency under the rules of § 1064.111 and paragraph (a) of this section.

(c) Selection of Agency members to represent participating nonmember producers and participating producer members of a cooperative association(s) having less than the required 5 percent of the producers participating in the advertising and promotion program and who have not elected to combine memberships as provided in paragraph (b) of this section, shall be supervised by the market administrator in the following manner:

(1) Promptly after the effective date of this amending order, and annually thereafter, the market administrator shall give notice to participating producer members of such cooperatives and participating nonmember producers of their opportunity to nominate one or more producers as Agency representatives, as the case may be, and also shall specify the number of representatives to be selected.

(2) Following the closing date for nominations, the market administrator shall announce the nominees who are eligible for Agency membership and shall conduct a referendum among the individual participating producers eligible to vote. Election to membership shall be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes. If an elected representative subsequently discontinues producer status or is otherwise unable to complete his term of office, the market administrator shall appoint as his replacement the participating producer who received the next highest number of eligible votes.

§ 1064.114 Agency operating procedure.

A majority of the Agency members shall constitute a quorum. Any action of the Agency shall require a majority of concurring votes of those present and voting, unless the Agency determines that more than a simple majority shall be required.

§ 1064.115 Powers of the Agency.

The Agency is empowered to:

(a) Administer the terms and provisions of the program within the scope of Agency authority pursuant to § 1064.110;

(b) Make rules and regulations to effectuate the purposes of Public Law 91-670;

(c) Recommend amendments to the Secretary; and

(d) With the approval of the Secretary, enter into contracts and agreements with persons or organizations as deemed necessary to carry out advertising and promotion programs and projects specified in §§ 1064.110 and 1064.117.

1064.116 Duties of the Agency.

The Agency shall perform all duties necessary to carry out the terms and provisions of this program including, but not limited to, the following:

(a) Meet, organize, and select from among its members a chairman and such other officers and committees as may be necessary, and adopt and make public such rules as may be necessary for the conduct of its business;

(b) Develop programs and projects pursuant to §§ 1064.110 and 1064.117;

(c) Keep minutes, books, and records and submit books and records for examination by the Secretary and furnish any information and reports requested by the Secretary;

(d) Prepare and submit to the Secretary for approval prior to each quarterly period a budget showing the projected amounts to be collected during the quarter and how such funds are to be disbursed by the Agency;

(e) When desirable, establish an advisory committee(s) of persons other than Agency members;

(f) Employ and fix the compensation of any person deemed to be necessary to its exercise of power and performance of duties:

(g) Establish the rate of reimbursement to the members of the Agency for expenses in attending meetings, and pay the expenses of administering the Agency; and

(h) Provide for the bonding of all persons handling Agency funds in an amount and with surety thereon satisfactory to the Secretary.

§ 1064.117 Advertising, research, education, and promotion program.

The Agency shall develop and submit to the Secretary for approval all programs or projects undertaken under the authority of this part. Such programs or projects may provide for:

(a) The establishment, issuance, effectuation, and administration of appropriate programs or projects for the advertising and promotion of milk and milk products on a nonbrand basis;

(b) The utilization of the services of other organizations to carry out Agency programs and projects if the Agency finds that such activities will benefit producers under this part; and

(c) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers under this part.

§ 1064.118 Limitation of expenditures by the Agency.

(a) Not more than 5 percent of the funds received by the Agency pursuant to § 1064.121(b)(1) shall be utilized for administrative expense of the Agency.

(b) Agency funds shall not, in any manner, be used for political activity or for the purpose of influencing governmental policy or action, except in recommending to the Secretary amendments to the advertising and promotion program provisions of this part.

(c) Agency funds may not be expended to solicit producer participation.

(d) Agency funds may be used only for programs and projects promoting the domestic marketing and consumption of milk and its products.

§ 1064.119 Personal liability.

No member of the Agency shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, of such member in performance of his duties, except for acts of willful misconduct, gross negligence, or those which are criminal in nature.

§ 1064.120 Procedure for requesting refunds.

Any producer may apply for refund subject to the applicable conditions set forth in this section.

(a) Refund shall be accomplished only through application filed with, and in the manner prescribed by, the market administrator and signed by the producer. Only that information necessary to identify the producer and the records relevant to the refund may be required of such producer.

(b) Except as provided in paragraph (c) of this section, the request shall be submitted within the first 15 days of December, March, June, or September for milk to be marketed during the ensuing calendar quarter beginning on the first day of January, April, July, and October, respectively.

(c) A dairy farmer who first acquires producer status under this part after the 15th day of December, March, June, or September, as the case may be, and prior to the end of the ensuing calendar quarter may, upon application filed with the market administrator pursuant to paragraph (a) of this section, be eligible for refund on all marketings against which an assessment is withheld during such calendar quarter pursuant to § 1064.61(a)(4): *Provided*, That such eligibility for refund shall not apply to a dairy farmer who during the first 15 days of such December, March, June, or September, respectively, was a producer under an order where the same refund notification period applied and such dairy farmer did not appropriately submit refund application during such period. This paragraph also shall be applicable to all producers during the period following the effective date of this amending order to the beginning of the first full calendar quarter for which the opportunity exists for such producers to request refunds pursuant to paragraph (b) of this section.

(d) A dairy farmer who, with respect to any calendar quarter, has appropriately filed request for refund of program assessments on his marketings of milk under another order that provides for an advertising and promotion program will be eligible (on the basis of his request filed under the other order) for refund with respect to his producer milk marketed under this order during such quarter for which deductions were made pursuant to § 1064.61(a)(4).

§ 1064.121 Duties of the market administrator.

Except as specified in § 1064.116, the market administrator, in addition to other duties specified by this part, shall perform all the duties necessary to administer the terms and provisions of the advertising and promotion program including, but not limited to, the following:

(a) Within 30 days after the effective date of this amending order, and annually thereafter, conduct a referendum to determine representation on the Agency pursuant to § 1064.113(c);

(b) Set aside the amounts subtracted under § 1064.61(a)(4) into an advertising and promotion fund, separately accounted for, from which shall be disbursed:

(1) To the Agency each month, all such funds less any necessary amount held in reserve to cover refunds pursuant to paragraph (b)(2) and (3) of this section, and payments to cover expenses of the market administrator incurred in the administration of the advertising and promotion program (including audit).

(2) Refund to producers the amounts of mandatory checkoff for advertising and promotion programs required under authority of State law applicable to such producers, but not in amounts that exceed a rate of 5 cents per hundredweight on the volume of milk pooled by any such producer for which deductions were made pursuant to § 1064.61(a)(4).

(3) After the end of each calendar quarter, make a refund to each producer who has made application for such refund pursuant to § 1064.120. Such refund shall be computed at the rate of 5 cents per hunderdweight of such producer's milk pooled for which deductions were made pursuant to § 1064.61(a)(4) for such calendar quarter, less the amount of any refund otherwise made to the producer pursuant to paragraph (b)(2) of this section.

(c) Promptly after the effective date of this amending order, and thereafter with respect to new producers, forward to each producer a copy of the provisions of the advertising and promotion program (§§ 1064.110 through 1064.122).

(d) Make necessary audit to establish that all Agency funds are used only for authorized purposes.

§ 1064.122 Liquidation.

In the event that the provisions of this advertising and promotion program are terminated, any remaining uncommitted funds applicable thereto shall revert to the producer-settlement fund of § 1064.70.

PART 1065—MILK IN THE NEBRASKA-WESTERN IOWA MARKETING AREA

Subpart—Order Regulating Handling

GENERAL PROVISIONS

Sec.
1065.1 General provisions.

DEFINITIONS

1065.2 Nebraska-Western Iowa marketing area.
1065.3 Route disposition.
1065.4 [Reserved]
1065.5 Distributing plant.
1065.6 Supply plant.
1065.7 Pool plant.
1065.8 Nonpool plant.
1065.9 Handler.
1065.10 Producer-handler.
1065.11 [Reserved]
1065.12 Producer.
1065.13 Producer milk.
1065.14 Other source milk.
1065.15 Fluid milk product.
1065.16 Fluid cream product.
1065.17 Filled milk.
1065.18 Cooperative association.

HANDLER REPORTS

1065.30 Reports of receipts and utilization.
1065.31 Payroll reports.
1065.32 Other reports.

CLASSIFICATION OF MILK

1065.40 Classes of utilization.
1065.41 Shrinkage.
1065.42 Classification of transfers and diversions.
1065.43 General classification rules.
1065.44 Classification of producer milk.
1065.45 Market administrator's reports and announcements concerning classification.

CLASS PRICES

1065.50 Class prices.
1065.51 Basic formula price.
1065.52 Plant location adjustments for handlers.
1065.53 Announcement of class prices.
1065.54 Equivalent price.

UNIFORM PRICE

1065.60 Handler's value of milk for computing uniform price.
1065.61 Computation of uniform price.
1065.62 Announcement of uniform price and butterfat differential.

PAYMENTS FOR MILK

1065.70 Producer-settlement fund.
1065.71 Payments to the producer-settlement fund.
1065.72 Payments from the producer-settlement fund.
1065.73 Payments to producers and to cooperative associations.
1065.74 Butterfat differential.
1065.75 Plant location adjustments for producers and on nonpool milk.
1065.76 Payments by handler operating a partially regulated distributing plant.
1065.77 Adjustment of accounts.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

1065.85 Assessment for order administration.
1065.86 Deduction for marketing services.

ADVERTISING AND PROMOTION PROGRAM

1065.110 Agency.
1065.111 Composition of Agency.
1065.112 Term of office.
1065.113 Selection of Agency members.
1065.114 Agency operating procedure.
1065.115 Powers of the Agency.
1065.116 Duties of the Agency.
1065.117 Advertising, Research, Education and Promotion Program.
1065.118 Limitation of expenditures by the Agency.
1065.119 Personal liability.
1065.120 Procedure for requesting refunds.
1065.121 Duties of the market administrator.
1065.122 Liquidation.

AUTHORITY: Secs. 1-19, 48 Stat. 31, as amended (7 U.S.C. 601-674).

Subpart—Order Regulating Handling

GENERAL PROVISIONS

§ 1065.1 General provisions.

The terms, definitions, and provisions in Part 1000 of this chapter are hereby incorporated by reference and made a part of this order.

DEFINITIONS

§ 1065.2 Nebraska-Western Iowa marketing area.

The "Nebraska-Western Iowa marketing area" (hereinafter referred to as the "marketing area") means all the territory within the boundaries of the counties and townships listed below, including such territory as is now occupied and as may be occupied in the future by Government (municipal, State or Federal) reservations, installations, institutions, or other similar establishments. Where such establishment is partly within and partly without the designated boundaries, the marketing area shall include the entire area encompassed by such establishment.

(a) *Zone 1.*

IOWA COUNTIES

Fremont. Monona.
Harrison. Mills.
Pottawattamie (only the townships of Boomer, Crescent, Garner, Hardin, Hazel Dell, Kane, Keg Creek, Lake, Lewis, Minden, Neola, Norwalk, Rockford, Silver Creek, Washington, and York.)
Woodbury.

§ 1065.3 Route disposition.

"Route disposition" means a delivery (including delivery by a vendor or through a distribution point, or sale from a plant store) of a fluid milk product classified as Class I to retail or wholesale outlets other than a delivery in bulk to a milk plant.

§ 1065.4 [Reserved]

§ 1065.5 Distributing plant.

"Distributing plant" means a plant which is approved by a duly constituted health authority for the processing or packaging of Grade A milk and from which there is route disposition of any fluid milk product during the month in the marketing area.

§ 1065.6 Supply plant.

"Supply plant" means a plant from which milk or skim milk acceptable to a duly constituted health authority for distribution in the marketing area as Grade A milk, is shipped during the month to a pool plant qualified pursuant to § 1065.7.

§ 1065.7 Pool plant.

Except as provided in paragraph (d) of this section, "pool plant" means:

(a) A distributing plant from which during the month there is:

(1) Route disposition, except filled milk, in the marketing area equal to not less than 15 percent of the Grade A milk received at such plant from dairy farmers, supply plants (exclusive of plants qualifying as pool plants pursuant to this paragraph), and handlers described in § 1065.9(c); and

(2) Total route disposition, except filled milk, equal to not less than 35 percent of the Grade A milk received at the plant from the sources specified in paragraph (a)(1) of this section.

(b) A supply plant from which the volume of fluid milk products, except filled milk, shipped during the month to pool plants qualified pursuant to paragraph (a) of this section is not less than 50 percent of the Grade A milk received at such plant from dairy farmers and handlers described in § 1065.9(c) during such month. A supply plant that qualifies as a pool plant in each of the immediately preceding months of August through December shall be a pool plant for the succeeding months of January through July, unless the plant operator requests the market administrator, in writing, that such plant not be a pool plant, such nonpool plant status to be effective the first month following such notice and thereafter until the plant again qualifies as a pool plant on the basis of shipments.

(c) A supply plant operated by a cooperative association if, during the month, 51 percent or more of the producer milk of members of the association is received at a pool distributing plant(s) of another handler(s), or is transferred to such plant(s) from the association's supply plant.

(d) The term "pool plant" shall not apply to the following plants:

(1) A producer-handler plant;

(2) A plant qualified pursuant to paragraph (a) of this section from which a lesser volume of fluid milk products (not including filled milk) is disposed of in the Nebraska-Western Iowa marketing area than in the marketing area of another marketing agreement or order issued pursuant to the Act and which is fully subject to the classification and pricing provisions of such other agreement or order;

(3) Any plant qualified pursuant to paragraph (b) of this section for any portion of the period of January through July, inclusive, that producer milk at such plant is subject to the classification and pricing provisions of another order issued pursuant to the Act; and

(4) That portion of a plant that is physically apart from the Grade A portion of such plant, is operated separately and is not approved by a duly constituted health authority for the receiving, processing, or packaging of any fluid milk product for Grade A disposition.

§ 1065.8 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing, or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which there is route disposition in consumer-type packages or dispenser units in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant from which fluid milk products are shipped during the month to a pool plant.

§ 1065.9 Handler.

"Handler" means:

(a) Any person who operates a pool plant. In case a corporation with recognized divisions which are operated as separate business units operates two or more pool plants, each such division shall be the handler with respect to the pool plant(s) it operates;

(b) Any cooperative association with respect to milk of its member producers which is diverted pursuant to § 1065.13 for the account of such association;

(c) A cooperative association with respect to milk of its member producers which is delivered from the farm to the pool plant of another handler in a tank truck owned and operated by, or under contract to, such cooperative association. The milk shall be deemed to have been received from producers by the cooperative association at the location of the plant to which it is delivered;

(d) Any person who operates a partially regulated distributing plant;

(e) A producer-handler; and

(f) Any person who operates an other order plant described in § 1065.7(d).

§ 1065.10 Producer-handler.

"Producer-handler" means any person who is both a dairy farmer and the operator of a distributing plant, and who meets all of the following conditions:

(a) Receipts of fluid milk products at his plant are solely milk of his own production and fluid milk products from pool plants of other handlers;

(b) Receives no milk products other than fluid milk products for reconstituting into fluid milk products; and

(c) The maintenance, care, and management of the dairy animals and other resources necessary to produce the milk, and the processing, packaging, and distribution of the milk (including filled milk) are the personal enterprise and the personal risk of such person.

§ 1065.11 [Reserved]

§ 1065.12 Producer.

(a) Except as provided in paragraph (b) of this section, "producer" means any person who produces milk in compliance with the Grade A inspection requirements of a duly constituted health authority and whose milk is received at a pool plant or by a handler described in § 1065.9(c) or is diverted as producer milk pursuant to § 1065.13.

(b) "Producer" shall not include:

(1) A producer-handler as defined in any order (including this part) issued pursuant to the Act;

(2) Any person with respect to milk produced by him which is diverted to a pool plant from an other order plant if the other order designates such person as a producer under that order and such milk is allocated to Class II or Class III utilization pursuant to § 1065.44 (a) (8) (iii) and the corresponding step of § 1065.44(b); and

(3) Any person with respect to milk produced by him which is reported as diverted to an other order plant if any portion of such person's milk so moved is assigned to Class I under the provisions of such other order.

§ 1065.13 Producer milk.

"Producer milk" of each handler means all skim milk and butterfat contained in milk from producers that is:

(a) Received from producers at a pool plant;

(b) Received from producers by a cooperative association handler described in § 1065.9(c);

(c) Diverted from a pool plant to a nonpool plant that is not a producer-handler plant pursuant to paragraph (c) (1) or (2) of this section, subject to the conditions set forth in paragraph (c) (3) and (4) of this section;

(1) A cooperative association handler described in § 1065.9(b) may divert for its account the milk of any member-producer if at least 2 days' production of such producer is received at a pool plant(s) during the month. The total quantity of milk so diverted by the cooperative association handler shall not exceed, in each of the months of January, February, March, September, October, and November, 30 percent, and in any other month 40 percent, of the larger of:

(i) The total quantity of milk of member-producers received at all pool plants during the current month; or

(ii) The average daily quantity of milk of member-producers received at all pool plants during the immediately preceding month, multiplied by the number of days in the current month;

(2) A handler, other than a cooperative association, in his capacity as the operator of a pool plant, may divert for his account the milk of any producer other than a member of a cooperative association, if at least 2 days' production of such producer is received at the handler's pool plant(s) during the month. The total quantity of milk so diverted by the handler shall not exceed, in each of the months of January, February, March, September, October, and November, 30 percent, and in any other month 40 percent, of the larger of:

(i) The total quantity of milk of producers received at his pool plant(s) during the current month exclusive of milk received from producers who are members of a cooperative association; or

(ii) The average daily quantity of milk of producers received at his pool plant(s) during the immediately preceding month, exclusive of milk received from producers who are members of a cooperative association, multiplied by the number of days in the current month;

(3) In the event the quantity of milk diverted is in excess of the applicable quantity specified in paragraph (c)(1) and (2) of this section, the diverting handler shall designate the dairy farmers whose milk was overdiverted. If the handler fails to make such designation, no milk diverted by him shall be producer milk for such month; and

(4) For the purposes of location adjustments pursuant to §§ 1065.52 and 1065.75, milk so diverted shall be priced at the location of the plant to which diverted.

§ 1065.14 Other source milk.

"Other source milk" means all skim milk and butterfat contained in or represented by:

(a) Receipts of fluid milk products and bulk products specified in § 1065.40(b)(1) from any source other than producers, handlers described in § 1065.9(c), or pool plants;

(b) Receipts in packaged form from other plants of products specified in § 1065.40(b)(1);

(c) Products (other than fluid milk products, products specified in § 1065.40 (b)(1), and products produced at the plant during the same month) from any source which are reprocessed, converted into, or combined with another product in the plant during the month; and

(d) Receipts of any milk product (other than a fluid milk product or a product specified in § 1065.40(b)(1)) for which the handler fails to establish a disposition.

§ 1065.15 Fluid milk product.

(a) Except as provided in paragraph (b) of this section, "fluid milk product" means any of the following products in fluid or frozen form:

(1) Milk, skim milk, low-fat milk, milk drinks, buttermilk, filled milk, and milkshake and ice milk mixes containing less than 20 percent total solids, including any such products that are flavored, cultured, modified with added nonfat milk solids, concentrated (if in a consumer-type package), or reconstituted; and

(2) Any milk product not specified in paragraph (a)(1) of this section or in § 1065.40(b) or (c)(1) (i) through (iv) if it contains by weight at least 80 percent water and 6.5 percent nonfat milk solids and less than 9 percent butterfat and 20 percent total solids.

(b) The term "fluid milk product" shall not include:

(1) Evaporated or condensed milk (plain or sweetened), evaporated or condensed skim milk (plain or sweetened), formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers, any product that contains by weight less than 6.5 percent nonfat milk solids, and whey; and

(2) The quantity of skim milk in any modified product specified in paragraph (a) of this section that is in excess of the quantity of skim milk in an equal volume of an unmodified product of the same nature and butterfat content.

§ 1065.16 Fluid cream product.

"Fluid cream product" means cream (other than plastic cream or frozen cream), sour cream, or a mixture (including a cultured mixture) of cream and milk or skim milk containing 9 percent or more butterfat, with or without the addition of other ingredients.

§ 1065.17 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted, or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers, or flavoring) resembles milk or any other fluid milk product, and contains less than 6 percent nonmilk fat (or oil).

§ 1065.18 Cooperative association.

"Cooperative association" means any cooperative marketing association of producers which the Secretary determines, after application of the association:

(a) Is qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act";

(b) Has full authority in the sale of milk of its members and is engaged in making collective sales of, or marketing, milk or its products for its members; and

(c) Has its entire activities under the control of its members.

HANDLER REPORTS

§ 1065.30 Reports of receipts and utilization.

On or before the seventh day, excluding holidays, after the end of each month, each handler shall report for such month to the market administrator, in the detail and on the forms prescribed by the market administrator, as follows:

(a) Each handler, with respect to each of his pool plants, shall report the quantities of skim milk and butterfat contained in or represented by:

(1) Receipts of producer milk, including producer milk diverted by the handler from the pool plant to other plants;

(2) Receipts of milk from handlers described in § 1065.9(c);

(3) Receipts of fluid milk products and bulk fluid cream products from other pool plants;

V 39 I 90 MAY 8 74 XUM

(4) Receipts of other source milk;
(5) Inventories at the beginning and end of the month of fluid milk products and products specified in § 1065.40(b)(1); and
(6) The utilization or disposition of all milk, filled milk, and milk products required to be reported pursuant to this paragraph.

(b) Each handler operating a partially regulated distributing plant shall report with respect to such plant in the same manner as prescribed for reports required by paragraph (a) of this section. Receipts of milk that would have been producer milk if the plant had been fully regulated shall be reported in lieu of producer milk. Such report shall show also the quantity of any reconstituted skim milk in route disposition in the marketing area.

(c) Each handler described in § 1065.9 (b) and (c) shall report:
(1) The quantities of all skim milk and butterfat contained in receipts of milk from producers; and
(2) The utilization or disposition of all such receipts.

(d) Each handler not specified in paragraphs (a) through (c) of this section shall report with respect to his receipts and utilization of milk, filled milk, and milk products in such manner as the market administrator may prescribe.

§ 1065.31 Payroll reports.

(a) On or before the 20th day after the end of each month, each handler described in § 1065.9 (a), (b), and (c) shall report to the market administrator his producer payroll for such month, in the detail prescribed by the market administrator, showing for each producer:
(1) His name and address;
(2) The total pounds of milk received from such producer;
(3) The average butterfat content of such milk; and
(4) The price per hundredweight, the gross amount due, the amount and nature of any deductions, and the net amount paid.

(b) Each handler operating a partially regulated distributing plant who elects to make payment pursuant to § 1065.76(b) shall report for each dairy farmer who would have been a producer if the plant had been fully regulated in the same manner as prescribed for reports required by paragraph (a) of this section.

§ 1065.32 Other reports.

In addition to the reports required pursuant to §§ 1065.30 and 1065.31, each handler shall report such other information as the market administrator deems necessary to verify or establish such handler's obligation under the order.

CLASSIFICATION OF MILK

§ 1065.40 Classes of utilization.

Except as provided in § 1065.42, all skim milk and butterfat required to be reported by a handler pursuant to § 1065.30 shall be classified as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat:
(1) Disposed of in the form of a fluid milk product, except as otherwise provided in paragraphs (b) and (c) of this section; and
(2) Not specifically accounted for as Class II or Class III milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat:
(1) Disposed of in the form of a fluid cream product, eggnog, yogurt, and any product containing 6 percent or more nonmilk fat (or oil) that resembles a fluid cream product, eggnog or yogurt, except as otherwise provided in paragraph (c) of this section;
(2) In packaged inventory at the end of the month of the products specified in paragraph (b)(1) of this section;
(3) In bulk fluid milk products and bulk fluid cream products disposed of to any commercial food processing establishment (other than a milk or filled milk plant) at which food products (other than milk products and filled milk) are processed and from which there is no disposition of fluid milk products or fluid cream products other than those received in consumer-type packages; and
(4) Used to produce:
(i) Cottage cheese, low fat cottage cheese, and dry curd cottage cheese;
(ii) Milkshake and ice milk mixes (or bases) containing 20 percent or more total solids, frozen desserts, and frozen dessert mixes;
(iii) Any concentrated milk product in bulk, fluid form other than that specified in paragraph (c)(1)(iv) of this section;
(iv) Plastic cream, frozen cream, and anhydrous milkfat;
(v) Custards, puddings, and pancake mixes; and
(vi) Formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers.

(c) *Class III milk.* Class III milk shall be all skim milk and butterfat:
(1) Used to produce:
(i) Cheese (other than cottage cheese, low fat cottage cheese, and dry curd cottage cheese);
(ii) Butter;
(iii) Any milk product in dry form;
(iv) Any concentrated milk product in bulk, fluid form that is used to produce a Class III product;
(v) Evaporated or condensed milk (plain or sweetened) in a consumer-type package and evaporated or condensed skim milk (plain or sweetened) in a consumer-type package; and
(vi) Any product not otherwise specified in this section;
(2) In inventory at the end of the month of fluid milk products in bulk or packaged form and products specified in paragraph (b)(1) of this section in bulk form;
(3) In fluid milk products and products specified in paragraph (b)(1) of this section that are disposed of by a handler for animal feed;
(4) In fluid milk products and products specified in paragraph (b)(1) of this section that are dumped by a handler if the market administrator is notified of such dumping in advance and is given the opportunity to verify such disposition;
(5) In skim milk in any modified fluid milk product that is in excess of the quantity of skim milk in such product that was included within the fluid milk product definition pursuant to § 1065.15; and
(6) In shrinkage assigned pursuant to § 1065.41(a) to the receipts specified in § 1065.41(a)(2) and in shrinkage specified in § 1065.41(b) and (c).

§ 1065.41 Shrinkage.

For purposes of classifying all skim milk and butterfat to be reported by a handler pursuant to § 1065.30, the market administrator shall determine the following:

(a) The pro rata assignment of shrinkage of skim milk and butterfat, respectively, at each pool plant to the respective quantities of skim milk and butterfat:
(1) In the receipts specified in paragraph (b)(1) through (6) of this section on which shrinkage is allowed pursuant to such paragraph; and
(2) In other source milk not specified in paragraph (b)(1) through (6) of this section which was received in the form of a bulk fluid milk product or a bulk fluid cream product;

(b) The shrinkage of skim milk and butterfat, respectively, assigned pursuant to paragraph (a) of this section to the receipts specified in paragraph (a)(1) of this section that is not in excess of:
(1) Two percent of the skim milk and butterfat, respectively, in producer milk (excluding milk diverted by the plant operator to another plant);
(2) Plus 1.5 percent of the skim milk and butterfat, respectively, in milk received from a handler described in § 1065.9(c), except that if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be 2 percent;
(3) Plus 0.5 percent of the skim milk and butterfat, respectively, in producer milk diverted from such plant by the plant operator to another plant, except that if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be zero;
(4) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other pool plants;
(5) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other order plants, excluding the quantity for which Class II or Class III classification is requested by the operators of both plants;
(6) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received from unregulated supply plants, excluding the quantity for which Class II or Class III classification is requested by the handler; and
(7) Less 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products transferred to other plants that is not in excess of the respective amounts of skim milk and butterfat to which percentages are applied in paragraph (b)(1), (2), (4), (5), and (6) of this section; and

(c) The quantity of skim milk and butterfat, respectively, in shrinkage of milk from producers for which a cooperative association is the handler pursuant to § 1065.9 (b) or (c), but not in excess of 0.5 percent of the skim milk and butterfat, respectively, in such milk. If the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this paragraph for the cooperative association shall be zero.

§ 1065.42 Classification of transfers and diversions.

(a) *Transfers to pool plants.* Skim milk or butterfat transferred in the form of a fluid milk product or a bulk fluid cream product from a pool plant to another pool plant or by a handler described in § 1065.9(c) to another handler's pool plant shall be classified as follows:
(1) Such transfers from a pool plant shall be classified as Class I milk unless the operators of both plants request the same classification in another class. In either case, the classification of such transfers shall be subject to the following conditions:
(i) The skim milk or butterfat classified in each class shall be limited to the amount of skim milk and butterfat, respectively, remaining in such class at the transferee-plant after the computations pursuant to § 1065.44(a)(12) and the corresponding step of § 1065.44(b);
(ii) If the transferor-plant received during the month other source milk to be allocated pursuant to § 1065.44(a)(7) or the corresponding step of § 1065.44(b), the skim milk or butterfat so transferred shall be classified so as to allocate the least possible Class I utilization to such other source milk; and
(iii) If the transferor-handler received during the month other source milk to be allocated pursuant to § 1065.44(a)(11) or (12) or the corresponding steps of § 1055.44(b), the skim milk or butterfat so transferred, up to the total of the skim milk and butterfat, respectively, in such receipts of other source milk, shall not be classified as Class I milk to a greater extent than would be the case if the other source milk had been received at the transferee-plant; and

(2) Such transfers by a handler described in § 1065.9(c) shall be classified pro rata to the respective quantities of skim milk and butterfat remaining in each class after the computations pursuant to § 1065.44(a)(13)(i) and the corresponding step of § 1065.44(b).

(b) *Transfers and diversions to other order plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream product from a pool plant to an other order plant shall be classified in the following manner. Such classification shall apply only to the skim milk or butterfat that is in excess of any receipts at the pool plant from the other order plant of skim milk and butterfat, respectively, in fluid milk products and bulk fluid cream products, respectively, that are in the same category as described in paragraph (b)(1), (2), or (3) of this section:
(1) If transferred as packaged fluid milk products, classification shall be in the classes to which allocated as a fluid milk product under the other order;
(2) If transferred in bulk form, classification shall be in the classes to which allocated under the other order (including allocation under the conditions set forth in paragraph (b)(3) of this section);
(3) If the operators of both plants so request in their reports of receipts and utilization filed with their respective market administrators, transfers or diversions in bulk form shall be classified as Class II or Class III milk to the extent of such utilization available for such classification pursuant to the allocation provisions of the other order;
(4) If information concerning the classes to which such transfers or diversions were allocated under the other order is not available to the market administrator for the purpose of establishing classification under this paragraph, classification shall be as Class I, subject to adjustment when such information is available;
(5) For purposes of this paragraph, if the other order provides for a different number of classes of utilization than is provided for under this part, skim milk or butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I milk, and skim milk or butterfat allocated to the other classes shall be classified as Class III milk; and
(6) If the form in which any fluid milk product that is transferred to an other order plant is not defined as a fluid milk product under such other order, classification under this paragraph shall be in accordance with the provisions of § 1065.40.

(c) *Transfers to producer-handlers.* Skim milk or butterfat transferred in the following forms from a pool plant to a producer-handler under this or any other Federal order shall be classified:
(1) As Class I milk, if transferred in the form of a fluid milk product; and
(2) In accordance with the utilization assigned to it by the market administrator, if transferred in the form of a bulk fluid cream product. For this purpose, the producer-handler's utilization of skim milk and butterfat in each class, in series beginning with Class III, shall be assigned to the extent possible to his receipts of skim milk and butterfat, respectively, in bulk fluid cream products, pro rata to each source.

(d) *Transfers and diversions to other nonpool plants.* Skim milk or butterfat transferred or diverted in the following forms from a pool plant to a nonpool plant that is not an other order plant or a producer-handler plant shall be classified:
(1) As Class I milk, if transferred in the form of a packaged fluid milk product; and
(2) As Class I milk, if transferred or diverted in the form of a bulk fluid milk product or a bulk fluid cream product, unless the following conditions apply:
(i) If the conditions described in paragraph (d)(2)(i) (*a*) and (*b*) of this section are met, transfers or diversions in bulk form shall be classified on the basis of the assignment of the nonpool plant's utilization to its receipts as set forth in paragraph (d)(2)(ii) through (viii) of this section:
(*a*) The transferor-handler or divertor-handler claims such classification in his report of receipts and utilization filed pursuant to § 1065.30 for the month within which such transaction occurred; and
(*b*) The nonpool plant operator maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available for verification purposes if requested by the market administrator;
(ii) Route disposition in the marketing area of each Federal milk order from the nonpool plant and transfers of packaged fluid milk products from such nonpool plant to plants fully regulated thereunder shall be assigned to the extent possible in the following sequence:
(*a*) Pro rata to receipts of packaged fluid milk products at such nonpool plant from pool plants;
(*b*) Pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from other order plants;
(*c*) Pro rata to receipts of bulk fluid milk products at such nonpool plant from pool plants; and
(*d*) Pro rata to any remaining unassigned receipts of bulk fluid milk products at such nonpool plant from other order plants;
(iii) Any remaining Class I disposition of packaged fluid milk products from the nonpool plant shall be assigned to the extent possible pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from pool plants and other order plants;
(iv) Transfers of bulk fluid milk products from the nonpool plant to a plant fully regulated under any Federal milk order, to the extent that such transfers to the regulated plant exceed receipts of fluid milk products from such plant and are allocated to Class I at the transferee-plant, shall be assigned to the extent possible in the following sequence:

V 39 I 90 MAY 8 74 XUM

(a) Pro rata to receipts of fluid milk products at such nonpool plant from pool plants; and

(b) Pro rata to any remaining unassigned receipts of fluid milk products at such nonpool plant from other order plants;

(v) Any remaining unassigned Class I disposition from the nonpool plant shall be assigned to the extent possible in the following sequence:

(a) To such nonpool plant's receipts from dairy farmers who the market administrator determines constitute regular sources of Grade A milk for such nonpool plant; and

(b) To such nonpool plant's receipts of Grade A milk from plants not fully regulated under any Federal milk order which the market administrator determines constitute regular sources of Grade A milk for such nonpool plant;

(vi) Any remaining unassigned receipts of bulk fluid milk products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class I utilization, then to any remaining Class III utilization, and then to Class II utilization at such nonpool plant;

(vii) Receipts of bulk fluid cream products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class III utilization, then to any remaining Class II utilization, and then to Class I utilization at such nonpool plant; and

(viii) In determining the nonpool plant's utilization for purposes of this subparagraph, any fluid milk products and bulk fluid cream products transferred from such nonpool plant to a plant not fully regulated under any Federal milk order shall be classified on the basis of the second plant's utilization using the same assignment priorities at the second plant that are set forth in this subparagraph.

§ 1065.43 General classification rules.

In determining the classification of producer milk pursuant to § 1065.44, the following rules shall apply:

(a) Each month the market administrator shall correct for mathematical and other obvious errors all reports filed pursuant to § 1065.30 and shall compute separately for each pool plant and for each cooperative association with respect to milk for which it is the handler pursuant to § 1065.9 (b) or (c) the pounds of skim milk and butterfat, respectively, in each class in accordance with §§ 1065.40, 1065.41, and 1065.42;

(b) If any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk in such product that are to be considered under this part as used or disposed of by the handler shall be an amount equivalent to the nonfat milk solids contained in such product plus all of the water originally associated with such solids; and

(c) The classification of producer milk for which a cooperative association is the handler pursuant to § 1065.9 (b) or (c) shall be determined separately from the operations of any pool plant operated by such cooperative association.

§ 1065.44 Classification of producer milk.

For each month the market administrator shall determine the classification of producer milk of each handler described in § 1065.9(a) for each of his pool plants separately and of each handler described in § 1065.9 (b) and (c) by allocating the handler's receipts of skim milk and butterfat to his utilization as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk in shrinkage specified in § 1065.41 (b);

(2) Subtract from the total pounds of skim milk in Class I the pounds of skim milk in receipts of packaged fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in fluid milk products received in packaged form from an other order plant, except that to be subtracted pursuant to paragraph (a) (7) (vi) of this section, as follows:

(i) From Class III milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(4) Subtract from the pounds of skim milk in Class II the pounds of skim milk in products specified in § 1065.40(b) (1) that were received in packaged form from other plants, but not in excess of the pounds of skim milk remaining in Class II;

(5) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in products specified in § 1065.40(b) (1) that were in inventory at the beginning of the month in packaged form, but not in excess of the pounds of skim milk remaining in Class II. This subparagraph shall apply only if the pool plant was subject to the provisions of this subparagraph or comparable provisions of another Federal milk order in the immediately preceding month;

(6) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in other source milk (except that received in the form of a fluid milk product or a fluid cream product) that is used to produce, or added to, any product specified in § 1065.40(b), but not in excess of the pounds of skim milk remaining in Class II;

(7) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk (except that received in the form of a fluid milk product) and, if paragraph (a) (5) of this section applies, packaged inventory at the beginning of the month of products specified in § 1065.40(b) (1) that was not subtracted pursuant to paragraph (a) (4), (5), and (6) of this section;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established;

(iii) Receipts of fluid milk products from unidentified sources;

(iv) Receipts of fluid milk products from a producer-handler as defined under this or any other Federal milk order;

(v) Receipts of reconstituted skim milk in filled milk from an unregulated supply plant that were not subtracted pursuant to paragraph (a) (2) of this section; and

(vi) Receipts of reconstituted skim milk in filled milk from an other order plant that is regulated under any Federal milk order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor-plant;

(8) Subtract in the order specified below from the pounds of skim milk remaining in Class II and Class III, in sequence beginning with Class III:

(i) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a) (2) and (7) (v) of this section for which the handler requests a classification other than Class I, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(ii) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a) (2), (7) (v), and (8) (i) of this section which are in excess of the pounds of skim milk determined pursuant to paragraph (a) (8) (ii) (a) through (c) of this section. Should the pounds of skim milk to be subtracted from Class II and Class III combined exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount:

(a) Multiply by 1.25 the sum of the pounds of skim milk remaining in Class I at this allocation step at all pool plants of the handler (excluding any duplication of Class I utilization resulting from reported Class I transfers between pool plants of the handler);

(b) Subtract from the above result the sum of the pounds of skim milk in receipts at all pool plants of the handler of producer milk, milk from a handler described in § 1065.9(c), fluid milk products from pool plants of other handlers, and bulk fluid milk products from other order plants that were not subtracted pursuant to paragraph (a) (7) (vi) of this section; and

(c) Multiply any plus quantity resulting above by the percentage that the receipts of skim milk in fluid milk products from unregulated supply plants that remain at this pool plant is of all such receipts remaining at this allocation step at all pool plants of the handler; and

(iii) The pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a) (7) (vi) of this section, if Class II or Class III classification is requested by the operator of the other order plant and the handler, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(9) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in fluid milk products and products specified in § 1065.40(b) (1) in inventory at the beginning of the month that were not subtracted pursuant to paragraph (a) (5) and (7) (i) of this section;

(10) Add to the remaining pounds of skim milk in Class III the pounds of skim milk subtracted pursuant to paragraph (a) (1) of this section;

(11) Subject to the provisions of paragraph (a) (11) (i) and (ii) of this section, subtract from the pounds of skim milk remaining in each class at the plant, pro rata to the total pounds of skim milk remaining in Class I and in Class II and Class III combined at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler), with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, the pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a) (2), (7) (v), and (8) (i) and (ii) of this section and that were not offset by transfers or diversions of fluid milk products to the same unregulated supply plant from which fluid milk products to be allocated at this step were received:

(i) Should the pounds of skim milk to be subtracted from Class II and Class III combined pursuant to this subparagraph exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reserve direction by a like amount; and

(ii) Should the pounds of skim milk to be subtracted from Class I pursuant to this subparagraph exceed the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount, beginning with the nearest plant at which Class I utilization is available;

(12) Subtract in the manner specified below from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a) (7) (vi) and (8) (iii) of this section:

(i) Subject to the provisions of paragraph (a) (12) (ii), (iii), and (iv) of this section, such subtraction shall be pro rata to the pounds of skim milk in Class I and in Class II and Class III combined, with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, with respect to whichever of the following quantities represents the lower proportion of Class I milk:

(a) The estimated utilization of skim milk of all handlers in each class as announced for the month pursuant to § 1065.45(a); or

(b) The total pounds of skim milk remaining in each class at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler);

(ii) Should the proration pursuant to paragraph (a) (12) (i) of this section result in the total pounds of skim milk at all pool plants of the handler that are to be subtracted at this allocation step from Class II and Class III combined exceeding the pounds of skim milk remaining in Class II and Class III at all such plants, the pounds of such excess shall be subtracted from the pounds of skim milk remaining in Class I after such proration at the pool plants at which such other source milk was received;

(iii) Except as provided in paragraph (a) (12) (ii) of this section, should the computations pursuant to paragraph (a) (12) (i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class II and Class III combined that exceeds the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(iv) Except as provided in paragraph (a) (12) (ii) of this section, should the computations pursuant to paragraph (a) (12) (i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class I that exceeds the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount beginning with the nearest plant at which Class I utilization is available;

(13) Subtract in the following order from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products and bulk fluid cream products from:

(i) Another pool plant according to the classification of such products pursuant to § 1065.42(a) (1); and

(ii) A handler described in § 1065.9(c) according to the classification of such products pursuant to § 1065.42(a) (2); and

(14) If the total pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class III. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) The quantity of producer milk in each class shall be the combined pounds of skim milk and butterfat remaining in each class after the computations pursuant to paragraph (a) (14) of this section and the corresponding step of paragraph (b) of this section.

§ 1065.45 Market administrator's reports and announcements concerning classification.

The market administrator shall make the following reports and announcements concerning classification:

V 39 I 90 MAY 8 74 XUM

(a) Whenever required for the purpose of allocating receipts from other order plants pursuant to § 1065.44(a) (12) and the corresponding step of § 1065.44(b), estimate and publicly announce the utilization (to the nearest whole percentage(in each class during the month of skim milk and butterfat, respectively, in producer milk of all handlers. Such estimate shall be based upon the most current available data and shall be final for such purpose.

(b) Report to the market administrator of the other order, as soon as possible after the report of receipts and utilization for the month is received from a handler who has received fluid milk products or bulk fluid cream products from an other order plant, the class to which such receipts are allocated pursuant to § 1065.44 on the basis of such report, and, thereafter, any change in such allocation required to correct errors disclosed in the verification of such report.

(c) Furnish to each handler operating a pool plant who has shipped fluid milk products or bulk fluid cream products to an other order plant the class to which such shipments were allocated by the market administrator of the other order on the basis of the report by the receiving handler, and, as necessary, any changes in such allocation arising from the verification of such report.

(d) On or before the 12th day after the end of the month, report to each cooperative association, which so requests, the amount and class utilization of milk received by each handler from producers who are members of such cooperative association. For the purpose of this report, the milk so received shall be prorated to each class in the proportion that the total receipts of milk from producers by such handler were used in each class.

Class Prices

§ 1065.50 Class prices.

Subject to the provisions of § 1065.52, the class prices for the month per hundredweight of milk containing 3.5 percent butterfat shall be as follows:

(a) *Class I price.* The Class I price shall be the basic formula price for the second preceding month plus $1.60 for pool plants located in Zone 1, plus $1.50 in Zone 2, and plus $1.75 in Zone 3.

(b) *Class II price.* The Class II price shall be the basic formula price for the month plus 10 cents.

(c) *Class III price.* The Class III price shall be the basic formula price for the month.

§ 1065.51 Basic formula price.

The "basic formula price" shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Minnesota and Wisconsin, as reported by the Department for the month, adjusted to a 3.5 percent butterfat basis and rounded to the nearest cent. For such adjustment, the butterfat differential (rounded to the nearest one-tenth cent) per one-tenth percent butterfat shall be 0.12 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month. For the purpose of computing the Class I price, the resulting price shall be not less than $4.33.

§ 1065.52 Plant location adjustments for handlers.

(a) For producer milk received at a pool plant (or diverted to a nonpool plant) located outside the marketing area and disposed of as Class I milk or assigned Class I location adjustment credit pursuant to paragraph (b) of this section the Class I price shall be that effective pursuant to § 1065.50(a) at the nearest of the pricing zones as set forth in § 1065.2, subject to a reduction of 1.5 cents for each 10 road miles or fraction thereof that such plant is located more than 100 miles from the nearest of the city halls in Chadron, Grand Island, Lincoln, Norfolk, North Platte, Omaha, and Scottsbluff, all in the State of Nebraska, and Sioux City, Iowa.

(b) For the purpose of calculating such adjustments:

(1) All distances shall be by shortest hard-surfaced highways and/or all-weather roads, as determined by the market administrator; and

(2) Transfers between pool plants shall be assigned Class I disposition at the transferee-plant, in excess of the sum of receipts at such plant from producers and handlers described in § 1065.9 (c), and the volume assigned as Class I to receipts from other order plants and unregulated supply plants, such assignment to be made first to transferor-plants at which no location adjustment credit is applicable and then in sequence beginning with the plant at which the least adjustment would apply.

(c) The Class I price applicable to other source milk shall be adjusted at the rates set forth in paragraph (a) of this section, except that the adjusted Class I price shall not be less than the Class III price.

§ 1065.53 Announcement of class prices.

The market administrator shall announce publicly on or before the fifth day of each month the Class I price for the following month and the Class II and Class III prices for the preceding month.

§ 1065.54 Equivalent price.

If for any reason a price or pricing constituent required by this part for computing class prices or for other purposes is not available as prescribed in this part, the market administrator shall use a price or pricing constituent determined by the Secretary to be equivalent to the price or pricing constituent that is required.

Uniform Price

§ 1065.60 Handler's value of milk for computing uniform price.

For the purpose of computing the uniform price, the market administrator shall determine for each month the value of milk of each handler with respect to each of his pool plants and of each handler described in § 1065.9 (b) and (c) as follows:

(a) Multiply the pounds of producer milk in each class as determined pursuant to § 1065.44 by the applicable class prices and add the resulting amounts;

(b) Add the amounts obtained from multiplying the pounds of overage subtracted from each class pursuant to § 1065.44(a)(14) and the corresponding step of § 1065.44(b) by the respective class prices, as adjusted by the butterfat differential specified in § 1065.74, that are applicable at the location of the pool plant;

(c) Add the following:

(1) The amount obtained from multiplying the difference between the Class III price for the preceding month and the Class I price applicable at the location of the pool plant for the current month by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1065.44(a)(9) and the corresponding step of § 1065.44(b); and

(2) The amount obtained from multiplying the difference between the Class III price for the preceding month and the Class II price for the current month by the lesser of:

(i) The hundredweight of skim milk and butterfat subtracted from Class II pursuant to § 1065.44(a)(9) and the corresponding step of § 1065.44(b) for the current month; or

(ii) The hundredweight of skim milk and butterfat remaining in Class III after the computations pursuant to § 1065.44(a)(12) and the corresponding step of § 1065.44(b) for the preceding month, less the hundredweight of skim milk and butterfat specified in paragraph (c)(1) of this section;

(d) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the pool plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1065.44(a)(7) (i) through (iv) and the corresponding step of § 1065.44(b), excluding receipts of bulk fluid cream products from an other order plant;

(e) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the transferor-plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1065.44(a)(7) (v) and (vi) and the corresponding step of § 1065.44(b); and

(f) Add the amount obtained from multiplying the Class I price applicable at the location of the nearest unregulated supply plants from which an equivalent volume was received by the pounds of skim milk and butterfat subtracted from Class I pursuant to § 1065.44(a)(11) and the corresponding step of § 1065.44(b), excluding such skim milk and butterfat in receipts of bulk fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order.

§ 1065.61 Computation of uniform price.

For each month the market administrator shall compute the uniform price per hundredweight of milk of 3.5 percent butterfat content which is received from producers as follows:

(a) Combine into one total the values computed pursuant to § 1065.60 for all handlers who filed the reports prescribed by § 1065.30 for the month and who made the payments pursuant to §§ 1065.71 and 1065.73 for the preceding month;

(b) Subtract an amount equal to the total value of the plus location adjustments computed pursuant to § 1065.75;

(c) Add an amount equal to the total value of the minus location adjustments computed pursuant to § 1065.75;

(d) Add an amount equal to not less than one-half of the unobligated balance in the producer-settlement fund;

(e) Subtract an amount computed by multiplying the total hundredweight of producer milk included pursuant to paragraph (a)(1) of this section by 5 cents;

(f) Divide the resulting amount by the sum of the following for all handlers included in these computations;

(i) The total hundredweight of producer milk; and

(ii) The total hundredweight for which a value is computed pursuant to § 1065.60 (f); and

(g) Subtract not less than 4 cents nor more than 5 cents per hundredweight. The result shall be the "uniform price" for milk received from producers.

§ 1065.62 Announcement of uniform price and butterfat differential.

The market administrator shall announce publicly on or before:

(a) The fifth day after the end of each month the butterfat differential for such month; and

(b) The 12th day after the end of each month the uniform price for such month.

Payments for Milk

§ 1065.70 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1065.71, 1065.76, and 1065.77, and out of which he shall make all payments pursuant to §§ 1065.72 and 1065.77.

§ 1065.71 Payments to the producer-settlement fund.

(a) On or before the 13th day after the end of the month, each handler shall pay to the market administrator the amount, if any, by which the amount specified in paragraph (a)(1) of this section exceeds the amount specified in paragraph (a)(2) of this section:

(1) The total value of milk of the handler for such month as determined pursuant to § 1065.60.

(2) The sum of:

(i) The value at the uniform price, as adjusted pursuant to § 1065.75, of such handler's receipts of producer milk; and

(ii) The value at the uniform price applicable at the location of the plant from which received plus 5 cents of other source milk for which a value is computed pursuant to § 1065.60(f).

(b) On or before the 25th day after the end of the month each person who operated an other order plant that was regulated during such month under an order providing for individual-handler pooling shall pay to the market administrator an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk in route disposition from such plant in the marketing area which was allocated to Class I at such plant. If there is such route disposition from such plant in marketing areas regulated by two or more marketwide pool orders, the reconstituted skim milk allocated to Class I shall be prorated to each order according to such route disposition in each marketing area; and

(2) Compute the value of the reconstituted skim milk assigned in paragraph (b)(1) of this section to route disposition in this marketing area by multiplying the quantity of such skim milk by the difference between the Class I price under this part that is applicable at the location of the other order plant (but not to be less than the Class III price) and the Class III price.

§ 1065.72 Payments from the producer-settlement fund.

On or before the 14th day after the end of each month the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1065.71(a)(2) exceeds the amount computed pursuant to § 1065.71(a)(1). The market administrator shall offset any payment due any handler against payments due from such handler.

§ 1065.73 Payments to producers and to cooperative associations.

Each handler shall make payment as follows:

(a) On or before the 15th day after the end of each month during which the milk was received, to each producer for whom payment is not made pursuant to paragraph (c) or (d) of this section, at not less than the uniform price pursuant to § 1065.61, as adjusted pursuant to §§ 1065.74 and 1065.75, and less the following amounts:

(1) The payments made pursuant to paragraph (b) of this section;

(2) Deductions for marketing services pursuant to § 1065.86; and

(3) Any proper deductions authorized by the producer: *Provided*, That, if by such date such handler has not received full payment for such month pursuant to § 1065.72, he may reduce his total payment to all producers uniformly by not more than the amount of reduction in payment from the market administrator; the handler shall, however, complete such payments not later than the date for making such payments pursuant to this paragraph next following receipt of the balance from the market administrator:

(b) On or before the 27th day of each month to each producer:

(1) For whom payment is not received from the handler by a cooperative association pursuant to paragraph (c) or (d) of this section; and

(2) Who had not discontinued shipping milk to such handler, an advance payment with respect to milk received from such producer during the first 15 days of the month an amount per hundredweight not to be less than the uniform price for the preceding month;

(c) To a cooperative association which has filed a written request for such payment with such handler and with respect to producers for whose milk the market administrator determines such cooperative association is authorized to collect payment as follows:

(1) On or before the 26th day of the month, an amount not less than the sum of the individual payments otherwise payable to producers pursuant to paragraph (b) of this section, less any deductions authorized in writing by such cooperative association; and

(2) On or before the 14th day after the end of each month an amount not less than the sum of the individual payments otherwise payable to producers pursuant to paragraph (a) of this section, less proper deductions authorized in writing by such cooperative association;

(d) To a cooperative association with respect to receipts of milk for which such cooperative association is the handler pursuant to § 1065.9(c) as follows:

(1) On or before the 26th day of the month, for milk received during the first 15 days of the month an amount per hundredweight equal to not less than the uniform price for the preceding month; and

(2) On or before the 14th day after the end of each month not less than the value of such milk at the class prices, as adjusted by the butterfat differential specified in § 1065.74, that are applicable at the location of the receiving handler's pool plant, less payment made pursuant to paragraph (d)(1) of this section;

(e) In making payments to producers pursuant to paragraphs (a) and (c) of this section, each handler shall furnish each producer or cooperative association with a supporting statement, in such form that it may be retained by the producer, which shall show:

(1) The month and the identity of the handler and of the producer;

(2) The pounds per shipment, the total pounds, and the average butterfat test of milk delivered by the producer;

(3) The minimum rate at which payment to the producer is required under the provisions of §§ 1065.61, 1065.74, and 1065.75;

(4) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight of each deduction claimed

V 39 I 90
MAY 8 74
XUM

by the handler, including any deduction claimed under paragraph (b) of this section and § 1065.86 together with a description of the respective deductions; and

(6) The net amount of payment to the producer; and

(f) Nothing in this section shall abrogate the right of a cooperative association to make payments to its member producers in accordance with the payment plan of such cooperative association.

§ 1065.74 Butterfat differential.

For milk containing more or less than 3.5 percent butterfat, the uniform price shall be increased or decreased, respectively, for each one-tenth percent butterfat variation from 3.5 percent by a butterfat differential, rounded to the nearest one-tenth cent, which shall be 0.115 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month.

§ 1065.75 Plant location adjustments for producers and on nonpool milk.

(a) The uniform price computed pursuant to § 1065.61 shall be decreased 10 cents per hundredweight for producer milk received at a pool plant located in Zone 2, and shall be increased 15 cents per hundredweight at pool plants located in Zone 3.

(b) For producer milk received at a pool paint or diverted to a nonpool plant located outside the marketing area the uniform price shall be that effective at the nearest of the pricing zones as set forth in § 1065.2, subject to a reduction at the rates set forth in § 1065.52.

(c) For purposes of computations pursuant to §§ 1065.71 and 1065.72 the uniform price shall be adjusted at the rates set forth in § 1065.52 applicable at the location of the nonpool plant from which the milk was received, except that the adjusted uniform price plus 5 cents shall not be less than the Class III price.

§ 1065.76 Payments by handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant shall pay on or before the 25th day after the end of the month to the market administrator for the producer-settlement fund the amount computed pursuant to paragraph (a) of this section. If the handler submits pursuant to §§ 1065.30(b) and 1065.31(b) the information necessary for making the computations, such handler may elect to pay in lieu of such payment the amount computed pursuant to paragraph (b) of this section:

(a) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the pounds of route disposition in the marketing area from the partially regulated distributing plant;

(2) Subtract the pounds of fluid milk products received at the partially regulated distributing plant:

(i) As Class I milk from pool plants and other order plants, except that subtracted under a similar provision of another Federal milk order; and

(ii) From another nonpool plant that is not an other order plant to the extent that an equivalent amount of fluid milk products disposed of to such nonpool plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract the pounds of reconstituted skim milk in route disposition in the marketing area from the partially regulated distributing plant;

(4) Multiply the remaining pounds by the difference between the Class I price and the uniform price plus 5 cents, both prices to be applicable at the location of the partially regulated distributing plant (except that the Class I price and the uniform price plus 5 cents shall not be less than the Class III price); and

(5) Add the amount obtained from multiplying the pounds of reconstituted skim milk specified in paragraph (a)(3) of this section by the difference between the Class I price applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price) and the Class III price.

(b) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the value that would have been computed pursuant to § 1065.60 for the partially regulated distributing plant if the plant had been a pool plant, subject to the following modifications:

(i) Fluid milk products and bulk fluid cream products received at the partially regulated distributing plant from a pool plant or an other order plant shall be allocated at the partially regulated distributing plant to the same class in which such products were classified at the fully regulated plant;

(ii) Fluid milk products and bulk fluid cream products transferred from the partially regulated distributing plant to a pool plant or an other order plant shall be classified at the partially regulated distributing plant in the class to which allocated at the fully regulated plant. Such transfers shall be allocated to the extent possible to those receipts at the partially regulated distributing plant from pool plants and other order plants that are classified in the corresponding class pursuant to paragraph (b)(1)(i) of this section. Any such transfers remaining after the above allocation which are classified in Class I and for which a value is computed for the handler operating the partially regulated distributing plant pursuant to § 1065.60 shall be priced at the uniform price (or at the weighted average price if such is provided) of the respective order regulating the handling of milk at the transferee-plant, with such uniform price adjusted to the location of the nonpool plant (but not to be less than the lowest class price of the respective order), except that transfers of reconstituted skim milk in filled milk shall be priced at the lowest class price of the respective order; and

(iii) If the operator of the partially regulated distributing plant so requests, the value of milk determined pursuant to § 1065.60 for such handler shall include, in lieu of the value of other source milk specified in § 1065.60(f) less the value of such other source milk specified in § 1065.71(a)(2)(ii), a value of milk determined pursuant to § 1065.60 for each nonpool plant that is not an other order plant which serves as a supply plant for such partially regulated distributing plant by making shipments to the partially regulated distributing plant during the month equivalent to the requirements of § 1065.7(b), subject to the following conditions:

(*a*) The operator of the partially regulated distributing plant submits with his reports filed pursuant to §§ 1065.30(b) and 1065.31(b) similar reports for each such nonpool supply plant;

(*b*) The operator of such nonpool supply plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for verification purposes; and

(*c*) The value of milk determined pursuant to § 1065.60 for such nonpool supply plant shall be determined in the same manner prescribed for computing the obligation of such partially regulated distributing plant; and

(2) From the partially regulated distributing plant's value of milk computed pursuant to paragraph (b)(1) of this section, subtract:

(i) The gross payments by the operator of such partially regulated distributing plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1065.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated;

(ii) If paragraph (b)(1)(iii) of this section applies, the gross payments by the operator of such nonpool supply plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1065.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated; and

(iii) The payments by the operator of the partially regulated distributing plant to the producer-settlement fund of another order under which such plant is also a partially regulated distributing plant and like payments by the operator of the nonpool supply plant if paragraph (b)(1)(iii) of this section applies.

§ 1065.77 Adjustment of accounts.

Adjustments of accounts shall be made as follows:

(a) Whenever verification by the market administrator of reports or payments of any handler discloses errors made in payments to or from the producer-settlement fund pursuant to §§ 1065.71 and 1065.72, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 5 days, make payment to the market administrator of the account so billed. Whenever verification discloses that payment is due from the market administrator to any handler, the market administrator shall, within 5 days, make such payment to such handler; and

(b) Whenever verification by the market administrator of the payments by a handler to any producer or cooperative association, discloses payments of less than is required by § 1065.73, the handler shall make up such payment to the producer or cooperative association not later than the time of making payments next following such disclosure.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

§ 1065.85 Assessment for order administration.

As his pro rata share of the expense of administering the order, each handler shall pay to the market administrator on or before the 14th day after the end of the month 3 cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to:

(a) Producer milk (including that classified pursuant to § 1065.42(a)(2)) and such handler's own production;

(b) Other source milk allocated to Class I pursuant to § 1065.44(a)(7) and (11) and the corresponding steps of § 1065.44(b), except such other source milk that is excluded from the computation pursuant to § 1065.60 (d) and (f); and

(c) Route disposition in the marketing area from a partially regulated distributing plant that exceeds the skim milk and butterfat subtracted pursuant to § 1065.76(a)(2).

§ 1065.86 Deduction for marketing services.

(a) Except as set forth in paragraph (b) of this section, each handler in making payments to each producer pursuant to § 1065.73 shall deduct 6 cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to producer milk received by such handler (except such handler's own farm production) during the month and shall pay such deductions to the market administrator not later than the 15th day after the end of the month. Such money shall be used by the market administrator to verify or establish weights, samples, and tests of producer milk and to provide producers with market information. Such service shall be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him; and

(b) In the case of producers for whom a cooperative association is performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions as are authorized by such producers and on or before the 15th day after the end of each month, pay over such deductions to the association rendering such services.

ADVERTISING AND PROMOTION PROGRAM

§ 1065.110 Agency.

"Agency" means an agency organized by producers and producers' cooperative associations, in such form and with methods of operation specified in this part, which is authorized to expend funds made available pursuant to § 1065.121(b)(1), on approval by the Secretary, for the purposes of establishing or providing for establishment of research and development projects, advertising (excluding brand advertising), sales promotion, educational, and other programs, designed to improve or promote the domestic marketing and consumption of milk and its products. Members of the Agency shall serve without compensation but shall be reimbursed for reasonable expenses incurred in the performance of duties as members of the Agency.

§ 1065.111 Composition of Agency.

Subject to the conditions of paragraph (a) of this section, each cooperative association or combination of cooperative associations, as provided for under § 1065.113(b), is authorized one agency representative for each full 5 percent of the participating member producers (producers who have not requested refunds for the most recent quarter) it represents. Cooperative associations with less than 5 percent of the total participating producers that have elected not to combine pursuant to § 1065.113(b), and participating producers who are not members of cooperatives, are authorized to select from such group of participating producers, in total, pursuant to § 1065.113(c), one Agency representative for each full 5 percent that such producers constitute of the total participating producers. If such group of producers in total constitutes less than 5 percent but not less than 1 percent of the total participating producers it shall nevertheless be authorized to select from such group in total one agency representative. For the purpose of the agency's initial organization, all persons defined as producers shall be considered as participating producers.

(a) If any cooperative association or combination of cooperative associations, as provided for under § 1065.113(b), has a majority of the participating producers, representation from such cooperative or group of cooperatives, as the case may be, shall be limited to the minimum number of representatives necessary to constitute a majority of the agency representatives, but not less than five.

§ 1065.112 Term of office.

The term of office of each member of the Agency shall be 1 year, or until a replacement is designated by the cooperative association or is otherwise appropriately elected.

§ 1065.113 Selection of Agency members.

The selection of Agency members shall be made pursuant to paragraphs (a), (b), and (c) of this section. Each person selected shall qualify by filing with the market administrator a written acceptance promptly after being notified of such selection.

(a) Each cooperative association authorized one or more representatives to the Agency shall notify the market administrator of the name and address of each representative who shall serve at the pleasure of the cooperative.

(b) For purposes of this program, cooperative associations may elect to combine their participating memberships and, if the combined total of participating producers of such cooperatives is 5 percent or more of the total participating producers, such cooperatives shall be eligible to select a representative(s) to the Agency under the rules of § 1065.111 and paragraph (a) of this section.

(c) Selection of Agency members to represent participating nonmember producers and participating producer members of a cooperative association(s) having less than the required 5 percent of the producers participating in the advertising and promotion program and who have not elected to combine memberships as provided in paragraph (b) of this section, shall be supervised by the market administrator in the following manner:

(1) Promptly after the effective date of this amending order, and annually thereafter, the market administrator shall give notice to participating producer members of such cooperatives and participating nonmember producers of their opportunity to nominate one or more producers as Agency representatives, as the case may be, and also shall specify the number of representatives to be selected.

(2) Following the closing date for nominations, the market administrator shall announce the nominees who are eligible for Agency membership and shall conduct a referendum among the individual participating producers eligible to vote. Election to membership shall be determined on the basis of the nominee (or nominees) receiving the largest number of eligible votes. If an elected representative subsequently discontinues producer status or is otherwise unable to complete his term of office, the market administrator shall appoint as his replacement the participating producer who received the next highest number of eligible votes.

§ 1065.114 Agency operating procedure.

A majority of the Agency members shall constitute a quorum. Any action of the Agency shall require a majority of concurring votes of those present and voting, unless the Agency determines that more than a simple majority shall be required.

§ 1065.115 Powers of the Agency.

The Agency is empowered to:

(a) Administer the terms and provisions of the program within the scope of Agency authority pursuant to § 1065.110;

(b) Make rules and regulations to effectuate the purposes of Public Law 91-670;

V 39 I 90
MAY 8 74
XUM

(c) Recommend amendments to the Secretary; and

(d) With the approval of the Secretary, enter into contracts and agreements with persons or organizations as deemed necessary to carry out advertising and promotion programs and projects specified in §§ 1065.110 and 1065.117.

§ 1065.116 Duties of the Agency.

The Agency shall perform all duties necessary to carry out the terms and provisions of this program including, but not limited to, the following:

(a) Meet, organize, and select from among its members a chairman and such other officers and committees as may be necessary, and adopt and make public such rules as may be necessary for the conduct of its business;

(b) Develop programs and projects pursuant to §§ 1065.110 and 1065.117;

(c) Keep minutes, books, and records and submit books and records for examination by the Secretary and furnish any information and reports requested by the Secretary;

(d) Prepare and submit to the Secretary for approval prior to each quarterly period a budget showing the projected amounts to be collected during the quarter and how such funds are to be disbursed by the Agency;

(e) When desirable, establish an advisory committee(s) of persons other than Agency members;

(f) Employ and fix the compensation of any person deemed to be necessary to its exercise of powers and performance of duties;

(g) Establish the rate of reimbursement to the members of the Agency for expenses in attending meetings, and pay the expenses of administering the Agency; and

(h) Provide for the bonding of all persons handling Agency funds in an amount and with surety thereon satisfactory to the Secretary.

§ 1065.117 Advertising, research, education, and promotion program.

The Agency shall develop and submit to the Secretary for approval all programs or projects undertaken under the authority of this part. Such programs or projects may provide for:

(a) The establishment, issuance, effectuation, and administration of appropriate programs or projects for the advertising and promotion of milk and milk products on a nonbrand basis;

(b) The utilization of the services of other organizations to carry out Agency programs and projects if the Agency finds that such activities will benefit producers under this part; and

(c) The establishment, support, and conduct of research and development projects and studies that the Agency finds will benefit all producers under this part.

§ 1065.118 Limitation of expenditures by the Agency.

(a) Not more than 5 percent of the funds received by the Agency pursuant to § 1065.121(b)(1) shall be utilized for administrative expense of the Agency.

(b) Agency funds shall not, in any manner, be used for political activity or for the purpose of influencing governmental policy or action, except in recommending to the Secretary amendments to the advertising and promotion program provisions of this part.

(c) Agency funds may not be expended to solicit producer participation.

(d) Agency funds may be used only for programs and projects promoting the domestic marketing and consumption of milk and its products.

§ 1065.119 Personal liability.

No member of the Agency shall be held personally responsible, either individually or jointly with others, in any way whatsoever to any person for errors in judgment, mistakes, or other acts, either of commission or omission, of such member in performance of his duties, except for acts of willful misconduct, gross negligence, or those which are criminal in nature.

§ 1065.120 Procedure for requesting refunds.

Any producer may apply for refund subject to the applicable conditions set forth in this section.

(a) Refund shall be accomplished only through application filed with, and in the manner prescribed by, the market administrator and signed by the producer. Only that information necessary to identify the producer and the records relevant to the refund may be required of such producer.

(b) Except as provided in paragraph (c) of this section, the request shall be submitted within the first 15 days of December, March, June, or September for milk to be marketed during the ensuing calendar quarter beginning on the first day of January, April, July, and October, respectively.

(c) A dairy farmer who first acquires producer status under this part after the 15th day of December, March, June, or September, as the case may be, and prior to the end of the ensuing calendar quarter may, upon application filed with the market administrator pursuant to paragraph (a) of this section, be eligible for refund on all marketings against which an assessment is withheld during such calendar quarter pursuant to § 1065.61(e): *Provided;* That, such eligibility for refund shall not apply to a dairy farmer who during the first 15 days of such December, March, June, or September, respectively, was a producer under an order where the same refund notification period applied and such dairy farmer did not appropriately submit refund application during such period. This paragraph also shall be applicable to all producers during the period following the effective date of this amending order to the beginning of the first full calendar quarter for which the opportunity exists for such producers to request refunds pursuant to paragraph (b) of this section.

(d) A dairy farmer who, with respect to any calendar quarter, has appropriately filed request for refund of program assessments on his marketings of milk under another order that provides for an advertising and promotion program will be eligible (on the basis of his request filed under the other order) for refunds with respect to his producer milk marketed under this order during such quarter for which deductions were made pursuant to § 1065.61(e).

§ 1065.121 Duties of the market administrator.

Except as specified in § 1065.116, the market administrator, in addition to other duties specified by this part, shall perform all the duties necessary to administer the terms and provisions of the advertising and promotion program including, but not limited to, the following:

(a) Within 30 days after the effective date of this amending order, and annually thereafter, conduct a referendum to determine representation on the Agency pursuant to § 1065.113(c);

(b) Set aside the amounts subtracted under § 1065.61(e) into an advertising and promotion fund, separately accounted for, from which shall be disbursed;

(1) To the Agency each month, all such funds less any necessary amount held in reserve to cover refunds pursuant to paragraph (b) (2) and (3) of this section, and payments to cover expenses of the market administrator incurred in the administration of the advertising and promotion program (including audit).

(2) Refund to producers the amounts of mandatory checkoff for advertising and promotion programs required under authority of State law applicable to such producers, but not in amounts that exceed a rate of 5 cents per hundredweight on the volume of milk pooled by any such producer for which deductions were made pursuant to § 1065.61(e).

(3) After the end of each calendar quarter, make a refund to each producer who has made application for such refund pursuant to § 1065.120. Such refund shall be computed at the rate of 5 cents per hundredweight of such producer's milk pooled for which deductions were made pursuant to § 1065.61(e) for such calendar quarter, less the amount of any refund otherwise made to the producer pursuant to paragraph (b)(2) of this section.

(c) Promptly after the effective date of this amending order, and thereafter with respect to new producers, forward to each producer a copy of the provisions of the advertising and promotion program (§§ 1065.110 through 1065.122).

(d) Make necessary audits to establish that all agency funds are used only for authorized purposes.

§ 1065.122 Liquidation.

In the event that the provisions of this advertising and promotion program are terminated, any remaining uncommitted funds applicable thereto shall revert to the producer-settlement fund of § 1065.70.

PART 1068—MILK IN MINNEAPOLIS-ST. PAUL, MINN., MARKETING AREA

Subpart—Order Regulating Handling

GENERAL PROVISIONS

Sec.
1068.1 General provisions.

Subpart—Order Regulating Handling

GENERAL PROVISIONS

§ 1068.1 General provisions.

The terms, definitions, and provisions in Part 1000 of this chapter are hereby incorporated by reference and made a part of this order.

DEFINITIONS

§ 1068.2 Minneapolis-St. Paul, Minn., marketing area.

"Minneapolis-St. Paul, Minn., marketing area" (referred to in this part as the "marketing area") means all the territory within the boundaries of the townships and counties listed below. The marketing area shall include all territory that is now, or in the future, occupied by Government (municipal, State, or Federal) reservations, installations, institutions, or other similar establishment if any part of such territory is within the designated geographical limits of the marketing area.

MINNESOTA COUNTIES

Anoka.	Mille Lacs.
Benton.	Pine.
Carver.	Ramsey.
Chisago.	Renville.
Dakota.	Scott.
Hennepin.	Sherburne.
Isanti.	Sibley.
Kanabec.	Stearns.
Kandiyohi.	Washington.
McLeod.	Wright.
Meeker.	

WISCONSIN COUNTIES

In Pierce County, the townships of:
Clifton. River Falls.

In St. Croix County, the townships of:

Hudson.	Stanton.
Kinnickinnic.	Star Prairie.
Richmond.	Troy.
St. Joseph.	Warren.
Somerset.	

§ 1068.3 Route disposition.

"Route disposition" means any delivery either inside or outside the marketing area (including disposition by a vendor or from a plant store or from vending machines) of any fluid milk product classified as Class I milk to a wholesale or retail stop, including any governmentally operated institution, but excluding any disposition of skim milk or butterfat not eligible for sale in fluid form as Grade A milk in the marketing area from a nonpool plant to any other plant or to a commercial processor of foods.

§ 1068.4 Plant.

"Plant" means the entire land, buildings, surroundings, facilities and equipment, whether owned or operated by one or more persons, maintained and operated at the same location primarily for the receiving, processing or other handling of milk or milk products (including filled milk). Under this definition any separate portion of a premises or facilities qualified under § 1068.7(b) used to receive, process, or otherwise handle milk shall be deemed to be a separate plant. This definition shall not include any building, premises, facilities, or equipment used primarily (a) to hold or store bottled milk or milk products (including filled milk) in finished form in transit for wholesale or retail distribution on a route(s), or (b) to transfer milk from one conveyance to another in transit from farm to plant of first receipt.

§ 1068.5 [Reserved]

§ 1068.6 [Reserved]

§ 1068.7 Pool plant.

"Pool plant" means any plant meeting the conditions of paragraph (a) or (b) of this section, but not any plant withdrawn pursuant to paragraph (c) of this section, or any plant exempt pursuant to paragraph (d) of this section.

(a) A plant in which milk is processed or packaged and from which not less than 15 percent of its total disposition of Class I milk (except filled milk) during the month either by the operator of such plant or by another person is route disposition within the marketing area: *Provided,* That the total quantity of Class I milk (except filled milk) disposed of from such plant during the month either inside or outside the marketing area, is equal to 30 percent or more of such plant's total receipts of skim milk and butterfat eligible for sale in fluid form as Grade A milk within the marketing area in any of the months of January through June, or to 50 percent or more of such total receipts in any of the months of July through December.

(b) Any plant from which during any month 30 percent or more of such plant's total receipts for such month from farms of skim milk or butterfat eligible for sale in fluid form as Grade A milk within the marketing area is delivered (except as filled milk) to (1) a plant(s) which has qualified pursuant to paragraph (a) of this section, (2) any other plants located within the marketing area from which route disposition is made within the marketing area, or (3) a governmentally owned and operated institution which disposes of Class I milk solely for use on its own premises or to its own facilities: *Provided,* That if during each of the months of September, October, and November, 30 percent or more of such plant's receipts of skim milk or butterfat for such month as described above is delivered as provided in this paragraph, it shall be a pool plant through the following August: *And provided further,* That any deliveries of milk by a cooperative association during the months of September, October, and November directly from a farm(s) of its producer member(s) to a plant(s) described in paragraph (a) of this section may be considered, for purposes of this paragraph, as having been received first at a plant of such cooperative association.

(c) Upon written request by the handler to the market administrator, received or postmarked on or before the last day of any month, any plant qualified as a pool plant pursuant to paragraph (b) of this section may be withdrawn from pool plant status beginning with the next month. Any such plant

V 39 90 MAY 8 74 XUM

withdrawn from automatic pool plant status may not regain such status prior to the next September 1 and then only by meeting the requirements set forth in the first proviso of paragraph (b) of this section in the same manner as a plant qualifying for pool plant status for the first time.

(d) The term "pool plant" shall not apply to the following plants:

(1) A producer-handler plant;

(2) A plant withdrawn pursuant to paragraph (c) of this section; or

(3) A plant qualified as a pool plant pursuant to paragraph (a) or (b) of this section if the conditions of paragraph (d)(3) (i) and (ii) of this section are met. Such plant shall be exempt from the provisions of this part except for reports that may be required pursuant to § 1068.30(d) and verification of such reports by the market administrator in accordance with § 1000.5 of this chapter:

(i) The Secretary determines that a greater quantity of milk in fluid form is disposed of from such plant to a regulated marketing area as defined in another order issued pursuant to the Act either as route disposition, excluding filled milk, or to pool plants qualified on the basis of route disposition than is disposed of from such plant in the Minneapolis-St. Paul marketing area either as route disposition, excluding filled milk, or to pool plants qualified on the basis of route disposition.

(ii) Such milk would be subject to the class price and producer payment provisions of the other marketing agreement or order upon being made exempt from this part.

§ 1068.8 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing, or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant and from which fluid milk products eligible for sale as Grade A in consumer-type packages or dispenser units or filled milk are disposed of as route disposition in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant and from which a Grade A fluid milk product or filled milk is shipped during the month to a pool plant.

§ 1068.9 Handler.

"Handler" means:

(a) Any person in his capacity as the operator of a pool plant(s);

(b) Any cooperative association with respect to milk of its members diverted for its account pursuant to § 1068.13;

(c) Any cooperative association qualifying as a handler pursuant to paragraph (a) of this section shall be, for the purposes of making payments pursuant to § 1068.71, the handler also with respect to producer milk caused to be delivered for the account of such association from the farms of producers to the pool plant(s) of an other handler(s);

(d) Any person in his capacity as the operator of a partially regulated distributing plant. This definition shall not apply to a governmentally owned and operated institution which disposes of Class I milk solely for use on its own premises or to its own facilities;

(e) A producer-handler,

(f) Any person in his capacity as the operator of an other order plant from which during the month there is route disposition in the marketing area or fluid milk products are shipped to a pool plant; or

(g) Any person in his capacity as the operator of an unregulated supply plant.

§ 1068.10 Producer-handler.

(a) "Producer-handler" means any person who meets all of the following conditions:

(1) Operates a dairy farm and a distribution plant at which Grade A milk of his own production is processed and packaged, and from which there is route disposition in the marketing area;

(2) Receives no milk or fluid milk products from the farms of other dairy farmers nor from any other source, except receipts of not more than 50,000 pounds of milk (3.5 percent milk equivalent of butterfat) during the month by transfer from pool plants of other handlers;

(3) Receives no nonfluid milk products from any source for use in reconstituting fluid milk products;

(4) Has route disposition consisting only of skim milk and butterfat obtained from his own farm production except that received pursuant to the exception set forth in paragraph (a)(2) of this section; and

(5) The maintenance, care and management of the dairy animals and other resources necessary to produce such milk and the processing, packaging, or distribution of such milk are the personal enterprise, and the personal risk, of such person.

(b) Any handler claiming producer-handler status shall furnish to the market administrator, for verification, evidence of his qualifications as a producer-handler pursuant to this section and shall furnish evidence of subsequent changes made in the manner of producing securing, or distributing milk that affect such qualifications as a producer-handler. Such verification by the market administrator shall be made within 15 days of receipt of the evidence and shall be effective as of the first day of the month during which verification is made.

§ 1068.11 [Reserved]

§ 1068.12 Producer.

(a) Except as provided in paragraph (b) of this section, "producer" means any person who produces milk in compliance with the Grade A inspection requirements of a duly constituted health authority, and whose milk is received at a pool plant as producer milk directly from the farm or diverted pursuant to § 1068.13.

(b) "Producer" shall not include:

(1) A producer-handler as defined in any order (including this part) issued pursuant to the Act;

(2) Any person with respect to milk produced by him which is diverted to a pool plant from an other order plant if the other order designates such person as a producer under that order and such milk is allocated to Class II or Class III utilization pursuant to § 1068.44(a)(8)(iii) and the corresponding step of § 1068.44(b); and

(3) Any person with respect to milk produced by him which is reported as diverted to an other order plant if any portion of such person's milk so moved is assigned to Class I under the provisions of such other order.

§ 1068.13 Producer milk.

"Producer milk" means the skim milk and butterfat in Grade A milk of a producer which is:

(a) Received at a pool plant directly from a producer; or

(b) Diverted from a pool plant to a nonpool plant that is not a producer-handler plant, subject to the following conditions:

(1) Such milk shall be priced at the location of the nonpool plant to which diverted;

(2) In any month that less than 6 days' production of a producer is delivered to pool plants the quantity of milk of the producer diverted during the month that exceeds that delivered to pool plants shall not be producer milk;

(3) During the months of September through November, a cooperative association handler may divert for his account the milk of any member producer. The total quantity of producer milk diverted by such handler in excess of 10 percent of the milk received from member producers at pool plants during the month shall not be producer milk;

(4) During the months of December through August, a cooperative association handler may divert for his account the milk of any member producer. The total quantity of producer milk diverted by such handler in excess of 25 percent of the milk received from member producers at pool plants during the month shall not be producer milk;

(5) During the months of September through November, the operator of a pool plant, other than a cooperative association, may divert for his account the milk of any producer other than a member of a cooperative association. The total quantity of producer milk diverted by such handler in excess of 10 percent of the milk received at such pool plant during the month from producers who are not members of a cooperative association shall not be producer milk;

(6) During the months of December through August, the operator of a pool plant, other than a cooperative association, may divert for his account the milk of any producer other than a member of a cooperative association. The total quantity of producer milk diverted by such handler in excess of 25 percent of the milk received at such pool plant during the month from producers who are not members of a cooperative association shall not be producer milk; and

(7) The diverting handler shall designate the dairy farmers whose milk is not producer milk pursuant to paragraph (b)(3), (4), (5), and (6) of this section. If the handler fails to make such designation, no milk diverted by him shall be producer milk.

§ 1068.14 Other source milk.

"Other source milk" means all skim milk and butterfat contained in or represented by:

(a) Receipts of fluid milk products and bulk products specified in § 1068.40(b)(1) from any source other than producers, handlers described in § 1068.9(c), or pool plants;

(b) Receipts in packaged form from other plants of products specified in § 1068.40(b)(1);

(c) Products (other than fluid milk products, products specified in § 1068.40(b)(1), and products produced at the plant during the same month) from any source which are reprocessed, converted into, or combined with another product in the plant during the month; and

(d) Receipts of any milk product (other than a fluid milk product or a product specified in § 1068.40(b)(1)) for which the handler fails to establish a disposition.

§ 1068.15 Fluid milk product.

(a) Except as provided in paragraph (b) of this section, "fluid milk product" means any of the following products in fluid or frozen form:

(1) Milk, skim milk, lowfat milk, milk drinks, buttermilk, filled milk, and milkshake and ice milk mixes containing less than 20 percent total solids, including any such products that are flavored, cultured, modified with added nonfat milk solids, concentrated (if in a consumer-type package), or reconstituted; and

(2) Any milk product not specified in paragraph (a)(1) of this section or in § 1068.40(b) or (c)(1) (i) through (v) if it contains by weight at least 80 percent water and 6.5 percent nonfat milk solids and less than 9 percent butterfat and 20 percent total solids.

(b) The term "fluid milk product" shall not include:

(1) Evaporated or condensed milk (plain or sweetened), evaporated or condensed skim milk (plain or sweetened), formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers, any product that contains by weight less than 6.5 percent nonfat milk solids, and whey; and

(2) The quantity of skim milk in any modified product specified in paragraph (a) of this section that is in excess of the quantity of skim milk in an equal volume of an unmodified product of the same nature and butterfat content.

§ 1068.16 Fluid cream product.

"Fluid cream product" means cream (other than plastic cream or frozen cream), sour cream, or a mixture (including a cultured mixture) of cream and milk or skim milk containing 9 percent or more butterfat, with or without the addition of other ingredients.

§ 1068.17 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted, or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers, or flavoring) resembles milk or any other fluid milk product, and contains less than 6 percent nonmilk fat (or oil).

§ 1068.18 Cooperative association.

"Cooperative association" means any cooperative marketing association of producers which the Secretary determines, after application by the association:

(a) Is qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act;"

(b) Has full authority in the sale of milk of its members and is engaged in making collective sales of or marketing milk or its products for its members; and

(c) Has its entire activities under the control of its members.

HANDLER REPORTS

§ 1068.30 Reports of receipts and utilization.

On or before the 10th day after the end of each month, each handler shall report for such month to the market administrator, in the detail and on the forms prescribed by the market administrator, as follows:

(a) Each handler, with respect to each of his pool plants, shall report the quantities of skim milk and butterfat contained in or represented by:

(1) Receipts of producer milk, including producer milk diverted by the handler from the pool plant to other plants;

(2) Receipts of milk from handlers described in § 1068.9(c);

(3) Receipts of fluid milk products and bulk fluid cream products from other pool plants;

(4) Receipts of other source milk;

(5) Inventories at the beginning and end of the month of fluid milk products and products specified in § 1068.40(b)(1); and

(6) The utilization or disposition of all milk, filled milk, and milk products required to be reported pursuant to this paragraph.

(b) Each handler operating a partially regulated distributing plant shall report with respect to such plant in the same manner as prescribed for reports required by paragraph (a) of this section. Receipts of milk that would have been producer milk if the plant had been fully regulated shall be reported in lieu of producer milk. Such report shall show also the quantity of any reconstituted skim milk in route disposition in the marketing area.

(c) Each handler described in § 1068.9(b) and (c) shall report:

(1) The quantities of all skim milk and butterfat contained in receipts of milk from producers; and

(2) The utilization or disposition of all such receipts.

(d) Each handler not specified in paragraphs (a) through (c) of this section shall report with respect to his receipts and utilization of milk, filled milk, and milk products in such manner as the market administrator may prescribe.

§ 1068.31 Payroll reports.

(a) On or before the last day of each month, each handler described in § 1068.9 (a), (b), and (c) shall report to the market administrator his producer payroll for the preceding month, in the detail prescribed by the market administrator, showing for each producer:

(1) His name and address;

(2) The total pounds of milk received from such producer;

(3) The average butterfat content of such milk; and

(4) The price per hundredweight, the gross amount due, the amount and nature of any deductions, and the net amount paid.

(b) Each handler operating a partially regulated distributing plant who elects to make payment pursuant to § 1068.76(b) shall report for each dairy farmer who would have been a producer if the plant had been fully regulated in the same manner as prescribed for reports required by paragraph (a) of this section.

§ 1068.32 Other reports.

In addition to the reports required pursuant to §§ 1068.30 and 1068.31, the following shall be reported to the market administrator:

(a) Each handler specified in § 1068.9(g) who operates an unregulated supply plant shall report as required in § 1068.30, except that the receipts of skim milk and butterfat in Grade A milk shall be reported in lieu of those in producer milk.

(b) Each handler shall report such other information as the market administrator deems necessary to verify or establish such handler's obligation under the order.

CLASSIFICATION OF MILK

§ 1068.40 Classes of utilization.

Except as provided in § 1068.42, all skim milk and butterfat required to be reported by a handler pursuant to § 1068.30 shall be classified as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid milk product, except as otherwise provided in paragraphs (b) and (c) of this section; and

V 39 I 90 MAY 8 74 XUM

(2) Not specifically accounted for as Class II or Class III milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid cream product, eggnog, yogurt, and any product containing 6 percent or more nonmilk fat (or oil) that resembles a fluid cream product, eggnog, or yogurt, except as otherwise provided in paragraph (c) of this section;

(2) In packaged inventory at the end of the month of the products specified in paragraph (b)(1) of this section;

(3) In bulk fluid milk products and bulk fluid cream products disposed of to any commercial food processing establishment (other than a milk or filled milk plant) at which food products (other than milk products and filled milk) are processed and from which there is no disposition of fluid milk products or fluid cream products other than those received in consumer-type packages; and

(4) Used to produce:

(i) Cottage cheese, lowfat cottage cheese, and dry curd cottage cheese;

(ii) Milkshake and ice milk mixes (or bases) containing 20 percent or more total solids, frozen desserts, and frozen dessert mixes;

(iii) Any concentrated milk product in bulk, fluid form other than that specified in paragraph (c)(1)(iv) of this section;

(iv) Plastic cream, frozen cream, and anhydrous milkfat;

(v) Custards, puddings, and pancake mixes; and

(vi) Formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers.

(c) *Class III milk.* Class III milk shall be all skim milk and butterfat:

(1) Used to produce:

(i) Cheese (other than cottage cheese, lowfat cottage cheese, and dry curd cottage cheese);

(ii) Butter;

(iii) Any milk product in dry form;

(iv) Any concentrated milk product in bulk, fluid form that is used to produce a Class III product;

(v) Evaporated or condensed milk (plain or sweetened) in a consumer-type package and evaporated or condensed skim milk (plain or sweetened) in a consumer-type package; and

(vi) Any product not otherwise specified in this section;

(2) In inventory at the end of the month of fluid milk products in bulk or packaged form and products specified in paragraph (b)(1) of this section in bulk form;

(3) In fluid milk products and products specified in paragraph (b)(1) of this section that are disposed of by a handler for animal feed;

(4) In fluid milk products and products specified in paragraph (b)(1) of this section that are dumped by a handler if the market administrator is notified of such dumping in advance and is given the opportunity to verify such disposition;

(5) In skim milk in any modified fluid milk product that is in excess of the quantity of skim milk in such product that was included within the fluid milk product definition pursuant to § 1068.15; and

(6) In shrinkage assigned pursuant to § 1068.41(a) to the receipts specified in § 1064.41(a)(2) and in shrinkage specified in § 1068.41 (b) and (c).

(7) Less 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products transferred to other plants that is not in excess of the respective amounts of skim milk and butterfat to which percentages are applied in paragraph (b) (1), (2), (4), (5), and (6) of this section; and

(c) The quantity of skim milk and butterfat, respectively, in shrinkage of milk from producers for which a cooperative association is the handler pursuant to § 1068.9 (b) or (c), but not in excess of 0.5 percent of the skim milk and butterfat, respectively, in such milk. If the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this paragraph for the cooperative association shall be zero.

§ 1068.41 Shrinkage.

For purposes of classifying all skim milk and butterfat to be reported by a handler pursuant to § 1068.30, the market administrator shall determine the following:

(a) The pro rata assignment of shrinkage of skim milk and butterfat, respectively, at each pool plant to the respective quantities of skim milk and butterfat:

(1) In the receipts specified in paragraph (b) (1) through (6) of this section on which shrinkage is allowed pursuant to such paragraph; and

(2) In other source milk not specified in paragraph (b) (1) through (6) of this section which was received in the form of a bulk fluid milk product or a bulk fluid cream product;

(b) The shrinkage of skim milk and butterfat, respectively, assigned pursuant to paragraph (a) of this section to the receipts specified in paragraph (a)(1) of this section that is not in excess of:

(1) Two percent of the skim milk and butterfat, respectively, in producer milk (excluding milk diverted by the plant operator to another plant);

(2) Plus 1.5 percent of the skim milk and butterfat, respectively, in milk received from a handler described in § 1068.9(c), except that if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be 2 percent;

(3) Plus 0.5 percent of the skim milk and butterfat, respectively, in producer milk diverted from such plant by the plant operator to another plant, except that if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be zero;

(4) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other pool plants;

(5) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other order plants, excluding the quantity for which Class II or Class III classification is requested by the operators of both plants;

(6) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received from unregulated supply plants, excluding the quantity for which Class II or Class III classification is requested by the handler; and

§ 1068.42 Classification of transfers and diversions.

(a) *Transfers to pool plants.* Skim milk or butterfat transferred in the form of a fluid milk product or a bulk fluid cream product from a pool plant to another pool plant shall be classified as Class I milk unless the operators of both plants request the same classification in another class. In either case, the classification of such transfers shall be subject to the following conditions:

(1) The skim milk or butterfat classified in each class shall be limited to the amount of skim milk and butterfat, respectively, remaining in such class at the transferee-plant after the computations pursuant to § 1068.44(a)(12) and the corresponding step of § 1068.44(b);

(2) If the transferor-plant received during the month other source milk to be allocated pursuant to § 1068.44(a)(7) or the corresponding step of § 1068.44(b), the skim milk or butterfat so transferred shall be classified so as to allocate the least possible Class I utilization to such other source milk; and

(3) If the transferor-handler received during the month other source milk to be allocated pursuant to § 1068.44(a)(11) or (12) or the corresponding steps of § 1068.44(b), the skim milk or butterfat so transferred up to the total of the skim milk and butterfat, respectively, in such receipts of other source milk, shall not be classified as Class I milk to a greater extent than would be the case if the other source milk had been received at the transferee-plant.

(b) *Transfers and diversions to other order plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream product from a pool plant to an other order plant shall be classified in the following manner. Such classification shall apply only to the skim milk or butterfat that is in excess of any receipts at the pool plant from the other order plant of skim milk and butterfat, respectively, in fluid milk products and bulk fluid cream products, respectively, that are in the same category as described in paragraph (b) (1), (2), or (3) of this section:

(1) If transferred as packaged fluid milk products, classification shall be in the classes to which allocated as a fluid milk product under the other order;

(2) If transferred in bulk form, classification shall be in the classes to which allocated under the other order (including allocation under the conditions set forth in paragraph (b)(3) of this section);

(3) If the operators of both plants so request in their reports of receipts and utilization filed with their respective market administrators, transfers or diversions in bulk form shall be classified as Class II or Class III milk to the extent of such utilization available for such classification pursuant to the allocation provisions of the other order;

(4) If information concerning the classes to which such transfers or diversions were allocated under the other order is not available to the market administrator for the purpose of establishing classification under this paragraph, classification shall be as Class I, subject to adjustment when such information is available;

(5) For purposes of this paragraph, if the other order provides for a different number of classes of utilization than is provided for under this part, skim milk or butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I milk, and skim milk or butterfat allocated to the other classes shall be classified as Class III milk; and

(6) If the form in which any fluid milk product that is transferred to an other order plant is not defined as a fluid milk product under such other order, classification under this paragraph shall be in accordance with the provisions of § 1068.40.

(c) *Transfers to producer-handlers.* Skim milk or butterfat transferred in the following forms from a pool plant to a producer-handler under this or any other Federal order shall be classified:

(1) As Class I milk, if transferred in the form of a fluid milk product; and

(2) In accordance with the utilization assigned to it by the market administrator, if transferred in the form of a bulk fluid cream product. For this purpose, the producer-handler's utilization of skim milk and butterfat in each class, in series beginning with Class III, shall be assigned to the extent possible to his receipts of skim milk and butterfat, respectively, in bulk fluid cream products, pro rata to each source.

(d) *Transfers and diversions to other nonpool plants.* Skim milk or butterfat transferred or diverted in the following forms from a pool plant to a nonpool plant that is not an other order plant or a producer-handler plant shall be classified:

(1) As Class I milk, if transferred in the form of a packaged fluid milk product; and

(2) As Class I milk, if transferred or diverted in the form of a bulk fluid milk product or a bulk fluid cream product, unless the following conditions apply:

(i) If the conditions described in paragraph (d)(2)(i) (a) and (b) of this section are met, transfers or diversions in bulk form shall be classified on the basis of the assignment of the nonpool plant's utilization to its receipts as set forth in paragraph (d)(2) (ii) through (viii) of this section:

(a) The transferor-handler or diverter-handler claims such classification in his report of receipts and utilization filed pursuant to § 1068.30 for the month within which such transaction occurred; and

(b) The nonpool plant operator maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available for verification purposes if requested by the market administrator;

(ii) Route disposition in the marketing area of each Federal milk order from the nonpool plant and transfers of packaged fluid milk products from such nonpool plant to plants fully regulated thereunder shall be assigned to the extent possible in the following sequence:

(a) Pro rata to receipts of packaged fluid milk products at such nonpool plant from pool plants;

(b) Pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from other order plants;

(c) Pro rata to receipts of bulk fluid milk products at such nonpool plant from pool plants; and

(d) Pro rata to any remaining unassigned receipts of bulk fluid milk products at such nonpool plant from other order plants;

(iii) Any remaining Class I disposition of packaged fluid milk products from the nonpool plant shall be assigned to the extent possible pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from pool plants and other order plants;

(iv) Transfers of bulk fluid milk products from the nonpool plant to a plant fully regulated under any Federal milk order, to the extent that such transfers to the regulated plant exceed receipts of fluid milk products from such plant and are allocated to Class I at the transferee-plant, shall be assigned to the extent possible in the following sequence:

(a) Pro rata to receipts of fluid milk products at such nonpool plant from pool plants; and

(b) Pro rata to any remaining unassigned receipts of fluid milk products at such nonpool plant from other order plants;

(v) Any remaining unassigned Class I disposition from the nonpool plant shall be assigned to the extent possible in the following sequence:

(a) To such nonpool plant's receipts from dairy farmers who the market administrator determines constitute regular sources of Grade A milk for such nonpool plant; and

(b) To such nonpool plant's receipts of Grade A milk from plants not fully regulated under any Federal milk order which the market administrator determines constitute regular sources of Grade A milk for such nonpool plant;

(vi) Any remaining unassigned receipts of bulk fluid milk products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class I utilization, then to Class III utilization, and then to Class II utilization at such nonpool plant;

(vii) Receipts of bulk fluid cream products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class III utilization, then to any remaining Class II utilization, and then to Class I utilization at such nonpool plant; and

(viii) In determining the nonpool plant's utilization for purposes of this subparagraph, any fluid milk products and bulk fluid cream products transferred from such nonpool plant to a plant not fully regulated under any Federal milk order shall be classified on the basis of the second plant's utilization using the same assignment priorities at the second plant that are set forth in this subparagraph.

§ 1068.43 General classification rules.

In determining the classification of producer milk pursuant to § 1068.44, the following rules shall apply:

(a) Each month the market administrator shall correct for mathematical and other obvious errors all reports filed pursuant to § 1068.30 and shall compute separately for each pool plant and for each cooperative association with respect to milk for which it is the handler pursuant to § 1068.9 (b) or (c) the pounds of skim milk and butterfat, respectively, in each class in accordance with §§ 1068.40, 1068.41, and 1068.42;

(b) If any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk in such product that are to be considered under this part as used or disposed of by the handler shall be an amount equivalent to the nonfat milk solids contained in such product plus all of the water originally associated with such solids;

(c) The classification of producer milk for which a cooperative association is the handler pursuant to § 1068.9 (b) or (c) shall be determined separately from the operations of any pool plant operated by such cooperative association; and

(d) For classification purposes, pursuant to §§ 1068.40 through 1068.45, butterfat in skim milk either disposed of to others or used in the manufacture of milk products shall be accounted for at a butterfat content of 0.065 percent, unless the handler has adequate records of the actual butterfat content of such skim milk.

§ 1068.44 Classification of producer milk.

For each month the market administrator shall determine the classification

V 39 I 90 MAY 8 74 XUM

of producer milk of each handler described in § 1068.9(a) for each of his pool plants separately and of each handler described in § 1068.9 (b) and (c) by allocating the handler's receipts of skim milk and butterfat to his utilization as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk in shrinkage specified in § 1068.41 (b);

(2) Subtract from the total pounds of skim milk in Class I the pounds of skim milk in receipts of packaged fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in fluid milk products received in packaged form from an other order plant, except that to be subtracted pursuant to paragraph (a)(7)(vi) of this section, as follows:

(i) From Class III milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(4) Subtract from the pounds of skim milk in Class II the pounds of skim milk in products specified in § 1068.40(b)(1) that were received in packaged form from other plants, but not in excess of the pounds of skim milk remaining in Class II;

(5) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in products specified in § 1068.40(b)(1) that were in inventory at the beginning of the month in packaged form, but not in excess of the pounds of skim milk remaining in Class II. This subparagraph shall apply only if the pool plant was subject to the provisions of this subparagraph or comparable provisions of another Federal milk order in the immediately preceding month;

(6) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in other source milk (except that received in the form of a fluid milk product or a fluid cream product) that is used to produce, or added to, any product specified in § 1068.40(b), but not in excess of the pounds of skim milk remaining in Class II;

(7) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk (except that received in the form of a fluid milk product) and, if paragraph (a)(5) of this section applies, packaged inventory at the beginning of the month of products specified in § 1068.40(b)(1) that was not subtracted pussuant to paragraph (a)(4), (5), and (6) of this section;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established;

(iii) Receipts of fluid milk products from unidentified sources;

(iv) Receipts of fluid milk products from a producer-handler as defined under this or any other Federal milk order;

(v) Receipts of reconstituted skim milk in filled milk from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) of this section; and

(vi) Receipts of reconstituted skim milk in filled milk from an other order plant that is regulated under any Federal milk order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor-plant;

(8) Subtract in the order specified below from the pounds of skim milk remaining in Class II and Class III, in sequence beginning with Class III:

(i) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) and (7)(v) of this section for which the handler requests a classification other than Class I, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(ii) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (7)(v), and (8)(i) of this section which are in excess of the pounds of skim milk determined pursuant to paragraph (a)(8)(ii) (a) through (c) of this section. Should the pounds of skim milk to be subtracted from Class II and Class III combined exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount:

(a) Multiply by 1.25 the sum of the pounds of skim milk remaining in Class I at this allocation step at all pool plants of the handler (excluding any duplication of Class I utilization resulting from reported Class I transfers between pool plants of the handler);

(b) Subtract from the above result the sum of the pounds of skim milk in receipts at all pool plants of the handler of producer milk, milk from a handler described in § 1068.9(c), fluid milk products from pool plants of other handlers, and bulk fluid milk products from other order plants that were not subtracted pursuant to paragraph (a)(7)(vi) of this section; and

(c) Multiply any plus quantity resulting above by the percentage that the receipts of skim milk in fluid milk products from unregulated supply plants that remain at this pool plant is of all such receipts remaining at this allocation step at all pool plants of the handler; and

(iii) The pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) of this section, if Class II or Class III classification is requested by the operator of the other order plant and the handler, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(9) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in fluid milk products and products specified in § 1068.40(b)(1) in inventory at the begining of the month that were not subtracted pursuant to paragraph (a)(5) and (7)(i) of this section;

(10) Add to the remaining pounds of skim milk in Class III the pounds of skim milk subtracted pursuant to paragraph (a)(1) of this section;

(11) Subject to the provisions of paragraph (a)(11)(i) and (ii) of this section, subtract from the pounds of skim milk remaining in each class at the plant, pro rata to the total pounds of skim milk remaining in Class I and in Class II and Class III combined at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler), with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, the pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (7)(v), and (8)(i) and (ii) of this section and that were not offset by transfers or diversions of fluid milk products to the same unregulated supply plant from which fluid milk products to be allocated at this step were received:

(i) Should the pounds of skim milk to be subtracted from Class II and Class III combined pursuant to this subparagraph exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount;

(ii) Should the pounds of skim milk to be subtracted from Class I pursuant to

this subparagraph exceed the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount, beginning with the nearest plant at which Class I utilization is available;

(12) Subtract in the manner specified below from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) and (8)(iii) of this section:

(i) Subject to the provisions of paragraph (a)(12)(ii), (iii), and (iv) of this section, such subtraction shall be pro rata to the pounds of skim milk in Class I and in Class II and Class III combined, with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, with respect to whichever of the following quantities represents the lower proportion of Class I milk:

(a) The estimated utilization of skim milk of all handlers in each class as announced for the month pursuant to § 1068.45(a); or

(b) The total pounds of skim milk remaining in each class at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler);

(ii) Should the proration pursuant to paragraph (a)(12)(i) of this section result in the total pounds of skim milk at all pool plants of the handler that are to be subtracted at this allocation step from Class II and Class III combined exceeding the pounds of skim milk remaining in Class II and Class III at all such plants, the pounds of such excess shall be subtracted from the pounds of skim milk remaining in Class I after such proration at the pool plants at which such other source milk was received;

(iii) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12)(i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class II and Class III combined that exceeds the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount;

(iv) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12)(i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class I that exceeds the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount beginning with the nearest plant at which Class I utilization is available;

(13) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products and bulk fluid cream products from another pool plant according to the classification of such products pursuant to § 1068.42(a); and

(14) If the total pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class III. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) The quantity of producer milk in each class shall be the combined pounds of skim milk and butterfat remaining in each class after the computations pursuant to paragraph (a)(14) of this section and the corresponding step of paragraph (b) of this section.

§ 1068.45 Market administrator's reports and announcements concerning classification.

The market administrator shall make the following reports and announcements concerning classification:

(a) Whenever required for the purpose of allocating receipts from other order plants pursuant to § 1068.44(a)(12) and the corresponding step of § 1068.44(b), estimate and publicly announce the utilization (to the nearest whole percentage) in each class during the month of skim milk and butterfat, respectively, in producer milk of all handlers. Such estimate shall be based upon the most current available data and shall be final for such purpose.

(b) Report to the market administrator of the other order, as soon as possible after the report of receipts and utilization for the month is received from a handler who has received fluid milk products or bulk fluid cream products from an other order plant, the class to which such receipts are allocated pursuant to § 1068.44 on the basis of such report, and, thereafter, any change in such allocation required to correct errors disclosed in the verification of such report.

(c) Furnish to each handler operating a pool plant who has shipped fluid milk products or bulk fluid cream products to an other order plant the class to which such shipments were allocated by the market administrator of the other order on the basis of the report by the receiving handler, and, as necessary, any changes in such allocation arising from the verification of such report.

Class Prices

§ 1068.50 Class prices.

Subject to the provisions of § 1068.52, the class prices for the month per hundredweight of milk containing 3.5 percent butterfat shall be as follows:

(a) *Class I price.* The Class I price shall be the basic formula price for the second preceding month plus $1.06.

(b) *Class II price.* The Class II price shall be the basic formula price for the month plus 10 cents.

(c) *Class III price.* The Class III price shall be the basic formula price for the month.

§ 1068.51 Basic formula price.

The "basic formula price" shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Minnesota and Wisconsin, as reported by the Department for the month, adjusted to a 3.5 percent butterfat basis and rounded to the nearest cent. For such adjustment, the butterfat differential (rounded to the nearest one-tenth cent) per one-tenth percent butterfat shall be 0.12 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month. For the purpose of computing the Class I price, the resulting price shall be not less than $4.33.

§ 1068.52 Plant location adjustments for handlers.

(a) The Class I price for producer milk received at a plant located at least 35 miles (as determined by the market administrator) from the Minnesota Transfer Viaduct at University Avenue in St. Paul, Minn., shall be reduced by an amount indicated below:

Plant location (miles)	*Amount of deduction (cents)*
Less than 35	0
35 but less than 45	6

For distances of 45 miles or more, an additional 1.5 cents for each 10 miles or fraction thereof beyond 45 miles.

(b) The Class I price applicable to other source milk shall be adjusted at the rates set forth in paragraph (a) of this section, except that the adjusted Class I price shall not be less than the Class III price.

V 39 90 MAY 8 74 XUM

§ 1068.53 Announcement of class prices.

The market administrator shall announce publicly on or before the fifth day of each month the Class I price for the following month and the Class II and Class III prices for the preceding month.

§ 1068.54 Equivalent price.

If for any reason a price or pricing constituent required by this part for computing class prices or for other purposes is not available as prescribed in this part, the market administrator shall use a price or pricing constituent determined by the Secretary to be equivalent to the price or pricing constituent that is required.

UNIFORM PRICE

§ 1068.60 Handler's value of milk for computing uniform price.

For the purpose of computing the uniform price, the market administrator shall determine for each month the value of milk of each handler with respect to each of his pool plants and of each handler described in § 1068.9 (b) and (c) as follows:

(a) Multiply the pounds of producer milk in each class as determined pursuant to § 1068.44 by the applicable class prices and add the resulting amounts;

(b) Add the amounts obtained from multiplying the pounds of overage subtracted from each class pursuant to § 1068.44(a)(14) and the corresponding step of § 1068.44(b) by the respective class prices, as adjusted by the butterfat differential specified in § 1068.74, that are applicable at the location of the pool plant;

(c) Add the amount obtained from multiplying the difference between the Class III price for the preceding month and the Class I price applicable at the location of the pool plant or the Class II price, as the case may be, for the current month by the hundredweight of skim milk and butterfat subtracted from Class I and Class II pursuant to § 1068.44(a)(9) and the corresponding step of § 1068.44(b);

(d) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the pool plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1068.44(a)(7) (i) through (iv) and the corresponding step of § 1068.44 (b), excluding receipts of bulk fluid cream products from an other order plant;

(e) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the transferor-plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1068.44(a)(7) (v) and (vi) and the corresponding step of § 1068.44(b);

(f) Add the amount obtained from multiplying the Class I price applicable at the location of the nearest unregulated supply plants from which an equivalent volume was received by the pounds of skim milk and butterfat subtracted from Class I pursuant to § 1068.44(a)(11) and the corresponding step of § 1068.44(b), excluding such skim milk and butterfat in receipts of bulk fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order; and

(g) For the first month that this paragraph is effective, subtract the amount obtained from multiplying the difference between the Class I price applicable at the location of the pool plant and the Class II price, both for the preceding month, by the hundredweight of skim milk and butterfat in any fluid milk product or product specified in § 1068.40 (b) that was in the plant's inventory at the end of the preceding month and classified as Class I milk.

§ 1068.61 Computation of uniform price.

For each month the market administrator shall compute a uniform price per hundredweight of milk of 3.5 percent butterfat content as follows:

(a) Combine into one total the values computed pursuant to § 1068.60 for all handlers who filed reports pursuant to § 1068.30 for the month and who made the payments pursuant to § 1068.71 for the preceding month;

(b) Add an amount equal to the total value of the location adjustments computed pursuant to § 1068.75;

(c) Add an amount equal to not less than one-half of the unobligated balance in the producer-settlement fund;

(d) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(1) The total hundredweight of producer milk; and

(2) The total hundredweight for which a value is computed pursuant to § 1068.60(f); and

(f) Subtract not less than 4 cents nor more than 5 cents per hundredweight. The result shall be the "uniform price" for milk received from producers.

§ 1068.62 Announcement of uniform price and butterfat differential.

The market administrator shall announce publicly on or before:

(a) The fifth day after the end of each month the butterfat differential for such month; and

(b) The 15th day after the end of each month the uniform price for such month.

PAYMENTS FOR MILK

§ 1068.70 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1068.71, 1068.76, and 1068.77 and out of which he shall make all payments due handlers pursuant to §§ 1068.72 and 1068.77: *Provided*, That the market administrator shall offset any payments due any handler against payments due from such handler.

§ 1068.71 Payments to the producer-settlement fund.

(a) On or before the 18th day after the end of the month, each handler shall pay to the market administrator the amount, if any, by which the amount specified in paragraph (a)(1) of this section exceeds the amount specified in paragraph (a)(2) of this section: *Provided*, That payment made by a cooperative association as a handler pursuant to this paragraph with respect to milk transferred to another handler from the pool plant of such cooperative association or caused to be delivered to such handler from the farms of producers for the account of such cooperative association shall not relieve the transferee-handler of any obligation on any such milk which is due the cooperative association, or otherwise due pursuant to §§ 1068.70 through 1068.75, §§ 1068.77 and 1068.78, and §§ 1068.85 and 1068.86:

(1) The total value of milk of the handler for such month as determined pursuant to § 1068.60.

(2) The sum of:

(i) The value at the uniform price, as adjusted pursuant to § 1068.75, of such handler's receipts of producer milk; and

(ii) The value at the uniform price applicable at the location of the plant from which received of other source milk for which a value is computed pursuant to § 1068.60(f).

(b) On or before the 25th day after the end of the month each person who operated an other order plant that was regulated during such month under an order providing for individual-handler pooling shall pay to the market administrator an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk in route disposition from such plant in the marketing area which was allocated to Class I at such plant. If there is such route disposition from such plant in marketing areas regulated by two or more marketwide pool orders, the reconstituted skim milk allocated to Class I shall be prorated to each other according to such route disposition in each marketing area; and

(2) Compute the value of the reconstituted skim milk assigned in paragraph (b)(1) of this section to route disposition in this marketing area by multiplying the quantity of such skim milk by the difference between the Class I price under this part that is applicable at the location of the other order plant (but not to be less than the Class III price) and the Class III price.

§ 1068.72 Payments from the producer-settlement fund.

On or before the 19th day after the end of each month, the market administrator shall pay, subject to the proviso of § 1068.70, to each handler the amount,

if any, by which the amount computed pursuant to § 1068.71(a)(2) exceeds the amount computed pursuant to § 1068.71(a)(1).

§ 1068.73 Payments to producers and to cooperative associations.

Each handler shall make payment for milk received from producers or cooperative associations as follows:

(a) On or before the 11th day after the end of the month in which the skim milk or butterfat was received, to a cooperative association which is a handler, for all skim milk and butterfat received from a pool plant(s) operated by such cooperative association or caused by it to be delivered to such handler from producers' farms, at not less than the class prices, as adjusted by the butterfat differential specified in § 1068.74, that are applicable at the location of the receiving handler's pool plant, less the amount of payment made pursuant to paragraph (c) of this section.

(b) On or before the 21st day after the end of the month during which the milk was received, to each producer for milk not caused to be delivered to such handler by a cooperative association which is a handler, as follows: *Provided*, That such payment shall be made, upon request, to a cooperative association which is not a handler, or to its duly authorized agent, with respect to milk received from each producer who has given such association authorization by contract or by other written instrument to collect the proceeds from the sale of his milk, and any payment made pursuant to this proviso shall be made on or before the 20th day after the end of such month:

(1) At not less than the uniform price computed pursuant to § 1068.61, subject to the butterfat and location differentials set forth in §§ 1068.74 and 1068.75, and less the amount of payment made pursuant to paragraph (c) of this section.

(c) Handlers (other than cooperative associations) shall make partial payments to producers and cooperative associations pursuant to paragraph (c)(1) and (2) of this section: *Provided*, That in the event any producer discontinues shipping to such handler during the month, such partial payment shall not be made and full payment for all milk received from such producer during such month shall be made pursuant to paragraphs (a) and (b) of this section.

(1) On or before the 25th day of each month, each handler shall make payment, except as set forth in paragraph (c)(2) of this section, to each producer, at not less than the applicable uniform price computed pursuant to § 1068.61 for the preceding month, for the milk of such producer received by such handler during the first 15 days of the current month;

(2) On or before the 20th day of each month, each handler shall make payment to a cooperative association which is not a handler for milk of producers from whom such association has received written authorization to collect payment, at not less than such uniform price for the preceding month, for all such milk received by such handler during the first 15 days of the current month; and

(3) On or before the 20th day of each month, each handler shall make payment to a cooperative association which is a handler, at not less than the Class I price for the current month pursuant to § 1068.50 for all skim and butterfat received from a pool plant(s) operated by such cooperative association, or caused by such association to be delivered from the producer's farms to such handler, during the first 15 days of the current month.

(4) All payments made pursuant to this paragraph shall be subject to the butterfat differential specified in § 1068.74 and location adjustments specified in § 1068.75 applicable at the location of the plant of the handler making the payment.

(d) In making payment to individual producers as required by this section, each handler shall furnish each producer from whom he received milk a supporting statement, in such form that it may be retained by the producer, which shall show:

(1) The month involved, and the identity of the handler and of the producer;

(2) The total pounds and the average butterfat content of the milk received from the producer;

(3) The minimum rate at which payment to the producer is required pursuant to this section;

(4) The rate used in making the payment if such rate is other than the applicable minimum;

(5) The amount (or rate) per hundredweight of each deduction claimed by the handler, including any deduction claimed under § 1068.86, together with a description of the respective deductions; and

(6) The net amount of the payment to the producer.

§ 1068.74 Butterfat differential.

For milk containing more or less than 3.5 percent butterfat, the uniform price shall be increased or decreased, respectively, for each one-tenth percent butterfat variation from 3.5 percent by a butterfat differential, rounded to the nearest one-tenth cent, which shall be 0.115 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month.

§ 1068.75 Plant location adjustments for producers and on nonpool milk.

(a) In making payments pursuant to § 1068.73 (b) and (c) for milk received at a pool plant located 35 miles or more from the Minnesota Transfer Viaduct at University Avenue in St. Paul, Minn., each handler shall deduct from the applicable price payable to such producers an amount in accordance with the location of the plant based on the rates set forth in § 1068.52; and

(b) For the purpose of computations pursuant to §§ 1068.71 and 1068.72, the uniform price shall be adjusted at the rates set forth in § 1068.52 applicable at the location of the nonpool plant from which the milk was received, except that the uniform price shall not be less than the Class III price.

§ 1068.76 Payments by handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant shall pay on or before the 25th day after the end of the month to the market administrator for the producer-settlement fund the amount computed pursuant to paragraph (a) of this section. If the handler submits pursuant to §§ 1068.30(b) and 1068.31(b) the information necessary for making the computations, such handler may elect to pay in lieu of such payment the amount computed pursuant to paragraph (b) of this section:

(a) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the pounds of route disposition in the marketing area from the partially regulated distributing plant;

that an equivalent amount of fluid milk products received at the partially regulated distributing plant:

(i) As Class I milk from pool plants and other order plants, except that subtracted under a similar provision of another Federal milk order; and

(ii) From another nonpool plant that is not an other order plant to the extent that an equivalent amount of fluid milk products disposed of to such nonpool plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract the pounds of reconstituted skim milk in route disposition in the marketing area from the partially regulated distributing plant;

(4) Multiply the remaining pounds by the difference between the Class I price and the uniform price, both prices to be applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price); and

(5) Add the amount obtained from multiplying the pounds of reconstituted skim milk specified in paragraph (a)(3) of this section by the difference between the Class I price applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price) and the Class III price.

(b) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the value that would have been computed pursuant to § 1068.60 for the partially regulated distributing plant if the plant had been a pool plant, subject to the following modifications:

(i) Fluid milk products and bulk fluid cream products received at the partially

V 39 90 MAY 8 74 XUM

regulated distributing plant from a pool plant or an other order plant shall be allocated at the partially regulated distributing plant to the same class in which such products were classified at the fully regulated plant;

(ii) Fluid milk products and bulk fluid cream products transferred from the partially regulated distributing plant to a pool plant or an other order plant shall be classified at the partially regulated distributing plant in the class to which allocated at the fully regulated plant. Such transfers shall be allocated to the extent possible to those receipts at the partially regulated distributing plant from pool plants and other order plants that are classified in the corresponding class pursuant to paragraph (b)(1)(i) of this section. Any such transfers remaining after the above allocation which are classified in Class I and for which a value is computed for the handler operating the partially regulated distributing plant pursuant to § 1068.60 shall be priced at the uniform price (or at the weighted average price if such is provided) of the respective order regulating the handling of milk at the transferee-plant, with such uniform price adjusted to the location of the nonpool plant (but not to be less than the lowest class price of the respective order), except that transfers of reconstituted skim milk in filled milk shall be priced at the lowest class price of the respective order; and

(iii) If the operator of the partially regulated distributing plant so requests, the value of milk determined pursuant to § 1068.60 for such handler shall include, in lieu of the value of other source milk specified in § 1068.60(f) less the value of such other source milk specified in § 1068.71(a)(2)(ii), a value of milk determined pursuant to § 1068.60 for each nonpool plant that is not an other order plant which serves as a supply plant for such partially regulated distributing plant by making shipments to the partially regulated distributing plant during the month equivalent to the requirements of § 1068.7(b), subject to the following conditions:

(a) The operator of the partially regulated distributing plant submits with his reports filed pursuant to §§ 1068.30 (b) and 1068.31(b) similar reports for each such nonpool supply plant;

(b) The operator of such nonpool supply plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for verification purposes; and

(c) The value of milk determined pursuant to § 1068.60 for such nonpool supply plant shall be determined in the same manner prescribed for computing the obligation of such partially regulated distributing plant; and

(2) From the partially regulated distributing plant's value of milk computed pursuant to paragraph (b)(1) of this section, subtract:

(i) The gross payments by the operator of such partially regulated distributing plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1068.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated;

(ii) If paragraph (b)(1)(iii) of this section applies, the gross payments by the operator of such nonpool supply plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1068.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated; and

(iii) The payments by the operator of the partially regulated distributing plant to the producer-settlement fund of another order under which such plant is also a partially regulated distributing plant and like payments by the operator of the nonpool supply plant if paragraph (b)(1)(iii) of this section applies.

§ 1068.77 Adjustment of accounts.

(a) Whenever verification by the market administrator of reports or payments by any handler discloses errors in payments to the producer-settlement fund pursuant to §1068.71, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 5 days of such billing, make payment to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler, the market administrator shall, within 5 days, make payment to such handler.

(b) Whenever verification by the market administrator of the payments by a handler to any producer or cooperative association discloses payment of less than is required by §1068.73, the handler shall pay the balance due such producer or cooperative association not later than the time for making payments next following such disclosure.

§ 1068.78 Charges on overdue accounts.

Any unpaid obligation of a handler pursuant to §§1068.71, 1068.76, and 1068.77(a), for which remittance has not been made by the close of business on the next day following the date specified for such payment shall be increased three-fourths of 1 percent for each month and any remaining amount due shall be increased at a similar rate on the corresponding day of each month thereafter until paid. The amounts payable pursuant to this section shall be computed monthly on each unpaid obligation, which shall include any unpaid charges previously made pursuant to this section; and for the purpose of this section any obligation that was determined at a date later than prescribed by the order because of a handler's failure to submit a report to the market administrator when due, shall be considered to have been payable by the date it would have been due if the report had been filed when due.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

§ 1068.85 Assessment for order administration.

As his pro rata share of the expense of administration of the order, each handler shall pay to the market administrator on or before the 15th day after the end of the month 3 cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to:

(a) Producer milk (including such handler's own production);

(b) Other source milk allocated to Class I pursuant to § 1068.44(a)(7) and (11) and the corresponding steps of § 1068.44(b), except such other source milk that is excluded from the computations pursuant to § 1068.60(d) and (f); and

(c) Route disposition in the marketing area from a partially regulated distributing plant that exceeds the skim milk and butterfat subtracted pursuant to § 1068.76(a)(2).

§ 1068.86 Deduction for marketing services.

(a) *Deductions for marketing services.* Except as set forth in paragraph (b) of this section, each handler, in making payments to producers (other than himself) pursuant to § 1068.73, shall make a deduction of 6 cents per hundredweight, or such lesser deduction as the Secretary from time to time may prescribe, with respect to all milk received from producers' farms during the month, and shall pay such deductions to the market administrator on or before the 18th day after the end of such month. Such moneys shall be expended by the market administrator for market information to, and for the verification of weights, sampling, and testing of milk received from, said producers.

(b) *Producers' cooperative associations.* In the case of producers for whom a cooperative association which the Secretary determines to be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act," is actually performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, no such deduction shall be made.

Subpart—Order Regulating Handling

GENERAL PROVISIONS

§ 1069.1 General provisions.

The terms, definitions, and provisions in Part 1000 of this chapter are hereby incorporated by reference and made a part of this order.

DEFINITIONS

§ 1069.2 Duluth-Superior marketing area.

"Duluth-Superior marketing area", hereinafter called the "marketing area", means all of the territory within Carlton County and the city of Duluth, in the State of Minnesota; and all of the territories within the counties of Ashland, Bayfield, and Douglas, in the State of Wisconsin.

§ 1069.3 Route disposition.

"Route disposition" means any delivery to retail or wholesale outlets (including delivery by a vendor or a sale from a plant or plant store) of any fluid milk product classified as Class I milk, other than a delivery in bulk form to a pool plant or nonpool plant.

§ 1069.4 [Reserved]

§ 1069.5 Distributing plant.

"Distributing plant" means a plant in which any Grade A fluid milk product is pasteurized or packaged and from which there is route disposition during the month in the marketing area.

§ 1069.6 Supply plant.

"Supply plant" means a plant from which Grade A milk is shipped during the month to a pool plant.

§ 1069.7 Pool plant.

Except as provided in paragraph (d) of this section, "pool plant" means:

(a) Any plant, hereinafter referred to as a "distributing pool plant", in which fluid milk products are pasteurized or packaged and from which there is route disposition during the month, except filled milk, equal to 50 percent or more of total receipts of Grade A milk at such plant from dairy farmers, from other plants, and from cooperative associations in their capacity as handlers and from which there is route disposition, except filled milk, in the marketing area equal to 10 percent or more of such total receipts: *Provided*, That such route disposition (not including filled milk) in the marketing area averages at least 500 pounds per day.

(b) Any plant, hereinafter referred to as a "supply pool plant", from which during the month 50 percent or more of its supply of Grade A milk from dairy farmers is moved to a distributing pool plant(s): *Provided*, That any supply plant which has qualified as a pool plant in each of the months of September, October, and November, shall be a pool plant for each of the following months of December through August unless written request for nonpool status is furnished in advance to the market administrator.

(c) A plant(s) (1) which is approved by a duly constituted health authority for the handling of Grade A milk, (2) which is operated by a cooperative association, and (3) from which the quantity of milk transferred by the association to plants specified in paragraph (a) of this section or delivered directly from the farm to such plants is equal to at least the following percentages, in the months indicated, of the quantity of Grade A milk delivered by all producers who are members of such association:

Month	Minimum percentage
September, October, November	40
April, May, June	20
All other months	30

The association shall furnish written notice to the market administrator specifying the plant(s) to be qualified pursuant to this paragraph and the period during which such consideration shall apply. Such notice, and notice of any change in designation, shall be furnished on or before the 7th day following the month to which such notice applies.

(d) The term "pool plant" shall not apply to the following plants:

(1) A producer-handler plant; and

(2) A plant which would be subject to the classification and pricing provisions of another order issued pursuant to the Act unless:

(i) Such plant is qualified as a pool plant pursuant to paragraph (a), (b), or (c) of this section and a greater volume of Class I milk, except filled milk, is disposed of from such plant in the Duluth-Superior marketing area than in the marketing area regulated pursuant to such other order; or

(ii) The Secretary determines that the applicable order should more appropriately be determined on some other basis.

§ 1069.8 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing, or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant and from which there is route disposition in consumer-type packages or dispenser units in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products are shipped during the month to a pool plant.

§ 1069.9 Handler.

"Handler" means:

(a) Any person in his capacity as the operator of a pool plant.

(b) Any cooperative association with respect to the milk of producers which is diverted pursuant to § 1069.12 for the account of such cooperative association.

(c) Any cooperative association which chooses to report as a handler with respect to the milk of its member producers which is delivered to the pool plant of another handler in a tank truck owned or operated by or under contract to such cooperative association for the account of such cooperative association. Such milk shall be considered as having been received by such cooperative association at the plant to which it is delivered.

(d) Any person who operates a partially regulated distributing plant.

(e) A producer-handler.

(f) Any person in his capacity as the operator of an other order plant that is either a distributing plant or a supply plant.

§ 1069.10 Producer-handler.

"Producer-handler" means a person who operates both a dairy farm(s) and a milk processing or bottling plant at which each of the following conditions are met during the month:

V 39 I 90 MAY 8 74 XUM

(a) Milk is received from the dairy farm(s) of such person but from no other dairy farm;

(b) There is route disposition in the marketing area; and

(c) The butterfat or skim milk disposed of in the form of fluid milk products does not exceed the butterfat or skim milk, respectively, received in the form of milk from the dairy farm(s) of such person and in the form of fluid milk products in bulk or in packaged form from pool plants of other handlers: *Provided*, That such person shall furnish to the market administrator for his verification, subject to review by the Secretary, evidence that the maintenance, care and management of the dairy animals and other resources necessary for the production of milk in his name are and continue to be the personal enterprise of and at the personal risk of such producer and the processing, packaging and distribution of the milk are and continue to be the personal enterprise of and at the personal risk of such person in his capacity as a handler.

§ 1069.11 [Reserved]

§ 1069.12 Producer.

(a) Except as provided in paragraph (b) of this section, "producer" means any person who produces milk in compliance with the Grade A inspection requirements of, or acceptable to, a duly constituted health authority, and whose milk is:

(1) Received at a pool plant; or

(2) Diverted from a pool plant to a nonpool plant by a handler or cooperative association for the account of such handler or cooperative association. Milk so diverted shall be deemed to have been received by the diverting handler at the plant from which it is diverted.

(b) "Producer" shall not include:

(1) A producer-handler as defined in any order (including this part) issued pursuant to the Act;

(2) Any person with respect to milk produced by him which is diverted to a pool plant from an other order plant if the other order designates such person as a producer under that order and such milk is allocated to Class II or Class III utilization pursuant to § 1069.44(a)(8)(iii) and the corresponding step of § 1069.44(b); and

(3) Any person with respect to milk produced by him which is reported as diverted to an other order plant if any portion of such person's milk so moved is assigned to Class I under the provisions of such other order.

§ 1069.13 Producer milk.

"Producer milk" means all skim milk and butterfat in milk produced by a producer and received at a pool plant directly from producers or diverted pursuant to § 1069.12.

§ 1069.14 Other source milk.

"Other source milk" means all skim milk and butterfat contained in or represented by:

(a) Receipts of fluid milk products and bulk products specified in § 1069.40(b)(1) from any source other than producers, handlers described in § 1069.9(c), or pool plants;

(b) Receipts in packaged form from other plants of products specified in § 1069.40(b)(1);

(c) Products (other than fluid milk products, products specified in § 1069.40(b)(1), and products produced at the plant during the same month) from any source which are reprocessed, converted into, or combined with another product in the plant during the month; and

(d) Receipts of any milk product (other than a fluid milk product or a product specified in §1069.40(b)(1)) for which the handler fails to establish a disposition.

§ 1069.15 Fluid milk product.

(a) Except as provided in paragraph (b) of this section, "fluid milk product" means any of the following products in fluid or frozen form:

(1) Milk, skim milk, lowfat milk, milk drinks, buttermilk, filled milk, and milkshake and ice milk mixes containing less than 20 percent total solids, including any such products that are flavored, cultured, modified with added nonfat milk solids, concentrated (if in a consumer-type package), or reconstituted; and

(2) Any milk product not specified in paragraph (a)(1) of this section or in § 1069.40 (b) or (c)(1) (i) through (v) if it contains by weight at least 80 percent water and 6.5 percent nonfat milk solids and less than 9 percent butterfat and 20 percent total solids.

(b) The term "fluid milk product" shall not include:

(1) Evaporated or condensed milk (plain or sweetened), evaporated or condensed skim milk (plain or sweetened), formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers, any product that contains by weight less than 6.5 percent nonfat milk solids, and whey; and

(2) The quantity of skim milk in any modified product specified in paragraph (a) of this section that is in excess of the quantity of skim milk in an equal volume of an unmodified product of the same nature and butterfat content.

§ 1069.16 Fluid cream product.

"Fluid cream product" means cream (other than plastic cream or frozen cream), sour cream, or a mixture (including a cultured mixture) of cream and milk or skim milk containing 9 percent or more butterfat, with or without the addition of other ingredients.

§ 1069.17 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted, or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers, or flavoring) resembles milk or any other fluid milk product, and contains less than 6 percent nonmilk fat (or oil).

§ 1069.18 Cooperative association.

"Cooperative association" means any cooperative marketing association of producers which the Secretary determines, after application by the association, to be qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act."

HANDLER REPORTS

§ 1069.30 Reports of receipts and utilization.

On or before the seventh day after the end of each month, each handler shall report for such month to the market administrator, in the detail and on the forms prescribed by the market administrator, as follows:

(a) Each handler, with respect to each of his pool plants, shall report the quantities of skim milk and butterfat contained in or represented by:

(1) Receipts of producer milk, including producer milk diverted by the handler from the pool plant to other plants;

(2) Receipts of milk from handlers described in § 1069.9(c);

(3) Receipts of fluid milk products and bulk fluid cream products from other pool plants;

(4) Receipts of other source milk;

(5) Inventories at the beginning and end of the month of fluid milk products and products specified in § 1069.40(b)(1); and

(6) The utilization or disposition of all milk, filled milk, and milk products required to be reported pursuant to this paragraph.

(b) Each handler operating a partially regulated distributing plant shall report with respect to such plant in the same manner as prescribed for reports required by paragraph (a) of this section. Receipts of milk that would have been producer milk if the plant had been fully regulated shall be reported in lieu of producer milk. Such report shall show also the quantity of any reconstituted skim milk in route disposition in the marketing area.

(c) Each handler described in § 1069.9(b) and (c) shall report:

(1) The quantities of all skim milk and butterfat contained in receipts of milk from producers; and

(2) The utilization or disposition of all such receipts.

(d) Each handler not specified in paragraphs (a) through (c) of this section shall report with respect to his receipts and utilization of milk, filled milk, and milk products in such manner as the market administrator may prescribe.

§ 1069.31 Payroll reports.

(a) On or before the 25th day after the end of each month, each handler described in § 1069.9 (a), (b), and (c) shall report to the market administrator his producer payroll for such month, in the detail prescribed by the market administrator, showing for each producer:

(1) His name and address;

(2) The total pounds of milk received from such producer;

(3) The average butterfat content of such milk; and

(4) The price per hundredweight, the gross amount due, the amount and nature of any deductions, and the net amount paid.

(b) Each handler operating a partially regulated distributing plant who elects to make payment pursuant to § 1069.76(b) shall report for each dairy farmer who would have been a producer if the plant had been fully regulated in the same manner as prescribed for reports required by paragraph (a) of this section.

§ 1069.32 Other reports.

In addition to the reports required pursuant to §§ 1069.30 and 1069.31, each handler shall report such other information as the market administrator deems necessary to verify or establish such handler's obligation under the order.

CLASSIFICATION OF MILK

§ 1069.40 Classes of utilization.

Except as provided in § 1069.42, all skim milk and butterfat required to be reported by a handler pursuant to § 1069.30 shall be classified as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid milk product, except as otherwise provided in paragraphs (b) and (c) of this section; and

(2) Not specifically accounted for as Class II or Class III milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid cream product, eggnog, yogurt, and any product containing 6 percent or more nonmilk fat (or oil) that resembles a fluid cream product, eggnog, or yogurt, except as otherwise provided in paragraph (c) of this section;

(2) In packaged inventory at the end of the month of the products specified in paragraph (b)(1) of this section;

(3) In bulk fluid milk products and bulk fluid cream products disposed of to any commercial food processing establishment (other than a milk or filled milk plant) at which food products (other than milk products and filled milk) are processed and from which there is no disposition of fluid milk products or fluid cream products other than those received in consumer-type packages; and

(4) Used to produce:

(i) Cottage cheese, lowfat cottage cheese, and dry curd cottage cheese;

(ii) Milkshake and ice milk mixes (or bases) containing 20 percent or more total solids, frozen desserts, and frozen dessert mixes;

(iii) Any concentrated milk product in bulk, fluid form other than that specified in paragraph (c)(1)(iv) of this section;

(iv) Plastic cream, frozen cream, and anhydrous milkfat;

(v) Custards, puddings, and pancake mixes; and

(vi) Formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers.

(c) *Class III milk.* Class III milk shall be all skim milk and butterfat:

(1) Used to produce:

(i) Cheese (other than cottage cheese, lowfat cottage cheese, and dry curd cottage cheese);

(ii) Butter;

(iii) Any milk product in dry form;

(iv) Any concentrated milk product in bulk, fluid form that is used to produce a Class III product;

(v) Evaporated or condensed milk (plain or sweetened) in a consumer-type package and evaporated or condensed skim milk (plain or sweetened) in a consumer-type package; and

(vi) Any product not otherwise specified in this section;

(2) In inventory at the end of the month of fluid milk products in bulk or packaged form and products specified in paragraph (b)(1) of this section in bulk form;

(3) In fluid milk products and products specified in paragraph (b)(1) of this section that are disposed of by a handler for animal feed;

(4) In fluid milk products and products specified in paragraph (b)(1) of this section that are dumped by a handler if the market administrator is notified of such dumping in advance and is given the opportunity to verify such disposition;

(5) In skim milk in any modified fluid milk product that is in excess of the quantity of skim milk in such product that was included within the fluid milk product definition pursuant to § 1069.15; and

(6) In shrinkage assigned pursuant to § 1069.41(a) to the receipts specified in § 1069.41(a)(2) and in shrinkage specified in § 1069.41 (b) and (c).

§ 1069.41 Shrinkage.

For purposes of classifying all skim milk and butterfat to be reported by a handler pursuant to § 1069.30, the market administrator shall determine the following:

(a) The pro rata assignment of shrinkage of skim milk and butterfat, respectively, at each pool plant to the respective quantities of skim milk and butterfat:

(1) In the receipts specified in paragraph (b)(1) through (6) of this section on which shrinkage is allowed pursuant to such paragraph; and

(2) In other source milk not specified in paragraph (b)(1) through (6) of this section which was received in the form of a bulk fluid milk product or a bulk fluid cream product;

(b) The shrinkage of skim milk and butterfat, respectively, assigned pursuant to paragraph (a) of this section to the receipts specified in paragraph (a)(1) of this section that is not in excess of:

(1) Two percent of the skim milk and butterfat, respectively, in producer milk (excluding milk diverted by the plant operator to another plant);

(2) Plus 1.5 percent of the skim milk and butterfat, respectively, in milk received from a handler described in § 1069.9(c), except that if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be 2 percent;

(3) Plus 0.5 percent of the skim milk and butterfat, respectively, in producer milk diverted from such plant by the plant operator to another plant, except that if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be zero;

(4) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other pool plants;

(5) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other order plants, excluding the quantity for which Class II or Class III classification is requested by the operators of both plants;

(6) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received from unregulated supply plants, excluding the quantity for which Class II or Class III classification is requested by the handler; and

(7) Less 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products transferred to other plants that is not in excess of the respective amounts of skim milk and butterfat to which percentages are applied in paragraphs (b) (1), (2), (4), (5), and (6), of this section; and

(c) The quantity of skim milk and butterfat, respectively, in shrinkage of milk from producers for which a cooperative association is the handler pursuant to § 1069.9 (b) or (c), but not in excess of 0.5 percent of the skim milk and butterfat, respectively, in such milk. If the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this paragraph for the cooperative association shall be zero.

§ 1069.42 Classification of transfers and diversions.

(a) *Transfers to pool plants.* Skim milk or butterfat transferred in the form of a fluid milk product or a bulk fluid cream product from a pool plant to another pool plant shall be classified as Class I milk unless the operators of both plants request the same classification in another class. In either case, the classification of such transfers shall be subject to the following conditions:

(1) The skim milk or butterfat classified in each class shall be limited to the amount of skim milk and butterfat, respectively, remaining in such class at the transferee-plant after the computations pursuant to § 1069.44(a)(12) and the corresponding step of § 1069.44(b);

(2) If the transferor-plant received during the month other source milk to

V 39 190
MAY 8 74
XUM

be allocated pursuant to § 1069.44(a)(7) or the corresponding step of § 1069.44(b), the skim milk or butterfat so transferred shall be classified so as to allocate the least possible Class I utilization to such other source milk; and

(3) If the transferor-handler received during the month other source milk to be allocated pursuant to § 1069.44(a) (11) or (12) or the corresponding steps of § 1069.44(b), the skim milk or butterfat so transferred, up to the total of the skim milk and butterfat, respectively, in such receipts of other source milk, shall not be classified as Class I milk to a greater extent than would be the case if the other source milk had been received at the transferee-plant.

(b) *Transfers and diversions to other order plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream product from a pool plant to an other order plant shall be classified in the following manner. Such classification shall apply only to the skim milk or butterfat that is in excess of any receipts at the pool plant from the other order plant of skim milk and butterfat, respectively, in fluid milk products and bulk fluid cream products, respectively, that are in the same category as described in paragraph (b) (1), (2), or (3) of this section:

(1) If transferred as packaged fluid milk products, classification shall be in the classes to which allocated as a fluid milk product under the other order;

(2) If transferred in bulk form, classification shall be in the classes to which allocated under the other order (including allocation under the conditions set forth in paragraph (b) (3) of this section);

(3) If the operators of both plants so request in their reports of receipts and utilization filed with their respective market administrators, transfers or diversions in bulk form shall be classified as Class II or Class III milk to the extent of such utilization available for such classification pursuant to the allocation provisions of the other order;

(4) If information concerning the classes to which such transfers or diversions were allocated under the other order is not available to the market administrator for the purpose of establishing classification under this paragraph, classification shall be as Class I, subject to adjustment when such information is available;

(5) For purposes of this paragraph, if the other order provides for a different number of classes of utilization than is provided for under this part, skim milk or butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I milk, and skim milk or butterfat allocated to the other classes shall be classified as Class III milk; and

(6) If the form in which any fluid milk product that is transferred to an other order plant is not defined as a fluid milk product under such other order, classification under this paragraph shall be in accordance with the provisions of § 1069.40.

(c) *Transfers and diversions to producer-handlers.* Skim milk or butterfat transferred or diverted in the following forms from a pool plant to a producer-handler under this or any other Federal order shall be classified:

(1) As Class I milk, if transferred or diverted in the form of a fluid milk product; and

(2) In accordance with the utilization assigned to it by the market administrator, if transferred in the form of a bulk fluid cream product. For this purpose, the producer-handler's utilization of skim milk and butterfat in each class, in series beginning with Class III, shall be assigned to the extent possible to his receipts of skim milk and butterfat, respectively, in bulk fluid cream products, pro rata to each source.

(d) *Transfers and diversions to other nonpool plants.* Skim milk or butterfat transferred or diverted in the following forms from a pool plant to a nonpool plant that is not an other order plant or a producer-handler plant shall be classified:

(1) As Class I milk, if transferred in the form of a packaged fluid milk product; and

(2) As Class I milk, if transferred or diverted in the form of a bulk fluid milk product or a bulk fluid cream product, unless the following conditions apply:

(i) If the conditions described in paragraphs (d)(2)(i) (*a*) and (*b*) of this section are met, transfers or diversions in bulk form shall be classified on the basis of the assignment of the nonpool plant's utilization to its receipts as set forth in paragraphs (d)(2) (ii) through (viii) of this section:

(*a*) The transferor-handler or diverter-handler claims such classification in his report of receipts and utilization filed pursuant to § 1069.30 for the month within which such transaction occurred; and

(*b*) The nonpool plant operator maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available for verification purposes if requested by the market administrator;

(ii) Route disposition in the marketing area of each Federal milk order from the nonpool plant and transfers of packaged fluid milk products from such nonpool plant to plants fully regulated thereunder shall be assigned to the extent possible in the following sequence:

(*a*) Pro rata to receipts of packaged fluid milk products at such nonpool plant from pool plants;

(*b*) Pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from other order plants;

(*c*) Pro rata to receipts of bulk fluid milk products at such nonpool plant from pool plants; and

(*d*) Pro rata to any remaining unassigned receipts of bulk fluid milk products at such nonpool plant from other order plants;

(iii) Any remaining Class I disposition of packaged fluid milk products from the nonpool plant shall be assigned to the extent possible pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from pool plants and other order plants;

(iv) Transfers of bulk fluid milk products from the nonpool plant to a plant fully regulated under any Federal milk order, to the extent that such transfers to the regulated plant exceed receipts of fluid milk products from such plant and are allocated to Class I at the transferee-plant, shall be assigned to the extent possible in the following sequence:

(*a*) Pro rata to receipts of fluid milk products at such nonpool plant from pool plants; and

(*b*) Pro rata to any remaining unassigned receipts of fluid milk products at such nonpool plant from other order plants;

(v) Any remaining unassigned Class I disposition from the nonpool plant shall be assigned to the extent possible in the following sequence:

(*a*) To such nonpool plant's receipts from dairy farmers who the market administrator determines constitute regular sources of Grade A milk for such nonpool plant; and

(*b*) To such nonpool plant's receipts of Grade A milk from plants not fully regulated under any Federal milk order which the market administrator determines constitute regular sources of Grade A milk for such nonpool plant;

(vi) Any remaining unassigned receipts of bulk fluid milk products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class I utilization, then to Class III utilization, and then to Class II utilization at such nonpool plant;

(vii) Receipts of bulk fluid cream products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class III utilization, then to any remaining Class II utilization, and then to Class I utilization at such nonpool plant; and

(viii) In determining the nonpool plant's utilization for purposes of this subparagraph, any fluid milk products and bulk fluid cream products transferred from such nonpool plant to a plant not fully regulated under any Federal milk order shall be classified on the basis of the second plant's utilization using the same assignment priorities at the second plant that are set forth in this subparagraph.

§ 1069.43 General classification rules.

In determining the classification of producer milk pursuant to § 1069.44, the following rules shall apply:

(a) Each month the market administrator shall correct for mathematical and other obvious errors all reports filed pursuant to § 1069.30 and shall compute separately for each pool plant and for each cooperative association with respect to milk for which it is the handler pursuant to § 1069.9 (b) or (c) the pounds of skim milk and butterfat, respectively, in each class in accordance with §§ 1069.40, 1069.41, and 1069.42;

(b) If any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk in such product that are to be considered under this part as used or disposed of by the handler shall be an amount equivalent to the nonfat milk solids contained in such product plus all of the water originally associated with such solids; and

(c) The classification of producer milk for which a cooperative association is the handler pursuant to § 1069.9 (b) or (c) shall be determined separately from the operations of any pool plant operated by such cooperative association.

§ 1069.44 Classification of producer milk.

For each month the market administrator shall determine the classification of producer milk of each handler described in § 1069.9(a) for each of his pool plants separately and of each handler described in § 1069.9 (b) and (c) by allocating the handler's receipts of skim milk and butterfat to his utilization as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk in shrinkage specified in § 1069.41 (b);

(2) Subtract from the total pounds of skim milk in Class I the pounds of skim milk in receipts of packaged fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in fluid milk products received in packaged form from an other order plant, except that to be subtracted pursuant to paragraph (a)(7)(vi) of this section, as follows:

(i) From Class III milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(4) Subtract from the pounds of skim milk in Class II the pounds of skim milk in products specified in § 1069.40(b)(1) that were received in packaged form from other plants, but not in excess of the pounds of skim milk remaining in Class II;

(5) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in products specified in § 1069.40(b)(1) that were in inventory at the beginning of the month in packaged form, but not in excess of the pounds of skim milk remaining in Class II. This subparagraph shall apply only if the pool plant was subject to the provisions of this subparagraph or comparable provisions of another Federal milk order in the immediately preceding month;

(6) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in other source milk (except that received in the form of a fluid milk product or a fluid cream product) that is used to produce, or added to, any product specified in § 1069.40(b), but not in excess of the pounds of skim milk remaining in Class II;

(7) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk (except that received in the form of a fluid milk product) and, if paragraph (a)(5) of this section applies, packaged inventory at the beginning of the month of products specified in § 1069.40(b)(1) that was not subtracted pursuant to paragraph (a)(4), (5), and (6) of this section;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established;

(iii) Receipts of fluid milk products from unidentified sources;

(iv) Receipts of fluid milk products from a producer-handler as defined under this or any other Federal milk order;

(v) Receipts of reconstituted skim milk in filled milk from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) of this section; and

(vi) Receipts of reconstituted skim milk in filled milk from an other order plant that is regulated under any Federal milk order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor-plant;

(8) Subtract in the order specified below from the pounds of skim milk remaining in Class II and Class III, in sequence beginning with Class III:

(i) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) and (7)(v) of this section for which the handler requests a classification other than Class I, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(ii) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (7)(v), and (8)(i) of this section which are in excess of the pounds of skim milk determined pursuant to paragraph (a)(8)(ii) (*a*) through (*c*) of this section. Should the pounds of skim milk to be subtracted from Class II and Class III combined exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount:

(*a*) Multiply by 1.25 the sum of the pounds of skim milk remaining in Class I at this allocation step at all pool plants of the handler (excluding any duplication of Class I utilization resulting from reported Class I transfers between pool plants of the handler);

(*b*) Subtract from the above result the sum of the pounds of skim milk in receipts at all pool plants of the handler of producer milk, milk from a handler described in § 1069.9(c), fluid milk products from pool plants of other handlers, and bulk fluid milk products from other order plants that were not subtracted pursuant to paragraph (a)(7)(vi) of this section; and

(*c*) Multiply any plus quantity resulting above by the percentage that the receipts of skim milk in fluid milk products from unregulated supply plants that remain at this pool plant is of all such receipts remaining at this allocation step at all pool plants of the handler; and

(iii) The pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) of this section, if Class II or Class III classification is requested by the operator of the other order plant and the handler, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(9) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in fluid milk products and products specified in § 1069.40(b)(1) in inventory at the beginning of the month that were not subtracted pursuant to paragraph (a)(5) and (7)(i) of this section;

(10) Add to the remaining pounds of skim milk in Class III the pounds of skim milk subtracted pursuant to paragraph (a)(1) of this section;

(11) Subject to the provisions of paragraph (a)(11) (i) and (ii) of this section, subtract from the pounds of skim milk remaining in each class at the plant, pro rata to the total pounds of skim milk remaining in Class I and in Class II and Class III combined at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler), with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, the pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted

V 39 90 MAY 8 74 XUM

pursuant to paragraph (a)(2), (7)(v), and 8 (i) and (ii) of this section and that were not offset by transfers or diversions of fluid milk products to the same unregulated supply plant from which fluid milk products to be allocated at this step were received:

(i) Should the pounds of skim milk to be subtracted from Class II and Class III combined pursuant to this subparagraph exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(ii) Should the pounds of skim milk to be subtracted from Class I pursuant to this subparagraph exceed the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount, beginning with the nearest plant at which Class I utilization is available;

(12) Subtract in the manner specified below from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) and (8)(iii) of this section:

(i) Subject to the provisions of paragraph (a)(12)(ii), (iii), and (iv) of this section, such subtraction shall be prorata to the pounds of skim milk in Class I and in Class II and Class III combined, with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, with respect to whichever of the following quantities represents the lower proportion of Class I milk:

(*a*) The estimated utilization of skim milk of all handlers in each class as announced for the month pursuant to § 1069.45(a); or

(*b*) The total pounds of skim milk remaining in each class at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler);

(ii) Should the proration pursuant to paragraph (a)(12)(i) of this section result in the total pounds of skim milk at all pool plants of the handler that are to be subtracted at this allocation step from Class II and Class III combined exceeding the pounds of skim milk remaining in Class II and Class III at all such plants, the pounds of such excess shall be subtracted from the pounds of skim milk remaining in Class I after such proration at the pool plants at which such other source milk was received;

(iii) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12)(i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class II and Class III combined that exceeds the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plant shall be adjusted in the reverse direction by a like amount; and

(iv) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12)(i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class I that exceeds the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount beginning with the nearest plant at which Class I utilization is available;

(13) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products and bulk fluid cream products from another pool plant according to the classification of such products pursuant to § 1069.42(a); and

(14) If the total pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class III. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) The quantity of producer milk in each class shall be the combined pounds of skim milk and butterfat remaining in each class after the computations pursuant to paragraph (a)(14) of this section and the corresponding step of paragraph (b) of this section.

§ 1069.45 Market administrator's reports and announcements concerning classification.

The market administrator shall make the following reports and announcements concerning classification:

(a) Whenever required for the purpose of allocating receipts from other order plants pursuant to § 1069.44(a)(12) and the corresponding step of § 1069.44(b), estimate and publicly announce the utilization (to the nearest whole percentage) in each class during the month of skim milk and butterfat, respectively, in producer milk of all handlers. Such estimate shall be based upon the most current available data and shall be final for such purpose.

(b) Report to the market administrator of the other order, as soon as possible after the report of receipts and utilization for the month is received from a handler who has received fluid milk products or bulk fluid cream products from an other order plant, the class to which such receipts are allocated pursuant to § 1069.44 on the basis of such report, and, thereafter, any change in such allocation required to correct errors disclosed in the verification of such report.

(c) Furnish to each handler operating a pool plant who has shipped fluid milk products or bulk fluid cream products to an other order plant the class to which such shipments were allocated by the market administrator of the other order on the basis of the report by the receiving handler, and, as necessary, any changes in such allocation arising from the verification of such report.

Class Prices

§ 1069.50 Class prices.

Subject to the provisions of § 1069.52, the class prices for the month per hundredweight of milk containing 3.5 percent butterfat shall be as follows:

(a) *Class I price.* The Class I price shall be the basic formula price for the second preceding month plus $1.10.

(b) *Class II price.* The Class II price shall be the basic formula price for the month plus 10 cents.

(c) *Class III price.* The Class III price shall be the basic formula price for the month.

§ 1069.51 Basic formula price.

The "basic formula price" shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Minnesota and Wisconsin, as reported by the Department for the month, adjusted to a 3.5 percent butterfat basis and rounded to the nearest cent. For such adjustment, the butterfat differential (rounded to the nearest 0.1 cent) per 0.1 percent butterfat shall be 0.12 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month. For the purpose of computing the Class I price, the resulting price shall be not less than $4.33.

§ 1069.52 Plant location adjustments for handlers.

(a) For producer milk which is received at a plant located more than 55 miles by the shortest highway distance, as determined by the market administrator, from the Courthouse at Duluth, Minn., or Ashland, Wis., whichever is closer, and which is classified as Class I milk, the price specified in § 1069.50(a) shall be reduced by 8 cents if such plant is located more than 55 miles but not more than 65 miles from such courthouse and by an additional 1.3 cents for each 10 miles or fraction thereof that such distance exceeds 65 miles.

(b) For the purpose of calculating location adjustments, receipts of fluid milk products from pool plants shall be assigned any remainder of Class I milk at the transferee-plant that is in excess of the sum of producer milk receipts at such plant and that assigned as Class I to receipts from other order plants and unregulated supply plants. Such assignment shall be made first to transferor-plants at which no location adjustment credit is applicable and then in sequence beginning with the plant at which the least location adjustment would apply.

(c) The Class I price applicable to other source milk shall be adjusted at the rates set forth in paragraph (a) of this section, except that the adjusted Class I price shall not be less than the Class III price.

§ 1069.53 Announcement of class prices.

The market administrator shall announce publicly on or before the fifth day of each month the Class I price for the following month and the Class II and Class III prices for the preceding month.

§ 1069.54 Equivalent price.

If for any reason a price or pricing constituent required by this part for computing class prices or for other purposes is not available as prescribed in this part, the market administrator shall use a price or pricing constituent determined by the Secretary to be equivalent to the price or pricing constituent that is required.

Uniform Price

§ 1069.60 Handler's value of milk for computing uniform price.

For the purpose of computing the uniform price, the market administrator shall determine for each month the value of milk of each handler with respect to each of his pool plants and of each handler described in § 1069.9(b) and (c) as follows:

(a) Multiply the pounds of producer milk in each class as determined pursuant to § 1069.44 by the applicable class prices and add the resulting amounts;

(b) Add the amounts obtained from multiplying the pounds of overage subtracted from each class pursuant to § 1069.44(a)(14) and the corresponding step of § 1069.44(b) by the respective class prices, as adjusted by the butterfat differential specified in § 1069.74, that are applicable at the location of the pool plant;

(c) Add the amount obtained from multiplying the difference between the Class III price for the preceding month and the Class I price applicable at the location of the pool plant or the Class II price, as the case may be, for the current month by the hundredweight of skim milk and butterfat subtracted from Class I and Class II pursuant to § 1069.44(a)(9) and the corresponding step of § 1069.44(b);

(d) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the pool plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1069.44(a)(7)(i) through (iv) and the corresponding step of § 1069.44(b), excluding receipts of bulk fluid cream products from an other order plant;

(e) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the transferor-plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1069.44(a)(7)(v) and (vi) and the corresponding step of § 1069.44(b); and

(f) Add the amount obtained from multiplying the Class I price applicable at the location of the nearest unregulated supply plants from which an equivalent volume was received by the pounds of skim milk and butterfat subtracted from Class I pursuant to § 1069.44(a)(11) and the corresponding step of § 1069.44(b), excluding such skim milk and butterfat in receipts of bulk fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order.

§ 1069.61 Computation of uniform price.

For each month the market administrator shall compute the uniform price per hundredweight of milk of 3.5 percent butterfat content received from producers as follows:

(a) Combine into one total the values computed pursuant to § 1069.60 for all handlers who filed the reports prescribed by § 1069.30 for the month and who made the payments pursuant to §§ 1069.71 and 1069.73 for the preceding month;

(b) Add an amount equal to the total value of the location adjustments computed pursuant to § 1069.75;

(c) Add an amount equal to one-half the unobligated balance in the producer-settlement fund;

(d) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(1) The total hundredweight of producer milk; and

(2) The total hundredweight for which a value is computed pursuant to § 1069.60(f); and

(e) Subtract not less than 4 cents nor more than 5 cents per hundredweight. The result shall be the "uniform price".

§ 1069.62 Announcement of uniform price and butterfat differential.

The market administrator shall announce publicly on or before:

(a) The fifth day after the end of each month the butterfat differential for such month; and

(b) The 12th day after the end of each month the uniform price for such month.

Payments for Milk

§ 1069.70 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1069.71, 1069.76, and 1069.77, and out of which he shall make payments to handlers pursuant to §§ 1069.72 and 1069.77: *Provided,* That any payments due to any handler shall be offset by any payments due from such handler.

§ 1069.71 Payments to the producer-settlement fund.

(a) On or before the 15th day after the end of the month, each handler shall pay to the market administrator the amount, if any, by which the amount specified in paragraph (a)(1) of this section exceeds the amount specified in paragraph (a)(2) of this section:

(1) The total value of milk of the handler for such month as determined pursuant to § 1069.60.

(2) The sum of:

(i) The value at the uniform price, as adjusted pursuant to § 1069.75, of such handler's receipts of producer milk; and

(ii) The value at the uniform price applicable at the location of the plant from which received of other source milk for which a value is computed pursuant to § 1069.60(f).

(b) On or before the 25th day after the end of the month each person who operated an other order plant that was regulated during such month under an order providing for individual-handler pooling shall pay to the market administrator an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk in route disposition from such plant in the marketing area which was allocated to Class I at such plant. If there is such route disposition from such plant in marketing areas regulated by two or more marketwide pool orders, the reconstituted skim milk allocated to Class I shall be prorated to each order according to such route disposition in each marketing area; and

(2) Compute the value of the reconstituted skim milk assigned in paragraph (b)(1) of this section to route disposition in this marketing area by multiplying the quantity of such skim milk by the difference between the Class I price under this part that is applicable at the location of the other order plant (but

V 39 90 MAY 8 74 XUM

not to be less than the Class III price) and the Class III price.

§ 1069.72 Payments from the producer-settlement fund.

On or before the 17th day after the end of each month the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1069.71(a)(2) exceeds the amount computed pursuant to § 1069.71(a)(1). If at such time the balance in the producer-settlement fund is insufficient to make all payments required by this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the appropriate funds are available.

§ 1069.73 Payments to producers and to cooperative associations.

On or before the 20th day after the end of each month, each handler shall make payments as follows:

(a) To each producer from whom milk was received during the month at not less than the uniform price per hundredweight computed pursuant to § 1069.61 subject to the butterfat differential computed pursuant to § 1069.74 and the location adjustment computed pursuant to § 1069.75 and less (1) deductions for marketing services pursuant to § 1069.86, and (2) other proper deductions: *Provided*, That with respect to each deduction for hauling, or for any other purpose, made from such payment, the burden shall rest upon the handler making the deduction to prove that each deduction is authorized, and properly chargeable to the producer: *And provided further*, That if by such date such handler has not received full payment from the market administrator pursuant to § 1069.72, he may reduce pro rata his payment to producers by not more than the amount of such underpayment. Payment to producers shall be completed thereafter not later than the date for making payment pursuant to this paragraph next following after receipt of the balance due from the market administrator;

(b) A handler who has not received on the 20th day after the end of each month the balance of the payments due him from the market administrator shall not be deemed to be in violation of paragraph (a) of this section if he reduced his payments to producers by not more than the amount of the reduction payment from the producer-settlement fund. The handler shall, however, complete such payments not later than the date for making such payments next following receipt of the balance from the market administrator; and

(c) On or before the 15th day after the end of each month, to each cooperative association with respect to receipts of milk for which such cooperative association is defined as the handler not less than the value of such milk at the class prices, as adjusted by the butterfat differential specified in § 1069.74, that are applicable at the location of the receiving handler's pool plant.

§ 1069.74 Butterfat differential.

For milk containing more or less than 3.5 percent butterfat, the uniform price shall be increased or decreased, respectively, for each one-tenth percent butterfat variation from 3.5 percent by a butterfat differential, rounded to the nearest one-tenth cent, which shall be 0.115 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month.

§ 1069.75 Plant location adjustments for producers and on nonpool milk.

(a) For milk which is received at a pool plant located more than 55 miles but not more than 65 miles by shortest highway distance, as determined by the market administrator, from the courthouse at Duluth, Minn., or at Ashland, Wis., whichever is closer, there should be deducted 8 cents per hundredweight and an additional 1.3 cents should be deducted for each 10 miles or fraction thereof that such distance exceeds 65 miles; and

(b) For purposes of computations pursuant to §§ 1069.71 and 1069.72 the uniform price shall be adjusted at the rates set forth in § 1069.52 applicable at the location of the nonpool plant from which the milk was received, except that the adjusted uniform price shall not be less than the Class III price.

§ 1069.76 Payments by handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant shall pay on or before the 25th day after the end of the month to the market administrator for the producer-settlement fund the amount computed pursuant to paragraph (a) of this section. If the handler submits pursuant to §§ 1069.30(b) and 1069.31(b) the information necessary for making the computations, such handler may elect to pay in lieu of such payment the amount computed pursuant to paragraph (b) of this section:

(a) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the pounds of route disposition in the marketing area from the partially regulated distributing plant;

(2) Subtract the pounds of fluid milk products received at the partially regulated distributing plant:

(i) As Class I milk from pool plants and other order plants, except that subtracted under a similar provision of another Federal milk order; and

(ii) From another nonpool plant that is not an other order plant to the extent that an equivalent amount of fluid milk products disposed of to such nonpool plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract the pounds of reconstituted skim milk in route disposition in the marketing area from the partially regulated distributing plant;

(4) Multiply the remaining pounds by the difference between the Class I price and the uniform price, both prices to be applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price); and

(5) Add the amount obtained from multiplying the pounds of reconstituted skim milk specified in paragraph (a)(3) of this section by the difference between the Class I price applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price) and the Class III price.

(b) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the value that would have been computed pursuant to § 1069.60 for the partially regulated distributing plant if the plant had been a pool plant, subject to the following modifications:

(i) Fluid milk products and bulk fluid cream products received at the partially regulated distributing plant from a pool plant or an other order plant shall be allocated at the partially regulated distributing plant to the same class in which such products were classified at the fully regulated plant;

(ii) Fluid milk products and bulk fluid cream products transferred from the partially regulated distributing plant to a pool plant or an other order plant shall be classified at the partially regulated distributing plant in the class to which allocated at the fully regulated plant. Such transfers shall be allocated to the extent possible to those receipts at the partially regulated distributing plant from pool plants and other order plants that are classified in the corresponding class pursuant to paragraph (b)(1)(i) of this section. Any such transfers remaining after the above allocation which are classified in Class I and for which a value is computed for the handler operating the partially regulated distributing plant pursuant to § 1069.60 shall be priced at the uniform price (or at the weighted average price if such is provided) of the respective order regulating the handling of milk at the transferee-plant, with such uniform price adjusted to the location of the nonpool plant (but not to be less than the lowest class price of the respective order), except that transfers of reconstituted skim milk in filled milk shall be priced at the lowest class price of the respective order; and

(iii) If the operator of the partially regulated distributing plant so requests, the value of milk determined pursuant to § 1069.60 for such handler shall include, in lieu of the value of other source milk specified in § 1069.60(f) less the value of such other source milk specified in § 1069.71(a)(2)(ii), a value of milk determined pursuant to § 1069.60 for each nonpool plant that is not an other order plant which serves as a supply plant for such partially regulated distributing plant by making shipments to the partially regulated distributing plant during the month equivalent to the requirements of § 1069.7(b), subject to the following conditions:

(a) The operator of the partially regulated distributing plant submits with his reports filed pursuant to §§ 1069.30(b) and 1069.31(b) similar reports for each such nonpool supply plant;

(b) The operator of such nonpool supply plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for verification purposes; and

(c) The value of milk determined pursuant to § 1069.60 for such nonpool supply plant shall be determined in the same manner prescribed for computing the obligation of such partially regulated distributing plant; and

(2) From the partially regulated distributing plant's value of milk computed pursuant to paragraph (b)(1) of this section, subtract:

(i) The gross payments by the operator of such partially regulated distributing plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1069.74 for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated;

(ii) If paragraph (b)(1)(iii) of this section applies, the gross payments by the operator of such nonpool supply plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1069.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated; and

(iii) The payments by the operator of the partially regulated distributing plant to the producer-settlement fund of another order under which such plant is also a partially regulated distributing plant and like payments by the operator of the nonpool supply plant if paragraph (b)(1)(iii) of this section applies.

§ 1069.77 Adjustment of accounts.

Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses errors resulting in moneys due (a) the market administrator from such handler, (b) such handler from the market administrator, or (c) any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any amount due and payment thereof shall be made on or before the next date for making payments set forth in the provision under which such error occurred.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

§ 1069.85 Assessment for order administration.

As his pro rata share of the expense of administration of the order, each handler shall pay to the market administrator on or before the 15th day after the end of the month 4 cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to:

(a) Producer milk (including such handler's own production);

(b) Other source milk allocated to Class I pursuant to § 1069.44(a)(7) and (11) and the corresponding steps of § 1069.44(b), except such other source milk that is excluded from the computations pursuant to § 1069.60(d) and (f); and

(c) Class I milk disposed of in the marketing area from a partially regulated distributing plant that exceeds the skim milk and butterfat subtracted pursuant to § 1069.76(a)(2).

§ 1069.86 Deduction for marketing services.

(a) Except as set forth in paragraph (b) of this section, each handler, in making payments to producers pursuant to § 1069.73, with respect to all milk received from each producer at a plant not operated by a cooperative association qualified under paragraph (b) of this section of which such producer is a member, shall deduct an amount not exceeding 3 cents per hundredweight (the exact amount to be determined by the market administrator subject to review by the Secretary) from the payments made direct to such producers and such handler shall pay such deductions to the market administrator on or before the 15th day after the end of such month. Such moneys shall be used by the market administrator to provide market information and to verify the accuracy of weights, sampling and testing of milk received from such producers.

(b) In the case of milk of producers who are members of a cooperative association which is actually performing the services described in paragraph (a) of this section, which is received at a plant not operated by such cooperative association, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions from the payments to be made direct to such producers pursuant to § 1069.73, as are authorized by such producers and, on or before the 15th day after the end of such month, pay such deductions to such cooperative association.

PART 1070—MILK IN THE CEDAR RAPIDS-IOWA CITY MARKETING AREA

Subpart—Order Regulating Handling

GENERAL PROVISIONS

Sec.
1070.1 General provisions.

DEFINITIONS

1070.2 Cedar Rapids-Iowa City marketing area.

PAYMENTS FOR MILK

1070.70 Producer-settlement fund:
1070.71 Payments to the producer-settlement fund.
1070.72 Payments from the producer-settlement fund.
1070.73 Payments to producers and to cooperative associations.
1070.74 Butterfat differential.
1070.75 Plant location adjustments for producers.
1070.76 Payments by handler operating a partially regulated distributing plant.
1070.77 Adjustment of accounts.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

1070.85 Assessment for order administration.
1070.86 Deduction for marketing services.

AUTHORITY: Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674).

Subpart—Order Regulating Handling

GENERAL PROVISIONS

§ 1070.1 General provisions.

The terms, definitions, and provisions in Part 1000 of this chapter are hereby incorporated by reference and made a part of this order.

DEFINITIONS

§ 1070.2 Cedar Rapids-Iowa City marketing area.

"Cedar Rapids-Iowa City marketing area", called the "marketing area" in this part, means all the territory within the corporate limits of the cities of Cedar Rapids and Iowa City, both in the State of Iowa.

V 39 90
MAY 8 74
XUM

§ 1070.3 [Reserved]

§ 1070.4 [Reserved]

§ 1070.5 Distributing plant.

"Distributing plant" means a plant in which any Grade A fluid milk product is processed or packaged and disposed of during the month on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except pool plants) located in the marketing area.

§ 1070.6 Supply plant.

"Supply plant" means a plant from which Grade A milk or skim milk is shipped during the month to a pool plant qualified pursuant to § 1070.7.

§ 1070.7 Pool plant.

Except as provided in paragraph (e) of this section, "pool plant" means:

(a) A distributing plant from which a volume of Class I milk, except filled milk, equal to not less than 35 percent of the Grade A milk received at such plant from dairy farmers and from other plants is disposed of during the month on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except pool plants) and not less than 15 percent of such receipts are so disposed of to such outlets in the marketing area.

(b) A supply plant from which the volume of fluid milk products, except filled milk, shipped during the month to pool plants qualified pursuant to paragraph (a) of this section is not less than 35 percent of the Grade A milk received at such plant from dairy farmers during such month: *Provided*, That if such shipments are not less than 50 percent of the receipts of Grade A milk at such plant during the immediately preceding period of September through November, such plant may, upon written application to the market administrator on or before March 1 of any year, be designated as a pool plant for the months of March through June of such year.

(c) A plant (1) which is approved by a duly constituted health authority for the handling of Grade A milk; (2) which is operated by a cooperative association; and (3) from which the milk transferred by the association to plants of other handlers specified in paragraph (a) of this section plus that delivered by such association pursuant to paragraph (d) of this section and that delivered directly from the farms of members of such association to such plants is Grade A milk delivered by producers who are members of the association. If written application is filed with the market administrator on or before the 5th day of any month, such plant may be designated a nonpool plant for such month and for any subsequent months, except as provided in paragraph (e) of this section.

(d) A cooperative association with respect to Grade A milk received from dairy farmers at their farms in a tank truck owned or operated by such cooperative association and delivered in such tank truck to a pool plant: *Provided*, That such milk shall be deemed to have been received by the cooperative association at the location of the pool plant to which it is delivered by the tank truck and such location shall be deemed to be the location of such cooperative association in its capacity as the operator of a pool plant.

(e) The term "pool plant" shall not apply to the following plants:

(1) A producer-handler plant; and

(2) A plant specified in paragraph (a), (b), (c), or (d) of this section during any month in which such plant would be subject to the classification and pricing provisions of another order issued pursuant to the act unless the disposition of fluid milk products, except filled milk, from such plant to pool plants qualified under this section and to retail and wholesale outlets in the Cedar Rapids-Iowa City marketing area exceeds such disposition to retail and wholesale outlets in such other marketing area and to pool plants regulated by such other order.

§ 1070.8 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing, or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant from which fluid milk products are shipped during the month to a pool plant.

§ 1070.9 Handler.

"Handler" means:

(a) Any person in his capacity as the operator of one or more pool plants;

(b) A cooperative association with respect to producer milk diverted by the association for its account pursuant to § 1070.13;

(c) [Reserved]

(d) Any person who operates a partially regulated distributing plant;

(e) A producer-handler; and

(f) Any person who operates an other order plant described in § 1070.7(e).

§ 1070.10 Producer-handler.

"Producer-handler" means any person who operates a dairy farm and a distributing plant but who receives no milk from other dairy farmers or from a cooperative association in its capacity as the operator of a pool plant pursuant to § 1070.7(d) and whose disposition of fluid milk products does not exceed that (a) received from a pool plant, (b) processed from milk of his own production, or (c) processed from fluid milk products received from a pool plant.

§ 1070.11 [Reserved]

§ 1070.12 Producer.

(a) Except as provided in paragraph (b) of this section, "producer" means any person who produces milk in compliance with the Grade A inspection requirements of a duly constituted health authority, and whose milk is received at a pool plant.

(b) "Producer" shall not include:

(1) A producer-handler as defined in any order (including this part) issued pursuant to the Act;

(2) Any person with respect to milk produced by him which is diverted to a pool plant from an other order plant if the other order designates such person as a producer under that order and such milk is allocated to Class II or Class III utilization pursuant to § 1070.44(a)(8)(iii) and the corresponding step of § 1070.44(b); and

(3) Any person with respect to milk produced by him which is reported as diverted to an other order plant if any portion of such person's milk so moved is assigned to Class I under the provisions of such other order.

§ 1070.13 Producer milk.

"Producer milk" means all skim milk and butterfat produced by producers which is:

(a) Received at a pool plant directly from producers; or

(b) Diverted from a pool plant to a nonpool plant that is not a producer-handler plant for the account of the operator of a pool plant or a cooperative association, subject to the following:

(1) Such diversions may be without limit during the months of April through August, but not be for more than 25 days' production of any producer during any other month and milk diverted in excess of this limit shall not be producer milk;

(2) Milk so diverted for the account of the operator of a pool plant shall be deemed to have been received at the plant from which diverted; and

(3) Milk so diverted from the plant of another handler for the account of a cooperative association shall be priced at the location of the plant from which diverted.

§ 1070.14 Other source milk.

"Other source milk" means all skim milk and butterfat contained in or represented by:

(a) Receipts of fluid milk products and bulk products specified in § 1070.40(b)(1) from any source other than producers, or pool plants;

(b) Receipts in packaged form from other plants of products specified in § 1070.40(b)(1);

(c) Products (other than fluid milk products, products specified in § 1070.40(b)(1), and products produced at the plant during the same month) from any source which are reprocessed, converted into, or combined with another product in the plant during the month; and

(d) Receipts of any milk product (other than a fluid milk product or a product specified in § 1070.40(b)(1)) for which the handler fails to establish a disposition.

§ 1070.15 Fluid milk product.

(a) Except as provided in paragraph (b) of this section, "fluid milk product" means any of the following products in fluid or frozen form:

(1) Milk, skim milk, lowfat milk, milk drinks, buttermilk, filled milk, and milkshake and ice milk mixes containing less than 20 percent total solids, including any such products that are flavored, cultured, modified with added nonfat milk solids, concentrated (if in a consumer-type package), or reconstituted; and

(2) Any milk product not specified in paragraph (a)(1) of this section or in § 1070.40(b) or (c)(1)(i) through (v) if it contains by weight at least 80 percent water and 6.5 percent nonfat milk solids and less than 9 percent butterfat and 20 percent total solids.

(b) The term "fluid milk product" shall not include:

(1) Evaporated or condensed milk (plain or sweetened), evaporated or condensed skim milk (plain or sweetened), formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers, any product that contains by weight less than 6.5 percent nonfat milk solids, and whey; and

(2) The quantity of skim milk in any modified product specified in paragraph (a) of this section that is in excess of the quantity of skim milk in an equal volume of an unmodified product of the same nature and butterfat content.

§ 1070.16 Fluid cream product.

"Fluid cream product" means cream (other than plastic cream or frozen cream), sour cream, or a mixture (including a cultured mixture) of cream and milk or skim milk containing 9 percent or more butterfat, with or without the addition of other ingredients.

§ 1070.17 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted, or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers, or flavoring) resembles milk or any other fluid milk product, and contains less than 6 percent nonmilk fat (or oil).

§ 1070.18 Cooperative association.

"Cooperative association" means any cooperative marketing association which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales of or marketing milk or its products for its members.

HANDLER REPORTS

§ 1070.30 Reports of receipts and utilization.

On or before the 7th day after the end of each month, each handler shall report for such month to the market administrator, in the detail and on the forms prescribed by the market administrator, as follows:

(a) Each handler, with respect to each of his pool plants, shall report the quantities of skim milk and butterfat contained in or represented by:

(1) Receipts of producer milk, including producer milk diverted by the handler from the pool plant to other plants;

(2) [Reserved]

(3) Receipts of fluid milk products and bulk fluid cream products from other pool plants;

(4) Receipts of other source milk;

(5) Inventories at the beginning and end of the month of fluid milk products and products specified in § 1070.40(b)(1); and

(6) The utilization or disposition of all milk, filled milk, and milk products required to be reported pursuant to this paragraph.

(b) Each handler operating a partially regulated distributing plant shall report with respect to such plant in the same manner as prescribed for reports required by paragraph (a) of this section. Receipts of milk that would have been producer milk if the plant had been fully regulated shall be reported in lieu of producer milk. Such report shall show also the quantity of any reconstituted skim milk in route disposition of fluid milk products in the marketing area.

(c) Each handler described in § 1070.9(b) shall report:

(1) The quantities of all skim milk and butterfat contained in receipts of milk from producers; and

(2) The utilization or disposition of all such receipts.

(d) Each handler not specified in paragraphs (a) through (c) of this section shall report with respect to his receipts and utilization of milk, filled milk, and milk products in such manner as the market administrator may prescribe.

§ 1070.31 Payroll reports.

(a) On or before the 20th day after the end of each month, each handler described in § 1070.9(a) and (b) shall report to the market administrator his producer payroll for such month, in the detail prescribed by the market administrator, showing for each producer:

(1) His name and address;

(2) The total pounds of milk received from such producer;

(3) The average butterfat content of such milk; and

(4) The price per hundredweight, the gross amount due, the amount and nature of any deductions, and the net amount paid.

(b) Each handler operating a partially regulated distributing plant who elects to make payment pursuant to § 1070.76(b) shall report for each dairy farmer who would have been a producer if the plant had been fully regulated in the same manner as prescribed for reports required by paragraph (a) of this section.

§ 1070.32 Other reports.

In addition to the reports required pursuant to §§ 1070.30 and 1070.31, each handler shall report such other information as the market administrator deems necessary to verify or establish such handler's obligation under the order.

CLASSIFICATION OF MILK

§ 1070.40 Classes of utilization.

Except as provided in § 1070.42, all skim milk and butterfat required to be reported by a handler pursuant to § 1070.30 shall be classified as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid milk product, except as otherwise provided in paragraphs (b) and (c) of this section; and

(2) Not specifically accounted for as Class II or Class III milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid cream product, eggnog, yogurt, and any product containing 6 percent or more nonmilk fat (or oil) that resembles a fluid cream product, eggnog, or yogurt, except as otherwise provided in paragraph (c) of this section;

(2) In packaged inventory at the end of the month of the products specified in paragraph (b)(1) of this section;

(3) In bulk fluid milk products and bulk fluid cream products disposed of to any commercial food processing establishment (other than a milk or filled milk plant) at which food products (other than milk products and filled milk) are processed and from which there is no disposition of fluid milk products or fluid cream products other than those received in consumer-type packages; and

(4) Used to produce:

(i) Cottage cheese, lowfat cottage cheese, and dry curd cottage cheese;

(ii) Milkshake and ice milk mixes (or bases) containing 20 percent or more total solids, frozen desserts, and frozen dessert mixes;

(iii) Any concentrated milk product in bulk, fluid form other than that specified in paragraph (c)(1)(iv) of this section;

(iv) Plastic cream, frozen cream, and anhydrous milkfat;

(v) Custards, puddings, and pancake mixes; and

(vi) Formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers.

(c) *Class III milk.* Class III milk shall be all skim milk and butterfat:

(1) Used to produce:

(i) Cheese (other than cottage cheese, lowfat cottage cheese, and dry curd cottage cheese);

(ii) Butter;

(iii) Any milk product in dry form;

V 39 90 MAY 8 74 XUM

(iv) Any concentrated milk product in bulk, fluid form that is used to produce a Class III product;

(v) Evaporated or condensed milk (plain or sweetened) in a consumer-type package and evaporated or condensed skim milk (plain or sweetened) in a consumer-type package; and

(vi) Any product not otherwise specified in this section;

(2) In inventory at the end of the month of fluid milk products in bulk or packaged form and products specified in paragraph (b)(1) of this section in bulk form;

(3) In fluid milk products and products specified in paragraph (b)(1) of this section that are dumped by a handler if for animal feed;

(4) In fluid milk products and products specified in paragraph (b)(1) of this section that are dumped by a handler if the market administrator is notified of such dumping in advance and is given the opportunity to verify such disposition;

(5) In skim milk in any modified fluid milk product that is in excess of the quantity of skim milk in such product that was included within the fluid milk product definition pursuant to § 1070.15; and

(6) In shrinkage assigned pursuant to § 1070.41(a) to the receipts specified in § 1070.41(a)(2) and in shrinkage specified in § 1070.41 (b) and (c).

§ 1070.41 Shrinkage.

For purposes of classifying all skim milk and butterfat to be reported by a handler pursuant to § 1070.30, the market administrator shall determine the following:

(a) The pro rata assignment of shrinkage of skim milk and butterfat, respectively, at each pool plant to the respective quantities of skim milk and butterfat:

(1) In the receipts specified in paragraph (b) (1) through (6) of this section on which shrinkage is allowed pursuant to such paragraph; and

(2) In other source milk not specified in paragraph (b) (1) through (6) of this section which was received in the form of a bulk fluid milk product or a bulk fluid cream product;

(b) The shrinkage of skim milk and butterfat, respectively, assigned pursuant to paragraph (a) of this section to the receipts specified in paragraph (a)(1) of this section that is not in excess of:

(1) Two percent of the skim milk and butterfat, respectively, in producer milk (excluding milk diverted by the plant operator to another plant);

(2) [Reserved]

(3) Plus 0.5 percent of the skim milk and butterfat, respectively, in producer milk diverted from such plant by the plant operator to another plant, except that if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be zero;

(4) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other pool plants;

(5) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other order plants, excluding the quantity for which Class II or Class III classification is requested by the operators of both plants;

(6) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received from unregulated supply plants, excluding the quantity for which Class II or Class III classification is requested by the handler; and

(7) Less 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products transferred to other plants that is not in excess of the respective amounts of skim milk and butterfat to which percentages are applied in paragraph (b) (1), (4), (5), and (6) of this section; and

(c) The quantity of skim milk and butterfat, respectively, in shrinkage of milk from producers for which a cooperative association is the handler pursuant to § 1070.9(b), but not in excess of 0.5 percent of the skim milk and butterfat, respectively, in such milk. If the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this paragraph for the cooperative association shall be zero.

§ 1070.42 Classification of transfers and diversions.

(a) *Transfers to pool plants.* Skim milk or butterfat transferred in the form of a fluid milk product or a bulk fluid cream product from a pool plant to another pool plant shall be classified as Class I milk unless the operators of both plants request the same classification in another class. In either case, the classification of such transfers shall be subject to the following conditions:

(1) The skim milk or butterfat classified in each class shall be limited to the amount of skim milk and butterfat, respectively, remaining in such class at the transferee-plant after the computations pursuant to § 1070.44(a)(12) and the corresponding step of § 1070.44(b);

(2) If the transferor-plant received during the month other source milk to be allocated pursuant to § 1070.44(a)(7) or the corresponding step of § 1070.44(b), the skim milk or butterfat so transferred shall be classified so as to allocate the least possible Class I utilization to such other source milk; and

(3) If the transferor-handler received during the month other source milk to be allocated pursuant to § 1070.44(a)(11) or (12) or the corresponding steps of § 1070.44(b), the skim milk or butterfat so transferred, up to the total of the skim milk and butterfat, respectively, in such receipts of other source milk, shall not be classified as Class I milk to a greater extent than would be the case if the other source milk had been received at the transferee-plant.

(b) *Transfers or diversions to other order plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream product from a pool plant to an other order plant shall be classified in the following manner. Such classification shall apply only to the skim milk or butterfat that is in excess of any receipts at the pool plant from the other order plant of skim milk and butterfat, respectively, in fluid milk products and bulk fluid cream products, respectively, that are in the same category as described in paragraph (b) (1), (2), or (3) of this section:

(1) If transferred as packaged fluid milk products, classification shall be in the classes to which allocated as a fluid milk product under the other order;

(2) If transferred in bulk form, classification shall be in the classes to which allocated under the other order (including allocation under the conditions set forth in paragraph (b)(3) of this section);

(3) If the operators of both plants so request in their reports of receipts and utilization filed with their respective market administrators, transfers or diversions in bulk form shall be classified as Class II or Class III milk to the extent of such utilization available for such classification pursuant to the allocation provisions of the other order;

(4) If information concerning the classes to which such transfers or diversions were allocated under the other order is not available to the market administrator for the purpose of establishing classification under this paragraph, classification shall be as Class I, subject to adjustment when such information is available;

(5) For purposes of this paragraph, if the other order provides for a different number of classes of utilization than is provided for under this part, skim milk or butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I milk, and skim milk or butterfat allocated to the other classes shall be classified as Class III milk; and

(6) If the form in which any fluid milk product that is transferred to an other order plant is not defined as a fluid milk product under such other order, classification under this paragraph shall be in accordance with the provisions of § 1070.40.

(c) *Transfers to producer-handlers.* Skim milk or butterfat transferred in the following forms from a pool plant to a producer-handler under this or any other Federal order shall be classified:

(1) As Class I milk, if transferred in the form of a fluid milk product; and

(2) In accordance with the utilization assigned to it by the market administrator, if transferred in the form of a bulk fluid cream product. For this purpose, the producer-handler's utilization of skim milk and butterfat in each class, in series beginning with Class III, shall be assigned to the extent possible to his receipts of skim milk and butterfat, respectively, in bulk fluid cream products, pro rata to each source.

(d) *Transfers and diversions to other nonpool plants.* Skim milk or butterfat transferred or diverted in the following forms from a pool plant to a nonpool plant that is not an other order plant or a producer-handler plant shall be classified:

(1) As Class I milk, if transferred in the form of a packaged fluid milk product; and

(2) As Class I milk, if transferred or diverted in the form of a bulk fluid milk product or a bulk fluid cream product, unless the following conditions apply:

(i) If the conditions described in paragraph (d)(2)(i) (*a*) and (*b*) of this section are met, transfers or diversions in bulk form shall be classified on the basis of the assignment of the nonpool plant's utilization to its receipts as set forth in paragraph (d)(2) (ii) through (viii) of this section:

(*a*) The transferor-handler or diverter-handler claims such classification in his report of receipts and utilization filed pursuant to § 1070.30 for the month within which such transaction occurred; and

(*b*) The nonpool plant operator maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available for verification purposes if requested by the market administrator;

(ii) Route disposition of fluid milk products in the marketing area of each Federal milk order from the nonpool plant and transfers of packaged fluid milk products from such nonpool plant to plants fully regulated thereunder shall be assigned to the extent possible in the following sequence:

(*a*) Pro rata to receipts of packaged fluid milk products at such nonpool plant from pool plants;

(*b*) Pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from other order plants;

(*c*) Pro rata to receipts of bulk fluid milk products at such nonpool plant from pool plants; and

(*d*) Pro rata to any remaining unassigned receipts of bulk fluid milk products at such nonpool plant from other order plants;

(iii) Any remaining Class I disposition of packaged fluid milk products from the nonpool plant shall be assigned to the extent possible pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from pool plants and other order plants;

(iv) Transfers of bulk fluid milk products from the nonpool plant to a plant fully regulated under any Federal milk order, to the extent that such transfers to the regulated plant exceed receipts of fluid milk products from such plant and are allocated to Class I at the transferee-plant, shall be assigned to the extent possible in the following sequence:

(*a*) Pro rata to receipts of fluid milk products at such nonpool plant from pool plants; and

(*b*) Pro rata to any remaining unassigned receipts of fluid milk products at such nonpool plant from other order plants;

(v) Any remaining unassigned Class I disposition from the nonpool plant shall be assigned to the extent possible in the following sequence:

(*a*) To such nonpool plant's receipts from dairy farmers who the market administrator determines constitute regular sources of Grade A milk for such nonpool plant; and

(*b*) To such nonpool plant's receipts of Grade A milk from plants not fully regulated under any Federal milk order which the market administrator determines constitute regular sources of Grade A milk for such nonpool plant;

(vi) Any remaining unassigned receipts of bulk fluid milk products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class I utilization, then to Class III utilization, and then to Class II utilization at such nonpool plant;

(vii) Receipts of bulk fluid cream products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class III utilization, then to any remaining Class II utilization, and then to Class I utilization at such nonpool plant; and

(viii) In determining the nonpool plant's utilization for purposes of this subparagraph, any fluid milk products and bulk fluid cream products transferred from such nonpool plant to a plant not fully regulated under any Federal milk order shall be classified on the basis of the second plant's utilization using the same assignment priorities at the second plant that are set forth in this subparagraph.

§ 1070.43 General classification rules.

In determining the classification of producer milk pursuant to § 1070.44, the following rules shall apply:

(a) Each month the market administrator shall correct for mathematical and other obvious errors all reports filed pursuant to § 1070.30 and shall compute separately for each pool plant and for each cooperative association with respect to milk for which it is the handler pursuant to § 1070.9(b) the pounds of skim milk and butterfat, respectively, in each class in accordance with §§ 1070.40, 1070.41, and 1070.42;

(b) If any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk in such product that are to be considered under this part as used or disposed of by the handler shall be an amount equivalent to the nonfat milk solids contained in such product plus all of the water originally associated with such solids; and

(c) The classification of producer milk for which a cooperative association is the handler pursuant to § 1070.9(b) shall be determined separately from the operations of any pool plant operated by such cooperative association.

§ 1070.44 Classification of producer milk.

For each month the market administrator shall determine the classification of producer milk of each handler described in § 1070.9(a) for each of his pool plants separately and of each handler described in § 1070.9(b) by allocating the handler's receipts of skim milk and butterfat to his utilization as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk in shrinkage specified in § 1070.41(b);

(2) Subtract from the total pounds of skim milk in Class I the pounds of skim milk in receipts of packaged fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in fluid milk products received in packaged form from an other order plant, except that to be subtracted pursuant to paragraph (a)(7)(vi) of this section, as follows:

(i) From Class III milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(4) Subtract from the pounds of skim milk in Class II the pounds of skim milk specified in § 1070.40(b)(1) that were received in packaged form from other plants, but not in excess of the pounds of skim milk remaining in Class II;

(5) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in products specified in § 1070.40(b)(1) that were in inventory at the beginning of the month in packaged form, but not in excess of the pounds of skim milk remaining in Class II. This subparagraph shall apply only if the pool plant was subject to the provisions of this subparagraph or comparable provisions of another Federal milk order in the immediately preceding month;

(6) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in other source milk (except that received in the form of a fluid milk product or a fluid cream product) that is used to produce, or added to, any product specified in § 1070.40(b), but not in excess of the pounds of skim milk remaining in Class II;

(7) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk (except that received in the form of a fluid milk product) and, if paragraph (a)(5) of this

V 39 90
MAY 8 74
XUM

section applies, packaged inventory at the beginning of the month of products specified in § 1070.40(b)(1) that was not subtracted pursuant to paragraph (a)(4), (5), and (6) of this section;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established;

(iii) Receipts of fluid milk products from unidentified sources;

(iv) Receipts of fluid milk products from a producer-handler as defined under this or any other Federal milk order;

(v) Receipts of reconstituted skim milk in filled milk from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) of this section; and

(vi) Receipts of reconstituted skim milk in filled milk from an other order plant that is regulated under any Federal milk order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor-plant;

(8) Subtract in the order specified below from the pounds of skim milk remaining in Class II and Class III, in sequence beginning with Class III:

(i) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) and (7)(v) of this section for which the handler requests a classification other than Class I, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(ii) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (7)(v), and (8)(i) of this section which are in excess of the pounds of skim milk determined pursuant to paragraph (a)(8)(ii) (*a*) through (c) of this section. Should the pounds of skim milk to be subtracted from Class II and Class III combined exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount:

(*a*) Multiply by 1.25 the sum of the pounds of skim milk remaining in Class I at this allocation step at all pool plants of the handler (excluding any duplication of Class I utilization resulting from reported Class I transfers between pool plants of the handler);

(*b*) Subtract from the above result the sum of the pounds of skim milk in receipts at all pool plants of the handler of producer milk, fluid milk products from pool plants of other handlers, and bulk fluid milk products from other order plants that were not subtracted pursuant to paragraph (a)(7)(vi) of this section; and

(*c*) Multiply any plus quantity resulting above by the percentage that the receipts of skim milk in fluid milk products from unregulated supply plants that remain at this pool plant is of all such receipts remaining at this allocation step at all pool plants of the handler; and

(iii) The pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) of this section, if Class II or Class III classification is requested by the operator of the other order plant and the handler, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(9) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in fluid milk products and products specified in § 1070.40(b)(1) in inventory at the beginning of the month that were not subtracted pursuant to paragraph (a)(5) and (7)(i) of this section;

(10) Add to the remaining pounds of skim milk in Class III the pounds of skim milk subtracted pursuant to paragraph (a)(1) of this section;

(11) Subject to the provisions of paragraph (a)(11)(i) and (ii) of this section, subtract from the pounds of skim milk remaining in each class at the plant, pro rata to the total pounds of skim milk remaining in Class I and in Class II and Class III combined at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler); with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, the pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (7)(v), and (8)(i) and (ii) of this section and that were not offset by transfers or diversions of fluid milk products to the same unregulated supply plant from which fluid products to be allocated at this step were received:

(i) Should the pounds of skim milk to be subtracted from Class II and Class III combined pursuant to this subparagraph exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(ii) Should the pounds of skim milk to be subtracted from Class I pursuant to this subparagraph exceed the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(iii) The pounds of skim milk to be subtracted in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) and (8)(iii) of this section:

(i) Subject to the provisions of paragraph (a)(12)(ii), (iii), and (iv) of this section, such subtraction shall be pro rata to the pounds of skim milk in Class I and in Class II and Class III combined, with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, with respect to whichever of the following quantities represents the lower proportion of Class I milk:

(*a*) The estimated utilization of skim milk of all handlers in each class as announced for the month pursuant to § 1070.45(a); or

(*b*) The total pounds of skim milk remaining in each class at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler);

(ii) Should the proration pursuant to paragraph (a)(12)(i) of this section result in the total pounds of skim milk at all pool plants of the handler that are to be subtracted at this allocation step from Class II and Class III combined exceeding the pounds of skim milk remaining in Class II and Class III at all such plants, the pounds of such excess shall be subtracted from the pounds of skim milk remaining in Class I after such proration at the pool plants at which such other source milk was received;

(iii) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12)(i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class II and Class III combined that exceeds the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(iv) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12)(i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class I that exceeds the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted; and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(13) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products and bulk fluid cream products from another pool plant according to the classification of such products pursuant to § 1070.42(a); and

(14) If the total pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class III. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) The quantity of producer milk in each class shall be the combined pounds of skim milk and butterfat remaining in each class after the computations pursuant to paragraph (a)(14) of this section and the corresponding step of paragraph (b) of this section.

§ 1070.45 Market administrator's reports and announcements concerning classification.

The market administrator shall make the following reports and announcements concerning classification:

(a) Whenever required for the purpose of allocating receipts from other order plants pursuant to § 1070.44(a)(12) and the corresponding step of § 1070.44(b), estimate and publicly announce the utilization (to the nearest whole percentage) in each class during the month of skim milk and butterfat, respectively, in producer milk of all handlers. Such estimate shall be based upon the most current available data and shall be final for such purpose.

(b) Report to the market administrator of the other order, as soon as possible after the report of receipts and utilization for the month is received from a handler who has received fluid milk products or bulk fluid cream products from an other order plant, the class to which such receipts are allocated pursuant to § 1070.44 on the basis of such report, and, thereafter, any change in such allocation required to correct errors disclosed in the verification of such report.

(c) Furnish to each handler operating a pool plant who has shipped fluid milk products or bulk fluid cream products to an other order plant the class to which such shipments were allocated by the market administrator of the other order on the basis of the report by the receiving handler, and, as necessary, any changes in such allocation arising from the verification of such report.

(d) On or before the 10th day after the end of each month, report to each cooperative association which so requests, the percentage of the milk caused to be delivered by the cooperative association or its members to the pool plant(s) of each handler during the month, which was utilized in each class. For the purpose of this report, the milk so delivered shall be allocated to each class for each handler in the same ratio as all producer milk received by such handler during the month.

Class Prices

§ 1070.50 Class prices.

Subject to the provisions of § 1070.52, the class prices for the month per hundredweight of milk containing 3.5 percent butterfat shall be as follows:

(a) *Class I price.* The Class I price shall be the basic formula price for the second preceding month plus $1.33.

(b) *Class II price.* The Class II price shall be the basic formula price for the month plus 10 cents.

(c) *Class III price.* The Class III price shall be the basic formula price for the month.

§ 1070.51 Basic formula price.

The "basic formula price" shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Minnesota and Wisconsin, as reported by the Department for the month, adjusted to a 3.5 percent butterfat basis and rounded to the nearest cent. For such adjustment, the butterfat differential (rounded to the nearest one-tenth cent) per one-tenth percent butterfat shall be 0.12 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month. For the purpose of computing the Class I price, the resulting price shall be not less than $4.33.

§ 1070.52 Plant location adjustments for handlers.

(a) For milk received from producers at a pool plant located 50 miles or more by shortest hard-surfaced highway distance as measured by the market administrator, from the nearer of the City Halls in Cedar Rapids and Iowa City, Iowa, and disposed of as Class I milk or assigned Class I location adjustment credit pursuant to paragraph (b) of this section, the price computed pursuant to § 1070.50(a) shall be reduced by 10 cents, plus 1.5 cents for each 10 miles or fraction thereof that such distance exceeds 65 miles.

(b) For purposes of calculating such adjustment, transfers between pool plants shall be assigned to Class I utilization remaining at the transferee-plant after computations pursuant to § 1070.44(a)(12) and the corresponding step of § 1070.44(b) which is in excess of 95 percent of receipts at such plant from producers, such assignment to be made first to transferor-plants at which no location adjustment credit is applicable and then in sequence beginning with the plant at which the least location adjustment would apply.

(c) The Class I price applicable to other source milk shall be adjusted at the rates set forth in paragraph (a) of this section, except that the adjusted Class I price shall not be less than the Class III price.

§ 1070.53 Announcement of class prices.

The market administrator shall announce publicly on or before the fifth day of each month the Class I price for the following month and the Class II and Class III prices for the preceding month

§ 1070.54 Equivalent price.

If for any reason a price or pricing constituent required by this part for computing class prices or for other purposes is not available as prescribed in this part, the market administrator shall use a price or pricing constituent determined by the Secretary to be equivalent to the price or pricing constituent that is required.

Uniform Price

§ 1070.60 Handler's value of milk for computing uniform price.

For the purpose of computing the uniform price, the market administrator shall determine for each month the value of milk of each handler with respect to each of his pool plants and of each handler described in § 1070.9(b) as follows:

(a) Multiply the pounds of producer milk in each class as determined pursuant to § 1070.44 by the applicable class prices and add the resulting amounts;

(b) Add the amounts obtained from multiplying the pounds of overage subtracted from each class pursuant to § 1070.44(a)(14) and the corresponding step of § 1070.44(b) by the respective class prices, as adjusted by the butterfat differential specified in § 1070.74, that are applicable at the location of the pool plant;

(c) Add the amount obtained from multiplying the difference between the Class III price for the preceding month and the Class I price applicable at the location of the pool plant or the Class II price, as the case may be, for the current month by the hundredweight of skim milk and butterfat subtracted from Class I and Class II pursuant to § 1070.44(a)(9) and the corresponding step of § 1070.44(b);

(d) Add the amount obtained from multiplying the difference between the

V 39 I 90 MAY 8 74 XUM

Class I price applicable at the location of the pool plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1070.44(a)(7) (i), through (iv), and the corresponding step of § 1070.44 (b), excluding receipts of bulk fluid cream products from an other order plant;

(e) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the transferor-plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1070.44(a)(7) (v) and (vi) and the corresponding step of § 1070.44 (b); and

(f) Add the amount obtained from multiplying the Class I price applicable at the location of the nearest unregulated supply plants from which an equivalent volume was received by the pounds of skim milk and butterfat subtracted from Class I pursuant to § 1070.44(a)(11) and the corresponding step of § 1070.44(b), excluding such skim milk and butterfat in receipts of bulk fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order.

§ 1070.61 Computation of uniform price.

For each month the market administrator shall compute a uniform price for producer milk of 3.5 percent butterfat content f.o.b. pool plants located within 50 miles of the city hall of Cedar Rapids or Iowa City, Iowa, as follows:

(a) Combine into one total the values computed pursuant to § 1070.60 for all handlers who filed the reports prescribed by § 1070.30 for the month and who made the payments pursuant to § 1070.71 for the preceding month;

(b) Add an amount equal to the total value of the location adjustments computed pursuant to § 1070.75;

(c) Add an amount equal to not less than one-half of the unobligated balance in the producer-settlement fund;

(d) Divide the resulting amount by the sum of the following for all handlers included in these computations;

(1) The total hundredweight of producer milk; and

(2) The total hundredweight for which a value is computed pursuant to § 1070.60(f); and

(e) Subtract not less than 4 cents nor more than 5 cents per hundredweight. The result shall be the "uniform price" for milk received from producers.

§ 1070.62 Announcement of uniform price and butterfat differential.

The market administrator shall announce publicly on or before:

(a) The fifth day after the end of each month the butterfat differential for such month; and

(b) The 10th day after the end of each month the uniform price for such month.

PAYMENTS FOR MILK

§ 1070.70 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1070.71, 1070.76, and 1070.77, and out of which he shall make all payments to handlers pursuant to §§ 1070.72 and 1070.77.

§ 1070.71 Payments to the producer-settlement fund.

(a) On or before the 12th day after the end of the month, each handler shall pay to the market administrator the amount, if any, by which the amount specified in paragraph (a)(1) of this section exceeds the amount specified in paragraph (a)(2) of this section:

(1) The total value of milk of the handler for such month as determined pursuant to § 1070.60.

(2) The sum of:

(i) The value at the uniform price, as adjusted pursuant to § 1070.75, of such handler's receipts of producer milk; and

(ii) The value at the uniform price applicable at the location of the plant from which received of other source milk for which a value is computed pursuant to § 1070.60(f).

(b) On or before the 25th day after the end of the month each person who operated an other order plant that was regulated during such month under an order providing for individual-handler pooling shall pay to the market administrator an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk in route disposition from such plant in the marketing area which was allocated to Class I at such plant. If there is such route disposition from such plant in marketing areas regulated by two or more market-wide pool orders, the reconstituted skim milk allocated to Class I shall be prorated to each order according to such route disposition in each marketing area; and

(2) Compute the value of the reconstituted skim milk assigned in paragraph (b)(1) of this section to route disposition in this marketing area by multiplying the quantity of such skim milk by the difference between the Class I price under this part that is applicable at the location of the other order plant (but not to be less than the Class III price) and the Class III price.

§ 1070.72 Payments from the producer-settlement fund.

On or before the 12th day after the end of each month the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1070.71(a)(2) exceeds the amount computed pursuant to § 1070.71(a)(1): *Provided*, That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this paragraph, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available. A handler who has not received the balance of such payments from the market administrator shall not be considered in violation of § 1070.73 if he reduces his payments to producers by not more than the amount of the reduction in payment from the producer-settlement fund.

§ 1070.73 Payments to producers and to cooperative associations.

Each handler shall make payment as follows:

(a) On or before the 15th day after the end of each month during which the milk was received, to each producer for milk received from him and for which payment is not made to a cooperative association pursuant to paragraph (b) of this section, at not less than the uniform price computed in accordance with § 1070.61, subject to the butterfat differential computed pursuant to § 1070.74 and less location adjustments pursuant to § 1070.75.

(b) On or before the 12th day after the end of each month during which the milk was received, to a cooperative association for milk which it caused to be delivered to such handler from producers, if such cooperative association is authorized to collect such payments for its member producers and exercises such authority, an amount equal to the sum of the individual payments otherwise payable to such producers.

(c) On or before the 11th day after the end of each month during which milk was received at a pool plant from a cooperative association in its capacity as the operator of a pool plant pursuant to § 1070.7(d), at not less than the class prices for such milk, as adjusted by the butterfat differential specified in § 1070.74, that are applicable at the location of the receiving handler's pool plant, plus an amount equal to that payable on the same quantity of producer milk pursuant to § 1070.85.

§ 1070.74 Butterfat differential.

For milk containing more or less than 3.5 percent butterfat, the uniform price shall be increased or decreased, respectively, for each one-tenth percent butterfat variation from 3.5 percent by a butterfat differential, rounded to the nearest one-tenth cent, which shall be 0.115 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month.

§ 1070.75 Plant location adjustments for producers and on nonpool milk.

(a) The uniform price for producer milk received at a pool plant shall be reduced according to the location of the pool plant, at the rates set forth in § 1070.52; and

(b) For purposes of computations pursuant to §§ 1070.71 and 1070.72 the uniform price shall be adjusted at the rates set forth in § 1070.52 applicable at the location of the nonpool plant from which the milk was received, except that the adjusted uniform price shall not be less than the Class III price.

§ 1070.76 Payments by handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant shall pay on or before the 25th day after the end of the month to the market administrator for the producer-settlement fund the amount computed pursuant to paragraph (a) of this section. If the handler submits pursuant to §§ 1070.30(b) and 1070.31(b) the information necessary for making the computations, such handler may elect to pay in lieu of such payment the amount computed pursuant to paragraph (b) of this section:

(a) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the pounds of route disposition of fluid milk products in the marketing area from the partially regulated distributing plant;

(2) Subtract the pounds of fluid milk products received at the partially regulated distributing plant:

(i) As Class I milk from pool plants and other order plants, except that subtracted under a similar provision of another Federal milk order; and

(ii) From another nonpool plant that is not an other order plant to the extent that an equivalent amount of fluid milk products disposed of to such nonpool plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract the pounds of reconstituted skim milk in route disposition of fluid milk products in the marketing area from the partially regulated distributing plant;

(4) Multiply the remaining pounds by the difference between the Class I price and the uniform price, both prices to be applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price); and

(5) Add the amount obtained from multiplying the pounds of reconstituted skim milk specified in paragraph (a)(3) of this section by the difference between the Class I price applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price) and the Class III price.

(b) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the value that would have been computed pursuant to § 1070.60 for the partially regulated distributing plant if the plant had been a pool plant, subject to the following modifications:

(i) Fluid milk products and bulk fluid cream products received at the partially regulated distributing plant from a pool plant or an other order plant shall be allocated at the partially regulated distributing plant to the same class in which such products were classified at the fully regulated plant;

(ii) Fluid milk products and bulk fluid cream products transferred from the partially regulated distributing plant to a pool plant or an other order plant shall be classified at the partially regulated distributing plant in the class to which allocated at the fully regulated pant. Such transfers shall be allocated to the extent possible to those receipts at the partially regulated distributing plant from pool plants and other order plants that are classified in the corresponding class pursuant to paragraph (b)(1)(i) of this section. Any such transfers remaining after the above allocation which are classified in Class I and for which a value is computed for the handler operating the partially regulated distributing plant pursuant to § 1070.60 shall be priced at the uniform price (or at the weighted average price if such is provided) of the respective order regulating the handling of milk at the transferee-plant, with such uniform price adjusted to the location of the nonpool plant(but not to be less than the lowest class price of the respective order), except that transfers of reconstituted skim milk in filled milk shall be priced at the lowest class price of the respective order; and

(iii) If the operator of the partially regulated distributing plant so requests, the value of milk determined pursuant to § 1070.60 for such handler shall include, in lieu of the value of other source milk specified in § 1070.60(f) less the value of such other source milk specified in § 1070.71(a)(2)(ii), a value of milk determined pursuant to § 1070.60 for each nonpool plant that is not an other order plant which serves as a supply plant for such partially regulated distributing plant by making shipments to the partially regulated distributing plant during the month equivalent to the requirements of § 1070.7(b), subject to the following conditions:

(a) The operator of the partially regulated distributing plant submits with his reports filed pursuant to §§ 1070.30(b) and 1070.31(b) similar reports for each such nonpool supply plant;

(b) The operator of such nonpool supply plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for verification purposes; and

(c) The value of milk determined pursuant to § 1070.60 for such nonpool supply plant shall be determined in the same manner prescribed for computing the obligation of such partially regulated distributing plant; and

(2) From the partially regulated distributing plant's value of milk computed pursuant to paragraph (b)(1) of this section, subtract:

(i) The gross payments by the operator of such partially regulated distributing plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1070.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated;

(ii) If paragraph (b)(1)(iii) of this section applies, the gross payments by the operator of such nonpool supply plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1070.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated; and

(iii) The payments by the operator of the partially regulated distributing plant to the producer-settlement fund of another order under which such plant is also a partially regulated distributing plant and like payments by the operator of the nonpool supply plant if paragraph (b)(1)(iii) of this section applies.

§ 1070.77 Adjustment of accounts.

Whenever audit by the market administrator of any handler's reports, books, records, or accounts discloses errors resulting in money due (a) the market administrator from such handler, (b) such handler from the market administrator, or (c) any producer or cooperative association from such handler, the market administrator shall promptly notify such handler of any amount so due; and payment thereof shall be made on or before the next date for making payment set forth in the provisions under which such error occurred.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

§ 1070.85 Assessment for order administration.

As his pro rata share of the expense of administration of the order, each handler shall pay to the market administrator on or before the 12th day after the end of the month 4 cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to:

(a) Producer milk;

(b) Other source milk allocated to Class I pursuant to § 1070.44(a) (7) and (11) and the corresponding steps of § 1070.44(b), except such other source milk that is excluded from the computations pursuant to § 1070.60 (d) and (f); and

(c) Class I milk disposed of from a partially regulated distributing plant on routes in the marketing area that exceeds the skim milk and butterfat subtracted pursuant to § 1070.76(a)(2).

§ 1070.86 Deduction for marketing services.

(a) Except as set forth in paragraph (b) of this section, each handler in making payments to each producer pursuant to § 1070.73 shall deduct 5 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to all milk received by such handler from such producer (except such handler's own farm production) during the month, and shall pay such deductions to the market administrator not later than the 12th day after the end of the month. Such money shall be used by the market administrator to verify or establish weights, samples, and tests of milk received by handlers from such producers during the month and to provide such producers with market information.

(b) In the case of producers for whom a cooperative association is actually performing, as determined by the Secretary,

V 39 90 MAY 8 74 XUM

the services set forth in paragraph (a) of this section, each handler shall, in lieu of the deductions specified in paragraph (a) of this section, make such deductions as are authorized by such producers and, on or before, the 12th day after the end of each month, pay over such deductions to the association rendering such services.

PART 1076—MILK IN EASTERN SOUTH DAKOTA MARKETING AREA

Subpart—Order Regulating Handling

GENERAL PROVISIONS

Sec.
1076.1 General provisions.

DEFINITIONS

1076.2 Eastern South Dakota marketing area.
1076.3 Route disposition.
1076.4 [Reserved]
1076.5 Distributing plant.
1076.6 Supply plant.
1076.7 Pool plant.
1076.8 Nonpool plant.
1076.9 Handler.
1076.10 Producer-handler.
1076.11 [Reserved]
1076.12 Producer.
1076.13 Producer milk.
1076.14 Other source milk.
1076.15 Fluid milk product.
1076.16 Fluid cream product.
1076.17 Filled milk.
1076.18 Cooperative association.

1076.78 Charges on overdue accounts.

ADMINISTRATIVE ASSESSMENT

Sec.
1076.85 Assessment for order administration.

AUTHORITY: Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674).

Subpart—Order Regulating Handling

GENERAL PROVISIONS

§ 1076.1 General provisions.

The terms, definitions, and provisions in Part 1000 of this chapter are hereby incorporated by reference and made a part of this order.

DEFINITIONS

§ 1076.2 Eastern South Dakota marketing area.

"Eastern South Dakota marketing area," hereinafter called the "marketing area," means all of the territory within the counties listed below, including all territory within such counties which is occupied by government (municipal, State or Federal) reservations, installations, institutions, or other establishments:

IOWA COUNTY

Lyon.

MINNESOTA COUNTY

Rock.

SOUTH DAKOTA COUNTIES

Aurora.
Beadle.
Bon Homme.
Brown.
Clark.
Clay.
Codington.
Davison.
Day.
Douglas.
Edmunds.
Hamlin.
Hanson.
Hutchinson.
Jerauld.
Kingsbury.
Lake.
Lincoln.
McCook.
McPherson.
Miner.
Minnehaha.
Moody.
Sanborn.
Spink.
Turner.
Union (except Jefferson Township and the city of North Sioux City and the unorganized territory adjacent thereto).
Walworth.
Yankton.

§ 1076.3 Route disposition.

"Route disposition" means a delivery (including delivery by a vendor or a sale from a plant store, or distribution center) of any fluid milk product classified as Class I milk to retail or wholesale outlets, except a delivery in bulk form to a milk (including filled milk) processing plant. The route disposition of a handler shall be attributed to the processing and packaging plant from which the Class I milk is moved to retail or wholesale outlets without intermediate movement to another processing plant.

§ 1076.4 [Reserved]

§ 1076.5 Distributing plant.

"Distributing plant" means a plant which is approved by an appropriate health authority for the processing or packaging of Grade A milk and from which there is route disposition during the month in the marketing area.

§ 1076.6 Supply plant.

"Supply plant" means a plant from which milk or skim milk acceptable to an appropriate health authority for distribution in the marketing area under a Grade A label, is shipped during the month to a pool plant qualified pursuant to § 1076.7(a).

§ 1076.7 Pool plant.

Except as provided in paragraph (d) of this section, "pool plant" means:

(a) A distributing plant from which route disposition, except filled milk, equals not less than 35 percent of the Grade A milk received at such plant from dairy farmers, handlers described in § 1076.9(c), and supply plants and not less than 15 percent of such receipts is disposed of as route disposition, except filled milk, in the marketing area.

(b) A supply plant from which the volume of fluid milk products, except filled milk, shipped during the month to pool plants qualified pursuant to paragraph (a) of this section is not less than 35 percent of the Grade A milk received at such plant from dairy farmers and handlers described in § 1076.9(c) during such month. If such shipments are not less than 50 percent of such receipts during each of the immediately preceding months of September through November, such plant shall be a pool plant for the months of March through June, unless the operator of such plant requests the market administrator in writing that such plant not be a pool plant, such nonpool status to be effective the first month following such notice and such plant shall thereafter be a nonpool plant until it again qualifies as a pool plant on the basis of the shipping requirements set forth in this paragraph.

(c) A plant, other than a distributing plant, operated by a cooperative association if more than 50 percent of the total milk supply of producer members of such cooperative association is shipped to pool distributing plants of other handlers during the month, either directly from the farm or by transfer from the plant of the cooperative association.

(d) The term "pool plant" shall not apply to the following plants:

(1) A producer-handler plant;

(2) A plant qualified pursuant to paragraph (a) of this section from which a lesser volume of fluid milk products, except filled milk, is disposed of in the Eastern South Dakota marketing area than in the marketing area of another marketing agreement or order issued pursuant to the Act and which is fully subject to the classification and pricing provisions of such other agreement or order;

(3) Any plant qualified pursuant to paragraph (b) of this section for any portion of the period of March through June, inclusive, that producer milk at such plant is subject to the classification and pricing provisions of another order issued pursuant to the Act; and

(4) That portion of a plant that is physically apart from the Grade A portion of such plant, is operated separately and is not approved by any health authority for the receiving, processing, or packaging of any fluid milk product for Grade A disposition.

§ 1076.8 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing, or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which there is route disposition in consumer-type packages or dispenser units in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, and from which fluid milk products are shipped during the month to a pool plant.

§ 1076.9 Handler.

"Handler" means:

(a) Any person in his capacity as the operator of one or more pool plants;

(b) Any cooperative association with respect to the milk of producers diverted by the association for the account of such association pursuant to § 1076.13;

(c) A cooperative association with respect to milk of its member producers which is delivered from the farm to the pool plant of another handler in a tank truck owned and operated by, or under contract to, such cooperative association if the cooperative association notifies the market administrator and the handler to whom the milk is delivered, in writing prior to the first day of the month in which the milk is delivered, that it wishes to be the handler for the milk. In this case, the milk is received from producers by the cooperative association at the location of the plant to which it is delivered;

(d) Any person who operates a partially regulated distributing plant;

(e) A producer-handler; and

(f) Any person who operates an other order plant described in § 1076.7(d).

§ 1076.10 Producer-handler.

"Producer-handler" means any person who is both a dairy farmer and the operator of a distributing plant, and who meets all of the following conditions:

(a) Receipts of fluid milk products at his plant are solely milk of his own production and from pool plants of other handlers;

(b) Receives no milk products other than fluid milk products from any source for use in reconstituting fluid milk products; and

(c) The maintenance, care and management of the dairy animals and other resources necessary to produce the milk and the processing, packaging, and distribution of the milk (including filled milk) are the personal enterprise and the personal risk of such person.

§ 1076.11 [Reserved]

§ 1076.12 Producer.

(a) Except as provided in paragraph (b) of this section, "producer" means any person who produces milk in compliance with the Grade A inspection requirements of a duly constituted health authority, and whose milk is (1) received at a pool plant, or (2) diverted as producer milk pursuant to § 1076.13.

(b) "Producer" shall not include:

(1) A producer-handler as defined in any order (including this part) issued pursuant to the Act;

(2) Any person with respect to milk produced by him which is diverted to a pool plant from an other order plant if the other order designates such person as a producer under that order and such milk is allocated to Class II or Class III utilization pursuant to § 1076.44(a)(8)(iii) and the corresponding step of § 1076.44(b); and

(3) Any person with respect to milk produced by him which is reported as diverted to an other order plant if any portion of such person's milk so moved is assigned to Class I under the provisions of such other order.

§ 1076.13 Producer milk.

"Producer milk" of each handler means all skim milk and butterfat produced by producers:

(a) With respect to receipts at a pool plant:

(1) Received directly from such producers; and

(2) Diverted from such pool plant to a nonpool plant that is not a producer-handler plant for the account of the operator of the pool plant, subject to the limitations and conditions of paragraph (c) of this section;

(b) With respect to receipts of a cooperative association:

(1) Diverted from a pool plant to a nonpool plant that is not a producer-handler plant, subject to the limitations and conditions of paragraph (c) of this section; and

(2) For which the cooperative association is the handler as described in § 1076.9(c); and

(c) With respect to diversions to nonpool plants pursuant to paragraphs (a)(2) and (b)(1) of this section:

(1) A cooperative handler may divert for its account the milk of any member producer, whose milk is delivered to a distributing pool plant on at least 3 days during the month without limit during the other days of such month. The total quantity of milk so diverted may be without limit during the months of March, April, May, and June, but shall not exceed 35 percent of its member producer milk received at all pool plants during any other month of the year. Diversions in excess of such percentage shall not be considered producer milk, and the diverting cooperative shall specify the dairy farmers whose milk is ineligible as producer milk. If the cooperative association fails to designate such dairy farmers whose milk is ineligible, producer milk status shall be forfeited with respect to all milk diverted to a nonpool plant by such cooperative association;

(2) A handler in his capacity as the operator of a distributing pool plant may divert for his account the milk of any producer, other than a member of a cooperative association which has diverted milk pursuant to paragraph (c)(1) of this section, whose milk is received at a pool plant on at least 3 days during the month, without limit during the other days of such month. The total quantity of milk so diverted may be without limit during the months of March, April, May, and June, but during any other month of the year shall not exceed 35 percent of the milk received from producers who are not members of a cooperative association which has diverted milk pursuant to paragraph (c)(1) of this section. Diversions in excess of such percentage shall not be considered producer milk, and the diverting handler shall specify the dairy farmers whose milk is ineligible as producer milk. If the handler fails to designate such dairy farmers whose milk is ineligible, producer milk status shall be forfeited with respect to all milk diverted to a nonpool plant by such handler; and

(3) For the purpose of location adjustments pursuant to §§ 1076.52 and 1076.75, milk so diverted shall be priced at the location of the plant from which diverted.

§ 1076.14 Other source milk.

"Other source milk" means all skim milk and butterfat contained in or represented by:

(a) Receipts of fluid milk products and bulk products specified in § 1076.40(b)(1) from any source other than producers, handlers described in § 1076.9(c), or pool plants;

(b) Receipts in packaged form from other plants of products specified in § 1076.40(b)(1);

(c) Products (other than fluid milk products, products specified in § 1076.40(b)(1), and products produced at the plant during the same month) from any source which are reprocessed, converted into, or combined with another product in the plant during the month; and

(d) Receipts of any milk product (other than a fluid milk product or a product specified in § 1076.40(b)(1)) for which the handler fails to establish a disposition.

§ 1076.15 Fluid milk product.

(a) Except as provided in paragraph (b) of this section, "fluid milk product" means any of the following products in fluid or frozen form:

(1) Milk, skim milk, lowfat milk, milk drinks, buttermilk, filled milk, and milkshake and ice milk mixes containing less than 20 percent total solids, including any such products that are flavored, cultured, modified with added nonfat milk solids, concentrated (if in a consumer-type package), or reconstituted; and

(2) Any milk product not specified in paragraph (a)(1) of this section or in § 1076.40(b) or (c)(1) (i) through (v) if it contains by weight at least 80 per-

V 39 I 90
MAY 8 74
XUM

cent water and 6.5 percent nonfat milk solids and less than 9 percent butterfat and 20 percent total solids.

(b) The term "fluid milk product" shall not include:

(1) Evaporated or condensed milk (plain or sweetened), evaporated or condensed skim milk (plain or sweetened), formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers, any product that contains by weight less than 6.5 percent nonfat milk solids, and whey; and

(2) The quantity of skim milk in any modified product specified in paragraph (a) of this section that is in excess of the quantity of skim milk in an equal volume of an unmodified product of the same nature and butterfat content.

§ 1076.16 Fluid cream product.

"Fluid cream product" means cream (other than plastic cream or frozen cream), sour cream, or a mixture (including a cultured mixture) of cream and milk or skim milk containing 9 percent or more butterfat, with or without the addition of other ingredients.

§ 1076.17 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted, or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers, or flavoring) resembles milk or any other fluid milk product, and contains less than 6 percent nonmilk fat (or oil).

§ 1076.18 Cooperative association.

"Cooperative association" means any cooperative marketing association which the Secretary determines, after application by the association:

(a) Is qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act";

(b) Has full authority in the sale of milk of its members and to be engaged in making collective sales of or marketing milk or its products for its members; and

(c) Has its entire activities under the control of its members.

Handler Reports

§ 1076.30 Reports of receipts and utilization.

On or before the 7th day (excluding holidays) after the end of each month, each handler shall report for such month to the market administrator, in the detail and on the forms prescribed by the market administrator, as follows:

(a) Each handler, with respect to each of his pool plants, shall report the quantities of skim milk and butterfat contained in or represented by:

(1) Receipts of producer milk, including producer milk diverted by the handler from the pool plant to other plants;

(2) Receipts of milk from handlers described in § 1076.9(c);

(3) Receipts of fluid milk products and bulk fluid cream producs from other pool plants;

(4) Receipts of other source milk;

(5) Inventories at the beginning and end of the month of fluid milk products and products specified in § 1076.40(b)(1); and

(6) The utilization or disposition of all milk, filled milk, and milk products required to be reported pursuant to this paragraph.

(b) Each handler operating a partially regulated distributing plant shall report with respect to such plant in the same manner as prescribed for reports required by paragraph (a) of this section. Receipts of milk that would have been producer milk if the plant had been fully regulated shall be reported in lieu of producer milk. Such report shall show also the quantity of any reconstituted skim milk in route disposition in the marketing area.

(c) Each handler described in § 1076.9 (b) and (c) shall report:

(1) The quantities of all skim milk and butterfat contained in receipts of milk from producers; and

(2) The utilization or disposition of all such receipts.

(d) Each handler not specified in paragraphs (a) through (c) of this section shall report with respect to his receipts and utilization of milk, filled milk, and milk products in such manner as the market administrator may prescribe.

§ 1076.31 Payroll reports.

(a) On or before the 20th day after the end of each month, each handler described in § 1076.9 (a), (b), and (c) shall report to the market administrator his producer payroll for such month, in the detail prescribed by the market administrator, showing for each producer:

(1) His name and address;

(2) The total pounds of milk received from such producer;

(3) The average butterfat content of such milk; and

(4) The price per hundredweight, the gross amount due, the amount and nature of any deductions, and the net amount paid.

(b) Each handler operating a partially regulated distributing plant who elects to make payment pursuant to § 1076.76(b) shall report for each dairy farmer who would have been a producer if the plant had been fully regulated in the same manner as prescribed for reports required by paragraph (a) of this section.

§ 1076.32 Other reports.

In addition to the reports required pursuant to §§ 1076.30 and 1076.31, each handler shall report such other information as the market administrator deems necessary to verify or establish such handler's obligation under the order.

Classification of Milk

§ 1076.40 Classes of utilization.

Except as provided in § 1076.42, all skim milk and butterfat required to be reported by a handler pursuant to § 1076.30 shall be classified as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid milk product, except as otherwise provided in paragraphs (b) and (c) of this section; and

(2) Not specifically accounted for as Class II or Class III milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid cream product, eggnog, yogurt, and any product containing 6 percent or more nonmilk fat (or oil) that resembles a fluid cream product, eggnog, or yogurt, except as otherwise provided in paragraph (c) of this section;

(2) In packaged inventory at the end of the month of the products specified in paragraph (b)(1) of this section;

(3) In bulk fluid milk products and bulk fluid cream products disposed of to any commercial food processing establishment (other than a milk or filled milk plant) at which food products (other than milk products and filled milk) are processed and from which there is no disposition of fluid milk products or fluid cream products other than those received in consumer-type packages; and

(4) Used to produce:

(i) Cottage cheese, lowfat cottage cheese, and dry curd cottage cheese;

(ii) Milkshake and ice milk mixes (or bases) containing 20 percent or more total solids, frozen desserts, and frozen dessert mixes;

(iii) Any concentrated milk product in bulk, fluid form other than that specified in paragraph (c)(1)(iv) of this section;

(iv) Plastic cream, frozen cream, and anhydrous milkfat;

(v) Custards, puddings, and pancake mixes; and

(vi) Formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers.

(c) *Class III milk.* Class III milk shall be all skim milk and butterfat:

(1) Used to produce:

(i) Cheese (other than cottage cheese, lowfat cottage cheese, and dry curd cottage cheese);

(ii) Butter;

(iii) Any milk product in dry form;

(iv) Any concentrated milk product in bulk, fluid form that is used to produce a Class III product;

(v) Evaporated or condensed milk (plain or sweetened) in a consumer-type package and evaporated or condensed skim milk (plain or sweetened) in a consumer-type package; and

(vi) Any product not otherwise specified in this section;

(2) In inventory at the end of the month of fluid milk products in bulk or packaged form and products specified in paragraph (b)(1) of this section in bulk form;

(3) In fluid milk products and products specified in paragraph (b)(1) of this section that are disposed of by a handler for animal feed;

(4) In fluid milk products and products specified in paragraph (b)(1) of this section that are dumped by a handler if the market administrator is notified of such dumping in advance and is given the opportunity to verify such disposition;

(5) In skim milk in any modified fluid milk product that is in excess of the quantity of skim milk in such product that was included within the fluid milk product definition pursuant to § 1076.15; and

(6) In shrinkage assigned pursuant to § 1076.41(a) to the receipts specified in § 1076.41(a)(2) and in shrinkage specified in § 1076.41 (b) and (c).

§ 1076.41 Shrinkage.

For purposes of classifying all skim milk and butterfat to be reported by a handler pursuant to § 1076.30, the market administrator shall determine the following:

(a) The pro rata assignment of shrinkage of skim milk and butterfat, respectively, at each pool plant to the respective quantities of skim milk and butterfat:

(1) In the receipts specified in paragraph (b)(1) through (6) of this section on which shrinkage is allowed pursuant to such paragraph; and

(2) In other source milk not specified in paragraph (b)(1) through (6) of this section which was received in the form of a bulk fluid milk product or a bulk fluid cream product;

(b) The shrinkage of skim milk and butterfat, respectively, assigned pursuant to paragraph (a) of this section to the receipts specified in paragraph (a)(1) of this section that is not in excess of:

(1) Two percent of the skim milk and butterfat, respectively, in producer milk (excluding milk diverted by the plant operator to another plant);

(2) Plus 1.5 percent of the skim milk and butterfat, respectively, in milk received from a handler described in § 1076.9(c), except that, if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be 2 percent;

(3) Plus 0.5 percent of the skim milk and butterfat, respectively, in producer milk diverted from such plant by the plant operator to another plant, except that if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests, determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be zero;

(4) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other pool plants;

(5) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received from other order plants, excluding milk received by diversion and the quantity for which Class II or Class III classification is requested by the operators of both plants;

(6) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received from unregulated supply plants, excluding the quantity for which Class II or Class III classification is requested by the handler; and

(7) Less 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products transferred to other plants that is not in excess of the respective amounts of skim milk and butterfat to which percentages are applied in paragraph (b)(1), (2), (4), (5), and (6) of this section; and

(c) The quantity of skim milk and butterfat, respectively, in shrinkage of milk from producers for which a cooperative association is the handler pursuant to § 1076.9 (b) or (c), but not in excess of 0.5 percent of the skim milk and butterfat, respectively, in such milk. If the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this paragraph for the cooperative association shall be zero.

§ 1076.42 Classification of transfers and diversions.

(a) *Transfers to pool plants.* Skim milk or butterfat transferred in the form of a fluid milk product or a bulk fluid cream product from a pool plant to another pool plant or by a handler described in § 1076.9(c) to another handler's pool plant shall be classified as follows:

(1) Such transfers from a pool plant shall be classified as Class I milk unless the operators of both plants request the same classification in another class. In either case, the classification of such transfers shall be subject to the following conditions:

(i) The skim milk or butterfat classified in each class shall be limited to the amount of skim milk and butterfat, respectively, remaining in such class at the transferee-plant after the computations pursuant to § 1076.44(a)(12) and the corresponding step of § 1076.44(b);

(ii) If the transferor-plant received during the month other source milk to be allocated pursuant to § 1076.44(a)(7) or the corresponding step of § 1076.44(b), the skim milk or butterfat so transferred shall be classified so as to allocate the least possible Class I utilization to such other source milk; and

(iii) If the transferor-handler received during the month other source milk to be allocated pursuant to § 1076.44 (a) (11) or (12) or the corresponding steps of § 1076.44(b), the skim milk or butterfat so transferred up to the total of the skim milk and butterfat, respectively, in such receipts of other source milk, shall not be classified as Class I milk to a greater extent than would be the case if the other source milk had been received at the transferee plant; and

(2) Such transfers by a handler described in § 1076.9(c) shall be classified pro rata to the respective quantities of skim milk and butterfat remaining in each class after the computations pursuant to § 1076.44(a)(13)(i) and the corresponding step of § 1076.44(b).

(b) *Transfers and diversions to other order plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream product from a pool plant to an other order plant shall be classified in the following manner. Such classification shall apply only to the skim milk or butterfat that is in excess of any receipts at the pool plant from the other order plant of skim milk and butterfat, respectively, in fluid milk products and bulk fluid cream products, respectively, that are in the same category as described in paragraph (b)(1), (2), or (3) of this section:

(1) If transferred as packaged fluid milk products, classification shall be in the classes to which allocated as a fluid milk product under the other order;

(2) If transferred in bulk form, classification shall be in the classes to which allocated under the other order (including allocation under the conditions set forth in paragraph (b)(3) of this section);

(3) If the operators of both plants so request in their reports of receipts and utilization filed with their respective market administrators, transfers or diversions in bulk form shall be classified as Class II or Class III milk to the extent of such utilization available for such classification pursuant to the allocation provisions of the other order;

(4) If information concerning the classes to which such transfers or diversions were allocated under the other order is not available to the market administrator for the purpose of establishing classification under this paragraph, classification shall be as Class I, subject to adjustment when such information is available;

(5) For purposes of this paragraph, if the other order provides for a different number of classes of utilization than is provided for under this part, skim milk or butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I milk, and skim milk or butterfat allocated to the other classes shall be classified as Class III milk; and

(6) If the form in which any fluid milk product that is transferred to an other order plant is not defined as a fluid milk product under such other order, classification under this paragraph shall be in accordance with the provisions of § 1076.40.

(c) *Transfers to producer-handlers.* Skim milk or butterfat transferred in the following forms from a pool plant to a producer-handler under this or any other Federal order shall be classified:

(1) As Class I milk, if transferred in the form of a fluid milk product; and

(2) In accordance with the utilization assigned to it by the market administrator, if transferred in the form of a bulk fluid cream product. For this purpose, the producer-handler's utilization of skim milk and butterfat in each class, in series beginning with Class III, shall be assigned to the extent possible to his receipts of skim milk and butterfat, respectively, in bulk fluid cream products, pro rata to each source.

V 39 90 MAY 8 74 XUM

(d) *Transfers and diversions to other nonpool plants.* Skim milk or butterfat transferred or diverted in the following forms from a pool plant to a nonpool plant that is not an other order plant or a producer-handler plant shall be classified:

(1) As Class I milk, if transferred in the form of a packaged fluid milk product; and

(2) As Class I milk, if transferred or diverted in the form of a bulk fluid milk product or a bulk fluid cream product, unless the following conditions apply:

(i) If the conditions described in paragraph (d)(2)(i) (*a*) and (*b*) of this section are met, transfers or diversions in bulk form shall be classified on the basis of the assignment of the nonpool plant's utilization to its receipts as set forth in paragraph (d)(2)(ii) through (viii) of this section:

(*a*) The transferor-handler or diverter-handler claims such classification in his report of receipts and utilization filed pursuant to § 1076.30 for the month within which such transaction occurred; and

(*b*) The nonpool plant operator maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available for verification purposes if requested by the market administrator;

(ii) Route disposition in the marketing area of each Federal milk order from the nonpool plant and transfers of packaged fluid milk products from such nonpool plant to plants fully regulated thereunder shall be assigned to the extent possible in the following sequence:

(*a*) Pro rata to receipts of packaged fluid milk products at such nonpool plant from pool plants;

(*b*) Pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from other order plants;

(c) Pro rata to receipts of bulk fluid milk products at such nonpool plant from pool plants; and

(*d*) Pro rata to any remaining unassigned receipts of bulk fluid milk products at such nonpool plant from other order plants;

(iii) Any remaining Class I disposition of packaged fluid milk products from the nonpool plant shall be assigned to the extent possible pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from pool plants and other order plants;

(iv) Transfers of bulk fluid milk products from the nonpool plant to a plant fully regulated under any Federal milk order, to the extent that such transfers to the regulated plant exceed receipts of fluid milk products from such plant and are allocated to Class I at the transferee-plant, shall be assigned to the extent possible in the following sequence:

(*a*) Pro rata to receipts of fluid milk products at such nonpool plant from pool plants; and

(*b*) Pro rata to any remaining unassigned receipts of fluid milk products at such nonpool plant from other order plants;

(v) Any remaining unassigned Class I disposition from the nonpool plant shall be assigned to the extent possible in the following sequence:

(*a*) To such nonpool plant's receipts from dairy farmers who the market administrator determines constitute regular sources of Grade A milk for such nonpool plant; and

(*b*) To such nonpool plant's receipts of Grade A milk from plants not fully regulated under any Federal milk order which the market administrator determines constitute regular sources of Grade A milk for such nonpool plant;

(vi) Any remaining unassigned receipts of bulk fluid milk products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class I utilization, then to Class III utilization, and then to Class II utilization at such nonpool plant;

(vii) Receipts of bulk fluid cream products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class III utilization, then to any remaining Class II utilization, and then to Class I utilization at such nonpool plant; and

(viii) In determining the nonpool plant's utilization for purposes of this subparagraph, any fluid milk products and bulk fluid cream products transferred from such nonpool plant to a plant not fully regulated under any Federal milk order shall be classified on the basis of the second plant's utilization using the same assignment priorities at the second plant that are set forth in this subparagraph.

§ 1076.43 General classification rules.

In determining the classification of producer milk pursuant to § 1076.44, the following rules shall apply:

(a) Each month the market administrator shall correct for mathematical and other obvious errors all reports filed pursuant to § 1076.30 and shall compute separately for each pool plant and for each cooperative association with respect to milk for which it is the handler pursuant to § 1076.9 (b) or (c) the pounds of skim milk and butterfat, respectively, in each class in accordance with §§ 1076.40, 1076.41, and 1076.42;

(b) If any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk in such product that are to be considered under this part as used or disposed of by the handler shall be an amount equivalent to the nonfat milk solids contained in such product plus all of the water originally associated with such solids; and

(c) The classification of producer milk for which a cooperative association is the handler pursuant to § 1076.9 (b) or (c) shall be determined separately from the operations of any pool plant operated by such cooperative association.

§ 1076.44 Classification of producer milk.

For each month the market administrator shall determine the classification of producer milk of each handler described in § 1076.9(a) for each of his pool plants separately and of each handler described in § 1076.9 (b) and (c) by allocating the handler's receipts of skim milk and butterfat to his utilization as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk in shrinkage specified in § 1076.41(b);

(2) Subtract from the total pounds of skim milk in Class I the pounds of skim milk in receipts of packaged fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in fluid milk products received in packaged form from an other order plant, except that to be subtracted pursuant to paragraph (a)(7)(vi) of this section, as follows:

(i) From Class III milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(4) Subtract from the pounds of skim milk in Class II the pounds of skim milk in products specified in § 1076.40(b)(1) that were received in packaged form from other plants, but not in excess of the pounds of skim milk remaining in Class II;

(5) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in products specified in § 1076.40(b)(1) that were in inventory at the beginning of the month in packaged form, but not in excess of the pounds of skim milk remaining in Class II. This subparagraph shall apply only if the pool plant was subject to the provisions of this subparagraph or comparable provisions of another Federal milk order in the immediately preceding month;

(6) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in other source milk (except that received in the form of a fluid milk product or a fluid cream product) that is used to produce, or added to, any product specified in § 1076.40(b), but not in excess of the pounds of skim milk remaining in Class II;

(7) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk (except that received in the form of a fluid milk product) and, if paragraph (a)(5) of this section applies, packaged inventory at the beginning of the month of products specified in § 1076.40(b)(1) that was not subtracted pursuant to paragraph (a)(4), (5), and (6) of this section;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established;

(iii) Receipts of fluid milk products from unidentified sources;

(iv) Receipts of fluid milk products from a producer-handler as defined under this or any other Federal milk order;

(v) Receipts of reconstituted skim milk in filled milk from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) of this section; and

(vi) Receipts of reconstituted skim milk in filled milk from an other order plant that is regulated under any Federal milk order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor-plant;

(8) Subtract in the order specified below from the pounds of skim milk remaining in Class II and Class III, in sequence beginning with Class III:

(i) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) and (7)(v) of this section for which the handler requests a classification other than Class I, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(ii) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (7)(v), and (8)(i) of this section which are in excess of the pounds of skim milk determined pursuant to paragraph (a)(8)(ii) (*a*) through (c) of this section. Should the pounds of skim milk to be subtracted from Class II and Class III combined exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount:

(*a*) Multiply by 1.25 the sum of the pounds of skim milk remaining in Class I at this allocation step at all pool plants of the handler (excluding any duplication of Class I utilization resulting from reported Class I transfers between pool plants of the handler);

(*b*) Subtract from the above result the sum of the pounds of skim milk in receipts at all pool plants of the handler of producer milk, milk described in § 1076.9(c), fluid milk products from pool plants of other handlers, and bulk fluid milk products from other order plants that were not subtracted pursuant to paragraph (a)(7)(vi) of this section; and

(c) Multiply any plus quantity resulting above by the percentage that the receipts of skim milk in fluid milk products from unregulated supply plants that remain at this pool plant is of all such receipts remaining at this allocation step at all pool plants of the handler; and

(iii) The pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) of this section, if Class II or Class III classification is requested by the operator of the other order plant and the handler, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(9) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in fluid milk products and products specified in § 1076.40(b)(1) in inventory at the beginning of the month that were not subtracted pursuant to paragraph (a)(5) and (7)(i) of this section;

(10) Add to the remaining pounds of skim milk in Class III the pounds of skim milk subtracted pursuant to paragraph (a)(1) of this section;

(11) Subject to the provisions of paragraph (a)(11)(i) and (ii) of this section, subtract from the pounds of skim milk remaining in each class at the plant, pro rata to the total pounds of skim milk remaining in Class I and in Class II and Class III combined at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler), with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, the pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (7)(v), and (8)(i) and (ii) of this section and that were not offset by transfers or diversions of fluid milk products to the same unregulated supply plant from which fluid milk products to be allocated at this step were received:

(i) Should the pounds of skim milk to be subtracted from Class II and Class III combined pursuant to this subparagraph exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(ii) Should the pounds of skim milk to be subtracted from Class I pursuant to this subparagraph exceed the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount, beginning with the nearest plant at which Class I utilization is available;

(12) Subtract in the manner specified below from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) and (8)(iii) of this section:

(i) Subject to the provisions of paragraph (a)(12)(ii), (iii), and (iv) of this section, such subtraction shall be pro rata to the pounds of skim milk in Class I and in Class II and Class III combined, with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, with respect to whichever of the following quantities represents the lower proportion of Class I milk:

(*a*) The estimated utilization of skim milk of all handlers in each class as announced for the month pursuant to § 1076.45(a); or

(*b*) The total pounds of skim milk remaining in each class at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler);

(ii) Should the proration pursuant to paragraph (a)(12)(i) of this section result in the total pounds of skim milk at all pool plants of the handler that are to be subtracted at this allocation step from Class II and Class III combined exceeding the pounds of skim milk remaining in Class II and Class III at all such plants, the pounds of such excess shall be subtracted from the pounds of skim milk remaining in Class I after such proration at the pool plants at which such other source milk was received;

(iii) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12)(i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class II and Class III combined that exceeds the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at

V 39 90 MAY 8 74 XUM

each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(iv) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12) (i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class I that exceeds the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount beginning with the nearest plant at which Class I utilization is available;

(13) Subtract in the following order from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products and bulk fluid cream products from:

(i) Another pool plant according to the classification of such products pursuant to § 1076.42(a)(1); and

(ii) A handler described in § 1076.9(c) according to the classification of such products pursuant to § 1076.42(a)(2); and

(14) If the total pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class III. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) The quantity of producer milk in each class shall be the combined pounds of skim milk and butterfat remaining in each class after the computations pursuant to paragraph (a)(14) of this section and the corresponding step of paragraph (b) of this section.

§ 1076.45 Market administrator's reports and announcements concerning classification.

The market administrator shall make the following reports and announcements concerning classification:

(a) Whenever required for the purpose of allocating receipts from other order plants pursuant to § 1076.44(a)(12) and the corresponding step of § 1076.44(b), estimate and publicly announce the utilization (to the nearest whole percentage) in each class during the month of skim milk and butterfat, respectively, in producer milk of all handlers. Such estimate shall be based upon the most current available data and shall be final for such purpose.

(b) Report to the market administrator of the other order, as soon as possible after the report of receipts and utilization for the month is received from a handler who has received fluid milk products or bulk fluid cream products from an other order plant, the class to which such receipts are allocated pursuant to § 1076.44 on the basis of such report, and, thereafter, any change in such allocation required to correct errors disclosed in the verification of such report.

(c) Furnish to each handler operating a pool plant who has shipped fluid milk products or bulk fluid cream products to an other order plant the class to which such shipments were allocated by the market administrator of the other order on the basis of the report by the receiving handler, and, as necessary, any changes in such allocation arising from the verification of such report.

(d) On or before the 12th day after the end of each month, report to each cooperative association, which so requests, the percentage of the milk caused to be delivered by the cooperative association or its members to the pool plant(s) of each handler during the month, which was utilized in each class. For the purpose of this report, the milk so delivered shall be allocated to each class for each handler in the same ratio as all producer milk received by such handler during the month.

CLASS PRICES

§ 1076.50 Class prices.

Subject to the provisions of § 1076.52, the class prices for the month per hundredweight of milk containing 3.5 percent butterfat shall be as follows:

(a) *Class I price.* The Class I price shall be the basic formula price for the second preceding month plus $1.50.

(b) *Class II price.* The Class II price shall be the basic formula price for the month plus 10 cents.

(c) *Class III price.* The Class III price shall be the basic formula price for the month.

§ 1076.51 Basic formula price.

The "basic formula price" shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Minnesota and Wisconsin, as reported by the Department for the month, adjusted to a 3.5 percent butterfat basis and rounded to the nearest cent. For such adjustment, the butterfat differential (rounded to the nearest one-tenth cent) per one-tenth percent butterfat shall be 0.12 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month. For the purpose of computing the Class I price, the resulting price shall be not less than $4.33.

§ 1076.52 Plant location adjustments for handlers.

(a) For milk received from producers at a pool plant located 100 miles or more by shortest hard-surfaced highway distance as measured by the market administrator, from the nearest of the Post Offices of Aberdeen, Huron, Mitchell, Sioux Falls, and Watertown, S. Dak., and disposed of as Class I milk, the price computed pursuant to § 1076.50(a) shall be reduced 15 cents, plus 1.5 cents for each 10 miles or fraction thereof that such distance exceeds 110 miles.

(b) For purposes of calculating such adjustment, transfers between pool plants shall be assigned to Class I disposition remaining at the transferee-plant after computations pursuant to § 1076.44(a)(12) and the corresponding step of § 1076.44(b) in excess of 95 percent of receipts at such plant of milk from producers and handlers described in § 1076.9(c), such assignment to be made first to transferor-plants at which no location adjustment credit is applicable and then in sequence beginning with the plant at which the least location adjustment would apply.

(c) The Class I price applicable to other source milk shall be adjusted at the rates set forth in paragraph (a) of this section, except that the adjusted Class I price shall not be less than the Class III price.

§ 1076.53 Announcement of class prices.

The market administrator shall announce publicly on or before the fifth day of each month the Class I price for the following month and the Class II and Class III prices for the preceding month.

§ 1076.54 Equivalent price.

If for any reason a price or pricing constituent required by this part for computing class prices or for other purposes is not available as prescribed in this part, the market administrator shall use a price or pricing constituent determined by the Secretary to be equivalent to the price or pricing constituent that is required.

UNIFORM PRICE

§ 1076.60 Handler's value of milk for computing uniform price.

For the purpose of computing the uniform price, the market administrator shall determine for each month the value of milk of each handler with respect to each of his pool plants and of each handler described in § 1076.9 (b) and (c) as follows:

(a) Multiply the pounds of producer milk in each class as determined pursuant to § 1076.44 by the applicable class prices and add the resulting amounts;

(b) Add the amounts obtained from multiplying the pounds of overage subtracted from each class pursuant to § 1076.44(a)(14) and the corresponding step of § 1076.44(b) by the respective class prices, as adjusted by the butterfat differential specified in § 1076.74, that are applicable at the location of the pool plant;

(c) Add the amount obtained from multiplying the difference between the Class III price for the preceding month and the Class I price applicable at the location of the pool plant or the Class II price, as the case may be, for the current month by the hundredweight of skim milk and butterfat subtracted from Class I and Class II pursuant to § 1076.44(a)(9) and the corresponding step of § 1076.44(b);

(d) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the pool plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1076.44(a)(7) (i) through (iv) and the corresponding step of § 1076.44 (b), excluding receipts of bulk fluid cream products from an other order plant;

(e) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the transferor-plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1076.44(a)(7) (v) and (vi) and the corresponding step of § 1076.44 (b); and

(f) Add the amount obtained from multiplying the Class I price applicable at the location of the nearest unregulated supply plants from which an equivalent volume was received by the pounds of skim milk and butterfat subtracted from Class I pursuant to § 1076.44(a)(11) and the corresponding step of § 1076.44(b), excluding such skim milk and butterfat in receipts of bulk fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order.

§ 1076.61 Computation of uniform price.

For each month the market administrator shall compute the uniform price per hundredweight of milk of 3.5 percent butterfat content which is received from producers as follows:

(a) Combine into one total the values computed pursuant to § 1076.60 for all handlers who filed the reports prescribed in § 1076.30 for such month, except those in default of payments required pursuant to § 1076.71 and 1076.73 for the preceding month;

(b) Add an amount equal to the total value of the location adjustments computed pursuant to § 1076.75;

(c) Add an amount equal to not less than one-half of the unobligated balance in the producer-settlement fund;

(d) Divide the aggregate value computed pursuant to paragraphs (a), (b), and (c) of this section by the sum of the following for all handlers included in these computations:

(1) The total hundredweight of producer milk; and

(2) The total hundredweight for which a value is computed pursuant to § 1076.60(f); and

(e) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to paragraph (d) of this section. The result shall be the uniform price for milk received from producers.

§ 1076.62 Announcement of uniform price and butterfat differential.

The market administrator shall announce publicly on or before:

(a) The fifth day after the end of each month the butterfat differential for such month; and

(b) The 12th day after the end of each month the uniform price for such month.

PAYMENTS FOR MILK

§ 1076.70 Producer-settlement fund.

The market administrator shall establish and maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made by handlers pursuant to §§ 1076.71, 1076.76, and 1076.77 and out of which he shall make all payments to handlers pursuant to §§ 1076.72 and 1076.77: *Provided,* That the market administrator shall offset the payment due to a handler against payments due from each handler.

§ 1076.71 Payments to the producer-settlement fund.

(a) On or before the 13th day after the end of the month, each handler shall pay to the market administrator the amount, if any, by which the amount specified in paragraph (a)(1) of this section exceeds the amount specified in paragraph (a)(2) of this section:

(1) The total value of milk of the handler for such month as determined pursuant to § 1076.60.

(2) The sum of:

(i) The value at the uniform price, as adjusted pursuant to § 1076.75, of such handler's receipts of producer milk; and

(ii) The value at the uniform price applicable at the location of the plant from which received of other source milk for which a value is computed pursuant to § 1076.60(f).

(b) On or before the 25th day after the end of the month each handler who operated an other order plant that was regulated during such month under an order providing for individual-handler pooling shall pay to the market administrator an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk in route disposition from such plant in the marketing area which was allocated to Class I at such plant. If there is such route disposition from such plant in marketing areas regulated by two or more marketwide pool orders, the reconstituted skim milk allocated to Class I shall be prorated to each order according to such route disposition in each marketing area; and

(2) Compute the value of the reconstituted skim milk assigned in paragraph (b)(1) of this section to route disposition in this marketing area by multiplying the quantity of such skim milk by the difference between the Class I price under this part that is applicable at the location of the other order plant (but not to be less than the Class III price) and the Class III price.

§ 1076.72 Payments from the producer-settlement fund.

On or before the 14th day after the end of each month the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1076.71(a)(2) exceeds the amount computed pursuant to § 1076.71(a)(1): *Provided,* That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available. A handler who has not received the balance of such payments from the market administrator shall not be considered in violation of § 1076.73 if he reduces his payments to producers by not more than the amount of the reduction in payment from the producer-settlement fund.

§ 1076.73 Payments to producers and to cooperative associations.

(a) Each handler shall pay each producer for producer milk for which payment is not made to a cooperative association pursuant to paragraph (b) or (c) of this section, as follows:

(1) On or before the last day of each month, for producer milk received during the first 15 days of the month, at not less than the Class III price for the preceding month; and

(2) On or before the 15th day after the end of each month, for milk received during such month, an amount computed at not less than the uniform price per hundredweight, as adjusted pursuant to §§ 1076.74 and 1076.75, plus or minus adjustments for errors made in previous payments to such producer; and less

(i) Payment made pursuant to paragraph (a)(1) of this section;

(ii) Location adjustment deductions pursuant to § 1076.75; and

(iii) Proper deductions authorized by such producer;

(b) Except as provided in paragraph (c) of this section each handler shall make payment to a cooperative association for producer milk which it caused to be delivered to such handler, if such cooperative association is authorized to collect such payments for its members and exercises such authority, an amount equal to the sum of the individual payments otherwise payable for such producer milk, as follows:

(1) On or before the 26th day of each month an amount equal to not less than the sum of the individual payments otherwise payable to producers pursuant to paragraph (a)(1) of this section; and

(2) On or before the 13th day after the end of each month, an amount equal to not less than the sum of the individual payments otherwise payable to producers

V 39 90 MAY 8 74 XUM

pursuant to paragraph (a)(2) of this section;

(c) To a cooperative association with respect to receipts of milk for which such cooperative association is the handler as described in § 1076.9(c) as follows:

(1) On or before the 26th day of the month, for milk received during the first 15 days of the month an amount per hundredweight equal to not less than the uniform price for the preceding month; and

(2) On or before the 13th day after the end of each month not less than the value of such milk at the class prices, as adjusted by the butterfat differential specified in § 1076.74, that are applicable at the location of the receiving handler's pool plant, and less payment made pursuant to paragraph (c)(1) of this section; and

(d) In making the payments for producer milk pursuant to this section, each handler shall furnish each producer or cooperative association from whom he has received milk with a supporting statement in such form that it may be retained by the recipient, that shall show:

(1) The month and identity of the handler and of the producer;

(2) The pounds per shipment, the total pounds and the average butterfat content of milk received from the producer;

(3) The minimum rate or rates at which payment to the producer is required pursuant to the order;

(4) The rate that is used in making the payment, if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight and nature of each deduction claimed by the handler; and

(6) The net amount of payment to such producer or cooperative association.

§ 1076.74 Butterfat differential.

For milk containing more or less than 3.5 percent butterfat, the uniform price shall be increased or decreased, respectively, for each one-tenth percent butterfat variation from 3.5 percent by a butterfat differential, rounded to the nearest one-tenth cent, which shall be 0.115 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month.

§ 1076.75 Plant location adjustments for producers and on nonpool milk.

(a) The uniform price computed pursuant to § 1076.61 for producer milk received at a pool plant shall be reduced according to the location of the pool plant, at the rates set forth in § 1076.52; and

(b) For purposes of computations pursuant to §§ 1076.71 and 1076.72 the uniform price shall be adjusted at the rates set forth in § 1076.52 applicable at the location of the nonpool plant from which the milk was received, except that the adjusted uniform price shall not be less than the Class III price.

§ 1076.76 Payments by handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant shall pay on or before the 25th day after the end of the month to the market administrator for the producer-settlement fund the amount computed pursuant to paragraph (a) of this section. If the handler submits pursuant to §§ 1076.30(b) and 1076.31(b) the information necessary for making the computations, such handler may elect to pay in lieu of such payment the amount computed pursuant to paragraph (b) of this section:

(a) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the pounds of route disposition in the marketing area from the partially regulated distributing plant;

(2) Subtract the pounds of fluid milk products received at the partially regulated distributing plant:

(i) As Class I milk from pool plants and other order plants, except that subtracted under a similar provision of another Federal milk order; and

(ii) From another nonpool plant that is not an other order plant to the extent that an equivalent amount of fluid milk products disposed of to such nonpool plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract the pounds of reconstituted skim milk in route disposition in the marketing area from the partially regulated distributing plant;

(4) Multiply the remaining pounds by the difference between the Class I price and the uniform price, both prices to be applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price); and

(5) Add the amount obtained from multiplying the pounds of reconstituted skim milk specified in paragraph (a)(3) of this section by the difference between the Class I price applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price) and the Class III price.

(b) The payment under this paragraph shall be the amount resulting from the following computations;

(1) Determine the value that would have been computed pursuant to § 1070.60 for the partially regulated distributing plant if the plant had been a pool plant, subject to the following modifications:

(i) Fluid milk products and bulk fluid cream products received at the partially regulated distributing plant from a pool plant or an other order plant shall be allocated at the partially regulated distributing plant to the same class in which such products were classified at the fully regulated plant;

(ii) Fluid milk products and bulk fluid cream products transferred from the partially regulated distributing plant to a pool plant or an other order plant shall be classified at the partially regulated distributing plant in the class to which allocated at the fully regulated plant. Such transfers shall be allocated to the extent possible to those receipts at the partially regulated distributing plant from pool plants and other order plants that are classified in the corresponding class pursuant to paragraph (b)(1)(i) of this section. Any such transfers remaining after the above allocation which are classified in Class I and for which a value is computed for the handler operating the partially regulated distributing plant pursuant to § 1076.60 shall be priced at the uniform price (or at the weighted average price if such is provided) of the respective order regulating the handling of milk at the transferee-plant, with such uniform price adjusted to the location of the nonpool plant (but not to be less than the lowest class price of the respective order), except that transfers of reconstituted skim milk in filled milk shall be priced at the lowest class price of the respective order; and

(iii) If the operator of the partially regulated distributing plant so requests, the value of milk determined pursuant to § 1076.60 for such handler shall include, in lieu of the value of other source milk specified in § 1076.60(f) less the value of such other source milk specified in § 1076.71(a)(2)(ii), a value of milk determined pursuant to § 1076.60 for each nonpool plant that is not an other order plant which serves as a supply plant for such partially regulated distributing plant by making shipments to the partially regulated distributing plant during the month equivalent to the requirements of § 1076.7(b), subject to the following conditions:

(*a*) The operator of the partially regulated distributing plant submits with his reports filed pursuant to §§ 1076.30(b) and 1076.31(b) similar reports for each such nonpool supply plant;

(*b*) The operator of such nonpool supply plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for verification purposes; and

(*c*) The value of milk determined pursuant to § 1076.60 for such nonpool supply plant shall be determined in the same manner prescribed for computing the obligation of such partially regulated distributing plant; and

(2) From the partially regulated distributing plant's value of milk computed pursuant to paragraph (b)(1) of this section, subtract:

(i) The gross payments by the operator of such partially regulated distributing plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1076.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated; and

(ii) If paragraph (b)(1)(iii) of this section applies, the gross payments by the operator of such nonpool supply plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1076.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated; and

(iii) The payments by the operator of the partially regulated distributing plant to the producer-settlement fund of another order under which such plant is also a partially regulated distributing plant and like payments by the operator of the nonpool supply plant if paragraph (b)(1)(iii) of this section applies.

§ 1076.77 Adjustment of accounts.

(a) Whenever verification by the market administrator of reports of payments of any handler discloses errors made in payments to or from the producer-settlement fund, the market administrator shall promptly bill such handler for any unpaid amount and such handler shall, within 15 days of such billing make payments to the market administrator of the amount so billed and whenever verification discloses that payment is due from the market administrator to any handler, the market administrator shall, within 15 days make such payment to such handler.

(b) Whenever verification by the market administrator of the payment by a handler to any producer or cooperative association discloses payment of less than is required by § 1076.73, the handler shall make up such payment to the producer or cooperative association not later than the time of making payment next following such disclosure.

§ 1076.78 Charges on overdue accounts.

Any unpaid obligation of a handler pursuant to § 1076.71(a) shall be increased by one-half of 1 percent for each month or portion thereof that such payment is overdue.

ADMINISTRATIVE ASSESSMENT

§ 1076.85 Assessment for order administration.

As his pro rata share of the expense of administration of the order, each handler shall pay to the market administrator on or before the 15th day after the end of the month 5 cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to:

(a) Producer milk, including such handler's own production;

(b) Other source milk allocated to Class I pursuant to § 1076.44(a)(7) and (11) and the corresponding steps of § 1076.44(b), except such other source milk that is excluded from the computations pursuant to § 1076.60 (d) and (f); and

(c) Route disposition from a partially regulated distributing plant in the marketing area that exceeds the skim milk and butterfat subtracted pursuant to § 1076.76(a)(2).

PART 1078—MILK IN NORTH CENTRAL IOWA MARKETING AREA

Subpart—Order Regulating Handling

GENERAL PROVISIONS

Sec.
1078.1 General provisions.

DEFINITIONS

1078.2 North Central Iowa marketing area.
1078.3 [Reserved]
1078.4 [Reserved]
1078.5 Distributing plant.
1078.6 Supply plant.
1078.7 Pool plant.
1078.8 Nonpool plant.
1078.9 Handler.
1078.10 Producer-handler.
1078.11 [Reserved]
1078.12 Producer.
1078.13 Producer milk.
1078.14 Other source milk.
1078.15 Fluid milk product.
1078.16 Fluid cream product.
1078.17 Filled milk.
1078.18 Cooperative association.

HANDLER REPORTS

1078.30 Reports of receipts and utilization.
1078.31 Payroll reports.
1078.32 Other reports.

CLASSIFICATION OF MILK

1078.40 Classes of utilization.
1078.41 Shrinkage.
1078.42 Classification of transfers and diversions.
1078.43 General classification rules.
1078.44 Classification of producer milk.
1078.45 Market administrator's reports concerning classification.

CLASS PRICES

1078.50 Class prices.
1078.51 Basic formula price.
1078.52 Plant location adjustments for handlers.
1078.53 Announcement of class prices.
1078.54 Equivalent price.

UNIFORM PRICE

1078.60 Handler's value of milk for computing uniform price.
1078.61 Computation of uniform price for each handler.
1078.62 Announcement of uniform price for each handler and butterfat differential.

PAYMENTS FOR MILK

1078.73 Payments to producers and to cooperative associations.
1078.74 Butterfat differential.
1078.75 Plant location adjustments for producers.
1078.76 [Reserved]
1078.77 Adjustment of accounts.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

Sec.
1078.85 Assessment for order administration.
1078.86 Deduction for marketing services.

AUTHORITY: Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674).

Subpart—Order Regulating Handling

GENERAL PROVISIONS

§ 1078.1 General provisions.

The terms, definitions, and provisions in Part 1000 of this chapter are hereby incorporated by reference and made a part of this order.

DEFINITIONS

§ 1078.2 North Central Iowa marketing area.

"North Central Iowa marketing area" (hereinafter called the "marketing area") means all the territory within the boundaries of the city of Osage and the counties of Black Hawk, Bremer, Buchanan, Butler, Cerro Gordo, Chickasaw, Fayette, Floyd, Franklin, Grundy, Hamilton, Hancock, Hardin, Humboldt, Marshall, Tama, Webster, and Wright, all in the State of Iowa, including territory within such boundaries which is occupied by government (Municipal, State, or Federal) reservations, installations, institutions or other establishments.

§ 1078.3 [Reserved]

§ 1078.4 [Reserved]

§ 1078.5 Distributing plant.

"Distributing plant" means a plant which is approved by an appropriate health authority for the processing or packaging of Grade A milk from which any fluid milk product is disposed of during the month on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except other plants) located in the marketing area.

§ 1078.6 Supply plant.

"Supply plant" means a plant from which milk or skim milk which is acceptable to the appropriate health authority for distribution in the marketing area under a Grade A label is shipped during the month to a pool plant qualified pursuant to § 1078.7.

§ 1078.7 Pool plant.

Except as provided in paragraph (c) of this section, "pool plant" means:

(a) A distributing plant from which a volume of Class I milk, except filled milk, equal to more than an average of 1,000 pounds per day or not less than 15 percent of the Grade A milk received at such plant from dairy farmers and from other plants is disposed of during the month on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except other plants) in the marketing area.

(b) A supply plant for the month in which shipments of milk or skim milk are made to distributing plants which are pool plants on not less than 10 days in any of the months of September, October, and November and on not less than 5 days in other months: *Provided*, That a supply plant which was not a pool plant for each of the immediately preceding months of September, October, and November shall not be a pool plant for any month during which none of the milk or skim milk from such plant would be allocated to Class I milk pursuant to the procedure specified in

V 39 90
MAY 8 74
XUM

§ 1078.44(a)(13), and the corresponding step of § 1078.44(b) at a distributing plant which is a pool plant.

(c) The term "pool plant" shall not apply to the following plants:

(1) A producer-handler plant; and

(2) A distributing plant or a supply plant during any month in which such plant would be subject to the classification and pricing provisions of another order issued pursuant to the Act unless such plant is qualified as a pool plant pursuant to paragraph (a) or (b) of this section and a greater volume of fluid milk products, except filled milk, is disposed of from such plant to retail or wholesale outlets and to pool plants in the North Central Iowa marketing area than in the marketing area regulated pursuant to such other order.

§ 1078.8 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing, or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant from which fluid milk products are shipped during the month to a pool plant.

§ 1078.9 Handler.

"Handler" means:

(a) Any person in his capacity as the operator of one or more distributing or supply plants.

(b) [Reserved]

(c) A cooperative association with respect to Grade A milk received from dairy farmers in a tank truck, the operation of which is under the control of such cooperative association, and delivered in such tank truck to a pool plant: *Provided*, That such milk shall be deemed to have been received directly from producers at the location of the pool plant by the operator of the pool plant to which it is delivered by the tank truck.

§ 1078.10 Producer-handler.

"Producer-handler" means any person who operates a dairy farm and a distributing plant but who receives no milk from other dairy farmers.

§ 1078.11 [Reserved]

§ 1078.12 Producer.

Except as provided in paragraph (b) of this section, "producer" means any person who produces milk in compliance with the Grade A inspection requirements of a duly constituted health authority, and whose milk is (1) received at a pool plant, or (2) diverted from a pool plant to a nonpool plant that is not a producer-handler plant for the account of the operator of the pool plant (i) any day during the months of April through June, and (ii) on not more than one-half the days on which milk was delivered from a farm during any of the months of July through March.

(b) "Producer" shall not include:

(1) A producer-handler as defined in any order (including this part) issued pursuant to the Act;

(2) Any person with respect to milk produced by him which is diverted to a pool plant from an other order plant if the other order designates such person as a producer under that order and such milk is allocated to Class II or Class III utilization pursuant to § 1078.44(a)(8)(iii) and the corresponding step of § 1078.44(b); and

(3) Any person with respect to milk produced by him which is reported as diverted to an other order plant if any portion of such person's milk so moved is assigned to Class I under the provisions of such other order.

§ 1078.13 Producer milk.

"Producer milk" means only that skim milk or butterfat contained in milk of producers that is (a) received at a pool plant directly from producers, or (b) diverted from a pool plant to a nonpool plant in accordance with the conditions set forth in § 1078.12.

§ 1078.14 Other source milk.

"Other source milk" means all skim milk and butterfat contained in or represented by:

(a) Receipts of fluid milk products and bulk products specified in § 1078.40(b)(1) from any source other than producers, handlers described in § 1078.9(c), or pool plants;

(b) Receipts in packaged form from other plants of products specified in § 1078.40(b)(1);

(c) Products (other than fluid milk products, products specified in § 1078.40(b)(1), and products produced at the plant during the same month) from any source which are reprocessed, converted into, or combined with another product in the plant during the month; and

(d) Receipts of any milk product (other than a fluid milk product or a product specified in § 1078.40(b)(1)) for which the handler fails to establish a disposition.

§ 1078.15 Fluid milk product.

(a) Except as provided in paragraph (b) of this section, "fluid milk product" means any of the following products in fluid or frozen form:

(1) Milk, skim milk, lowfat milk, milk drinks, buttermilk, filled milk, and milkshake and ice milk mixes containing less than 20 percent total solids, including any such products that are flavored, cultured, modified with added nonfat milk solids, concentrated (if in a consumer-type package), or reconstituted; and

(2) Any milk product not specified in paragraph (a)(1) of this section or in § 1078.40(b) or (c)(1)(i) through (v) if it contains by weight at least 80 percent water and 6.5 percent nonfat milk solids and less than 9 percent butterfat and 20 percent total solids.

(b) The term "fluid milk product" shall not include:

(1) Evaporated or condensed milk (plain or sweetened), evaporated or condensed skim milk (plain or sweetened), formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers, any product that contains by weight less than 6.5 percent nonfat milk solids, and whey; and

(2) The quantity of skim milk in any modified product specified in paragraph (a) of this section that is in excess of the quantity of skim milk in an equal volume of an unmodified product of the same nature and butterfat content.

§ 1078.16 Fluid cream product.

"Fluid cream product" means cream (other than plastic cream or frozen cream), sour cream, or a mixture (including a cultured mixture) of cream and milk or skim milk containing 9 percent or more butterfat, with or without the addition of other ingredients.

§ 1078.17 Filled milk.

"Filled milk" means any combination of nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted, or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers, or flavoring) resembles milk or any other fluid milk product, and contains less than 6 percent nonmilk fat (or oil).

§ 1078.18 Cooperative association.

"Cooperative association" means any cooperative marketing association which the Secretary determines, after application by the association:

(a) To be qualified under the provisions of the act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and to be engaged in making collective sales of or marketing milk or its products for its members.

HANDLER REPORTS

§ 1078.30 Reports of receipts and utilization.

On or before the seventh day after the end of each month, each handler shall report for such month to the market administrator, in the detail and on the forms prescribed by the market administrator, as follows:

(a) Each handler, with respect to each of his pool plants, shall report the quantities of skim milk and butterfat contained in or represented by:

(1) Receipts of producer milk, including producer milk diverted by the handler from the pool plant to other plants;

(2) Receipts of milk from handlers described in § 1078.9(c);

(3) Receipts of fluid milk products and bulk fluid cream products from other pool plants;

(4) Receipts of other source milk;

(5) Inventories at the beginning and end of the month of fluid milk products and products specified in § 1078.40(b)(1); and

(6) The utilization or disposition of all milk, filled milk, and milk products required to be reported pursuant to this paragraph.

(b) Each handler described in § 1078.9(c) shall report:

(1) The quantities of all skim milk and butterfat contained in receipts of milk from producers; and

(2) The utilization or disposition of all such receipts.

(c) Each handler not specified in paragraphs (a) and (b) of this section shall report with respect to his receipts and utilization of milk, filled milk, and milk products in such manner as the market administrator may prescribe.

§ 1078.31 Payroll reports.

On or before the 20th day after the end of each month, each handler described in § 1078.9 (a) and (c) shall report to the market administrator his producer payroll for such month, in the detail prescribed by the market administrator, showing for each producer:

(a) His name and address;

(b) The total pounds of milk received from such producer;

(c) The average butterfat content of such milk; and

(d) The price per hundredweight, the gross amount due, the amount and nature of any deductions, and the net amount paid.

§ 1078.32 Other reports.

(a) Each handler, except a producer-handler, shall report to the market administrator in the detail and on forms prescribed by the market administrator:

(1) On or before the first day other source milk is received in the form of any fluid milk product at his pool plant(s), his intention to receive such product and on or before the last day such product is received, his intention to discontinue receipt of such milk; and

(2) Prior to his diversion of producer milk to a nonpool plant, his intention to divert such milk, the proposed date or dates of such diversion and the plant to which such milk is to be diverted.

(b) In addition to the reports required pursuant to §§ 1078.30 and 1078.31 and paragraph (a) of this section, each handler shall report such other information as the market administrator deems necessary to verify or establish such handler's obligation under the order.

CLASSIFICATION OF MILK

§ 1078.40 Classes of utilization.

Except as provided in § 1078.42, all skim milk and butterfat required to be reported by a handler pursuant to § 1078.30 shall be classified as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid milk product, except as otherwise provided in paragraphs (b) and (c) of this section; and

(2) Not specifically accounted for as Class II or Class III milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid cream product, eggnog, yogurt, and any product containing 6 percent or more nonmilk fat (or oil) that resembles a fluid cream product, eggnog, or yogurt, except as otherwise provided in paragraph (c) of this section;

(2) In packaged inventory at the end of the month of the products specified in paragraph (b)(1) of this section;

(3) In bulk fluid milk products and bulk fluid cream products disposed of to any commercial food processing establishment (other than a milk or filled milk plant) at which food products (other than milk products and filled milk) are processed and from which there is no disposition of fluid milk products or fluid cream products other than those received in consumer-type packages; and

(4) Used to produce:

(i) Cottage cheese, low fat cottage cheese, and dry curd cottage cheese;

(ii) Milkshake and ice milk mixes (or bases) containing 20 percent or more total solids, frozen desserts, and frozen dessert mixes;

(iii) Any concentrated milk product in bulk, fluid form other than that specified in paragraph (c)(1)(iv) of this section;

(iv) Plastic cream, frozen cream, and anhydrous milkfat;

(v) Custards, puddings, and pancake mixes; and

(vi) Formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers.

(c) *Class III milk.* Class III milk shall be all skim milk and butterfat:

(1) Used to produce:

(i) Cheese (other than cottage cheese, low fat cottage cheese, and dry curd cottage cheese);

(ii) Butter;

(iii) Any milk product in dry form;

(iv) Any concentrated milk product in bulk, fluid form that is used to produce a Class III product;

(v) Evaporated or condensed milk (plain or sweetened) in a consumer-type package and evaporated or condensed skim milk (plain or sweetened) in a consumer-type package; and

(vi) Any product not otherwise specified in this section;

(2) In inventory at the end of the month of fluid milk products in bulk or packaged form and products specified in paragraph (b)(1) of this section in bulk form;

(3) In fluid milk products and products specified in paragraph (b)(1) of this section that are disposed of by a handler for animal feed;

(4) In fluid milk products and products specified in paragraph (b)(1) of this section that are dumped by a handler if the market administrator is notified of such dumping in advance and is given the opportunity to verify such disposition;

(5) In skim milk in any modified fluid milk product that is in excess of the quantity of skim milk in such product that was included within the fluid milk product definition pursuant to § 1078.15; and

(6) In shrinkage assigned pursuant to § 1078.41(a) to the receipts specified in § 1078.41(a)(2) and in shrinkage specified in § 1078.41 (b) and (c).

§ 1078.41 Shrinkage.

For purposes of classifying all skim milk and butterfat to be reported by a handler pursuant to §1078.30, the market administrator shall determine the following:

(a) The pro rata assignment of shrinkage of skim milk and butterfat, respectively, at each pool plant to the respective quantities of skim milk and butterfat:

(1) In the receipts specified in paragraph (b)(1) through (6) of this section on which shrinkage is allowed pursuant to such paragraph; and

(2) In other source milk not specified in paragraph (b)(1) through (6) of this section which was received in the form of a bulk fluid milk product or a bulk fluid cream product;

(b) The shrinkage of skim milk and butterfat, respectively, assigned pursuant to paragraph (a) of this section to the receipts specified in paragraph (a)(1) of this section that is not in excess of:

(1) Two percent of the skim milk and butterfat, respectively, in producer milk (excluding milk diverted by the plant operator to another plant and milk received from a handler described in § 1078.9(c));

(2) Plus 1.5 percent of the skim milk and butterfat, respectively, in milk received from a handler described in § 1078.9(c), except that if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be 2 percent;

(3) Plus 0.5 percent of the skim milk and butterfat, respectively, in producer milk diverted from such plant by the plant operator to another plant, except that if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be zero;

(4) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other pool plants;

(5) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other order plants, excluding the quantity for which Class II or Class III classification is requested by the operators of both plants;

V 39 90
MAY 8 74
XUM

(6) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received from unregulated supply plants, excluding the quantity for which Class II or Class III classification is requested by the handler; and

(7) Less 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products transferred to other plants that is not in excess of the respective amounts of skim milk and butterfat to which percentages are applied in paragraph (b) (1), (2), (4), (5), and (6) of this section; and

(c) The quantity of skim milk and butterfat, respectively, in shrinkage of milk from producers for which a cooperative association is the handler pursuant to § 1078.9(c), but not in excess of 0.5 percent of the skim milk and butterfat, respectively, in such milk. If the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this paragraph for the cooperative association shall be zero.

§ 1078.42 Classification of transfers and diversions.

(a) *Transfers to pool plants.* Skim milk or butterfat transferred in the form of a fluid milk product or a bulk fluid cream product from a pool plant to another pool plant shall be classified as Class I milk unless the operators of both plants request the same classification in another class. In either case, the classification of such transfers shall be subject to the following conditions:

(1) The skim milk or butterfat classified in each class shall be limited to the amount of skim milk and butterfat, respectively, remaining in such class at the transferee-plant after the computations pursuant to § 1078.44(a)(12) and the corresponding step of § 1078.44(b);

(2) If the transferor-plant received during the month other source milk to be allocated pursuant to § 1078.44(a)(7) or the corresponding step of § 1078.44(b), the skim milk or butterfat so transferred shall be classified so as to allocate the least possible Class I utilization to such other source milk; and

(3) If the transferor-handler received during the month other source milk to be allocated pursuant to § 1078.44(a)(11) or (12) or the corresponding steps of § 1078.44(b), the skim milk or butterfat so transferred, up to the total of the skim milk and butterfat, respectively, in such receipts of other source milk, shall not be classified as Class I milk to a greater extent than would be the case if the other source milk had been received at the transferee-plant.

(b) *Transfers and diversions to other order plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream product from a pool plant to an other order plant shall be classified in the following manner. Such classification shall apply only to the skim milk or butterfat that is in excess of any receipts at the pool plant from the other order plant of skim milk and butterfat, respectively, in fluid milk products and bulk fluid cream products, respectively, that are in the same category as described in paragraph (b) (1), (2), or (3) of this section;

(1) If transferred as packaged fluid milk products, classification shall be in the classes to which allocated as a fluid milk product under the other order;

(2) If transferred in bulk form, classification shall be in the classes to which allocated under the other order (including allocation under the conditions set forth in paragraph (b)(3) of this section);

(3) If the operators of both plants so request in their reports of receipts and utilization filed with their respective market administrators, transfers or diversions in bulk form shall be classified as Class II or Class III milk to the extent of such utilization available for such classification pursuant to the allocation provisions of the other order;

(4) If information concerning the classes to which such transfers or diversions were allocated under the other order is not available to the market administrator for the purpose of establishing classification under this paragraph, classification shall be as Class I, subject to adjustment when such information is available;

(5) For purposes of this paragraph, if the other order provides for a different number of classes of utilization than is provided for under this part, skim milk or butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I milk, and skim milk or butterfat allocated to the other classes shall be classified as Class III milk; and

(6) If the form in which any fluid milk product that is transferred to an other order plant is not defined as a fluid milk product under such other order, classification under this paragraph shall be in accordance with the provisions of § 1078.40.

(c) *Transfers to producer-handlers.* Skim milk or butterfat transferred in the following forms from a pool plant to a producer-handler under this or any other Federal order shall be classified:

(1) As Class I milk, if transferred in the form of a fluid milk product; and

(2) In accordance with the utilization assigned to it by the market administrator, if transferred in the form of a bulk fluid cream product. For this purpose, the producer-handler's utilization of skim milk and butterfat in each class, in series beginning with Class III, shall be assigned to the extent possible to his receipts of skim milk and butterfat, respectively, in bulk fluid cream products, pro rata to each source.

(d) *Transfers and diversions to other nonpool plants.* Skim milk or butterfat transferred or diverted in the following forms from a pool plant to a nonpool plant that is not an other order plant or a producer-handler plant shall be classified:

(1) As Class I milk, if transferred in the form of a packaged fluid milk product; and

(2) As Class I milk, if transferred or diverted in the form of a bulk fluid milk product or a bulk fluid cream product, unless the following conditions apply:

(i) If the conditions described in paragraph (d)(2)(i) (*a*) and (*b*) of this section are met, transfers or diversions in bulk form shall be classified on the basis of the assignment of the nonpool plant's utilization to its receipts as set forth in paragraph (d)(2) (ii) through (viii) of this section:

(*a*) The transferor-handler or divertor-handler claims such classification in his report of receipts and utilization filed pursuant to § 1078.30 for the month within which such transaction occurred; and

(*b*) The nonpool plant operator maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available for verification purposes if requested by the market administrator;

(ii) Route disposition of fluid milk products in the marketing area of each Federal milk order from the nonpool plant and transfers of packaged fluid milk products from such nonpool plant to plants fully regulated thereunder shall be assigned to the extent possible in the following sequence;

(*a*) Pro rata to receipts of packaged fluid milk products at such nonpool plant from pool plants;

(*b*) Pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from other order plants;

(*c*) Pro rata to receipts of bulk fluid milk products at such nonpool plant from pool plants; and

(*d*) Pro rata to any remaining unassigned receipts of bulk fluid milk products at such nonpool plant from other order plants;

(iii) Any remaining Class I disposition of packaged fluid milk products from the nonpool plant shall be assigned to the extent possible pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from pool plants and other order plants;

(iv) Transfers of bulk fluid milk products from the nonpool plant to a plant fully regulated under any Federal milk order, to the extent that such transfers to the regulated plant exceed receipts of fluid milk products from such plant and are allocated to Class I at the transferee-plant, shall be assigned to the extent possible in the folowing sequence:

(*a*) Pro rata to receipts of fluid milk products at such nonpool plant from pool plants; and

(*b*) Pro rata to any remaining unassigned receipts of fluid milk products at such nonpool plant from other order plants;

(v) Any remaining unassigned Class I disposition from the nonpool plant shall be assigned to the extent possible in the following sequence:

(*a*) To such nonpool plant's receipts from dairy farmers who the market administrator determines constitute regular sources of Grade A milk for such nonpool plant; and

(b) To such nonpool plant's receipts of Grade A milk from plants not fully regulated under any Federal milk order which the market administrator determines constitute regular sources of Grade A milk for such nonpool plant;

(vi) Any remaining unassigned receipts of bulk fluid milk products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class I utilization, then to Class III utilization, and then to Class II utilization at such nonpool plant;

(vii) Receipts of bulk fluid cream products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class III utilization, then to any remaining Class II utilization, and then to Class I utilization at such nonpool plant; and

(viii) In determining the nonpool plant's utilization for purposes of this subparagraph, any fluid milk products and bulk fluid cream products transferred from such nonpool plant to a plant not fully regulated under any Federal milk order shall be classified on the basis of the second plaint's utilization using the same assignment priorities at the second plant that are set forth in this subparagraph.

§ 1078.43 General classification rules.

In determining the classification of producer milk pursuant to § 1078.44, the following rules shall apply:

(a) Each month the market administrator shall correct for mathematical and other obvious errors all reports filed pursuant to § 1078.30 and shall compute separately for each pool plant and for each cooperative association with respect to milk for which it is the handler pursuant to § 1078.9(c) the pounds of skim milk and butterfat, respectively, in each class in accordance with §§ 1078.40, 1078.41, and 1078.42;

(b) If any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk in such product that are to be considered under this part as used or disposed of by the handler shall be an amount equivalent to the nonfat milk solids contained in such product plus all of the water originally associated with such solids; and

(c) The classification of producer milk for which a cooperative association is the handler pursuant to § 1078.9(c) shall be determined separately from the operations of any pool plant operated by such cooperative association.

§ 1078.44 Classification of producer milk.

For each month the market administrator shall determine the classification of producer milk of each handler described in § 1078.9(a) for each of his pool plants separately and of each handler described in § 1078.9(c) by allocating the handler's receipts of skim milk and butterfat to his utilization as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk in shrinkage specified in § 1078.41(b);

(2) Subtract from the total pounds of skim milk in Class I the pounds of skim milk in receipts of packaged fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any payment obligation under any order;

(3) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in fluid products received in packaged form from an other order plant as follows:

(i) From Class III milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(4) Subtract from the pounds of skim milk in Class II the pounds of skim milk in products specified in § 1078.40(b)(1) that were received in packaged form from other plants, but not in excess of the pounds of skim milk remaining in Class II;

(5) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in products specified in § 1078.40(b)(1) that were in inventory at the beginning of the month in packaged form, but not in excess of the pounds of skim milk remaining in Class II. This subparagraph shall apply only if the pool plant was subject to the provisions of this subparagraph or comparable provisions of another Federal milk order in the immediately preceding month;

(6) Substract from the remaining pounds of skim milk in other source milk (except that received in the form of a fluid milk product or a fluid cream product) that is used to produce, or added to, any product specified in § 1078.40(b), but not in excess of the pounds of skim milk remaining in Class II;

(7) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk (except that received in the form of a fluid milk product) and, if paragraph (a)(5) of this section applies, packaged inventory at the beginning of the month of products specified in § 1078.40(b)(1) that was not subtracted pursuant to paragraph (a)(4), (5), and (6) of this section;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established;

(iii) Receipts of fluid milk products from unidentified sources;

(iv) Receipts of fluid milk products from a producer-handler as defined under this or any other Federal milk order; and

(v) Receipts of reconstituted skim milk in filled milk from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) of this section;

(8) Subtract in the order specified below from the pounds of skim milk remaining in Class II and Class III, in sequence beginning with Class III:

(i) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraphs (a)(2) and (7)(v) of this section for which the handler requests a classification other than Class I, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(ii) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (7)(v), and (8)(i) of this section which are in excess of the pounds of skim milk determined pursuant to paragraph (a)(8)(ii) (*a*) through (*c*) of this section. Should the pounds of skim milk to be subtracted from Class II and Class III combined exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount:

(*a*) Multiply by 1.25 the sum of the pounds of skim milk remaining in Class I at this allocation step at all pool plants of the handler (excluding any duplication of Class I utilization resulting from reported Class I transfers between pool plants of the handler);

(*b*) Subtract from the above result the sum of the pounds of skim milk in receipts at all pool plants of the handler of producer milk, fluid milk products from pool plants of other handlers, and bulk fluid milk products from other order plants; and

(*c*) Multiply any plus quantity resulting above by the percentage that the receipts of skim milk in fluid milk products from unregulated supply plants that remain at this pool plant is of all such receipts remaining at this allocation step at all pool plants of the handler; and

(iii) The pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant, if Class II or Class III classification is requested by the operator of the other order plant and the handler, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(9) Subtract from the pounds of skim milk remaining in each class, in series

V 39 90 MAY 8 74 XUM

beginning with Class III, the pounds of skim milk in fluid milk products and products specified in § 1078.40(b)(1) in inventory at the beginning of the month that were not subtracted pursuant to paragraph (a) (5) and (7)(i) of this section;

(10) Add to the remaining pounds of skim milk in Class III the pounds of skim milk subtracted pursuant to paragraph (a)(1) of this section;

(11) Subject to the provisions of paragraph (a)(11) (i) and (ii) of this section, subtract from the pounds of skim milk remaining in each class at the plant, pro rata to the total pounds of skim milk remaining in Class I and in Class II and Class III combined at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler), with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, the pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a) (2), (7)(v), and (8) (i) and (ii) of this section and that were not offset by transfers or diversions of fluid milk products to the same unregulated supply plant from which fluid milk products to be allocated at this step were received:

(i) Should the pounds of skim milk to be subtracted from Class II and Class III combined pursuant to this subparagraph exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount;

(ii) Should the pounds of skim milk to be subtracted from Class I pursuant to this subparagraph exceed the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(12) Subject to the provisions of paragraph (a)(12) (i) and (ii) of this section, subtract from the pounds of skim milk remaining in each class at the plant, pro rata to the total pounds of skim milk remaining in Class I and in Class II and Class III combined at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler), with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, the pounds of skim milk in receipts of bulk fluid milk products from an other order plant that were not subtracted pursuant to paragraph (a)(8)(iii) of this section and that were not offset by transfers or diversions of bulk fluid milk products to the same other order plant from which fluid milk products to be allocated at this step were received:

(i) Should the pounds of skim milk to be subtracted from Class II and Class III combined pursuant to this subparagraph exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount;

(ii) Should the pounds of skim milk to be subtracted from Class I pursuant to this subparagraph exceed the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount, beginning with the nearest plant at which Class I utilization is available;

(13) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products and bulk fluid cream products from another pool plant according to the classification of such products pursuant to § 1078.42(a); and

(14) If the total pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class III. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) The quantity of producer milk in each class shall be the combined pounds of skim milk and butterfat remaining in each class after the computations pursuant to paragraph (a)(14) of this section and the corresponding step of paragraph (b) of this section.

§ 1078.45 Market administrator's reports concerning classification.

The market administrator shall make the following reports concerning classification:

(a) Report to the market administrator of the other order, as soon as possible after the report of receipts and utilization for the month is received from a handler who has received fluid milk products or bulk fluid cream products from an other order plant, the class to which such receipts are allocated pursuant to § 1078.44 on the basis of such report, and, thereafter, any change in such allocation required to correct errors disclosed in the verification of such report.

(b) Furnish to each handler operating a pool plant who has shipped fluid milk products or bulk fluid cream products to an other order plant the class to which such shipments were allocated by the market administrator of the other order on the basis of the report by the receiving handler, and, as necessary, any changes in such allocation arising from the verification of such report:

Class Prices

§ 1078.50 Class prices.

Subject to the provisions of § 1078.52, the class prices for the month per hundredweight of milk containing 3.5 percent butterfat shall be as follows:

(a) *Class I price.* The Class I price shall be the basic formula price for the second preceding month plus $1.25.

(b) *Class II price.* The Class II price shall be the basic formula price for the month plus 10 cents.

(c) *Class III price.* The Class III price shall be the basic formula price for the month.

§ 1078.51 Basic formula price.

The "basic formula price" shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Minnesota and Wisconsin, as reported by the Department for the month, adjusted to a 3.5 percent butterfat basis and rounded to the nearest cent. For such adjustment, the butterfat differential (rounded to the nearest one-tenth cent) per one-tenth percent butterfat shall be 0.12 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month. For the purpose of computing the Class I price, the resulting price shall be not less than $4.33.

§ 1078.52 Plant location adjustments for handlers.

(a) The following zones are defined for the purpose of determining location adjustments:

(1) "Zone 1" means all the territory in the Iowa counties of Humboldt, Wright, Franklin, Butler, Bremer, Webster, Hamilton, Hardin, Grundy, Black Hawk, and Buchanan.

(2) "Zone 2" means all the territory in the Iowa counties of Marshall, Tama, Linn, and Johnson.

(3) "Zone 3" means all the territory in the Iowa counties of Hancock, Cerro Gordo, Floyd, and Chickasaw and the city of Osage, Iowa.

(4) "Zone 4" means all the territory in Fayette County, Iowa, and the Minnesota counties of Freeborn and Mower.

(b) For milk received from producers at a pool plant located in Zone 2, 3, or 4 and classified as Class I milk, the price specified in § 1078.50(a) shall be adjusted by the following amount:

(1) Zone 2—plus 8 cents.
(2) Zone 3—minus 5 cents.
(3) Zone 4—minus 10 cents.

(c) For milk received from producers at a pool plant located outside Zones 1, 2, 3, and 4 and classified as Class I milk, the price specified in § 1078.50(a) shall be reduced 10 cents and, if the plant is located 65 miles or more by the shortest hard-surfaced highway distance as determined by the market administrator from the city halls of each of the cities of Fort Dodge, Marshalltown, Mason City, and Waterloo, Iowa, shall be reduced an additional 1.5 cents for each 10 miles or fraction thereof in excess of 65 miles that such plant is from the nearest of such city halls.

(d) For purposes of calculating the location adjustment applicable pursuant to this section, fluid milk products which are transferred between pool plants shall be assigned to the Class I milk remaining in the transferee-plant after calculations pursuant to § 1078.44(a)(12) and the corresponding step of § 1078.44(b) that is in excess of receipts at such plant from producers and handlers described in § 1078.9(c), such assignment to transferor-plants to be made first to plants at which a plus location adjustment is applicable, next at which no location adjustment is applicable and then in sequence beginning with the plant at which the least location adjustment would apply.

§ 1078.53 Announcement of class prices.

The market administrator shall announce publicly on or before the fifth day of each month the Class I price for the following month and the Class II and Class III prices for the preceding month.

§ 1078.54 Equivalent price.

If for any reason a price or pricing constituent required by this part for computing class prices or for other purposes is not available as prescribed in this part, the market administrator shall use a price or pricing constituent determined by the Secretary to be equivalent to the price or pricing constituent that is required.

Uniform Price

§ 1078.60 Handler's value of milk for computing uniform price.

For the purpose of computing the uniform price, the market administrator shall determine for each month the value of milk of each handler as follows:

(a) Multiply the pounds of producer milk in each class as determined pursuant to § 1078.44 by the applicable class prices and add the resulting amounts;

(b) Add the amounts obtained from multiplying the pounds of overage subtracted from each class pursuant to § 1078.44(a)(14) and the corresponding step of § 1078.44(b) by the respective class prices, as adjusted by the butterfat differential specified in § 1078.74, that are applicable at the location of the pool plant;

(c) Add the following:

(1) The amount obtained from multiplying the difference between the Class III price for the preceding month and the Class I price applicable at the location of the pool plant for the current month by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1078.44(a)(9) and the corresponding step of § 1078.44(b); and

(2) The amount obtained from multiplying the difference between the Class III price for the preceding month and the Class II price for the current month by the lesser of:

(i) The hundredweight of skim milk and butterfat subtracted from Class II pursuant to § 1078.44(a)(9) and the corresponding step of § 1078.44(b) for the current month; or

(ii) The hundredweight of skim milk and butterfat remaining in Class III (exclusive of shrinkage) after the computations pursuant to § 1078.44(a)(11) and the corresponding step of § 1078.44(b) for the preceding month, less the hundredweight of skim milk and butterfat specified in paragraph (c)(1) of this section; and

(d) Add or subtract, as the case may be, an amount necessary to correct errors discovered by the market administrator in the verification of reports of such handler of his receipts and utilization of skim milk and butterfat for previous months.

§ 1078.61 Computation of uniform price for each handler.

For each month the market administrator shall compute a uniform price for the producer milk received by each handler as follows:

(a) Add to and subtract from the amount computed pursuant to § 1078.60, the totals of the location adjustments to be made pursuant to § 1078.75;

(b) Add if a deduction was made, or subtract if an addition was made, in computing the uniform price for such handler to the nearest cent for the preceding month the amount of such adjustment; and

(c) Divide the resulting amount by the total hundredweight of producer milk received by such handler. The quotient, adjusted to the nearest cent, shall be the uniform price for such handler for producer milk of 3.5 percent butterfat content received at plants in Zone 1. Uniform prices at plants outside Zone 1 shall be adjusted pursuant to § 1078.75.

§ 1078.62 Announcement of uniform price for each handler and butterfat differential.

The market administrator shall announce publicly on or before:

(a) The fifth day after the end of each month the butterfat differential for such month; and

(b) The 10th day after the end of each month the uniform price for each handler for such month.

Payments for Milk

§ 1078.73 Payments to producers and to cooperative associations.

Each handler shall make payment to each producer for milk received from such producer as follows:

(a) On or before the 14th day after the end of each month, for milk received during such month, an amount computed at not less than the uniform price per hundredweight pursuant to § 1078.61, as adjusted pursuant to § 1078.74, plus or minus adjustments for errors made in previous payments to such producer; and less (1) location adjustments pursuant to § 1078.75, (2) deductions for marketing services pursuant to § 1078.86, and (3) proper deductions authorized by such producer: *Provided*, That with respect to producers whose milk was caused to be delivered to such handler by a cooperative association which is authorized to collect payment for such milk the handler shall, if requested by the cooperative association, pay such cooperative association on or before the 12th day after the end of each month an amount equal to the sum of the individual payments otherwise payable to such producers in accordance with this paragraph;

(b) In making the payments to producers pursuant to paragraph (a) of this section, each handler shall furnish each producer or cooperative association from whom he has received milk with a supporting statement in such form that it may be retained by the producer, which shall show for each month:

(1) The month and identity of the handler and of the producer;

(2) The daily and total pounds and the average butterfat content of milk received from such producer;

(3) The minimum rate or rates at which payment to such producer is required pursuant to the order;

(4) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight and nature of each deduction claimed by the handler; and

(6) The net amount of payment to such producer or cooperative association

§ 1078.74 Butterfat differential.

For milk containing more or less than 3.5 percent butterfat, the uniform price shall be increased or decreased, respectively, for each one-tenth percent butterfat variation from 3.5 percent by a butterfat differential, rounded to the nearest one-tenth cent, which shall be 0.115 times the simple average of the wholesale selling prices (using the midpoint of

V 39 90 MAY 8 74 XUM

any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month.

§ 1078.75 Plant location adjustments for producers.

The uniform prices for milk received from producers at a pool plant shall be adjusted according to the location of the pool plant at the rates set forth in § 1078.52.

§ 1078.76 [Reserved]

§ 1078.77 Adjustment of accounts.

Whenever verification by the market administrator of payment by a handler discloses errors resulting in money due a producer, a cooperative association, or the market administrator from such handler, or due such handler from the market administrator, the market administrator shall notify such handler of any amount so due and payment thereof shall be made on or before the next date for making payments, as set forth in the provisions under which such error occurred.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

§ 1078.85 Assessment for order administration.

As his pro rata share of the expense of administration of the order, each handler shall pay to the market administrator on or before the 15th day after the end of the month 4 cents per hundredweight or such lesser amount as the Secretary may prescribe, with respect to (a) producer milk, (b) other source milk allocated to Class I pursuant to § 1078.44 (a) (7) and (11) and the corresponding steps of § 1078.44(b), and (c) Class I milk disposed of from a partially regulated distributing plant on routes in the marketing area that exceeds the hundredweight of Class I milk received during the month at such plant from pool plants and other order plants.

§ 1078.86 Deduction for marketing services.

(a) Except as set forth in paragraph (b) of this section, each handler in making payments to each producer pursuant to § 1078.73, shall deduct 5 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to all milk received by such handler from such producer (except such handler's own farm production) during the month, and shall pay such deductions to the market administrator not later than the 15th day after the end of the month. Such money shall be used by the market administrator to verify or establish weights, samples, and tests of milk received by handlers from such producers during the month and to provide such producers with market information. Such services shall be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) In the case of producers for whom a cooperative association is actually performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions as are authorized by such producers and, on or before the 15th day after the end of each month, pay over such deductions to the association rendering such services.

PART 1079—MILK IN DES MOINES, IOWA, MARKETING AREA

Subpart—Order Regulating Handling

GENERAL PROVISIONS

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

Sec.
1079.85 Assessment for order administration.
1079.86 Deduction for marketing services.

AUTHORITY: Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674).

Subpart—Order Regulating Handling

GENERAL PROVISIONS

§ 1079.1 General provisions.

The terms, definitions, and provisions in Part 1000 of this chapter are hereby incorporated by reference and make a part of this order.

§ 1079.2 Des Moines, Iowa, marketing area.

"Des Moines, Iowa, marketing area" (hereinafter called the "marketing area"), means all the territory within the boundaries of the city of Grinnell and the counties of Adair, Appanoose, Bonne, Clarke, Dallas, Decatur, Greene, Guthrie, Jasper, Lucas, Madison, Mahaska, Marion, Monroe, Polk, Story, Union, Warren, Wappello, and Wayne, all in the State of Iowa, including territory within such boundaries which is occupied by government (municipal, State or Federal) reservations, installations, institutions, or other establishments.

§ 1079.3 [Reserved]

§ 1079.4 [Reserved]

§ 1079.5 Distributing plant.

"Distributing plant" means a plant which is approved by a duly constituted regulatory agency for the processing or packaging of Grade A milk and from which any fluid milk product is disposed of during the month on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets (except pool plants) located in the marketing area.

§ 1079.6 Supply plant.

"Supply plant" means a plant from which milk or skim milk, acceptable to a duly constituted regulatory agency for distribution in the marketing area under a Grade A label, is shipped during the month to a pool plant qualified pursuant to § 1079.7.

§ 1079.7 Pool plant.

Except as provided in paragraph (c) of this section, "pool plant" means:

(a) A distributing plant:

(1) From which the volume of Class I filled milk, disposed of during the month either on routes (including routes operated by vendors) or through plant stores to retail or wholesale outlets or moved to other plants, less receipts of packaged fluid milk products, other than filled milk, from other pool distributing plants, is not less than 35 percent of the combined Grade A milk received in bulk form at such plant or diverted therefrom by the plant operator or a cooperative association to a nonpool plant as producer milk; and not less than 15 percent of such receipts or an average of not less than 7000 pounds per day whichever is less, is so disposed of to such outlets in the marketing area; or

(2) That qualified as a pool plant in each of the immediately preceding three months on the basis of performance standards described in paragraph (a) (1) of this section.

(b) A supply plant:

(1) From which the volume of fluid milk products, except filled milk, shipped during the month to pool plants qualified pursuant to paragraph (a) of this section is equal to not less than 35 percent (30 percent for each of the months of April through August) of the Grade A milk received at such plant from dairy farmers and handlers described in § 1079.9(c), and diverted therefrom by the plant operator or a cooperative association as producer milk pursuant to § 1079.13: *Provided*, That if such shipments are not less than 50 percent during the immediately preceding period of September through November, such plant shall be a pool plant during each of the months of March through June, unless written application is filed with the market administrator on or before the 15th day of any of the months of March through June to be designated a nonpool plant for such month and for each subsequent month through June of the same year; or

(2) That qualified as a pool plant in each of the immediately preceding three months on the basis of performance standards described in paragraph (b) (1) of this section with respect to shipment to plants qualified pursuant to paragraph (a) (1) of this section.

(c) The term "pool plant" shall not apply to the following plants:

(1) A producer-handler plant;

(2) A distributing plant or a supply plant during any month in which such plant would be subject to the classification and pricing provisions of another order issued pursuant to the Act unless the disposition of fluid milk products, except filled milk, from such plant to pool plants qualified pursuant to this section and to retail and wholesale outlets in the Des Moines, Iowa, marketing area exceeds such disposition to retail and wholesale outlets in such other marketing area and to pool plants regulated by such other order except in the following circumstances:

(i) If a distributing plant were qualified pursuant to paragraph (a) of this section during each of the 3 immediately preceding months, it would continue to be subject to all the provisions of this part until after the third consecutive month in which it remains so qualified and has a greater proportion of its fluid milk product disposition, except filled milk, made in the above-described manner in such other marketing area, unless, notwithstanding the provisions of this paragraph, it is regulated under such other order; or

(ii) A distributing plant qualified pursuant to paragraph (a) of this section that is fully regulated under another Federal order but which has greater fluid milk product (except filled milk) disposition during the month on routes in the Des Moines marketing area and to pool plants qualified on the basis of route distribution in the Des Moines marketing area than in such other Federal order marketing area; and

(3) That portion of a plant that is physically apart from the Grade A portion of such plant, is operated separately and is not approved by any duly constituted regulatory agency for the receiving, processing, or packaging of any fluid milk product for Grade A disposition.

§ 1079.8 Nonpool plant.

"Nonpool plant" means any milk or filled milk receiving, manufacturing, or processing plant other than a pool plant. The following categories of nonpool plants are further defined as follows:

(a) "Other order plant" means a plant that is fully subject to the pricing and pooling provisions of another order issued pursuant to the Act.

(b) "Producer-handler plant" means a plant operated by a producer-handler as defined in any order (including this part) issued pursuant to the Act.

(c) "Partially regulated distributing plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant, from which fluid milk products in consumer-type packages or dispenser units are distributed on routes in the marketing area during the month.

(d) "Unregulated supply plant" means a nonpool plant that is neither an other order plant nor a producer-handler plant from which fluid milk products are shipped during the month to a pool plant.

§ 1079.9 Handler.

"Handler" means:

(a) Any person in his capacity as the operator of one or more pool plants;

(b) Any cooperative association with respect to the milk of producers it diverts from a pool plant pursuant to § 1079.13;

(c) Any cooperative association with respect to milk it receives for its account from the farm of a producer in a tank truck owned and operated by, or under the control of, such association, for delivery to a pool plant operated by another person, unless both the cooperative association and the operator of the pool plant notify the market administrator that the plant operator will be responsible for payment for the milk and is purchasing the milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples. Milk for which the cooperative association is the qualified handler pursuant to this paragraph shall be deemed to have been received at the location of the pool plant to which such milk is delivered;

(d) Any person in his capacity as the operator of a partially regulated distributing plant;

(e) Any person defined as a producer-handler;

(f) Any person in his capacity as the operator of an other order plant described in § 1079.7(c); and

(g) Any person in his capacity as the operator of an unregulated supply plant.

§ 1079.10 Producer-handler.

"Producer-handler" means any person who operates a dairy farm and a distributing plant but who receives no milk from other dairy farmers or from sources other than pool plants and whose disposition of fluid milk products does not exceed that (a) received from a pool plant, (b) processed from milk of his own production, or (c) processed from fluid milk received from a pool plant.

§ 1079.11 [Reserved]

§ 1079.12 Producer.

(a) Except as provided in paragraph (b) of this section, "producer" means any person who produces milk in compliance with the Grade A inspection requirements of a duly constituted regulatory agency, and which milk is:

(1) Received at a pool plant;

(2) Diverted as producer milk pursuant to § 1079.13; or

(3) Received by a handler described in § 1079.9(c).

(b) "Producer" shall not include:

(1) A producer-handler as defined in any order (including this part) issued pursuant to the Act;

(2) Any person with respect to milk produced by him which is diverted to a pool plant from an other order plant if the other order designates such person as a producer under that order and such milk is allocated to Class II or Class III utilization pursuant to § 1079.44 (a) (8) (iii) and the corresponding step of § 1079.44(b); and

(3) Any person with respect to milk produced by him which is reported as diverted to an other order plant if any portion of such person's milk so moved is assigned to Class I under the provisions of such other order.

§ 1079.13 Producer milk.

"Producer milk" shall be that skim milk and butterfat in milk from producers that is:

(a) Received at a pool plant directly from a producer;

(b) Received by a handler described in § 1079.9(c); or

(c) Diverted by the operator of a pool plant or by a cooperative association to a nonpool plant other than a producer-handler plant, subject to the following conditions:

(1) Such milk shall be accounted for as received by the diverting handler at the location of the nonpool plant;

(2) Milk of a producer shall not be eligible for diversion from a pool plant under this section unless during the month at least one delivery is made to a pool plant;

(3) A cooperative association may divert the milk of any producer (other than producer milk diverted pursuant to paragraph (c) (4) of this section). The total quantity of milk so diverted may not exceed 50 percent in the months of September through March, and 70 percent in other months, of the milk for which the cooperative is the handler pursuant to § 1079.9(c) and producer

V 39 90 MAY 8 74 XUM

milk which the association causes to be delivered to pool plants, or diverted therefrom during the month;

(4) The operator of a pool plant (other than a cooperative association) may divert for his account the milk of any producer (other than producer milk diverted pursuant to paragraph (c)(3) of this section). The total quantity so diverted may not exceed 50 percent in the months of September through March, and 70 percent in other months, of the milk received at or diverted from such pool plant from producers and for which the operator of such plant is the handler during the month;

(5) Any milk diverted in excess of the limits prescribed pursuant to paragraph (c) (3) and (4) of this section shall not be producer milk and, if the diverting handler fails to designate the dairy farmers whose milk is not producer milk, then no milk diverted by such handler during the month shall be producer milk; and

(6) To the extent that it would result in nonpool plant status for the pool plant from which diverted, milk diverted by a cooperative association from the pool plant of another handler shall not be producer milk.

§ 1079.14 Other source milk.

"Other source milk" means all skim milk and butterfat contained in or represented by:

(a) Receipts of fluid milk products and bulk products specified in § 1079.40 (b)(1) from any source other than producers, handlers described in § 1079.9 (c), or pool plants;

(b) Receipts in packaged form from other plants of products specified in § 1079.40(b)(1);

(c) Products (other than fluid milk products, products specified in § 1079.40 (b)(1), and products produced at the plant during the same month) from any source which are reprocessed, converted into, or combined with another product in the plant during the month; and

(d) Receipts of any milk product (other than a fluid milk product or a product specified in § 1079.40(b)(1)) for which the handler fails to establish a disposition.

§ 1079.15 Fluid milk product.

(a) Except as provided in paragraph (b) of this section, "fluid milk product" means any of the following products in fluid or frozen form:

(1) Milk, skim milk, lowfat milk, milk drinks, buttermilk, filled milk, and milkshake and ice milk mixes containing less than 20 percent total solids, including any such products that are flavored, cultured, modified with added nonfat milk solids, concentrated (if in a consumer-type package), or reconstituted; and

(2) Any milk product not specified in paragraph (a)(1) of this section or in § 1079.40 (b) or (c)(1)(i) through (v) if it contains by weight at least 80 percent water and 6.5 percent nonfat milk solids and less than 9 percent butterfat and 20 percent total solids.

(b) The term "fluid milk product" shall not include:

(1) Evaporated or condensed milk (plain or sweetened), evaporated or condensed skim milk (plain or sweetened), formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers, any product that contains by weight less than 6.5 percent nonfat milk solids, and whey; and

(2) The quantity of skim milk in any modified product specified in paragraph (a) of this section that is in excess of the quantity of skim milk in an equal volume of an unmodified product of the same nature and butterfat content.

§ 1079.16 Fluid cream product.

"Fluid cream product" means cream (other than plastic cream or frozen cream), sour cream, or a mixture (including a cultured mixture) of cream and milk or skim milk containing 9 percent or more butterfat, with or without the addition of other ingredients.

§ 1079.17 Filled milk.

"Filled milk" means any combination or nonmilk fat (or oil) with skim milk (whether fresh, cultured, reconstituted, or modified by the addition of nonfat milk solids), with or without milkfat, so that the product (including stabilizers, emulsifiers, or flavoring) resembles milk or any other fluid milk product, and contains less than 6 percent nonmilk fat (or oil).

§ 1079.18 Cooperative association.

"Cooperative association" means any cooperative marketing association which the Secretary determines after application by the association:

(a) To be qualified under the provisions of the Act of Congress of February 18, 1922, as amended, known as the "Capper-Volstead Act"; and

(b) To have full authority in the sale of milk of its members and is engaged in making collective sales of or marketing milk or its products for its members.

HANDLER REPORTS

§ 1079.30 Reports of receipts and utilization.

On or before the seventh day after the end of each month, each handler shall report for such month to the market administrator, in the detail and on the forms prescribed by the market administrator, as follows:

(a) Each handler, with respect to each of his pool plants, shall report the quantities of skim milk and butterfat contained in or represented by:

(1) Receipts of producer milk, including producer milk diverted by the handler from the pool plant to other plants;

(2) Receipts of milk from handlers described in § 1079.9(c);

(3) Receipts of fluid milk products and bulk fluid cream products from other pool plants;

(4) Receipts of other source milk;

(5) Inventories at the beginning and end of the month of fluid milk products and products specified in § 1079.40(b)(1); and

(6) The utilization or disposition of all milk, filled milk, and milk products required to be reported pursuant to this paragraph.

(b) Each handler operating a partially regulated distributing plant shall report with respect to such plant in the same manner as prescribed for reports required by paragraph (a) of this section. Receipts of milk that would have been producer milk if the plant had been fully regulated shall be reported in lieu of producer milk. Such report shall show also the quantity of any reconstituted skim milk in route disposition of fluid milk products in the marketing area.

(c) Each handler described in § 1079.9 (b) shall report:

(1) The quantities of all skim milk and butterfat contained in receipts of milk from producers;

(2) The utilization or disposition of all such receipts; and

(3) With respect to a handler described in § 1079.9(b), the plant from which such milk is diverted.

(d) Each handler not specified in paragraphs (a) through (c) of this section shall report with respect to his receipts and utilization of milk, filled milk, and milk products in such manner as the market administrator may prescribe.

§ 1079.31 Payroll reports.

(a) On or before the 20th day after the end of each month, each handler described in § 1079.9 (a), (b) and (c) shall report to the market administrator his producer payroll for such month, in the detail prescribed by the market administrator, showing for each producer:

(1) His name and address;

(2) The total pounds of milk received from such producer;

(3) The average butterfat content of such milk; and

(4) The price per hundredweight, the gross amount due, the amount and nature of any deductions, and the net amount paid.

(b) Each handler operating a partially regulated distributing plant who elects to make payment pursuant to § 1079.76 (b) shall report for each dairy farmer who would have been a producer if the plant had been fully regulated in the same manner as prescribed for reports required by paragraph (a) of this section.

§ 1079.32 Other reports.

(a) Each handler, except a producer-handler, shall report to the market administrator in the detail and on forms prescribed by the market administrator:

(1) On or before the first day other source milk is received in the form of any fluid milk product at his pool plant his intention to receive such product, and on or before the last day such product is received, his intention to discontinue receipt of such product; and

(2) Prior to his diversion of producer milk to a nonpool plant, his intention to divert such milk, the proposed date or dates of such diversion and the plant to which such milk is to be diverted.

(b) In addition to the reports required pursuant to §§ 1079.30 and 1079.31 and paragraph (a) of this section, each handler shall report such other information as the market administrator deems necessary to verify or establish such handler's obligation under the order.

CLASSIFICATION OF MILK

§ 1079.40 Classes of utilization.

Except as provided in § 1079.42, all skim milk and butterfat required to be reported by a handler pursuant to § 1079.30 shall be classified as follows:

(a) *Class I milk.* Class I milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid milk product, except as otherwise provided in paragraphs (b) and (c) of this section; and

(2) Not specifically accounted for as Class II or Class III milk.

(b) *Class II milk.* Class II milk shall be all skim milk and butterfat:

(1) Disposed of in the form of a fluid cream product, eggnog, yogurt, and any product containing 6 percent or more nonmilk fat (or oil) that resembles a fluid cream product, eggnog, or yogurt, except as otherwise provided in paragraph (c) of this section;

(2) In packaged inventory at the end of the month of the products specified in paragraph (b)(1) of this section;

(3) In bulk fluid milk products and bulk fluid cream products disposed of to any commercial food processing establishment (other than a milk or filled milk plant) at which food products (other than milk products and filled milk) are processed and from which there is no disposition of fluid milk products or fluid cream products other than those received in consumer-type packages; and

(4) Used to produce:

(i) Cottage cheese, low fat cottage cheese, and dry curd cottage cheese;

(ii) Milkshake and ice milk mixes (or bases) containing 20 percent or more total solids, frozen desserts, and frozen dessert mixes;

(iii) Any concentrated milk product in bulk, fluid form other than that specified in paragraph (c)(1)(iv) of this section;

(iv) Plastic cream, frozen cream, and anhydrous milkfat;

(v) Custards, puddings, and pancake mixes; and

(vi) Formulas especially prepared for infant feeding or dietary use that are packaged in hermetically sealed glass or all-metal containers.

(c) *Class III milk.* Class III milk shall be all skim milk and butterfat:

(1) Used to produce:

(i) Cheese (other than cottage cheese, low fat cottage cheese, and dry curd cottage cheese);

(ii) Butter;

(iii) Any milk product in dry form;

(iv) Any concentrated milk product in bulk, fluid form that is used to produce a Class III product;

(v) Evaporated or condensed milk (plain or sweetened) in a consumer-type package and evaporated or condensed skim milk (plain or sweetened) in a consumer-type package; and

(vi) Any product not otherwise specified in this section;

(2) In inventory at the end of the month of fluid milk products in bulk or packaged form and products specified in paragraph (b)(1) of this section in bulk form;

(3) In fluid milk products and products specified in paragraph (b)(1) of this section that are disposed of by a handler for animal feed;

(4) In fluid milk products and products specified in paragraph (b)(1) of this section that are dumped by a handler if the market administrator is notified of such dumping in advance and is given the opportunity to verify such disposition;

(5) In fluid milk products destroyed or lost under extraordinary circumstances;

(6) In skim milk in any modified fluid milk product that is in excess of the quantity of skim milk in such product that was included within the fluid milk product definition pursuant to § 1079.15; and

(7) In shrinkage assigned pursuant to § 1079.41(a) to the receipts specified in § 1079.41(a)(2) and in shrinkage specified in § 1079.41 (b) and (c).

§ 1079.41 Shrinkage.

For purposes of classifying all skim milk and butterfat to be reported by a handler pursuant to § 1079.30, the market administrator shall determine the following:

(a) The pro rata assignment of shrinkage of skim milk and butterfat, respectively, at each pool plant to the respective quantities of skim milk and butterfat:

(1) In the receipts specified in paragraph (b) (1) through (6) of this section on which shrinkage is allowed pursuant to such paragraph; and

(2) In other source milk not specified in paragraph (b) (1) through (6) of this section which was received in the form of a bulk fluid milk product or a bulk fluid cream product;

(b) The shrinkage of skim milk and butterfat, respectively, assigned pursuant to paragraph (a) of this section to the receipts specified in paragraph (a)(1) of this section that is not in excess of:

(1) Two percent of the skim milk and butterfat, respectively, in producer milk (excluding milk diverted by the plant operator to another plant);

(2) Plus 1.5 percent of the skim milk and butterfat, respectively, in milk received from a handler described in § 1079.9(c);

(3) Plus 0.5 percent of the skim milk and butterfat, respectively, in producer milk diverted from such plant by the plant operator to another plant, except that if the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this subparagraph shall be zero;

(4) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other pool plants;

(5) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received by transfer from other order plants, excluding the quantity for which Class II or Class III classification is requested by the operators of both plants;

(6) Plus 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products received from unregulated supply plants, excluding the quantity for which Class II or Class III classification is requested by the handler; and

(7) Less 1.5 percent of the skim milk and butterfat, respectively, in bulk fluid milk products transferred to other plants that is not in excess of the respective amounts of skim milk and butterfat to which percentages are applied in paragraph (b) (1), (2), (4), (5), and (6) of this section; and

(c) The quantity of skim milk and butterfat, respectively, in shrinkage of milk from producers for which a cooperative association is the handler pursuant to § 1079.9(b) or (c), but not in excess of 0.5 percent of the skim milk and butterfat, respectively, in such milk. If the operator of the plant to which the milk is delivered purchases such milk on the basis of weights determined from its measurement at the farm and butterfat tests determined from farm bulk tank samples, the applicable percentage under this paragraph for the cooperative association shall be zero.

§ 1079.42 Classification of transfers and diversions.

(a) *Transfers to pool plants.* Skim milk or butterfat transferred in the form of a fluid milk product or a bulk fluid cream product from a pool plant to another pool plant or by a handler described in § 1079.9(c) to another handler's pool plant shall be classified as Class I milk unless both handlers request the same classification in another class. In either case, the classification of such transfers shall be subject to the following conditions:

(1) The skim milk or butterfat classified in each class shall be limited to the amount of skim milk and butterfat, respectively, remaining in such class at the transferee-plant after the computations pursuant to § 1079.44(a)(12) and the corresponding step of § 1079.44(b);

(2) If the transferor-plant received during the month other source milk to be allocated pursuant to § 1079.44(a)(7) or the corresponding step of § 1079.44(b), the skim milk or butterfat so transferred shall be classified so as to allocate the least possible Class I utilization to such other source milk; and

(3) If the transferor-handler received during the month other source milk to be allocated pursuant to § 1079.44(a)(11) or (12) or the corresponding steps of § 1079.44(b), the skim milk or butterfat so transferred, up to the total of the skim milk and butterfat, respectively, in such receipts of other source milk, shall not be classified as Class I milk to a greater extent than would be the case if the other source milk had been received at the transferee-plant.

V 39 90 MAY 8 74 XUM

(b) *Transfers and diversions to other order plants.* Skim milk or butterfat transferred or diverted in the form of a fluid milk product or a bulk fluid cream product from a pool plant to an other order plant shall be classified in the following manner. Such classification shall apply only to the skim milk or butterfat that is in excess of any receipts at the pool plant from the other order plant of skim milk and butterfat, respectively, in fluid milk products and bulk fluid cream products, respectively, that are in the same category as described in paragraph (b)(1), (2) or (3) of this section;

(1) If transferred as packaged fluid milk products, classification shall be in the classes to which allocated as a fluid milk product under the other order;

(2) If transferred in bulk form, classification shall be in the classes to which allocated under the other order (including allocation under the conditions set forth in paragraph (b)(3) of this section);

(3) If the operators of both plants so request in their reports of receipts and utilization filed with their respective market administrators, transfers or diversions in bulk form shall be classified as Class II or Class III milk to the extent of such utilization available for such classification pursuant to the allocation provisions of the other order;

(4) If information concerning the classes to which such transfers or diversions were allocated under the other order is not available to the market administrator for the purpose of establishing classification under this paragraph, classification shall be as Class I, subject to adjustment when such information is available;

(5) For purposes of this paragraph, if the other order provides for a different number of classes of utilization than is provided for under this part, skim milk or butterfat allocated to a class consisting primarily of fluid milk products shall be classified as Class I milk, and skim milk or butterfat allocated to the other classes shall be classified as Class III milk; and

(6) If the form in which any fluid milk product that is transferred to an other order plant is not defined as a fluid milk product under such other order, classification under this paragraph shall be in accordance with the provisions of § 1079.40.

(c) *Transfers to producer-handlers.* Skim milk or butterfat transferred in the following forms from a pool plant to a producer-handler under this or any other Federal order shall be classified:

(1) As Class I milk, if transferred in the form of a fluid milk product; and

(2) In accordance with the utilization assigned to it by the market administrator, if transferred in the form of a bulk fluid cream product. For this purpose, the producer-handler's utilization of skim milk and butterfat in each class, in series beginning with Class III, shall be assigned to the extent possible to his receipts of skim milk and butterfat, respectively, in bulk fluid cream products, pro rata to each source.

(d) *Transfers and diversions to other nonpool plants.* Skim milk or butterfat transferred or diverted in the following forms from a pool plant to a nonpool plant that is not an other order plant or a producer-handler plant shall be classified:

(1) As Class I milk, if transferred in the form of a packaged fluid milk product; and

(2) As Class I milk, if transferred or diverted in the form of a bulk fluid milk product or a bulk fluid cream product, unless the following conditions apply:

(i) If the conditions described in paragraph (d)(2)(i)(*a*) and (*b*) of this section are met, transfers or diversions in bulk form shall be classified on the basis of the assignment of the nonpool plant's utilization to its receipts as set forth in paragraph (d)(2)(ii) through (viii) of this section:

(*a*) The transferor-handler or divertor-handler claims such classification in his report of receipts and utilization filed pursuant to § 1079.30 for the month within which such transaction occurred; and

(*b*) The nonpool plant operator maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available for verification purposes if requested by the market administrator;

(ii) Route disposition of fluid milk products in the marketing area of each Federal milk order from the nonpool plant and transfers of packaged fluid milk products from such nonpool plant to plants fully regulated thereunder shall be assigned to the extent possible in the following sequence:

(*a*) Pro rata to receipts of packaged fluid milk products at such nonpool plant from pool plants;

(*b*) Pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from other order plants;

(*c*) Pro rata to receipts of bulk fluid milk products at such nonpool plant from pool plants; and

(*d*) Pro rata to any remaining unassigned receipts of bulk fluid milk products at such nonpool plant from other order plants;

(iii) Any remaining Class I disposition of packaged fluid milk products from the nonpool plant shall be assigned to the extent possible pro rata to any remaining unassigned receipts of packaged fluid milk products at such nonpool plant from pool plants and other order plants;

(iv) Transfers of bulk fluid milk products from the nonpool plant to a plant fully regulated under any Federal milk order, to the extent that such transfers to the regulated plant exceed receipts of fluid milk products from such plant and are allocated to Class I at the transferee-plant, shall be assigned to the extent possible in the following sequence:

(*a*) Pro rata to receipts of fluid milk products at such nonpool plant from pool plants; and

(*b*) Pro rata to any remaining unassigned receipts of fluid milk products at such nonpool plant from other order plants;

(v) Any remaining unassigned Class I disposition from the nonpool plant shall be assigned to the extent possible in the following sequence:

(*a*) To such nonpool plant's receipts from dairy farmers who the market administrator determines constitute regular sources of Grade A milk for such nonpool plant; and

(*b*) To such nonpool plant's receipts of Grade A milk from plants not fully regulated under any Federal milk order which the market administrator determines constitute regular sources of Grade A milk for such nonpool plant;

(vi) Any remaining unassigned receipts of bulk fluid milk products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class I utilization, then to Class III utilization, and then to Class II utilization at such nonpool plant;

(vii) Receipts of bulk fluid cream products at the nonpool plant from pool plants and other order plants shall be assigned, pro rata among such plants, to the extent possible first to any remaining Class III utilization, then to any remaining Class II utilization, and then to Class I utilization at such nonpool plant; and

(viii) In determining the nonpool plant's utilization for purposes of this subparagraph, any fluid milk products and bulk fluid cream products transferred from such nonpool plant to a plant not fully regulated under any Federal milk order shall be classified on the basis of the second plant's utilization using the same assignment priorities at the second plant that are set forth in this subparagraph.

§ 1079.43 General classification rules.

In determining the classification of producer milk pursuant to § 1079.44 the following rules shall apply:

(a) Each month the market administrator shall correct for mathematical and other obvious errors all reports filed pursuant to § 1079.30 and shall compute separately for each pool plant and for each cooperative association with respect to milk for which it is the handler pursuant to § 1079.9 (b) and (c) that was not received at a pool plant the pounds of skim milk and butterfat, respectively, in each class in accordance with §§ 1079.40, 1079.41, and 1079.42;

(b) If any of the water contained in the milk from which a product is made is removed before the product is utilized or disposed of by a handler, the pounds of skim milk in such product that are to be considered under this part as used or disposed of by the handler shall be an amount equivalent to the nonfat milk solids contained in such product plus all of the water originally associated with such solids; and

(c) The classification of producer milk for which a cooperative association is the handler pursuant to § 1079.9(b) and (c) shall be determined separately from the operations of any pool plant operated by such cooperative association.

§ 1079.44 Classification of producer milk.

For each month the market administrator shall determine the classification of producer milk and milk received from a handler described in § 1079.9(c) for each handler described in § 1079.8(a) for each of his pool plants separately and the classification of producer milk of each handler described in § 1079.9(b) and (c) that was not received at a pool plant by allocating the handler's receipts of skim milk and butterfat to his utilization as follows:

(a) Skim milk shall be allocated in the following manner:

(1) Subtract from the total pounds of skim milk in Class III the pounds of skim milk in shrinkage specified in § 1079.41(b);

(2) Subtract from the total pounds of skim milk in Class I the pounds of skim milk in receipts of packaged fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in fluid milk products received in packaged form from an other order plant, except that to be subtracted pursuant to paragraph (a)(7)(vi) of this section, as follows:

(i) From Class III milk, the lesser of the pounds remaining or 2 percent of such receipts; and

(ii) From Class I milk, the remainder of such receipts;

(4) Subtract from the pounds of skim milk in Class II the pounds of skim milk in products specified in § 1079.40(b)(1) that were received in packaged form from other plants, but not in excess of the pounds of skim milk remaining in Class II;

(5) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in products specified in § 1079.40(b)(1) that were in inventory at the beginning of the month in packaged form, but not in excess of the pounds of skim milk remaining in Class II. This subparagraph shall apply only if the pool plant was subject to the provisions of this subparagraph or comparable provisions of another Federal milk order in the immediately preceding month;

(6) Subtract from the remaining pounds of skim milk in Class II the pounds of skim milk in other source milk (except that received in the form of a fluid milk product or a fluid cream product) that is used to produce, or added to, any product specified in § 1079.40(b), but not in excess of the pounds of skim milk remaining in Class II;

(7) Subtract in the order specified below from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in each of the following:

(i) Other source milk (except that received in the form of a fluid milk product) and, if paragraph (a)(5) of this section applies, packaged inventory at the beginning of the month of products specified in § 1079.40(b)(1) that was not subtracted pursuant to paragraph (a)(4), (5), and (6) of this section;

(ii) Receipts of fluid milk products (except filled milk) for which Grade A certification is not established;

(iii) Receipts of fluid milk products from unidentified sources;

(iv) Receipts of fluid milk products from a producer-handler as defined under this or any other Federal milk order;

(v) Receipts of reconstituted skim milk in filled milk from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) of this section; and

(vi) Receipts of reconstituted skim milk in filled milk from an other order plant that is regulated under any Federal milk order providing for individual-handler pooling, to the extent that reconstituted skim milk is allocated to Class I at the transferor-plant;

(8) Subtract in the order specified below from the pounds of skim milk remaining in Class II and Class III, in sequence beginning with Class III:

(i) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2) and (7)(v) of this section for which the handler requests a classification other than Class I, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(ii) The pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (7)(v), and (8)(i) of this section which are in excess of the pounds of skim milk determined pursuant to paragraph (a)(8)(ii) (*a*) through (*c*) of this section. Should the pounds of skim milk to be subtracted from Class II and Class III combined exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount:

(*a*) Multiply by 1.25 the sum of the pounds of skim milk remaining in Class I at this allocation step at all pool plants of the handler (excluding any duplication of Class I utilization resulting from reported Class I transfers between pool plants of the handler);

(*b*) Subtract from the above result the sum of the pounds of skim milk in receipts at all pool plants of the handler of producer milk, milk from a handler described in § 1079.9(c), fluid milk products from pool plants of other handlers, and bulk fluid milk products from other order plants that were not subtracted pursuant to paragraph (a)(7)(vi) of this section; and

(*c*) Multiply any plus quantity resulting above by the percentage that the receipts of skim milk in fluid milk products from unregulated supply plants that remain at this pool plant is of all such receipts remaining at this allocation step at all pool plants of the handler; and

(iii) The pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a)(7)(vi) of this section, if Class II or Class III classification is requested by the operator of the other order plant and the handler, but not in excess of the pounds of skim milk remaining in Class II and Class III combined;

(9) Subtract from the pounds of skim milk remaining in each class, in series beginning with Class III, the pounds of skim milk in fluid milk products and products specified in § 1079.40(b)(1) in inventory at the beginning of the month that were not subtracted pursuant to paragraph (a)(5) and (7)(i) of this section;

(10) Add to the remaining pounds of skim milk in Class III the pounds of skim milk subtracted pursuant to paragraph (a)(1) of this section;

(11) Subject to the provisions of paragraph (a)(11)(i) and (ii) of this section, subtract from the pounds of skim milk remaining in each class at the plant, pro rata to the total pounds of skim milk remaining in Class I and in Class II and Class III combined at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler), with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, the pounds of skim milk in receipts of fluid milk products from an unregulated supply plant that were not subtracted pursuant to paragraph (a)(2), (7)(v), and (8)(i) and (ii) of this section and that were not offset by transfers or diversions of fluid milk products to the same unregulated supply plant from which fluid milk products to be allocated at this step were received:

(i) Should the pounds of skim milk to be subtracted from Class II and Class III combined pursuant to this subparagraph exceed the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the

V 39 90 MAY 8 74 XUM

pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(ii) Should the pounds of skim milk to be subtracted from Class I pursuant to this subparagraph exceed the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount, beginning with the nearest plant at which Class I utilization is available;

(12) Subtract in the manner specified below from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of bulk fluid milk products from an other order plant that are in excess of bulk fluid milk products transferred or diverted to such plant and that were not subtracted pursuant to paragraph (a) (7)(vi) and (8)(iii) of this section:

(i) Subject to the provisions of paragraph (a)(12) (ii), (iii), and (iv) of this section, such subtraction shall be pro rata to the pounds of skim milk in Class I and in Class II and Class III combined, with the quantity prorated to Class II and Class III combined being subtracted first from Class III and then from Class II, with respect to whichever of the following quantities represents the lower proportion of Class I milk:

(*a*) The estimated utilization of skim milk of all handlers in each class as announced for the month pursuant to § 1079.45(a); or

(*b*) The total pounds of skim milk remaining in each class at this allocation step at all pool plants of the handler (excluding any duplication of utilization in each class resulting from transfers between pool plants of the handler);

(ii) Should the proration pursuant to paragraph (a)(12(i) of this section result in the total pounds of skim milk at all pool plants of the handler that are to be subtracted at this allocation step from Class II and Class III combined exceeding the pounds of skim milk remaining in Class II and Class III at all such plants, the pounds of such excess shall be subtracted from the pounds of skim milk remaining in Class I after such proration at the pool plants at which such other source milk was received;

(iii) Except as provided in paragraph (a)(12(ii) of this section, should the computations pursuant to paragraph (a)(12) (i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class II and Class III combined that exceeds the pounds of skim milk remaining in such classes, the pounds of skim milk in Class II and Class III combined shall be increased (increasing as necessary Class III and then Class II to the extent of available utilization in such classes at the nearest other pool plant of the handler, and then at each successively more distant pool plant of the handler) by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class I shall be decreased by a like amount. In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount; and

(iv) Except as provided in paragraph (a)(12)(ii) of this section, should the computations pursuant to paragraph (a)(12) (i) or (ii) of this section result in a quantity of skim milk to be subtracted from Class I that exceeds the pounds of skim milk remaining in such class, the pounds of skim milk in Class I shall be increased by an amount equal to such excess quantity to be subtracted, and the pounds of skim milk in Class II and Class III combined shall be decreased by a like amount (decreasing as necessary Class III and then Class II). In such case, the pounds of skim milk remaining in each class at this allocation step at the handler's other pool plants shall be adjusted in the reverse direction by a like amount beginning with the nearest plant at which Class I utilization is available;

(13) Subtract from the pounds of skim milk remaining in each class the pounds of skim milk in receipts of fluid milk products and bulk fluid cream products from another pool plant or a handler described in § 1079.9(c) according to the classification of such products pursuant to § 1079.42(a); and

(14) If the total pounds of skim milk remaining in all classes exceed the pounds of skim milk in producer milk, subtract such excess from the pounds of skim milk remaining in each class in series beginning with Class III. Any amount so subtracted shall be known as "overage";

(b) Butterfat shall be allocated in accordance with the procedure outlined for skim milk in paragraph (a) of this section; and

(c) The quantity of producer milk in each class shall be the combined pounds of skim milk and butterfat remaining in each class after the computations pursuant to paragraph (a)(14) of this section and the corresponding step of paragraph (b) of this section.

§ 1079.45 Market administrator's reports and announcements concerning classification.

The market administrator shall make the following reports and announcements concerning classification:

(a) Whenever required for the purpose of allocating receipts from other order plants pursuant to § 1079.44(a)(12) and the corresponding step of § 1079.44(b), estimate and publicly announce the utilization (to the nearest whole percentage) in each class during the month of skim milk and butterfat, respectively, in producer milk of all handlers. Such estimate shall be based upon the most current available data and shall be final for such purpose.

(b) Report to the market administrator of the other order, as soon as possible after the report of receipts and utilization for the month is received from a handler who has received fluid milk products or bulk fluid cream products from an other order plant, the class to which such receipts are allocated pursuant to § 1079.44 on the basis of such report, and, thereafter, any change in such allocation required to correct errors disclosed in the verification of such report.

(c) Furnish to each handler operating a pool plant who has shipped fluid milk products or bulk fluid cream products to an other order plant the class to which such shipments were allocated by the market administrator of the other order on the basis of the report by the receiving handler, and, as necessary, any changes in such allocation arising from the verification of such report.

(d) On or before the 10th day after the end of each month, report to each cooperative association, which so requests, the percentage of the milk caused to be delivered by the cooperative association or by its members to the pool plant of each handler during the month that was utilized in each class. For the purpose of this report the milk so delivered shall be allocated to each class in the same ratio as all producer milk received at such plant during the month.

Class Prices

§ 1079.50 Class prices.

Subject to the provisions of § 1079.52, the class prices for the month per hundredweight of milk containing 3.5 percent butterfat shall be as follows:

(a) *Class I price.* The Class I price shall be the basic formula price for the second preceding month plus $1.40.

(b) *Class II price.* The Class II price shall be the basic formula price for the month plus 10 cents.

(c) *Class III price.* The Class III price shall be the basic formula price for the month.

§ 1079.51 Basic formula price.

The "basic formula price" shall be the average price per hundredweight for manufacturing grade milk, f.o.b. plants in Minnesota and Wisconsin, as reported by the Department for the month, adjusted to a 3.5 percent butterfat basis and rounded to the nearest cent. For such adjustment, the butterfat differential (rounded to the nearest one-tenth cent) per one-tenth percent butterfat shall be 0.12 times the simple average of the wholesale selling prices (using the midpoint of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month. For the purpose of computing the Class I price, the resulting price shall be not less than $4.33.

§ 1079.52 Location adjustments for handlers.

(a) For that milk received from producers and from a handler described in § 1079.9(c) at a plant located outside the marketing area, and 60 miles or more by the shortest hard-surfaced highway distance, as measured by the market administrator from the main post offices of Des Moines and Ottumwa, Iowa, which is classified as Class I milk without movement in bulk form to a pool distributing plant, the price specified in § 1079.50(a) shall be reduced 10 cents, and shall be reduced an additional 1.5 cents for each 10 miles or fraction thereof in excess of 75 miles from the designated post offices.

(b) For fluid milk products transferred in bulk from a pool plant to a pool distributing plant, a Class I location adjustment credit for the transferor-plant shall be determined by the market administrator for skim milk and butterfat, respectively, as follows:

(1) Multiply the pounds of skim milk remaining in Class I at the transferee-plant after the computations pursuant to § 1079.44(a)(12) by 105 percent;

(2) Subtract the pounds of skim milk in receipts of milk at the transferee-plant from producers and handlers described in § 1079.9(c);

(3) Assign any remaining pounds of skim milk in Class I at the transferee-plant to the skim milk in receipts of bulk fluid milk products from other pool plants, first to the transferor-plants at which no location adjustment applies and then in sequence beginning with the plant at which the least location adjustment applies;

(4) Compute the total amount of location adjustment credits to be assigned to transferor-plants by multiplying the pounds of skim milk assigned to each transferor-plant pursuant to paragraph (b)(3) of this section by the applicable location adjustment rate for each such plant, and add the resulting amounts;

(5) Assign the total amount of location adustment credits computed pursuant to paragraph (b)(4) of this section to those transferor-plants that transferred fluid milk products containing skim milk classified as Class I milk pursuant to § 1079.42(a), in sequence beginning with the plant at which the least location adjustment applies. Subject to the availability of such credits, the credit assigned to each plant shall be equal to the hundredweight of such Class I skim milk multiplied by the applicable location adjustment rate for such plant. If the aggregate of this computation for all plants having the same location adjustment rate exceeds the credits that are available to those plants, such credits shall be prorated to the volume of skim milk in Class I transfers received from such plants; and

(6) Class I location adjustment credit for butterfat shall be determined in accordance with the procedure outlined for skim milk in paragraph (b)(1) through (5) of this section.

(c) The Class I price applicable to other source milk shall be adjusted at the rates set forth in paragraph (a) of this section, except that the adjusted Class I price shall not be less than the Class III price.

§ 1079.53 Announcement of class prices.

The market administrator shall announce publicly on or before the fifth day of each month the Class I price for the following month and the Class II and Class III prices for the preceding month.

§ 1079.54 Equivalent price.

If for any reason a price or pricing constituent required by this part for computing class prices or for other purposes is not available as prescribed in this part, the market administrator shall use a price or pricing constituent determined by the Secretary to be equivalent to the price or pricing constituent that is required.

Uniform Price

§ 1079.60 Handler's value of milk for computing uniform price.

For the purpose of computing the uniform price, the market administrator shall determine for each month the value of milk of each handler with respect to each of his pool plants and of each handler described in § 1079.9 (b) and (c) with respect to milk that was not received at a pool plant as follows:

(a) Multiply the pounds of milk received from a handler described in § 1079.9(c) and subtracted from each class pursuant to § 1079.44(a)(13) and the corresponding step of § 1079.44(b) and the pounds of producer milk in each class as determined pursuant to § 1079.44 by the applicable class prices and add the resulting amounts;

(b) Add the amounts obtained from multiplying the pounds of overage subtracted from each class pursuant to § 1079.44(a)(14) and the corresponding step of § 1079.44(b) by the respective class prices, as adjusted by the butterfat differential specified in § 1079.74, that are applicable at the location of the pool plant;

(c) Add the amount obtained from multiplying the difference between the Class III price for the preceding month and the Class I price applicable at the location of the pool plant or the Class II price, as the case may be, for the current month by the hundredweight of skim milk and butterfat subtracted from Class I and Class II pursuant to § 1079.44(a)(9) and the corresponding step of § 1079.44(b);

(d) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the pool plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1079.44(a)(7) (i) through (iv) and the corresponding step of § 1079.44(b), excluding receipts of bulk fluid cream products from an other order plant;

(e) Add the amount obtained from multiplying the difference between the Class I price applicable at the location of the transferor-plant and the Class III price by the hundredweight of skim milk and butterfat subtracted from Class I pursuant to § 1079.44(a)(7) (v) and (vi) and the corresponding step of § 1079.44(b); and

(f) Add the amount obtained from multiplying the Class I price applicable at the location of the nearest unregulated supply plants from which an equivalent volume was received by the pounds of skim milk and butterfat subtracted from Class I pursuant to § 1079.44(a)(11) and the corresponding step of § 1079.44(b), excluding such skim milk and butterfat in receipts of bulk fluid milk products from an unregulated supply plant to the extent that an equivalent amount of skim milk or butterfat disposed of to such plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order.

§ 1079.61 Computation of uniform price.

For each month the market administrator shall compute an aggregate value from which to determine the uniform price per hundredweight for producer milk of 3.5 percent butterfat content, f.o.b. plants located within the marketing area, as follows:

(a) Combine into one total the values computed pursuant to § 1079.60 for all pool plants for which the reports prescribed in § 1079.30 for such month were made, except those in default of payments required pursuant to § 1079.71 for the preceding month;

(b) Add an amount equal to the sum of the location adjustment deductions to be made pursuant to § 1079.75;

(c) Add an amount equal to not less than one-half of the unobligated cash balance in the producer-settlement fund;

(d) Divide the resulting amount by the sum of the following for all handlers included in these computations:

(1) The total hundredweight of producer milk; and

(2) The total hundredweight for which a value is computed pursuant to § 1079.60(f); and

(e) Subtract not less than 4 cents nor more than 5 cents from the price computed pursuant to paragraph (d) of this section. The result shall be known as the uniform price for milk received from producers.

§ 1079.62 Announcement of uniform price and butterfat differential.

The market administrator shall announce publicly on or before:

(a) The fifth day after the end of each month the butterfat differential for such month; and

(b) The 10th day after the end of each month the uniform price for such month.

Payments for Milk

§ 1079.70 Producer-settlement fund.

The market administrator shall maintain a separate fund known as the "producer-settlement fund" into which he shall deposit all payments made to such fund pursuant to §§ 1079.71, 1079.76, and 1079.77, and out of which he shall make all payments from such fund pursuant to §§ 1079.72 and 1079.77: *Provided*, That

V 39 90 MAY 8 74 XUM

the market administrator shall offset the payment due to a handler against payments due from such handler.

§ 1079.71 Payments to the producer-settlement fund.

(a) On or before the 12th day after the end of the month, each handler shall pay to the market administrator the amount, if any, by which the amount specified in paragraph (a)(1) of this section exceeds the amount specified in paragraph (a)(2) of this section:

(1) The total value of milk of the handler for such month as determined pursuant to § 1079.60.

(2) The sum of:

(i) The value of milk received by such handler from producers and handlers described in § 1079.9(c) at the uniform price, as adjusted pursuant to § 1079.75, less in the case of a handler described in § 1079.9(c) the amount due from other handlers pursuant to § 1079.73 before adjustment for butterfat content; and

(ii) The value at the uniform price applicable at the location of the plant from which received of other source milk for which a value is computed pursuant to § 1079.60(f).

(b) On or before the 25th day after the end of the month each person who operated an other order plant that was regulated during such month under an order providing for individual-handler pooling shall pay to the market administrator an amount computed as follows:

(1) Determine the quantity of reconstituted skim milk in filled milk in route disposition from such plant in the marketing area which was allocated to Class I at such plant. It there is such route disposition from such plant in marketing areas regulated by two or more market-wide pool orders, the reconstituted skim milk allocated to Class I shall be prorated to each order according to such route disposition in each marketing area; and

(2) Compute the value of the reconstituted skim milk assigned in paragraph (b)(1) of this section to route disposition in this marketing area by multiplying the quantity of such skim milk by the difference between the Class I price under this part that is applicable at the location of the other order plant (but not to be less than the Class III price), and the Class III price.

§ 1079.72 Payments from the producer-settlement fund.

On or before the 13th day after the end of each month the market administrator shall pay to each handler the amount, if any, by which the amount computed pursuant to § 1079.71(a)(2) exceeds the amount computed pursuant to § 1079.71(a)(1): *Provided*, That if the balance in the producer-settlement fund is insufficient to make all payments pursuant to this section, the market administrator shall reduce uniformly such payments and shall complete such payments as soon as the necessary funds are available. A handler who has not received the balance of such payments from the market administrator shall not be considered in violation of § 1079.73 if he reduces his payments to producers by not more than the amount of the reduction in payment from the producer-settlement fund.

§ 1079.73 Payments to producers and to cooperative associations.

(a) Each handler shall pay each producer for producer milk for which payment is not made to a cooperative association pursuant to paragraph (b) and (d) of this section, as follows:

(1) On or before the last day of each month, for producer milk received during the first 15 days of the month, at not less than the Class III price for the preceding month; and

(2) On or before the 15th day after the end of each month, for producer milk received during such month, an amount computed at not less than the uniform price pursuant to § 1079.61 adjusted pursuant to §§ 1079.74, 1079.75, and 1079.86, and less the payment made pursuant to paragraph (a)(1) of this section.

(b) Each handler shall make payment to a cooperative association for producer milk which it caused to be delivered to such handler, which association the market administrator determines is authorized by such producers to collect payment for their milk and which has so requested the handler in writing, an amount equal to the sum of the individual payments otherwise payable for such producer milk, as follows:

(1) On or before the 26th day of each month for producer milk received during the first 15 days of the month; and

(2) On or before the 13th day after the end of each month for milk received during such month.

(c) In making the payments for producer milk pursuant to this section, each handler shall furnish each producer or cooperative association from whom he has received milk with a supporting statement in such form that it may be retained by the recipient, which shall show:

(1) The month and identity of the handler and of the producer;

(2) The daily and total pounds and the average butterfat content of producer milk;

(3) The minimum rate or rates at which payment to the producer is required pursuant to the order;

(4) The rate which is used in making the payment, if such rate is other than the applicable minimum rate;

(5) The amount or the rate per hundredweight and nature of each deduction claimed by the handler; and

(6) The net amount of payment to such producer or cooperative association.

(d) Each handler in his capacity as the operator of a pool plant, who receives milk from a handler described in § 1079.9(c), including the milk of producers who are not members of such association, and who the market administrator determines have authorized such cooperative association to collect payment for their milk, shall pay such cooperative for such milk as follows:

(1) On or before the 26th day of each month for milk received during the first 15 days of the month, at not less than the Class III price for the preceding month; and

(2) On or before the 13th day after the end of each month for milk received during such month, an amount computed at not less than the uniform price as adjusted pursuant to §§ 1079.74 and 1079.75, and less the payment made pursuant to paragraph (d)(1) of this section.

§ 1079.74 Butterfat differential.

For milk containing more or less than 3.5 percent butterfat, the uniform price shall be increased or decreased, respectively, for each one-tenth percent butterfat variation from 3.5 percent by a butterfat differential, rounded to the nearest one-tenth cent, which shall be 0.115 times the simple average of the wholesale selling prices (using the mid-point of any price range as one price) of Grade A (92-score) bulk butter per pound at Chicago, as reported by the Department for the month.

§ 1079.75 Location adjustments for producers and on nonpool milk.

(a) The uniform price for producer milk pursuant to § 1079.61 received at a pool plant or diverted from a pool plant shall be reduced according to the location of the plant of actual receipt at the rates set forth in § 1079.52.

(b) For purposes of computations pursuant to §§ 1079.71 and 1079.72 the uniform price shall be adjusted at the rates set forth in § 1079.52 applicable at the location of the nonpool plant from which the milk was received, except that the adjusted uniform price shall not be less than the Class III price.

§ 1079.76 Payments by handler operating a partially regulated distributing plant.

Each handler who operates a partially regulated distributing plant shall pay on or before the 25th day after the end of the month to the market administrator for the producer-settlement fund the amount computed pursuant to paragraph (a) of this section. If the handler submits pursuant to §§ 1079.30(b) and 1079.31(b) the information necessary for making the computations, such handler may elect to pay in lieu of such payment the amount computed pursuant to paragraph (b) of this section:

(a) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the pounds of route disposition of fluid milk products in the marketing area from the partially regulated distributing plant;

(2) Subtract the pounds of fluid milk products received at the partially regulated distributing plant:

(i) As Class I milk from pool plants and other order plants, except that subtracted under a similar provision of another Federal milk order; and

(ii) From another nonpool plant that is not an other order plant to the extent that an equivalent amount of fluid milk products disposed of to such nonpool plant by handlers fully regulated under any Federal milk order is classified and priced as Class I milk and is not used as an offset for any other payment obligation under any order;

(3) Subtract the pounds of reconstituted skim milk in route disposition of fluid milk products in the marketing area from the partially regulated distributing plant;

(4) Multiply the remaining pounds by the difference between the Class I price and the uniform price, both prices to be applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price); and

(5) Add the amount obtained from multiplying the pounds of reconstituted skim milk specified in paragraph (a)(3) of this section by the difference between the Class I price applicable at the location of the partially regulated distributing plant (but not to be less than the Class III price) and the Class III price.

(b) The payment under this paragraph shall be the amount resulting from the following computations:

(1) Determine the value that would have been computed pursuant to § 1079.60 for the partially regulated distributing plant if the plant had been a pool plant, subject to the following modifications:

(i) Fluid milk products and bulk fluid cream products received at the partially regulated distributing plant from a pool plant or an other order plant shall be allocated at the partially regulated distributing plant to the same class in which such products were classified at the fully regulated plant;

(ii) Fluid milk products and bulk fluid cream products transferred from the partially regulated distributing plant to a pool plant or an other order plant shall be classified at the partially regulated distributing plant in the class to which allocated at the fully regulated plant. Such transfers shall be allocated to the extent possible to those receipts at the partially regulated distributing plant from pool plants and other order plants that are classified in the corresponding class pursuant to paragraph (b)(1)(i) of this section. Any such transfers remaining after the above allocation which are classified in Class I and for which a value is computed for the handler operating the partially regulated distributing plant pursuant to § 1079.60 shall be priced at the uniform price (or at the weighted average price if such is provided) of the respective order regulating the handling of milk at the transferee-plant, with such uniform price adjusted to the location of the nonpool plant (but not to be less than the lowest class price of the respective order), except that transfers of reconstituted skim milk in filled milk shall be priced at the lowest class price of the respective order; and

(iii) If the operator of the partially regulated distributing plant so requests, the value of milk determined pursuant to § 1079.60 for such handler shall include, in lieu of the value of other source milk specified in § 1079.60(f) less the value of such other source milk specified in § 1079.71(a)(2)(ii), a value of milk determined pursuant to § 1079.60 for each nonpool plant that is not an other order plant which serves as a supply plant for such partially regulated distributing plant by making shipments to the partially regulated distributing plant during the month equivalent to the requirements of § 1079.7(b) subject to the following conditions:

(*a*) The operator of the partially regulated distributing plant submits with his reports filed pursuant to §§ 1079.30(b) and 1079.31(b) similar reports for each such nonpool supply plant;

(*b*) The operator of such nonpool supply plant maintains books and records showing the utilization of all skim milk and butterfat received at such plant which are made available if requested by the market administrator for verification purposes; and

(*c*) The value of milk determined pursuant to § 1079.60 for such nonpool supply plant shall be determined in the same manner prescribed for computing the obligation of such partially regulated distributing plant; and

(2) From the partially regulated distributing plant's value of milk computed pursuant to paragraph (b)(1) of this section, subtract:

(i) The gross payments by the operator of such partially regulated distributing plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1079.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated;

(ii) If paragraph (b)(1)(iii) of this section applies, the gross payments by the operator of such nonpool supply plant, adjusted to a 3.5 percent butterfat basis by the butterfat differential specified in § 1079.74, for milk received at the plant during the month that would have been producer milk if the plant had been fully regulated; and

(iii) The payments by the operator of the partially regulated distributing plant to the producer-settlement fund of another order under which such plant is also a partially regulated distributing plant and like payments by the operator of the nonpool supply plant if paragraph (b)(1)(iii) of this section applies.

§ 1079.77 Adjustment of accounts.

Whenever verification by the market administrator of reports or payments of any handler discloses errors in payments to or from the producer-settlement fund pursuant to §§ 1079.71 and 1079.72, the market administrator shall promptly bill such handler for any unpaid amounts and such handler shall, within 15 days of such billing, make payments to the market administrator of the amount so billed. Whenever verification discloses that payment is due from the market administrator to any handler, the market administrator shall, within 15 days, make such payment to such handler. Whenever verification by the market administrator of the payment by a handler to any producer or to a cooperative association discloses payment of an amount less than is required by § 1079.73 the handler shall make up such payment to the producer or cooperative association not later than the time of making payment next following such disclosure.

ADMINISTRATIVE ASSESSMENT AND MARKETING SERVICE DEDUCTION

§ 1079.85 Assessment for order administration.

As his pro rata share of the expense of administration of the order, each handler (excluding a handler described in § 1079.9(c)) shall pay to the market administrator on or before the 15th day after the end of the month 4 cents per hundredweight, or such lesser amount as the Secretary may prescribe, with respect to:

(a) Producer milk and milk received from a handler described in § 1079.9(c);

(b) Other source milk allocated to Class I pursuant to § 1079.44(a) (7) and (11) and the corresponding steps of § 1079.44(b), except such other source milk that is excluded from the computations pursuant to § 1079.60 (d) and (f); and

(c) Class I milk disposed of from a partially regulated distributing plant on routes in the marketing area that exceeds the skim milk and butterfat subtracted pursuant to § 1079.76(a)(2).

§ 1079.86 Deduction for marketing services.

(a) Except as set forth in paragraph (b) of this section, each handler in making payments to each producer pursuant to § 1079.73 shall deduct 5 cents per hundredweight or such lesser amount as the Secretary may prescribe with respect to producer milk received by such handler (except such handler's own farm production) during the month, and shall pay such deductions to the market administrator not later than the 15th day after the end of the month. Such money shall be used by the market administrator to verify or establish weights, samples, and tests of producer milk and to provide producers with market information. Such services shall be performed in whole or in part by the market administrator or by an agent engaged by and responsible to him.

(b) In the case of producers for whom a cooperative association is performing, as determined by the Secretary, the services set forth in paragraph (a) of this section, each handler shall make, in lieu of the deductions specified in paragraph (a) of this section, such deductions as are authorized by such producers and, on or before the 15th day after the end of each month, pay over such deductions to the association rendering such services.

(Secs. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–674))

Effective date: August 1, 1974.

Signed at Washington, D.C., on April 29, 1974.

RICHARD L. FELTNER,
Assistant Secretary.

[FR Doc.74–10172 Filed 5–2–74;8:45 am]

V 39 90 MAY 8 74 XUM

Title 18—Conservation of Power and Water Resources

CHAPTER I—FEDERAL POWER COMMISSION

SUBCHAPTER A—GENERAL RULES

[Docket No. RM74-21; Order No. 508]

PART 2—GENERAL POLICY AND INTERPRETATIONS

Recreational Development at Licensed Projects

Section 2.7 of the general rules details those responsibilities which the Commission expects a licensee to assume in the development of recreational facilities at licensed projects. One of the provisions of this Statement of General Policy is to provide adequate public access to such project facilities and waters.

Adequate public access considerations should include needs of those persons confined to wheelchairs or in need of handrails or walking aids. Steps, narrow door passages, lack of handrails, and curbs often preclude the use of recreational facilities by handicapped individuals. Many of these obstacles can be overcome through planning.

The United States Public Health Service estimates that one American out of every twelve has some degree of ambulatory limitation. Concern for the welfare of the physically handicapped and provision of appropriate facilities are not only humanitarian in nature but also lead to the increased utilization of recreational facilities by handicapped persons and their families.

Federal legislation (Pub. L. 90-480) recognizes problems of the physically handicapped and requires that the design and construction of certain buildings financed by Federal funds be such that the buildings are accessible to the physically handicapped. Legislation also has been enacted by most states to include similar provisions in publicly financed buildings. A few states require consideration for the physically handicapped in publicly used, but privately owned, buildings. Several Federal regulatory agencies have published material suggesting features that can be incorporated in the modifications or construction of new building facilities and surrounding areas to assist the physically handicapped. Some licensees already give consideration to the physically handicapped in the design of recreational facilities at their projects.

The Commission finds:

(1) In order to insure that planning of recreational facilities at all licensed projects includes consideration of features to facilitate their use by the physically handicapped, it is appropriate that the Commission Statement of General Policy on recreation be amended. Consideration of the needs of physically handicapped individuals should be one of the responsibilities which the Commission expects a licensee to assume in the planning of project recreational facilities.

(2) Good cause exists to justify issuance of this order with immediate effective date.

(3) The amendment here adopted is in the public interest and necessary and appropriate for the administration of the Federal Power Act.

(4) The notice and effective date provisions of 5 U.S.C. 553 do not apply with respect to the amendment here adopted. The amendment constitutes a statement of general policy.

The Commission, acting pursuant to the provisions of the Federal Power Act, as amended, particularly sections 308 and 309 (49 Stat. 858, 859; 16 U.S.C. 825g, 825h), orders:

(A) Paragraph (b) of 18 CFR 2.7 is revised to read as follows:

§ 2.7 Recreational development at licensed projects.

* * * * *

(b) To develop suitable public recreational facilities upon project lands and waters and to make provisions for adequate public access to such project facilities and waters and to include therein consideration of the needs of physically handicapped individuals in the design and construction of such project facilities and access.

(B) The amendment adopted herein shall be effective upon issuance of this order.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.74-10476 Filed 5-7-74;8:45 am]

PART 159—FEES AND ANNUAL CHARGES UNDER THE NATURAL GAS ACT

CFR Correction

In the fourth line of § 159.2(a) appearing on page 78 of Title 18, Part 150 to End, revised as of April 1, 1973, the figure in parentheses "(0.0065)" is in error. As corrected, the fourth line should read "cent (0.00065) of the estimated cost of".

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 74-NE-19; Amdt. 39-1834]

PART 39—AIRWORTHINESS DIRECTIVES

Pratt & Whitney JT9D-7, -7A, and -20 Aircraft Engines

There have been instances of multiple adjacent cracked second stage turbine nozzle vanes in which the turbine vane support contacted the outer disc rim in the plane of the fir tree area resulting in turbine blade failure and disc rub. Since this condition is likely to exist or develop in other engines of the same type design, an Airworthiness Directive is being issued to require radioisotope inspection of the second stage vanes for deflection and removal of the affected engines from service if excessive deflection of the vane is discovered.

Because the affected engines have different second stage vane design configurations, several different compliance times for initial inspection are set forth in this AD, the shortest of which requires compliance within 400 hours time in service from the effective date of the AD. These compliance times for the initial inspection have been established by the agency on the basis of safety considerations and are the same as those requested by the manufacturer in the applicable service bulletin except that the shortest initial compliance time has been adjusted to reflect the time since the issuance of the service bulletin. To proceed with the issuance of a Notice in this instance could result in an extension of the initial inspection compliance time expressed in this AD. Therefore, accomplishment of the initial inspection required by this AD within the time the agency has determined is necessary makes strict compliance with the notice and public procedure provisions of the Administrative Procedure Act impracticable and this amendment becomes effective June 7, 1974. However, interested persons are invited to submit such written data, views, or arguments as they may desire regarding this AD. Communications should identify the docket number and be submitted in duplicate to the Federal Aviation Administration, Office of the Regional Counsel, New England Region, 12 New England Executive Park, Burlington, Massachusetts 01803. All communications received before the effective date will be considered by the Administrator, and the AD may be changed in the light of comments received. All comments will be available both before and after the effective date in the Rules Docket for examination by interested parties. Operators are urged to submit their comments as early as possible since it may not be possible to evaluate comments received near the effective date in sufficient time to amend the AD before it becomes effective.

The substance of this AD has been informally coordinated with the manufacturer of the engines and Air Transport Association.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new Airworthiness Directive:

PRATT & WHITNEY AIRCRAFT. Applies to all Pratt & Whitney Aircraft JT9D-7, JT9D-7A, and JT9D-20 turbofan engines.

Compliance required as follows unless already accomplished.

To preclude possible turbine blade or disc failures resulting from deflection of the second stage turbine nozzle guide vane inner support, perform a radioisotope inspection in accordance with paragraph 6 below per the following schedule:

1. Engines containing second stage vanes, P/N 708952. a. For vanes with less than 4000 hours total time in service or less than 4000 hours since the fuel nozzles and supports were last cleaned, as of the effective date of this AD, inspect prior to the accumulation of 4000 hours total time, or 4000 hours since the fuel nozzles and supports were last cleaned, or 400 hours time in service after the effective date of this AD, whichever occurs later.

b. For vanes with 4000 or more hours total time in service and 4000 or more hours since the fuel nozzles and supports were last cleaned, as of the effective date of this AD, inspect within the next 400 hours time in service.

c. Repeat the above inspection every 700 hours time in service thereafter.

2. Engines containing second stage vanes, P/N 708952, that were reworked per Pratt & Whitney Service Bulletin 3946 and reidentified to P/N 728752 and operated in engines prior to rework.

a. Inspect within the next 400 hours in service after the effective date of this AD.

b. Repeat the above inspection every 700 hours time in service thereafter.

3. For engines containing new production second stage vanes 719552, 728752, 731552, 735882, 740292, 747082, 746492, and 747172, not reworked in accordance with Service Bulletin 3946 and operated prior to the incorporation of Pratt & Whitney Service Bulletin 4146.

a. For vanes with less than 5000 hours total time in service or less than 4000 hours since the fuel nozzles and supports were last cleaned, as of the effective date of this AD, inspect prior to the accumulation of 5000 hours total time, or 4000 hours since the fuel nozzles and supports were last cleaned, or 400 hours time in service after the effective date of this AD, whichever occurs later.

b. For vanes with 5000 or more hours total time in service and 4000 or more hours since the fuel nozzles and supports were last cleaned, as of the effective date of this AD, inspect within the next 400 hours time in service.

c. Repeat the above inspection every 2500 hours time in service thereafter.

4. For engines containing second stage vanes, 719552, 728752, 731552, 735882, 740292, 747082, 746492, and 747172, that have incorporated Pratt & Whitney Service Bulletin 4146 before operation.

a. For vanes with less than 5000 hours total time in service or less than 5000 hours since the fuel nozzles and supports were cleaned, as of the effective date of this AD, inspect prior to the accumulation of 5000 hours total time or 5000 hours since the fuel nozzles and supports were cleaned, or 400 hours time in service after the effective date of this AD, whichever occurs later.

b. For vanes with more than 5000 hours total time in service and 5000 or more hours since the fuel nozzles and supports were cleaned, as of the effective date of this AD, inspect within the next 400 hours time in service.

c. Repeat the above inspection every 2500 hours time in service thereafter.

5. If any radioisotope inspection mentioned above indicates a deflection which exceeds .070 inch, remove the affected engine from service prior to further flight.

6. The inspection required above are radioisotope inspections conducted as follows:

a. For JT9D-7 and JT9D-7A engines, inspect in accordance with radioisotope inspection procedures specified in the Boeing Maintenance Manual, Section 72-00-00, Paragraph E(7), Pages 630N and 630P, revision dated March 1974, for those engines, or later Federal Aviation Administration approved revision.

b. For JT9D-20 engines, inspect in accordance with radioisotope inspection procedures specified in the McDonnell-Douglas Maintenance Manual, Section 72-00-00, Paragraph 2.G., Pages 631 and 633, revision dated May 1973, for this engine, or later Federal Aviation Administration approved revision.

7. Upon submittal of substantiating data through a Federal Aviation Administration Inspector, the Chief, Engineering and Manufacturing Branch, Federal Aviation Administration, New England Region, may adjust the compliance time.

8. For cases where vanes are mixed, if ten or more vanes of any one of the above part numbered categories are installed in an engine, the most restrictive category will apply.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to The Boeing Company, Post Office Box 3707, Seattle, Washington 98124 and McDonnell-Douglas Corporation, Douglas Aircraft Company, 3855 Lakewood Boulevard, Long Beach, California 90801. These documents may also be examined at the Office of the Regional Counsel, New England Region, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts 01803 and at Federal Aviation Administration Headquarters, 800 Independence Avenue SW., Washington, D.C. a historical file on this AD which includes the incorporated material in full is maintained by the Federal Aviation Administration at its headquarters in Washington, D.C. and at the New England Regional Office in Burlington, Massachusetts.

NOTE: Pratt & Whitney Alert Service Bulletin 4304 pertains to this subject.

This amendment becomes effective June 7, 1974.

(Secs. 313(a), 601, 603, Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Burlington, Massachusetts, on April 26, 1974.

NOTE: The incorporation by reference provisions in this document was approved by the Director of the FEDERAL REGISTER on June 19, 1967.

W. E. CROSBY, *Deputy Director, New England Region.*

[FR Doc.74-10538 Filed 5-7-74;8:45 am]

[Airspace Docket No. 74-SW-9]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Big Spring, Tex., control zone.

On March 20, 1974, a notice of proposed rulemaking was published in the FEDERAL REGISTER (39 FR 10438) stating the Federal Aviation Administration proposed to alter the Big Spring, Tex., control zone.

Interested persons were afforded an opportunity to participate in the rule making through submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., July 18, 1974, as hereinafter set forth.

In § 71.171 (39 FR 354), the Big Spring, Tex., control zone is amended to read:

BIG SPRING, TEX.

That airspace within a 5-mile radius of Webb AFB, Big Spring, Tex. (latitude 32°12'-51" N., longitude 101°31'24" W.); within a 5-mile radius of Howard County Airport, Big Spring, Tex. (latitude 32°18'05" N., longitude 101°26'20" W.); within 2 miles each side of the Big Spring VORTAC 190° radial extending from the Webb AFB 5-mile radius zone to 1 mile S of the VORTAC; within 2 miles each side of the Big Spring VORTAC 151° radial extending from the Howard County Airport 5-mile radius zone to the VORTAC; within 3 miles each side of the Webb VORTAC 007° radial extending from the Webb AFB 5-mile radius zone to 8 miles N of the VORTAC; and within 3 miles each side of the Webb VORTAC 177° radial extending from the Webb AFB 5-mile radius zone to 8 miles S of the VORTAC. This control zone will be effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Fort Worth, Tex., on April 29, 1974.

ALBERT H. THURBURN, *Acting Director, Southwest Region.*

[FR Doc.74-10539 Filed 5-7-74;8:45 am]

[Airspace Docket No. 74-WA-10]

PART 73—SPECIAL USE AIRSPACE

Alteration of Restricted Areas

The purpose of this amendment to Part 73 of the Federal Aviation Regulations is to change the using agency for Restricted Areas R-5701 Boardman, Oreg., R-5706 Boardman, Oreg., R-6701 Admiralty Inlet, Wash., R-6705 Strait of Juan De Fuca, Wash., R-6707 Queets, Wash., and R-6713 Whidbey Island, Wash.

The change will correct the identity of the military organization for whom the restricted areas are designated.

Since designation of a different using agency is a minor amendment upon which the public is not particularly interested, notice and public procedure thereon are unnecessary. However, as it is essential that the correct using agency of the restricted areas be identified; good cause exists for making this amendment effective immediately.

In consideration of the foregoing, Part 73 of the Federal Aviation Regulations is amended, effective May 8, 1974, as hereinafter set forth.

1. In § 73.57 (39 FR 685):

a. The Using agency for R-5701 Boardman, Oreg., is changed to read as follows:

V 39 90 MAY 8 74 XUM

Using agency. Commander, Medium Attack Tactical Electronic Warfare Wing, NAS Whidbey Island, Wash.

b. The Using agency for R–5706 Boardman, Oreg., is changed to read as follows:

Using agency. Commander, Medium Attack Tactical Electronic Warfare Wing, NAS Whidbey Island, Wash.

2. In § 73.67 (39 FR 692):

a. The Using agency for R–6701 Admiralty Inlet, Wash., is changed to read as follows:

Using agency. Commander, Medium Attack Tactical Electronic Warfare Wing, NAS Whidbey Island, Wash.

b. The Using agency for R–6705 Strait of Juan De Fuca, Wash., is changed to read as follows:

Using agency. Commander, Medium Attack Tactical Electronic Warfare Wing, NAS Whidbey Island, Wash.

c. The Using agency for R–6707 Queets, Wash., is changed to read as follows:

Using agency. Commander, Medium Attack Tactical Electronic Warfare Wing, NAS Whidbey Island, Wash.

d. The Using agency for R–6713 Whidbey Island, Wash., is changed to read as follows:

Using agency. Commander, Medium Attack Tactical Electronic Warfare Wing, NAS Whidbey Island, Wash.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c))

Issued in Washington, D.C., on April 29, 1974.

GORDON E. KEWER,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.74–10540 Filed 5–7–74;8:45 am]

[Airspace Docket No. 74–WA–8]

PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

Alteration of RNAV Routes

The purpose of this amendment to Part 75 of the Federal Aviation Regulations is to alter the description of three RNAV routes in the Portland, Oregon Area, by renaming and relocating the SHERO Waypoint to the site of Newberg, Oregon, VORTAC. The SHERO Waypoint is less than one-half mile from the Newberg VORTAC, and when the controller attempts to identify a radar target over Newberg with the radar trackball, the computer at times will process the information as proceeding via SHERO, thereby transmitting incorrect information to other sectors. Additionally, the SHERO Waypoint and the Newberg VORTAC are so close that they should be considered as the same location.

Since this amendment does not require designating additional controlled airspace, but merely substitutes names in the route description, it is a minor editorial change on which the public would have no particular reason to comment. Therefore notice and public procedure are unnecessary.

However, since sufficient time must be allowed to make appropriate changes on aeronautical charts, this amendment will become effective more than 30 days after publication.

In consideration of the foregoing, Part 75 of the Federal Aviation Regulations is amended effective 0901 G.m.t., July 18, 1974, as hereinafter set forth.

§ 75.400 (39 FR 718, 38 FR 24204) is amended as follows:

1. In J–902R: "SHERO 45°21'05"N. 122°59'00"W. Portland, Oreg." is deleted and "Newberg, Oreg. 45°21'12"N. 122° 58'37"W. Newberg, Oreg." is substituted therefor.

2. In J–911R: "SHERO 45°21'05"N. 122°59'00"W. Portland, Oreg." is deleted and "Newberg, Oreg. 45°21'12"N. 122° 58'37"W. Newberg, Oreg." is substituted therefor.

3. In J–913R: "SHERO 45°21'05"N. 122°59'00"W. Portland, Oreg." is deleted and "Newberg, Oreg. 45°21'12"N. 122° 58'37"W. Newberg, Oreg." is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c); Department of Transportation Act (49 U.S.C. 1655(c))

Issued in Washington, D.C., on May 1, 1974.

GORDEN E. KEWER,
Acting Chief, Airspace and Traffic Rules Division.

[FR Doc.74–10541 Filed 5–7–74;8:45 am]

[Airspace Docket No. 74–WA–15]

PART 75—ESTABLISHMENT OF JET ROUTES AND AREA HIGH ROUTES

Alteration of Jet Route

The purpose of this amendment to Part 75 of the Federal Aviation Regulations is to realign J–15 between Roswell, N. Mex., and Albuquerque, N. Mex., so that the existing bend in the route will be moved to the point of intersection of J–15 with J–74. This will be accomplished by extending the presently used Roswell radial, and adjusting the Albuquerque radial two degrees eastward.

This slight change will eliminate the requirement to use the Albuquerque VORTAC by jet aircraft en route from Socorro, N. Mex., to Roswell.

Because this action merely realigns a segment of J–15 by two degrees, it is a minor matter on which the public would have no particular desire to comment. Therefore, notice and public procedure thereon are unnecessary. In order to provide sufficient time for changes to be depicted on appropriate charts, this amendment will be made effective on July 18, 1974.

In consideration of the foregoing, Part 75 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., July 18, 1974, as hereinafter set forth.

§ 75.100 (39 FR 699) is amended as follows: In Jet Route No. 15 "INT of the Roswell 319° and the Albuquerque, N. Mex., 128° radials;" is deleted and "INT of the Roswell 319° and the Albuquerque, N. Mex., 126° radials;" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)), sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c))

Issued in Washington, D.C., on May 1, 1974.

GORDON E. KEWER,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.74–10542 Filed 5–7–74;8:45 am]

[Docket No. 13694; Amdt. No. 915]

PART 97—STANDARD INSTRUMENT APPROACH PROCEDURES

Recent Changes and Additions

This amendment to Part 97 of the Federal Aviation regulations incorporates by reference therein changes and additions to the Standard Instrument Approach Procedures (SIAPs) that were recently adopted by the Administrator to promote safety at the airports concerned.

The complete SIAPs for the changes and additions covered by this amendment are described in FAA Forms 3139, 8260–3, 8260–4, or 8260–5 and made a part of the public rulemaking dockets of the FAA in accordance with the procedures set forth in Amendment No. 97–696 (35 FR 5609).

SIAPs are available for examination at the Rules Docket and at the National Flight Data Center, Federal Aviation Administration, 800 Independence Avenue, SW., Washington, D.C. 20591. Copies of SIAPs adopted in a particular region are also available for examination at the headquarters of that region. Individual copies of SIAPs may be purchased from the FAA Public Document Inspection Facility, HQ–405, 800 Independence Avenue, SW., Washington, D.C. 20591 or from the applicable FAA regional office in accordance with the feed schedule prescribed in 49 CFR 7.85. This fee is payable in advance and may be paid by check, draft or postal money order payable to the Treasurer of the United States. A weekly transmittal of all SIAP changes and additions may be obtained by subscription at an annual rate of $150.00 per annum from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Additional copies mailed to the same address may be ordered for $30.00 each.

Since a situation exists that requires immediate adoption of this amendment, I find that further notice and public procedure hereon is impracticable and good cause exists for making it effective in less than 30 days.

In consideration of the foregoing, Part 97 of the Federal Aviation regulations is amended as follows, effective on the dates specified:

1. Section 97.23 is amended by originating, amending, or canceling the following VOR–VOR/DME SIAPs, effective June 20, 1974:

Chino, Calif.—Chino Arpt., VOR–A, Orig.
Chino, Calif.—Chino Arpt., VOR–1, Amdt. 1, canceled.
Fayetteville, Ark.—Drake Field, VOR–A, Amdt. 14.

CHAPTER II—CIVIL AERONAUTICS BOARD

SUBCHAPTER A—ECONOMIC REGULATIONS

[Regulation ER–846; Amdt. 22]

PART 298—CLASSIFICATION AND EXEMPTION OF AIR TAXI OPERATORS

Definition of Large Aircraft

Adopted by the Civil Aeronautics Board at its office in Washington, D.C.

By notice of proposed rulemaking EDR–255,[1] the Board proposed to amend Part 298 of the Economic Regulations to include within the definition of "large aircraft" all models of the Convair 240, 340 and 440; Martin 202 and 404; F–27 and FH–227; and Hawker Siddeley 748, as well as any other aircraft with a maximum zero fuel weight greater than 35,000 pounds. The amendment was designed to clarify the Board's intention in adopting the 30-seat/7500-pound payload limitation on air taxi aircraft in the Part 298 Weight Limitation Investigation, Orders 72–7–61 and 72–9–62.

Comments in response to the notice were filed by AAT Airlines, the Alaska Transportation Commission, American Cyanamid Company, Atlantic Aviation Corporation, Christler Flying Service, Executive Air Fleet, Executive Air Lines, Executive Air Services, Fokker-VFW, General Aviation Manufacturers Association, Golden West Airlines, Hawker Siddeley Aviation, National Air Transportation Conferences (NATC), Pacific Coast Airlines, Priority Air Dispatch, Royal Airlines, Southern Airways, Swift Air Lines, and Viking International Air Freight.

Christler Flying Service and Southern Airways support the proposed amendment, while all other respondents object to the new rule in whole or in part.

Upon consideration of the matters presented, we have decided to adopt the rule as proposed. Accordingly, the tentative findings made in EDR–255 are incorporated herein and made final.[2]

At the outset, certain general observations are in order. Some of the respondents seek, in essence, a reconsideration of the Board's determinations in the Part 298 Investigation. Others disregard those determinations and simply argue that, as a matter of policy, the Board should permit air taxis to operate large aircraft whose operating weights are artificially altered to meet the 7,500-pound payload standard. According to this view, the exclusion of these airplanes would severely limit the current aircraft types (with a takeoff weight over 12,500 pounds) that could qualify under the new 30-seat/7500-pound payload test and, as a result, would largely negate the liberalizing effects of the Part 298 Investigation.

At the heart of this contention is a mistaken notion of our purpose in EDR–255. Our action was not designed to reexamine the substantive bases of the Part 298 decision which, after all, had been reached only a year earlier after extensive hearings. Instead, the proposed amendment was offered to clarify the Board's intention in the Part 298 case by embodying within the rule itself limitations which were expressed or clearly implicit in the Opinions which accompanied the new regulation. The issue before us is therefore not whether the use of Convair 440 or similar aircraft should now be permitted under the general air taxi exemption, but whether the Part 298 decision contemplated their approval.

Proceeding on that basis, it is necessary to recall that our underlying aim in the Part 298 proceeding was to draw the line between certificated and exempted air services in a manner that would serve the needs of air taxis and small community traffic, without impinging on the basic certificated structure of air transportation. To that end, we decided not to permit exempted carriers—as a class—to use large piston or turboprop air-

[1] In Docket No. 26021, 38 FR 29480 (1973).

[2] Fokker-VFW, designer of the F.27, claims the right to a hearing on the general ground that the Board, by excluding specific aircraft from the Part 298 exemption, is taking "highly particularistic" action involving specific parties and that, as a result, standard rulemaking procedures are not sufficient to satisfy due process. In the first place, we disagree with Fokker's characterization of our action. The proposed rule is aimed not merely at a specific aircraft but at an entire category of aircraft: large piston and turboprop airplanes normally capable of carrying payloads greater than 7500 pounds but whose payloads can be reduced through artificial increases in their operating weights. While the "border line" aircraft of this type are actually named in the rule for purposes of clarity, the regulation's focus remains general and its basic purpose is to interpret the 7500 pound payload standard for air taxi aircraft adopted in the Part 298 Investigation. In any event, the Board's decision to exclude the F.27 was expressly made, after extensive hearings, in the Part 298 case in which Fokker participated as a party. (See Order 72–9–62, p. 3) Fokker has therefore already been afforded the hearing it now seeks.

V 39 90
MAY 8 74
XUM

planes, which still form a significant proportion of local service carriers' fleets. In excluding such aircraft, we were concerned not only with the enforcement problems that might arise if we left it to the individual air taxi operator to limit its actual payloads on these large airplanes to 7500 pounds. Rather, we expected the new air taxi weight standard to leave local service airlines with the advantage of "more spacious cabin facilities, even on their smaller turboprop aircraft,"[3] and relied, in part, on this advantage in concluding that the new rule would not impinge on the certificated system.

Our Opinion and Order on Reconsideration, Order 72–9–62, amplified these views and noted expressly that the new standard "did not mean to qualify • • • such aircraft as the Convair 440, Martin 202 or 404, or F–27, all of which are capable of carrying payloads in excess of 7500 pounds, but whose payloads • • • can be reduced artificially—through the use of unnecessary ballast, for example."

The comments in opposition to our proposal to disqualify these aircraft, plus the Convair 240 and 340, FH–227 and Hawker Siddeley 748, do not relate their arguments to these Board determinations in the Part 298 Investigation. They either disregard those determinations or seek to evade them by a narrow interpretation of the Board's earlier position that squares neither with the literal language of the Board's Opinions nor with their spirit. For example, several respondents stress that their aircraft have no unnecessary ballast, as if that was the only artificial change in an airplane's operating weight we were concerned about in foreclosing the use of large turboprops such as the Convair 440. In the first place, Order 72–9–62 specified that extra ballast was being cited only as an example. Moreover, from the point of view of the Board's larger purpose of restricting the competitive impact of air taxis by maintaining the certificated airlines, advantage in operating aircraft with more cabin space, it obviously matters little whether air taxis are allowed to use large aircraft with empty weights increased (and payloads thereby reduced) by unnecessary ballast, on the one hand, or by the installation of unusually heavy seats, or a bar or lounge, on the other.

Similarly, the objections of some respondents to the exclusion of the Convair 240 and 340 or the Hawker Siddeley 748 rest implicitly on the fact that these were not expressly listed in Order 72–9–62 as aircraft types on this score. Under the air taxi exemption. Our list was obviously not intended to be all-inclusive; and, none of the objectors has disputed our statement (in EDR–255) that these unlisted airplanes belong in the same category as the disqualified aircraft that were named by way of example. It is quite clear, for instance, that air taxi services with the Convair 240 or Hawker Siddeley 748 would be as much of a competitive threat to the certificated network as would operations with the Convair 440 or Martin 202—and, indeed, no one has attempted to distinguish between these aircraft types on this score. Under the circumstances, there is no basis for applying a different standard to the Convair 240 and 340, FH–227 and Hawker Siddeley 748 than to the Convair 440 and similar aircraft whose exclusion from the general air taxi exemption was made explicit in our Opinion and Order on Reconsideration.

We are aware that this conclusion limits the current aircraft newly available to air taxi operators under the more liberal 7500-pound payload weight rule. However, the suggestion that this result is at odds with the Board's intention in the Part 298 proceeding is inaccurate. At that time, the Board recognized that there were only a few existing aircraft types in the 20–30-seat/7500-pound payload category that could be used by air taxis.[4] However, instead of encouraging air taxis to operate large aircraft artificially modified to meet the 7500-pound test, the Board emphasized that its primary goal in relaxing the prior weight standard was to stimulate the manufacture of new airplanes designed for third-level service.

In this connection, additional remarks are in order in response to certain claims made on behalf of one series of the Hawker Siddeley 748—the 2C or "Commuter" model. While Hawker Siddeley apparently acknowledges that the standard versions of its 748 do not qualify under the new Part 298 weight limits, it claims that the 2C series was developed especially for the U.S. commuter market and responds to the challenge issued by the Board for the manufacture of a modern commuter aircraft with 30 or fewer passenger seats and a maximum payload of 7500 pounds. We cannot agree. The Hawker Siddeley 748 2C is virtually identical to the 2A model, a 40–58-passenger aircraft with a payload of nearly 12,000 pounds. The two models have similar avionic systems, interior and exterior dimensions, empty weights, and maximum takeoff and landing weights. The most significant difference between them (aside from the number of passenger seats) is a relatively minor structural modification in the 2C which has resulted in its lower maximum zero fuel weight of 34,500 pounds. However, Hawker Siddeley's exhibit A indicates that a simple low-cost program is available to bring the zero fuel weight up to 38,500 pounds—the same as the 748 2A's weight. On the whole, the 748 2C hardly represents the sort of new commuter airplane the Board was attempting to encourage.[5] Moreover, evaluated by the same standards we have applied to other large aircraft, the 748 2C would be capable of carrying payloads in excess of 7500 pounds if not for certain artificial alterations in its cabin design—including the installation of a bar and lounge—which clearly do not detract from its competitiveness vis-a-vis turboprop aircraft used by certificated airlines.[6] Therefore, the same grounds we cited earlier for precluding the use of the Convair 440 and similar airplanes under the broad air taxi exemption apply equally to the Hawker Siddeley 748 2C.

Next, we turn to comments opposing another feature of our proposed rule: the upper limit of 35,000 pounds zero fuel weight applicable to all Part 298 aircraft. NATC claims that in imposing this weight limit the Board would be moving away from its original concept of replacing the previous rigid gross takeoff weight standard with a more flexible seating/payload capacity rule. In fact, the additional 35,000-pound zero fuel weight test is consistent with—indeed, is meant to help effectuate—our original purposes in the Part 298 proceeding. To begin with, the 30-seat/7500-pound payload limitation will continue to be the basic standard for air taxi aircraft. The further limit on the overall size of these aircraft embodied in the 35,000-pound zero fuel weight is merely intended to minimize misuse of the payload test in the manner discussed earlier (i.e., by the operation of large aircraft with empty weights artificially increased to "qualify" within the payload limitation). At the same time, as we found EDR-255, the 35,000-pound upper limit leaves aircraft manufacturers with ample flexibility to develop a modern air taxi/commuter airplane with all the comfort features we intended to make available to small community traffic through adoption of the 30-seat/7500-pound payload standard.[7]

While we find no merit in the broad attack on the 35,000-pound upper limit, a more serious objection to this aspect of the proposed rule is that it will disqualify the Grumman Gulfstream II. The Gulfstream II is essentially an executive jet transport which, despite its heavy zero fuel weight of 38,000–42,000 pounds, has always had a capacity of about 19 passengers and a maximum payload well below 7,500 pounds. However, while we agree that because of the Gulfstream II's special characteristics, its use by exempted carriers would not normally pose a serious diversionary threat to the certificated system, it does not follow that an exception should be carved out of the proposed regulation for the sole purpose of authorizing the operation of the airplane under the class exemption of Part 298. Only a handful of Gulfstream II aircraft are now being used by air taxis—none by commuter carriers.[8] Also, the record of the Part 298 case and the responses to EDR–255 indicate no widespread interest in the airplane among air taxis, in general, or commuters, in particular. We conclude, therefore, that individual exemption procedures are a more appropriate method for dealing with the modest demand for the Gulfstream II within the air taxi industry. The Board has in the past recognized the special characteristics of the Gulfstream II in approving its use by individual exemption[9] there is, thus, no reason to assume that an individual exemption requirement will (under normal circumstances) prove a burdensome obstacle in the future.

Finally, several respondents complain that the proposed rule is unfair because it would penalize them for having acquired aircraft, or contracted to do so, on the basis of a good-faith (even if erroneous) interpretation of the Part 298 payload standard. They therefore urge that the proposed rule should have only prospective effect and should not bar operations with certain large turboprops acquired before its effective date. As noted earlier, the proposed regulation is primarily interpretive in nature rather than a substantive change in a prior rule. The extent to which its adoption may nevertheless have an unfair and burdensome impact on any air taxi operator can only be determined by an examination of the facts on a case-by-case basis. The Board will be receptive to applications for individual exemptions which include an actual showing that the applicant acted reasonably and in good faith in acquiring aircraft now expressly disqualified, and that it would be unduly burdened by enforcement of the regulation.

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 298 of the Economic Regulations (14 CFR Part 298) effective May 8, 1974, as follows:

Amend the definition of "large aircraft" in § 298.2 to read as follows:

§ 298.2 Definitions.

• • • • •

"Large aircraft" means any aircraft having a maximum passenger capacity of more than 30 seats or a maximum payload capacity of more than 7,500 pounds; except that in connection with operations conducted within the State of Alaska or Hawaii, large aircraft shall mean an aircraft whose maximum certificated takeoff weight is more than 12,500 pounds: *Provided, however,* That, for the purposes of this part, large aircraft shall include all models of the Convair 240, 340 and 440; Martin 202 and 404; F–27 and FH–227; and Hawker Siddeley 748; and shall also include any other aircraft with a maximum zero fuel weight in excess of 35,000 pounds.

• • • • • •

(Secs. 204(a), 401, 416(b), Federal Aviation Act of 1958, as amended, 72 Stat. 743, 754, 771, as amended; (49 U.S.C. 1324, 1371, 1386))

Effective: May 8, 1974.

Adopted: May 2, 1974.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND, *Secretary.*

[FR Doc.74–10584 Filed 5–7–74;8:45 am]

[3] Order 72–9–61, p. 30.

[4] Order 72–7–61, pp. 12, 13.

[5] We do not mean to suggest that modern commuter aircraft must be wholly new—as opposed to developed or modified versions of older aircraft. However, when the modification is as minor as that involved here, the claim that the 748 2C is a new airplane expressly designed to meet the needs of commuter markets is unrealistic.

[6] In fact, it is possible that at least some 748 2C aircraft could operate at payloads over 7500 pounds even as now configurated. While Hawker Siddeley lists the airplane's "typical" maximum payload as 7500 pounds, a greater payload might be carried on flights where no food is served or some other operating weight element is reduced.

[7] While several respondents suggest, without evidentiary support, that the 35,000-pound maximum may be too restrictive, it should be recalled that it will permit the operation of aircraft at least three times as heavy as those operated under the old 12,500-pound takeoff weight test.

[8] Based on commuter carriers' reports to the Board for fiscal 1973. In its comments, Executive Air Fleet states that only two Gulfstream II's are now being used by air taxis under the Board's jurisdiction.

[9] Order 71–8–75, August 17, 1971.

Title 19—Customs Duties

CHAPTER I—UNITED STATES CUSTOMS SERVICE, DEPARTMENT OF THE TREASURY

[T.D. 74–143]

PART 148—PERSONAL DECLARATIONS AND EXEMPTIONS

Organization of African Unity

By Executive Order No. 11767 signed February 19, 1974 (39 FR 6603), the President designated the Organization of African Unity (OAU) as a public international organization entitled to enjoy all the privileges, exemptions, and immunities provided for by the International Organizations Immunities Act of December 29, 1945 (59 Stat. 669).

The names of public international organizations currently designated as entitled to free entry privileges under the International Organizations Immunities Act are set forth in § 148.87(b) of the Customs Regulations, together with the number and date of the Executive order by which they were designated.

Accordingly, § 148.87(b) is amended by the following addition (in proper alphabetical order):

§ 148.87 Officers and employees of, and representatives to public international organization.

• • • • • •

(b) • • •

Organization	Executive order	Date
Organization of African Unity (OAU).	11767	Feb. 19, 1974

(R.S. 251, as amended, secs. 498, 624, 46 Stat. 728, as amended, 759, sec. 1, 59 Stat. 669; 19 U.S.C. 66, 1498, 1624, 22 U.S.C. 288)

Inasmuch as this amendment merely corrects the listing of organizations entitled by law to claim free entry privileges as public international organizations, notice and public procedure thereon are found to be unnecessary and good cause exists for dispensing with a delayed effective date under the provisions of 5 U.S.C. 553.

[SEAL] LEONARD LEHMAN, *Acting Commissioner of Customs.*

Approved: April 25, 1974.

MATTHEW J. MARKS, *Acting Assistant Secretary of the Treasury.*

[FR Doc.74–10535 Filed 5–7–74;8:45 am]

Title 40—Protection of Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER C—AIR PROGRAMS

PART 51—REQUIREMENTS FOR PREPARATION, ADOPTION, AND SUBMITTAL OF IMPLEMENTATION PLANS

Maintenance of National Ambient Air Quality Standards

On June 18, 1973 (38 FR 15834), the Administrator of the Environmental Protection Agency promulgated, among other provisions, revisions to 40 CFR Part 51, § 51.12. In part, these revisions require that State implementation plans identify by March 18, 1974 (9 months after the effective date of publication), areas which may have the potential for exceeding any national standard within the next 10-year period due to current air quality and/or projected growth rate. Under the same revisions, the Administrator was to publish by June 18, 1974, based upon this information submitted by the States, a list of potential problem areas which will be analyzed in more detail by the States. Then by June 18, 1975 (24 months after the effective date of promulgation), the States are required to submit an analysis of the impact on air quality of projected growth in each potential problem area designated by the Administrator. Where necessary, the States must also submit plans containing measures to ensure maintenance of the national standards during the ensuing 10-year period.

On January 15, 1974, the Office of Air Quality Planning and Standards issued to the States the EPA–OAQPS document, "Guidelines for Designation of Air Quality Maintenance Areas," which describes techniques which the States could use in identifying potential problem areas. This document was made available for public inspection in the FEDERAL REGISTER of February 25, 1974 (38 FR 7196). These guidelines specified that the States should analyze, as a minimum, all Standard Metropolitan Statistical Areas (SMSAs) within their jurisdiction. The Administrator has subsequently monitored the process of problem area identification, as undertaken by the States, through contact with EPA's ten regional offices. He has been favorably impressed by the efforts that most States have been making in analyzing areas, identifying problem areas and scheduling public hearings. It has become apparent, however, that States have been unable to submit the material required by the scheduled March 18, 1974, deadline. The Administrator had two basic choices as a result:

(a) to maintain the scheduled deadline, disapprove all State plans specifically for failure to comply with the provisions of § 51.12(e) (with the exception of States which do not contain Standard Metropolitan Statistical Areas), propose a list of problem areas, hold hearings and publish a final list on June 18, 1974; or

(b) to extend the deadline for a short period.

If the Administrator were to follow the former course of action, he would have to propose his own list of areas, knowing

V 39 90 MAY 8 74 XUM

full well that most States were in the process of developing their lists and scheduling public hearings. As the Administrator's own rulemaking process carried forward, substantial confusion and duplication of effort would ensue. Such confusion could hinder full public participation in the formulation of the list of potential problem areas. Also, several States had requested that the Administrator extend the date for submittal of problem area identification so that the States could prepare the material more thoroughly and provide for more extensive public involvement.

Consequently, the Administrator decided to extend:

(a) the date for State submission of the identification of potential problem areas from March 18, 1974, to May 10, 1974; and

(b) the date for EPA publication of the list of potential problem areas, as based upon material submitted by the States from June 18, 1974, to August 16, 1974.

This action is anticipated to result in approximately 30 to 40 States being able to hold hearings on and submit area identification material by the revised deadline. The action below effects these extensions.

These amendments are being promulgated in final form without having first been proposed and subjected to public comment. The Administrator has found that the procedure of proposal and entertainment of public comment would be impracticable in this situation since States must be able to rely upon the new time schedule immediately. It should be stressed that the date required for submittal of the analysis of the impact on air quality of projected growth and 10-year maintenance plan in these areas remains the same—June 18, 1975. In order to avoid confusion, § 51.12(g) is also being amended to specify this June 18, 1975, date for submission, rather than implying it by requiring submission 24 months from the date of promulgation of the above-cited revisions to 40 CFR 51.12 on June 18, 1973.

(Secs. 110, 301(a), Clean Air Act, as amended 42 U.S.C. 1857c-5, 1857g(a))

Dated: May 2, 1974.

JOHN QUARLES,
Acting Administrator.

In § 51.12 of 40 CFR, Part 51, paragraphs (e) (2), (f) and (g) are revised to read as follows:

§ 51.12 Control strategy: General.

* * * * *

(e) * * *

(2) The area identification and description of method and timing required by this paragraph shall be submitted no later than May 10, 1974.

* * * * *

(f) Based on the information submitted by the State pursuant to paragraph (e) of this section, the Administrator will publish by August 16, 1974, a list of the areas which shall be subject to the requirements of paragraph (g) of this section.

(g) For each area identified by the Administrator pursuant to paragraph (f) of this section, the State shall submit, no later than June 18, 1975, the following:

(1) An analysis of the impact on air quality of projected growth and development over the 10-year period from the date of submittal.

(2) A plan to prevent any national standards from being exceeded over the 10-year period from the date of plan submittal. Such plan shall include, as necessary, control strategy revisions and/or other measures to insure that projected growth and development will be compatible with maintenance of the national standards throughout such 10-year period. Such plan shall be subject to the provisions of § 51.6.

* * * * *

[FR Doc.74-10589 Filed 5-7-74;8:45 am]

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Final Reclassification of Air Quality Control Regions

On June 8, 1973 (38 FR 15180), the Administrator of the Environmental Protection Agency (EPA) proposed that 43 of the 47 air quality control regions that were originally classified priority I for nitrogen dioxide be reclassified priority III and retain the priority I classification in Los Angeles, Chicago, New Jersey-New York-Connecticut and Wasatch Front. Because there are conflicting data on nitrogen dioxide levels in New Jersey-New York-Connecticut and Wasatch Front, implementation of nitrogen dioxide control measures would not be required at this time.

In addition, based on the proposed reclassification, the Administrator also proposed the following actions with respect to State implementation plans:

1. Revoke his previous disapproval of nitrogen oxides control strategy with respect to the State implementation plans for the air quality control regions listed in Table 4 (June 8, 1973, 38 FR 15180) and withdraw regulations proposed by EPA dealing with control of stationary source emissions of nitrogen dioxide in these AQCR's.

2. Eliminate the requirement that the State of California's transportation control strategy for the San Francisco AQCR provide for attainment of the national standard for nitrogen dioxide; this AQCR is among those to be reclassified priority III. The transportation control strategy for this AQCR still will have to provide for attainment and maintenance of the national standards for carbon monoxide and photochemical oxidants.

3. As appropriate, alter the attainment date tables in notices of EPA action on State plans at 40 CFR Part 52 to indicate that nitrogen dioxide levels are already within the national standard.

Where States have adopted, and EPA has approved, regulations calling for control of nitrogen oxides emissions from stationary sources in AQCR's which would be reclassified from priority I to priority III, EPA will entertain State requests for implementation plan revisions that would rescind such regulations. Such revisions would have to be made in accordance with 40 CFR 51.6.

The Administrator also discussed the re-evaluation of the reference method for measuring nitrogen dioxide which was presented elsewhere in the FEDERAL REGISTER in more detail (38 FR 15174) and the question of validity of the current national air quality standard for nitrogen dioxide.

Sixteen separate comments were received on the proposed reclassification of regions for nitrogen dioxide. Six were from conservation groups or concerned citizens, 4 from state and local agencies, 3 from utility companies, 2 from industry and one from a Federal agency. In consideration of these and other comments, the proposed reclassification has been modified.

Seven comments concurred with EPA proposed actions; however, all but one provided additional comments on the ambient air quality standard or other related matters, 2 comments believed that the reclassification was premature, 2 comments proposed that Baltimore remain priority I, one comment proposed that Metropolitan Providence also remain priority I, 2 comments discussed the role of NO_x in the formation of oxidants, 1 comment suggested that the air quality standard is inconsistent with the concentration used by the Army Corps of Engineers and one comment suggested that an error has been made in publication of the proposal.

The suggested error in the proposal was concerning the classification of the Southeastern Wisconsin Intrastate Region. The region was originally classified priority I for NO_x and should be reclassified priority III. The proposal reflected this action.

The comment suggesting that the national standard is inconsistent with the one used by the Army Corps of Engineers has confused the units for the two concentrations in question. The Corps of Engineers' concentrations are in milligrams per cubic meter while those of EPA are in micrograms per cubic meter.

Comments concerning the role that NO_x plays in the formation of oxidants were addressed in the June 5, 1973, proposal (38 FR 14762) concerned with EPA's proposed action on nitrogen dioxide control strategy. The Agency is currently pursuing further studies to determine the relationship between hydrocarbons and nitrogen dioxide and to better define the role of NO_x in the formation of oxidants.

Three comments from utility companies agreed with EPA's proposed reclassification and requested EPA to encourage states to withdraw regulations dealing with the control of NO_x from stationary sources. However, there was concern over the growth and emission factors that were utilized in the analysis which formed the basis of the interim motor vehicle emission standard. Four other comments agreed with EPA's proposed action and submitted additional information concerning the national ambient air quality standard.

The information concerning the growth and emission factors utilized in the analysis of the motor vehicle emission standards will be further reviewed and considered as EPA formulates its position on the current motor vehicle emission standard for nitrogen oxides.

Among the comments received concerning the validity of the ambient air quality standard for nitrogen dioxide, opinion varied widely, from those who stated that the nitrogen dioxide standard should be rescinded pending accumulation of additional health effects data to those who judged that the present national standard provided a minimum margin of safety to public health and that extreme caution should be exercised in recommending a less stringent motor vehicle emission standard for nitrogen oxides. These comments will be considered in the continuing work of the Agency to evaluate its current ambient air quality standards and assist in the development of future standards. Further health studies designed to obtain additional data have been instituted and an orderly review of the health effects of nitrogen oxides exposures has been scheduled with the National Academy of Sciences.

Two comments believed EPA's proposed reclassification was premature and that the final action on reclassification should be postponed until more data and health studies are available. EPA is continuing to collect air quality data for nitrogen dioxide along with many State and local agencies. In addition, as mentioned previously, the Agency has initiated additional studies of the health effects of nitrogen dioxide. This data will continue to be analyzed and if for any reason the data would indicate that a change should be made, the Agency will see that the appropriate action is taken.

Three comments indicated that the Agency's proposed reclassification for NO_x for two AQCR's is incorrect. Two commentators believe that the Metropolitan Baltimore Region should remain priority I based upon recent data, using the Saltzman method, which indicates that the annual arithmetic mean for NO_2 from June 1972-July 1973 was 130 $\mu g/m^3$. The Saltzman data for 1972 was 109 $\mu g/m^3$. Also, one commentator believes that Metropolitan Providence should also remain priority I based on the Federal reference method data of 203 $\mu g/m^3$. However, EPA has declared the former reference method to be invalid. Additionally, all data obtained for Providence using the candidate methods show that levels are below the national standard and that Providence should be reclassified priority III.

Therefore, based upon the above comments, the air quality data presented in Tables 1 and 2 (38 FR 15180) and additional air quality data for the Baltimore AQCR, the proposed reclassification has been modified.

In light of the error in the reference measurement methodology used to determine nitrogen dioxide levels in the ambient air, the Agency has performed an analysis of the nitrogen dioxide standard for light duty vehicles. In formulating the Agency's position on the motor vehicle standards, growth in nitrogen oxides emissions under a variety of automotive control assumptions were projected and a preliminary review indicates that the motor vehicle standard for nitrogen oxides can be revised.

Wherever all the available data indicate that nitrogen dioxide concentrations were below the priority I cutoff point of 110 micrograms per cubic meter (annual arithmetic mean), EPA is reclassifying those regions to priority III. Thus, 42 AQCR's would be reclassified. The Los Angeles and Chicago AQCR's are the only ones where data from all three candidate methods show nitrogen dioxide concentrations exceeding 110 micrograms. They would remain priority I. In the New Jersey-New York-Connecticut, Wasatch Front (Salt Lake City), Metropolitan Baltimore AQCR's (originally priority I) and Denver AQCR (originally priority III), arsenite data show concentrations below the cutoff point, but chemiluminescence and/or Saltzman data show concentrations above 110 $\mu g/m$. Priority classifications for these four AQCR's would not be changed until more conclusive data are available; however, because the need for implementation of nitrogen oxides control measures in these AQCR's is uncertain, States would not be required to take action at this time to reduce NO_x emissions.

Based on the final reclassification, the Administrator is also finalizing the following actions with respect to State implementation plans:

TABLE 1.—*Air quality control regions affected by proposed revocation of NO_x control strategy disapproval and proposed termination of EPA rulemaking*

AQCR No.	AQCR name	Affected States
015	Phoenix-Tucson	Arizona.
042	Hartford-New Haven-Springfield.	Massachusetts.
045	Philadelphia	Pennsylvania and New Jersey.
070	St. Louis	Missouri.
085	Omaha-Council Bluffs	Nebraska.
123	Detroit-Port Huron	Michigan.
151	Northeast Pennsylvania-Upper Delaware Valley.	Pennsylvania.-New Jersey.
160	Genesee-Finger Lakes	New York.
162	Niagara Frontier	Do.
195	Central Pennsylvania	Pennsylvania.
196	South Central Pennsylvania.	Do.
197	Southwest Pennsylvania	Do.
214	Corpus Christi-Victoria	Texas.
215	Dallas-Fort Worth	Do.
216	Houston-Galveston	Do.
223	Hampton Roads	Virginia.
226	State Capital	Do.

1. Revoke his previous disapproval of nitrogen oxides control strategy with respect to the State implementation plans for the 17 air quality control regions listed in Table 1 and withdraw proposed regulations dealing with control of stationary source emissions of nitrogen oxides in these AQCR's.

2. Eliminate the requirement that the State of California's transportation control strategy for the San Francisco AQCR provide for attainment of the national standard for nitrogen dioxide; this AQCR is among those to be reclassified priority III. The transportation control strategy for this AQCR still will have to provide for attainment of the national standards for carbon monoxide and photochemical oxidants.

3. Retain his disapprovals of nitrogen oxides control strategies for New Jersey-New York-Connecticut, Wasatch Front, and the Metropolitan Baltimore Regions and hold in abeyance his proposed regulations until the final decision can be made on the classification of these regions.

4. As appropriate, alter the attainment date tables in notices of EPA action on State plans at 40 CFR Part 52 to indicate that nitrogen dioxide levels are already within the national standard.

5. Within four months from the date of publication of the revised requirements of 40 CFR 51.14 (published elsewhere in this issue of the FEDERAL REGISTER), the State of Illinois must submit a demonstration to the Administrator that the present approved control strategy for the Metropolitan Chicago AQCR is adequate to attain and maintain the national standard for nitrogen oxides. With respect to the Los Angeles AQCR, EPA previously disapproved California's control strategy for nitrogen oxides, carbon monoxide and photochemical oxidants, and promulgated a transportation control plan. On February 6, 1974, the State of California submitted a plan revision for Los Angeles which provides for a transportation control plan and a control strategy for nitrogen oxides. EPA is presently reviewing the plan to determine its adequacy in fulfilling the requirements of the revised § 51.14 to demonstration the attainment and maintenance of the nitrogen oxide standard for Los Angeles.

Where States have adopted, and EPA has approved, regulations calling for control of nitrogen oxides emissions from stationary sources in AQCR's which would be reclassified priority III, EPA will entertain State requests for implementation plan revisions that would rescind such regulations. Such revisions would have to be made in accordance with 40 CFR 51.6. However, before such a request is submitted, States should review the necessity of stationary sources control to maintain the national standards for nitrogen oxides.

The regulations promulgated below shall take effect on June 7, 1973.

(42 U.S.C. 1857c-5)

Dated: April 30, 1974.

RUSSELL E. TRAIN,
Administrator.

Subpart B—Alabama

1. In § 52.54, the attainment date table is revised by replacing the letter "a", which designates the date for attainment of the national standard for nitrogen

V 39 90 MAY 8 74 XUM

dioxide in the Metropolitan Birmingham Intrastate Region, with the letter "d".

Subpart D—Arizona

2. In § 52.121, the table is revised by changing the classifications for nitrogen dioxide in the Clark-Mohave Interstate and Phoenix-Tucson Intrastate Regions from "I" to "III", and in the Four Corners Interstate Region from "IA" to "III".

3. Section 52.127 is revoked.

4. In § 52.131, the attainment date table is revised by replacing the letter "a", which designates the date for attainment of the national standard for nitrogen dioxide in the Phoenix-Tucson Intrastate Region, with the letter "c".

Subpart E—Arkansas

5. In § 52.171, the table is revised by changing the classification for nitrogen dioxide in the Metropolitan Memphis Interstate Region from "I" to "III".

6. In § 52.176, the attainment date table is revised by replacing the letter "a", which designates the date for attainment of the national standard for nitrogen dioxide in the Metropolitan Memphis Interstate Region, with the letter "c".

Subpart F—California

7. In § 52.221, the table is revised by changing the classifications for nitrogen dioxide in the San Francisco Bay Area and the San Diego Intrastate Regions from "I" to "III".

Subpart G—Colorado

8. In § 52.321, the table is revised by changing the classification for nitrogen dioxide in the Four Corners Interstate Region from "IA" to "III".

9. In § 52.325, the attainment date table is revised by replacing the letter "a", which designates the date for attainment of the national standard for nitrogen dioxide in the Four Corners Interstate Region, with the letter "d".

Subpart H—Connecticut

10. In § 52.371, the table is revised by changing the classification for nitrogen dioxide in the Hartford-New Haven-Springfield Interstate Region from "I" to "III".

11. In § 52.374, the attainment date table is revised by replacing the date "June 1975" for attainment of the national standard for nitrogen dioxide in the Hartford-New Haven-Springfield Interstate Region with the letter "c".

Subpart I—Delaware

12. In § 52.421, the table is revised by changing the classification for nitrogen dioxide in the Metropolitan Philadelphia Interstate Region from "I" to "III".

13. In § 52.428, the attainment date table is revised by replacing the date "January 1974" for attainment of the national standard for nitrogen dioxide in the Metropolitan Philadelphia Interstate Region with the letter "a".

Subpart J—District of Columbia

14. In § 52.471, the table is revised by changing the classification for nitrogen dioxide in the National Capital Interstate Region from "I" to "III".

15. In § 52.481, the attainment date table is revised by replacing the date "July 1975" for attainment of the national standard for nitrogen dioxide in the National Capital Interstate Region with the letter "c" and by adding footnote "c" to read as follows:

c. Air quality levels presently below secondary standard.

Subpart K—Florida

16. In § 52.521, the table is revised by changing the classifications for nitrogen dioxide in the West Central Florida and Southeast Florida Intrastate Regions from "I" to "III".

17. In § 52.523, the attainment date table is revised by replacing the letter "a", which designates the date for attainment of the national standard for nitrogen dioxide in the West Central Florida and the Southeast Florida Intrastate Regions, with the letter "c".

Subpart L—Georgia

18. In § 52.571, the table is revised by changing the classifications for nitrogen dioxide in the Metropolitan Atlanta Intrastate and Chattanooga Interstate Regions from "I" to "III".

19. In § 52.575, the attainment date table is revised by replacing the letter "a", which designates the date for attainment of the national standard for nitrogen dioxide in the Metropolitan Atlanta Intrastate and the Chattanooga Interstate Regions, with the letter "c".

Subpart O—Illinois

20. In § 52.721, the table is revised by changing the classifications for nitrogen dioxide in the Metropolitan St. Louis (Missouri-Illinois) Interstate Region from "I" to "III", and the Metropolitan Dubuque Interstate Region from "IA" to "III".

21. In § 52.727, the attainment date table is revised by replacing the date "July 1975" for attainment of the national standard for nitrogen dioxide in the Metropolitan Dubuque and the Metropolitan St. Louis (Missouri-Illinois) Interstate Regions with the letter "c".

Subpart P—Indiana

22. In § 52.771, the table is revised by changing the classifications for nitrogen dioxide in the Louisville and the Metropolitan Cincinnati Interstate Regions and the Metropolitan Indianapolis Intrastate Region from "I" to "III".

23. In § 52.783, the attainment date table is revised by replacing the letter "a", which designates the date for attainment of the national standard for nitrogen dioxide in the Louisville and the Metropolitan Cincinnati Interstate Regions and in the Metropolitan Indianapolis Intrastate Region, with the letter "e".

Subpart Q—Iowa

24. In § 52.821, the table is revised by changing the classifications for nitrogen dioxide in the Metropolitan Omaha-Council Bluffs and from "I" to "III" and in the Metropolitan Dubuque Interstate Regions from "IA" to "III."

25. In § 52.827, the attainment date table is revised by replacing the letter "a", which designates the date for attainment of the national standard for nitrogen dioxide in the Metropolitan Omaha-Council Bluffs and the Metropolitan Dubuque Interstate Regions, with the letter "c".

Subpart S—Kentucky

26. In § 52.921, the table is revised by changing the classifications for nitrogen dioxide in the Louisville and Metropolitan Cincinnati Interstate Regions from "I" to "III".

27. In § 52.926, the attainment date table is revised by replacing the letter "a", which designates the date for attainment of the national standard for nitrogen dioxide in the Louisville and the Metropolitan Cincinnati Interstate Regions, with the letter "c".

Subpart V—Maryland

28. In § 52.1071, the table is revised by changing the classifications for nitrogen dioxide in the Metropolitan Baltimore Intrastate and National Capital Interstate Regions from "I" to "III".

29. Section 52.1075 is revoked.

30. In § 52.1078, the attainment date table is revised by replacing the letter "a", which designates the date for attainment of the national standard for nitrogen dioxide in the Metroloplitan Baltimore Intrastate and the National Capital Interstate Regions, with the letter "d".

Subpart W—Massachusetts

31. In § 52.1121, the table is revised by changing the classifications for nitrogen dioxide in the Metropolitan Boston and Central Massachusetts Intrastate Regions and the Metropolitan Providence and Hartford-New Haven-Springfield Interstate Regions from "I" to "III."

32. Section 52.1124 is revoked.

33. In § 52.1127, the attainment date table is revised by replacing "a" for attainment of the national standard for nitrogen dioxide in the Metropolitan Boston and the Central Massachusetts Intrastate Regions and the Hartford-New Haven-Springfield Interstate Region with the letter "e".

Subpart X—Michigan

34. In § 52.1171, the table is revised by changing the classifications for nitrogen dioxide in the Metropolitan Detroit-Port Huron and Central Michigan Intrastate Regions and the Metropolitan Toledo Interstate Region from "I" to "III".

35. Section 52.1174 is revoked.

36. In § 52.1177, the attainment date table is revised by replacing the letter "a", which designates the date for attainment of the national standard for nitrogen dioxide in the Metropolitan Detroit-Post Huron and the Central Michigan Intrastate Regions and in the Metropolitan Toledo Interstate Region, with the letter "c".

Subpart Y—Minnesota

37. In § 52.1221, the table is revised by changing the classification for nitrogen dioxide in the Minneapolis-St. Paul Intrastate Region from "I" to "III".

38. In § 52.1226, the attainment date table is revised by replacing the letter "a", which designates the date for attainment of the national standard for nitrogen dioxide in the Minneapolis-St. Paul Intrastate Region, with the letter "d".

Subpart Z—Mississippi

39. In § 52.1271, the table is revised by changing the classification for nitrogen dioxide in the Metropolitan Memphis Interstate Region from "I" to "III".

40 In § 52.1273, the attainment date table is revised by replacing the date "June 1975" for attainment of the national standard for nitrogen dioxide in the Metropolitan Memphis Interstate Region with the letter "b".

Subpart AA—Missouri

41. In § 52.1321, the table is revised by changing the classification for nitrogen dioxide in the Metropolitan St. Louis Interstate Region from "I" to "III".

42. Section 52.1326 is revoked.

43. In § 52.1332, the attainment date table is revised by replacing the letter "a", which designates the date for attainment of the national standard for nitrogen dioxide in the Metropolitan St. Louis Interstate Region, with the letter "c".

Subpart CC—Nebraska

44. In § 52.1421, the table is revised by changing the classification for nitrogen dioxide in the Metropolitan Omaha-Council Bluffs Interstate Region from "I" to "III".

45. In § 52.1431, the attainment date table is revised by replacing the letter "a", which designates the date for attainment of the national standard for nitrogen dioxide in the Metropolitan Omaha-Council Bluffs Interstate Region, with the letter "c".

46. Section 52.1433 is revoked.

Subpart DD—Nevada

47. In § 52.1471, the table is revised by changing the classification for nitrogen dioxide in the Clark-Mohave Interstate Region from "I" to "III".

Subpart FF—New Jersey

48. In § 52.1571, the table is revised by changing the classifications for nitrogen dioxide in the Metropolitan Philadelphia and Northeast Pennsylvania-Upper Delaware Valley Interstate Regions from "I" to "III".

49. Section 52.1576 is revised to delete the references to the Metropolitan Philadelphia and Northeast Pennsylvania-Upper Delaware Valley Interstate Regions.

50. In § 52.1580, the attainment date table is revised by replacing the letter "d", which designates the date for attainment of the national standard for nitrogen dioxide in the New Jersey-New York-Connecticut region with the letter "a".

Subpart GG—New Mexico

51. In § 52.1621, the table is revised by changing the classification for nitrogen dioxide in the Four Corners Interstate Region from "IA" to "III".

Subpart HH—New York

52. In § 52.1671, the table is revised by changing the classifications for nitrogen dioxide in the Niagara Frontier and Genesee-Finger Lakes Intrastate Regions from "I" to "III".

53. Section 52.1676 is revised to delete any reference to the Niagara Frontier and Genesee-Finger Lakes Intrastate Regions.

54. In § 52.1682, the attainment date table is revised by replacing the letter "a" for attainment of the national standard for nitrogen dioxide in the Niagara Frontier and the Genesee-Finger Lakes Intrastate Regions with the letter "e".

Subpart KK—Ohio

55. In § 52.1871, the table is revised by changing the classifications for nitrogen dioxide in the Greater Metropolitan Cleveland, Metropolitan Columbus and the Metropolitan Dayton Intrastate Regions and the Metropolitan Cincinnati and Metropolitan Toledo Interstate Regions from "I" to "III".

56. In § 52.1875, the attainment date table is revised by replacing the letter "a", which designates the date for attainment of the national standard for nitrogen dioxide in the greater Metropolitan Cleveland, Metropolitan Columbus, and the Metropolitan Dayton Intrastate Regions and in the Metropolitan Cincinnati and the Metropolitan Toledo Interstate Regions, with the letter "e".

Subpart MM—Oregon

57. In § 52.1973, the attainment date table is revised by replacing the date "May, 1975" for attainment of the national standard for nitrogen dioxide in the Portland Interstate Region with the letter "b".

Subpart NN—Pennsylvania

58. In § 52.2021, the table is revised by changing the classifications for nitrogen dioxide in the Metropolitan Philadelphia and Northeast Pennsylvania-Upper Delaware Valley Interstate Regions and in the South Central Pennsylvania, Central Pennsylvania and the Southwest Pennsylvania Intrastate Regions from "I" to "III".

59. Section 52.2027 is revoked.

60. In § 52.2034, the attainment date table is revised by replacing the letter "a", which designates the date for attainment of the national standard for nitrogen dioxide in the Metropolitan Philadelphia and the Northeast Pennsylvania Upper Delaware Valley Interstate Regions and in the South Central Pennsylvania, Central Pennsylvania and the Southwest Pennsylvania Intrastate Regions, with the letter "e".

Subpart OO—Rhode Island

61. In § 52.2071, the table is revised by changing the classification for nitrogen dioxide in the Metropolitan Providence Interstate Region from "I" to "III".

62. In § 52.2076, the attainment date table is revised by replacing the letter "a", which designates the date for attainment of the national standard for nitrogen dioxide in the Metropolitan Providence Interstate Region, with the letter "b".

Subpart RR—Tennessee

63. In § 52.2221, the table is revised by changing the classifications for nitrogen dioxide in the Chattanooga and Metropolitan Memphis Interstate Regions from "I" to "III".

64. In § 52.2230, the attainment date table is revised by replacing the letter "a", which designates the date for attainment of the national standard for nitrogen dioxide in the Chattanooga and the Metropolitan Memphis Interstate Regions, with the letter "c".

Subpart SS—Texas

65. In § 52.2271, the table is revised by changing the classifications for nitrogen dioxide in the Corpus Christi-Victoria, Metropolitan Houston-Galveston and the Metropolitan Dallas-Fort Worth Intrastate Regions from "I" to "III".

66. Section 52.2276 is revoked.

67. In § 52.2279, the attainment date table is revised by replacing the date July, 1975, which designates the date for attainment of the national standard for nitrogen dioxide in the Corpus Christi-Victoria, Metropolitan Houston-Galveston, and the Metropolitan Dallas-Fort Worth Instrastate Regions, with the letter "a".

Subpart TT—Utah

68. In § 52.2321, the table is revised by changing the classification for nitrogen dioxide in the Four Corners Interstate Region from "IA" to "III".

69. In § 52.2331, the attainment date table is revised by replacing the letter "a", which designates the date for attainment of the national standard for nitrogen dioxide in the Four Corners Interstate Region, with the letter "c".

Subpart VV—Virginia

70. In § 52.2421, the table is revised by changing the classification for nitrogen dioxide in the State Capital and Hampton Roads Intrastate Regions and the National Capital Interstate Region from "I" to "III".

71. Section 52.2426 is revoked.

72. In § 52.2429, the attainment date table is revised by replacing the letter "a", which designates the date for attainment of the national standard for nitrogen dioxide in the State Capital and the Hampton Roads Intrastate Regions, and by replacing the date "June, 1975" for attainment of the national standard for nitrogen dioxide in the National Capital Interstate Region with the letter "d".

Subpart WW—Washington

73. In § 52.2471, the table is revised by changing the classification for nitrogen dioxide in the Puget Sound Intrastate Region from "I" to "III".

74. In § 52.2478, the attainment date table is revised by replacing the date

V 39 90
MAY 8 74
XUM

"July 1975" for attainment of the national standard for nitrogen dioxide in the Puget Sound Intrastate Region with the letter "b".

Subpart YY—Wisconsin

75. In § 52.2571, the table is revised by changing the classifications for nitrogen dioxide in the Southeastern Wisconsin Intrastate Region from "I" to "III", and in the Metropolitan Dubuque Interstate Region from "IA" to "III".

76. In § 52.2577, the attainment date table is revised by replacing the letter "a", which designates the date for attainment of the national standard for nitrogen dioxide in the Southeastern Wisconsin Intrastate Region and in the Metropolitan Dubuque Interstate Region, with the letter "c".

[FR Doc.74-10440 Filed 5-7-74;8:45 am]

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Hawaii; Approval and Disapproval of Compliance Schedules

On May 31, 1972 (37 FR 10842), July 27, 1972 (37 FR 15080), and May 14, 1973 (38 FR 12711), pursuant to section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator approved portions of the Hawaii plan for the implementation of the national ambient air quality standards. On July 27, 1973, after notice and public hearings, the Governor of Hawaii submitted to the Environmental Protection Agency (EPA) revisions to the compliance schedule portion of the approved plan.

Thirty-five state compliance orders and three state variances were submitted. On February 22, 1974 (39 FR 6726) EPA proposed that the thirty-five orders be approved as compliance schedule revisions to the Hawaii implementation plan, and that the three variances be disapproved. On February 27, 1974, the State of Hawaii Department of Health notified EPA that four of the sources subject to approvable compliance schedules (Honiron Division of Ward Foods, Inc., Pacific Concrete and Rock, Ltd., Ka'u Sugar Co., Pahala Mill and Ka'u Sugar Co., Honuapo Mill) and one source subject to an unapprovable variance (Hawaiian Fruit Packers, Ltd.) had achieved compliance prior to December 31, 1973. Three additional sources (Hawaiian Western Steel, Ltd., Construction Materials Hawaii, Inc., and Hawaiian Bitumuls and Paving Co., Ltd., Puunene Plant) are subject to compliance schedules with final compliance dates which have already passed. The approval and disapproval actions related to these sources have been deleted from this final notice of rulemaking.

The remaining twenty-eight compliance orders have been found to satisfy the requirements of 40 CFR 51.15 and to be consistent with the approved control strategy. The remaining two variances, issued to the Nanakuli Paving and Rock Co., Ltd., Molokai asphalt plant and the Kohala Corp. sugar mill, do not explicitly require compliance with particulate matter emission regulations, and allow noncompliance to extend beyond the ambient air quality standards attainment date for particulate matter. They do not, therefore, meet the requirements of 40 CFR 51.15, and must be disapproved.

Each compliance schedule revision establishes a new date by which an individual source must comply with an emission limitation specified by the implementation plan. This date is indicated in the table below, under the heading "Final Compliance Date." In each case, the schedule includes incremental steps towards compliance which are not listed in the table. Some schedules require compliance by specifying the installation of specific control devices or by the construction of new equipment and the shutdown of existing equipment. Approval of these schedules is solely on the basis that compliance is required by the specified "Final Compliance Date," regardless of the method of control specified by the schedule.

EPA has received no comments in response to the publication of the proposed approvals and disapprovals (39 FR 6726 Feb. 22, 1974). An evaluation of each schedule, as well as the schedule itself, is available for public inspection at the Hawaii Department of Health and the Region IX office of EPA at the addresses noted below. In each case, the record of the appropriate public hearing has been reviewed and considered.

Source	Location	Regulation sections involved	Date of adoption	Effective date	Final compliance date

(42 U.S.C. 1857c-5)

Dated: May 1, 1974.

JOHN QUARLES,
Acting Administrator.

Part 52 of 40 CFR Chapter I is amended as follows:

Subpart M—Hawaii

1. A new § 52.626 is added as follows:

§ 52.626 Compliance schedules.

(a) The compliance schedules for the sources identified below are approved as meeting the requirements of § 51.15 of this chapter. All regulations cited are air pollution control regulations of the State. Some schedules require compliance by specifying the installation of specific control devices or by the construction of new equipment and the shutdown of existing equipment. Approval of these schedules is solely on the basis that compliance is required by the specified "Final Compliance Date", regardless of the method of control specified by the schedule.

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 18179; FCC 74-382]

PART 73—RADIO BROADCAST SERVICES

Non-Network Programs

In the matter of amendment of Part 73 of the Commission's rules with respect to the availability of television programs produced by non-network suppliers (38 FR 34325) to commercial television stations and CATV systems.

1. On August 3, 1973, the Commission released the First Report and Order in this docket (FCC 73-806, 42 F.C.C. 2d 175) in which a rule was adopted limiting geographical exclusivity in non-network program contracts between television stations and program suppliers. The rule as adopted reads as follows:

Section 73.658 Affiliation agreements and network program practices; territorial exclusivity in non-network program arrangements.

• • • • • •

(m) *Territorial exclusivity in non-network arrangements.* No television station shall enter into any contract, arrangement or understanding, express or implied, with a non-network program producer, distributor, or supplier, or other person which prevents or hinders another television station located in a community over 25 miles away, as determined by the reference points contained in § 76.53 of this chapter, from broadcasting any program purchased by the former station from such non-network program producer, distributor, supplier, or other person. As used in this subsection, the term "community" is defined as the community specified in the instrument of authorization as the location of the station.

NOTE 1: Contracts, arrangements, or understandings that are complete under the practices of the industry prior to August 7, 1973, will not be disturbed. Extensions or renewals of such agreements are not permitted because they would in effect be new agreements without competitive bidding. However, such agreements that were based on the broadcaster's advancing "seed money" for the production of a specific program or series that specify two time periods—a tryout period and a period thereafter for general exhibition—may be extended or renewed as contemplated in the basic agreement.

2. The rule was to have been effective September 7, 1973. However, on August 31, 1973 (FCC 73-890, 38 FR 24367), the Commission stayed the effective date of the rule until November 12, 1973. The stay was issued in response to requests of the Association of Maximum Servide Telecasters and others stating that they intended to file petitions for reconsideration of the Commission's action adopting the rule as set forth above. The parties filing timely petitions for reconsideration are listed below.[1] Because of unavoidable delays in the publication of public notices of the filing of several of the petitions for reconsideration, the last date for filing opposition pleadings to the petitions for reconsideration was October 1, 1973. (Order Extending Time for Filing Responses to Petitions for Reconsideration, Mimeo No. 08017, 38 FR 27218, issued September 24, 1913.) Opposition pleadings filed on or before October 1, 1973, were submitted by the parties listed below.[2]

3. The rule, as adopted, provides that program contracts negotiated on or after August 7, 1973, for non-network program material cannot provide for geographical exclusivity in excess of 25 miles from the community of license as determined by reference points contained in § 76.53 of the Commission's rules. The requests for stay set forth two primary grounds for reconsideration: (a) the 25-mile rule would prohibit exclusivity in recognized multi-city markets, and (b) the 25-mile standard amounted to an inadvertent modification of the exclusivity provided to television stations by the Commission's action in adopting the cable television rules in 1972. The Commission issued the aforementioned November 12 stay to enable it to act on the petitions for reconsideration. A major consideration in staying the effective date of the rule was to enable parties to comment on the question of exclusivity given to television stations by the 1972 cable rules which were adopted long after the filing date (February 10, 1969) for comments in the geographical exclusivity portion of this proceeding. Because of the complexity of the issues, the Commission, in response to several requests, by Order of November 9, 1973 (FCC 73-1152, 38 FR 31680), stayed the effective date of the rule indefinitely pending action on the petitions for reconsideration. On December 6, 1973, the Commission issued a public notice (FCC 73-1278, 38 FR 34325) stating that it contemplated having the petitions for reconsideration acted on by mid-January, 1974.

4. The views expressed in the petitions for reconsideration and subsequent pleadings will be generally treated on a topical basis, except in cases where specific views should be identified.

5. NCTA supports the 25-mile standard and urges that the Commission should reduce the exclusivity that a television station may secure against cable systems to 25 miles, the standard adopted by the First Report and Order herein. The oppositions of MCA, Program Suppliers, and Metromedia were specifically directed against the NCTA petition. The main premise in these three oppositions is that the exclusivity given to television stations (35 miles) by the 1972 cable rules cannot be modified without notice to and opportunity to comment by the stations. As to the NCTA petition, AMST, RKO, Midwest, and Spartan also challenge the Commission's authority to revise exclusivity permitted by the cable proceeding without notice to the parties. The comments of the parties opposing the NCTA suggestion were lengthy and vigorous. Because of the notice requirements of the Administrative Procedure Act, 5 U.S.C. 553(b), regarding notice and opportunity to comment, we are unable to consider the NCTA proposal.

6. All other parties oppose the 25-mile standard. Most urge that the Commission revoke it and handle any abuses of excess exclusivity on a complaint basis in an ad hoc manner. Some, while advocating repeal of the 25-mile standard, also propose specific alternative standards. Those alternative proposals will be analyzed in detail.

7. AMST filed a lengthy petition for reconsideration which claims that the 25-mile rule is far too broad and pervasive because it prohibits exclusivity in over 50 recognized multi-city television markets in which exclusivity is proper. It contends that the rule does not recog-

[1] Petitions for reconsideration: Association of Maximum Service Telecasters (AMST); Belo Broadcasting Corporation (Belo); Broadcast-Plaza, Inc. (Broadcast-Plaza); Cedar Rapids Television Company (Cedar Rapids); The Corinthian Stations and The Orion Stations (Corinthian and Orion); Daily Telegraph Printing Company (Daily Telegraph); Gateway Communications, Inc. (Gateway); Kaiser Broadcasting Company (Kaiser); Kansas State Network, Inc. (Kansas); Kelly Broadcasting Company (Kelly); King Broadcasting Co., et al. (King); McGraw-Hill Broadcasting Company, Inc. (McGraw-Hill); Metromedia, Inc. (Metromedia); Midwest Television, Inc. (Midwest); Multimedia, Inc. (Multimedia); National Association of Broadcasters (NAB); National Cable Television Association; Inc. (NCTA); Newhouse Broadcasting Corporation (Newhouse); Roy H. Park Broadcasting of Roanoke, Inc. (Park); Ponce Television Corporation (Ponce); RKO General, Inc., et al. (RKO); Rust Craft Broadcasting Company (Rust Craft); The Spartan Radiocasting Company (Spartan); Storer Broadcasting Company (Storer); Telemundo, Inc. (Telemundo); WAPA-TV Broadcasting Corporation (WAPA); Wichita-Hutchinson Company, Inc. (Wichita-Hutchinson); WGAL Television, Inc. (WGAL); WGN Continental Broadcasting Company (WGN); WJAC, Incorporated (WJAC); and Wometco Skyway Broadcasting Company (Wometco).

[2] Oppositions to petitions for reconsideration: American Broadcasting Companies, Inc. (ABC); Association of Maximum Service Telecasters (AMST); Columbia Pictures Industries, Inc. et al. (Program Suppliers); Corvallis TV Cable Co. (Corvallis); MCA, Inc. (MCA); Metromedia, Inc. (Metromedia); Midwest Television, Inc. (Midwest); RKO General, Inc., et al. (RKO); Scripps-Howard Broadcasting Company (Scripps-Howard); The Spartan Broadcasting Company (Spartan); Suburban Broadcasting Corporation (Suburban); Summit Radio Corporation (Summit); and WKRG-TV, Inc. (WKRG). Reply pleadings were timely filed by RKO; AMST; and WGN. The Association of Independent Television Stations, Inc. and Paducah Newspapers, Inc., Paducah, Kentucky, filed pleadings in the nature of petitions for reconsideration past the due date for filing such pleadings; they presented no material not contained in the pleadings that were timely filed, and they will be dismissed.

V 39 I 90 MAY 8 74 XUM

nize the economic facts of the television market places, i.e., stations in actual competitive situations, and, instead, bases the exclusivity standard on the historical accident that stations were allocated to cities that are over 25 miles apart. It claims that because of the vast differences in the geographical areas of television markets, a single mileage figure based on reference points will not work. (AMST also contends that the 25-mile rule sharply restricts permissible exclusivity, insofar as cable television is concerned, in hyphenated markets.) As examples of such difference in area, AMST sets forth the Dallas-Fort Worth situation (where the separation is over 100 miles). It contends that Bismarck and Minot, because of satellite operations, are full competitors. In contrast, AMST points out, because there are two distinct recognized markets involved, there may well be a question of the propriety of any exclusivity in the case of the Hartford, Connecticut-Springfield, Massachusetts situation even though, by reference points, the cities are only 22 miles apart.

8. AMST states that the Commission's intention was to "free up" programming in situations wherein there is a small overlap of service area, but that in the First Report and Order, the rule adopted is rather to protect stations in "overshadowed" cities (cities in or near a larger television market) which serve "fringe area" audiences and which are in actual direct competition with the larger city station. AMST then sets forth eight specific situations of cities with reference points over 25 miles apart whose television stations are direct competitors. AMST concludes that there should be no rule, but rather a general policy statement should be adopted that outlines the Commission's concern with the problem of geographical exclusivity.

9. Nevertheless, AMST does set forth alternative solutions to the 25-mile rule, should the Commission not adopt its suggestion to rescind the rule and use the case-by-case method. The alternatives are: (1) a television station should at least be permitted to contract for exclusivity up to 35 miles (the specified zone of a television station defined in § 76.5 of the rules); (2) a television station should be permitted to contract for exclusivity against other stations in "designated" or "name" communities that are traditionally part of the same hyphenated market; and (3) case-by-case exceptions to the foregoing rules, but without evidentiary hearings.

10. Specific multi-city market problems are set forth in the pleadings of AMST, Belo, Broadcast-Plaza, Cedar Rapids, Corinthian and Orion, Daily Telegraph, Gateway, King, Kansas, Kelly, McGraw-Hill, Midwest, Multimedia, Newhouse, Park, Rust Craft, Spartan, Wichita-Hutchinson, WGAL, WKRG, and Wometco. All of the foregoing petitioners urge recision or revision of the rule. The petitions of Storer, Metromedia, NAB, Kaiser, RKO, WJAC, and WGN, oppose this aspect of the rule as adopted, but were topical rather than covering a specific multi-city market problem. MCA, in its opposition to the NCTA petition, also urges the Commission to reconsider the multi-city market question. Kaiser, who filed comments on the territorial exclusivity question, urges, should the 25-mile standard not be modified, that the Commission adopt a definite waiver policy to ameliorate the harshness that could occur in multi-city situations. RKO disagrees with the waiver position urged by Kaiser, because it would "work unreasonably and unequitably in all markets in which it would have an impact."

11. RKO and WGN, like AMST, urge that the Commission adopt the ad hoc approach to resolve any multi-city situations where abuses are turned up in exclusivity involving syndicated programming. Should the Commission not permit exclusivity against stations in other communities of hyphenated markets, Kaiser also asks that the Commission clarify the methods permitted to a licensee, consonant with the rule, to protect itself should the program be sold to a station in another community in the multi-city market. Ponce, Telemundo and WAPA-TV are licensees of Puerto Rican stations and contend that all communities of Puerto Rico should be considered to be one market with any TV station on the island being able to secure exclusivity against other stations on the island.

12. Suburban, the permittee of a UHF television station in Patchogue, New York, which is somewhat overshadowed by the New York City television stations, in its opposition pleading, states that it is in general support of the 25-mile rule. The opposition pleadings by Corvallis and Summit respectively the licensees of "overshadowed" stations KVDO and WAKR-TV in Salem, Oregon, and Akron, Ohio, submit alternative solutions for resolving the overshadowed situations. VHF Station KVDO at Salem is located 45 miles from Portland, Oregon. Heretofore, most non-network program contracts between the Portland stations and the suppliers provided for exclusivity against the Salem station. The solution proposed by Corvallis is to revise the rule by deleting the 25-mile standard and prohibiting the securing of exclusivity against an "overshadowed" station. Corvallis proposes a revised rule that lists "overshadowed communities" to be Akron, Ohio; Fond du Lac, Wisconsin; Manchester, New Hampshire; Modesto, California; Salem, Oregon; San Jose, California; Tulare, California; and Worcester, Massachusetts. Stations in the foregoing eight communities, either in the comments in response to the Notice or other data filed with the Commission, urged that the Commission take some action to allow them to compete for non-network programming that was denied to them because of the exclusivity provisions in contracts of television stations located some distance from them. UHF Station WAKR-TV at Akron is situated approximately 29 miles from Cleveland, Ohio. Summit submits two possible solutions that would revise the 25-mile standard, and still retain a general rule. The first alternative is to prohibit exclusivity against a station in another television market as set forth in the 1972 ARB Television Market Analysis. The second alternative is a rule that would retain a 25-mile standard, but only in the top 50 markets. These two solutions of Summit are vigorously opposed in the reply pleadings of AMST, RKO and WGN. The basis of the three oppositions is that the proposals are unrealistic and really amount to special legislation for a few "overshadowed" communities. On the other hand, ABC, in its opposition, is of the view that the 25-mile standard is probably too harsh, and submits that the alternatives proposed by Summit would assist in alleviating the "overshadowed" problem.

13. Other parties specifically commenting on the "overshadowed" market question include NAB, which states that it has no solution to the problem, but that the 35-mile standard of the specified zone adopted in the cable report, which was part of the NAB-NCTA consensus agreement, should be utilized. King and WJAC urge that the Commission adopt a case-by-case approach to resolve this "overshadowed" problem, with WJAC suggesting reference to transmitter locations of the competing stations. Storer, in general, reiterates its contention set forth in its comments in response to the notice that price is the main problem in the "overshadowed" market situation, i.e. "overshadowed" stations are simply not willing to pay the price at which a program is offered to stations serving all or a portion of the same market area. Similarly, Scripps-Howard intimates that the Akron station does not wish to pay the prevailing price for non-network programs, even though it does actively solicit advertising in competition with WEWS in the same market.

14. RKO, in its reply pleading points out that the Summit and Corvallis proposals are not feasible alternatives because they have not shown that those markets should be insulated from competition and reiterates the positions urged in its petition and opposition. AMST, also in its reply pleading, challenges a position taken by the Patchogue station that even a 35-mile standard could work to deny programming to many television stations near New York City; and, it also contends that the Summit and Corvallis proposals are not feasible as a general standard. WGN, in reply, contends the different alternatives of Suburban, Corvallis and Summit support its position that a general rule is unnecessary and unworkable.

15. Metromedia and RKO contend that the Commission is without authority to adopt rules limiting territorial exclusivity because it amounts to an unreasonable restriction on the business practices of broadcasters. RKO also contends that the rule is contrary to copyright and antitrust laws. Finally, King

contends that because of the vote on the First Report and Order (2 Commissioners voting for the document, with four Commissioners concurring in the result), the rule is procedurally defective.

16. Most of the parties contend that they never had an opportunity to comment on the modification of the exclusivity provided to television stations by the cable rules. As set forth above, the Commission, in part because of this contention, stayed the effective date of the rule.

17. As we stated in the notice of proposed rulemaking (FCC 68-511, 33 FR 7158) initiating this proceeding, the Commission had little specific information on the non-network program situation. The parties filing comments in opposition to the proposed rule supplied little factual data and their comments were very general in nature. The petitions for reconsideration are much more specific as to the multi-city market problem, and they recognize the "overshadowed" market situation as a very real one. Moreover, in these petitions, the parties had their first chance to comment on the revision of the exclusivity made available to television stations by the cable television rules. The petitions and responsive pleadings fully explore the foregoing issues and submit possible solutions to assist us in solving them.

18. We have considered all the pleadings filed concerning the First Report and Order and have concluded that the 25-mile standard should be modified. In the cable Report and Order (36 F.C.C. 2d 143 (1972)) which reflected the so-called consensus agreement, the rule permitted television stations to secure exclusivity against cable systems in other communities in hyphenated markets, as well as setting the 35-mile standard to be the specified zone of a television station. At the time that the 25-mile standard was adopted in this proceeding, we felt that the 25-mile distance would have little effect on syndicated distribution patterns, but that it might possibly open up the negotiations for programming for all stations including the so-called overshadowed stations. Moreover, there were no data on file with the Commission relating to exclusivity matters that were provided for in the cable rules as adopted in 1972. Because the date of the cable Report and Order was so much later than the closing date for filing comments in the geographical exclusivity portion of this proceeding, we, in effect, can consider the First Report and Order in this proceeding as having provided the first opportunity for the parties to comment on the possible reduction of the exclusivity for television stations provided by the cable rules in hyphenated markets.

19. We recognize that the Commission could adopt the case-by-case approach to resolve any problem situations involving abuses as to exclusivity in the syndicated programming area. However, because the process of resolution is so time consuming and because so many people will be engaged in the sales of such program fare, we believe a specific rule with limited exceptions is the most definite and prudent course of action. In addition, because the rules here adopted are intended to have a broad general applicability, it should not be assumed that any particular contract or exclusivity practice is necessarily reasonable and insulated from antitrust or other scrutiny simply because it does not violate the rules here adopted. These rules are intended only to establish some outer limits to the exclusivity practices in question. We think it likely, in fact, that even within the market lists (§ 76.51 and ARB) here relied on, that there are stations which, if purchasing exclusivity against each other, will be approaching the edge of what a full review of the circumstances might reveal to be "undue" exclusivity. U.S. v. Paramount Pictures, Inc., 66 F. Supp. 323, 70 F. Supp. 53 (S.D.N.Y., 1947), noted with approval by the Supreme Court, 334 U.S. 131 (1948). The same would, of course, hold with respect to the purchase of programming exclusivity against cable television system use. As noted in the Cable Television Report and Order, supra, footnote 54, "In some markets the designated communities are located so far apart that a sale in one does not and should not preclude a sale in the other." Although we had hoped in this proceeding to be in a position to further clarify which situations are involved, it appears that the variables are sufficiently numerous, including the geography, demography, terrain of the area as well as the characteristics of the particular stations involved, that we are now taking that step. That is, however, a matter which clearly warrants our continuing concern.

20. Even though there is still little, if any accumulated information on the operation of the cable rules, other than that contained in the comments, it may well have been premature to lower territorial exclusivity to the 25-mile standard as well as not to provide for exclusivity in the hyphenated market situations. Therefore, we shall modify the territorial exclusivity rule adopted in the First Report and Order of the present docket. We shall (a) raise the mileage standard in § 73.658(m) of the Commission's rules to 35 miles as determined by the reference points contained in § 76.53[3] of the rules, except that for a two-year period, beginning with the effective date of this modification, television stations licensed to Cleveland, Ohio, may not secure exclusivity against a television station licensed to Akron, Ohio, and television stations licensed to Stockton, California, may not secure exclusivity against a television station licensed to Modesto, California, and (b) permit television stations in hyphenated markets to secure exclusivity against other television stations in the same hyphenated markets as contained in the listing of major television markets contained in § 76.51 of the Commission's rules (for the top 100 markets), and for markets below the top 100, the listing of markets contained in the ARB Television Market Analysis for the latest year at the time the contract, arrangement or understanding is complete under practices of the industry. In addition, Puerto Rico will be considered to be a single television market so that any TV station on the island may secure exclusivity against any other station there.

21. The reference points between Cleveland and Akron are approximately 29 miles apart, and the Modesto-Stockton reference points are approximately 27 miles apart. In their respective comments in this proceeding, they have submitted data concerning the impossibility of negotiating with the program suppliers, and they have also submitted data that some negotiations had tentatively resulted in the future delivery of programs, but that the contracts were later cancelled by the suppliers prior to actual delivery of the programs. As many parties have recognized in their petitions for reconsideration, there is a genuine concern by the Commission to "free up" program availability for "overshadowed" stations. A general rule would be preferable, if feasible. However, because of the exclusivity provided to television stations by the cable rules, a revised 35-mile general rule, with a limited exception, is here being adopted. The licensee of Akron UHF station WAKR-TV has always claimed that it operates its station for Akron and does not attempt to operate as another Cleveland television station, even though it has the technical facilities to provide service to Cleveland. The Modesto UHF station's programming appears to include substantial Spanish-language programming. Because of these unique situations in Akron and Modesto and their claimed frustrations at not being able to negotiate with program suppliers because of territorial exclusivity held by Cleveland and Stockton stations, respectively, we shall, for a two-year period, not permit the Cleveland, Ohio television stations to secure territorial exclusivity against WAKR-TV, Akron, Ohio, or permit the Stockton, California television station to secure exclusivity against KLOC-TV, Modesto, California.[4]

22. With this two-year exception, WAKR-TV and KLOC-TV will have the opportunity to negotiate for syndicated program fare. Each year on September 1, these two stations will be required to submit factual data concerning their negotiations and the results of such negotiations. Hopefully, with the data obtained we can take any needed appropriate action with respect to these two specific "overshadowed" situations and the general "overshadowed" market problem.

23. It is reiterated that the Commission still has little knowledge or data concerning program distribution patterns as

[3] As provided in § 76.53, if a community does not have a listed reference point, the coordinates of the location of the main post office will be used.

[4] The difficulties encountered by KLOC-TV in their program negotiations were contained in the comments filed September 26, 1968, prior to commencing Spanish language programming.

V 39 I 90
MAY 8 74
XUM

regard non-network syndicated programming. Still, at this time, we do not envision a requirement that such contracts should be filed with the Commission. To gain additional experience under the cable rules as they relate to syndicated program exclusivity, with the exception of the Akron and Modesto situations outlined above, we are adopting the modifications noted above. The special problems of Puerto Rico are discussed hereafter, whereby we are also creating a limited exception for that island.

24. Puerto Rico is contended to be unique, because of the fact that the language in general use is Spanish and for other reasons. It is contended by the Puerto Rican parties filing comments herein (WAPA, Ponce and Telemundo) that Puerto Rico, irrespective of distances, should be considered a single market. This is urged because the programming of the San Juan stations and the Ponce station are broadcast throughout the entire island by rebroadcast agreements, satellites, and translators. It is contended by all three parties that anything less than island-wide exclusivity would disrupt past patterns as well as inhibit the development of four diversified program "networks" (the "flagship" stations being the two San Juan stations, the San Juan-Caguas station, and the Ponce station). Because of the uniqueness of the television broadcast program situation in Puerto Rico, and because of the unanimity of the comments filed by competing stations, the island of Puerto Rico will be considered to be one market for the purposes of territorial exclusivity. (This action, however, is without prejudice to any decision to be made in Docket No. 19974, the proceeding concerning television assignments in the San Juan and Ponce, Puerto Rico area.)

25. The position of King concerning the alleged procedural defect resulting from the fact that only two Commissioners voted for the Report and Order, with a concurrence by 4 Commissioners, is not well taken. King cites no specific authority other than that the APA requires that "the agency shall incorporate in the rules adopted a concise general statement of their basis and purpose." 5 U.S.C. § 553(c), and § 1.425 of the Commission's rules require that the "Commission will * * * issue a decision incorporating its findings and a brief statement of the reasons therefor."

26. The First Report and Order did set forth a concise general statement of the basis and purpose for adoption of the 25-mile standard, i.e., to possibly open up negotiations for non-network programming for "overshadowed" television stations, especially the UHF stations. Two Commissioners voted for the Report and Order, which is the decision of the Commission. Four Commissioners concurred in the result which means that they voted for the rule, as adopted. However, for reasons of their own, they did not issue any concurring statements. The Commission's decision, we believe, met the requirements of section 553(c) of the Administrative Procedure Act and § 1.425 of Commission's rules.

27. Metromedia contends that the Commission is without authority to adopt a mileage exclusivity standard in non-network programs on the theory that, historically, under the Sanders case, the Commission does not have authority to regulate the business of the licensee, i.e., supervisory control of programs and business management or policy. RKO claims that the Commission has not reconciled the purpose of the mileage rule with the policies of the copyright and antitrust laws. In the First Report and Order, the Commission set forth its basis for the adoption of the rule. The rule was the Commission's opinion of a reasonable one that would enable certain television stations to bid for programming. The development of broadcast stations is in the public interest and all that the Commission is attempting to do is assist in this development. Upon the showing made in the petitions for reconsideration, for the reasons set forth above, the Commission believes that the rule should be less restrictive and is so modifying it. Since the rule is less restrictive than that originally adopted, it will apply to all contracts finalized on or after August 7, 1973 (the date of publication of the First Report and Order in the FEDERAL REGISTER), a requirement that is consistent with the orders of stay previously entered in this proceeding.

28. In view of the foregoing, *it is ordered*, That the petitions for reconsideration are granted to the extent indicated above and are denied in all other respects; and *it is further ordered* That pursuant to the authority contained in Sections 4(i), 303(g) and 307(b) of the Communications Act of 1934, as amended, and because the prior notice and effective date provisions of the Administrative Procedure Act (5 U.S.C. 553) are unnecessary, § 73.658(m) of the Commission's rules is modified, effective May 10, 1974, as set forth in the Appendix below.

29. *It is further ordered*, That the pleadings filed by Association of Independent Television Stations, Inc. and Paduch Newspapers, Inc. are dismissed.

(Secs. 4, 303, 307, 48 Stat., as amended, 1066, 1082, 1083 (47 U.S.C. 154, 303, 307))

Adopted: April 25, 1974.

Released: May 2, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

Part 73 of the Commission's Rules is amended as follows:

1. Section 73.658(m) is amended to read as follows:

§ 73.658 Affiliation agreements and network program practices; territorial exclusivity in non-network program arrangements.

* * * * *

(m) *Territorial exclusivity in non-network arrangements.* No television station shall enter into any contract, arrangement or understanding, express or implied, with a non-network program producer, distributor, or supplier, or other person which prevents or hinders another television station located in a community over 35 miles away, as determined by the reference points contained in § 76.53 of this chapter (if reference points for a community are not listed in § 76.53, the location of the main post office will be used) from broadcasting any program purchased by the former station from such non-network program producer, distributor, supplier, or other person, except that a television station may secure exclusivity against a television station licensed to another designated community in a hyphenated market specified in the market listing as contained in § 76.51 of this chapter for those 100 markets listed, and for markets not listed in § 76.51 of this chapter, the listing as contained in the ARB Television Market Analysis for the most recent year at the time that the exclusivity contract, arrangement or understanding is complete under practices of the industry. As used in this subsection, the term "community" is defined as the community specified in the instrument of authorization as the location of the station.

NOTE 1: Contracts, arrangements, or understanding that are complete under the practices of the industry prior to Augusta 7, 1973, will not be disturbed. Extensions or renewals of such agreements are not permitted because they would in effect be new agreements without competitive bidding. However, such agreements that were based on the broadcaster's advancing "seed money" for the production of a specific program or series that specify two time periods—a tryout period and period thereafter for general exhibiton—may be extended or renewed as contemplated in the basic agreement.

NOTE 2: For a two-year period beginning May 10, 1974, television stations licensed to Cleveland, Ohio, and Stockton, California, may not enter into any contract, arrangement or understanding, express or implied, with a non-network program producer, distributor, or supplier, or other person which prevents Station WAKR–TV, Akron, Ohio, and Station KLOC–TV, Modesto, California, respectively, from broadcasting programs purchased by those Cleveland, Ohio, and Stockton, California stations.

NOTE 3: It is intended that the top 100 major television markets listed in § 76.51 of this chapter shall be used for the purposes of this rule and that the listing of the top 100 television markets appearing in the ARB Television Market Analysis shall not be used. The reference in this rule to the listing of markets in the ARB Television Market Analysis refers to hyphenated markets below the top-100 markets contained in the ARB Television Market Analysis. If a community is listed in a hyphenated market in § 76.51 and is also listed in one of the markets in the ARB listing, the listing in § 76.51 shall govern.

NOTE 4: The provisions of this paragraph apply only to U.S. commercial television broadcast stations in the 50 states, and not to stations in Puerto Rico or the Virgin Islands, foreign stations or noncommercial educational television or "public" television stations (either by way of restrictions on their exclusivity or on exclusivity against them).

NOTE 5: New stations authorized in any community of a hyphenated market listed in § 76.51 of this chapter or in any community of a hyphenated market listed in the ARB Television Market Analysis (for markets below the top-100 markets) are subject to the same rules as previously existing stations therein. New stations authorized in other communities are considered stations in separate markets unless and until § 76.51 is amended by Commission action, or the ARB listing is changed.

[FR Doc.74–10599 Filed 5–7–74;8:45 am]

[Docket No. 19622; FCC 74–458]

PART 73—RADIO BROADCAST SERVICES

Prime Time; Termination of Proceeding

In the matter of consideration of the operation of, and possible changes in, the prime time access rule (39 FR 12748) (§ 73.658(k) of the Commission's rules).

1. The Commission has before it the three timely-filed petitions seeking reconsideration of the Report and Order in the above-captioned proceeding, released February 6, 1974,[1] which amended § 73.658(k) of the Commission's rules, the prime time access rule. In its previous form (in effect until September 1974) this rule limited the amount of network and off-network programming during prime time to three hours each evening, with certain specific exceptions for fast-breaking or on-the-spot news coverage and for political broadcasts by legally qualified candidates for public office. "Prime time" is defined as the 4-hour period between 7–11 p.m. e.t. and P.t., 6–10 p.m. c.t. and m.t.[2] The Commission amended the prime time access rule in the February 1974 action in essentially the following ways:

(a) There are no more restrictions on the programs which stations subject to the rule (network outlets in the top 50 markets) may carry during what has been the first half-hour of prime time (7–7:30 p.m. e.t. and P.t., 6–6:30 p.m. c.t. and m.t.).

(b) There is no restriction on the use of prime time on Sundays. It appears that CBS and NBC, at least, will use the full four hours of prime time on Sundays for network programs.

(c) The only remaining restrictions are tied to a definite time period Monday–Saturday, the period from 7:30 to 8 p.m. e.t. and P.t. (6:30–7 p.m. c.t. and m.t.). These six half-hours may not be used for network or off-network material, or feature film, except that one of them each week may be used for network or off-network programs of certain types—children's "special" programs, documentaries, or public affairs programs. CBS has announced plans for a series of children's "specials" Saturdays from 7:30 to 8 p.m. e.t., and NBC has plans to use the whole hour on most Saturdays, 7–8 p.m. e.t., for a news documentary program series. The ban on feature film from these periods is the subject of two of the three petitions for reconsideration.

(d) Certain other provisions were adopted concerning sports "runovers", time-zone difference problems, etc., which probably overall amount to some liberalization of the rule, although not very much in relation to the practice which developed under it with respect to waivers in such cases. These are discussed below in connection with the petition of Sandy Frank Program Sales, Inc.[3]

2. Petitions for reconsideration of this decision were timely filed on behalf of three parties—film producers and distributors MCA, Inc. (MCA) and United Artists Corporation (UA) which also filed a petition for stay, and Sandy Frank Program Sales, Inc. (Frank) a syndicator of first-run access-period programming. Frank also filed a petition to accept a petition of more than 25 pages (see § 1.106 (f) of the rules); this is granted and the petition is accepted.[4] In substance, UA and MCA seek reversal of the decision to bar feature films completely from the 7:30–8 p.m. access periods (MCA proposes that the ban should be at least lifted for one night a week). Frank strongly supports the rule in its previous form (plus the ban on feature film) and opposes the relaxations adopted; it also urges tightening up the application of the rule by denial of most waiver requests, and the adoption of an "anti-stripping" rule which would bar "multiple showings" of the same series material during the access periods of a given week.

3. In the interest of brevity, we do not repeat here the entire background and history of the rule, nor the reasons for the modifications recently adopted except as they directly pertain to the contentions of the petitioners and the opposing parties mentioned below.[5] In the following paragraphs there are set forth in summary the arguments of the petitioners, first UA and MCA and then Frank.

THE MCA AND UNITED ARTISTS PETITIONS CONCERNING FEATURE FILMS

4. These two parties, film producers and distributors, vigorously oppose the change in the rule which would bar completely "feature film" from the Monday–Saturday 7:30–8 PM (e.t.) half hours. Their arguments, which are much the same and are discussed together herein, are generally that this is an unwarranted restriction, which really in effect amounts to a "blackout" of non-network feature film entirely in prime time, as to stations subject to the rule, causing great harm to the independent motion picture production and distribution industry and the public, and meaning that the networks (not subject to such restrictions) will tend to be the only sources of prime time movies, so that their power and dominance will be increased rather than lessened. These parties also claim that the restriction is over-broad and violates important First Amendment and anti-censorship prohibitions.

5. *The asserted effect of the restriction.* It is claimed that, whereas the Commission regarded the recent changes as a relaxation of the rule, in this respect the change is an increased and unwarranted restriction, affecting not only the particular half-hour specified but also the whole of prime time and late afternoon "fringe" time. In our recent decision (par. 86) it was stated that while licensees would lose some flexibility as a result, with respect to the 7:30–8 PM period, they were gaining it as to the 7–7:30 half hour, and thus could still present movies in the early evening. These parties assert that this is meaningless; affiliated stations in substantial numbers simply cannot be expected to run movies during hours such as 5:30 or 6 to 7:30, at the expense of early local and network news, nor, probably, would the Commission be happy if they did. Weekend evenings do not present this exact problem to the same degree, but MCA asserts that these hours on weekends are and will be taken to an increasing extent by network programming—on Sundays regularly beginning at 7 PM e.t., on Saturdays beginning at the same time for NBC affiliates at least, and, for all networks, increasing time for sports and other "specials" in the late afternoon. As to the later portion of prime time, 8 PM e.t. and after, it is asserted that preemption of network programs to present local movies will not be significant, since, with all of the movie having to fall during network hours, this will mean 90 minutes or two hours out of three hours of network material on a given evening, more than most stations will consider preempting. MCA asserts that there has been a sharp drop in prime-time preemptions by top-50-market affiliated stations for local movies from 117 per month in March 1969 (7:30–11 p.m.) to 33 in November 1973

[1] FCC 74–80, 44 FCC 2d 1081, 29 RR 2d 643, 39 FR 5585.

[2] The original rule was promulgated in May 1970 (23 FCC 2d 382), amended upon reconsideration in August 1970 (25 FCC 2d 318) and is in its currently effective form in § 73.658(k) of the Commission's rules.

[3] Although not embodied in the new rule, the decision (FCC 74–80, par. 88) set forth also the Commission's expectation that stations will devote an appropriate portion of the "cleared" time periods, or at least of total prime time, to material of particularly local significance—programs designed for children, material relating particularly to minority needs and problems, and other material particularly designed to meet the needs and problems of the station's community and service area as determined in its ascertainment efforts.

[4] Two other petitions for reconsideration were filed. One, by Screen Gems Division of Columbia Pictures Industries, Inc., has been withdrawn; the other, by Motion Picture Association of America, Inc., arrived at the Commission on March 20, two days after the closing date for petitions, and thus is late. Since the period for seeking reconsideration of a Commission action is statutory, it cannot be waived. However, this petition was later re-tendered as a statement in support of the MCA and UA petitions (its position is basically the same as theirs) and is considered and discussed below as such.

[5] For the history and background of the rule, see the Report and Order herein, FCC 74–80, para. 4–25 (29 R.R. 645–656); see para. 79–112, 44 FCC 2d 1132–1145, 29 R.R. 2d 695–709, as to the reasons for the changes made in the rule.

V 39 I 90 MAY 8 74 XUM

(8–11 p.m.), but see footnote 13, below. This is attributed not only to scheduling problems, but to the fact that much of the local and other non-network advertising support for prime-time programs has been absorbed under the rule by "access programming." UA asserts that late evening time on these stations is largely unavailable for movies because of the local news and late-evening network programs, so that the only time left on affiliated stations for syndicated motion pictures is often morning and early afternoon, when only small audiences are available.

6. Therefore, it is claimed, there will be virtually a "blackout" on use by individual affiliated stations of feature films during prime or "fringe" time, to the serious detriment of the public and the motion picture production and distribution industry. It is urged that the market for feature films sold in syndication will be substantially curtailed, since stations will not be seeking material for such use, and what demand by stations remains will be only at considerably lower prices, reflecting the smaller audiences available at the remaining times and thus the lesser advertising support which will be forthcoming. These parties state that the prime-time rule has already led to a decline in syndicated sales of feature film of about 12 percent between 1972 and 1973 (from $49.5 to 43.6 million)[6] and this trend will simply be increased by the new restriction. UA points out that syndication sales of feature film, though currently less than the sales of theatrical features to networks ($57 million in 1973), are very important to the motion picture production industry, being relied upon to recoup production costs; and the sharp reduction in such income will have a depressing effect on both the number and the quality of motion pictures produced. The bargaining position of motion picture producers will be impaired. Thus these companies—already suffering from the impact of a number of developments such as the general decline in theatrical receipts with the growth of television, and administrative restrictions such as the "anti-siphoning" restrictions on film use on pay cable and subscription television, as well as the prime time access rule—will be hurt even further under the new ban. MCA asserts that two of the companies, Columbia Pictures and MGM, already have substantial problems.

7. It is claimed that the public will also lose substantially, both from the unavailability of movies in prime time other than on a network basis—which means that 60 percent or more of the potential audience will not have seen a desirable movie even after two network runs—and from the lower quality and freshness of material available at other times, because of the general depression of the market and lower price levels referred to above. It is claimed that there will no longer be the healthy program production industry we have found in the past to be necessary for the continued functioning of both broadcast and cable television (see Cable Television Report and Order, 36 FCC 2d 141, 169–170 (1972)).

8. Another argument is that the weakening of the syndication market for feature films will simply increase network dominance, as the only prime-time market left for movies, as to which they will be unrestricted. It is urged that this is hardly consistent with the purpose of the prime-time rule. MCA argues that the networks will simply take more of the available product and keep it for a longer time, rather than being limited to a period such as two runs which is the basis on which MCA now seeks to sell to its Network customers.

9. *The legality and propriety of the total restriction.* Both of these parties, particularly UA, urge that this total ban on use of features during the access period is unconstitutional as an over-broad restriction violative of the First Amendment, is illegal censorship, and interference with licensee judgment in programming, and improperly discriminates against feature films and their producers and distributors, in favor of other material and suppliers such as game shows and their producers, who are not subject to restrictions under the rule. UA claims that both sets of producers and sellers are equally "independent" and should be similarly treated; any Commission action to the contrary, based on its idea of what is "good for the public", is illegal and beyond its power.

10. The argument essentially is that the total ban on feature film during access periods is a restraint on First Amendment rights—freedom of speech and expression, on the right of stations to present, and viewers to have available, certain kinds of programs at certain times—and thus sustainable only when justified by a compelling need rather than mere "public benefit", and only if it is sufficiently narrow to be fully justified by that need.[7] It is claimed that the restriction fails completely to meet these standards; from the standpoint of providing more diversity of programming and curbing network control and monopoly, the new rule not only does not meet a compelling need or even provide a public benefit, but is counter-productive, lessening diversity and increasing network dominance. It is contended that this is clearly censorship, whatever the Commission may say about it—telling stations what they may and may not show, and viewers what they may or may not watch, particularly objectionable in that feature films are very popular with viewers. UA claims that the small amount of time involved, a half-hour, is no answer to this argument, because the effect goes far beyond that, in practice embracing all of prime time and late afternoon time as well. Moreover, it is urged, the idea of permitting some material during hours of small audience but banning it from high viewing periods is itself a violation of freedom of speech, like an ordinance limiting political speeches in the town square to hours when no one is likely to be on the street. Such an approach is also objectionable in that it limits the production of material by barring it from profitable hours.

11. These parties agree that the restrictions on feature films adopted in the original rule, and later modified and clarified in some respects, are artificial and not to be desired; but UA asserts that this is no reason to adopt an approach removing them but substituting "total injustice". It is claimed that rather, the earlier restrictions should be removed and the whole subject left to the free operation of the market place.

12. UA claims that the feature film ban should be repealed entirely; MCA suggests the approach of permitting them during one of the cleared access half-hours each week. This, it is said, would give licensees more flexibility and freedom to exercise their programming responsibilities, would make desirable material (locally originated movies) available to the viewing public, who may not have been able to see them otherwise (if they were not on a network or viewers missed the network showings), provide a vital source of revenue for the motion picture production industry, and encourage preemption of network programs (e.g. the hour from 8 to 9 p.m. if the movies start at 7:30).

The Sandy Frank Petition for Reconsideration

13. Sandy Frank is a syndicator of access-period programs, doing business under various corporate names, who has benefitted considerably from the prime time rule in the form it has had until our recent amendments, and who vigorously opposes the changes made. His lengthy petition for reconsideration, accompanied by a lengthy personal statement, asserts that the changes curtailing the amount of cleared access-period time will have a catastrophic impact on him and other independent producers who answered the Commission's call to produce first-run non-network programming, by sharply reducing the number of time slots which will be available for their material. It is also urged that the Commission should tighten up in administration of the rule, granting no waivers except in established situations such as sports runovers (and particularly no waivers for "off-network" material) and also that we adopt what is in effect an "anti-stripping" rule, barring exposure of material from the same program series more than once a week during the access period.[8] Frank states that he did not participate earlier in this proceeding because of limited resources and fear of reprisal from opposing major interests (though his position was informally presented to the Commission); but now, with the survival of his and other independent production and syndication entities seriously jeopardized by the rule changes made, he is coming forward (it is stated that only the really large units in the business are at all likely to survive).

14. The petition first outlines what are called "first principles", or the original purposes of the prime time access rule, which are said to be: to decrease network domination of television broadcasting; to provide opportunity for the development of new, diverse and independent program sources; and to re-establish conditions under which licensees can, to a substantial extent, exercise their responsibilities as trustees, meeting the needs and interests of their communities and service areas, as contemplated by the Communications Act.[9] By the rule, licensees are freed from the very real compulsion of having to clear network programs every night from 7:30 to 8, and from the economic temptation to present inexpensive off-network material from 7 to 7:30, and can use their own judgment as to what the public interest requires in their areas. It is asserted that the rule was adopted after years of study, to reverse a trend toward increased network dominance in such developments as increased use of prime time (3 to 3½ hours) and expansion into many non-prime hours, and increased control over their own schedules starting in the late 1950's as advertiser-licensed programs sharply decreased in number.[10] Certainly, nothing has changed since 1970 to make these considerations less important; and the original rule and its concept of 42 cleared half-hours should have been left as it was (except for stripping and waivers, assertedly the rule has worked, and there is no warrant for reversing it by reducing "cleared" time by 64 percent or more).

15. Mr. Frank states that the Commission concedes in the Report and Order (pars. 82, 85, 89) that the rule as it was did not have a full or sufficient test, but nonetheless has acted drastically to reduce the number of "cleared" access periods, without any justification except, apparently, a view that this might mean "better" programming, a judgment which is both premature and basically improper anyhow (since the Commission cannot properly get into this area and specifically, and wisely, eschewed it in adopting the rule in 1970). He argues that the 42 half-hours adopted in 1970 themselves represented a reduction from the "50–50" rule originally proposed in 1965, and certainly should not be cut further, since the remaining half-hours (no more than 15) are simply not enough to support a viable, broadly based syndication industry, which needs a large number of placement opportunities if it is to function properly. Therefore the Commission should return to the rule, and not act to jeopardize the continued existence of entities it encouraged to come into the business. The small amount of time is particularly bad because the Commission apparently relies on it also to fulfill other objectives such as children's programs and material of particular local significance—all will be short-changed.

16. It is urged that the three main areas of reduction are all unjustified, based on erroneous conclusions. As to removal of all restrictions on the present half-hour (7–7:30), Frank contends that the Commission is taking a negative and self-defeating view in refusing to get into a contest between off-network material and stripped game shows; the appropriate remedy is to ban stripping or "multiple exposure" as discussed below. It is asserted that better programming will be forthcoming as producers and syndicators get money (profits from current successes) to start producing it, and that the same objectives—limiting network control directly and through use of "off-network" product—apply in this respect as much as ever. Mr. Frank claims that permitting off-network product during this period will also work to the disadvantage of local and network newscasts, which the Commission apparently favors, by beating them in the ratings. The added time permitted for network programming—both on Sundays and the hours for children's or news-documentary-public-affairs material—is said to be completely unwarranted, in the absence of a full test and the continued existence of the "network dominance" problem. It is said that if producers and syndicators can continue to have the previous amount of time available, they will be able, from their profits, to present better material (Frank mentions plans for sports programs and children's specials). This potential will be lost with the rule changes made. To the extent that "good" programming is advanced as the justification for increased network hours other than Sundays, such as the NBC and CBS proposed Saturday scheduling, the networks still have 126 half-hours a week of their own prime time, some of which can and should be expected to be used for such purposes. Mr. Frank states that he has plans for programming of these types, if permitted to continue under the 1970 rule. The possibility of "plowing back" profits from successful access-period programs, into more ambitious undertakings, is emphasized.

17. Mr. Frank supports the total ban on feature film during the access period as adopted, as an appropriate effort to clear these hours for new material; and, to increase still further the possibility of access by as many different programs and sources as possible, he would adopt an "anti-multiple exposure" rule, providing that except for local news and public affairs, stations may not present "multiple exposures of the same program series in access time during the same week." This would bar "stripping" of game shows such as To Tell the Truth and Truth or Consequences, and also the twice-weekly presentation of other game shows such as Hollywood Squares and Let's Make a Deal. The argument is that this will increase program diversity and also provide access for many more individual program series. For example, during the 6:30–7 PM (c.t.) period in Memphis, all three stations strip game shows Monday–Friday, meaning three programs, whereas ideally there should be 15. Even in a more typical market such as Detroit, there are now only 10 individual programs during this half-hour (one stripped, Hollywood Squares twice, and 8 once), which will be only 9 this coming year and Let's Make a Deal is also presented twice. Thus, many more producers will be able to share in purchases by stations; it is said that each half-hour weekly program series is worth about $75,000 for 52 weeks in this market, or $1,125,000 for 15 programs which should be presented. Mr. Frank also asserts another possible consequence of our rule changes: if stations may freely strip off-network material during the 7–7:30 period, they may well do so and move their present stripped game shows to 7:30, reducing the number of separate programs still further. It is claimed that his change will prevent licensees from "taking the easy way out", and will result in greater program choice and more opportunity for independent program suppliers, who can raise their prices as individual programs become more popular and stations can pay more; competition will then force the individual program producers to spend more on

---

[6] These figures represent syndicated sales of theatrical features and short subjects to all stations. MCA estimates that 95 percent of this represents sales of features, and 70 percent of it is sales to top-50-market stations (apparently including independents as well as affiliates).

[7] The following authorities are cited by MCA, UA, or both: Mount Mansfield Television, Inc. v. FCC, 442 F. 2d 470 (C.A. 1971) in which the prime time rule was affirmed against this line of attack as well as others; UA contends this was probably wrong and certainly so in light of experience under the rule, and in event the restrictions involved there did not go this far; National Broadcasting Co., Inc. v. U.S. 319 U.S. 190 (1943), affirming the Commission's network regulations but emphasizing the concept of licensee and viewer freedom, rather than restrictions; Associated Press v. U.S., 326 U.S. 1 (1945); Red Lion Broadcasting Co., Inc. v. FCC, 395 U.S. 367; U.S. v. Midwest Video Corp., 406 U.S. 649 (1972), noting Chief Justice Burger's concurring statement that the Commission's rules requiring cable program origination strains the outer limit of the Commission's powers; Joseph Burstyn, Inc. v. Wilson, 343 U.S. 495 (1952), holding that motion pictures fall within the protection of the First Amendment; Banzhaf v. FCC, 405 F. 2d 1082 (C.A.D.C. 1968); Brandywine Main Line Radio, Inc. v. FCC, 473 F. 2d 16 (C.A.D.C. 1972) (dissenting opinion of Bazelon, C.J.); and the dissenting opinion of Mr. Justice Black in Scales v. U.S., 367 U.S. 203 (1961), to the effect that where First Amendment restraints are involved, mere "public benefit" is not sufficient justification.

[8] Except for the last "anti-stripping" point, much of the Frank petition is similar to the earlier arguments of parties such as NAITPD.

[9] Frank recognizes that the networking system has produced some good results, but claims that U.S. broadcasting is intended to be a system of individual licensees meeting local needs and interests, not a centralized, monolithic system producing tightly controlled national programming through the network "funnel", with the conformity and standardization which that is likely to entail.

[10] For a discussion of the background of this matter, see Report and Order, pars. 4–25.

V 39 I 90 MAY 8 74 XUM

their material, and better programming will result.

18. Mr. Frank also urges that "administrative problems" do not justify the changes made; rather, the Commission should dispose of them by tightening up the administration of the rule. It is asserted that only in a few situations are waivers warranted (sports runovers and possibly a few other); certainly never in the "off-network" situations. In these cases, it is claimed, the suppliers of programs such as National Geographic have already had the benefit of one network run, and the access period should be preserved for the benefit of those who answered the Commision's call. If a licensee believes such a program deserves further prime-time exposure, he may, and should be required to, preempt network programs for it. The same is true of children's "special" programs, network or off-network; a 7:30 starting time may be desirable, but it is not sufficient justification for shattering the rule. Other wise, Mr. Frank does not object to waivers or a rule to accomodate occasional sports runovers (provided the events are reasonably scheduled so as to end by 7 PM e.t. as the changed rule provides), the "political broadcast" or "on-the-spot" news coverage exemptions which have been slightly broadened in the changed rule, or the provisions for pregame shows and "Summer Olympic" situations contained in the new rule (each network is allowed five pre-game shows per year, and an exemption is shows per year, and a n exemption is granted for them to use the 7:30 period on nights when they devote all of their three hours of prime time to an international sports event or other "special" programming except movies). However, there is objection to the provision of the changed rule (§ 73.658(k)(2)(ii)) which deals with time-zone-difference situations where simultaneous network programming is involved and where the rule would simply be waived as to Mountain and Pacific time zone stations in these situations. Mr. Frank maintains that such stations should be required to clear access time after the sports event if it preempts access periods in the early evening.

19. Mr. Frank's personal statement, attached to his petition, contains allegations about the syndication business and the impact of the changes. It is stated that NBC's station in Chicago would have taken Treasure Hunt for this coming year but did not do so when the rule was revised, and ABC's Detroit station bought Name That Tune instead of renewing Treasure Hunt, whereas it would have taken both under the present rule; these two developments mean a loss of nearly $200,000 for a year, and overall the loss is at least $500,000. (Frank's revenues were $1.3 million in 1973–74 and will be the same this year if the rule is changed, but would be $1.6 million with the old rule in effect, meaning a break-even instead of a $300,000 profit, and no money for development of new programs compared to $100,000 if the rule remains the same). It is claimed that under the new rule there will be, at most, 15 access half-hours per market per week (7:30–8 Monday-Friday), with some 14 programs fighting for these (11 established programs including Treasure Hunt, plus 3 others such as New Candid Camera, Name That Tune, and Salty, a children's show). Since two of these are game shows shown twice a week, right there there is more demand than there are half-hours, and this does not include numerous other popular programs (Concentration, Sale of the Century, Dealer's Choice, etc.) or the amount of the access time which is expected to be used for station's local efforts. In short, the situation will be a disaster and particularly bad for Frank's Name That Tune show, which uses 10 live musicians and is relatively expensive to produce, and whose revenue may be cut from $2.5 million to $1.5 million. Mr. Frank states that he needs to market two successful shows to stay profitable. It is said that the shortage of time for these programs will certainly mean the end of production and development of other kinds of programs only marginally profitable, such as children's programs, sports, documentaries, off-beat entertainment, and "High School Quiz Bowl" programs. It is urged that at least the new rule should be stayed for a year, to give such entitles a chance to adjust and avoid irreparable injury.

MATERIAL IN RESPONSE TO PETITIONS

20. Seven pleadings responsive to the above petitions for reconsideration were filed, including six oppositions and one statement (by the Motion Picture Association of America, Inc. (MPAA)) supporting the film producers' petitions. Of the six, three (ABC, Time-Life Films, and the Association of Independent TV Stations, Inc. (INTV)) oppose the film producers' petition; four oppose the Sandy Frank petition entirely or in part (ABC, CBS, NBC, and MCA-Screen Gems in a joint opposition).

21. *Oppositions to the MCA and UA petitions.* The main lines of argument urged against the MCA and UA petitions are: (1) the restriction is not censorship, as claimed, since the rule does not bar feature films from television or attempt to control their content but only relates to one small part of the day and not even that as to independent stations which operate in some 36 of the top 50 markets; and, in any event, this was settled by the 1971 Mount Mansfield decision sustaining the earlier rule including a not greatly different restriction, and any argument along this line would of course apply to much more than feature film; (2) to change the rule in this respect now would be the upset the delicate balance reached over-all, depriving independent producers of access time to which they are clearly entitled and requiring another look at the whole question (Time-Life claims that we would have to increase the number of access half-hours accordingly); (3) the "majors" are not really hurt by this change, which is not a significant departure from the previous rule, but actually have benefitted from the recent course of television programming and regulatory developments, including our actions[11]; and (4) the total restriction on network-affiliated stations will work to the benefit of independents in the same markets (and UHF stations), in making desirable feature film more readily available to them and restricting its use by their powerful affiliate competitors.

22. *Oppositions to the Sandy Frank petition.* ABC's opposition to the Frank petition is simply that of "administrative finality", the desirability of getting the prime-time-access question settled. It urges that the recent decision represents a reasonable balance and compromise, and should be affirmed. NBC's opposition (which does not include the "anti-stripping" proposal) is for similar reasons—reliance on the rules adopted by parties planning for this coming season, including NBC's rescheduling of its Sunday evening programming, with longer movies, and ABC points out that the ban is now total as to 6 half-hours a week, but before covered 7 hours as to much feature film. It asserts that the majors have benefitted greatly from the "syndication and financial interest" rules adopted in 1970, and from increased use of movies by the networks (it is stated that 69 percent of ABC's 1972 expenditures for prime-time programming went to major film companies). It is stated that they also benefit from the recent rule revisions in having somewhat more network time for their pictures and the relaxation of the "off-network" restrictions as to 7–7:30, permitting them to sell more readily their extensive holdings. ABC makes the same argument advanced last year to the effect that the majors are not really doing badly and some, such as MCA, extremely well. Time-Life argues that UA's request is groundless; and that one day simply is not important enough to make much difference, certainly not with respect to the matter of "network dominance." If the majors are slightly disadvantaged vis-a-vis the networks, this is of little consequence compared to the benefit to independent producers.

23. The MCA-Screen Gems petition is similar to MCA's lengthy comments in the proceeding: that the Commission must (as it has done) look at the results of the rule in terms of the general programming flowing from it, including such matters as a great concentration of time on game shows (particularly stripped programs), and increased use of foreign product. These results well justify the reduction represented by the decision. In any event, the reduction is nothing like as much as is claimed; game shows, of high and established popularity, may still be expected to have a prominent place in the 7–7:30 program picture on stations subject to the rule, but maintenance of that period as a "competition-free haven" for such material cannot be justified. It is claimed that what Frank is asking is freedom from having to compete with his fellow independent sources; the new rule itself restricts nothing. MCA–SG also oppose the anti-stripping proposal, particularly as to independents but also as to network affiliates; it is claimed that this acts to curtail the "after-market" for off-network material, particularly important to MCA and other network suppliers because the network production itself usually represents a loss.

24. *The Motion Picture Association statement.* MPAA is an association of 9 producers and distributors of feature-length motion pictures (including MCA-Universal, UA, Columbia Pictures Industries, MGM, Paramount, 20th Century-Fox, and Warner Bros., who have participated in this proceeding). The statement supports the MCA and UA contention that the total ban on feature films is inappropriate and unconstitutional, not related to any legitimate governmental objective and certainly overbroad. The same arguments mentioned above, concerning the effect on far more than the half-hour specifically mentioned, are urged, as is the importance of television to theatrical film production. It is claimed that a great number of independent producers are harmed; of 468 films submitted for rating in 1972, 158 were distributed by MPAA members, but 126 of these were actually produced by independents. A total of 118 pictures were submitted by companies having only one or two features for submission that year. It is asserted that motion pictures are a tremendously important art form, subject to protection like all art forms. Numerous Supreme Court and other decisions are cited.

SANDY FRANK REPLY TO OPPOSITIONS

25. Sandy Frank filed a lengthy reply to the four oppositions to his petition, accompanied by a petition for leave to file a pleading of over 10 pages, which is granted. Initially, it is urged that the opponents of Frank's position are the powerful interests—the networks and the "majors"—not including any non-network station licensees or any other program producers. For the most part, the rest of Frank's reply is devoted to argument with the four opposing parties, to the extent they disagree with, or do not support, its position. As to ABC, Frank expresses distress and incomprehension as to ABC's departure from its earlier position fully supporting the rule; as to NBC, and its argument concerning reliance on the Commission's decision modifying the rule, it is stated that this ignores the dependence by Frank and other independent entities on a continuation of the rule, and that certainty and time are needed by parties of one sort just as by those of another. As to CBS, Frank's chief controversy generally is the alleged failure to answer all of Frank's arguments or to carry arguments to their logical conclusion; for example, CBS has opposed Commission involvement in program evaluation but does not oppose a decision based largely on such evaluation, and it refuses to concede that the Commission was arbitrary in modifying the rule even though admitting that it has not had a full and sufficient test. Frank also claims that CBS' reference to the rule as "fencing out competition" ignores the great tendency for stations to clear network programs, which independent producers simply cannot be expected to compete with.

26. With respect to the MCA–SG petition, Frank argues with its characterization of the rule adopted in 1970 as "experimental", with the assessment of the time impact of the modifications, and with use of "programming" as a basis of decision, particularly since this was not one of the objectives of the rule to begin with. It is also claimed that it is effrontery for these parties to talk of the "competition-free haven" created by the rule, when independent producers simply cannot be expected to compete with the pressure to clear network programs or the availability of popular and cheaper off-network material. Frank claims that the opposition to its "anti-stripping" proposal, which would open time to more producers and increase diversity for viewers, is simply designed to preserve the "after-market" for off-network material, without any showing as to why the access period is needed for this. It is also urged that the Commission should rely on the assurances of Frank, Time-Life, etc., as to future programming, and that profits from present successes will be plowed back into more ambitious efforts. In conclusion, it is said that we should not act to continue the dominance of the networks and an endless cycle of off-network reruns, but that we should go back to the pro-competitive basis of the 1970 decision:

DISCUSSION AND CONCLUSIONS

27. Upon careful consideration of the foregoing matters, we are of the view that all three of the foregoing petitions must be denied, and the rule as adopted in our January–February decision (FCC 74–80) affirmed, including retention of the bar against use of feature film during the access periods, but of course not including the "anti-stripping" provision requested by Sandy Frank. Our reasons are set forth in the next several paragraphs, first as to the film company petitions and then as to the Sandy Frank petition.

28. *The MCA and UA petitions.* With respect to the argument that the "total ban" on use of feature film during access periods constitutes an over-broad restraint on freedom of expression, or illegal censorship, we simply do not agree with this argument for a number of reasons. First, we agree with ABC and other parties that this question has been settled, as far as this proceeding is concerned, by the Mount Mansfield decision of 1971 affirming the prime-time access rule (Mount Mansfield Television, Inc. v. FCC, 442 F. 2d 470, 478 (C.A. 2, 1971)). It is true that the restrictions in the rule adopted and later modified in 1970 did not bar all feature film as does the new provision, but, as ABC points out, it applied to a substantially larger amount of time, 7 hours per week as opposed to six half-hours.[12] Therefore we regard the holding in that case as determinative of the issue here. Second, the new rule does not operate to bar feature film from television or from valuable prime time, or sharply to limit its usage. The incidence of movies on television has been quite large for many years, and, in particular, has increased in the last decade as to network carriage of movies during prime time. For the week of April 7–13, 1974, according to TV Guide, the 9 stations in Washington, D.C. and Baltimore markets (6 affiliates and 3 independents) showed a total of 118 movies, 8 in the morning, 39 in afternoon or early evening, 33 in prime time, and 38 late evening (after 11 p.m.). Of the 33 prime time movies, 20 were on affiliated stations, 19 being network programs and one a local preemption. Of the 38 late evening movies, 29 were local (8 on affiliates, 21 on independents), and 9 were network. There are independent stations, not subject to the rule, in at least 36 of the top 50 markets for 1974–75, totaling, according to ABC, 83 percent of the TV homes in the areas of dominant influence of top-50-market stations. Thus, there is no reason to expect a serious curtailment of movie showing on television, either generally or as to prime or late-evening time.

29. As mentioned in the Report and Order (par. 87 and Appendix C), the presentation on large-market affiliated stations of movies during the periods which will be "lost" under the rule changes, 7:30–8 e.t. Monday-Saturday, 10:30–11 Sunday, is currently not great, amounting in November 1973 to some 32 movies a week on 18 stations (three stations "stripping" them 5 or 6 nights a week, one showing them two nights, and 14 on one night). Thus, at most only a fairly small change in practice will result from the modification of the rule. It does not appear that this will be anything like the total "blackout" envisaged by MCA and UA, since a number of stations may be expected to continue their present practice of preempting network programs to show local movies starting at 8 p.m. E.T. or after, and some may present movies ending at 7:30, as ABC's two West

[12] The 1970 restriction applied to all "cleared" prime time, one hour per night. The rule originally adopted in May 1970 barred from this hour all off-network programs part of a regular series, and feature films which had been previously shown, at any time, by a station in the market. The August 1970 revision modified these provisions to specify off-network programs (without limitation) and feature films shown by a station in the market within the past two years. Because of an ambiguity as to whether a movie shown on a network would be an "off-network program" or a "feature film" for this purpose, a Commission Public Notice of November 1972 stated that, pending decision in Docket 19622, stations might show any movie which had not been presented on a station in the market within the past two years.

V 39 I 90
MAY 8 74
XUM

Coast stations did Monday-Friday in 1970 before the rule (with the effectiveness of the rule in 1971, they changed to a 6:30–8 schedule).

30. MCA mentions a sharp decline in local prime-time movie presentations by large-market affiliated stations, from 117 to 33 a month. To the extent that this is true in fact (see footnote 13), it does not appear to stem entirely, or chiefly, from restrictions on certain time periods.[13] MCA itself mentions one other factor, the channeling of local and other non-network advertising support into access-period programs as a result of the rule, so there is less of it available for prime-time local movies and therefore less incentive to stations to preempt network programs for this purpose. Other factors not mentioned could be the continuing increase in network prime-time movie presentations (to which individual stations see no reason to add their own programming efforts), the somewhat lessened number of theatrical feature films produced in at least some recent years, and the fact that a fairly high percentage of the latter are not regarded as suitable for television use, particularly early in the evening (see Report and Order par. 48, concerning the comments of WTIC–TV, Hartford, as to the small amount of "suitable" material, especially of suitable material which has not been on a network before it reaches syndication). These factors, of course, will continue to operate regardless of the changes in the rule recently adopted.

31. Thus, in our judgment, the feature film restriction adopted cannot be viewed as either illegal censorship or a restriction on freedom of expression, or a source of serious impact to the motion-picture production and distribution industry. It is also claimed by these parties, as it was earlier in this and other connections, that the rule change tends to increase network dominance, by making the prime-time showing of feature films take place largely if not entirely through network exhibition. We regard this as too speculative to afford a basis for changing our decision in this respect, for reasons mentioned above including the fact that it does not appear that the claimed "blackout" will materialize. Certainly, this aspect of the matter does not equal in importance the preservation of a substantial number of access periods for new non-network programs designed specifically for television. Our Docket 19622 action cut down the number of "cleared" time periods reserved for such material, and we regard it as important as to those remaining, to keep them free from the impingement which feature film usage would represent.

32. MCA and UA accuse us of discriminating among programs and types of production activities and entities, barring feature film but encouraging other material, whereas, it is claimed, the producers and distributors in both cases ae equally "independent". This argument misses the point. We assume that the "majors" and other motion picture entities are not connected with networks, and here they are regarded as "independent" just as are the producers and syndicators of first-run non-network material. As MPAA points out, many of the producers are fairly small organizations. But—and this is the basis for the distinction—the material involved here is not specifically produced for, nor does it rely entirely for exposure on, syndicated television sale. There has not been, so far, "made for TV syndication" feature film. Motion pictures either get exhibition first via theatre showing, and then go to television (either via network or via syndication) or they are "made for television", initially produced for and shown on network television. Thus, while we recognize the importance of TV exposure in the economics of much theatrical film production, this medium is not the only, nor generally the first, way these programs reach the public. In this important respect, feature films are different from first-run non-network material, which depends on TV syndication sale to individual stations for its exposure, and, as far as important prime time exposure is concerned, largely on access to the "cleared" half hours. Thus, the need for making "cleared" time available to the latter material is considerably stronger and more pressing than is the need for time for feature films. The latter, of course, also often have the network route available to them.

33. Therefore, in light of these considerations, we find that the rule must be retained as amended in our recent decision (FCC 74–80), taking into account all of the other opportunities for the presentation of feature film on television—via network, local preemptions during "network" prime time, at other hours, or at any time on independent stations in most of the top 50 markets—the somewhat added flexibility given in this respect by the removal of all restrictions from the 7–7:30 period, and the importance of preserving substantial amounts of time for the development of new non-network material made specifically for television. We reach this conclusion even as to the MCA proposal, which would remove the feature-film bar from one of the "cleared" periods each week, since that could represent a reduction of roughly 20 percent in the time available for first-run syndicated or local material.[14]

34. *The Sandy Frank petition seeking reversal of changes made.*[15] As discussed at length above, the Frank petition for reconsideration is a broad-gauged attack on our January changes relaxing the rule, particularly in reduction of the time reserved for programming which is neither network nor off-network (first syndicated and local).

35. In evaluating Frank's contentions, two things must be borne in mind. First, as pointed out in paragraph 91 of the Report and Order, the rule is a restraint. The Frank petition quarrels with our characterization of it as such (thus assertedly putting it in the same class as the "restraint" resulting from the compulsion to clear network programs); but the Court in the Mount Mansfield decision used the same characterization, although it found the restraints involved in the rule to be justifiable (Mount Mansfield Television, Inc. v. FCC, 442 U.S. 470, 478), referring to the "very real restraint" which the rule may involve. The restraining effects are obvious: a restraint on the networks in offering more than a certain amount of prime-time programming each week (4 hours less than before); and perhaps more significantly, a restraint on the activities of those producers who prefer to use the network route (such as more than 100 producers who joined as members of the National Committee on Independent Television Producers); a restraint on licensees in their ability to present more network programs if they were available and, of course, on their ability to present off-network programs and, to some extent, feature film (matters where there is generally no network "pressure" such as that assertedly used by the networks to secure clearance of current network programs); and, of course and most important, a restraint on the public's ability to watch programming (some of it quite popular) in these categories and from these sources, during the hours involved.

36. The second point is one urged by a number of opponents of the rule in earlier comments—what is sought by entities such as the NAITPD, and now Sandy Frank, is not only "access" or "opportunity" but exclusive access and opportunity or, in a sense, "freedom from competition", for programming of certain categories as to origin and auspices, to the exclusion of programming different in these respects. In this connection, TV programming may be divided into five general classes: locally produced by or under the auspices of the station; "produced for syndication"; network programming; former network or "off-network" programs; and feature film. The first two classes remain under the rule (as originally adopted and now) in the position they have always had—no Commission restriction on their access to prime time or any other time. The rule as adopted in 1970 barred, generally, material in the third and fourth classes from 7 hours a week, to preserve it for the first two, particularly the second. The fifth category, feature film, was somewhat restricted by the 1970 rule, although it also gained to some extent from the reduction in use of the third and fourth classes.

37. It is virtually hornbook law that no governmental restraint of this character is legal or appropriate except if and to the extent that it can be justified by a significant public benefit. This is certainly true as to the first point, the restraint, as shown by the cases cited by MCA, UA and MPAA in their filings herein. It appears to be equally true as to the second—exclusivity—if anything approaching an "equal protection of the laws" concept is to be maintained. The significant benefit mentioned need not be immediate, and probably it need not be entirely tangible or quantifiable (e.g., as with multiple-ownership restrictions); but it must be substantial and, if not immediate, probable or quite likely to occur; and it must be public.

38. In reaching our decision in Docket 19622, we examined the record of developments under the rule, to see if they justified these restraints and grants of exclusive access fully, and we concluded that they did not. In paragraph 92 of the Report and Order, we pointed out some aspects of the programming which had resulted, chiefly the following: increased "stripping" of material, particularly during the 7:30–8 e.t. period when there had been none before; the greatly increased use of foreign produced material (which can hardly be held to be a favorable result of a rule designed to further U.S. independent program production activity); and the concentration on game shows, not so much as such as because they are for the most part stripped material or "sixth episodes" (now 6th and 7th episodes in two cases) of material produced for daytime network stripping. We concluded (par. 91): "we do not believe the record is such as to warrant the complete restraint on network and off-network programs which the present rule provides."

Elsewhere in the decision, we called attention to other results which appeared undesirable, including the fact that desirable network children's "specials" had to run after 8 PM as the rule worked out in practice, and the decline of news-documentary or public affairs, and other documentary material in prime time. (par. 83, 101). In light of this record, we concluded that complete retention of the restraints represented by the 1970 rule could not be justified, and we modified it accordingly, permitting a relatively small increase in network programs generally, another increase in network (or off-network) time if devoted to the types of programs mentioned above, and the removal of all restrictions on the 7–7:30 period, as unwarranted. We adhere to these views.[16]

39. Frank also urges strongly that we should not have made any changes cutting back the amount of "cleared" time in light of our conclusion that the rule had not yet had a full and sufficient test. This is a misleading interpretation of our decision. As CBS points out, these statements were made largely in response to arguments of vigorous opponents of the rule, such as MCA and other major film companies, to the effect that the rule had been a dismal failure so far and nothing better could be expected in the future. Our position was stated in paragraph 91 of the Report and Order, where we said:

> In sum, while we do not believe the record is such as to warrant the complete restraint on network and off-network programming which the rule presently provides, we do not believe the rule has had a sufficient test to demonstrate what its future performance will be, so as to warrant further abandonment of it, in view of the benefits accruing • • •.

In paragraph 90 and footnote 38, we mentioned various points urged by opponents as reasons why the future would be no different from the record so far—limited economic potential in syndication, etc.—and expressed the view that these might be long-term factors, but that it had not yet been demonstrated that they would forever be the iron-clad limitations which are claimed. Therefore, bearing in mind the benefits which do flow from the rule in theory and to some extent in practice, it was not appropriate to abandon it to a greater extent. But we also had to assume that these factors may last for a long time, as limitations on developments realistically possible under the rule, and take measures to minimize the loss to the public if this should be true. We reached what we believed to be an appropriate balancing of these considerations, and we are of the same judgment today.

40. It also appears that little significance should be attached to the statements by Mr. Frank concerning his plans (not specifically discussed) for future programming of different types—sports, children's specials, documentaries, etc. As MCA points out, we have been through this before, noting in our August 1970 decision the mid-1970 statements by various producers as to their plans for the future, from which extremely little has in fact developed. If such programming developments do occur, from Frank, Time-Life, or others, the remaining "cleared" half-hours, approximately 15 in number, should provide considerable opportunity for their presentation.

41. As to the three specific changes of which Frank complains, the first is the removal of all restrictions on the first half-hour of prime time, 7–7:30 PM e.t. As to Monday–Friday, this was done because these periods produce singularly little in the way of support for new non-network material, being devoted by 90 percent of the stations subject to the rule either to news or to stripped game shows most of which were on TV, and to some extent in prime time, before the rule. Also, this is a period as to which there is no network pressure to clear time (assertedly a restriction on licensee freedom of decision) because the networks have not programmed this time. This being the case, it appears that the restriction serves little more than as a limitation on licensee freedom of choice in exercising his program responsibility—which Frank emphasizes as one of the main objectives of the rule. The other two changes, as they worked out in practice, represent increases in network programming, up to four hours on Sunday for network programs generally, and additional time on Saturdays for news-documentary, public affairs and children's programs. The general increase permitted represents a view that more opportunity should be given for those program sources which choose to operate through the network, which are deprived to some extent of access opportunity by the rule in its original form, and from which may come programming in the public interest. The second is an effort to get back into prime time certain kinds of programs—children's and documentary-public affairs—which either have tended to disappear from prime time for economic reasons or for which early evening hours are particularly important. We thought in reaching our decision that the compromise reached is appropriate, and we adhere to these views.

42. In practice, the cutback in "cleared" time is not as much as Frank believes. As mentioned, the 15 half-hours per market Monday–Friday at 7 contribute very little to the development of really new non-network programming; therefore the appropriate start is not 42 but 27 half-hours. This has been reduced by our rule changes to something in the order of 15, a reduction of about 44 per-

---

[13] MCA's figure of 33 per month appears to be a considerable understatement according to our staff's study of ARB program listings for the October-November 1973 rating period (4 weeks). For example, MCA shows only one for Philadelphia in November 1973, whereas the staff's analysis of ARB data shows 4 (all by the NBC station). According to the staff's study, during this 4-week period affiliated stations in the top-50-markets presented some 190 local movies wholly or partly between the hours of 7 and 11 (e.t. and P.t., or 6–10 c.t. and m.t.). Of these, 76 started on weekdays after 8 p.m. e.t. (or were entirely between 7:30 and 10:30 on Sundays), so that they would not be affected by the rule change. Ninety-two involved time within the Monday-Saturday 7:30 access periods and thus would be precluded by the new rule on their present basis; and another 22 would not be precluded by the new rule as such but might be affected by increased network hours on Sunday or (on one NBC station) early Saturday evening.

[14] One possible approach, though not that proposed by MCA, might be to permit feature film to be used in one of the access periods if the station "cleared" an additional half-hour the same week after 8 p.m. so as to compensate. However, this might have a slight impact on the availability of time to new non-network programming (stations could count, toward compliance, a later half-hour which they would clear anyhow), and would not be consistent with the certainty which we found desirable in adopting our rule changes.

[15] Since we conclude below that the Sandy Frank "anti-stripping" proposal should not be adopted, the discussion here assumes the present situation in that respect.

[16] We also mentioned other matters such as the asserted limited economic potential for non-network as compared to network programs (par. 90 and footnote 38) and the asserted desirability of increasing the number of network programs (par. 96), concluding generally that these were too uncertain, as long-term factors, to warrant a relaxation of the rule beyond that adopted.

V 39 I 90
MAY 8 74
XUM

cent.[17] We have found this reduction to be a reasonable compromise, and still are of that view.

43. Some other points should be noted about Frank's petition. First, it appears that Frank would have us attach, to an unwarranted extent, weight to the "first principles" mentioned in paragraph 13, above. These considerations were and are important. But the idea that we should not look further, at the record of the results under the rule, in terms of programming as otherwise, is a narrowly limited viewpoint which we find unacceptable, particularly since what is involved here is not simply access but exclusive access, as against other entities whose products may be as meritorious or more so. We have reached a compromise in this respect, preserving considerable opportunity for producers of new non-network programs, and we conclude, as we did before, that it is an appropriate one. Second, in Frank's petition, and also in his reply, there is repeated reference to the fact that, as he sees it, the giant, vested interests gain by our revisions, and the small independent loses. The answer to this is that Commission judgments generally should not be and are not made based on the size of the entity involved on either side (the proponents of the original rule here include two of the largest multiple owners, Westinghouse and Metromedia, as well as Viacom, one of the powerful production and distribution entities). Rather, we have reached a result based on what appears to be the public interest—the interest of the public. Third, it is apparent that some of Frank's contentions cannot even remotely be considered public, rather than private, considerations. Thus, one of the two particular situations about which he complains in his personal statement is that WXYZ–TV, the ABC-owned station in Detroit, will buy only one of the programs he handles, instead of the two which he asserts it would have taken had the rule remained in its earlier form.

44. Mr. Frank also objects to one of our other adjustments in the rule, concerning time-zone differences (see par. 17, hereinabove). Bearing in mind that these events occur no more than 25 times a year for each network, and that the only stations involved are those in the Mountain and Pacific time zones (a total of 9 at most), we do not see reason to upset the rule in this regard. See Report and Order, pars. 108–109. Mr. Frank and also Time-Life in its opposition to other petitions, ask that the changes in the rule, if adhered to, be postponed a year. We recently decided this question on the basis of a petition by NAITPD, and see no reason to alter our decision that the rule amendments should become effective this September, in view of the importance of making desirable changes at a reasonably early date and the speculative nature of the "irreparable injury" allegations. We adhere to our decision in this respect also. See Report and Order, pars. 113–116, and Memorandum Opinion and Order denying Stay, FCC 74–221, adopted February 27 and released March 6, 1974.

45. *The Sandy Frank "anti-stripping" proposal.* As mentioned in par. 16 hereinabove, Mr. Frank asks us to adopt an "anti-stripping" or "anti-multiple exposure" rule, under which no station could present during the access period more than one program a week from any single program series. This would bar both "stripping" of game shows or off-network material, and twice-a-week presentation of programs such as Hollywood Squares and Lets Make a Deal. This, it is claimed, would provide access opportunity for many more independent producers as well as increasing program diversity.

46. This is to a degree an interesting idea, and one which might appeal to numerous persons, without any axe to grind, as one which should be adopted. However, it is a radical departure, and might well be labelled, perhaps properly, as an "elitist" kind of Commission action—telling a viewer he cannot watch his favorite access-period program two or five nights a week, but may view it only once and be content with less appealing fare (perhaps of the same type, perhaps of a different sort) on the other nights. Obviously, this would require substantial exploration before it could be considered for adoption.

47. This concept was not at all set forth in the notice of inquiry and proposed rulemaking herein, and was never advanced in this proceeding until after our January final decision (even its informal suggestion to the Commission, mentioned in the petition, was well after the date for reply comments in March 1973). Therefore, representing as it does a sharp departure, it comes much too late for consideration in our Docket 19622 deliberations. It may be appropriate for exploration at some point in the future.

48. In view of the foregoing, *it is ordered*, That:

(a) The petitions for reconsideration filed in this proceeding on March 18, 1974, by MCA Inc., United Artists Corporation, and Sandy Frank Program Sales, Inc., are denied;

(b) The Petition for Stay filed herein by United Artists Corporation on March 18, 1974, is dismissed as moot;

(c) The motions of Sandy Frank Program Sales, Inc., for leave to file pleadings of more than the prescribed length, in connection with the petition for reconsideration and in connection with the reply to oppositions, are granted; and

(d) This proceeding, Docket 19622, is terminated.

Adopted: April 25, 1974.

Released: May 2, 1974.

FEDERAL COMMUNICATIONS COMMISSION,[18]

[SEAL] VINCENT J. MULLINS, *Secretary.*

[FR Doc.74–10600 Filed 5–7–74;8:45 am]

[17] Some parties supporting the original rule, such as NAIPTD, claim that the figure of 15 must be reduced by the amount which licensees will devote to programming of particular local significance, as the Commission expects according to paragraph 68 of the Report and Order. However, that statement did not specify any particular amount, and it was made clear that it applied to programming in any part of prime time and not just the 7:30 periods. Moreover, it appears that not all of Saturday time this coming year, by any means, will be taken by network programs. NBC plans 44 one-hour Saturday programs (mostly news-documentary plus some children's programs); CBS plans 44 Saturday half-hours of children's programs at 7:30; and ABC plans no more than 12 one-hour Saturday programs (6 children's plus up to 6 documentary or public-affairs). These total 156 half-hours, and leave, on Saturdays, 56 half-hours of "cleared" time at 7:30, plus 100 half-hours of time at 7 p.m. which is not restricted by the rule and is available for new material, syndicated or local. Thus, the figure of 15 "cleared" half-hours remaining appears approximately correct.

Frank's analysis also appears to assume that every syndicated program has to be shown in every market to be successful, whereas in fact very few, if any, have been so far. Fifteen "cleared" half-hours a week will accommodate only 15 programs if all have to be shown in all 50 markets; but it would accommodate 18 or 19 if a more realistic average of 40 markets is assumed.

[18] Commissioners Wiley and Reid concurring.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 924]

[Docket No. AO–317–A1]

FRESH PRUNES GROWN IN DESIGNATED COUNTIES IN WASHINGTON AND IN UMATILLA COUNTY, OREGON

Recommended Decision and Opportunity to File Written Exceptions

Pursuant to the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of the filing with the Hearing Clerk of this recommended decision with respect to the proposed amendment of the marketing agreement and order (7 CFR Part 924), hereinafter referred to collectively as the "order", regulating the handling of fresh prunes grown in designated counties in the States of Washington and Oregon, to be effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), hereinafter referred to as the "act," and any amendment which may result from this proceeding will also be effective pursuant to the act.

Interested persons may file written exceptions to this recommended decision with the Hearing Clerk, United States Department of Agriculture, Room 112, Administration Building, Washington, D.C. 20250, on or before May 23, 1974. Exceptions should be filed in quadruplicate. All such communications will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

Preliminary statement. The public hearing, on the record of which this proposed amendment of the order was formulated, was held in Yakima, Washington on February 28, 1974, pursuant to a notice thereof which was published in the FEDERAL REGISTER on February 20, 1974 (39 FR 6535). The notice contained amendment proposals which had been submitted to the Secretary of Agriculture by the Washington-Oregon Fresh Prune Marketing Committee (established pursuant to the marketing agreement and order).

Material issues. The material issues presented on the record were concerned with amending the order to:

(1) Revise the provisions which authorize marketing research and development projects to include authority for production research projects designed to assist, improve, or promote the marketing, distribution, and consumption or efficient production of fresh prunes.

(2) Authorize the issuance of expanded container regulations that could include specification of the minimum strength of material in containers of fresh prunes; and

(3) Make conforming changes.

Findings and conclusions. The following findings and conclusions on the material issues are based on evidence adduced at the hearing and the record thereof except as to item (2) which is hereby abandoned for the reasons hereinafter cited:

(1) The order presently contains authority for committee expenditures on marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption of prunes.

The order should be amended, as hereinafter set forth, to include authority for production research designed to assist, improve, or promote the marketing, distribution, and consumption or efficient production of fresh prunes.

For several years the committee has conducted marketing research projects aimed at maintaining the market quality of prunes so as to promote their marketing, distribution, and consumption. During this time it has become apparent to the committee that some of the quality problems affecting the marketing, distribution, and consumption of prunes originate in the orchard. A number of factors affect the production of quality fruit such as nitogen levels, root stocks, irrigation methods and firmness of the fruit at harvest. Often in its attempts to find solutions to marketing problems, the committee has found it difficult to separate production and marketing and it has concluded that unless its research can be extended into the production of the fruit much of its past efforts are likely to be lost for lack of final conclusion as to the cause of such problems. One such problem which has been the subject of study is internal browning of prunes. The incidence of this problem appears to be related to production factors but the committee has been hampered in its efforts to deal with the problem because it has not had authority to fund research which must be conducted at the orchard level.

The committee has been dependent upon other agencies to perform any production research and it has found that such research as well as other research of primary interest to the prune industry often cannot be undertaken or continued by the universities or other agencies in the research area without supplementary industry funding. Currently, the marketing order is considered as the only available industry agency through which all of the Washington-Oregon prune production area may equitably support research designed for its primary benefit. Authorizing the committee to engage in production research as contemplated by this amendment would enable it to fund such projects to the extent necessary from assessments under the order.

While it is evident that the committee's primary interest is in being able to conduct production research which may alleviate or contribute to the solution of marketing problems, the authority should not be so limited as to preclude production research with the primary aim of more efficient production. Rather, the order should permit the committee's conduct of or participation in research projects that are partly or exclusively production oriented if the need arises. Survival of the industry dictates that production be carried out efficiently. Advancing technology and changing economic situations render it difficult to foresee all the areas of production which may require study, therefore the authority should be broad enough in scope to permit the committee, subject to approval of the Secretary, to investigate any facet of production with a view toward improving the efficiency of production. In addition, new laws and regulation enacted for the protection of consumers and the environment may require research involving industry-wide cooperation to ascertain how to produce prunes most economically under such requirements. The expanded authority should enable the committee to participate in the development of production practices and procedures to meet the requirement of such laws and regulation especially when they would have an impact on the production and marketing of prunes.

In formulating production research projects the committee should be authorized to secure the advice and service of persons knowledgeable in any segment of the research field. The committee could establish subcommittees to assist it in the efficient and expeditious planning of production research projects or programs. Such subcommittees could explore research methods, develop preliminary projects and programs, and make recommendations with respect to any such activities. Subcommittees could also evaluate project activities at any state of completion. Final decisions of any such recommendation would be the prerogative of the committee subject to approval of the Secretary. In the conduct of any

V 39 I 90 MAY 8 74 XUM

production research projects, the committee should be authorized to conduct the projects, or to contract for the conduct of such projects, with persons or organizations that specialize in this field of activity.

In submitting projects to the Secretary for his approval, the committee should include recommendations as to the funds to be obtained from assessments under the order and its appraisal of the relative urgency of individual projects whenever several possibilities are involved. The committee should fully consider the cost of any such activities, when developing its budget, both as to additional items of expense and the applicable assessment rate. The committee should review its production research program annually to appraise its effectiveness. Copies of the annual report on the program should be provided to the Secretary and made available at the committee office for examination by producers, handlers, and other interested persons.

(2) The notice of hearing contained an amendment proposal to expand the authority for regulation of containers to include specifications of minimum strength of material. One witness supported this proposal on behalf of the Washington-Oregon Fresh Prune Marketing Committee. However, the Committee later, unanimously recommended abandonment of this proposal. The committee stated that the container situation is in a state of flux due to shortages of various types of materials and that opposition, which was not apparent at the hearing, has developed. It is therefore concluded that the proposal should be dropped from further consideration in this proceeding.

(3) No conforming changes are necessary.

Ruling on proposed findings and conclusions. March 25, 1974, was fixed as the final date for the filing of briefs with respect to the facts presented in evidence at the hearing and on the findings and conclusions that should be drawn therefrom. No brief was filed.

General findings. Upon the basis of the evidence adduced at such hearing, and the record thereof, it is found that:

(1) The marketing agreement and order, as hereby proposed to be amended, and all the terms and conditions thereof, will tend to effectuate the declared policy of the act;

(2) The said marketing agreement and order, as hereby proposed to be amended, regulate the handling of prunes grown in the production area in the same manner as, and are applicable only to persons in the respective classes of commercial or industrial activity specified in a proposed marketing agreement and order upon which a hearing has been held;

(3) The said marketing agreement and order, as hereby proposed to be amended, are limited in their application to the smallest regional production area which is practicable, consistently with carrying out the declared policy of the act, and the issuance of several orders applicable to subdivisions of the production area would not effectively carry out the declared policy of the act;

(4) The said marketing agreement and order, as hereby proposed to be amended, prescribe, so far as practicable, such different terms applicable to different parts of the production area as are necessary to give due recognition to the differences in the production and marketing of prunes grown in the production area; and

(5) All handling of prunes grown in the production area as defined in said marketing agreement and order, as hereby proposed to be amended, is in the current of interstate or foreign commerce or directly burdens, obstructs, or affects such commerce.

Recommended amendment of the marketing agreement and order. The following amendment of the order is recommended as the detailed and appropriate means by which the foregoing conclusions may be carried out:

Redesignate and revise § 924.45 to read:

§ 924.45 Research and development.

The committee, with the approval of the Secretary, may establish or provide for the establishment of production research, and marketing research and development projects designed to assist, improve, or promote the marketing, distribution, and consumption or efficient production of fresh prunes. The expense of such projects shall be paid from funds collected pursuant to § 924.41.

Rural Electrification Administration

[7 CFR Part 1701]

DISTRIBUTION AND TRANSMISSION FACILITIES

Preparation of Plans and Specifications

Notice is hereby given that, pursuant to the Rural Electrification Act, as amended (7 U.S.C. 901 et seq.), REA proposes to issue revised REA Bulletin 81-9, Preparation of Plans and Specifications for Distribution and Transmission Facilities, and attached REA Form 230, Check of Plans and Specifications, to provide REA requirements and guidance to borrowers and their engineers in the preparation of plans and specifications for construction of distribution and transmission facilities using Electric System Construction Contract, REA Form 830; Electric Transmission Construction Contract, REA Form 831; or Substation and Switching Station Erection Contract, REA Form 764.

Persons interested in the provisions of revised REA Bulletin 81-9 may submit written data, views or comments to the Director, Power Supply, Management and Engineering Standards Division, Room 3313, South Building, USDA-REA, Washington, D.C. 20250, on or before June 7, 1974. All written submissions made pursuant to this notice will be made available for public inspection at the Office of the Director, Power Supply, Management and Engineering Standards Division, during regular business hours.

A copy of the proposed revision of the REA bulletin and attachment may be secured in person or by written request from the Director, Power Supply, Management and Engineering Standards Division.

A summary of the proposed changes in the revised bulletin and checklist is as follows:

1. The present bulletin and checklist covers only plans and specifications involving the Electric System Construction Contract, REA Form 830. The revised bulletin and checklist is applicable to the latest revision of REA Form 830, and in addition, to plans and specifications for construction utilizing the Electric Transmission Construction Contract, REA Form 831 and the Substation and Switching Station Erection Contract, REA Form 764.

2. Additions have been made in the bulletin and checklist to cover all environmental design or construction requirements. The plans and specifications must incorporate applicable commitments made in an Environmental Statement or Analysis.

3. Modifications have been made in the bulletin to reflect the current requirements and procedures included in REA Bulletin 40-6, "Construction Methods and Purchase of Materials and Equipment," regarding REA approval of plans and specifications.

4. As proposed, the bulletin has been made applicable to the construction of transmission facilities by REA power supply as well as distribution borrowers.

Dated: May 1, 1974.

DAVID H. ASKEGAARD,
Assistant Administrator.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Social and Rehabilitation Service

[45 CFR Part 233]

COVERAGE AND CONDITIONS OF ELIGIBILITY IN FINANCIAL ASSISTANCE PROGRAMS

General Provisions

Notice is hereby given that the regulations set forth in tentative form below are proposed by the Administrator, Social and Rehabilitation Service, with the approval of the Secretary of Health, Education, and Welfare.

The proposed regulation represents the Department's views as to the scope of State discretion in establishing coverage and conditions of eligibility for the public assistance programs under titles I, IV-A, X, XIV, and XVI of the Social Security Act in light of recent actions of the U.S. Supreme Court.

Since enactment of the Social Security Act of 1935, the Department and the States have viewed the statutory provisions and legislative history of the public assistance titles of the Act as according States considerable flexibility in prescribing coverage and the conditions of eligibility for assistance. State plans were approved by the Department if they did not exclude individuals or groups on an unreasonable or arbitrary basis and did not result in the inequitable treatment of individuals. This view of the Act is reflected in the Department's current regulation at 45 CFR 233.10(a)(1)(i) and (ii). In recent years, however, the Supreme Court, in a number of actions (opinions, affirmances, and remands), has affected this view of the Act and has limited the traditional discretion of States in determining the individuals who are to be included under their public assistance programs. In response to each of these actions, the Department has issued in proposed or final form a number of regulations. See 45 CFR 233.90(b)(2), (3), and (4), and the proposed regulation at 38 FR 23802 (September 4, 1973).

While the States are, of course, bound to follow the decisions of the Supreme Court even without an articulation of their import by the Federal agency, the Department believes that because of the number of Court actions in this area in the last few years and the complexity of the issues involved, it would be useful at this time to revise its general regulation at 45 CFR 233.10(a)(1) to reflect directly the recent decisional law in this area.

In Townsend v. Swank, 404 U.S. 282 (1971), the U.S. Supreme Court noted the Department's present regulation at 45 CFR 233.10(a)(1) and implied that to the extent it permitted States to "vary eligibility requirements from federal standards" without Congressional authorization for the variance, the rule was invalid. 404 U.S. at 286. The Townsend decision, however, raised and left unresolved several questions as to the authority of the States to establish conditions of eligibility under their public assistance programs. The broad language of the decision suggested the possibility that the Court viewed the Act as precluding the States from imposing upon applicants for or recipients of assistance any requirements that affected their eligibility as determined under the Act. It appeared, however, that this interpretation of the Social Security Act was inconsistent with the Court's earlier actions in Wyman v. James, 400 U.S. 309 (1971) and Snell v. Wyman, 313 U.S. 323 (1969), affirming 281 F. Supp. 853 (N.D. N.Y. 1968), in which the Court had upheld State requirements which did affect the eligibility of individuals who were covered under the Act. Thus, questions remained with respect to the authority of the States to impose their own conditions of eligibility upon individuals eligible for assistance under the standards set forth in the Act.

In Carleson v. Remillard, 406 U.S. 598 (1972), the Court affirmed its previous disapproval of the HEW regulations (45 CFR 233.10(a)(1)). The Remillard decision, however failed to clarify the inconsistency between the Court's actions in Wyman v. James and Snell v. Wyman, supra, and its holdings in Townsend v. Swank and Remillard. Thus the question regarding the extent, if any, to which States could exclude from AFDC assistance individuals eligible therefor under Federal standards remains unanswered.

In New York State Department of Social Services v. Dublino 413 U.S. 405 (1973), the Court upheld a New York statutory scheme which permits the exclusion from the State's AFDC program of individuals eligible under the standards set forth in the definitional sections of title IV-A of the Act. The Dublino decision is important for it clarified the Court's previously ambiguous views with respect to the authority of States to impose their own conditions of eligibility for public assistance. First, the Court was careful to reaffirm the Federal State nature of the public assistance programs, stating that States must be permitted "considerable latitude" in attempting to resolve their increasing fiscal problems, including "the critical problem of mounting welfare costs and the increasing financial dependence of many of [their] citizens." 413 U.S., at 413. In addition, the Court firmly indicated that Congressional authorization for the States to exclude individuals covered under the Act exists in areas beyond the work incentive context. Citing Wyman v. James and Snell v. Wyman, the Court found that State regulations "promulgated within the legitimate sphere of State administration"—"even if they become conditions for continued assistance"—are not necessarily invalid under the Act, as construed in Townsend v. Swank. 413 U.S., at 422. Hence, in Dublino the Court indicated that States are not barred by the Act from imposing eligibility conditions which are not contained in the Act upon individuals eligible for assistance under Federal standards. Indeed, Dublino affirmed the States' discretion to impose such eligibility conditions as long as they assist the States in the efficient administration of their AFDC programs or further an independent State welfare policy and are not inconsistent with the provisions and purposes of the Social Security Act.

The attached revision of 45 CFR 233.10(a)(1) articulates for States the Department's view of the Act in light of recent Supreme Court decisions, particularly those in Townsend v. Swank, Carleson v. Remillard, and New York Department of Social Services v. Dublino, supra. It reaffirms the basic Federal-State nature of the public assistance programs and the fundamental principle that States have considerable latitude in establishing the conditions which individuals must meet in order to be eligible for assistance under the States' programs. The definitional sections of the Social Security Act (e.g. sections 406(a), 407, 408) set forth the groups of individuals who are covered under the Act (i.e., eligible for assistance under Federal standards), and the States may exclude one or more such groups from the scope of coverage under their programs only where the Act or its legislative history authorizes such an exclusion. The States may, however, impose their own conditions of eligibility which, if not satisfied, result in denial or termination of aid, if these conditions either assist the States in the efficient administration of their assistance programs or further an independent State welfare policy and are not inconsistent with the provisions and purposes of the Act. The proposed regulation reflects this view of the Act.

Thus, subparagraph (i) of the proposal provides that a State shall impose each condition of eligibility required by the Social Security Act, e.g., the condition in section 402(a)(19)(A) that every individual who is required to do so under the Act register for manpower services, training, and employment. Subparagraph (ii)(A) states that a State may provide more limited coverage than that permitted under the Social Security Act only where the Act or its legislative history authorizes a more limited coverage, e.g., the optional provision in section 406(a)(2)(B) which allows the States to exclude persons between the ages of 18 and 21 years who are regularly attending a school, college, or university, or regularly attending a course of vocational or technical training designed to fit them for gainful employment. Subparagraph (ii)(B) provides that a State may impose conditions upon applicants for and recipients of public assistance, even if those conditions, if not satisfied, result in the denial or termination of assistance, as long as they assist the State in the efficient administration of its public assistance programs or further an independent State welfare policy and are not inconsistent with the provisions and purposes of the Act. For example, a State may require individuals to participate in a supplementary State work program as a condition of eligibility for assistance; or, as a further example, a State may establish, as a condition for including a parent's needs in his family's AFDC grant, a requirement that the parent of an AFDC child assist in establishing the paternity of a child born out of wedlock or in seeking support from a person having a legal duty to support the child (see 45 CFR 233.90(b)(4) (38 FR 10940, May 3, 1973)).

Prior to the adoption of the proposed regulations, consideration will be given to any comments, suggestions, or objections thereto which are received in writing by the Administrator, Social and Rehabilitation Service, Department of Health, Education, and Welfare, P.O. Box 2366, Washington, D.C. 20013, on or before June 7, 1974. Comments received will be available for public inspection in Room 5326 of the Department's offices at 330 C Street, S.W., Washington, D.C. 20201, on Monday through Friday of each week from 8:30 a.m. to 5 p.m. (area code 202-245-0950).

Assistance Program No. 13.761, Public Assistance—Maintenance Assistance (State Aid)).

Dated: April 29, 1974.

JAMES S. DWIGHT, JR.,
Administrator, Social and Rehabilitation Service.

Approved: May 2, 1974.

CASPAR W. WEINBERGER,
Secretary.

Section 233.10(a)(1) of 45 CFR Part 233 is amended to read as set forth below:

§ 233.10 General provisions regarding coverage and eligibility.

(a) *State plan requirements.* A State plan under title I, IV–A, X, XIV, or XVI, of the Social Security Act must:

(1) Specify the groups of individuals, based on reasonable classifications, that will be included in the program, and all the conditions of eligibility that must be met by the individuals in the groups. The groups selected for inclusion in the plan and the eligibility conditions imposed must not exclude individuals or groups on an arbitrary or unreasonable basis, and must not result in inequitable treatment of individuals or groups in the light of the provisions and purposes of the public assistance titles of the Social Security Act. Under this requirement:

(i) A State shall impose each condition of eligibility required by the Social Security Act; and

(ii) A State may:

(A) Provide more limited public assistance coverage than that provided by the Act only where the Social Security Act or its legislative history authorizes more limited coverage;

(B) Impose conditions upon applicants for and recipients of public assistance which, if not satisfied, result in the denial or termination of public assistance, if such conditions assist the State in the efficient administration of its public assistance programs, or further an independent State welfare policy, and are not inconsistent with the provisions and purposes of the Social Security Act.

(iii) There must be clarity as to what groups are included in the plan, and which are within, and which are outside, the scope of Federal financial participation.

(iv) Eligibility conditions must be applied on a consistent and equitable basis throughout the State.

(v) A plan under title XVI must have the same eligibility conditions and other requirements for the aged, blind, and disabled, except as otherwise specifically required or permitted by the Act.

(vi) Eligibility conditions or agency procedures or methods must not preclude the opportunity for an individual to apply and obtain a determination of eligibility or ineligibility.

(vii) Methods of determining eligibility must be consistent with the objective of assisting all eligible persons to qualify.

[CGD 74 100]

CO_2 FIXED FIRE EXTINGUISHING SYSTEMS

Proposal Regarding Operating Instructions

The Coast Guard is considering amending the details contained in operating instructions for CO_2 fixed fire extinguishing systems.

Any interested person may submit written data, views, or argument concerning this notice to U.S. Coast Guard (G-CMC/82) Washington, D.C. 20590. All communications received before June 24, 1974, will be considered before action is taken on the proposed regulations. Each person submitting comments should include his name and address, identify this notice (CGD 74 100) and give reasons and supporting data for any recommendations. All comments received will be available for examination in Room 8234. No hearing is contemplated, but will be held if requested by anyone who raises a genuine issue. The purpose of this proposed change is to modify the requirement which states:

> Complete but simple instructions for the operation of the System shall be located in a conspicuous place at or near the releasing control device.

The modification will require an additional instruction sheet to be posted in the CO_2 cylinder storage room. Moreover, the instruction must contain a schematic diagram of the CO_2 system and instruction on releasing the agent through alternate means, should the primary or secondary release mechanism fail. Recent casualty reports have shown that had this information been available, a number of casualties might have been avoided or their effect minimized.

In consideration of the foregoing it is proposed to amend Parts 34, 76, 95, 181, and 193 of Title 46 of the Code of Federal Regulations as follows:

1. In §§ 34.15–10(h), 76.15–10(h), 95.15–10(h), 181.20–15(d), 193.15–10(h) by revising the text to read as follows:

"Complete but simple instructions for the operation of the system(s) must be located in a conspicuous place at or near the releasing control devices and in the CO_2 cylinder storage room. These instructions must also include a schematic diagram of the system and instructions detailing alternate methods of discharging the system if the primary or secondary means of release fail."

(46 U.S.C. 375, 390b, and 391a; 49 U.S.C. 1655(b); 46 CFR 1.46(b) and 1.46(o)(4)).

W. F. REA, III,
Rear Admiral, U.S. Coast Guard, Chief, Office of Merchant Marine Safety.

[14 CFR Part 71]

[Airspace Docket No. 74–CE–7]

ALTERATION OF TRANSITION AREA

Notice of Proposed Rulemaking

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the transition area at St. Louis, Missouri.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106. All communications received on or before June 7, 1974, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, Mo. 64106.

Since designation of controlled airspace at St. Louis, Missouri, a new instrument approach procedure is being developed for Weiss Municipal Airport, Fenton, Missouri. Accordingly, it is necessary to alter the transition area at St. Louis, Missouri, to adequately protect aircraft executing this new approach procedure.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (39 FR 440), the following transition area is amended to read:

ST. LOUIS, MISSOURI

That airspace extending upward from 700 feet above the surface within a ten-mile radius of Lambert-St. Louis International Airport (latitude 38°44'50" N., longitude 90°21'55" W.); within five miles southeast and eight miles northwest of the Lambert-St. Louis International Airport Runway 24 ILS localizer northeast course, extending from the ten mile radius area to 12 miles northeast of the Runway 24 OM; within five miles southwest and nine miles northeast of the Lambert-St. Louis International Airport Runway 12R ILS localizer northwest course; extending from the Runway 12R OM to 12 miles northwest of the OM; within a seven mile radius of St. Charles Smartt Airport, St. Charles, Missouri (latitude 38°55'43" N., longitude 90°25'41" W.); within an eight mile radius of Civic Memorial Airport, Alton, Illinois (latitude 38°53'30" N., longitude 90°03'00" W.); within a 6.5 mile radius of Weiss Municipal Airport, Fenton, Missouri (latitude 38°32'15" N., longtitude 90°26'50" W.); and that airspace extending upward from 1,200 feet above the surface within a 33-mile radius of St. Louis International Airport; within six miles southwest and nine miles northeast of the St. Louis VORTAC 328° radial, extending from the 33-mile radius of the VORTAC; area to 36 miles northwest; within five miles northwest and eight miles southeast of the Maryland Heights VORTAC 243° radial, extending from the 33-mile radius area to 19 miles southwest of the VORTAC; within the area bounded on the west and northwest by the east and southeast by the east edge of V–14S, on the 33-mile radius area, on the southeast by the northwest edge of V–238 and on the south by the north boundary of V–88 within a 40-mile radius of Scott AFB (latitude 38°32'30" N., longtitude 89°51'05" W.); excluding the portion overlying the State of Illinois; that airspace extending upward from 2,500 feet MSL within the area bounded on the northwest by the southeast edge of V–335, on the east by the Missouri-Illinois boundary, on the south by the north edge of V–190 and on the west by the east edge extending upward of V–9; and that airspace from 4,500 feet MSL within the area bounded on the north by the south edge of V–88, on the northeast by the southwest edge of V–9W, on the south by the north edge of V–72, on the west by a line five miles west of and parallel to the St. Louis VORTAC 200° radial, on the northwest by the southeast edge of V–238; within the area bounded on the north by the south edge of V–12, on the southeast by the northwest edge of V–14N, on the southwest by the northeast edge of V–175, and on the northwest by a line five miles southeast of and parallel to the Jefferson City, Missouri, VOR 041° radial, and within the area bounded on the northeast by the southwest edge of V–52 and the Missouri-Illinois boundary, on the south by the north edge of V–4N, and on the northwest by the southeast edge of V–63.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Kansas City, Missouri, on April 21, 1974.

GEORGE R. LACAILLE,
Acting Director, Central Region.

[FR Doc.74–10548 Filed 5–7–74;8:45 am]

[Airspace Docket No. 74–SO–47]

[14 CFR Part 71]

DESIGNATION OF TRANSITION AREA

Notice of Proposed Rulemaking

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would designate the Brooksville, Fla., transition area.

Interested persons may submit such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Federal Aviation Administration, Southern Region, Air Traffic Division, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before June 7, 1974, of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in light of comments received.

The official docket will be available for examination by interested persons at the Federal Aviation Administration, Southern Region, Room 645, 3400 Whipple Street, East Point, Ga.

The Brooksville transition area would be designated as:

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of Hernando County Airport (Lat. 28°27'50" N., Long. 82°27'30" W.); within 3 miles each side of the 276° bearing from Brooksville RBN (Lat. 28°28'25" N., Long. 82°27'00" W.), extending from the 6.5-mile radius area to 8.5 miles west of the RBN.

The proposed designation is required to provide controlled airspace protection for IFR operations at Hernando County Airport. A prescribed instrument approach procedure to this airport, utilizing the Brooksville (private) Nondirectional Radio Beacon, is proposed in conjunction with the designation of this transition area.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued at East Point, Ga., on April 30, 1974.

LONNIE D. PARRISH,
Acting Director, Southern Region.

[14 CFR Part 71]

DESIGNATION OF TRANSITION AREA

Notice of Proposed Rulemaking

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to designate a transition area at Litchfield, Minnesota.

Interested persons may participate in the proposed rulemaking by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before June 7, 1974, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

A standard instrument approach procedure has been developed for the Litchfield Municipal Airport, Litchfield, Minnesota. Consequently, it is necessary to provide controlled airspace protection for aircraft executing this approach procedure by designating a transition area at Litchfield, Minnesota.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (39 FR 440), the following transition area is added:

LITCHFIELD, MINNESOTA

That airspace extending upward from 700 feet above the surface within a five mile radius of the Litchfield Municipal Airport (latitude 45°08'00" N., longitude 94°30'45" W.); and within three and one half miles each side of the Darwin VORTAC 139° radial extending from the five mile radius of 11½ miles southeast of the VORTAC.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)]

Issued in Des Plaines, Illinois, on April 24, 1974.

JOHN M. CYROCKI,
Director, Great Lakes Region.

[Airspace Docket No. 74–SO–45]

[14 CFR Part 71]

ALTERATION OF VOR FEDERAL AIRWAY

Notice of Proposed Rulemaking

The Federal Aviation Administration (FAA) is considering an amendment to Part 71 of the Federal Aviation Regulations that would realign a VOR Federal Airway between Brookwood, Ala., and La Grange, Ga.

Interested persons may participate in the proposed rulemaking by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southern Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, P.O. Box 20636, Atlanta, Ga. 30320. All communications received on or before June 7, 1974, will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office

V 39 I 90 MAY 8 74 XUM

of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, D.C. 20591. An informal docket also will be available for examination at the office of the Regional Air Traffic Division Chief.

The proposed amendment would realign V–66 from Brookwood, Ala., direct to LaGrange, Ga. This realignment would provide a shorter route between these points thereby eliminating request for radar vectors. Also, this routing would improve traffic flow to the Atlanta, Ga., terminal area.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on May 1, 1974.

GORDON E. KEWER,
Acting Chief, Airspace and Air Traffic Rules Division.

[Airspace Docket No. 74–SO–7]

[14 CFR Part 71]

DESIGNATION OF FEDERAL AIRWAY

Withdrawal of Notice of Proposed Rulemaking

On February 20, 1974, a notice of proposed rulemaking (NPRM) was published in the FEDERAL REGISTER (39 FR 6538) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would designate a VOR Federal Airway from Huntsville, Ala., to Rome, Ga.

Two comments were received in response to the NPRM. The Air Transport Association of America concurred with the proposal. The Department of the Navy objected. This objection was based on the fact that the proposed airway would greatly reduce the size of two aerobatic training areas which could not be relocated at this time. The FAA acknowledges that the Navy's objection is valid and will therefore withdraw the NPRM. The withdrawal of this notice, however, does not preclude the future issuance of a similar NPRM by the FAA.

In consideration of the foregoing, notice is hereby given that the proposal contained in Airspace Docket No. 74–SO–7 (39 FR 6538) is withdrawn.

This withdrawal is made under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on May 2, 1974.

GORDON E. KEWER,
Acting Chief, Airspace and Air Traffic Rules Division.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 52]

APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Alaska; Proposed Compliance Schedules

On May 31, 1972 (37 FR 10842), pursuant to section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator approved with specific exceptions, the State of Alaska plan for implementation of the national ambient air quality standards.

On August 16, 1973 and January 21, 1974, the State of Alaska Department of Environmental Conservation submitted revisions to the Administrator on their implementation plan in the form of permits issued by the State containing compliance schedules for the following companies:

Source:	Location
Alaska Lumber & Pulp Co	Sitka.
Ketchikan Pulp Co	Ward Cove.
Wrangell Lumber Co	Wrangell.

The Administrator is required by section 110 of the Act to approve or disapprove any revision of an implementation plan submitted by a State. Therefore, public comment is invited on whether the Administrator should approve or disapprove the permits named above as revisions to the State plan.

Copies of the proposed revisions are available for public inspection during normal business hours at the Office of EPA, Region X, 1200 Sixth Avenue, Seattle, Washington 98101; State of Alaska Department of Environmental Conservation, Pouch O, Juneau, Alaska 99801; Cook Inlet Air Resources Management District, % Greater Anchorage Area Borough, 3500 Tudor Road, Anchorage, Alaska 99507; Fairbanks North Star Borough, 514 Second Avenue, Fairbanks, Alaska 99707; Environmental Protection Agency, Alaska Operations Office, Room G–66, Federal Building, 605 Fourth Avenue, Anchorage, Alaska 99501; and at the Freedom of Information Center, EPA, Room 329, 401 M Street SW., Washington, D.C. 20460.

Interested persons may participate in this rulemaking by submitting written comments, preferably in triplicate to the Regional Administrator, Environmental Protection Agency, Region X, 1200 Sixth Avenue, Seattle, Washington 98101: Attention: J. Akins. Relevant comments received on or before June 7, 1974, will be considered, and will be available during normal working hours at the Region X Office.

This notice of proposed rulemaking is issued under authority of section 110(a) of the Clean Air Act as amended. 42 U.S.C. 1857c–5(a).

Dated: May 2, 1974.

JOHN QUARLES,
Acting Administrator.

[FR Doc.74–10587 Filed 5–7–74;8:45 am]

[40 CFR Part 52]

APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

Idaho; Proposed Compliance Schedules

On May 31, 1972 (37 FR 10842), pursuant to section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator approved with specific exceptions, the State of Idaho plan for implementation of the national ambient air quality standards.

The Idaho State Department of Environmental and Community Services submitted revisions to the Administrator on their implementation plan in the form of compliance schedules adopted by the State for the following companies:

Source:	Location
Amalgamated Sugar Co	Mini-Cassia.
Do	Nampa.
Do	Twin Falls.
The Bunker Hill Co	Kellogg.
J. R. Simplot Co	Pocatello.
The Monsanto Co	Soda Springs.
Potlatch Corp	Jaype.
Do	St. Maries.

The Administrator is required by section 110 of the Act to approve or disapprove any revision of an implementation plan submitted by a State. Therefore, public comment is invited on whether the Administrator should approve or disapprove the compliance schedules named above as revisions to the State plan.

Copies of the proposed revisions are available for public inspection during normal business hours at the Office of EPA, Region X, 1200 Sixth Avenue, Seattle, Washington 98101; Idaho Department of Environmental and Community Services, Statehouse, Boise, Idaho 83720; and at the Freedom of Information Center, EPA, Room 329, 401 M Street SW., Washington, D.C. 20460.

Interested persons may participate in this rulemaking by submitting written comments, preferably in triplicate to the Regional Administrator, Environmental Protection Agency, Region X, 1200 Sixth Avenue, Seattle, Washington 98101: Attention: J. Akins. Relevant comments received June 7, 1974, will be considered and will be available during normal working hours at the Region X Office.

This notice of proposed rulemaking is issued under authority of section 110(a) of the Clean Air Act as amended. 42 U.S.C. 1857c–5(a).

Dated: May 2, 1974.

JOHN QUARLES,
Acting Administrator.

[FR Doc.74–10588 Filed 5–7–74;8:45 am]

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

FEDERAL POWER COMMISSION

[Docket No. RM74–22, E–8589, Docket No. E–8550, etc.[1]]

NEW ENGLAND POWER POOL, ET AL. AND APPALACHIAN POWER CO., ET AL.

Settlement Rate Proposals; Request for Comments and Hearings

APRIL 30, 1974.

This notice is issued pursuant to the Administartive Procedure Act, 5 U.S.C. 551, et seq., (1970), and the Federal Power Act, 16 U.S.C. 791(a), et seq., (1970), particularly sections 824a, d, e, f, and 825g and h thereof. It sets forth proposed settlement rates and charges upon the basis of which a number of affected public utilities, state public service commissions and principal members of the Commission staff who have patricipated in public conferences in Docket No. E–8589, believe the Commission should resolve a number of questions arising in a series of dockets associated with fuel conservation energy transfers from the midwestern and southeastern portions of the Nation to the Middle Atlantic, New York and New England area.

This notice provides opportunity for interested parties to file comments, in the manner and within the time set forth below. The Commission will consider all filed comments, together with the public conference record and all other submittals in any of the above-docketed matters which have been submitted to the Commission, before taking any final action in these dockets.

Fundamentally, the questions which the Commission is here considering are twofold: First, we are considering the proposed settlement rates, charges, terms, and conditions of Fuel Conservation rate schedules as summarized in Exhibit C (Revised April 12, 1974), as developed in the conference record (E–8589), TR 1010–1013, 690–875, and as identified hereinafter as Appendix A (Revised April 22, 1974), which record was transmitted to the Commission by staff on April 16, 1974; second, the Commission is considering Motions, Protest and Petitions filed by the City of Richmond, Indiana, owner of Richmond Power & Light, and Congressman Michael J. Harrington, at various times, March 28, 1974, April 8, 1974, and April 15, 1974,[2] all of which oppose the proposed settlement basis for fuel conservation energy transfer arrangements and rates and charges for fuel conservation services among a number of utilities. The proposed settlement rates and charges were negotiated under the aegis of a staff conducted public conference called by the Commission in order to cope with national fuel oil shortage conditions occasioned in 1973 and 1974. The record which has been developed is a public conference type record, not an adjudicatory adversary record in which factual data are developed through direct and cross-examination procedures. The Commission's order of January 11, 1974, Order Directing Clarification of Pleading and Fixing Staff Conference, in Docket No. E–8589, established a public conference procedure. The City and Congressman Harrington have requested a hearing. This notice provides that hearing. The Commission intends to prescribe the lawful rates, charges, terms and conditions for Fuel Conservation services in this rulemaking proceeding.

The gravamen of City's objections and Congressman Harrington's objections are not clear. On the one hand, these petitioners appear to be attacking the whole fuel conservation energy transfer program of the utilities, the structure of the electric utility industry and the proposed settlement rates and charges, particularly those involving transmission services. Petitioners appear to favor an incremental cost justification. Among their objections, the following criticisms appear:

Petitions to Intervene, Protests and Motions of Richmond Power & Light, filed April 15, 1974, Docket No. E–8550, et al.

Page 8—"It is improper to disguise transmission rates as purchase and resale middleman rates, particularly where the transmitter is given unabridged control over the selection of purchasers and the quantity of purchases."

Page 8—"No mechanism is established whereby sellers and ultimate purchasers can do business directly with each other, and whereby Sellers can compete with each other on the basis of economics to make such sales, and ultimate purchasers can similarly compete for purchases."

Petition of Congressman Michael J. Harrington To Protest, For Leave To Intervene For Rejection of and Public Hearings on Filings, filed April 15, 1974, Docket No. E–8550, et al.

Page 4—"The Commission should issue orders revising the present policy in such a way that any utility may buy power from any other utility in the nation and be assured of transmission, if capacity is available, between the two points, at incremental transmission costs, not an arbitrary negotiated price."

On the other hand, Richmond Power & Light's Motion of March 28, 1974, repeated in its April 15, 1974, Petition, appears to favor certain of the settlement rates and charges (those with respect to generation) since the City states that it would engage in fuel conservation energy transfers on that basis (Petition, pp. 3–4). See also, Richmond's April 22, 1974, Reply, footnote 2, supra, (p. 2).

The Commission desires to have an evidentiary record before it in these proceedings, in passing upon the proposed settlement rates and charges, and in considering the objections thereto of the City of Richmond. Congressman Harrington or others. In particular, the Commission directs all parties having fuel conservation rate schedules proffered to the Commission in these matters to submit all cost or other justification of the proposed rates and charges for the fuel conservation energy transfers which they propose to rely upon, as well as the submission of cost or other data by any other party proffered in opposition. Specifically, the Commission desires a further explanation and development through a detailed statement of positions by the City and Congressman Harrington, as to how this Commission should grant the substantive relief they seek, other than with respect to rates and charges, and by what legal authority it would grant their requests. The Commission desires to have the cost data presentations which the City and Congressman Harrington wish the Commission to consider. The Commission desires any responses thereto by any affected interests.

The Commission believes that in these dockets it should adopt the informal hearing procedure of the Administrative Procedure Act to set rates and charges for fuel conservation services. We have legal authority for so doing. U.S. v. Florida East Coast Ry., 410 U.S. 224 (1973); Phillips Petroleum Co. v. FPC, 475 F. 2d 842 (10th Cir. 1973), cert. denied sub nom. Chevron Oil Co., et al, v. FPC, No. 73–91, 42 USLW 3401 (January 14, 1974); and U.S. v. Allegheny-Ludlum Steel Corp., 406 U.S. 742 (1972). There has not been an evidentiary hearing in various pending proceedings in Appalachian Power Company, et al., Docket Nos. E–8550, E–8565, E–8567, E–8591 and E–8614. The petitions and protests of the City of Richmond, Indiana, and Congressman Harrington request an evidentiary hearing. This notice affords that hearing. The various pleadings of the City and Congressman Harrington which were filed with the Commission after the conclusion of the April 11, 1974, public conference make it inappropriate for the

[1] See Appendix C hereto for a list of all pending docketed rate filings involving Fuel Conservation Power and Energy, pursuant to settlement agreement in Docket No. E–8589.

[2] The latest filing by the City of Richmond being "RP&L Reply to Answer of Appalachian Power Company, et al., filed April 16, 1974", which was filed by Richmond on April 22, 1974.

V 39 I 90 MAY 8 74 XUM

Commission to adopt the procedural recommendations of Commission staff, on the conference record, for the disposition of these matters.

Pending the conclusion and final decision of the Commission in this proceeding, the Commission will consider that all settlement rates and charges as set forth in annexed Appendix A (revised) have been conditionally tendered for filing for settlement purposes and that the subject utilities are not seeking to have them become effective within 30 days after filing. However, to insure that no parties' interests are adversely affected, the Commission will, as a matter of course, by separate orders, suspend for one day the effective dates of any rate schedules which are complete and the filing utilities seek to have separately processed subject to the prior notice requirements of the Federal Power Act, 16 U.S.C. 824d. The conference record indicates that all of the subject setttlement rates have been tendered in contemplation of Commission acceptance of the settlement package. All utilities who wish to have their Appendix A filings take effect immediately, shall notify the Commission within five days hereafter of that fact, and individual orders of suspension will be issued.

There are presently pending before the Commission in a number of dockets, petitions to intervene. They are granted as hereinafter ordered.

The Commission orders:

(A) All persons who are party to this proceeding may file written comments pertaining to the proposed settlement on or before May 20, 1974, with the Secretary of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426. Replies to the written comments may be filed with the Secretary of the Commission on or before June 5, 1974. The initial comments and replies thereto shall state the name, title, mailing address and telephone number of the person or persons to whom communications concerning this matter should be addressed. An original and fourteen (14) conformed copies of such comments and replies to such initial comments shall be filed with the Commission, and copies of the initial comments and replies thereto shall be served upon all persons who are parties to this proceeding.

(B) All comments and replies thereto filed in response to this notice shall be under oath, acknowledged by a notary public or comparable official as follows:

----------, being duly
(Name)

sworn, deposes and says that he is (title and organization, if filing is in a representative capacity) authorized to verify and file this document, that he has examined the statement contained in the initial comments or replies thereto, and that all such statements are true and correct to the best of his knowledge, information and belief.

The persons preparing the written comments and replies thereto shall submit such filings on letter size paper (8" by 10½" or 8½" by 11") in accordance with the rules of practice and procedure of the Federal Power Commission.

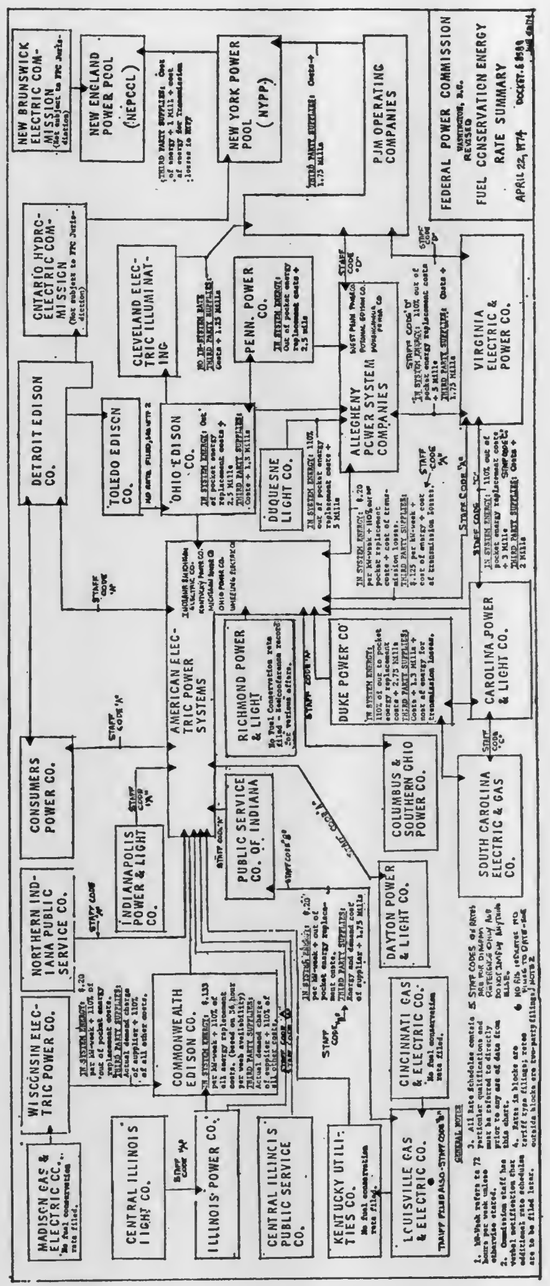
(C) All interested persons who are not now a party to this proceeding may become a party to this proceeding by filing a notice of intention to respond to this notice with the Secretary of the Commission on or before May 17, 1974. Such persons shall accept the record of these proceedings as it is presently constituted and shall limit their comments, and replies to the comments of the other parties, to the matter raised in this notice, the proposed settlement rates, charges, terms and conditions of the rate schedules proposed in these proceedings, and the comments submitted in response to this notice.

(D) The Secretary of the Commission shall cause prompt publication of this notice in the FEDERAL REGISTER and shall serve this notice upon all parties to these proceedings, and to the persons listed on Appendix B hereto.

(E) All persons listed in Appendix D as having filed petitions to intervene in one or more of these proceedings are hereby made parties to these proceedings.

(F) The prehearing conference now set for May 16, 1974, and all further proceedings in Docket Nos. E-8550, E-8565, E-8567, E-8591 and E-8614 (listed in Appendix C hereto), are hereby continued subject to the further order of the Commission.

By direction of the Commission.



KENNETH F. PLUMB,
Secretary.

Docket No. E-8602: Richmond Power & Light Company.

[FR Doc.74-10399 Filed 5-7-74;8:45 am]

[2] All applicants, petitioners, respondents and customers required to file pursuant to section 35 of the Commission's Regulations under the Federal Power Act listed in Appendix hereto, are deemed parties in these proceedings.

[Docket No. E-8726]

CENTRAL ILLINOIS LIGHT CO.

Modification of Interconnection Agreement

MAY 1, 1974.

Take notice that on April 11, 1974, Central Illinois Light Company (Applicant) filed, pursuant to section 35 of the Commission's regulations, a modification to the Interconnection Agreement, dated March 30, 1973, between Applicant and Illinois Power Company. Said Interconnection Agreement has been designated as Applicant's Rate Schedule FPC No. 14 and as Illinois Power Company Rate Schedule FPC No. 63. The modification tendered in this application deals with efforts by the parties toward conservation of fuel.

Service Schedule G in the tendered filing provides for the delivery of "Fuel Conservation Power and Energy" when such service is requested by one party and is available from the supplying party. The application states that neither company has a rate similar to the one set forth in Service Schedule G, and further states that this new rate was arrived at by negotiation.

The proposed effective date for Service Schedule G is April 3, 1974 and the Applicant requests a waiver of the Commission's notice requirements, pursuant to § 35.11 of the regulations.

Illinois Power Company has filed a Certificate of Concurrence in this matter.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 16, 1974, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commisison's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participates as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-10478 Filed 5-7-74;8:45 am]

[Docket No. CP74-267]

COLORADO INTERSTATE GAS CO.

Notice of Application

MAY 1, 1974.

Take notice that on April 18, 1974, Colorado Interstate Gas Company, a division of Colorado Interstate Corporation (Applicant), P.O. Box 1087, Colorado Springs, Colorado 80944, filed in Docket No. CP74-267 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon certain gas purchase facilities in Arapahoe County, Colorado, all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

Applicant proposes to abandon and salvage natural gas purchase meter stations and lateral pipelines at the Bombing Range, Iron Horse and Dragoon II Fields, Arapahoe County, Colorado, which, Applicant states, were constructed pursuant to authority granted by budget-type certificates issued on June 1, 1972 (47 FPC 1439), May 7, 1971 (45 FPC 928), and March 9, 1973 (49 FPC 633), respectively. Applicant states that these facilities are no longer required by Applicant, since Sun Oil Company (Sun) has acquired the rights to all the gas produced from the associated acreage and will process the gas through its Denver Central Plant. Applicant states that it has installed a measurement facility and approximately 0.53 miles of lateral pipeline pursuant to a budget type certificate issued on March 9, 1973 (49 FPC 633), in order to receive said gas at Sun's plant.

In connection with the receipt of gas at a central location, Applicant intends to sell to Sun gathering lines, and dehyject to the jurisdiction of the Commission, with a book value of $84,564, connected to the Herskind No. 1 and Schmidt No. 1 Wells, which wells Sun is currently operating.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 24, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-10479 Filed 5-7-74;8:45 am]

[Docket No. CP74-269]

COLUMBIA GAS TRANSMISSION CORP.

Notice of Application

MAY 1, 1974.

Take notice that on April 19, 1974, Columbia Gas Transmission Corporation (Applicant), 1700 MacCorkle Avenue, SE., Charleston, West Virginia 25314 filed in Docket No. CP74-269 an application pursuant to sections 7 (b) and (c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of a natural gas transmission loop replacement pipeline and an increase in the volumes of natural gas exchanged by it with Washington Gas Light Company (Washington Gas), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to construct and operate approximately 8.4 miles of 36-inch gas transmission pipeline loop in Loudoun County, Virginia, replacing approximately 20.1 miles of existing 26-inch gas transmission pipeline, which has experienced failures during operation and testing, in the same county.[1] Applicant alleges that the capacity of the proposed line is sufficient to replace the loss in capacity due to the retirement of the 20.1 miles of pipeline and that the new capacity will be sufficient to permit the proposed increase in service to Washington Gas.

Applicant states that it was authorized by the Commission in Docket No. CP71-198 on April 26, 1971 (45 FPC 600), to provide an exchange service to Washington Gas pursuant to a letter agreement between Washington Gas and Applicant dated December 15, 1970, which agreement is on file with the Commission as Applicant's Rate Schedule X-30 in its FPC Gas Tariff, Original Volume No. 2. Applicant indicates that it receives 35,000 Mcf of gas per day from Washington Gas' subsidiary, Hampshire Gas Company, at Applicant's Lost River Compressor Station in Hardy County, West Virginia, and that Applicant simultaneously delivers equivalent volumes to Washington Gas at existing points of delivery in Washington Gas' market area. Applicant states that Washington Gas has requested that Applicant increase the existing exchange service from 35,000 Mcf of gas per day to 50,000 Mcf of gas per day. Applicant indicates that it is willing to provide the expanded service to Washington Gas and indicates that the terms and conditions of the new exchange detailed under an April 9, 1974, agreement between Applicant and Washington Gas will be identical to the existing agreement except for the volumes exchanged. The application states that no change is contemplated in the basis of Applicant's charges to Washington Gas and that the identical unit rate is maintained and applied to the proposed increase in exchange volumes.

Applicant estimates that the cost of the proposed construction, including Commission filing fees is $2,710,000, which cost will be financed by the sale of securities to Applicant's parent company, Columbia Gas System, Inc. Applicant also indicates that the estimated net debit to retirement due to the proposed retirement of the 20.1 miles of 26-inch pipeline will be $1,468,105.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 21, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-10480 Filed 5-7-74;8:45 am]

[Docket No. CI74-565]

CORPENING ENTERPRISES

Notice of Application

MAY 1, 1974.

Take notice that on April 12, 1974, A. V. Corpening, Jr., d/b/a Corpening Enterprises (Applicant), 1308 Continental National Bank Building, Fort Worth, Texas 76102, filed in Docket No. CI74-565 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Northern Natural Gas Company (Northern) from Gaines County, Texas, all as more fully set forth in an application which is on file with the Commission and open to public inspection.

Applicant states that it began an emergency sale of gas to Northern from subject gathering facilities on March 14, 1974, for 180 days within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale after the emergency period for a term of one year at 45.0 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment, within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant proposes to sell up to 2,000 Mcf of gas per day and estimates monthly gas sales to be 60,000 Mcf.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 21, 1974, file with the Federal Power Com-

[1] The application indicates that 21,634 feet of 26-inch pipe will be removed, 32,777 feet of 26-inch pipe will be utilized in place as ground bed, and the remaining 51,458 feet of 26-inch pipe will be retired in place.

XUM

mission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds a grant of the certificate required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI74-564]

DALLAS OIL & GAS, INC.

Notice of Application

MAY 1, 1974.

Take notice that on April 12, 1974, Dallas Oil & Gas, Inc. (Applicant), Suite 101, 2995 L.B.J. Freeway, Dallas, Texas 75234, filed in Docket No. CI74-564 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale of natural gas in interstate commerce to Trunkline Gas Company (Trunkline) from the Scott Field, Wharton County, Texas, all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

Applicant states that it began an emergency sale of natural gas from the subject acreage to Trunkline on February 8, 1974, for 180 days within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale after the emergency period for one year at 55.0 cents per Mcf at 14.65 psia within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant estimates monthly deliveries of gas to Trunkline at 90,000 Mcf.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 21, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8744]

DELMARVA POWER AND LIGHT CO.

Change in Rate Schedule

MAY 1, 1974.

Take notice that on April 22, 1974 Delmarva Power and Light Company (Delmarva) tendered for filing a change in rate schedule. Delmarva states that its five percent rate increase is due to the Delaware five percent utilities tax which became effective January 1, 1974 for sales to Delaware municipalities made under Delmarva's FPC Electric Tariff, Volume No. 4, and Rate Schedule FPC No. 35, Supplement No. 1. Delmarva states that the Delaware Utilities Tax will accordingly require an increase in charges to its customers from and after January 1, 1974 in an amount necessary to recover such additional tax.

As provided in the "Tax Provision" clause in FPC Electric Tariff, Volume No. 4 and FPC Rate Schedule No. 35, Supplement No. 1, all billings to Delmarva wholesale for resale customers under such tariff and such rate schedule are increased by 5 percent, the amount of the tax. This amount is remitted upon collection, in its totality, to the State of Delaware.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 15, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc. 74-10482 Filed 5-7-74;8:45 am]

[Docket No. CI74-580]

GETTY OIL CO.

Notice of Application

MAY 1, 1974.

Take notice that on March 29, 1974, Getty Oil Company (Applicant), P.O. Box 1404, Houston, Texas 77001, filed in Docket No. CI74-580 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon the sale of natural gas in interstate commerce to Skelly Oil Company (Skelly) from acreage in Lea County, New Mexico, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it proposes to abandon the sale of gas to Skelly from the Blinebry, et al., Field, in Lea County, New Mexico, which has been made pursuant to a percentage-type contract with Skelly. Applicant states that as oil wells, the casinghead gas therefrom is dedicated to Skelly and as gas wells, the gas-well gas is not dedicated to Skelly. Applicant states that it proposes to abandon the subject sale because the New Mexico Oil Conservation Commission has reclassified the wells from oil wells to gas wells; and, therefore, Skelly is no longer contractually entitled to the gas from said wells.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 24, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Rate Schedule Nos. 59, etc.]

TENNECO OIL CO. AND MONSANTO CO.

Rate Change Filings

MAY 1, 1974.

Take notice that the producers listed in the Appendix attached below have filed proposed increased rates to the applicable area new gas ceiling based on the interpretation of vintaging concepts set forth by the Commission in its Opinion No. 639, issued December 12, 1972.

The information relevant to each of these sales is listed in the Appendix.

Any person desiring to be heard or to make any protest with reference to said filings should on or before May 24, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any party wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8365]

KANSAS CITY POWER & LIGHT CO.

Filing of Motion To Accept Settlement Agreement

MAY 1, 1974.

Take notice that on April 26, 1974, Kansas City Power and Light Company (KCPL) filed in the above-referenced docket a Motion requesting that the Commission (a) accept a Settlement Agreement, and (b) issue an Order (i) accepting and putting into effect the revised schedules conditionally filed with the Commission's Secretary, and (ii) terminating the proceedings in this docket without further conferences or hearings herein. According to KCPL, the settlement agreement entered into with KCPL's cooperative wholesale customers, with the approval of the Commission's staff, would resolve all issues between KCPL and the parties to these proceedings. Under such settlement agreement and the revised schedules conditionally filed therewith, KCPL's proposed $743,773 increase in annual revenues based on sales to wholesale customers during the 12-month test period ended December 31, 1972, would be reduced to $530,819.

Any party to these proceedings desiring to protest such motion and settlement agreement should file comments or protests with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with § 1.10 of the Commission's rules of practice and procedure (18 CFR 1.10). All such comments or protests should be filed on or before May 15, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken. Copies of the motion, the settlement agreement, and the revised schedules are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-10485 Filed 5-7-74;8:45 am]

[Docket No. CI74-568]

LOUISIANA LAND AND EXPLORATION CO.

Notice of Application

MAY 1, 1974.

Take notice that on April 12, 1974, The Louisiana Land and Exploration Company (Applicant), P.O. Box 60350, New Orleans, Louisiana 70160, filed in Docket No. CI74-568 an application pursuant to section 7(c) of the Natural Gas Act and § 2.75 of the Commission's general policy and interpretations (18 CFR 2.75) for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Texas Eastern Transmission Company (Texas Eastern), from Block 321, East Cameron Area, offshore Louisiana, all as more fully set forth in an application which is on file with Commission and open to public inspection.

Applicant proposes under the optional gas pricing procedure to sell approximately 60,000 Mcf of gas per month at an initial rate of 60 cents per Mcf at 15.025 psia, subject to upward and downward Btu adjustment, pursuant to a contract dated January 28, 1974. Said contract provides for fixed annual price escalations of 2 cents per Mcf over the 20-year life of the contract and for 7/8ths reimbursement for any new or increased taxes. Applicant requests pregranted abandonment authorization.

Applicant states that the sale is of critical importance in assisting Texas Eastern to meet the firm demands for gas on its system during the contract term, and that the contract price is lower than prices for base load sales of liquefied natural gas or synthetic gas and prices for peak shaving sales of LNG for which applications for authorization are pending before, or have been approved by, the Commission.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 21, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own re-

V 39 90 MAY 8 74 XUM

view of the matter finds a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-10486 Filed 5-7-74;8:45 am]

[Docket No. CI74-575]

MESA PETROLEUM CO.

Notice of Application

MAY 1, 1974.

Take notice that on April 18, 1974, the Mesa Petroleum Co. (Applicant), P.O. Box 2009, Amarillo, Texas 79105, filed in Docket No. CI74-575 an application pursuant to section 7(c) of the Natural Gas Act and § 2.75 of the Commission's general policy and interpretations (18 CFR 2.75) for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Transcontinental Gas Pipe Line Corporation (Transco) from the Block 22-L Field, High Island Area, offshore Jefferson County, Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell under the optional gas pricing procedure natural gas to Transco from the subject acreage at an initial price of 45.0 cents per Mcf at 14.65 psia. The contract for the subject sale dated April 16, 1974, provides for 0.5 cent per Mcf per year price escalations, reimbursement to seller of 87.5 percent of any new or additional taxes, and a contract term of 20 years from the date of initial delivery. Applicant estimates sales volumes will be 5,000 Mcf per day.

Applicant states that the contract price is lower than prices in recently executed and certificated interstate contracts and low in comparison wih recent intrastate contract prices and is, therefore, a bargain for the interstate market. Applicant further states that Transco and its customers would be forced to pay considerably more for alternate or substitute fuels.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 24, 1974 file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP72-279]

NATURAL GAS PIPELINE COMPANY OF AMERICA

Amendment to Petition

MAY 1, 1974.

Take notice that on April 18, 1974, Natural Gas Pipeline Company of America (Petitioner), 122 South Michigan Avenue, Chicago, Illinois 60603, filed in Docket No. CP72-279 an amendment to its petition to amend the order of the Commission issued pursuant to section 7(c) of the Natural Gas Act in said docket on December 6, 1972 (48 FPC 1206), as amended October 9, 1973 (50 FPC), to delete the Town of Corn, Oklahoma (Corn), from the list of participating customers in the storage service described in said petition to amend, due notice of which was given by the Commission in the FEDERAL REGISTER on February 15, 1974 (39 FR 5818), all as more fully set forth in the amendment to the petition to amend, which is on file with the Commission and open to public inspection.

In the instant amendment Petitioner is deleting Corn from among those customers participating in Petitioner's 100-day storage service of 59,100 Mcf of gas per day, provided under Petitioner's FPC Rate Schedule S-3, which service Petitioner proposes to continue until February 28, 1975. Petitioner states that Corn has declined the storage service due to financial circumstances. Petitioner further intends to reallocate Corn's share of 18 Mcf per day to the following customers:

	Thousand cubic feet
The Peoples Gas Light & Coke Co.	13
North Shore Gas Co.	2
Illinois Power Co.	2
Iowa Electric Light & Power Co.	1
Total	18

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before May 21, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[Docket No. E-8742]

NEW YORK STATE ELECTRIC AND GAS CORP.

Amendment to Agreement

APRIL 30, 1974.

Take notice that on April 17, 1974, New York State Electric and Gas Corporation (NYSEG) tendered for filing a letter agreement, dated February 21, 1974, which constitutes an amendment to its agreement, NYSEG FPC 48, dated March 12, 1970, among NYSEG, Port Authority of the State of New York, Niagara Mohawk Power Corporation and Rochester Gas and Electric Corporation. NYSEG states the said amendment extends the terms of the said agreement to November 1, 1974. According to NYSEG, the said agreement provides for the sale by NYSEG, Niagara Mohawk and Rochester Gas and Electric to the Power Authority of the State of New York of up to 200,000 kilowatts of power for supplying specified high load factor manufacturers.

NYSEG requests an effective date of April 1, 1974, for said amendment.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 13, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-10489 Filed 5-7-74;8:45 am]

[Docket Nos. CP70-69, etc., RP74-80]

NORTHERN NATURAL GAS CO.

Petition to Amend

MAY 1, 1974.

Take notice that on April 19, 1974, Northern Natural Gas Company (Petitioner), 2223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP70-69, et al., a petition to amend the order accompanying Opinion No. 618 issued in said dockets on May 11, 1972 (47 FPC 1202), pursuant to section 3 of the Natural Gas Act, which order authorized Applicant to export natural gas to Canada from Montana and to import gas from Canada, by authorizing Petitioner to include in its cost of service an amount derived upon the basis of a lesser volume of exported gas, all as more fully set forth in the petition to amend which is on file with the Commission and open to public inspection.

The importation authorized by the subject order is subject to the condition that in any rate filing made by Petitioner pursuant to section 4(e) of the Natural Gas Act for an increase in jurisdictional rates to become effective within eight years from the date of initial delivery of Montana gas, Petitioner shall not include in its total cost of service a cost of service for Montana gas delivered into the system of Trans Canada Pipe Lines Ltd. (Trans Canada) which, calculated on a unit basis, exceeds the unit cost of service derived by utilizing an annual delivered volume of 41 million Mcf, minus estimated company use gas, at the point where gas is introduced into Trans Canada's system. Petitioner requests that it no longer be subject to this condition.

Petitioner states that the projected delivery of 41 million Mcf of natural gas from its Montana reserves has not occurred as expected because of the inadequate rate of drilling, which is due to the lack of incentive supplied the producers under the present area rate of 23.5 cents per Mcf and because of inadequate production history that had to be used in predicting the output for the Tiger Ridge Field, which is Petitioner's principal area of reserves in Montana. Petitioner submits that in 1973 production from the Montana reserves dedicated to Petitioner was 29 million Mcf and that testimony by Petitioner in support of its rate filing in Docket No. RP74-80 will reflect production of 26 million Mcf for 1974. Petitioner further states that it has contracted to increase the base price for natural gas delivered at the wellhead in the Tiger Ridge-Bullhook and Sherard Areas of Montana to 40 cents per Mcf.

Petitioner requests a hearing on the instant petition and further requests that this matter be consolidated with the proceeding on the change in rate proposed in Docket No. RP74-80.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before May 21, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10), and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.74-10491 Filed 5-7-74;8:45 am]

[Docket No. E-8739]

OKLAHOMA GAS AND ELECTRIC CO.

Cancellation of Rate Schedule

APRIL 30, 1974.

Take notice that on April 16, 1974 Oklahoma Gas and Electric Company (Oklahoma) tendered for filing notice of cancellation Rate Schedule Supplement No. 16 to FPC No. 21A, dated December 30, 1973. Oklahoma states the above mentioned Rate Schedule shall be completed under the provisions of its own terms on May 31, 1974.

Oklahoma proposes an effective date of May 31, 1974 for said cancellation.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 10, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of the filing are on file with the Commission and are available for public inspection.

Secretary.

[FR Doc.74-10492 Filed 5-7-74;8:45 am]

[Docket No. E-8741]

POTOMAC ELECTRIC POWER CO. AND SOUTHERN MARYLAND ELECTRIC CO-OPERATIVE, INC.

Notice of Complaint

MAY 1, 1974.

Take notice that on April 18, 1974, Potomac Electric Power Company (PEPCO) filed with the Commission a complaint against Southern Maryland Electric Cooperative, Inc. (SMECO) pursuant to section 206 of the Federal Power Act, and supporting testimony and exhibits, seeking a determination that the present rates for sale of electric energy to SMECO are unjust and unreasonable because they are so low as to adversely affect the public interest. PEPCO states that the present rates to SMECO are fixed by a full requirements contract entered into in 1963 which cannot expire by process of its own terms before August 1978. PEPCO alleges that the rate of return from sales to SMECO in calendar 1973, 1.41 percent, and in calendar 1974, —.57 percent, are so low as to adversely affect the public interest because they result in confiscation of PEPCO property. PEPCO further alleges that the contract rates are unjust, unreasonable, unduly preferential and discriminatory, and unlawful in that they result in the sale of energy significantly below cost at the time of energy emergency declared by this Commission.

Any person desiring to be heard or to protest said complaint should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 20, 1974. Protests will be considered by the Commisison in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI74-581]

SKELLY OIL CO.

Notice of Application

MAY 1, 1974.

On April 1, 1974, Skelly Oil Company (Applicant), P.O. Box 1650, Tulsa, Okla-

V 39 I 90
MAY 8 74
XUM

homa 74102, filed in Docket No. CI74–581 an application pursuant to section 7(b) of the Natural Gas Act for permission and approval to abandon a sale of natural gas in interstate commerce in Winkler County, Texas, to Texaco Inc. (Texaco), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that it proposes to abandon the sale of gas to Texaco from the South Kermit Field, Winkler County, Texas, which has been made pursuant to a percentage-type contract with Texaco. Applicant states that as oil wells, the casinghead gas therefrom is dedicated to Texaco, and as gas wells the gas-well gas is not dedicated to Texaco. Applicant states that it proposes to abandon the subject sale because the Texas Railroad Commission has reclassified the wells from oil wells to gas wells; and, therefore, Texaco is no longer contractually entitled to the gas from the subject acreage. Applicant states that it is currently negotiating with Transwestern Pipeline Company (Transwestern), the purchaser of the residue gas from Texaco an agreement under which it can sell the gas-well gas to Transwestern initially within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and then within contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70).

Any person desiring to be heard or to make any protest with reference to said application should on or before May 24, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. E–8743]

ST. JOSEPH LIGHT & POWER CO.

Notice of Rate Schedule

MAY 1, 1974.

Take notice that on April 18, 1974, St. Joseph Light and Power Company (St. Joseph) tendered for filing as an initial rate schedule a Power Flow Agreement dated December 31, 1968, between St. Joseph and Iowa Power and Light Company.

St. Joseph states the said Agreement provides for the transformation of electric energy from 345 KV to 161 KV at the St. Joseph Substation and the transmission of this energy to a point of interconnection between the parties at the Iowa-Missouri State Line. St. Joseph further states the charges for such service for a one-year period immediately following the commencement of service are estimated to be $49,200 payable in monthly installments.

St. Joseph proposes an effective date of June 1, 1974, for said Agreement.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE, Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before May 15, 1974. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI74–569]

TEXACO INC.

Notice of Application

MAY 1, 1974.

Take notice that on April 15, 1974, Texaco Inc. (Applicant), P.O. Box 430, Bellaire, Texas 77401, filed in Docket No. CI74–569 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Natural Gas Pipeline Company of America (Natural) from the Block 88 Field, High Island Area, offshore Texas, all as more fully set forth in an application which is on file with the Commission and open to public inspection.

Applicant proposes to sell to Natural approximately 20,000 Mcf of gas per day for one year commencing May 31, 1974, at 45.0 cents per million Btu at 14.65 psia within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70).

Any person desiring to be heard or to make any protest with reference to said application should on or before May 21, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI74–573]

UNION OIL COMPANY OF CALIFORNIA

Notice of Application

MAY 1, 1974.

Take notice that on April 18, 1974, Union Oil Company of California (Applicant), P.O. Box 7600, Los Angeles, California 90051, filed in Docket No. CI74–573 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Texas Gas Transmission Corporation (Texas Gas), from the R. Parker Well No. 1, East Angelita Area, San Patricio County, Texas, all as more fully set forth in the application, which is on file with the Commission and open to public inspection.

Applicant states that it commenced a sixty-day emergency sale of natural gas to Texas Gas from said well within the contemplation of § 157.29 of the regulations under the Natural Gas Act (18 CFR 157.29) and proposes to continue said sale for three years from the end of the emergency period at 70.0 cents per Mcf at 14.65 psia, subject to upward and downward Btu adjustment from a base of 1,000 Btu per cubic foot within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70). Applicant estimates monthly deliveries of gas to Texas Gas at 54,000 Mcf.

Any person desiring to be heard or to make any protest with reference to said application should on or before May 24, 1974, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

IMPORTATION AND PRICE OF NATURAL GAS UNDER EXPORT FROM DOMINION OF CANADA

Notice of Public Conference

MAY 3, 1974.

A public conference between members of the Federal Power Commission staff and representatives of Northwest Pipeline Corporation, Great Lakes Gas Transmission Company, Midwestern Gas Transmission Corporation, Michigan-Wisconsin Pipeline Company, Natural Gas Pipeline Company of American and Pacific Gas Transmission Company will be held in a Hearing Room at the Federal Power Commission offices, 825 North Capitol Street, NE., Washington, D.C., on Friday, May 10, 1974, at 9:30 A.M. to discuss the importation and price of natural gas under export from the Dominion of Canada.

The conference has been called pursuant to a request of Northwest Pipeline Corporation (Northwest). Northwest states that it has contacted representatives of present holders of Section 3 import authorizations, including Great Lakes Gas Transmission Company, Midwestern Gas Transmission, Michigan-Wisconsin Pipeline Company, Natural Gas Pipeline Company of America, and Pacific Gas Transmission Company, and that these representatives either support or have no objection to the convening of such a conference. Northwest also states that it has undertaken to notify each of its customers and state regulatory commissions and has solicited the cooperation of each of the above-named companies in doing the same.

INTERSTATE COMMERCE COMMISSION

[Notice No. 502]

ASSIGNMENT OF HEARINGS

MAY 2, 1974.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after May 8, 1974.

MC–F–11626, Eastern Freight Ways, Inc.—Investigation of Control—Associated Transport, Inc., now assigned May 13, 1974, at Washington, D.C., is postponed to June 24, 1974, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC–F–11632, Eastern Freight Ways, Inc.—Control and Merger—Associated Transport, Inc., now assigned May 13, 1974, at Washington, D.C., is postponed to June 24, 1974, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 138928 Sub 2, Gencom, Inc., now assigned June 11, 1974, will be held in Room 609, Federal Office Bldg., 911 Walnut St., Kansas City, Mo.

MC 133777 Sub-8, Metal Carriers, Inc., now assigned June 17, 1974; MC 135874 Sub-31, LTL Perishables, Inc., now assigned June 19, 1974; and I & S No. 8930, Export Rates to Gulf Ports, Burlington Northern Inc., now assigned June 24, 1974, at Kansas City, Mo., will be held in Room 609, Federal Office Building, 911 Walnut St.

MC–F–12038, Arrow Motor Freight Line, Inc.—Control & Merger—Rite-Way Trucking Co., now assigned June 5, 1974, will be held in Room 609, Federal Office Bldg., 911 Walnut Street, Kansas City, Mo.

MC 111231 Sub 183, Jones Truck Lines, Inc., now assigned June 12, 1974, will be held in Room 609, Federal Office Bldg., 911 Walnut St., Kansas City, Mo.

MC 114632 Sub 65, Apple Lines, Inc., now assigned June 10, 1974, will be held in Room 609, Federal Office Bldg., 911 Walnut St., Kansas City, Mo.

MC 128981 Sub 7, Land-Air Delivery, Inc., now assigned June 3, 1974, will be held in Room 609, Federal Office Bldg., 911 Walnut St., Kansas City, Mo.

Valuation Docket No. 1423 (1971 Report), Williams Brothers Pipeling Company now assigned pre-hearing conference May 15, 1974, at Washington, D.C., is postponed indefinitely.

[SEAL] ROBERT L. OSWALD,
Secretary.

[FR Doc.74–10504 Filed 5–7–74;8:45 am]

FOURTH SECTION APPLICATION FOR RELIEF

MAY 2, 1974.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the general rules of practice (49 CFR 1100.40) and filed on or before May 23, 1974.

FSA No. 42830—*Fruits and Vegetables Between Points in Colorado and Utah and Points in WTL, Official, Southern and Southwestern Territories.* Filed by Western Trunk Line Committee, Agent, (No. A–2703), for interested rail carriers. Rates on fruits, fresh, or vegetables, fresh or green (not cold-pack nor frozen), in carloads, as described in the application, between points in Colorado and Utah (west of ICC Docket 28300 Boundary), on the one hand, and points in western trunk-line, official, southern and southwestern territories, on the other.

Grounds for relief—Market competition, modified short-line distance formula and grouping.

Tariffs—Western Trunk Line Committee, Agent, tariff 491, I.C.C. No. A–4927, and supplement 57 to Southwestern Freight Bureau, Agent, tariff SW/W–2006–J, I.C.C. No. 5056. Rates are published to become effective on May 31, 1974.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

ern Inc.; Chicago and North Western Transportation Company; Chicago, Milwaukee, St. Paul and Pacific Railroad Company; Chicago, Rock Island and Pacific Railroad Company; Illinois Central Gulf Railroad Company; Missouri Pacific Railroad Company; Norfolk and Western Railway Company; St. Louis-San Francisco Railway Company; Soo Line Railroad Company; Union Pacific Railroad Company.

It appearing, That there are massive movements of grain, including rice and soybeans, in progress in the states of Arkansas, Iowa, Kansas, Minnesota, Mississippi, Missouri, Montana, Nebraska, North Dakota, Oklahoma, South Dakota, and Texas, and of cotton in certain of the aforementioned states; that present supplies of plain boxcars owned by the railroads serving these states are inadequate to move the newly harvested grain and cotton to terminal facilities for safe storage; that use of available plain boxcars owned by other carriers for movements of this grain and cotton will substantially augment the car supplies of the railroads named herein.

It is ordered, That pursuant to the authority vested in me by Car Service Rule 19, the railroads named herein, and their short line connections, are hereby authorized to use and to accept from shippers shipments of grain and cotton originating at stations located in Arkansas, Iowa, Kansas, Minnesota, Mississippi, Missouri, Montana, Nebraska, North Dakota, Oklahoma, South Dakota, and Texas, when loaded into plain 40-ft. narrow-door boxcars of various ownerships without regard to the requirements of Car Service Rule 2.

Exception. This exemption shall not apply to plain boxcars subject to *Interstate Commerce Commission Revised Service Order No. 1174, or to Association of American Railroads' Car Relocation Directives Nos. 44 and 67; *nor to plain boxcars bearing reporting marks assigned to The Atchison, Topeka, and Santa Fe Railway Company, the Chicago, Milwaukee, St. Paul and Pacific Railroad Company, or the Soo Line Railroad Company.

Effective 12:01 a.m., April 25, 1974.

Expires 11:59 p.m., May 31, 1974.

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before May 27, 1974. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-75017. By order entered May 1, 1974, the Motor Carrier Board approved the transfer to P & G Motor Express, Inc., St. Louis, Ill., of the operating rights set forth in Certificate No. MC-60879, issued December 3, 1963, to F. T. Trucking Co., Inc., East St. Louis, Ill., authorizing the transportation of general commodities, with the usual exceptions, between Marine, Ill., and St. Louis, Mo., over specified routes, serving the intermediate and off-route points of Troy and Saint Jacob, Ill., and those within one mile of Troy, Ill.; those within one mile of Saint Jacob, Ill.; and those within five miles of Marine, Ill. Ernest A. Brooks II, 1301-02 Ambassador Building, St. Louis, Mo. 63101, attorney for applicants.

No. MC-FC-75068. By order entered May 1, 1974, the Motor Carrier Board approved the transfer to Evans Trucking Co., an Ohio corporation, Beaver Falls, Pa. of the operating rights set forth in Certificates Nos. MC-52464 and MC-52464 (Sub-No. 3), issued August 15, 1967, and August 17, 1970, respectively, to Evans Trucking Co., a Pennsylvania Corporation, Beaver Falls, Pa., authorizing the transportation of iron and steel articles, machinery, electrical equipment, iron castings, and empty reels used in transporting wire, sand, general commodities, with the usual exceptions, alloys and alloy scrap, scrap ferro-alloys and ferro-alloy fines, refractories, crucibles, grinding wheels, refractory cements and alloys, scrap refractory materials and scrap grinding-wheel materials, and abrasive grains, from, to, or between points in Maryland, Michigan, New York, Ohio, Pennsylvania, and West Virginia. David A. Turano, 100 East Broad Street, Columbus, Ohio 43215, attorney for applicants.

No. MC-FC-75080. By order entered May 1, 1974, the Motor Carrier Board approved the tarnsfer to Computer Specialists, North Bergen, N.J. of the operating rights set forth in Certificate No. MC-41688, issued December 3, 1969, to Thompson Brothers Moving, Inc., North Hackensack, N.J., authorizing the transportation of household goods as defined by the Commission, between points in Bergen, Passaic, Hudson, Union, Essex, and Morris Counties, N.J., on the one hand, and, on the other, points in New Jersey, New York, Pennsylvania, Connecticut, Massachusetts, Ohio, Maryland, and the District of Columbia. Robert B. Pepper, 168 Woodbridge Ave., Highland Park, N.J. 08904, practitioner for applicants.

No. MC-FC-75092. By order entered May 1, 1974, the Motor Carrier Board approved the transfer to Donald W. Kamann, doing business as Bigfork Valley Express, Bigfork, Minn., of the operating rights set forth in Certificate of Registration No. MC-85522 (Sub-No. 1), issued July 23, 1964, to Clarence York, Sr., doing business as Bigfork Valley Express, Bigfork, Minn., evidencing a right to engage in transportation in interstate or foreign commerce of freight between specified points in Minnesota. F. H. Kroeger, 1745 University Ave., St. Paul, Minn. 55104, practitioner for applicants.

No. MC-FC-75093. By order of April 30, 1974, the Motor Carrier Board approved the transfer to Bay Area-Los Angeles Express, Inc., San Francisco, Calif., of a portion of Certificate of Registration No. MC-71920 (Sub-No. 6), issued July 28, 1965, to Progressive Transportation Company, a corporation, Compton, Calif., evidencing the authority to perform a transportation service in interstate or foreign commerce corresponding in scope to that portion of the intrastate authority granted in Decision No. 61309 dated January 4, 1961, as amended by Decision No. 63045 dated January 9, 1962, by the Public Utilities Commission of the State of California which authorized the transportation of general commodities between all points in the Los Angeles Basin Territory on the one hand, and, on the other, points in the San Francisco Territory, with certain restrictions. Mr. Donald Murchison, Attorney at Law, 9454 Wilshire Boulevard, Suite 400, Beverly Hills, Calif. 90212.

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY-ELIMINATION OF GATEWAY LETTER NOTICES

MAY 2, 1974.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination rules (49 CFR 1065(a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before May 20, 1974. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will not operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC-11207 (Sub-No. E-4), filed April 28, 1974. APPLICANT: Deaton, Inc., P.O. Box 938, Birmingham, Alabama 35201. Applicant's representative: C. N. Knox (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plywood*, from points in Manatee County, Fla., to points in Oklahoma and Texas. The purpose of this filing is to eliminate the gateway of Taylorsville, Miss.

No. MC-41404 (Sub-No. E1), filed April 22, 1974. APPLICANT: Argo-Collier Truck Lines Corp., P.O. Box 440, Martin, Tenn. 38237. Applicant's representative: Mark L. Horne (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bananas*, from Charleston, S.C., to Chicago, Ill., and points in Illinois within 200 miles of Chicago, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Atlanta, Ga.

No. MC-52657 (Sub-No. E2), filed April 19, 1974. APPLICANT: Arco Auto Carriers, Inc., 2140 West 79th Street, Chicago, Ill. 60620. Applicant's representative: S. J. Zangri (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *refuse containers* (except those having a capacity of 5 gallons or less, or those having a capacity of 9 cubic feet or less, only when moving in mixed shipments with bodies or hoists or both), from Exeter, Pa., to points in the United States on and west of the Mississippi River, including Alaska but excluding Hawaii, and points in Illinois, Minnesota, and Wisconsin, restricted against the transportation of refuse containers which because of size or weight require the use of special equipment; (2) *freight containers*, from Lansdale, Pa., to points in California, Oregon, and Washington; and (3) *new foreign-made automobiles* in secondary movements in truckaway service, (a) from Naperville, Ill., to points in Connecticut, Delaware, Florida, Georgia, Kansas, Louisiana, Maine, Maryland, Massachusetts, Montana, New Hampshire, New Jersey, New York, North Carolina, North Dakota, Rhode Island, South Carolina, South Dakota, Utah, Vermont, Virginia, Wyoming, and the District of Columbia; (b) from Naperville, Ill., to points in Alabama, on and south of a line beginning at the Alabama-Georgia State line near Cedartown, Ga., over U.S. Highway 411 to junction U.S. Highway 278 at Gadsden, Ala., thence over U.S. Highway 278 to junction U.S. Highway 11, thence over U.S. Highway 11 via Birmingham, Ala., to junction Interstate Highways 59 and 20, thence over Interstate Highways 59 and 20 to junction U.S. Highway 82, thence over U.S. Highway 82 via Tuscaloosa, Ala., to the Alabama-Mississippi State line; (c) from Naperville, Ill., to points in Arkansas south of a line beginning at the Oklahoma-Arkansas State line near Ft. Smith, Ark., along the Arkansas River to the Mississippi River near Rosedale, Miss.; and Russellville, Ark.; (d) from Naperville, Ill., to points in Mississippi on and south of a line beginning at the Arkansas-Mississippi State line near Rosedale, Miss., east over Mississippi Highway 8 to junction U.S. Highway 278, thence over U.S. Highway 278 to the Mississippi-Alabama State line near Sulligent, Ala.; (e) from Naperville, Ill., to points in Nebraska on and west of a line beginning at the Nebraska-South Dakota State line near Anoka, Nebr., south over Nebraska Highway 11 to junc-

V 39 I 90 MAY 8 74 XUM

tion Nebraska Highway 70, thence over Nebraska Highway 58 to junction Nebraska Highway 58, thence south over Nebraska Highway 58 to junction Nebraska Highway 10, thence over Nebraska Highway 10 to the Kansas-Nebraska State line near Franklin, Nebr.; (f) from Naperville, Ill., to points in Pennsylvania on and east of a line beginning at the Pennsylvania-New York State line south over U.S. Highway 62 to junction Pennsylvania Highway 948, thence over Pennsylvania Highway 948 to junction Pennsylvania Highway 66, thence west over Pennsylvania Highway 66 to junction Pennsylvania Highway 899, thence south over Pennsylvania Highway 899 to junction Pennsylvania Highway 36, thence over Pennsylvania Highway 36 to junction U.S. Highway 119, thence southwest over U.S. Highway 119 to junction U.S. Highway 70, thence over U.S. Highway 70 to junction Pennsylvania Highway 51, thence south over Pennsylvania Highway 51 to junction U.S. Highway 119, thence over U.S. Highway 119 to the Pennsylvania-West Virginia State line near Point Marion, Pa.; (g) from Walbridge, Ohio, to points in Louisiana (except those points east of a line beginning at the Mississippi-Louisiana State line south along the Amite River to junction Louisiana Highway 22 near Head of Island, La., thence west over Louisiana Highway 22 to the Mississippi River, thence along the Mississippi River to junction Louisiana Highway 20 near Vacherie, La., thence south over Louisiana Highway 20 to junction U.S. Highway 90 at Gibson, La., thence west over U.S. Highway 90 to the Lower Atchafalaya River near Amelia, La., thence south along the Lower Atchafalaya River to the Gulf of Mexico), Kansas, Montana, Nebraska, North Dakota, South Dakota, Utah, and Wyoming; and (h) from Columbus, Ohio, to points in Montana, Nebraska, North Dakota, South Dakota, Utah, and Wyoming. The purpose of this filing is to eliminate the gateway of Lima, Ohio, in (1); Ft. Wayne, Ind., in (2); and Kenosha, Wis., in (3).

No. MC-65941 (Sub-No. E4), filed April 11, 1974. APPLICANT: Tower Lines, Inc., P.O. Box 6010, Wheeling, W. Va. 26003. Applicant's representative: George W. Thieroff (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Electrical equipment and fixtures*, from points in that part of Pennsylvania bounded by a line beginning at the Ohio-Pennsylvania State line, thence along U.S. Highway 422 to Pennsylvania Highway 66, thence along Pennsylvania Highway 66 to U.S. Highway 119, thence along U.S. Highway 119 to the Pennsylvania-West Virginia State line, thence along the Pennsylvania-West Virginia State line to the Pennsylvania-Ohio State line, thence along the Pennsylvania-Ohio State line to point of beginning including points on the indicated portions of the highways specified to points in that part of Georgia on and north of a line beginning at a point east of Savannah on the Atlantic Coast and extending along U.S. Highway 50 to junction U.S. Highway 280, thence along U.S. Highway 280 to the Georgia-Alabama State line, and south of a line beginning at Augusta, Ga., and extending along U.S. Highway 1 to Louisville, Ga., thence along Georgia Highway 24 to junction Georgia Highway 22, thence along Georgia Highway 22 to Macon, Ga., and thence along U.S. Highway 80 to the Georgia-Alabama State line. The purpose of this filing is to eliminate the gateway of Glen Dale, W. Va.

No. MC-65941 (Sub-No. E6), filed April 11, 1974. APPLICANT: Tower Lines, Inc., P.O. Box 6010, Wheeling, W. Va. 26003. Applicant's representative: George V. Thieroff (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Empty compressed-gas cylinders*, from points in North Carolina anu South Carolina on, north, and west of U.S. Highway 1, and points in Georgia on, and, north, of a line extending from the Atlantic Ocean along U.S. Highway 80 to junction U.S. Highway 280 thence along U.S. Highway 280 to the Georgia-Alabama State line to points in that part of Pennsylvania bounded by a line beginning at the Ohio-Pennsylvania state line, thence along U.S. Highway 422 to Pennsylvania Highway 66, thence along Pennsylvania Highway 66 to U.S. Highway 119, thence along U.S. Highway 119 to the Pennsylvania-West Virginia state line, thence along the Pennsylvania-West Virginia state line to the Pennsylvania-Ohio state line, thence along the Pennsylvania-Ohio state line to point of beginning including points on the indicated portions of the highways specified. The purpose of this filing is to eliminate the gateway of Natrium, W. Va.

No. MC-95540 (Sub-No. E 36), filed April 15, 1974. APPLICANT: Watkins Motor Lines, Inc., P.O. Box 1636, Atlanta, Ga. 30301. Applicant's representative: Clyde W. Carver, Suite 212 5299 Rosewell Road NE., Atlanta, Ga. 30342. ties (except commodities in bulk and automobiles), between Clarence E. Hancock Airport, Onondaga County, N.Y., and La Guardia Airport, New York, N.Y., restricted to the transportation of traffic having a prior or subsequent movement by air. The purpose of this filing is to eliminate the gateway of Schenectady Airport, Schenectady County, N.Y.

No. MC–128383 (Sub-No. E17), filed April 26, 1974. APPLICANT: Pinto Trucking Service, Inc., 1414 Calcon Hook Road, Sharon Hill, Pa. 19079. Applicant's representative: Gerald K. Gimmel, 303 N. Frederick Ave., Gaithersburg, Md. 20760. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except commodities in bulk and automobiles), between Rochester-Monroe County Airport, Monroe County, N.Y., and Philadelphia International Airport, Philadelphia, Pa., restricted to the transportation of traffic having a prior or subsequent movement by air. The purpose of this filing is to eliminate the gateway of Chemung County Airport, Chemung County, N.Y.

By the Commission.

[Notice No. 16]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

MAY 3, 1974.

The following letter-notices of proposals (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969 (49 CFR 1042.4(c)(11)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.4(c)(11)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.4(c)(12) at any time, but will not operate to stay commencement of the proposed operations unless filed on or before June 7, 1974.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules-Motor Carriers of Property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PROPERTY

No. MC–29910 (Deviation No. 29), ARKANSAS-BEST FREIGHT SYSTEM, INC., 301 S. 11th Street, Fort Smith, Arkansas, 72901, filed April 19, 1974. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Little Rock over U.S. Highway 167 to junction Louisiana Highway 9 at or near Junction City, Ark., thence over Louisiana Highway 9 to junction U.S. Highway 79 at or near Homer, La., thence over U.S. Highway 79 to junction Interstate Highway 20 at or near Doyline, La., thence over Interstate Highway 20 to Shreveport, La., and return over the same route, for operating convenience only. The notice indicated that the carrier is presently authorized to transport the same commodities over pertinent service routes as follow: (1) From Little Rock, Ark., over Interstate 30 to junction U.S. Highway 67, thence over U.S. Highway 67 to Hope, Ark., and (2) From Hope, Ark., over Arkansas Highway 29 to the Arkansas-Louisiana State line, thence over Highway 3 to junction U.S: Highway 80, thence over U.S. Highway 80 to Shreveport, and return over the same routes.

No. MC–42487 (Deviation No. 105), CONSOLIDATED FREIGHTWAYS CORPORATION OF DELAWARE, 7101 South Cicero Avenue, Chicago, Illinois 60629, filed April 26, 1974. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Sherman, Tex., over unnumbered highway (formerly portion U.S. Highway 75) to junction U.S. Highway 75, thence over U.S. Highway 75 to Atoka, Oklahoma, thence over U.S. Highway 69 to junction Interstate Highway 44, thence over Interstate Highway 44 to Springfield, Mo., thence over Missouri Highway 13 to junction Missouri Highway 7 near Clinton, Mo., thence over Missouri Highway 7 to junction U.S. Highway 71 near Harrisonville, Mo., thence over U.S. Highway 71 to Kansas City Mo., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the some commodities over pertinent service routes as follows: From Sherman, Tex., over unnumbered highway (formerly portion of U.S. Highway 75) to junction U.S. Highway 75, thence over U.S. Highway 75 to junction unnumbered highway (formerly portion U.S. Highway 75), near Preston, Oklahoma, thence over unnumbered highway via Sapulpa, Oklahoma, to Tulsa, Oklahoma, thence over U.S. Highway 75 via Bartlesville, Oklahoma to Independence, Kansas, thence over U.S. Highway 160 to Cherryvale, Kans., thence over U.S. Highway 169 to junction U.S. Highway 59, thence over U.S. Highway 59 to junction U.S. Highway 50, thence over U.S. Highway 50 to junction U.S. Highway 169, thence over U.S. Highway 169 to junction Kansas Highway 7, thence over Kansas Highway 7 to Olathe, Kansas, thence over Kansas Highway 150 to junction U.S. Highway 169, thence over U.S. Highway 169 to Kansas City, Mo., and return over the same route.

No. MC–59680 (Deviation No. 89), STRICKLAND TRANSPORTATION CO., INC., P.O. Box 5689, Dallas, Texas 75222, filed March 27, 1974. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Cleveland, Ohio, over U.S. Highway 21 to junction Interstate Highway 77, thence over Interstate Highway 77 to junction Interstate Highway 80, thence over Interstate Highway 80 to junction Interstate Highway 95, thence over Interstate Highway 95 to Newark, N.J., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Cleveland, Ohio, over U.S. Highway 21 to the Ohio Turnpike, thence over the Ohio Turnpike to the Pennsylvania Turnpike, thence over the Pennsylvania Turnpike to Newark, N.J., and return over the same route.

No. MC–59680 (Deviation No. 90), STRICKLAND TRANSPORTATION CO., INC., P.O. Box 5689, Dallas, Texas 75222, filed March 27, 1974. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Cleveland, Ohio, over U.S. Highway 21 to junction Interstate Highway 77, thence over Interstate Highway 77 to junction Interstate Highway 80, thence over Interstate Highway 80 to junction Interstate Highway 280, thence over Interstate Highway 280 to Newark, N.J., and return over the same route, for operating convenience only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Cleveland, Ohio, over U.S. Highway 21 to junction the Ohio Turnpike, thence over the Ohio Turnpike to junction the Pennsylvania Turnpike, thence over the Pennsylvania Turnpike to junction the New Jersey Turnpike, thence over the New Jersey Turnpike to Newark, N.J., and return over the same route.

No. MC–75320 (Deviation No. 52), CAMPBELL "66" EXPRESS, INC., P.O. Box 807, Springfield, Missouri 65801, filed April 22, 1974. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *general commodities*, with certain exceptions, over a deviation route as follows: From Afton, Okla., over U.S. Highway 66 to junction U.S. Highway 59, thence over U.S. Highway 59 to junction of Oklahoma Highway 33, thence over Oklahoma Highway 33 to junction U.S. Highway 69, thence over U.S. Highway 69 to junction U.S. Highway 64, thence over U.S. Highway 64 to junction U.S. Highway 266, thence over U.S. Highway 266 to junction U.S. Highway 69, thence over U.S. Highway 69 to junction U.S. Highway 75, thence over U.S. Highway 75 to junction Texas Highway 121, thence over Texas Highway 121 to Fort Worth, Tex., and return over the same route, for operating conveni-

V 39 I 90 MAY 8 74 XUM

ence only. The notice indicates that the carrier is presently authorized to transport the same commodities over a pertinent service route as follows: From Afton, Okla., over U.S. Highway 66 to Tulsa, Okla., thence over Interstate Highway 44 (Turner Turnpike) to junction Oklahoma Highway 18, then over Oklahoma Highway 18 to junction U.S. Highway 177, thence over U.S. Highway 177 to junction U.S. Highway 70, thence over U.S. Highway 70 to junction Oklahoma Highway 79, thence over Oklahoma Highway 79 to the Oklahoma-Texas State line, thence over Texas Highway 79 to Wichita Falls, Texas, thence over U.S. Highway 281 to junction of U.S. Highway 180 at or near Mineral Wells, Texas., thence over U.S. Highway 180 to Fort Worth, Texas, and return over the same route.

By the Commission.

[Notice No. 37]

MOTOR CARRIER APPLICATIONS AND CERTAIN OTHER PROCEEDINGS

MAY 3, 1974.

The following publications (except as otherwise specifically noted, each applicant (on applications filed after March 27, 1972) states that there will be no significant effect on the quality of the human environment resulting from approval of its application), are governed by the new Special Rule 1100.247 of the Commission's Rules of Practice, published in the FEDERAL REGISTER, issue of December 3, 1963, which became effective January 1, 1964.

The publications hereinafter set forth reflect the scope of the applications as filed by applicant, and may include descriptions, restrictions, or limitations which are not in a form acceptable to the Commission. Authority which ultimately may be granted as a result of the applications here noticed will not necessarily reflect the phraseology set forth in the application as filed, but also will eliminate any restrictions which are not acceptable by the Commission.

MOTOR CARRIERS OF PROPERTY

No. MC 98869 (Sub-No. 5) (Republication), filed September 6, 1973, and published in the FEDERAL REGISTER issue of November 15, 1973, and republished this issue. Applicant: KOSCHKEE TRANSFER, INC., Rural Route 1, Fennimore, Wis. 53809. Applicant's representative: Michael J. Wyngaard, 329 West Wilson Street, Madison, Wis. 53703. An Order of the Commission, Operating Rights Board, dated March 29, 1974, and served April 25, 1974, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over regular routes, of *general commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment) (1) between the junction of U.S. Highway 18 and Wisconsin Highway 80 and the junction of U.S. Highway 18 and Wisconsin Highway 133, from the junction of U.S. Highway 18 and Wisconsin Highway 80 at or near Cobb, Wis., thence north over Wisconsin Highway 80 to junction Wisconsin Highway 133, thence west over Wisconsin Highway 133 to junction U.S. Highway 18 at or near Mt. Hope, Wis., and return over the same route, serving all intermediate points, and the off-route point of Avoca, Wis.; (2) between the junction of U.S. Highway 18 and Wisconsin Highway 39, and the junction of Wisconsin Highway 39 and Wisconsin Highway 78, over Wisconsin Highway 39, serving all intermediate points; (3) between Boscobel, Wis., and Bridgeport, Wis., from Boscobel over U.S. Highway 61 to junction Wisconsin Highway 60, thence over Wisconsin Highway 60 to Bridgeport, and return over the same route, serving all intermediate points, and (4) between Montfort, Wis., and Highland, Wis., over Iowa County Highway "I", serving all intermediate points; that applicant is fit, willing, and able properly to perform such service to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 115481 (Sub-No. 5) (REPUBLICATION), filed September 14, 1973, and published in the FR issue of November 15, 1973, and republished this issue. Applicant: GILCHRIST BROS., INC., Coastwide and Tyler Streets, Port Newark, N.J. 07114. Applicant's representative: Morton E. Kiel, Suite 6193, 5 World Trade Center, New York, N.Y. 10048. An Order of the Commission, Operating Rights Board, dated March 29, 1974, and served April 25, 1974, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, of *lumber* from Elizabeth, N.J., to New York, N.Y., and points in Dutchess, Orange, Nassau, Putnam, Rockland, Suffolk, Sullivan, Ulster, and Westchester Counties, N.Y., and Passaic, Bergen, Essex, Hudson, Union, Somerset, Mercer, Middlesex, Monmouth, and Ocean Counties, N.J., that applicant is fit, willing, and able to properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to include Mercer County, N.J. as a destination point. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 128339 (Sub-No. 3) (REPUBLICATION), filed June 27, 1973, and published in the FR issue of September 7, 1973, and republished this issue. Applicant: REGISTER VAN & STORAGE COMPANY, INC., 1371 Jacqueline Drive, Columbus, Ga. 31906. Applicant's representative: C. E. Walker, Suite 307, First National Bank Building, P.O. Box 1085, Columbus, Ga. 31906. An Order of the Commission, Operating Rights Board, dated March 20, 1974, and served April 12, 1974, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, of (1) *general commodities* (except commodities in bulk, motor vehicles, and Classes A and B explosives), in shipper or railroad owned trailers, (2) *shipper-and railroad-owned trailers*, between Columbus, Ga., on the one hand, and, on the other, points in Harris, Meriwether, Talbot, Taylor, Marion, Webster, Quitman, Chattachoochee, Stewart, and Schley Counties, Ga., restricted to the transportation of traffic having a prior or subsequent movement in rail trailer or flatcar service; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 128685 (Sub-No. 17) (REPUBLICATION), filed October 23, 1973, and published in the FR issue of December 13, 1973, and republished this issue. Applicant: DIXON BROS., INC., P.O. Box 636, New Castle, Wyo. 82701. Applicant's representative: Robert S. Stauffer, 3539 Boston Road, Cheyenne, Wyo. 82001.

An Order of the Commission, Operating Rights Board, dated April 10, 1974, and served April 29, 1974, finds that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a *common carrier* by motor vehicle, over irregular routes, of *building materials, supplies* used in the construction of buildings, and *cabinets, floor coverings, furnaces, plumbing fixtures, kitchen appliances* and other such *items* used in the completion of new residential buildings from the plant site and warehouse facilities of Nordaas American Homes, at or near Minnesota Lake, Minn., to points in Colorado, Montana, Nebraska, North Dakota, South Dakota, and Wyoming; that applicant is fit, willing, and able properly to perform such service and Interstate Commerce Act and the Commission's rules and regulations thereto conform to the requirements of the under. The purpose of this republication is to accurately describe the commodities for which the supporting shipper has requested transportation service. Because it is possible that other parties who have relied upon in the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a Certificate in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 136069 (Sub-No. 1) (REPUBLICATION), filed October 15, 1971, and published in the FR issue of December 16, 1971, and republished this issue. Applicant: COIN DEVICES CORP., 64 Broad Street, Elizabeth, N.J. 07201. Applicant's representative: Robert B. Pepper, 174 Brower Avenue, Edison, N.J. 08817. A Decision and Order of the Commission, Division 1, dated April 18, 1974, and served April 26, 1974, finds that the present and future public convenience and necessity require operation by applicant in interstate or foreign commerce, as a *contract carrier*, by motor vehicle, over irregular routes, of (1) *coins, currency, and checks* (a) between Elizabeth, N.J., on the one hand, and, on the other, Paramus, N.J., and Nanuet, N.Y., under a continuing contract or contracts with Bamberger's, of Newark, N.J., and of (2) *coins, currency, and checks* between Elizabeth, N.J., and New York, N.Y., under a continuing contract or contracts with The National State Bank of Elizabeth, N.J., that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder. The purpose of this republication is to show that authority has been granted for operations between Elizabeth and Paramus, N.J. Because it is possible that other parties who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described above, issuance of a permit in this proceeding will be withheld for a period of 30 days from the date of this publication of the authority actually granted, during which period any proper party in interest may file an appropriate petition for intervention or other relief in this proceeding setting forth in detail the precise manner in which it has been so prejudiced.

No. MC 30226 (Sub-No. 5) (Notice of filing of petition to modify permit), filed April 15, 1974. Petitioner: HOWELL TRUCKING COMPANY, INC., One Frozen Food Plaza, Secucus, N.J. 07094. Petitioner's representative: Martin Werner, 2 West 45th Street, New York, N.Y. 10036. Petitioner holds a motor *contract carrier*, permit in No. MC 30226 (Sub-No. 5) issued September 22, 1972, authorizing transportation, over irregular routes of, (1) *frozen foods and foods, other than frozen*, in vehicles equipped with mechanical refrigeration, from New York, N.Y., and Jersey City, N.J., to points in New Jersey, Fairfield County, Conn., and Dutchess, Nassau, Orange, Putnam, Rockland, Suffolk, Ulster, and Westchester Counties, N.Y.; and (2) *returned shipments of foods*, in vehicles equipped with mechanical refrigeration (except commodities in tank and hopper-type vehicles), from points in New Jersey, Fairfield County, Conn., and Dutchess, Nassau, Orange, Putnam, Rockland, Suffolk, Ulster, and Westchester Counties, N.Y., to New York, N.Y., and Jersey City, N.J., under a continuing contract with The Great Atlantic and Pacific Tea Company, Inc., of New York, N.Y., Gristede Bros., Inc., of New York, N.Y., and Anderson, Clayton & Co., of Dallas, Tex. By the instant petition, petitioner seeks to delete Gristede Bros., Inc., as a contracting shipper and substitute in lieu thereof The Merchants Refrigerating Company as an additional contracting shipper. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 45877 (Notice of filing of petition to modify a commodity description), filed April 17, 1974. Petitioner: FINKLE'S EXPRESS, INC., P.O. Box 682, Allwood Station, Clifton, N.J. 07012. Petitioner's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, N.J. 07306. Petitioner holds a motor *contract carrier* permit in No. MC 45877, issued March 14, 1942, authorizing transportation, over irregular routes, of *crude rubber, rubber products, and materials and supplies* used or useful in the manufacture and processing of rubber and rubber products, (1) between points in Bergen, Passaic, Hudson, Essex, Morris, Union, Somerset, and Middlesex Counties, N.J. on the one hand, and, on the other, New York, N.Y., and points in Westchester and Nassau Counties, N.Y.; and (2) between Butler, Clifton, Newark, and Passaic, N.J., on the one hand, and, on the other, points in Hudson, Essex, Passaic, and Morris Counties, N.J. By the instant petition, petitioner seeks to modify its commodity description to read: "*Crude synthetics, synthetic products*, and materials and supplies used or useful in the manufacture and processing of synthetics and synthetic products." Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 78332 (Notice of filing of petition for modification clarification and amendment of certificate), filed April 22, 1974. Petitioner: NYLANTIC FREIGHT LINES, INC., 1415 Boston Post Road, Larchmont, N.Y. 10538. Petitioner's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, N.J. 07306. By Order of the Commission in No MC–FC–74980, served March 1, 1974, and consummated March 26, 1974, petitioner holds motor *common carrier* authority in No. MC 78332, to transport, *household goods* as defined by the Commission, and *loft and factory equipment and stock*, between New York, N.Y., on the one hand, and, on the other, points in Connecticut and New Jersey. By the instant petition, petitioner seeks (1) that the Commission issue an appropriate order that the petitioner be empowered and permitted to designate as its terminal area, all points within which local operations may be conducted in the New York, N.Y., Commercial Zone as established by the Commission, or in the alternative, amend its territorial description to read: "between the New York, N.Y., Commercial Zone, as defined in *Commercial Zones and Terminal Areas*, 53 M.C.C. 451, within which local operations may be conducted pursuant to the partial exemption of section 203(b)(8) of the Interstate Commerce Act, (the 'exempt zone') and those points in New Jersey within 5 miles of New York, N.Y., and all of any municipality in New Jersey any part of which is within 5 miles of New York, N.Y." Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 89523 (Sub-Nos. 11, 18, and 20) (Notice of filing of petition to extend commodity descriptions), filed April 17, 1974. Petitioner: MID-STATES TRUCKING CO., a Corporation, 514 East Hackberry, P.O. Box 3186, Enid, Okla. 7370. Petitioner's representative: Billy R. Reid, 6108 Sharon Road, Fort Worth, Tex. 76116. Petitioner holds motor *contract carrier* permits in No. MC 89523 (Sub-Nos. 11, 18, and 20) issue June 5, 1967, August 26, 1970, and April 27, 1972, respectively, authorizing transportation, over irregular routes, of in Sub-No. 11, *sodium hypochlorite solution*, in containers, from Houston, Tex., to points

V 39 I 90 MAY 8 74 XUM

in that part of Oklahoma on and south of U.S. Highway 64, in Sub-No. 18, *sodium hydroxide solutions and dry laundry bleach*, in containers, from Houston, Tex., to points in Oklahoma; and in Sub-No. 20, *household, laundry, and cleaning compounds and supplies, and animal litter*, from Houston, Tex., to points in Oklahoma; in Sub-Nos. 11, 18, and 20, under a continuing contract or contracts with the Clorox Company. By the instant petition, petitioner seeks to extend the commodity description stated in each of the subs above, by adding the following: "cooking oil packaged in aerosol cans that is sprayed into cooking utensils to allow nonstick, burn-free frying and cooking." Any interested person or persons desiring to participate may file an original and six copies of his written representations, views, or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

No. MC 94901 (Sub-No. 1) (Notice of filing of petition to modify a commodity description), filed April 11, 1974. Petitioner: EDDY MOVING AND STORAGE CO., INC., 31 Merritt St., Port Chester, N.Y. 10573. Petitioner's representative: William P. Jackson and Terry P. Wilson, 919 18th Street NW., Washington, D.C. 20006. Petitioner holds a motor *common carrier* certificate in No. MC 94901 (Sub-No. 1) issued January 17, 1969, authorizing transportation, over irregular routes, of *computer tapes, cards, documents and records*, between points in Bergen County, N.J., on the one hand, and, on the other, points in Westchester, Dutchess and Ulster Counties, N.Y., restricted to the transportation of packages of not more than 50 pounds each. By the instant petition, petitioner seeks to modify its commodity description to read: "computer tapes, cards, documents, records, printed matter, and machine parts, and equipment, materials and supplies used in the manufacture, sale or service of business machine." Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the Federal Register.

No. MC 105350 (Sub-Nos. 10 and 13) (Notice of filing of petition to renew explosives authority), filed April 15, 1974. Petitioner: NORTH PARK TRANSPORTATION COMPANY, 5150 Columbine St., Denver, Colo. 80216. Petitioner's representative: Leslie R. Kehl, Suite 1600 Lincoln Center, 1660 Lincoln St., Denver, Colo. 80203. Petitioner holds motor *common carrier* certificates in No. MC 105350 (Sub-Nos. 10 and 13) issued July 2, 1956 and August 14, 1968, authorizing transportation, over regular routes, of in Sub-No. 10, *general commodities* (except those of unusual value, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), (1) Between Denver, Colo., and Kremmling, Colo., serving the intermediate points of Empire, Colo., and all intermediate points between Kremmling and Empire: From Denver over U.S. Highway 6 to Idaho Springs, Colo. (also from Denver over U.S. Highway 40 to Idaho Springs), thence over U.S. Highway 40 to Kremmling, and return over the same route; and (2) Between junction U.S. Highways 40 and 34, near Granby, Colo., and Grand Lake, Colo., serving all intermediate points: From junction U.S. Highways 40 and 34 near Granby over U.S. Highway 34 to Grand Lake, and return over the same route; and in Sub-No. 13, *general commodities* (except petroleum and petroleum products, in bulk, in tank vehicles, commodities of unusual value, household goods as defined by the Commission, commodities in bulk, and those commodities requiring the use of special equipment) Between Parshall, Colo., and the terminus of Williams Fork Road in Colorado, Serving all intermediate points and all off-route points in Grand County, Colo., South of U.S. Highway 40: From Parshall over unnumbered highway (Williams Fork Road) to its terminus, and return over the same route. By the instant petition, petitioner seeks to renew its explosives authority contained in the sub-nos. specified above. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the Federal Register.

No. MC 123005 (Sub-No. 2) (Notice of filing of petition to eliminate a service restriction), filed April 22, 1974. Petitioner: THE LUPER TRANSPORTATION COMPANY, a Corporation, 350 East 21st, Wichita, Kans. 67214. Petitioner's representative: Noal Albert (same address as petitioner). Petitioner holds a motor *common carrier* certificate in No. MC 123004 (Sub-No. 2) issued August 3, 1973, authorizing transportation, over irregular routes, of (1) *meats, meat products and meat by-products, dairy products, and articles distributed by meat packinghouses*, as described in Sections A, B, and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, and hides and skins), (a) between Wichita, Kans., on the one hand, and, on the other, Memphis, Tenn., points in that part of Missouri on and south of a line beginning at the Mississippi River on the east and extending westerly along U.S. Highway 60 to junction Missouri Highway 5 near Mansfield, Mo., thence northerly along Missouri Highway 5 to junction U.S. Highway 54 near Camdenton, Mo., thence westerly along U.S. Highway 54 to the Kansas-Missouri State Boundary line, points in that part of New Mexico on and east of a line beginning at the New Mexico-Oklahoma State Boundary line, and extending westerly along U.S. Highway 64 to Clayton, N. Mex., thence southerly along New Mexico Highway 18 to junction U.S. Highway 54 near Tucumcari, N. Mex., thence southerly along U.S. Highway 54 to Alamogordo, N. Mex., thence southwesterly along U.S. Highway 70 to Las Cruces, N. Mex., thence southerly along U.S. Highway 80 to the Texas-New Mexico State Boundary line, and points in Arkansas, Louisiana, Oklahoma, and Texas; and (b) between Arkansas City, Kans., on the one hand, and, on the other, Memphis, Tenn., and points in Arizona, Arkansas, New Mexico, Oklahoma, and Texas; and (2) *such commodities* as are used by meat packers in the conduct of their business when destined to and for use by meat packers, as described in Section D of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk, in tank vehicles) and *butter, cheese and oleomargarine*, from Memphis, Tenn., points in that part of Missouri on and south of a line beginning at the Missouri-Kansas State Boundary line and extending easterly along U.S. Highway 54 to Camdenton, Mo., thence southerly along Missouri Highway 5 to Mansfield, Mo., and thence easterly along U.S. Highway 60 to the Mississippi River, and points in Arkansas, Louisiana, Oklahoma and Texas, to Wichita, Kans., restricted in (1) and (2) above to traffic originating at the named points of origin, and destined to the named points of destination.

By the instant petition, petitioner seeks to eliminate the service restriction so as to allow interline and interchange service.

NOTE.—No reference is made to petitioner's request that the authority be restricted against tacking pursuant to the Commission's order in Gateway Elimination, 119 MCC 530, codified at 49 CFR 1065. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the Federal Register.

No. MC 133794 (Sub-No. 1) (notice of filing of petition an origin point and a contracting shipper) filed April 18, 1974. Petitioner: CONVERTERS TRANSPORTATION, INC., Box 351, Garnerville, N.Y. 10923. Petitioner's representative: Edward L. Nehez, 10 East 40th Street, New York, N.Y. 10016. Petitioner holds a motor *contract carrier* permit in No. MC 133794 (Sub-No. 1) issued January 22, 1971, authorizing transportation, over irregular routes, of *piece goods and materials and supplies* used in the dyeing or finishing of piece goods, between the plantsite of Elk Piece Dye Works, Inc., Garnerville, N.Y., on the one hand, and, on the other, points in Bergen, Essex, Hudson, Union, and Passaic Counties, N.J., and points in that part of the New York, N.Y., Commercial Zone as defined in *Commercial Zones and Terminal Areas*, 53 M.C.C. 451, within which local operations may be conducted pursuant to the partial exemption of section 203(b)(8) of the Act (the "exempt zone") under a continuing contract with Elk Piece Dye Works, Inc. By the instant petition, petitioner seeks to add the plant site of S D Sales Corp., Garnerville, N.Y., as a point of origin and add S D. Sales Corp., as an additional contracting shipper. Any interested person

or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the Federal Register.

No. MC 135963 (notice of filing of petition to add a terminal point), filed April 24, 1974. Petitioner: J.T.F. SHUTTLE CO., INC., 345 Soundview Avenue, Bronx, N.Y. 10472. Petitioner's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, N.J. 07306. Petitioner holds a motor *contract carrier* permit in No. MC 135963, issued January 26, 1973, authorizing transportation, over irregular routes, of *such commodities* as are sold by retail mail order houses, between points in the New York, N.Y., Commercial Zone as described by the Commission in the report in *New York, N.Y. Commercial Zone*, I.M.C.C. 665, White Plains, N.Y., Providence, R.I., and Webster, Springfield, and Boston, Mass. By the instant petition, petitioner seeks to add Baltic, Conn., as an additional terminal point. Any interested person or persons desiring to participate may file an original and six copies of his written representations, views or arguments in support of or against the petition within 30 days from the date of publication in the FEDERAL REGISTER.

APPLICATIONS UNDER SECTIONS 5 AND 210a(b)

The following applications are governed by the Interstate Commerce Commission's Special Rules governing notice of filing of application by motor carriers of property or passengers under Sections 5(a) and 210a(b) of the Interstate Commerce Act and certain other proceedings with respect thereto. (49 CFR 1.240).

MOTOR CARRIERS OF PROPERTY

APPLICATIONS FOR CERTIFICATES OR PERMITS WHICH ARE TO BE PROCESSED CONCURRENTLY WITH APPLICATIONS UNDER SECTION 5 GOVERNED BY SPECIAL RULE 240 TO THE EXTENT APPLICABLE

No. MC 1936 (Sub-No. 40), filed March 28, 1974. Applicant: B & P MOTOR EXPRESS, INC., 720 Gross Street, Pittsburgh, Pa. 15224. Applicant's representative: Herbert Burstein, 1 World Trade Center, New York, N.Y. 10048. Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: General commodities (except articles of unusual value, dangerous explosives articles; liquid commodities in tank vehicles, heavy machinery and equipment, building materials, household goods; office and store equipment, building materials usually hauled in dump trucks; livestock, motor vehicles), between points in the industrial, commercial and terminal area of Chicago, including Chicago, Ill.

NOTE.—Common control may be involved. The purpose of this application is to convert the Certificate of Registration issue under MC-124041 and subs thereunder to a Certificate of Public Convenience and Necessity. This is a matter directly related to the Section 5 proceeding in MC-F-12181 published in the FR issue of April 10, 1974. If a hearing is deemed necessary, applicant requests it be held at Chicago, Ill.

No. MC 2202 (Sub-No. 464), filed April 16, 1974. Applicant: ROADWAY EXPRESS, INC., 1077 Gorge Boulevard, P.O. Box 471, Akron, Ohio 44309. Applicant's representative: William O. Turney, 2001 Massachusetts Avenue NW., Washington, D.C. 20036. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, (1) Between Texarkana and Corning, Ark. serving all intermediate points: From Texarkana over U.S. Highway 67 to Corning, and return over the same route; (2) Between Texarkana and El Dorado, Ark., serving all intermediate points: From Texarkana over U.S. Highway 82 to El Dorado, and return over the same route; (3) Between El Dorado and Little Rock, Ark., serving all intermediate points: From El Dorado over U.S. Highway 167 to Little Rock, and return over the same route; (4) Between El Dorado and Camden, Ark., serving all intermediate points between El Dorado and Smackover: From El Dorado over Arkansas Highway 7 to Camden, and return over the same route; (5) Between Magnolia and Marianna, Ark., serving all intermediate points: From Magnolia over U.S. Highway 79 to Marianna, and return over the same route; (6) Between Conway and Eudora, Ark., serving all intermediate points: From Conway over U.S. Highway 65 to Eudora, and return over the same route; (7) Between Wilmot and the junction of U.S. Highways 165 and 65, serving all intermediate points: From Wilmot over U.S. Highway 165 to junction U.S. Highway 65, and return over the same route; (8) Between Crossett and Hamburg, Ark., serving all intermediate points: From Crosset over U.S. termediate points: From Hamburg over Highway 82 to Hamburg, and return over the same route; (9) Between Hamburg, and the junction of Arkansas Highway 81 and U.S. Highway 65, serving all intermediate points: From Hamburg over Arkansas Highway 81 to junction U.S. Highway 65, and return over the same route;

(10) Between Warren and Pine Bluff, Ark., serving all intermediate points: From Warren over Arkansas Highway 15 to Pine Bluff, and return over the same route; (11) Between DeWitt and the junction of Arkansas Highway 11 and U.S. Highway 70, serving all intermediate points: From DeWitt over Arkansas Highway 152 to junction Arkansas Highway 11, thence over Arkansas Highway 11 to U.S. Highway 70, and return over the same route; (12) Between Helena and Wynne, Ark., serving all intermediate points: From Helena over U.S. Highway 49 to junction Arkansas Highway 1, thence over Arkansas Highway 1 to Wynne, and return over the same route; (13) Between Little Rock and W. Memphis, Ark., serving all intermediate points: From Little Rock over U.S. Highway 70 to W. Memphis, and return over the same route; (14) Between Jonesboro and W. Memphis, Ark., serving all intermediate points: From Jonesboro over U.S. Highway 63 to W. Memphis, and return over the same route; (15) Between Paragould and Jonesboro, Ark., serving all intermediate points: From Paragould over Arkansas Highway 1 to Jonesboro, and return over the same route; (16) Between Batesville and junction U.S. Highways 167 and 67, serving all intermediate points: From Batesville over U.S. Highway 167 to junction U.S. Highway 67, and return over the same route; (17) Between Batesville and junction of Arkansas Highway 14 and U.S. Highway 63, serving all intermediate points: From Batesville over Arkansas Highway 14 to junction U.S. Highway 63, and return over the same route; (18) Between Fort Smith and Conway, Ark., serving all intermediate points: From Fort Smith over U.S. Highway 64 to Conway, and return over the same route; (19) Between Malvern and Hot Springs, Ark., serving all intermediate points: From Malvern over U.S. Highway 270 to Hot Springs, and return over the same route; (20) Between Hot Springs and Nashville, Ark., serving all intermediate points: From Hot Springs over U.S. Highway 70 to Kirby, thence over Arkansas Highway 27 to Nashville, and return over the same route;

(21) Between Alma and Bentonville, Ark., serving all intermediate points: From Alma over U.S. Highway 71 to Bentonville, and return over the same route; (22) Between Fort Smith and Morrilton, Ark., serving all intermediate points; From Fort Smith over U.S. Highway 71 to Greenwood, thence over Arkansas Highway 10 to Perryville, thence over Arkansas Highway 9 to Morrilton, and return over the same route; (23) Between Perryville and Little Rock, Ark., serving all intermediate points: From Perryville over Arkansas Highway 10 to Little Rock, and return over the same route; (24) Between Arkansas River and Plainview, Ark., serving all intermediate points: From the Arkansas River over Arkansas Highway 60 to Plainview, and return over the same route; (25) Between the junction of Arkansas Highways 60 and 113, and the junction of Arkansas Highways 113 and 10, serving all intermediate points and the off-route point of Fourche: From junction of Arkansas Highways 60 and 113 over Arkansas Highway 113 to junction of Arkansas Highway 10, and return over the same route; (26) Between Ola, Ark., and the junction of Arkansas Highways 7 and 60, serving all intermediate points: From Ola over Arkansas Highway 7 to junction of Arkansas Highway 60, and return over the same route; (27) Between Ola and Rover, Ark., serving all intermediate points and the off-route point of Kingston: From Ola over Arkansas Highway 28 to Rover, and return over the same route; (28) Between Rover and Danville, Ark., serving all intermediate points: From Rover over Arkansas Highway 27 to Danville, and return over the same route; (29) Between Booneville and State Sanatorium, Ark., serving all intermediate points: From Booneville over Arkansas Highway 116 to junction of Arkansas Highway 23, thence over Arkansas High-

V 39 I 90
MAY 8 74
XUM

way 23 to State Sanatorium, and return over the same route;

(30) Between El Dorado, Ark., and the plantsite of Michigan Chemical Corporation south of El Dorado, Ark., serving no intermediate points: From El Dorado over U.S. Highway 167 to junction unnumbered highway, thence west over unnumbered highway to the plantsite of Michigan Chemical Corporation, and return over the same route; and (31) Between El Dorado, Ark., and Fordyce, Ark., over U.S. Highway 167, serving all intermediate points.

NOTE.—Common control may be involved. The purpose of this application is to convert the Certificate of Registration issued to Atlas Transit, Inc., in MC–99695 to a Certificate of Public Convenience and Necessity. This is a matter directly related to the Section 5 proceeding in MC–F–12175 published in the FR issue of April 3, 1974. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C., or Little Rock, Ark.

No. MC 124744 (Sub-No. 89), filed April 17, 1974. Applicant: MIDWEST REFRIGERATED EXPRESS, INC., 4440 Buckingham Avenue, P.O. Box 7344, Omaha, Nebr. 68101. Applicant's representative: Thomas D. Sutherland, P.O. Box 32028, 605 South 14th Street, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Edible bakery supplies*, from the plantsite of Globe Products Company, Inc., in Clifton, N.J., to points in Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Nebraska, Wisconsin, Ohio, Kentucky, and West Virginia.

NOTE.—Common control may be involved. Applicant seeks to acquire the contract carrier authority under MC–133002 and Sub 1 which is the authority this application seeks to convert to common carrier authority. This is a matter directly related to the Section 5 proceeding in MC–F–12157 published in the FEDERAL REGISTER issue of March 13, 1974. If a hearing is deemed necessary, applicant requests it be held at Omaha, Nebr.

No. MC 139625, filed March 25, 1974. Applicant: MEMPHIS-BIRMINGHAM EXPRESS, INC., 618 Hamilton Bank Building, Nashville, Tenn. 37219. Applicant's representative: A. O. Buck (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosive, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), between Memphis, Tenn., and Birmingham, Ala.: From Memphis over U.S. Highway 78 to Birmingham and return over the same route, serving no intermediate points.

NOTE.—Common control may be involved. This application is a matter directly related to a Section 5 proceeding in No. MC–F12178 which has not yet been published in the Federal Register.

No. MC 87103 (Sub-No. 9), filed February 12, 1974. Applicant: MILLER TRANSFER AND RIGGING CO., P.O. Box 6077, Akron, Ohio 44312. Applicant's representative: A. David Millner, 744 Broad Street, Newark, N.J. 07102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Heavy trees, heavy safes, heavy monuments, and heavy machinery* of such size, weight and bulk that the same cannot be transported in any of the common carrier operations serving the territory in question, all of such heavy commodities to be transported in platform equipment between Lansing and various points; (2) *Heavy trees, heavy safes, heavy monuments, and heavy machinery* of such size, weight and bulk that same cannot be transported in any of the common carrier operations serving the territory in question, all of such heavy commodities to be transported in platform equipment between Lansing, Mich. and radius of 35 miles thereof and various Michigan points; and (3) *articles of commodities* of such size, weight to bulk (excluding automobiles and automobile parts which are component part thereof) as to require the use of carry-all, winch or poletrailer, or other special equipment, or which requires rigging by the carrier, between Lansing and a radius of 35 miles thereof on the one hand and various Michigan points.

NOTE.—Common control may be involved. Applicant seeks to acquire the Certificate of Registration issued to Commodore Cartage Company in MC–98835, and in connection with such purchase seeks to convert the Certificate of Registration to a Certificate of Public Convenience and Necessity. This is a matter directly related to the section 5 proceeding in MC–F–11511 published in the FR issue of January 19, 1974. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC–F–11967. (Correction) (CREGER FREIGHT LINES, INC.—PURCHASE—CALVALCADE TRUCKING, INC.), published in the September 6, 1973, issue of the FEDERAL REGISTER on page 24288. Prior notice should be modified to read: CREGER FREIGHT LINES, INC.—CONTROL AND PURCHASE—CALVALCADE TRUCKING, INC.

No. MC–F–12171. (Correction) (DON WARD, INC.—PURCHASE—ESTES TRUCKING CO.), published in the March 27, 1974, issue of the FEDERAL REGISTER on page 11367. Prior notice should have shown the address of Don Ward, Inc., as 241 W. 56th Ave., Denver, CO 80216, and the address of Estes Trucking Co., as 218 E. 5th Ave., Rifle, CO 81650.

No. MC–F–12205. Authority sought for continuance in control by LEASEWAY TRANSPORTATION CORP., 21111 Chagrin Blvd., Cleveland, OH 44122, of DEDICATED FREIGHT SYSTEMS, INC., also of Cleveland, OH 44122, and for acquisition by W. J. O'Neill and P. J. O'Neill, both of Cleveland, OH 44122, of control through the acquisition by LEASEWAY TRANSPORTATION CORP. Applicants' attorney: J. A. Kundtz, 1100 National City Bank Bldg., Cleveland, OH 44114. Operating rights sought are presently pending in No. MC–139583 (Sub-No. 1): Motor vehicle parts and accessories, and related publications, advertising material, and packaging, and shipping supplies, as a contract carrier over irregular routes, between the Ford Marketing Corporation Parts Distribution Center located in Cuyahoga Heights, Ohio, on the one hand, and, on the other, points in Ashland, Ashtabula, Auglaize, Carroll, Columbiana, Coshocton, Crawford, Cuyahoga, Delaware, Erie, Fairfield, Franklin, Geauga, Guernsey, Hancock, Hardin, Holmes, Huron, Knox, Lake, Licking, Logan, Lorain, Mahoning, Marion, Medina, Mercer, Morgan, Morrow, Muskingum, Noble, Ottawa, Perry, Portage, Richland, Sandusky, Seneca, Shelby, Stark, Summit, Trumbull, Tuscarawas, Union, Wayne, and Wyandot Counties, Ohio; Allegany, Cattarugus, Cayuga, Chatauga, Erie, Gennessee, Jefferson, Livingston, Monroe, Niagara, Ontario, Orleans, Oswego, Schuyler, Seneca, Steuben, Wayne, Wyoming, and Yates Counties, N.Y.; and Crawford, Erie, Mercer, Venango, and Warren Counties, Pa., Leaseway presently controls, with Commission approval, Anchor Motor Motor Freight, Inc. (Anchor), which holds contract carrier authority pursuant to permit granted in No. MC–808 and sub-numbered proceedings thereunder, Signal Delivery Service, Inc. (Signal), which holds contract carrier authority under permits granted in No. MC–108393 and sub-numbered proceedings thereunder, Sugar Transport, Inc. (Sugar), which holds contract carrier authority under permits granted in No. MC–115924 and sub-numbered proceedings thereunder, Pep Lines Trucking Co. (Pep), which holds authority as a motor contract carrier under permits granted in No. MC–135280 and sub-numbered proceedings thereunder, and as a motor common carrier under certificates granted in No. MC–120184 and sub-numbered proceedings thereunder, Mitchell Transport, Inc. (Mitchell), which holds authority as a motor common carrier under certificates granted in No. MC–124212 and sub-numbered proceedings thereunder, and Refiners Transport & Terminal Corporation (Refiners), which holds authority as a motor common carrier under certificates granted in No. MC–50069 and sub-numbered proceedings thereunder; Gypsum Haulage, Inc. (Gypsum), which holds authority as a motor contract carrier under permits granted in No. MC–112113 and sub-numbered proceedings thereunder. Application has not been filed for temporary authority under section 210a(b).

NOTE.—MC–139583 (Sub-No. 1), is a matter directly related. The purpose of this application is to seek Commission approval for Leaseway Transportation Corp. to continue in control of Dedicated Freight Systems, Inc., when and if it becomes a motor carrier.

No. MC–F–12206. Authority sought for control by NORTH & SOUTH LINES, INCORPORATED, 1610 South Main St., Harrisonburg, VA 22801, of T. M. ZIMMERMAN COMPANY, P.O. Box 380, Chambersburg, PA 17201, and for acquisition by ROBERT E. PLECKER, also of Harrison, VA 22801, of control of T. M. ZIMMERMAN COMPANY, through the acquisition by NORTH & SOUTH LINES, INCORPORATED. Applicants' attorneys: John R. Sims, Jr., Suite 600, 1707 H St., NW., Washington, DC 20006, and John M. Musselman, P.O. Box 1146, Harrisburg, PA 17108. Operating rights sought to be controlled: *Specified commodities*, as a *common carrier*, over irregular routes, from, to, and between specified points in the States of Pennsylvania, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Delaware, Maryland, West Virginia, Virginia, Ohio, Maine, New Hampshire, Vermont, North Carolina, South Carolina, Missouri, Illinois, Indiana, Michigan, and the District of Columbia, with certain restrictions, as more specifically described in Docket No. MC–112582 and sub-numbers thereunder. This notice does not purport to be a complete description of all of the operating rights of the carrier involved. The foregoing summary is believed to be sufficient for purposes of public notice regarding the nature and extent of this carrier's operating rights, without stating, in full, the entirety, thereof. NORTH & SOUTH LINES, INCORPORATED, is authorized to operate as a *common carrier* in Pennsylvania, Virginia, West Virginia, Delaware, New Jersey, Maryland, North Carolina, and the District of Columbia. Application has been filed for temporary authority under section 210a(b).

NOTE.—MC–107496 (Sub-No. 951), is a matter directly related.

No. MC–F–12208. Authority sought for control by AMERICAN NATIONAL CORPORATION, a noncarrier, 2661 S. Broadway, Green Bay, WI 54304, of NATIONAL REFRIGERATED TRANSPORT, INC., 1925 National Plaza, Tulsa, OK 74151, and for acquisition by AL J. SCHNEIDER AND DONALD J. SCHNEIDER, also of Green Bay, WI 54304, of control of NATIONAL REFRIGERATED TRANSPORT, INC., through the acquisition by AMERICAN NATIONAL CORPORATION. Applicants' attorneys: Charles W. Singer, 2440 E. Commercial Blvd., Ft. Lauderdale, FL 33308, and Leonard A. Jaskiewicz, Suite 501, 1730 M St. NW., Washington, DC 20036. Operating rights sought to be controlled: *Specified commodities*, as a *common carrier* over irregular routes, from, to, and between all specified points in the United States (except Alaska and Hawaii), with restrictions. AMERICAN NATIONAL CORPORATION, holds no authority from this Commission. However, it is affiliated with (1) Schneider Transport & Storage, Inc., 2661 S. Broadway, Green Bay, WI 54304; (2) Schneider Tank Lines, Inc., 200 W. Cecil St., Neenah, WI 54956; and (3) Trans-National Truck, Inc., P.O. Box 4168, Amarillo, TX 79105, which are authorized to operate as *common carriers* in all of the States in the United States (except Alaska and Hawaii). Application has been filed for temporary authority under section 210a(b).

No. MC–F–12209. Authority sought for purchase by C. MALONE TRUCKING, INC., Rear 154 Newton St., Waltham, MA 02154, of the operating rights of ROGER W. BROWN, INC., 316 New Boston St., Woburn, MA 01801, and for acquisition by ADELE MALONE, 90 Ellison Park, Waltham, MA, of control of such rights through the purchase. Applicants' attorney: Frank J. Weiner, 15 Court Square, Boston, MA 02108. Operating rights sought to be transferred: *Brick* and *tile*, as a *common carrier* over irregular routes, from Gonic, Exeter, and Epping, N.H., and Cambridge, Bridgewater, and Westfield, Mass., to points in Massachusetts, Rhode Island, Connecticut, New Hampshire, and Vermont; *brick*, from Gonic, Exeter, and Epping, N.H., to points in Maine within 200 miles of Epping, from Boston, Mass., and points within 10 miles of Boston and those in Rhode Island, to certain specified points in New Hampshire and Maine, from North Haven, Conn., to points and places in Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont, from Berlin, East Windsor Hills, and Hartford, Conn., to points and places in Maine, New Hampshire, and Vermont, to points in Rhode Island except Pawtucket and those in Kent, Providence, and Washington Counties, and to points and places in Massachusetts except Hillford, New Bedford, Taunton, and those in that part of Massachusetts on and west of Massachusetts Highway 12; *clay*, from Exeter and Epping, N.H., to Lawrence, Mass.; *reinforced steel bars*, from Medford, Boston, and Cambridge, Mass., to certain specified points in New Hampshire, those in Providence County, R.I., and those in Tolland and Hartford Counties, Conn.; *steel floor arches*, between points in New Hampshire, Vermont, Massachusetts, Connecticut, and Rhode Island; terra cotta, between points in New Hampshire, between points in Massachusetts, between points in Connecticut, between points in Rhode Island, between points in Vermont; lumber and logs, between points in that part of Massachusetts on and south of a line beginning at the Vermont-New Hampshire State line near West Lebanon, N.H., and extending along U.S. Highway 4 to Potter Place, N.H., and thence along New Hampshire Highway 11 to the Maine-New Hampshire State line, on the one hand, and, on the other, points in that part of Massauchsetts on and east of Massachusetts Highway 12; *fertilizer*, in bags, from North Weymouth, Mass., to points in Cheshire and Sullivan Counties, N.H.; and return with *rejected shipments; fertilizer*, between points in Massachusetts on and east of Massachusetts Highway 12, on the one hand, and, on the other, points in Vermont, Rhode Island, New Hampshire, and Connecticut. Vendee is authorized to operate as a *common carrier* in Connecticut, Massachusetts, New Hampshire, New Jersey, New York, Rhode Island, and Vermont. Application has been filed for temporary authority under section 210a(b).

No. MC–F–12211. Authority sought for control and merger by STEVENS VAN

V 39 90 MAY 8 74 XUM

LINES, INC., 121 S. Niagara St., Saginaw, MI 48602, of the operating rights and property of HAMMEL MOVING & STORAGE, INC., 5415 Conner Ave., Detroit, MI 48213, and for acquisition by ARCHIBALD H. STEVENS, SR., also of Saginaw, MI 48602, of control of such rights and property through the transaction. Applicants' attorneys: Ramon S. Regan, 2255 Penobscot Bldg., Detroit, MI 48226, and Norman Hyman, 2290 First National Bldg., Detroit, MI 48226. Kyle DuVall, Esquire, Jackson, Walker, Winstead, Cantwell & Miller, 4300 First National Bank Bldg., Dallas, Tex. 75202 and Robert G. Seaks, Esquire, 704 Southern Building, 15th and H Streets NW., Washington, D.C. 20005, hereby gives notice that they filed on March 8, 1974, an application, assigned F.D. 27595 under Section 5 of the Interstate Commerce Act for authority to each to acquire an undivided 1/8th interest in 2.09 miles of railroad in and adjacent to The Union Terminal in the city of Dallas, county of Dallas, Dallas, Tex., and for approval of their operating such line of railroad, together with other adjacent segments of railroad over which the Union Terminal Company had operating rights, in accordance with an Operating Agreement among them dated February 19, 1974. In the opinion of the Applicants, this application, if approved by order of the Commission will not result in an effect on quality of the human environment. In accordance with the Commission's regulations (49 CFR 1100.250) in Ex Parte No. 55 (Sub-No. 4), *Implementation-Nat'l* Environmental Policy Act, 1969, 340 I.C.C. 431 (1972), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of human environment. Any such effect is alleged to be present, the statement shall include information relating to the relevant factors set forth in Ex Parte No. 55 (Sub-No. 4), supra Part (b)(1)–(5), 340 I.C.C. 431, 461. The proceeding will be handled without public hearings unless protests are received which contain information indicating a need for such hearings. Any protests submitted shall be filed with the Commission no later than 30 days from the date of first publication in the FEDERAL REGISTER.

NOTICE

Application of Amoskeag Company, a Delaware Corporation, and Dumaines, a Voluntary Association, under Section 5(2) of the Interstate Commerce Act for authority to acquire control of Maine Central Railroad Company through voting of Trusteed Stock was filed on April 23, 1974. The proposed transaction, assigned Finance Docket No. 27621, is that Applicant Amoskeag Company, Suite 4500 Prudential Tower, Boston, Massachusetts 02199 shall be permitted to vote 48,299 shares of Maine Central stock now owned by it and held in trust by the Mercantile Trust Company, National Association, as independent voting trustee and to be free to extend its control by solicitation of proxies, by acquisition of additional stock, or any other lawful means. The address of Applicant Dumaines is Suite 4500 Prudential Tower, Boston, Massachusetts 02199. The Applicants' attorneys are Alan L. Lefkowitz, Gaston Snow & Ely Bartlett, Room 1200, 225 Franklin Street, Boston, Massachusetts 02110 and John L. Davidson, Jr., Greenfield, Davidson & Mandelstamm, Suite 1516 Chemical Building, 721 Olive Street, St. Louis, Missouri 63101. The Maine Central Railroad Company, the carrier involved, operates 885.23 miles of track. The Maine Central Railroad Company operates northward and northeasterly and westward from Portland, Maine. Its western terminiare at St. Johnsbury, Vermont, and North Stratford, Vermont. Its northern terminus is Vanceboro, Maine; its eastern termini are Calais and Eastport, Maine.

The carrier involved, Maine Central, operates railroad property in the States of Maine, New Hampshire and Vermont and in the Province of New Brunswick, Canada. Applicant Dumaines through Applicant Amoskeag controls Bangor & Aroostock Railroad Company which is located wholly within the State of Maine and operates approximately 541 miles of track.

In the opinion of the Applicants, as to proceedings under this application, no major Federal action significantly affecting the quality of the human environment is involved within the meaning of 42 U.S.C. Sec. 4332(c)(2). In accordance with the Commission's regulations (49 CFR 1100.250) in Ex Parte No. 55 (Sub-No. 4), *Implementation-Nat'l Environmental Policy Act of 1969*, 340 I.C.C. 431 (1972), any protests may include a statement indicating the presence or absence of any effect of the requested Commission action on the quality of the human environment. If any such effect is alleged to be present, the statement shall include information relating to the relevant factors set forth in Ex Parte No. 55 (Sub-No. 4), supra, Part (b)(1)–(5), 340 I.C.C. 431, 461.

The proceeding will be handled without public hearings unless protests are received which contain information indicating a need for such hearings. Any protests submitted should be filed with the Commission no later than 30 days from the date of first publication in the FEDERAL REGISTER.

By the Commission.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice 62]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

APRIL 30, 1974.

The following are notices of filing of application, except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application, for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 20992 (Sub-No. 31 TA), filed April 23, 1974. Applicant: DOTSETH TRUCK LINE, INC., Knapp, Wis. 54749. Applicant's representative: Patrick E. Quinn, 605 So. 14th Street, P.O. Box 82028, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Vegetable harvesting and handling equipment*, from Clear Lake, Wis., to points in Alabama, Arizona, Arkansas, California, Colorado, Connecticut, District of Columbia, Florida, Georgia, Idaho, Iowa, Kansas, Kentucky, Louisiana, Maine Maryland, Massachusetts, Minnesota, Mississippi, Missouri, Montana, Nebraska, Nevada, New Hampshire, New Mexico, North Carolina, North Dakota, Oklahoma, Oregon, Rhode Island, South Carolina, South Dakota, Tennessee, Texas, Utah, Vermont, Virginia, Washington, West Virginia, Wisconsin, and Wyoming, and (2) *materials, equipment, and supplies* used in the manufacturing, production, and distribution of vegetable harvesting and handling equipment, from points in the above-named destination states, to Clear Lake, Wis., for 180 days. RESTRICTION: Restricted against the transportation of commodities in bulk and those which by reason of size or weight require the use of special equipment, and further restricted to traffic originating at or destined to Clear Lake, Wis. SUPPORTING SHIPPER: Pixall Corporation, Clear Lake, Wis. 54005. SEND PROTESTS TO: Raymond T. Jones, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 448 Federal Bldg., U.S. Courthouse, 110 So. 4th Street, Minneapolis, Minn. 55401.

No. MC 27356 (Sub-No. 7 TA) (CORRECTION), filed April 10, 1974, Published in the FEDERAL REGISTER notice No. 58, dated April 23, 1974, and republished as corrected this issue. Applicant: M-F EXPRESS, INC., 610 E. Emma Avenue, Springdale, Ark. 72764. Applicant's representative: Douglas C. Wynn, P.O. Box 1295, Greenville, Miss. 38701.

NOTE.—The purpose of this republication is to show that applicant now seeks to operate over a *regular route*, rather than an irregular route. The rest of the application will remain as previous published in the FEDERAL REGISTER.

No. MC 30446 (Sub-No. 5 TA), filed April 24, 1974. Applicant: BRUCE JOHNSON TRUCKING COMPANY, INC., 125 E. Craighead Road, Charlotte, N.C., 28225. Applicant's representative: Thomas R. Travillion, P.O. Box 5647, 3408 North Graham Street, Charlotte, N.C. 28225. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic materials*, in bulk, in closed vans, from Celriver, S.C., to Charleston, S.C., and to Savannah and/or Port Wentworth, Ga., for 180 days. SUPPORTING SHIPPER: Celanese Corporation, Manager-Domestic Traffic, John J. Nome, 1211 Avenue of the Americas, New York, N.Y. 10036. SEND PROTESTS TO: District Supervisor Terrell Price, Interstate Commerce Commission, Bureau of Operations, 800 Briar Creek Road, CC516, Charlotte, N.C. 28205.

No. MC 50069 (Sub-No. 488 TA), filed April 23, 1974. Applicant: REFINERS TRANSPORT & TERMINAL CORPORATION, 445 Earlwood Avenue, Oregon, Ohio 43616. Applicant's representative: Jack A. Gollan (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sulphuric acid*, in bulk, in tank vehicles, from Oregon, Ohio, to points in Indiana (except Elkhart, Ind.) for 180 days. SUPPORTING SHIPPER: Coulton Chemical Corporation, 1400 Otter Creek Road, Oregon, Ohio 43616. SEND PROTESTS TO: Keith D. Warner, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 313 Federal Office Bldg., 234 Summit Street, Toledo, Ohio 43604.

No. MC 107460 (Sub-No. 48 TA), filed April 23, 1974. Applicant: WILLIAM Z. GETZ, INC., 3055 Yellow Goose Road, Lancaster, Pa. 17601. Applicant's representative: Donald D. Shipley (same address as above). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Metal roofing and accessories thereof and fabricated metal products*, from the plant site of Fabral Corporation located at or near Gridley, Ill., to points in Minnesota, and (2) *materials and supplies* used in the manufacture of metal roofing, from points in Indiana, to the plant site of Fabral Corporation located at or near Gridley, Ill., for 180 days. SUPPORTING SHIPPER: Fabral Corporation, P.O. Box 310, Gridley, Ill. 61744. SEND PROTESTS TO: Robert P. Amerine, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 278 Federal Bldg., P.O. Box 869, Harrisburg, Pa.

No. MC 111170 (Sub-No. 212 TA), filed April 23, 1974. Applicant: WHEELING PIPE LINE, INC., 2811 N. West Avenue, P.O. Box 1718, El Dorado, Ark. 71730. Applicant's representative: Tom E. Moore (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sodium hydro sulfide*, in bulk, from plantsite of Dow Chemical in Columbia County, Ark., to Demopolis, Ala., for 180 days. SUPPORTING SHIPPER: Dow Chemical U.S.A., Eastern Division, P.O. Box 6417, Cleveland, Ohio 44101. SEND PROTESTS TO: District Supervisor William H. Land, Jr., Interstate Commerce Commission, Bureau of Operations, 2519 Federal Office Building, 700 West Capitol, Little Rock, Ark. 72201.

No. MC 111729 (Sub-No. 434 TA), filed April 23, 1974. Applicant: PUROLATOR COURIER CORP., 2 Nevada Drive, Lake Success (NHP-PO), N.Y. 11040. Applicant's representative: John M. Delany (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Business papers, records, audit and accounting media, advertising* materials of all kinds, (a) between Austin, Minn., and La Crosse, Wis.; (b) between points in Wayne County, Mich., on the one hand, and, on the other, Anderson, Fort Wayne, Kokomo, and Richmond, Ind.; and Lexington, Ky.; and (c) from Cleveland, Ohio, to Beaver Falls, Pa.; and (2) *proofs, cuts, copy, layouts, printing plates, and advertising material, and business papers, records, audit and accounting media of*

MAY 8 74
XUM

all kinds, restricted to packages or articles weighing in the aggregate no more than 75 pounds, from one consignor to one consignee on any one day, (a) between Indianapolis, Ind., on the one hand, and, on the other, Grand Rapids, Mich., and Peoria, Ill., and (b) between Elkhart, Ind., on the one hand, and, on the other, Battle Creek, Berrien Springs, Grand Rapids, Muskegon, and Niles, Mich., for 180 days. SUPPORTING SHIPPERS: (1) F. W. Means & Co., 2822 University Ave., Waterloo, Iowa; (2) Montgomery Ward & Co., 835 North Crest Shopping Center, Fort Wayne, Ind.; (3) AAV Companies, 31100 Solon Road, Solon, Ohio; (4) Lithotone, Inc., 1313 W. Hivelry Avenue, Elkhart, Ind.; and (5) Alexander Typesetting, Inc., 125 N. East Street, Indianapolis, Ind. SEND PROTESTS TO: Anthony D. Giaimo, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 26 Federal Plaza, New York, N.Y. 10007.

No. MC 113908 (Sub-No. 312 TA) (CORRECTION), filed April 1, 1974, published in the FEDERAL REGISTER issue of April 16, 1974, and republished as corrected this issue. Applicant: ERICKSON TRANSPORT CORPORATION, 2105 East Dale Street, Glenstone Station, P.O. Box 3180, Springfield, Mo. 65804. Applicant's representative: B. B. Whitehead (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Vinegar, vinegar stock, and vinegar stock concentrate*, in bulk, from Nixa and Springfield, Mo., to Tacoma and Sumner, Wash., for 180 days. SUPPORTING SHIPPER: Standard Brands, Inc., Midwest Vinegar Division, 3638 North Broadway, Chicago, Ill. 60613. SEND PROTESTS TO: John V. Barry, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 600 Federal Office Building, 911 Walnut Street, Kansas City, Mo. 64106.

NOTE.—The purpose of this republication is to correct the community of vinegar concentrate to *vinegar stock concentrate*, in which stock was omitted in error.

No. MC 115691 (Sub-No. 31 TA), filed April 22, 1974. Applicant: MURPHY TRANSPORTATION, INC., 1414 Crawford Avenue, P.O. Box 1090, Anniston, Ala. 36201. Applicant's representative: John P. Carlton, 903 Frank Nelson Building, Birmingham, Ala. 35203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Treated and untreated lumber and treated and untreated posts*, from Haleyville, Ala., to points in Wisconsin on and south of Wisconsin State Highway 29; points in Iowa on and east of U.S. Highway 69; and points in Ohio, Indiana, Illinois, Pennsylvania, New York, and the lower peninsula of Michigan, for 180 days. SUPPORTING SHIPPERS: Fullco Lumber Co., Inc., P.O. Box 617, Haleyville, Ala. 35565; Free State Lumber Company, Inc., Haleyville, Ala. 35565; Newburg Road Lumber Co., Inc., P.O. Box 548, Haleyville, Ala. 35565; and Joe A. Fuller Lumber Co., Inc., P.O. Box 190, Haleyville, Ala. 35565. SEND PROTESTS TO: Clifford W. White, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 1616, 2121 Building, Birmingham, Ala. 35203.

No. MC 116474 (Sub-No. 31 TA), filed April 22, 1974. Applicant: LEAVITTS FREIGHT SERVICE, INC., 3855 Marcola Road, Springfield, Oreg. 97477. Applicant's representative: David C. White, 2400 SW. Fourth Avenue, Portland, Oreg. 97201. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Poles and piling*, for the account of J. H. Baxter & Company, from Eugene, Oreg., to points in Marin, San Francisco, San Mateo, and Santa Clara Counties, Calif., for 180 days. SUPPORTING SHIPPER: J. H. Baxter & Company, 1618 SW. First Avenue, Portland, Oreg. 97201. SEND PROTESTS TO: District Supervisor Odoms, Bureau of Operations, Interstate Commerce Commission, 114 Pioneer Courthouse, Portland, Oreg. 97204.

No. MC 119726 (Sub-No. 37 TA), filed April 22, 1974. Applicant: N.A.B. TRUCKING CO., INC., 2502 West Howard Street, P.O. Box 21006, Indianapolis, Ind. 46221. Applicant's representative: James L. Beattey, 130 East Washington St., Suite 1000, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cardboard cartons*, knock down, from Jacksonville, Fla., to the plant site of Midland Glass Company, Inc., at Warner Robins, Ga., for 180 days. SUPPORTING SHIPPER: Midland Glass Company, Inc., P.O. Box 557, Cliffwood, N.J. 07721. SEND PROTESTS TO: James W. Habermehl, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 802 Century Bldg., 36 S. Penn. Street, Indianapolis, Ind. 46204.

No. MC 119726 (Sub-No. 38 TA), filed April 22, 1974. Applicant: N.A.B. TRUCKING CO., INC., 2502 West Howard Street, P.O. Box 21006, Indianapolis, Ind. 46211. Applicant's representative: James L. Beattey, 130 East Washington St., Suite 1000, Indianapolis, Ind. 46204. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass containers and closures thereof*, including *caps, covers, and tops*, from Terre Haute, Ind., to points in Illinois, Missouri, Wisconsin, Michigan, and Ohio, for 180 days. SUPPORTING SHIPPER: Midland Glass Company, Inc., P.O. Box 557, Cliffwood, N.J. 07721. SEND PROTESTS TO: District Supervisor James W. Habermehl, Interstate Commerce Commission, Bureau of Operations, 802 Century Bldg., 36 S. Penn. St., Indianapolis, Ind. 46204.

No. MC 123048 (Sub-No. 306 TA), filed April 19, 1974. Applicant: DIAMOND TRANSPORTATION SYSTEM, INC., 5021 21st Street, P.O. Box A, Racine, Wis. 53401. Applicant's representative: Carl S. Pope (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors* (except truck tractors) weighing less than 12,000 pounds, from Baltimore, Md., to Columbus, Ohio, and Davenport, Iowa, for 180 days. SUPPORTING SHIPPER: Deutz Tractor Corporation, 2080 Peachtree Industrial Court, Chamblee, Ga. 30341. SEND PROTESTS TO: District Supervisor John E. Ryden, Interstate Commerce Commission, Bureau of Operations, 135 West Wells Street, Room 807, Milwaukee, Wis. 53203.

No. MC 124078 (Sub-No. 591 TA), filed April 23, 1974. Applicant: SCHWERMAN TRUCKING CO., a Corporation, 611 South 28th Street, Milwaukee, Wis. 53246. Applicant's representative: Richard H. Prevette (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) (a) *Commodities* which because of size, weight, or shape require the use of special handling, and (b) *attachments, parts, machinery, materials, and supplies* related to the commodities named in Part (1)(a) and moving in connection therewith; (2) *self-propelled articles* each weighing 15,000 pounds or more and *related machinery, tools, parts, and supplies* moving in connection therewith; and (3) *commodities* which because of size, weight, or shape, do not require the use of special equipment or special handling when transported as part of the same shipment with either (a) *commodities* which because of size, weight, or shape require the use of special equipment or special handling, or (b) *self-propelled articles* each weighing 15,000 pounds or more, from Escanaba, Mich., to points in the United States (except Alaska and Hawaii), for 180 days. SUPPORTING SHIPPER: Harnischfeger Corporation, Milwaukee, Wis. 53246 (D. G. Ploetz, General Traffic Manager). SEND PROTESTS TO: District Supervisor John E. Ryden, Bureau of Operations, Interstate Commerce Commission, 135 West Wells Street, Room 807, Milwaukee, Wis. 53203.

No. MC 133939 (Sub-No. 3 TA), filed April 24, 1974. Applicant: IMPERIAL AIR FREIGHT SERVICE, INC., 151 Oliver Street, Newark, N.J. 07105. Applicant's representative: Charles E. Creager, P.O. Box 1417, Hagerstown, Md. 21740. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except Classes A and B explosives, commodities in bulk, and commodities requiring special equipment), restricted to shipments having a prior or subsequent movement by air, between John F. Kennedy International Airport, Jamaica, N.Y., and La Guardia Airport, Flushing, N.Y., and Newark Airport, Newark, N.J., on the one hand, and, on the other, points in Ulster and Dutchess Counties, N.Y., for 180 days. SUPPORTING SHIPPERS: Dolphin Communications, Inc., 181 Church Street, Poughkeepsie, N.Y. 12601; Hercules, Incorporated, 910 Market St., Wilmington, Del. 19899; Tidal Communications Corp., 121 Washington St., Poughkeepsie, N.Y. 12602; and I. C. Danczak, Inc., 209 Broadway, Port Ewen, N.Y. 12466. SEND PROTESTS TO: District Supervisor Robert S. H. Vance, Interstate Commerce Commission, Bureau of Operations, 9 Clinton St., Newark, N.J. 07102.

No. MC 134922 (Sub-No. 76 TA), filed April 22, 1974. Applicant: B. J. McADAMS, INC., Route 6, Box 15, North Little Rock, Ark. 72118. Applicant's representative: L. C. Cypert (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Electrical appliances, equipment, and parts* as defined by the Commission in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 283, Appendix VII, restricted against the transportation of commodities in bulk and commodities which by reason of size or weight require the use of special equipment, from the plantsite and warehouse facilities of Gibson Metalux Corporation at or near Americus, Ga., to points in Arizona, California, Colorado, Idaho, New Mexico, Oregon, Utah, and Washington, for 180 days. SUPPORTING SHIPPER: Gibson Metalux Corporation, Sutterfield Road, P.O. Box 1207, Americus, Ga. 31709. SEND PROTESTS TO: District Supervisor William H. Land, Jr., Interstate Commerce Commission, Bureau of Operations, 2519 Federal Office Building, 700 West Capitol, Little Rock, Ark. 72201.

No. MC 138018 (Sub-No. 10 TA), filed April 22, 1974. Applicant: REFRIGERATED FOODS, INC., 1420 33rd Street, Denver, Colo. 80205. Applicant's representative: Arlyn L. Westergren, 7100 West Center Road, Omaha, Nebr. 68106. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meat, meat products, meat byproducts, and articles distributed by meat packinghouses* as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk, in tank vehicles), from the plantsite of and storage facilities utilized by American Beef Packers, Inc., at or near Cactus, Tex., (Moore County) to points in California, Colorado, Nebraska, Kansas, Iowa, Minnesota, Wisconsin, and Illinois, restricted to traffic originating at and destined to the named points, for 180 days. SUPPORTING SHIPPER: American Beef Packers, Inc., 7000 W. Center Road, Omaha, Nebr. SEND PROTESTS TO: Roger L. Buchanan, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 2022 Federal Building, Denver, Colo. 80202.

No. MC 138719 (Sub-No. 2 TA), filed April 23, 1974. Applicant: PATTERN TRUCKING COMPANY, INC., Box 297, Patten, Maine 04765. Applicant's representative: Theodore Polydoroff, 1250 Connecticut Avenue, Washington, D.C. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Lumber* from plant site and shipping facilities of Northern Mill and Lumber Co., Inc., at or near Patten, Maine, to points in Indiana and Illinois, for 180 days. NOTICE OF FILING OF MOTOR CARRIER INTRASTATE APPLICATIONS

MAY 3, 1974.

The following applications for motor common carrier authority to operate in intrastate commerce seek concurrent motor carrier authorization in interstate or foreign commerce within the limits of the intrastate authority sought, pursuant to section 206(a)(6) of the Interstate Commerce Act, as amended October 15, 1962. These applications are governed by Special Rule 1.245 of the Commission's rules of practice, published in the FEDERAL REGISTER, issue of April 11, 1963, page 3533, which provides, among other things, that protests and requests for information concerning the time and place of State Commission hearings or other proceedings, any subsequent changes therein, any other related matters shall be directed to the State Commission with which the application is filed and shall not be addressed to or filed with the Interstate Commerce Commission.

California Docket No. MC 54798, filed April 10, 1974. Applicant: HATFIELD TRUCKING SERVICE, INC., 1625 North C Street, Sacramento, Calif. 95814. Applicant's representative: Eldon M. Johnson, The Hartford Building, 650 California Street, Suite 2808, San Francisco, Calif. 94108. Certificate of public convenience and necessity sought to operate a freight service as follows: *General commodities*, between the following points, serving all intermediate points on the said routes and all off-route points within twenty (20) miles thereof: (1) Project City and Stockton on Interstate Highway 5; (2) Red Bluff and Merced on State Highway 99; (3) Williams and Nevada City on State Highway 20; (4) Grass Valley and Placerville on State Highway 49; (5) Sacramento and Placerville on U.S. Highway 50; (6) Auburn and the San Francisco Territory (as described in Note 1 hereto) on Interstate Highway 80; (7) Pinole and Stockton on State Highway 4; (8) The San Francisco Territory (as described in Note 1 hereto) and Stockton on Interstate Highway 580, Interstate Highway 205 and Interstate Highway 5; and (9) also serving all off-route points in the Counties of Amador, El Dorado, Lassen, Nevada, Placer, Plumas, and Sierra. In performing the service herein described, the routes and points listed above may be joined and combined, and use may be made of any and all streets, roads, highways, and bridges necessary or convenient for the performance of said service. Except that, pursuant to the authority herein sought, no shipments of the following shall be transported: (A) Used household goods, personal effects and office, store and institution furniture, fixtures and equipment not packed in accordance with the crated property requirements set forth in Item 5 of Minimum Rate Tariff Number 4–B; (B) automobiles, trucks, and buses, viz: New and used, finished or unfinished passenger automobiles (including jeeps), ambulances, hearses, and taxis, freight automobiles, automobile chassis, trucks, truck chassis, truck trailers, trucks and trailers combined, buses and bus chassis;

(C) Livestock, viz: Barrows, boars, bulls, butcher hogs, calves, cattle, cows, dairy cattle, ewes, feederpigs, gilts, goats, heifers, hogs, kids, lambs, oxen, pigs, rams (bucks), sheep, sheep camp outfits, sows, steers, stags, swine of wethers; (D) liquids, compressed gases, commodities in semiplastic form and commodities in suspension in liquids in bulk, in tank trucks, tank trailers, tank semitrailers or a combination of such highway vehicles; (E) commodities when transported in motor vehicles equipped for mechanical mixing in transit; (F) logs; (G) trailer coaches and campers, including integral parts and contents when the contents are within the trailer coach or camper; and (H) mining, building, paving, and construction materials in bulk, in dump trucks or in hopper-type trucks. Note 1: The San Francisco Territory: Between points in California (including the City of San Jose) within an area bounded by a line beginning at the point the San Francisco-San Mateo County Boundary line meets the Pacific Ocean; thence

V 39 90 MAY 8 74 XUM

easterly along said boundary line to a point 1 mile west of U.S. Highway 101; southerly along an imaginary line 1 mile west of and paralleling U.S. Highway 101 to its intersection with Southern Pacific Company right of way at Arastradero Road; southeasterly along the Southern Pacific Company right of way to Pollard Road, including industries served by the Southern Pacific Company spur line extending approximately 2 miles southwest from Simla to Permanente; easterly along Pollard Road to W. Parr Avenue; easterly along W. Parr Avenue to Capri Drive; southerly along Capri Drive to E. Parr Avenue; easterly along E. Parr Avenue to the Southern Pacific Company right of way; southerly along the Southern Pacific Company right of way to the Campbell-Los Gatos city limits; easterly along said limits and the prolongation thereof to the San Jose-Los Gatos Road; northeasterly along San Jose-Los Gatos Road to Foxworthy Avenue.

Easterly along Foxworthy Avenue to Almaden Road; southerly along Almaden Road to Hillsdale Avenue; easterly along Hillsdale Avenue to U.S. Highway 101; northwesterly along U.S. Highway 101 to Tully Road; northeasterly along Tully Road to White Road; northwesterly along White Road to McKee Road; southwesterly along McKee Road to Capitol Avenue; northwesterly along Capitol Avenue to State Highway 17 (Oakland Road); northerly along State Highway 17 to Warm Springs; northerly along the unnumbered highway via Mission San Jose and Niles to Hayward; northerly along Foothill Boulevard to Seminary Avenue; easterly along Seminary Avenue to Mountain Boulevard; northerly along Mountain Boulevard and Moraga Avenue to Estates Drive; westerly along Estate Drive, Harbord Drive, and Broadway Terrace to College Avenue; northerly along College Avenue to Dwight Way; easterly along Dwight Way to the Berkeley-Oakland Boundary Line; northerly along said boundary line to the campus boundary of the University of California; northerly and westerly along the campus boundary of the University of California to Euclid Avenue; northerly along Euclid Avenue to Marin Avenue; westerly along Marin Avenue to Arlington Avenue; northerly along Arlington Avenue to U.S. Highway 40 (San Pablo Avenue); northerly along U.S. Highway 40 to and including the City of Richmond; southwesterly along the highway extending from the City of Richmond to Point Richmond; southerly along an imaginary line from Point Richmond to the San Francisco Waterfront at the foot of Market Street; westerly along said waterfront and shore line to the Pacific Ocean; southerly along the shore line of the Pacific Ocean to point of beginning. Intrastate, interstate, and foreign commerce authority sought.

HEARING: Date, time, and place not shown. Requests for procedural information should be addressed to the California Public Utilities Commission, State Building, Civic Center, 455 Golden Gate Avenue, San Francisco, Calif. 94102, and should not be directed to the Interstate Commerce Commission.

Florida Docket No. 74260–CCT, filed April 19, 1974. Applicant: AUSTIN TUPLER TRUCKING, INC., 6570 SW. 47th Court, Ft. Lauderdale, Fla. 33314. Applicant's representative: Richard B. Austin, 5255 NW. 87th Avenue, Miami, Fla. 33166. Certificate of public convenience and necessity sought to operate a freight service as follows:

NOTE.—Applicant seeks authority to extend its Certificate No. 1024, and Certificate No. MC 134771 so as to authorize the transportation of *Scrap metal and junk* to, from, and between all points and places in the State of Florida, on irregular routes and schedules. Intrastate, interstate, and foreign commerce authority sought.

HEARING: date, time, and place not shown. Requests for procedural information should be addressed to the Florida Public Service Commission, 700 South Adams Street, Tallahassee, Fla. 32304, and should not be directed to the Interstate Commerce Commission.

Kansas Docket No. 99579 M Route No. 10127, filed April 4, 1974. Applicant: DALE A. ZOGLEMAN, doing business as, WESTERN KANSAS EXPRESS, P.O. Box 124, Wichita, Kans. 67201. Applicant's representative: Franklin D. Gaines, 116 East 5th Street, Augusta, Kans. 67010. Certificate of public convenience and necessity sought to operate a freight service as follows: Transportation of *General commodities* except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, over regular routes: Part I: (1) To and from and between Wichita and Hesston, Kans., serving no intermediate points. To, from, and between Wichita, Kans., North over Interstate Highway 35 to Hesston, Kans., and return over the same route. Intrastate, interstate, and foreign commerce authority sought.

HEARING: June 17, 1974, for the entire week, at the Holiday Inn Midtown, Trophy Room, Wichita, Kans., at 10:00 A.M. Requests for procedural information should be addressed to the Kansas State Corporation Commission, Fourth floor, State Office Building, Topeka, Kans. 66612, and should not be directed to the Interstate Commerce Commission.

By the Commission.

[Notice No. 8]

MOTOR CARRIER ALTERNATE ROUTE DEVIATION NOTICES

MAY 3, 1974.

The following letter-notices of proposals (except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application), to operate over deviation routes for operating convenience only have been filed with the Interstate Commerce Commission under the Commission's Revised Deviation Rules-Motor Carriers of Passengers, 1969 (49 CFR 1042.2(c)(9)) and notice thereof to all interested persons is hereby given as provided in such rules (49 CFR 1042.2(c)(9)).

Protests against the use of any proposed deviation route herein described may be filed with the Interstate Commerce Commission in the manner and form provided in such rules (49 CFR 1042.2(c)(9)) at any time, but will not operate to stay commencement of the proposed operations unless filed within 30 days from the date of publication.

Successively filed letter-notices of the same carrier under the Commission's Revised Deviation Rules-Motor Carriers of property, 1969, will be numbered consecutively for convenience in identification and protests, if any, should refer to such letter-notices by number.

MOTOR CARRIERS OF PASSENGERS

No. MC–61599 (Deviation No. 8), CONTINENTAL SOUTHEASTERN LINES, INC., P.O. Box 2387, Charlotte, North Carolina 28201, filed April 22, 1974. Carrier proposes to operate as a *common carrier*, by motor vehicle, of *passengers and their baggage*, in the same vehicle with passengers, over a deviation route as follows: (1) From Florence, S.C., over Interstate Highway 20 to junction Interstate Highway 20 and U.S. Highway 401, (2) From junction Interstate Highway 20 and U.S. Highway 401, thence over Interstate Highway 20 to junction U.S. Highway 521, (3) From junction Interstate Highway 20 and U.S. Highway 521, thence over Interstate Highway 20 to junction U.S. Highway 601, and (4) From junction Interstate Highway 20 and U.S. Highway 601, thence over Interstate Highway 20 to junction U.S. Highway 1, west of Columbia, S.C., with the following access routes: (a) From junction Interstate Highway 20 and unnumbered access road near Fort Jackson, S.C., thence over unnumbered access road to Fort Jackson, S.C., (b) From Junction Interstate Highway 20 and U.S. Highway 1 west of Columbia, S.C., thence over U.S. Highway 1 to Columbia, S.C., (c) From junction Interstate Highway 20 and South Carolina Highway 555 east of Columbia, S.C., thence over South Carolina Highway 555 to Columbia, S.C., (d) From junction Interstate Highway 20 and U.S. Highway 21 north of Columbia, S.C., thence over U.S. Highway 21 to Columbia, S.C., and (e) From junction Interstate Highway 20 and U.S. Highway 321 north of Columbia, S.C., thence over U.S. Highway 321 to Columbia, S.C., and (5) From junction Interstate Highway 95 and U.S. Highway 278 near Ridgeland, S.C., thence over Interstate Highway 95 to junction Interstate Highway 16, thence over Interstate Highway 16 to Savannah, Ga., with the following access routes: (a) From junction Interstate Highway 95 and U.S. Highway 17 near Hardeeville, S.C., thence over U.S. Highway 17 to junction U.S. Highway 17 and South Carolina Highway 170, and (b) From junction Interstate Highway 95 and Georgia Highway 21 near Monelth, Ga., thence over Georgia Highway 21 to Savannah, Ga., and return over the same routes, for operating convenience only. The notice indicates that the carrier is presently authorized to transport passengers and the same property over pertinent service routes as follow:

(1) From Florence, S.C., over U.S. Highway 52 to Darlington, S.C., thence over U.S. Highway 401 to Sumter, S.C., thence over U.S. Highway 521 to Camden, S.C., thence over U.S. Highways 1 and 601 to junction U.S. Highway 601, thence over U.S. Highway 601 to junction South Carolina Highway 12, thence over South Carolina Highway 12 to Columbia, S.C., thence over U.S. Highway 1 and Interstate Highway 20 west of Columbia, S.C., and (2) From Ridgeland, S.C., over U.S. Highway 278 to junction South Carolina Highway 170, thence over South Carolina Highway 170 to junction U.S. Highway 17, thence over U.S. Highway 17 to Savannah, Ga., and return over the same routes.

By the Commission.

[No. AB–70, AB–55 (Sub-No. 2)]

FLORIDA EAST COAST RAILROAD CO. AND SEABOARD COAST LINE RAILROAD CO.

Abandonment of Service

In the matter of Florida East Coast Railway Company abandonment between Aurantia and Benson Junction, in Brevard and Volusia Counties, Florida and Seaboard Coast Line Railroad Company abandonment between Benson Junction and Enterprise, in Volusia County, Florida.

Upon consideration of the record in the above-entitled proceedings, and of a staff-prepared environmental threshold assessment survey which is available for public inspection upon request; and

It appearing, That no environmental impact statement need be issued in these proceedings, because these proceedings do not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. 4321, et seq.; and good cause appearing therefor:

It is ordered, That applicants be, and they are hereby, directed to publish the appended notice in newspapers of general circulation in Volusia and Brevard Counties, Fla., within 15 days of the date of service of this order, and certify to the Commission that this has been accomplished.

And it is further ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by forwarding a copy to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

Dated at Washington, D.C., this 24th day of April, 1974.

By the Commission, Commissioner Tuggle.

INTERSTATE COMMERCE COMMISSION

[Notice No. AB–70]

FLORIDA EAST COAST RAILWAY COMPANY ABANDONMENT BETWEEN AURANTIA AND BENSON JUNCTION, IN BREVARD AND VOLUSIA COUNTIES, FLORIDA

[No. AB–55 (Sub-No. 2)]

SEABOARD COAST LINE RAILROAD COMPANY ABANDONMENT BETWEEN BENSON JUNCTION AND ENTERPRISE, IN VOLUSIA COUNTY, FLORIDA

The Interstate Commerce Commission hereby gives notice that by order dated April 24, 1974, it has been determined that the proposed abandonments by the Florida East Coast Railway Company and the Seaboard Coast Line Railroad Company of the line of railroad between Aurantia and Benson Junction, Brevard and Volusia Counties, Fla., a total distance of approximately 30.7 miles, if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(c) of the NEPA.

It was concluded, among other things, that the environmental effects are considered insignificant because traffic over the line has been minimal and sporadic, the adjacent area is primarily woodlands and marshes with little prospect for commercial development dependent upon continued rail service, and salvaging operations will not materially alter the local ecological systems.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available for public inspection upon request to the Interstate Commerce Commission, Office for Proceedings, Washington, D.C., 20423; telephone: 202–343–6989.

Interested parties may comment on this matter by the submission of representatives to the Interstate Commerce Commission, Washington, D.C., 20423, on or before May 23, 1974.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

AREA MANAGERS, PHOENIX, ARIZONA

Redelegation of Authority

Under authority of Bureau Order 701, dated July 23, 1964, and as amended, the Area Managers administering the Phoenix Resource Area, Lower Gila Resource Area, and the Kingman Resource Area of the Phoenix District, Arizona are authorized to act on the following matters:

Within their respective areas of responsibility in accordance with existing policies and regulations of the Department, and under direct supervision of the Phoenix District Manager, they may exercise the function of the Bureau Director on the matters specified below subject to the limitations of Bureau Order 701, Part III.

AUTHORITY IN SPECIFIC MATTERS

SEC. 3.3 *Fiscal affairs.* The Area Manager may take action on:

(d) Trespass: Determine liability and issue notice of grazing trespass; recommend as to acceptance of settlement.

SEC. 3.7 *Range management.* The Area Manager may take all action on:

(a) Grazing District Administration

(1) Within grazing districts, the issuance of licenses to graze or trail livestock.

(2) Permits or cooperative agreements to construct and maintain range improvements and determine the value of such improvements.

(b) Outside grazing districts, the issuance of grazing leases.

(d) Soil and moisture conservation; control of halogeton glomeratus.

(e) Controlled brush burning in accordance with plans and specifications approved by the State Director.

(f) Protection of wild, free-roaming horses and burros.

SEC. 3.8 *Forest Management.* The Area Manager may take all action on:

(a) Disposition of forest products including sales of timber not exceeding $100.00 in value.

SEC. 3.9 *Land use.* The Area Manager may take all action on:

(g) Disposition of materials other than forest products, not exceeding $2,000.00 in value.

The District Manager may at any time temporarily reserve, restrict, or withhold any portion of the above delegated authority.

V 39 I 90
MAY 8 74
XUM

This order rescinds all prior redelegations.

RILEY E. FOREMAN,
District Manager.

Approved:

HAROLD H. RAMSBACHER,
Acting State Director.

TRANSWESTERN PIPELINE CO.

Notice of Applications

APRIL 30, 1974.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), Transwestern Pipeline Company has applied for five 6-inch and one 12-inch natural gas pipeline rights-of-way across the following lands:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 19 S., R. 25 E.,
Sec. 27, SW¼SE¼;
Sec. 34, N½NE¼, E½NW¼, NW¼NW¼;
Sec. 35, NW¼NW¼, S½NW¼.
T. 20 S., R. 28 E.,
Sec. 27, W½SE¼.
T. 21 S., R. 32 E.,
Sec. 10, S½NE¼, NE¼SE¼;
Sec. 11, W½SW¼, SE¼SW¼;
Sec. 14, NW¼NE¼, S½NE¼, NE¼NW¼.
T. 23 S., R. 34 E.,
Sec. 20, W½SW¼, SE¼SW¼, S½SE¼.

These pipelines will convey natural gas across 4.43 miles of national resource lands in Lea and Eddy Counties, New Mexico.

The purpose of this notice is to allow the public an opportunity to comment upon the filing of the above six right-of-way applications.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, P.O. Box 1397, Roswell, NM 88201.

FRED E. PADILLA,
Chief, Branch of Lands and Minerals Operations.

TIMBER MANAGEMENT, STANISLAUS NATIONAL FOREST

Notice of Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for the Timber Management Plan, Stanislaus National Forest, California USDA-FS-FES (Adm)-74-50.

The environmental statement concerns a proposed timber management plan for the management of the timber resources on the forest.

This final environmental statement was transmitted to CEQ on May 1, 1974.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Room 3230, 12th St. & Independence Ave., SW., Washington, D.C. 20250.

USDA, Forest Service, 630 Sansome Street, Rm. 531, San Francisco, California 94111.

Stanislaus National Forest, 175 South Fairview Lane, Sonora, California 95370.

A limited number of single copies are available upon request to Regional Forester, Douglas R. Leisz, California Region, U.S. Forest Service, 630 Sansome Street, San Francisco, California 94111.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ guidelines.

Dated: April 30, 1974.

GLENN P. HANEY,
Acting Regional Forester.

Packers and Stockyards Administration

[P. & S. Docket No. 4931]

PEORIA UNION STOCK YARDS COMPANY, INC. AND BUSTER & CO., ET AL

Order Extending Period of Suspension of Modifications of Rates and Charges

On March 28, 1974, an order was issued instituting the following proceeding under Title III of the Packers and Stockyards Act, 1921, as amended, 42 Stat. 159, as amended (7 U.S.C. 181 et seq.):

Buster & Company;
Clifford Higgs d/b/a Higgs Cattle Company;
Illinois Livestock Marketing Company;
Fred E. Maddux d/b/a Maddux & Company;
S. Phillip Schaffner d/b/a S & S Order Buyers;
Edwin D. Coots, Ralph K. Swords, Larry Larimore, and Thomas E. McArthur d/b/a Sitton, Coots, & Swords (39 FR 12773)

Such order, among other things, suspended and deferred the operation and use by the respondent of modifications of its current schedule of rates and charges to become effective March 30, 1974, for a period of thirty days beyond the time such modifications would otherwise go into effect.

Notice is hereby given that, since the hearing in this proceeding could not be concluded within such period of suspension, an order has been issued in the above proceeding suspending and deferring the operation and use of such modifications of the current schedule of rates and charges for a further period of thirty days beyond the date when such modifications would have otherwise become effective.

Patent application 295,787: Benzofuroisoquinoline Polymers and Method for Synthesizing Same; filed 6 October 1972; PC $4.00/MF $1.45.

U.S. DEPARTMENT OF AGRICULTURE, Chief, Research Agreements and Patent Mgmt. Branch, Federal Building, General Services Division, Agricultural Research Service, Hyattsville, Maryland 20782.

Patent application 272,824: Fire and Wrinkle Resistant Organic Textiles Through Treatment with a Methylol Phosphine and an Aziridinyl Phosphorus Compound; filed 18 July 1972; PC $4.00/MF $1.45.

Patent application 274,949: A Dehydration Process to Impart Wrinkle Resistance to Cellulose-Containing Fibrous Materials; filed 25 July 1972; PC $4.00/MF $1.45.

Patent application 275,012: Improved Method of Purifying Concentrated Color Extracts from Citrus Peels; filed 25 July 1972; PC $4.00/MF $1.45.

Patent application 279,919: Preparation of Crosslinked Polyethylenimine and Impregnation of Cellulosic Material with in situ Crosslink-Polymerized Ethylenimine; filed 11 August 1972; PC $4.00/MF $1.45.

Patent application 288,802: N-Ethyl-N-3-Ethoxypropyl-Oleamides; filed 13 September 1972; PC $5.00/MF $1.45.

Patent application 288,806: Method of Increasing Covering Power of Knitted Cotton Fabric; filed 13 September 1972; PC $4.00/MF $1.45.

Patent application 288,807: The Preparation of Dibasic Dimeric Resin Acids; filed 12 September 1972; PC $4.00/MF $1.45.

Patent application 288,814: N,N-Di-n-Butyl-2-(Oleoyloxy) Propionamide; filed 13 September 1972; PC $5.00/MF $1.45.

Patent application 298,167: Recurable Cross-linked Cellulose Fabrics from Methylol Reagents and Polycarboxylic Acids; filed 16 October 1972; PC $4.75/MF $1.45.

Patent application 306,774: Production of Phosphorus and Nitrogen Containing Compounds and Polymers and Flameproofing Organic Textiles; filed 15 November 1972; PC $4.00/MF $1.45.

Patent application 324,136: Flameproofing of Cotton Cellulose with Hexamethyl Phosphorous Triamide; filed March 16, 1973; PC $4.00/MF $1.45.

Patent application 335,860: Phosphonated N,D-Disubstituted Fatty Amides; filed 26 February 1973; PC $4.00/MF $1.45.

Patent application 337,792: Polymerized Rosin Product and Process for the Production of Same; filed 5 March 1973; PC $4.00/MF $1.45.

Patent application 342,133: Modification of Cotton Textiles and Cotton/Polyester Textile Blends by Photo-Initiated Polymerization of Vinylic Monomers; filed 16 March 1973; PC $4.00/MF $1.45.

Patent application 348,558: Cotton-Oxime, Cotton-Semicarbazone, and Cotton-Hydantoin-Textile Products of High Nitrogen Content; filed 6 April 1973; PC $4.00/MF $1.45.

Patent application 348,802: N-Subatituted Fatty Acid Amide Lubricants; filed 6 April 1973; PC $4.25/MF $1.45.

Patent application 351,935: Introduction of a Temporary Stiffness into Knitted Cotton for Stability During Patterning; filed 17 April 1973; PC $4.00/MF $1.45.

Patent application 365,894: A Process for Dyeing Crosslinked Cellulosic Fabrics with Disperse Dyestuffs; filed 1 June 1973; PC $4.25/MF $1.45.

Patent application 365,895: Process for Producing Fire Resistant Organic Textile Materials; filed 1 June 1973; PC $4.00/MF $1.45.

Patent application 365,896: Flame Retardant Organic Fibrous Materials; filed 1 June 1973; PC $4.00/MF $1.45.

Patent application 374,584: 3,7 Dicyano-3,5,7-Triaza-1-Phosphabicyclo (3.3.1) Nonane and Derivatives; filed 28 June 1973; PC $4.00/MF $1.45.

Patent application 374,585: Processes to Make Olive Drab to Greenish-Gold Mineral Dye Shades for Cellulosics; filed 28 June 1973; PC $4.00/MF $1.45.

Patent application 386,922: Hammer Mill with Integral Subsampling Portion; filed 9 August 1973; PC $4.00/MF $1.45.

Patent application 391,188: Process for Producing Varicolored Fabrics via the Selective Dyeing of Cellulosic Fabrics with Different Dye Types; filed 24 August 1973; PC $4.00/MF $1.45.

Patent application 400,079: Epithioamides as Plasticizer-Stabilizers; filed 24 September 1973; PC $4.00/MF $1.45.

Patent 3,681,099: Glossy Finish Linseed Water Emulsion Paints and Nonagglomerated Pigment Composition for Said Paints; filed 4 August 1970, patented 1 August 1972; not available NTIS.

Patent 3,691,158: Hexachlorocyclopentadiene Adducts of Unsaturated Amides of Azabicyclononane; filed 16 December 1971, patented 12 September 1972; not available NTIS.

Patent 3,696,600: Apparatus for Producing Corn Yarn; filed 12 April 1971, patented 10 October 1972; not available NTIS.

Patent 3,702,338: Hydroxy-Methylated Derivatives of Resin Acids, their use in Elastomeric Polyurethanes; filed 12 May 1970, patented 7 November 1972; not available NTIS.

Patent 3,702,359: Certain Microbial Insecticides and Methods of Preparation Thereof; filed 30 October 1970, patented 7 November 1972; not available NTIS.

Patent 3,714,087: Powdered Resorcinol-Formaldehyde Treated Polysaccharide-Reinforced Elastomer Masterbatches, Compounds, and Resulting Vulcanized Rubbers; filed 28 February 1972, patented 30 January 1973; not available NTIS.

V 39 90 MAY 8 74 XUM

Patent 3,729,379: Hydroxy-Conjugated Fatty Acids; filed 31 August 1971, patented 24 April 1973; not available NTIS.

Patent 3,730,829: Starch Xanthate Derivatives used in Papermaking; filed 18 October 1971, patented 1 May 1973; not available NTIS.

Patent 3,732,073: N,N-Diethylaziridinium Chloride as a Coreactant Catalyst for Reactions of N-Methylol Reagents with Cellulose; filed 26 March 1972, patented 8 May 1973; not available NTIS.

Patent 3,733,275: N-Substituted Fatty Acid Amide Lubricants; filed 21 December 1971, patented 15 May 1973; not available NTIS.

Patent 3,737,426: Biodegradeable Surfactants from Starch-Derived Glycosides; filed 25 September 1970, patented 5 June 1973; not available NTIS.

Patent 3,763,060: Starch Xanthate-Polyamide-Polyamine Interpolymer Paper Strength Additives; filed 9 June 1972, patented 2 October 1973; not available NTIS.

U.S. DEPARTMENT OF TRANSPORTATION, Patent Counsel, 300 7th Street, SW, Washington, DC 20590.

Patent application 449,327: An Airborne Laser Remote Sensing System for the Detection and Identification of Oil Spills; filed 8 March 1974: PC $4.00/MF $1.45.

Patent application 451,448: WEDCOM; filed 15 March 1974; PC $4.00/MF $1.45.

U.S. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, National Institutes of Health, Chief, Patent Branch, Westwood Building, Bethesda, Maryland 20014.

Patent application 326,145: Dialyzer Cartridge; filed 23 January 1973; PC $3.00/MF $1.45.

Patent 3,726,256: Crossflow Capillary Dialyzer; filed 22 June 1971, patented 17 April 1973; not available NTIS.

U.S. DEPARTMENT OF THE INTERIOR, Branch of Patents, 18th and C Streets, NW, Washington, D.C. 20240.

Patent application 434,162: An Optical Detection System; filed 17 January 1974: PC $4.00/MF $1.45.

Patent application 435,791: Method of Preparing Bipolar Membranes and the Production of Acids and Bases Therefrom; filed 23 January 1974: PC $4.00/MF $1.45.

Patent application 438,152: Method and Apparatus for Rapid Particle Size and Mass Analysis; filed 29 January 1974: PC $4.00/MF $1.45.

Patent application 446,833: Fluidized Bed in Reverse Osmosis Processes; filed 28 February 1974: PC $4.00/MF $1.45.

Patent 2,194,054: Apparatus for Concentrating Trace Impurities in High-Purity Helium; filed 7 August 1961, patented 13 July 1965: not available NTIS.

Patent 2,804,506: Dynamagnetic Pick-Up System; filed 31 October 1951, patented 27 August 1957: not available NTIS.

Patent 2,813,823: Destructive Distillation of Hydrocarbonaceous Materials; filed 19 September 1956, patented 19 November 1957: not available NTIS.

Patent 2,825,641: Method for Melting Refractory Metals for Casting Purposes; filed 21 September 1955, patented 4 March 1958: not available NTIS.

Patent 2,860,101: Balanced Hydrogenation of Coal; filed 20 April 1953, patented 11 November 1958: not available NTIS.

Patent 2,869,419: Orthophotoscope; filed 28 August 1956, patented 20 January 1959: not available NTIS.

Patent 2,879,472: Dynamic Resistance Recorder; filed 11 October 1957, patented 24 March 1959: not available NTIS.

Patent 2,890,111: Method of Manufacturing Titanium and Titanium Alloys; filed 30 March 1956, patented 9 June 1959: not available NTIS.

Patent 2,892,924: Electrode for Melting and Arc Welding Zirconium Metal; filed 24 January 1957, patented 30 June 1959: not available NTIS.

Patent 2,901,402: Process for Destructive Distillation of Hydrocarbonaceous Materials; filed 19 July 1957, patented 25 August 1959: not available NTIS.

Patent 2,934,443: Impact Resistant Ceramic Dielectric and Method of Making Same; filed 10 October 1957, patented 26 April 1960: not available NTIS.

Patent 3,002,091: Method of Tracing the Flow of Liquids by Use of Post Radioactivation of Tracer Substances; filed 3 November 1958, patented 26 September 1961: not available NTIS.

Patent 3,012,668: Electrostatic Separator Carrier Electrode; filed 8 December 1959, patented 12 December 1961: not available NTIS.

Patent 3,223,319: Multiple Electrode Detector; filed 18 November 1964, patented 14 December 1965: not available NTIS.

Patent 3,236,682: Process for Preparation of Caustic-Resistant Containers for High-Temperature Use; filed 28 December 1962, patented 22 February 1966: not available NTIS.

Patent 3,238,098: Method of Controlling Sea Lamprey; filed 27 January 1964, patented 1 March 1966: not available NTIS.

Patent 3,244,612: Demineralization Electrodes and Fabrication Techniques Therefor; filed 29 November 1961, patented 5 April 1966; not available NTIS.

Patent 3,254,202: Automatic Swing Curve Calculator and Plotter used to Indicate Transient Stability of Power Generators; filed 2 November 1962, patented 31 May 1966: not available NTIS.

Patent 3,257,992: Coal Burning Water Tube Steam Generator Construction Embodying Integral Primary Coal Slagging Type Furnace and Secondary Furnace; filed 28 May 1964, patented 28 June 1966; not available NTIS.

Patent 3,259,762: Electrostatic Induction Power Supply; filed 16 April 1963, patented 5 July 1966; not available NTIS.

Patent 3,260,658: Process for the Recovery of Rhenium; filed 31 October 1962, patented 12 July 1966; not available NTIS.

Patent 3,264,957: Binder and Surface Coating Made from Coal and Asphalt; filed 18 January 1963, patented 9 August 1966; not available NTIS.

Patent 3,273,993: Process of Reduction Roasting of Iron Ore with Metallic Iron; filed 30 January 1964, patented 20 September 1966; not available NTIS.

Patent 3,273,995: Recovery of Zinc from Zinc Die-Cast Scrap; filed 22 May 1964, patented 20 September 1966; not available NTIS.

Patent 3,794,574: Device for Cathodically Protecting Metal Conduit System; filed 27 April 1972, patented 26 February 1974; not available NTIS.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION, Assistant General Counsel for Patent Matters, NASA—Code GP-2, Washington, DC 20546.

Patent 3,752,556: Real Time Moving Scene Holographic Camera System; patented 14 August 1973; not available NTIS.

Patent 3,764,499: Nonflammable Coating Compositions; patented 8 January 1974; not available NTIS.

GOVERNMENT-OWNED INVENTIONS

Notice of Availability for Licensing

The inventions listed below are owned by the U.S. Government and are available for licensing in accordance with the licensing policy of each Agency-sponsor.

Copies of Patent applications, either paper copy (PC) or microfiche (MF), can be purchased from the National Technical Information Service (NTIS), Springfield, Virginia 22151, at the prices cited. Requests for copies of patent applications must include the PAT-APPL number and the title.

Paper copies of patents cannot be purchased from NTIS but are available from the Commissioner of Patents, Washington, D.C. 20231, at $0.50 each.

Requests for licensing information should be directed to the address cited below for each agency.

DOUGLAS J. CAMPION,
Patent Program Coordinator, National Technical Information Service.

DEPARTMENT OF THE AIR FORCE, AF/JACP, Washington, D.C. 20314.

Patent application 271,335: Cover Support Assembly; filed 13 July 1972; PC $4.00/MF $1.45.

Patent application 278,853; Method of, and Apparatus for Forming Grooves and Coolant Channels in and for Rocket Engine Composite Channel-Type Coolant Wall Having a Complex Surface; filed 8 August 1972; PC $4.00/MF $1.45.

Patent application 279,416: Breathing Mask Assembly; filed 10 August 1972; PC $4.00/MF $1.45.

Patent application 284,552: Preparation of Ultrahigh Purity Anhydrous Alkali Metal Halide Powders; filed 29 August 1972; PC $4.00/MF $1.45.

Patent application 287,188: Unbonded Flexure Seal Design; filed 7 May 1972; PC $4.00/MF $1.45.

Patent application 288,818: Releasable Connector Subassembly; filed 13 September 1972; PC $4.00/MF $1.45.

Patent application 289,694: Temperature Cycling Device; filed 15 September 1972; PC $4.00/MF $1.45.

Patent application 289,695: Method of Connecting a Metal Conduit to a Plastic Conduit; filed 15 September 1972; PC $4.00/MF $1.45.

Patent application 292,368: Thermally Stable Phenylated Heterocyclic Aromatic Polymers and Method of Synthesis; filed 26 September 1972; PC $4.00/MF $1.45.

Patent application 297,123: Process for Preparing Carrot Juice; filed 12 October 1972; PC $4.00/MF $1.45.

U.S. DEPARTMENT OF AGRICULTURE, Chief, Research Agreements and Patent Mgmt. Branch, Federal Building, General Services Division, Agricultural Research Service, Hyattsville, Maryland 20782.

Patent application 348,840: Method for Improving the Shelf Life of Roasted Peanuts; filed 6 April 1973; PC $4.00/MF $1.45.

Patent application 374,731: Whey Solids as a Stabilizer for Agricultural Foams; filed 28 June 1973; PC $4.00/

Patent application 288,812: N-Cyclohexyl-N-2-Acetoxyethyl-Oleamide; filed 13 September 1972; PC $5.00/MF $1.45.

Patent application 328,199: Shrinkage-Control Treatment for Knitted Fabrics; filed 31 January 1973; PC $4.00/MF $1.45.

Patent application 337,791: Use of Epoxides in the Preparation of Higher Fatty Acid Anhydrides; filed 5 March 1973; PC $4.00/MF $1.45.

Patent application 360,281: Azeotropic Solvents for Permanent Press Treatments of Cotton and Cotton Blend Fabrics; filed 14 May 1973; PC $4.00/MF $1.45.

Patent application 365,897: Process for Preparing Frosted and Multicolored Cotton Pile Fabrics; filed 1 June 1973; PC $4.00/MF $1.45.

Patent application 391,189: A Monophosphorus Analog of Hexamethylenetetramine and Derivatives; filed 24 August 1973; PC $4.00/MF $1.45.

Patent 3,674,880: Methods for Preparing Valuable Keto and Hydroxy Cyclic Compounds; filed 3 January 1968; patented 4 July 1972; not available NTIS.

Patent 3,709,005: Vapor-Phase Reaction Apparatus for Treating Cellulosic Textile Materials and Garments; filed 26 January 1971; patented 9 January 1973; not available NTIS.

Patent 3,729,461: Synthesis of Glycosyl Glycerides; filed 23 December 1970; patented 24 April 1973; not available NTIS.

U.S. DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE, National Institutes of Health, Chief, Patent Branch, Westwood Building, Bethesda, Maryland 20014.

Patent application 381,234: Thumbtack Microelectrode and Method of Making Same; filed 20 July 1973; PC $4.00/MF $1.45.

Patent 3,746,683: Thromboresistant Articles Made from Polyurethanes Containing a Polypropylene Glycol-Ethylene Oxide Block Copolymer; filed 24 December 1970; patented 17 July 1973; not available NTIS.

Patent 3,785,832: Dental Primer Varnish; filed 13 October 1971, patented 15 January 1974; not available NTIS.

U.S. DEPARTMENT OF THE INTERIOR, Branch of Patents, 18th and C Streets NW., Washington, DC 20240.

Patent 2,789,888: Apparatus for Performing the Fischer-Tropsch Reaction; filed 3 March 1953; patented 23 April 1957; not available NTIS.

Patent 2,829,061: Machinable Ceramic Bonded Material and Method for Producing Same; filed 24 September 1952; patented 1 April 1958; not available NTIS.

Patent 2,947,688: Process and Apparatus for the Demineralization of Saline Water; filed 10 January 1957; patented 2 August 1960; not available NTIS.

Patent 2,996,439: Rotary Still; filed 16 December 1958; patented 15 August 1961; not available NTIS.

Patent 3,002,002: Reduction of the Thiophene Nucleus; filed 2 April 1957; patented 26 September 1961; not available NTIS.

Patent 3,010,208: Method for Determining the Authenticity of Ancient Artifacts made of Obsidian; filed 6 May 1960; patented 28 November 1961; not available NTIS.

Patent 3,116,450: Tracer Liquid Release Tube Having Frangible Elements at Opposite Ends of the Tube; filed 25 August 1961; patented 31 December 1963; not available NTIS.

Patent 3,117,586: Automatic Controller; filed 30 June 1961; patented 14 January 1964; not available NTIS.

Patent 3,137,648: Pretreatment of Minerals for Electrostatic Separation; filed 24 January 1962; patented 16 June 1964; not available NTIS.

Patent 3,150,923: Process for Removing Sulfur Dioxide from Gases; filed 18 January 1962; patented 29 September 1964; not available NTIS.

Patent 3,154,381: Progressive Melting and Crystallization of Synthetic Mica; filed 20 April 1959; patented 27 October 1964; not available NTIS.

Patent 3,164,302: Process, Removal of Oxygen and Aluminum from Metals Prepared by Aluminothermic and Similar Processes; filed 24 January 1963; patented 18 May 1965; not available NTIS.

Patent 3,184,789: Apparatus for Large-Scale Application of Monomolecular Layers to Water Surfaces using Melted Material; filed 7 April 1964; patented 25 May 1965; not available NTIS.

Patent 3,228,750: Process for Separating Rare-Earth Elements by Ion Exchange; filed 7 June 1962; patented 11 January 1966; not available NTIS.

Patent 3,250,701: Stabilization of Desalination Membranes; filed 15 September 1965; patented 10 May 1966; not available NTIS.

Patent 3,262,865: Chemical Treatment and Distillation of Sea Water; filed 15 July 1963; patented 26 July 1966; not available NTIS.

Patent 3,271,248: Method of Controlling Sea Lamprey; filed 6 January 1964; patented 6 September 1966; not available NTIS.

Patent 3,271,326: Flame Spraying of Catalytically Active Pulverized Metal Oxides on Supports; filed 22 July 1963; patented 6 September 1966; not available NTIS.

Patent 3,278,028: Flotation of Mica; filed 31 October 1963; patented 11 October 1966; not available NTIS.

Patent 3,282,678: Smelting Reduced Iron Ore Pellets in the Blast Furnace; filed 16 January 1964; patented 1 November 1966; not available NTIS.

Patent 3,292,780: Process for Improved Flotation Treatment of Iron Ores by Selective Flocculation; filed 4 May 1964; patented 20 December 1966; not available NTIS.

Patent 3,293,829: Top Closure for High Temperature Electrostatic Precipitator; filed 27 August 1963; patented 27 December 1966; not available NTIS.

Patent 3,341,258: Process for Conveying Mineral Solids Through Conduits; filed 24 May 1963; patented 12 September 1967; not available NTIS.

Patent 3,369,168: Frequency Conversion System Utilizing Modulation; filed 5 August 1966; patented 13 February 1968; not available NTIS.

Patent 3,465,235: Control of Rotating Exciters for Power System Damping; filed 16 October 1967; patented 2 September 1969; not available NTIS.

Patent 3,552,754: Tube Plate Seal; filed 15 September 1969; patented 5 January 1971; not available NTIS.

Patent 3,788,465: Device and Process for Magneto-Gravimetric Particle Separation Using Non-Vertical Separation Process; filed 28 April 1972; patented 29 January 1974; not available NTIS.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Center for Disease Control

MEDICAL LABORATORY SERVICES ADVISORY COMMITTEE

Notice of Meeting

Pursuant to the Federal Advisory Committee Act (Public Law 92-463), the Director, Center for Disease Control, announces the meeting dates and other required information for the following National Advisory body scheduled to assembly during the month of June 1974.

Committee name	Date, time, place	Type of meeting and/or contact person
Medical Laboratory Services Advisory Committee.	June 20-21, 1974, 9 a.m., Room 207, Bldg. 1, Center for Disease Control, Atlanta, Ga. 30333.	Open—Contact Dr. Roslyn Q. Robinson, Room 106, Bldg. 1, Center for Disease Control, Atlanta, Ga. 30333. Code: 404-633-3262.

Purpose: To evaluate the approaches of the Bureau of Laboratories, CDC, and recommend revisions or additions, and advise on various laboratory matters and proposed regulations.

Agenda: Agenda items will provide for a review of the objectives of the Licensure and Proficiency Testing Program with consideration of improved procedures leading to more effective administration of the Clinical Laboratories Improvement Act of 1967.

Agenda items are subject to change as priorities dictate.

The meeting is open to the public for observation and participation. A roster of members and other relevant information regarding the meeting may be obtained from the contact person listed above.

Dated: April 29, 1974.

DAVID SENCER,
Director, Center for Disease Control.

[FR Doc.74-10566 Filed 5-7-74;8:45 am]

Food and Drug Administration

PANEL ON REVIEW OF ORTHOPAEDIC DEVICES

Notice of Renewal

Pursuant to the Federal Advisory Committee Act of October 6, 1972 (Public Law 92-463, 86 Stat. 770-776 (5 U.S.C. App.)), the Food and Drug Administration announces the renewal by the Secretary, Department of Health, Education, and Welfare, of the Panel on Review of Orthopaedic Devices for an additional period of two years beyond April 25, 1974.

Authority for this committee will expire April 25, 1976, unless the secretary formally determines that continuance is in the public interest.

Dated: May 2, 1974.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.74-10554 Filed 5-7-74;8:45 am]

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. D-74-275]

ACTING DIRECTOR, PITTSBURGH AREA OFFICE

Designation

Mr. William L. Kaplan is hereby designated as Acting Area Director of the

V 39 90 MAY 8 74 XUM

Pittsburgh Area Office for the period April 29, 1974, through May 12, 1974, with all the powers, functions, and duties redelegated or assigned to the Area Director.

Effective date: April 29, 1974.

(Secretary's Designation and Delegation of Authority published 36 FR 3389, Feb. 23, 1971.)

THEODORE R. ROBB,
Regional Administrator,
Region III (Phila.).

Office of the Assistant Secretary for Equal Opportunity

[Docket No. (N-74-234)]

HOUSING PROBLEMS OF SPANISH-SPEAKING AMERICANS

Cancellation of Public Meeting

Notice is hereby given of cancellation of the previously announced public fact-finding meeting to be conducted by the Assistant Secretary for Equal Opportunity on the subject of housing problems of Spanish-Speaking Americans (39 FR 12774; April 8, 1974). The meeting was scheduled to convene Thursday, May 9, 1974, at 9 a.m., in the South Dade Government Center, 10710 S.W., 211 Street, Miami, Florida. It was scheduled to reconvene Friday, May 10, 1974, at 9 a.m., in the General Services Administration Executive Conference Room, Federal Building, 51 SW., First Avenue, Miami, Florida.

GLORIA E. A. TOOTE,
Assistant Secretary
for Equal Opportunity.

[FR Doc.74-10747 Filed 5-7-74;9:09 am]

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

AVIATION REVIEW CONFERENCE

The purpose of this notice is to announce the sixth annual Aviation Review Conference. Previously called the National Aviation System Planning Review Conference, the name has been changed to more properly reflect the nature of the conference. (The establishment of annual consultative planning procedures was originally documented and publicized in 33 FR 19205, dated 24 December 1968, and 35 FR 17798, dated 19 November 1970.)

The Department of Transportation announces that the sixth annual Aviation Review Conference will be held June 3-5, 1974, at the Washington Hilton Hotel, Washington, D.C. On the first day, FAA spokesmen will identify current problems and forecast future developments. The aviation industry will assess the current situation and forecast future developments and challenges facing the aviation community during the second day. The third day will focus on the discussion of major policy/planning issues facing all segments of the aviation community.

The following topics were developed in meetings with representatives of industry and user groups through the consultative planning process. The Department of Transportation encourages comments on agenda topics. These comments should be submitted to:

Associate Administrator for Plans, Attn: AAV-10, Federal Aviation Administration, 800 Independence Avenue SW., Washington, D.C. 20591.

TOPICS

(1) Air Traffic Control.
(2) FAA Plan.
(3) Air Carriers.
(4) General Aviation.
(5) Airports.
(6) Environment.

A registration fee of $15.00, payable either in advance or at the conference, is required. The fee will include a copy of "The Year Ahead—1974, National Aviation System Plan for Fiscal Year 1975." The next NAS Ten Year Plan will be issued in the fall of 1974. Participants will have an opportunity to order these documents at the meeting.

To register for the sixth annual Aviation Review Conference, please write to the following address giving: (1) name, (2) address, (3) company/association, if any, and (4) area of interest. If preregistration is desired, please enclose a check payable to:

Federal Aviation Administration, Attn: AAV-200, 800 Independence Avenue SW., Washington, D.C. 20591.

Issued in Washington, D.C., on April 17, 1974.

F. A. MEISTER,
Acting Associate Administrator
for Plans.

ATOMIC ENERGY COMMISSION

[Docket Nos. 50-440, 50-441]

CLEVELAND ELECTRIC ILLUMINATING CO., ET AL.

Notice and Order for Prehearing Conference, and Evidentiary Hearing

In the matter of Cleveland Electric Illuminating Company, et al. (Perry Nuclear Power Plant Units 1 and 2).

Please take notice, that pursuant to the Atomic Energy Act of 1954, as amended (Act), and the Commission's "Notice of Hearing on Application For Construction Permits" dated July 5, 1973, published in the FEDERAL REGISTER (38 FR 18481), and in accordance with the said Commission's rules of practice (10 CFR Part 2), a Prehearing Conference will be held in the above-captioned proceeding on May 23, 1974 at 10 a.m. local time at the Lake County Courthouse, Courtroom No. 3, 47 Park Place, Painesville, Ohio 44077.

The cardinal objective of said Prehearing Conference will be to settle on final preparations for the Evidentiary Session to commence the following week as noted below.

To that end:

(1) The motion to realign and petition to intervene under § 2.714 filed by the Ohio Power Siting Commission (Ohio) on March 21, 1974, supplementing and in substitution of its earlier petition to participate under § 2.715(c), is granted in view of the stipulation (received on April 18, 1974) entered into among the Cleveland Electric Illuminating Company, et al. (Applicants), the AEC Regulatory Staff (Staff), and Ohio, as well as for other good cause shown.

(2) The said stipulation between Ohio, the Applicants, and the Staff has been reviewed by the Board and is hereby approved.

(3) In accordance with several telephone conference calls between the Applicants, the Coalition For Safe Electric Power (Coalition) and the Board, it is understood that the dispute on certain matters of discovery between the Applicants and the Coalition are resolved. Accordingly, the motions to compel filed by each as against the other are considered moot.

(4) The contentions of the Coalition as set forth by agreement of the parties in a letter from the AEC Staff Counsel dated March 29, 1974, to the Board have been reviewed and are approved as matters in controversy herein.

(5) The Board expects a stipulation from the parties on authenticity, admissibility, etc., of all documents intended to be entered as evidence into the record.

(6) The Board directs that the following question be addressed: "How does the Staff reconcile its decision in favor of initially proceeding with a once-through cooling system in view of its acknowledgement in the FES of the lack of pertinent data on currents, and the lack of pertinent data on the distribution and abundance of fish larvae?" See Final Environmental Statement, paragraphs 6.1.1.1; 9.2.1.3; and 11.1.3.3.

(7) On or before May 23, 1974, the parties are directed to present to the Board the names and addresses of all prospective witnesses, correlated with the specific dates on which they are expected to appear.

Further notice is hereby given that the Evidentiary Session in this proceeding will commence at 10 a.m. local time on May 29, 1974, at the Quail Hollow Inn, Barberry Room, 11080 Concord Humbden Road, Painesville, Ohio 44077. The Board will provide an opportunity during the first day of the Evidentiary Session for all limited appearance participants to express their views either through written or oral comments.

It is so ordered.

Issued in Bethesda, Maryland, this 2d day of May 1974.

ATOMIC SAFETY AND LICENSING BOARD,
FRANK F. HOOPER,
Member.
GUSTAVE A. LINEBERGER,
Member,
JOHN B. FARMAKIDES,
Chairman.

[FR Doc.74-10474 Filed 5-7-74;8:45 am]

[Docket No. 50-367]

NORTHERN INDIANA PUBLIC SERVICE CO.

Availability of Initial Decision for Bailly Generating Station, Nuclear 1 and Issuance of Construction Permit

Pursuant to the National Environmental Policy Act of 1969 and the United States Atomic Energy Commission's regulation in Appendix D, section A.9 and A.11, to 10 CFR Part 50, notice is hereby given that an Initial Decision, dated April 5, 1974, by the Atomic Safety and Licensing Board in the above captioned proceeding authorizing issuance of a construction permit to the Northern Indiana Public Service Company for construction of the Bailly Generating Station, Nuclear 1, to be located on the southern shore of Lake Michigan in Porter County, Indiana, is available for inspection by the public in the Commission's Public Document Room (PDR) at 1717 H Street NW., Washington, D.C., and in the Westchester Township Public Library, 125 South Second Street, Chesterton, Indiana 46304.

The Initial Decision is subject to review by an Atomic Safety and Licensing Appeal Board prior to its becoming final. Any decision or action taken by an Atomic Safety and Licensing Appeal Board in connection with the Initial Decision may be reviewed by the Commission.

The Initial Decision is also being made available at the Office of the Governor, 206 State House, Indianapolis, Indiana 46204 and at the Lake-Porter County Regional Transportation & Planning Commission, 9290 Taft Place, Crown Point, Indiana 46307.

Based upon the record developed in the public hearing in the above captioned matter, the Initial Decision modified in certain respects the Final Environmental Statement relating to the construction of the Bailly Generating Station, Nuclear 1, prepared by the Commission's Directorate of Licensing. Pursuant to the provisions of 10 CFR Part 50, Appendix D, section A.11, the Final Environmental Statement is deemed modified to the extent that the findings and conclusions relating to environmental matters contained in the Initial Decision are different from those contained in the Final Environmental statement, dated February 1973. As required by section A.11 of Appendix D, a copy of the Initial Decision, which modifies the Final Environmental Statement, has been transmitted to the Council on Environmental Quality and made available to the public as noted herein.

Pursuant to the above mentioned Initial Decision, the Atomic Energy Commission (the Commission) has issued Construction Permit No. CPPR-104 to the Northern Indiana Public Service Company for construction of a single unit boiling water nuclear reactor, known as the Bailly Generating Station, Nuclear 1, designed for a rated power of approximately 1931 megawatts thermal with a net electrical output of approximately 660 megawatts.

The Commission has made appropriate findings as required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the construction permit. The application for the construction permit complies with the standards and requirements of the Act and the Commission's rules and regulations.

The construction permit is effective as of the date of issuance. The earliest date for completion is March 1, 1978, and the latest date for completion is September 1, 1979. The permit will expire on the latest date for completion of the facility.

The permit is subject to a temporary restriction on site dewatering before September 1, 1974, in accordance with the Order of the Atomic Safety and Licensing Appeal Board in this proceeding dated April 30, 1974.

In addition to the Initial Decision, copies of (1) Construction Permit No. CPPR-104; (2) the report of the Advisory Committee on Reactor Safeguards, dated October 14, 1971; (3) the Directorate of Licensing's Safety Evaluation, dated February 15, 1972 and Errata thereto; (4) Supplement No. 1 to the Safety Evaluation, dated September 29, 1972; (5) Supplement No. 2 to the Safety Evaluation, dated October 31, 1973; (6) the Preliminary Safety Analysis Report and amendments thereto; (7) the applicant's Environmental Report, dated March 22, 1971, and supplements thereto; (8) the Draft Environmental Statement, dated July 14, 1972; and (9) the Final Environmental Statement, dated February 12, 1973, are also available for public inspection at the above-designated locations and in Washington, D.C. and Chesterton, Indiana. Single copies of the Initial Decision by the Atomic Safety and Licensing Board, the construction permit, the Final Environmental Statement, and the Safety Evaluation and supplements thereto may be obtained upon request addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing, Regulation.

Dated at Bethesda, Maryland this first day of May 1974.

For the Atomic Energy Commission.

WALTER R. BUTLER,
Chief, Light Water Reactors
Projects Branch 1-2, Directorate of Licensing.

[FR Doc.74-10473 Filed 5-7-74;8:45 am]

[Docket Nos. STN 50-477, 50-478]

PUBLIC SERVICE ELECTRIC AND GAS CO.

Prehearing Conference

In the matter of Public Service Electric and Gas Company (Atlantic Generating Station, Units 1 and 2).

Notice is hereby given that, pursuant to the Atomic Energy Commission's "Notice of Hearing on Application for Site Construction Permits" published in the FEDERAL REGISTER on March 20, 1974, (39 FR 10473), and in accordance with § 2.751a of said Commission's rules of practice, 10 CFR Part 2, a special prehearing conference will be held in the above captioned proceeding on June 4, 1974, at 10:00 a.m., local time, in the Commissioners Chambers, Second Floor, City Hall, 1301 Bacharach Boulevard, Atlantic City, New Jersey.

This special prehearing conference will be held before the Atomic Safety and Licensing Board (the Board) established in the aforementioned Notice of Hearing and composed of Dr. John R. Lyman, Dr. Marvin M. Mann and Daniel M. Head, Chairman.

The application which is the subject matter of this proceeding has been made by the Public Service Electric and Gas Company on behalf of itself, Atlantic City Electric Company, and Jersey Central Power and Light Company for permits to construct site related structures and to install two floating nuclear power plants, each of which incorporates a pressurized water reactor. These plants are designated as the Atlantic Generating Station, Units 1 and 2. It is proposed that the reactors will be manufactured in Jacksonville, Florida and towed to the site. Each reactor will be designed for initial operation at 3411 thermal megawatts with a net electrical output of approximately 1150 megawatts. The proposed facilities are to be mounted on a platform and moored behind a protective breakwater in the Atlantic Ocean approximately 2.8 statute miles off the southeastern coast of New Jersey.

This special prehearing conference shall deal with the following matters:

1. Identification of the key issues;
2. Any steps necessary for further identification of the issues;
3. Outstanding petitions for intervention;
4. All pending motions;
5. The need for discovery, and the time required therefor;
6. Establishment of a schedule for further action; and
7. Such other matters as may aid in the orderly disposition of the proceeding.

At the special prehearing conference, the Board will entertain oral argument on the outstanding petitions to intervene. The petitioners, as well as the parties, will be heard in this regard. The Board will expect to be advised on issues relating both to the interest and to the contentions of the various petitioners.

Members of the public are invited to attend this prehearing conference as well as the evidentiary hearing to be held at a later date to be fixed by the Board. Members of the public wishing to make limited appearances pursuant to § 2.715 (a) of the Commission's rules of practice, 10 CFR Part 2, may identify themselves at this prehearing conference but oral or written statements to be presented by limited appearances will not be received at this conference. The Board will receive such statements at the aforementioned evidentiary hearing.

The attorneys for the respective parties and any petitioners for intervention

V 39 I 90 MAY 8 74 XUM

are directed to confer in advance of this special prehearing conference, in such manner as they may deem appropriate, and report to the Board at said conference on any stipulations regarding interest and/or matters in controversy, and on any other mutually agreeable procedures to expedite this proceeding.

Dated this 1st day of May, 1974 at Bethesda, Maryland.

By Order of the Atomic Safety and Licensing Board.

DANIEL M. HEAD,
Chairman.

[FR Doc.74-10475 Filed 5-7-74;8:45 am]

REGULATORY GUIDES

Notice of Issuance and Availability

The Atomic Energy Commission has issued two guides in its Regulatory Guide series. This series has been developed to describe and make available to the public methods acceptable to the AEC Regulatory staff of implementing specific parts of the Commission's regulations and, in some cases, to delineate techniques used by the staff in evaluating specific problems or postulated accidents and to provide guidance to applicants concerning certain of the information needed by the staff in its review of applications for permits and licenses.

Revision 1 to Regulatory Guide 1.12, "Instrumentation for Earthquakes," describes seismic instrumentation that will meet the Commission's requirements for prompt determination of the seismic response of nuclear plant features important to safety to permit comparison of such response with that used as the design basis. This guide generally endorses ANSIN18.5-1974 entitled, "Earthquake Instrumentation Criteria for Nuclear Power Plants." Regulatory Guide 1.76, "Design Basis Tornado for Nuclear Power Plants," describes a design basis tornado acceptable for each of three regions within the contiguous United States that a nuclear power plant should be designed to withstand.

Regulatory Guides are available for inspection at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. Comments and suggestions in connection with improvements in the guides are encouraged and should be sent to the Secretary of the Commission, U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Chief, Public Proceedings Staff. Requests for single copies of issued guides or for placement on an automatic distribution list for single copies of future guides should be made in writing to the Director of Regulatory Standards, U.S. Atomic Energy Commission, Washington, D.C. 20545. Telephone requests cannot be accommodated. Regulatory Guides are not copyrighted and Commission approval is not required to reproduce them.

Other Division 1 Regulatory Guides currently being developed include the following:

Tornado Design Classification.
Availability of Electric Power Sources.
Requirements for Instrumentation to Assess Nuclear Power Plant Conditions During and Following an Accident for Water-Cooled Reactors.
Shared Emergency and Shutdown Power Systems at Multi-Unit Sites.
Isolation of Low Pressure Systems Connected to the Reactor Coolant Pressure Boundary.
Assumptions for Evaluating a Control Rod Ejection Accident for Pressurized Water Reactors.
Requirements for Collection, Storage, and Maintenance of Nuclear Power Plant Quality Assurance Records.
Requirements for Assessing Ability of Material Underneath Nuclear Power Plant Foundations to Withstand Safe Shutdown Earthquake.
Fire Protection Criteria for Nuclear Power Plants.
Protective Coatings for Light Water Nuclear Reactor Containment Facilities.
Inservice Surveillance of Grouted Prestressing Tendons.
Seismic Input Motion to Uncoupled Structural Model.
Primary Reactor Containment (Concrete) Design and Analysis.
Quality Assurance Requirements for Installation, Inspection, and Testing of Mechanical Equipment and Systems.
Quality Assurance Requirements for Installation, Inspection and Testing of Structural Concrete and Structural Steel.
Fracture Toughness Requirements for Vessels Under Overstress Conditions.
Material Limitations for Component Supports.
Protection Against Postulated Events and Accidents Outside of Containment.
Requirements for Auditing of Quality Assurance Programs for Nuclear Power Plants.
Assumptions Used for Evaluating the Potential Radiological Consequences of a Gas Holdup Tank Failure in a Boiling Water Reactor.
Quality Assurance Requirements for Procurement of Equipment, Materials, and Services.
Quality Assurance Requirements for Lifting Equipment.
Maintenance and Testing of Batteries.
Qualification of Class I Electrical Equipment.
Type Tests for Class IE Cables, Connections, and Field Splices for Nuclear Power Plants.
Seismic Qualification of Class I Electric Equipment.
Fracture Toughness Requirements for Materials for Class 2 and 3 Components.
Maintenance of Water Purity in PWR Secondary Systems.
Main Stream Line Sealing System Design Guidelines for Boiling Water Reactors.
Criteria for Heat-up and Cool-down Procedures.
Effects of Residual Elements on Predicted Radiation Damage.
Inservice Inspection and Testing of Steam Generators Tubing.
Component Design Criteria for Elevated Temperature Reactors.
Preoperational Testing of Emergency Core Cooling Systems for Pressurized Water Reactors.
Fuel Oil Supplies for Standby Diesel-Generators.
Assumptions Used for Evaulating the Habitability of a Nuclear Power Plant Control Room During a Postulated Toxic Chemical Release.
Assumptions Used for Evaluating the Potential Radiological Consequences of a Liquid Radioactive Waste System Accident.
Code Case Acceptability for ASME Section III Materials.
Sumps for Emergency Core Cooling and Containment Spray Systems.
Surveillance and Examination and Testing of Irradiated Fuel Rods.
Elevated Temperature Inservice Surveillance Tests for HTGR Plants.
Design Load Combinations for Component Supports.
Termination of Nuclear Reactor Operating Licenses.
Preoperational Testing of Instrument Air Systems.
Requirements for Containment Isolation.
Probable Maximum Storm Surge Flooding on Lakes and Sea Shores.
Requirements for Concrete Reactor Vessels and Containments (ASME Section III Division 2).
Instrument Span and Trip Setting.
Failed Fuel Detection System for Nuclear Power Plants.
Code Case Acceptability—ASME Section III Design and Fabrication.
Code Case Acceptability—ASME Section III Nonmetallic Materials.
Design, Qualification Test and Installation Requirements for Class 2 and 3 Safety-Related Pumps.
Seismic Response Combination of Modes and Spatial Components.
Analysis of Seismic Recorded Data.
Protection of Nuclear Power Plant Control Room Operators Against an Onsite Chlorine Release.
Self-Operated and Power Operated Safety-Related Valves Functional Specification.

(5 U.S.C. 522(a))

Dated at Bethesda, Maryland this 26th day of April, 1974.

For the Atomic Energy Commission.

LESTER ROGERS,
Director of Regulatory Standards.

CIVIL AERONAUTICS BOARD

[Docket No. 25690]

OVERSEAS NATIONAL AIRWAYS, INC.

Austrian Airtransport Management Agreement; Notice of Indefinite Postponement of Prehearing Conference

Under date of April 25, 1974, counsel for ONA requested a postponement of further procedural steps in this proceeding pending determination of its motion filed under the same date to file an otherwise unauthorized document consisting of a petition for reconsideration of Order 74-3-121 setting this proceeding for hearing. ONA states that it has amended the Agreement with Austrian Airtransport to such an extent that it believes the Board may moot this proceeding.

Under date of April 30, 1974, the Flying Tiger Line Inc., which has filed a petition for leave to intervene, objected to the request of ONA to postpone further procedural steps. Pan American, Saturn Airways and the Bureau of Operating Rights have indicated that they would not comment on ONA's request.

ONA's request is granted. The prehearing conference originally to be held on May 9, 1974 (39 F.R. 13803, April 17, 1974), is hereby postponed indefinitely.

Dated at Washington, D.C., May 2, 1974.

[SEAL] ROBERT M. JOHNSON,
Administrative Law Judge.

[FR Doc.74-10583 Filed 5-7-74;8:45 am]

[Docket No. 23909 Order 74-5-14]

COMPANIA ECUATORIANA DE AVIACION, S.A.

Foreign Air Carrier Permit Applications; Statement of Tentative Findings and Conclusions and Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 2nd day of May, 1974.

By Order E-11734, approved August 26, 1957, the Board issued a foreign air carrier permit to Compania Ecuatoriana de Aviacion, S.A. (Ecuatoriana) authorizing the carrier to engage in foreign air transportation of persons, property and mail between Ecuador, the intermediate points Cali, Colombia and Panama City, Panama and the terminal point Miami, Florida. The permit did not include off-route charter authority.[1]

On October 15, 1971 Ecuatoriana filed an application for amendment of its permit so as to authorize the conduct of off-route charter operations pursuant to Part 212 of the Board's Economic Regulations.[2] Action on the application was deferred pending confirmation that U.S. carriers would enjoy similar rights in Ecuador.[3] It now appears that the Government of Ecuador has modified its regulations to accommodate U.S. carrier requests for charter authority.

Ecuatoriana has successfully performed its presently authorized services and currently operates five passenger flights and two cargo flights per week to Miami with its Electra equipment. The carrier has no record of violations. Moreover, off-route charter authority has been granted to foreign route carriers, on the basis of reciprocity, since the Board's decision in the Foreign Off-Route Charter Service Investigation, 27 CAB 196 (1958). Since it now appears that reciprocity exists for U.S. carriers in Ecuador, off-route charter authority should also be granted to Ecuatoriana.[4]

In view of the foregoing, the Board tentatively finds and concludes that: (a) it is in the public interest to amend the foreign air carrier permit held by Compania Ecuatoriana de Aviacion, S.A. so as to authorize the carrier to engage in off-route charter trips in foreign air transportation, subject to the terms, conditions and limitations prescribed by Part 212 of the Board's Economic Regulations; (b) Ecuatoriana is fit, willing, and able to provide the above-described foreign air transportation and to conform to the provisions of the Act and the rules, regulations, and requirements of the Board thereunder; and (c) the public interest requires that the exercise of the privileges that would be granted in Ecuatoriana's amended permit should be subject to the terms, conditions, and limitations contained in the attached proposed form of permit, and to such other reasonable terms, conditions, and limitations required by the public interest as may from time to time be prescribed by the Board.

Accordingly, *it is ordered*, That:

1. All interested persons be and they hereby are directed to show cause why the Board should not make final the tentative findings and conclusions herein, and why an amended foreign air carrier permit substantially in the form attached to this order should not be issued, subject to the approval of the President pursuant to section 801 of the Act;

2. Any interested person having objections to the tentative findings and conclusions set forth herein, or to the issuance of the proposed amended foreign air carrier permit, shall file such objections within 10 days after the date of service of this order, and file with the Board and serve on the persons named in paragraph 5 a memorandum of objection specifying the part or parts of the tentative findings and conclusions or permit objected to and stating the specific grounds of any such objections;[5]

3. If timely and properly supported objections are filed, full consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board: *Provided*, That the Board may proceed to enter an order in accordance with the tentative findings and conclusions herein if it determines that there are no factual issues presented that warrant the holding of an evidentiary hearing;

4. In the event no objections are filed, all further procedural steps shall be deemed waived, and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth herein; and

5. Copies of this order shall be served upon the following Compania Ecuatoriana de Aviacion, S.A. and Braniff International.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.[6]

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.74-10585 Filed 5-7-74;8:45 am]

[Docket No. 22859 Order 74-5-16]

TRANS WORLD AIRLINES, INC.

Domestic Air Freight Investigation; Order of Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. on the 3rd day of May, 1974.

By tariff revisions bearing the issue date of March 22, 1974, and marked to become effective May 6, 1974, Trans World Airlines, Inc. (TWA) proposes to increase its domestic air freight rates as follows:

1. Cancel all westbound bulk and container specific commodity rates for all points, except from Miami and Tampa. For the latter points, some specifics will be canceled, some increased, and some retained at present levels;

2. Cancel all Type A-3 container rates and charges;

3. Cancel Type A container minimum charges for weights of less than 3,200 pounds; and

4. Increase the minimum charges for Type D containers to reflect an increased minimum chargeable weight from 500 to 575 pounds.

TWA's proposed cancellation of Type A minimum charges for containers below 3,200 pounds would result in rate increases of up to 2.3 percent. Minimum charges for Type D containers would be subject to increases of up to 10.4 percent.

In support of its proposal TWA contends, inter alia, that (1) the carrier is merely placing container minimum charges on the same basis as bulk traffic, 8.9 pounds per cubic foot; [1] (2) since

[1] Ecuatoriana obtained its permit before the Board's decision in 1958 in the *Foreign Off-Route Charter Service Investigation*, 27 CAB 196. In that case the Board granted off-route authority only to the foreign air carriers which held permits in 1955 and were made parties when the Investigation was instituted. The Board said in the opinion that carriers which had received their permits in the meantime could apply for off-route authority under setcion 402. 27 CAB 196 (206, footnote 13)

[2] A copy of the application has been transmitted to the President in accordance with section 801 of the Federal Aviation Act.

[3] In the meantime Ecuatoriana's permit was amended so as to authorize the carrier to serve Bogota as an intermediate point on its route. (Order 73-2-13, approved February 1, 1973.)

[4] By Order to Show Cause, Order 74-3-71, March 15, 1974, Docket 26509, the Board proposed certain major revisions to Part 212 of its Regulations. Compania Ecuatoriana de Aviacion, S.A. was made a party to that proceeding and the revised permit proposed to be issued herein will be subject to any revisions to Part 212 ultimately adopted in Docket 26509.

[5] Since provision is made for the filing of objections to this order, petitions for reconsideration of this order will not be entertained.

[6] Specimen permit filed as part of original document.

[1] By prior filing, TWA had published the 8.9 pounds per cubic foot dimensional weight rule for bulk shipments, although the application of the rule to cut flowers was deferred to May 10, 1974. For Type A containers, however, TWA adjusts the 8.9 pounds to allow for a 20 percent stacking loss. Hence, the actual density upon which the proposed minimum charges is based is 7.1 pounds per cubic foot.

V 39 I 90
MAY 8 74
XUM

only 10.5 percent of Type A containers and 2.9 percent of Type D containers will be affected by the increase, the maximum average increase will be 0.21 and 0.19 percent, respectively; and (3) the proposal will generate an estimated $16,000 additional annual revenue and will encourage better utilization of container space by shippers.

In support of its proposed cancellation of westbound specific commodity rates, TWA contends that (1) westbound specific commodity rates generated only 2.33 percent of TWA's domestic air freight revenues in 1973; (2) assuming no diversion, this aspect of the proposal will have the effect of increasing TWA's domestic freight revenues by $129,000, or 0.22 percent of 1973 revenues; and (3) given the current fuel crisis and the increasing demand for capacity in the prime westbound direction, these rate discounts are no longer warranted.

The proposed rates and charges come within the scope of the Domestic Air Freight Rate Investigation, Docket 22859, and their lawfulness will be determined in that proceeding. The issue now before the Board is whether to suspend the proposal or to permit it to become effective pending investigation.

The TWA filings are one of a series of rate increases filed by domestic carriers in recent weeks. The Board has reviewed these proposed rates in the light of industry average costs of carrying air freight (including a full return on investment), which reflect recognition of the sharp increases in fuel costs recently experienced. Based upon those standards, certain of the proposed rates appear to exceed costs. Those rates include proposed increases in rates and charges for Type D containers generally with lengths of haul of 1,100 miles and over westbound and 2,300 miles and over eastbound, and in all specific commodity rates on human remains. In view of the foregoing and upon consideration of all other relevant factors, the Board finds that the proposal, to the extent it applies to such rates, and as indicated in detail in Appendix A,[1a] should be suspended.

The remaining portions of the proposal appear sufficiently related to costs that the Board will permit them to become effective. These include primarily increases in Type D container rates for distances below 1,100 miles west bound and 2,300 miles eastbound, cancellation of all Type A–3 container rates and charges, increasing the minimum weights and charges for Type A containers, and cancellation of most westbound bulk and container specific commodity rates. The proposed cancellation of specific commodity rates is being permitted, consistent with our previous disposition of similar proposals by other carriers,[2] because, in our opinion, carriers should be accorded considerable flexibility as to offering such rates, which are typically justified primarily on a value-of-service basis.[3]

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly Sections 204(a) and 1002 thereof,

It is ordered, That:

1. Pending hearing and decision by the Board, the increased rates, charges, and provisions described in Appendix A hereto are suspended and their use deferred to and including August 3, 1974, unless otherwise ordered by the Board and that no change be made therein during the period of suspension except by order or special permission of the Board; and

2. Copies of this order shall be filed with the tariff and served upon Trans World Airlines, Inc.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.74-10586 Filed 5-7-74;8:45 am]

[1a] Appendix A filed as part of the original document.

[2] See, e.g., Orders 74-4-54 and 74-4-107.

[3] In its decision in Docket 22157, United Air Lines, Inc., Specific Commodity Rates on Periodicals, Floral Products, and Seafood, Order 72-11-78, November 20, 1972, the Board stated, "Because of their inherently preferential nature, the Board does not normally require carriers to publish SCR's, but leaves the offering and justification of SCR's to the carriers' initiative. Once a carrier institutes a particular SCR it is still afforded a fairly broad area of discretion in revising such rates between the parameters of fully-allocated and incremental costs, subject to the Board's review."

ENVIRONMENTAL PROTECTION AGENCY

LAKE MICHIGAN COOLING WATER STUDIES PANEL

Notice of Meeting

Pursuant to Public Law 92–463, notice is given that a meeting of the Lake Michigan Cooling Water Studies Panel will be held at 9:30 a.m. on May 23, 1974, in meeting rooms of the Seven Continents Restaurant, O'Hare International Airport, Chicago, Illinois.

The purpose of the meeting is to continue to review and revise the draft Program Report and Research Priorities lists for Lake Michigan Cooling Water Studies previously developed by the Panel.

The meeting will be open to the public. Any member of the public wishing to attend or submit a paper should contact the Executive Secretary, Mr. Howard Zar, Environmental Protection Agency, Region V, Enforcement Branch, 1 North Wacker Drive, Chicago, Illinois 60606.

The telephone number is area code 312–353–1470.

JOHN QUARLES,
Acting Administrator.

MAY 2, 1974.

[OPP—32000/54]

RECEIPT OF APPLICATIONS FOR PESTICIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 979), and its procedures for implementation. This policy provides that EPA will, upon receipt of every application, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB–37, East Tower, 401 M Street, SW., Washington, D.C. 20460.

On or before July 8, 1974, any person who (a) is or has been an applicant, (b) desires to assert a claim for compensation under section 3(c)(1)(D) against another applicant proposing to use supportive data previously submitted and approved, and (c) wishes to preserve his opportunity for determination of reasonable compensation by the Administrator must notify the Administrator and the applicant named in the FEDERAL REGISTER of his claim by certified mail. Every such claimant must include, at a minimum, the information listed in this interim policy published on November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy in regard to usage of existing supportive data for registration will be processed in accordance with existing procedures. Applications submitted under 2(c) will be held for the 60-day period before commencing processing. If claims are not received, the application will be processed in normal procedure. However, if claims are received within 60 days, the applicants against whom the particular claims are asserted will be advised of the alternatives available under the Act. No claims will be accepted for possible EPA adjudication which are received after July. 8, 1974.

APPLICATIONS RECEIVED

EPA File Symbol 8743–U. Brainerd Chemical Company, Inc., 42nd and S. Sheridan, P.O. Box 45010, Tulsa, Oklahoma 74145. *Algae-Out Concentrate.* Active Ingredients: Poly[oxyethylene - (dimethyliminio)ethylene(dimethyliminio)ethylene dichloride] 60.0%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 5719–AN. Chacon Chemical Corporation, 5245 Chakemco Street, South Gate, California 90280. *Chacon House Plant Insect Spray.* Active Ingredients: Pyrethrins 0.056%; Rotenone 0.024%; Other cube resins 0.048%; Petroleum distillate 0.224%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA Reg. No. 7273–105. Crown Chemicals, 4995 North Main St., Rockford, Illinois 61101. *Crown Malvex Dry Fly Bait.* Active Ingredients: 2,2-Dichlorovinyl dimethyl phosphate 0.46%; Related Compounds 0.04%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 30946–G. Eagle River Chemical Company, Highway 242, P.O. Box 2648, West Helena, Arkansas 72390. *Eagle River Propanil 4 Herbicide.* Active Ingredients: 3',4'-Dichloropropionanilide 43.48%. Method of Subpart: Application proceeds under 2(c) of interim policy.

EPA File Symbol 12477–G. Economy Service & Sales Co., 3511 N. 9th Street, Philadelphia, Pennsylvania 19140. *CP–10.* Active Ingredients: Poly[oxyethylene(dimethyliminio)ethylene - (dimethyliminio)ethylene dichloride] 10.0%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA Reg. No. 4816–482. FMC Corporation, Agricultural Chemical Division, 100 Niagara Street, Middleport, New York 14105. *Aqueous Pyrenone Garden & Mosquito Spray.* Active Ingredients: Pyrethrins 0.02%; Piperonyl Butoxide, technical 0.20%; Petroleum distillate 0.06%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA Reg. No. 5905–164. Helena Chemical Company, 5100 Poplar Ave., Suite 2900, Clark Tower, Memphis, Tennessee 38137. *Helena Brand MSMA Plus H. C. For Selective Post-Emergent Weed Control High Concentrate.* Active Ingredients: Monosodium Acid Methanearsonate 48.4%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 33660–E. Miss Rose Caputo, 229 Park Avenue, South, New York, New York 10003. Authorized Agent for I.PI.CI., Industria Prodotti Chimici S. p. A., Novate Milanese, Italy. *Simazine Technical.* Active Ingredients: 2 - chloro - 4,6-bis-(ethylamino)-s-triazine 95%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 5967–RER. Moyer Chemical Company, 1310 Bayshore Highway, P.O. Box 945, San Jose, California 95108. *Moyer BHC 12–W.* Active Ingredients: Gamma isomer of Benzene Hexachloride 12.0%; Other isomers of Benzene Hexachloride 12.0%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 5967–REE. Moyer Chemical Company, 1310 Bayshore Highway, P.O. Box 945, San Jose, California 95108. *Diazinon Dust No. 4.* Active Ingredients: O, O-diethyl O-(2-isopropyl-6-methyl-4-pyrimidinyl) phosphorothioate 4.0%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 5967–REN. Moyer Chemical Company, 1310 Bayshore Highway, P.O. Box 945, San Jose, California 95108. *Copper Dust No. 6.7.* Active Ingredients: Copper 6.7%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 10462–U. Multi Chemical Products, Inc., G.P.O. Box 2380, San Juan, Puerto Rico 00936. *Diacicion F–5 Concentrate Kills Roaches.* Active Ingredients: Refined Petroleum Distillate 90.03%; O, O, Diethyl-O (2 isopropyl)4 menthyl-6-pyrimidinyl phosphoronthioate 6.25%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 10462–L. Multi Chemical Products, Inc., G. P. O. Box 2380, San Juan, Puerto Rico 00936. *Diacicion F–7 Kills Flies, Mosquitoes and Roaches.* Active Ingredients: Petroleum Distillate 98.6125%; Piperonyl Butoxide 1.1875%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 34269–E. Poolside, 1738 McMenemy Street, St. Paul, Minnesota 55117. *Poolside Algi-Rid.* Active Ingredients: Poly[oxyethylene (dimethyliminio) ethylene (dimethyliminio) ethylene dichloride] 15.0%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 34269–R. Poolside, 1738 McMenemy Street, St. Paul, Minnesota 55117. *Poolside Algi-Rid Concentrate.* Active ingredients: Poly[oxyethylene(dimethyliminio)ethylene(dimethyliminio)ethylene dichloride] 60.0%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 655–LNE. Prentiss Drug & Chemical Co., Inc., 363 7th Ave., New York, New York 10001. *Prentox Redi-Use Mouse & Rat Bait.* Active Ingredients: Warfarin (3-(a-acetonylbenzyl)-4-hydroxycoumarin) 0.025%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 655–LNL. Prentiss Drug & Chemical Co., Inc., 363 7th Ave., New York, New York 10001. *Prentox Redi-Use Mouse &, Rat Bait RP for Repackaging of a Rodenticide.* Active Ingredients: Warfarin (3-a-acetonylbenzyl) - 4 - hydroxycoumarin) 0.025%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 602–EUL. Ralston Purina Company, General Offices, Checkerboard Square, St. Louis, Missouri 63188. *Purina Diazinon Spray-11 12½%.* Active Ingredients: O,O-diethyl O-(2-isopropyl-6-methyl-4-pyrimidinyl) phosphorothioate 12.5%; Xylene 40.2%; Petroleum distillate 40.15%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 3509–RNR. Safe-Way Farm Products Co., 2519 East 5th Street, Austin, Texas 78762. *Safe-Way Brand Livestock Dust.* Active Ingredients: Toxaphene 5%; Sulphur 10%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 11463–E. Schaefer Chemical Company, 3000 Carrollton Road, Saginaw, Michigan 48604. *Tower Treat.* Active Ingredients: Poly[oxyethylene(dimethyliminio) ethylene(dimethyliminio)ethylene dichloride] 30.0%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA Reg. No. 538–11. O. M. Scott & Sons, Marysville, Ohio 43040. *Scotts Halts Brand Crabgrass Preventer.* Active Ingredients: S-(O,O-Diisopropyl phosphorodithioate) ester of *N*-(2-Mercaptoethyl) benzenesulfonamide 11%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 11682–RT. Sim-Chem, Minerals and Chemicals Division, J .R. Simplot Company, P.O. Box 810, Mountain Home, Idaho 83647. *Sim-Chem Dibrom 8EC Naled Insecticide.* Active Ingredients. Naled 58%; Xylene 20%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 11682–RI. Sim-Chem, Minerals and Chemicals Division, J. R. Simplot Company, P.O. Box 810, Mountain Home, Idaho 83647. *Sim-Chem Ethion 10% Granular an Agricultural Insecticide.* Active Ingredients: Ethion 10.00%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 6720–EEN. Southern Mill Creek Products Co., Inc., P.O. Box 1096, Tampa, Florida 33601. *SMCP Pelletized Slug and Snail Bait.* Active Ingredients: 3,5-Dimethyl-4-(methylthio) phenol methylcarbamate 2%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA File Symbol 6720–EEE. Southern Mill Creek Products Co., Inc., P.O. Box 1096, Tampa, Florida 33601. *SMCP Crumblized Slug and Snail Bait.* Active Ingredients: 3,5-Dimethyl-4-(methylthio)phenol methylcarbamate 2%. Method of Support: Application proceeds under 2(c) of interim policy.

EPA Reg. No. 476–2049. Stauffer Chemical Company, 1200 South 47th Street, Richmond, California 94804. *Sutan +7-E Emulsifiable Liquid Selective Herbicide for Corn.* Active Ingredients: *S*-Ethyl Diisobutylthiocarbamate 89.0%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 476–ERLL. Stauffer Chemical Company, 1200 South 47th Street, Richmond, California 94804. *Vernan 7-E Emulsifiable Liquid—A Selective Herbicide.* Active Ingredients: *S*-Propyl Dipropylthiocarbamate 88.5%. Method of Support: Application proceeds under 2(b) of interim policy.

EPA File Symbol 476–ERLU. Stauffer Chemical Company, 1200 South 47th Street, Richmond, California 94804. *Eptan 7–E—Selective Herbicide Emulsifiable Liquid.* Active Ingredients: S-Ethyl Dipropylthiocarbamate 87.8%. Method of Support: Application proceeds under 2(b) of interim policy.

CORRECTION

As stated in the Notice of Receipt of Applications for Pesticide Registration—Data To Be Considered in Support of Application [OPP–32000/47] published in the FEDERAL REGISTER on April 29, 1974 (39 FR 14990), the Administrator and the applicant named in the FEDERAL REGISTER must be notified of claims by certified mail within 60 days from the date said notice is published. This period ends on July 1, 1974, rather than July 29, 1974, as cited in the notice.

REPUBLISHED ITEM

The following item represents a correction and/or change in the list of Applications Received previously published in the FEDERAL REGISTER of April 29, 1974 (39 FR 14990).

EPA File Symbol 3509–RNA. Safe-Way Farm Products Co., 2519 East 5th Street, P.O. Box 6309, Austin, Texas 78702. *Safe-Way Brand Scarlet Red Screwworm Bomb.* Active Ingredients: Gamma Isomer of Benzene Hexachloride (from Lindane) 2.66%. • • • Correction: Originally published as Benzene Hexochloride.

Dated: May 2, 1974.

JOHN B. RITCH, Jr.,
Director, Registration Division.

WATER QUALITY CRITERIA AND INFORMATION

Extension of Time for Comment

On October 26, 1973 (38 FR 29646), the Agency published a notice that proposed Water Quality Criteria (Vol. I) had been published. Subsequently, on October 29, 1973 (38 FR 29836), the Agency published a notice that proposed Water Quality Information (Vol. II) had been published.

The two companion volumes were published pursuant to Section 304(a) (1) and (2) of the Federal Water Pollution Control Act (33 U.S.C. 1251); 86 Stat. 816 (Pub. L. 92–500). A period of 180 days was specified within which interested members of the public were invited to submit written comments on the proposed Criteria and Information Volumes. That period expired on April 26, 1974.

V 39 90 MAY 8 74 XUM

The Agency anticipated that copies of both the Criteria and Information volumes would be available to the public throughout the comment period. Production difficulties, however, delayed publication and general distribution of the reports. Because of the length, complexity and importance of the proposed criteria, and the Agency's desire to encourage informed and thoughtful public participation in their final promulagation, the Agency believes that members of the public should have access to the supporting documents on which the proposed criteria were based for a more substantial time period in which to formulate meaningful comments. Accordingly, the final date for submission of comments on the Criteria and Information Volumes is hereby extended to and including July 1, 1974.

CHARLES L. ELKINS,
Acting Assistant Administrator for Water and Hazardous Materials.

FEDERAL COMMUNICATIONS COMMISSION

[FCC 74-464]

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

Extension of Time for New Procedures on Petitions To Deny Applications

MAY 2, 1974.

On April 17, 1974 we adopted new procedures (see Public Notice 10980) whereby existing licensees who had protested the entry of new applicants into the same market on grounds of economic competition, were to have their renewal applications designated for hearing together with the proposals of the applicants. The hearing was to determine first, whether the particular market could support an additional carrier, and if not, the hearing was to proceed on a comparative basis to establish whether grant of the new application or grant of the existing licensee's renewal application would best serve the public interest. May 1, 1974 was the date by which all economic protests had to be withdrawn in order to escape a designation order.

We now find that the May 1, 1974 withdrawal deadline is unreasonable. It will be necessary for many licensees to consult with counsel before reaching a decision whether to maintain their protests or to withdraw. In addition, several petitions have been filed requesting additional time and also questioning the propriety of our original public notice Time will be required to evaluate the comments contained therein.

Accordingly, the date by which all economic protests must be withdrawn in order to escape designation is hereby extended to June 1, 1974. By that time we shall have decided upon the merits of petitions filed in response to the original public notice; and those existing licensees with protests presently on file will have had the opportunity to consult with counsel. Pending further action, all renewal applications shall be held in abeyance.

Action by the Commission acting as a Board, May 1, 1974. Commissioners Wiley (Chairman) and Hooks, with Commissioner Reid concurring and Commissioner Quello not participating.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.74-10601 Filed 5-7-74;8:45 am]

[FCC 74-441; Docket Nos. 20025, 20026; File Nos. BR-4354, BRH-1709]

LEFLORE BROADCASTING COMPANY, INC., AND DIXIE BROADCASTING COMPANY, INC.

License Renewal Applications; Hearing

In re applications of Leflore Broadcasting Company, Inc. (WSWG-AM), Greenwood, Mississippi, Docket No. 20025, File No. BR-4354; Dixie Broadcasting Company, Inc. (WSWG-FM), Greenwood, Mississippi, Docket No. 20026, File No. BRH-1709; For renewal of license.

1. Now under consideration are: the captioned applications; a petition to deny the application of Leflore Broadcasting Company, Inc. (Leftflore), filed January 10, 1973, by the Greenwood Communications Committee, an unincorporated association of persons in Greenwood, and by James Moore, Jake McGhee and Martha Cooley, individually and as members of the Committee; an opposition filed March 14, 1973 by Leflore; a reply filed April 10, 1973, by the petitioners; our field investigation into the operation of Station WSWG(AM); the matters left unresolved in our decision in Leflore Broadcasting Company, Inc., 36 FCC 2d 101, 24 RR 2d 953 (1972); a petition to deny the application of Dixie Broadcasting Co., Inc. (Dixie), filed May 1, 1973, by the Greenwood Communications Committee and by James More, Jake McGhee and Martha Cooley, individually and as members of the Committee; an opposition filed June 4, 1973, by Dixie; and related pleadings.[1]

2. We find that the petitioners, as a group of concerned listeners residing in the Greenwood area, are parties in interest within the meaning of section 309 (d) of the Communications Act, Office of Communication of the United Church of Christ v. FCC 359, F. 2d 994, RR 2d 2001 (D.C. Cir. 1966).

3. In regard to the AM application, Leflore contends that some of the petitioners' allegations are not "supported by affidavit of a person or persons with personal knowledge" of the facts as required by section 309(d) of the Act. In Leflore Broadcasting Company, Inc., 37 FCC 2d 655 (1972), we considered a motion filed by the petitioners for clarification or reconsideration of our first decision in this matter. We there stated:

> • • • in the ordering clauses of the first decision, we did not dispose of all matters raised in (the petitioners') pleadings. Specifically, we left open three questions that were raised by the various pleadings. The petitioners need not plead their case a second time as to those questions. (37 FCC 2d at 655)

We recognize that the list of petitioners filing the prior pleadings is not identical with the present list. Nonetheless, since some individuals appear in both lists, we believe that the present petitioners can lay claim to the material and documents included in the prior pleadings, since the same issues are raised. The prior pleadings are supported by appropriate affidavits as to matters that we can not officially notice. We conclude, therefore, that the present pleadings meet the requirements of section 309(d) of the Act.

4. The background of this proceeding, insofar as it pertains to the AM station, is set out more fully in our first decision (see 36 FCC 2d 101). Briefly stated, however, Leflore, in preparing its 1970 renewal application, conducted a survey and found a need for entertainment and non-entertainment programming directed toward the area's black community.[2] Leflore proposed to meet those needs in its application, which was granted July 14, 1970. The entertainment format was to be rhythm-and-blues music, which was selected in light of an audience preference survey. On March 8, 1971, Leflore changed its entertainment format to country-and-western music[3] and fired three black announcers. These actions resulted in the filing of the pleadings we considered in our prior decisions in this matter. Based on those pleadings, and on the findings of our own field investigation, we called for the early filing of Leflore's renewal application, and stated that based on the information then before us, we had the following questions concerning Leflore's operation of Station WSWG:

(a) Whether the licensee has carried out in good faith the representations made in its 1970 renewal application as to proposed non-entertainment programming, particularly with respect to the programming directed toward meeting the problems and needs of the Black community;

(b) Whether in light of the licensee's performance in carrying out its representations in its renewal application and subsequent written statements to the Commission, the licensee made misrepresentations to the Commission in its 1970 renewal application or those statements; and

(c) Whether the licensee has violated § 73.125 of our rules.

See 36 FCC 2d at 104. After reviewing all the pleadings and the renewal application, we believe that these questions still remain and that a hearing is required.

5. Financial hardship is the only basis that Leflore has set forth as a reason for the entertainment format change. Based on the information then before us, we stated in our first decision that we would not make inquiry as to the change in format in light of Leflore's apparently poor financial position, 36 FCC 2d at 103. We did, however, make available to the petitioners the Annual Financial Reports (FCC Form 324) for WSWG so that they could file any comments they thought appropriate as to WSWG's financial position. Moreover, because Stations WSWG (AM) and WSWG-FM shared the same facilities and employees, and because the two stations were identically owned and controlled, although licensed to separate corporations, the Form 324's for Station WSWG-FM were also made available to the petitioners. The petitioners now raise a question as to a misallocation of costs between the AM and FM operations that may have distorted the losses of WSWG (AM) when using the rhythm-and-blues format. In opposition, Leflore has submitted a letter from its certified public accountants to establish that the AM station sustained losses and that costs were reasonably allocated between the licensee of the two stations. However, the letter is neither addressed to the Commission nor in affidavit form. There is also an inconsistency between this letter and a prior letter provided by the same accountants, which raises questions as to the reliability of the information provided in the letters. Earlier, the accountants stated that the salary of Vice-President and General Manager James McCullough was paid entirely by the FM station. In the present letter, it is stated, in reference to the same time period, that the General Manager's salary was shared by the AM and FM operations. The percentage paid by each station is not indicated. The petitioners also raise questions as to the payments made to McCullough and C. D. Saunders. Saunders is President and 75 percent owner of both licensees. For example, Leflore and Dixie claimed greater combined losses ($73,777) in 1971, the year the AM station's format was changed, than in any previous year. Yet 1971 was the first year since the acquisition of WSWG(AM) that payments were made to Saunders. McCullough's salary has also been increasing substantially during years when the combined operations were losing money. His salary in 1971 was more than $7,000 higher than his salary in 1969. That increase, the payments to Saunders and the discrepancies in the accountant's statements raise a question as to whether the losses claimed are as great as indicated by Leflore. Because the losses are the only basis put forward by Leflore for changing from a format apparently preferred by a substantial portion of the area's residents, and because the change in format resulted in a substantial reduction in the availability of the preferred format, we believe that Leflore's representations that the change in format was financially necessary should be explored in hearing.

6. Leflore represented in its 1970 renewal application that 5.1 percent of a typical broadcast week would be public affairs programming. Only 0.9 percent (43 minutes) of the composite week, according to Leflore, was in fact public affairs programming. Moreover, its logs show only a 5-minutes program on June 21, 1971, as being logged as public affairs. Although not so stated in its logs, Leflore elsewhere indicates in its application, that it considers a program entitled "Self Expression Time" to be public affairs programming. Nonetheless, even if that program is included in the total amount of time during the composite week, we are able to find only a total of about 17 minutes of programming classified by the licensee as public affairs. Pursuant to Question 3(B), Section IV-A of the application form, Leflore has also submitted an analysis of its logs, but not the logs themselves, for the month of March, 1972, which it believes to be more representative than the composite week. During that month, Leflore states that 2.62 percent of its programming fell in the public affairs category which is still substantially below the amount represented in the 1970 application. In this respect, we note that in a list of programs broadcast during the last license term that the licensee believes served the needs and interests of the area, Leflore has classified several programs as public affairs which do not appear to fall in that category.[4] Specifically, programs entitled "Winter Carnival Day," "Greenwood Week," and "Miss Hospitality Pageant," based on the descriptions given, apparently should have been classified as "other" programming, not as public affairs. Thus, on the basis of information submitted, we have no assurance that Leflore broadcast even the 2.62 percent public affairs programming during March, 1972 as indicated in its analysis. Accordingly, a question is raised concerning Leflore's representations in its 1970 renewal application and its efforts to implement those representations.

7. The petitioners have requested that additional program logs be made available to the petitioners so that they may analyze them, and that they be afforded additional time to supplement their petition upon the completion of that analysis. However, such logs are subject to appropriate motions for discovery prior to hearing, and we believe such motions are more appropriate than further delaying the institution of this proceeding.

8. The materials in the pending renewal application and in the various pleadings have not resolved the questions we have about the operation of WSWG (AM), see paragraph 4, above. In view of these questions, we are unable to find that a grant of the renewal application would serve the public interest, convenience and necessity, and must, therefore, designate the application for hearing.

9. WSWG-FM is licensed to Dixie Broadcasting Co., Inc. whose ownership and control is identical to that of Leflore Broadcasting Company, Inc., licensee of WSWG(AM). The renewal applications for both stations indicate that during the last renewal period the two stations have been operated jointly and their programming is presently being simulcast during the hours of AM operation. The renewal applications and the various pleadings relating to the licensees' employment practices further indicate that the licensees consider the staffs of both stations to be a combined one. Therefore, any conclusions with respect to the employment discrimination and misrepresentation issues raised above will be equally applicable to Dixie. In addition, the Greenwood Communications Committee, *et al.*, filed a petition to deny the renewal of WSWG-FM alleging that the licensee had failed to seek out representative black leaders in its ascertainment efforts, had failed to propose programming to meet the needs and interests of its service area and had discriminated in its employment practices. As previously noted, the applicant's compliance with § 73.125 of the Commission's rules is already in issue, and the allegations of employment discrimination with regard to the FM station therefore require no further discussion.

10. In its opposition filed June 4, 1973, Dixie asserts that the Petition to Deny was filed without benefit of a supporting affidavit and should therefore be summarily dismissed. Dixie further contends that the petitioners have failed to allege sufficient facts to support the allegations of the Petition to Deny and that there is no factual basis to those allegations. The Petition to Deny indicates that an affidavit of verification would be forthcoming, but it does not appear that the necessary affidavit was ever filed. The Petition to Deny must therefore be dismissed pursuant to § 1.580(i) of the Commission's rules. However, the Petition to Deny raises serious public interest questions of the most basic nature, and, to the extent that these allegations rest of matters that can be officially noticed by the Commission, they will be discussed herein.

11. With regard to ascertainment, the petitioners allege that in spite of the fact that the population of Leflore County is

[1] The related pleadings are motions for extensions of time to file opposition and reply pleadings, which are hereby granted.

[2] The non-white community constitutes 50.4 percent of the population of Greenwood and 58.3 percent of the population of Leflore County, where Greenwood is located.

[3] The country-and-western format was subsequently dropped on May 3, 1971, when WSWG and WSWG-FM began simulcasting the middle-of-the-road format that WSWG-FM previously had been broadcasting. Leflore has provided no information indicating that these changes in format were preceded by a survey indicating that these had now become the preferred formats, in place of the preference for rhythm-and-blues music that had been found in its prior survey.

[4] Form 303, used for renewal applications, defines "Public Affairs" as including "talks, commentaries, discussions, speeches, editorials, political programs, documentaries, forums, panels, round tables and similar programs primarily concerning local, national and international public affairs."

V 39 190 MAY 8 74 XUM

approximately 67 percent black.[4] Dixie interviewed 35 black and 38 white community leaders, and the general public interviews consisted of 368 white and 278 black contacts with an additional 234 contacts unidentified as to race. Petitioners further assert that the station ignored certain local black leaders which, petitioner implies, would have given Dixie a different picture of the problems, needs, and interests of the area. However, petitioners have failed to plead specific facts to indicate which black leaders of significant groups within the community should have been contacted and what additional problems would thereby have been ascertained. Further, the "Primer on Ascertainment of Community Problems by Broadcast Applicants," 27 FCC 2d 650, 36 FR 4029 (1971) does not require applicants to contact community leaders or members of the general public in exact proportions to the various minority groups within an area. As previously indicated, non-whites constitute 50.4 percent of the population of Greenwood and 58.3 percent of the population of Leflore County. It therefore does not appear that Dixie has been unreasonable in the number of interviews conducted of black community leaders and members of the general public.

12. Petitioners allege that Dixie's program proposal fails to serve adequately the needs and interests uncovered in the licensee's survey. Exhibit 5 of Dixie's renewal application purports to set forth the programs proposed to meet the needs ascertained. Eight programs are listed, but three of these programs (Editorials, City and Area Promotions, and How's Your Health) are proposed at "varied times" without specific frequency, time or duration. Another program, Mississippi Valley State College, is proposed "monthly" without a scheduled time or duration, and the description of that program does not reveal its form, format, or how or what community problems would be dealt with in the program. Further, Dixie's Black History program is scheduled daily for 90 seconds, but Dixie has failed to indicate the time of day of that broadcast. The remaining three programs, (Self Expression Time, Goodwill Bulletin Board, and Issues and Answers) are proposed with the requisite frequency, time, and duration, but the weekly duration of these programs differs markedly from the applicant's program proposal as set forth in other parts of its renewal application. Exhibit 8 to Dixie's renewal application indicates that these programs are considered public affairs[5] and in response to paragraph 14 of Section IV–B, Dixie indicates that it proposes 3 hours 8 minutes of public affairs programs during the typical week. However, these three programs, for which specific frequency, time, and duration are given, add up to at least 5 hours 54 minutes of "public affairs" programs per week.[6] This discrepancy raises a question as to whether Dixie intends to broadcast these programs are proposed.[6] We further note that two of the three specifically proposed programs (Self Expression Time and Goodwill Bulletin Board) are 90 seconds or less in duration. Based on Dixie's descriptions of these programs, however, it is difficult to determine whether they are public affairs programs designed to serve ascertained community problems. We, therefore, find that Dixie's program proposal raises a substantial question as to exactly what the licensee proposes to broadcast and whether the programs proposed are adequately designed to meet those ascertained needs and interests with which the licensee intends to deal; and, thus, an appropriate issue will be added. Since WSWG (AM) and FM now simulcast, the question is equally applicable to the proposed programming of WSWG(AM).

13. *Accordingly, It is ordered,* That pursuant to section 309(e) of the Communications Act of 1934, as amended, the captioned applications are designated for hearing in a consolidated proceeding, at a time and place to be specified in a subsequent order, upon the following issues:

(1) To determine whether Leflore Broadcasting Company, Inc., has carried out in good faith the representations made in its 1970 renewal application as to proposed nonentertainment programming;

(2) To determine in light of the evidence adduced under the preceding issue, whether the applicant made misrepresentations to the Commission or was lacking in candor;

(3) To determine whether the applicants or their principals made misrepresentations to the Commission or were lacking in candor in other written submissions to the Commission;

(4) To determine whether the applicants violated § 73.125 or § 73.301 of the Commission's rules;

(5) To determine whether the change in entertainment format on WSWG(AM) was, as claimed by the licensee, financially necessary;

(6) To determine the extent and nature of the applicants' proposed non-entertainment programming and whether that proposal adequately serves the ascertained problems, needs and interests of the community, as evaluated;

(7) To determine, in light of the evidence adduced under the preceding issues, whether the applicants have the requisite qualifications to be or to remain Commission licensees, and whether a grant of the applications would serve the public interest, convenience and necessity.

14. *It is further ordered,* That Johnny W. Williams, Theodore Hill, Jr., George Davis, W. S. Lee, Jr., Martna Cooley, Jake McGhee, James Moore, the Greenwood Movement and the Greenwood Communications Committee are made parties respondent to this proceeding.

15. *It is further ordered,* That the Chief of the Broadcast Bureau shall serve upon the captioned applicants, within thirty (30) days of the release of this document, a Bill of Particulars with respect to issues (1) through (4), inclusive, as to allegations of fact and information in his possession not alleged by the petitioners.

16. *It is further ordered,* That the parties respondent proceed with the initial presentation of evidence with respect to issues (1) through (6), inclusive, that the Chief of the Broadcast Bureau present the evidence described in the Bill of Particulars with respect to issues (1) through (4), inclusive, and that the applicants then proceed with their evidence and have the burden of establishing that they possess the requisite qualifications to be and to remain licensees of the Commission and that a grant of the applications would serve the public interest, convenience and necessity.

17. *It is further ordered,* That the applicants and the parties respondent shall file a written appearance stating an intention to appear and present evidence on the specified issues, within the time and in the manner required by § 1.221(c) of the Commission's rules.

18. *It is further ordered,* That the applicants shall give notice of the hearing within the time and in the manner specified in § 1.594 of the rules, and shall seasonably file the statement required by § 1.594(g).

Adopted: April 17, 1974.

Released: May 2, 1974.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

[FR Doc.74–10602 Filed 5–7–74;8:45 am]

[4] The petition does not disclose the source of this 67 percent figure. See footnote three, above.

[5] Questions as to the proper classification of public affairs programs were raised in paragraph 6, above.

[6] The total of 5 hours 54 minutes is based on 60 seconds for Self Expression Time and Goodwill Bulletin Board, each broadcast every hour during a 162 hour week. No commercial time was deducted from these programs due to their short duration. Commercial time at the rate of 20 minutes per hour was deducted from Issues and Answers.

[6] An even larger discrepancy results when other less specifically proposed programs, also classified as public affairs by the licensee, are considered.

FEDERAL MARITIME COMMISSION

[Docket No. 72–17 (Sub No. 1)]

NORTH ATLANTIC POOL

Order of Investigation and Hearing

In the matter of Agreement No. 10,000–1—Amendment of North Atlantic Pool.

Agreement No. 10,000 is a revenue pooling agreement among seven containership operators, American Export Lines, Inc. (AEL),[1] Atlantic Container Line, Ltd. (ACL), Dart Containerline Company, Ltd. (Dart), Hapag-Lloyd AG (HL), Sea-Land Service, Inc. (Sea-Land), Seatrain Lines, Inc./Seatrain International, S.A. (Seatrain) and United States Lines, Inc. (USL), common carriers in the North Atlantic Trade, i.e., the trade between United States North Atlantic ports north of Cape Hateras and Atlantic ports in Europe north of and including Bayonne to the North Cape and

[1] American Export Isbrandtsen Lines, Inc. (AEIL) at the time Agreement No. 10,000 was signed.

ports in the Baltic, Scandinavia, United Kingdom and Eire.

Agreement No. 10,000 was filed for approval on November 28, 1971, and is the product of 12 months' negotiations among the carriers conducted pursuant t Agreement No. 9899, the "Talking Agreement", which was approved by the Commission on November 24, 1970.

Notice of the filing of Agreement No. 10,000 generated 21 comments, two of which requested a hearing on the proposed agreement. By Order of Investigation served May 5, 1972, the Commission instituted Docket No. 72–17 to determine whether Agreement No. 10,000 should be approved, disapproved or modified pursuant to section 15 of the Shipping Act, 1916. Nineteen parties participated in 40 days of hearings, which produced a transcript of 4993 pages and 107 exhibits. An initial decision was issued by the then Chief Administrative Law Judge, C. W. Robinson, on December 10, 1973, approving Agreement No. 10,000 with conditions.

Exceptions to the Initial Decision were filed by various of the parties on February 26, 1974, and Replies to Exceptions were filed on April 12, 1974.

On March 1, 1974, the signatories to Agreement No. 10,000 filed a document which came to be designated Agreement No. 10,000–1, which proposed to amend Article 15.3 of Agreement No. 10,000 to read as follows:

15.3. Upon approval of the Agreement [viz., North Atlantic Pool Agreement—FMC Agreement No. 10,000] by the Federal Maritime Commission, the Pool Lines shall have a period of six (6) months to develop an overall rationalization plan reflecting the sailing and service obligations of each Member Line. Any Member Line may withdraw from the Agreement for any reason at any time during this period without prejudice and without any liability to the other lines by giving two weeks written notice of its intention to do so to the Pool Coordinator. This Subarticle shall be considered a basic part of the Pool Agreement and any approval by the Federal Maritime Commission which shall not include an approval to this Subarticle shall be considered unacceptable to the Member Lines and will therefore vitiate the Agreement. In the event of any withdrawal during this first 180-day period the penalty provisions of Subarticle 15.1 shall not be applicable, nor shall any of the other provisions of the Pool Agreement be effective.

Article 15.3 presently provides:

15.3. If satisfactory progress should not be made in the rationalization of sailings and in the evolvement of service obligations, notwithstanding any other provisions in this Agreement, during the first 180 days following initiation of the Pool Agreement any Member Line may withdraw from the Agreement by giving two weeks' written notice to the Pool Coordinator. In the event of any withdrawal during this first 180-day period the penalty provisions of Subarticle 15.1 shall not be applicable, nor shall any of the other provisions of the Pool Agreement be effective.

The proposed Article 15.3 is consistent with the conditional approval granted Agreement No. 10,000 by the initial decision wherein Judge Robinson found that:

The agreement should be approved in principle, final approval to be conditioned on the filing within six months of a rationalization plan and the acceptance of specified conditions (Initial Decision, p..118).

Additionally, the nebulous phrase "satisfactory progress * * * in the rationalization of sailings, and the evolvement of service obligations" of the present Article 15.3 is replaced in the proposed Article 15.3 by making it clear that "The Pool Lines shall have a period of six (6) months to develop an overall rationalization plan reflecting the sailing and service obligations of each Member Line."

The Massachusetts Port Authority (Massport) an intervenor and active participant in Docket No. 72–17 filed a "Statement of Position" opposing Agreement No. 10,000–1 on March 29, 1974.

Massport's statement requests that the Commission disapprove Agreement No. 10,000–1 "as a matter of law", and that if the Commission does not do so, that it set Agreement No. 10,000–1 for a hearing or reopen Docket 72–17 to consider six issues set forth in the statement.

On April 12, 1974, the Federal Maritime Commission received a letter (Appendix A) from N. S. Thompson, Chairman, Atlantic Container Line, Ltd. (ACL) one of the signatories to Agreement No. 10,000. The letter stated that ACL was conditionally withdrawing from Agreement No. 10,000, but also stated that the withdrawal would be rescinded upon Commission approval of the amendment to Article 15.3, i.e., Agreement No. 10,000–1.

On April 23, 1974, the Commission received a letter from the attorney for the signatories to Agreement No. 10,000 (Appendix B) stating, inter alia, that the signatories to Agreement No. 10,000 regard the Agreement and the amendment thereto (Agreement No. 10,000–1) as "integral parts of a comprehensive understanding, in the sense that Agreement No. 10,000 is not offered for approval unless Agreement No. 10,000–1 is to be approved simultaneously", and requesting that the Commission express its concurrence that Agreements Nos. 10,000 and 10,000–1 constitute the complete Pool Agreement before the Commission, by reopening the record in Docket No. 72–17 to afford the parties a hearing limited to the issues raised by Agreement No. 10,000–1. The letter also advised that ACL intended to rescind its conditional withdrawal notice upon issuance of the Commission's Order reopening the record in Docket No. 72–17, as requested.

It is clear that, in view of the circumstances detailed above, before Agreement No. 10,000–1 can be approved, disapproved or modified by the Commission pursuant to section 15 of the Shipping Act, 1916, (46 U.S.C. 841) a hearing should be held to afford parties wishing to do so an opportunity to adduce evidence in support of or in opposition to the approval of Agreement No. 10,000–1.

While we do not seek to limit the scope of the case which any party may wish to present at such hearing, we consider that among those issues listed in the "Statement of Position" of Massport which are novel to the question of the approvability of Agreement No. 10,000–1 (as distinct from issues raised in Docket No. 72–17 and now before the Commission, e.g., questions concerning the meaning of the present Article 15.3), are (1) what progress has been made by the signatories to Agreement No. 10,000 and Agreement No. 10,000–1 in arriving at a rationalization plan; (2) why Commission disapproval of Agreement No. 10,000–1 would vitiate Agreement No. 10,000.

Also, it is not clear from Agreement No. 10,000 or Agreement No. 10,000–1 whether withdrawal of one or more of the signatories to Agreement No. 10,000 prior to final Commission action thereon would vitiate the entire agreement.

Article 10.2 of Agreement No. 10,000 provides in pertinent part:

* * * if a Member Line's rights under this Pool Agreement should be otherwise terminated, then its Basic Percentage Entitlement shall be reassigned forthwith to other Member Lines pro rata to their respective Basic Percentage Entitlements immediately prior to the termination of the business or of the rights.

Article 20.1 of Agreement No. 10,000 provides:

This Pool Agreement and any amendment thereof shall be submitted for approval to the appropriate government Authorities and shall become effective when it has been submitted and approved by those Authorities; however, the Pool Agreement and any amendment thereof shall not become effective if any conditions of approval are not acceptable to the parties signatories hereof.

Moreover, Article 15.3 as amended by Agreement No. 10,000–1 permits any signatory to Agreement No. 10,000 to withdraw during the six-month period requested for development of the rationalization plan. The Commission, therefore, will require evidence from the proponents on the question of withdrawal by a signatory during the executory phase of Agreement No. 10,000 and the effect such withdrawal would have on Agreement No. 10,000:

Now, therefore, *it is ordered,* That the Commission on its own motion enter upon an investigation and hearing, pursuant to Sections 15 and 22 of the Shipping Act, 1916, to determine whether Agreement No. 10,000–1 should be approved, disapproved, or modified, pursuant to Section 15 of the said Act;

It is further ordered, That the proceeding hereby instituted include an investigation as to whether Agreement No. 10,000, as amended, makes provision for the continuation of the Agreement in the event of withdrawal of one of signatories during the executory phase of the Agreement or whether such withdrawal would vitiate the entire Agreement;

It is further ordered, That American Export Lines, Inc., Atlantic Container Line, Ltd., Dart Containerline Company, Ltd., Hapag-Lloyd AG, Sea-Land Service, Inc., Seatrain Lines, Inc/Seatrain International, S.A., and United States Lines, Inc., listed in Appendix C hereto,

V 39 I 90
MAY 8 74
XUM

are hereby made respondents in this proceeding;

It is further ordered, That the Massachusetts Port Authority be made petitioner in this proceeding;

It is further ordered, That a public hearing be held in this proceeding and that the matter be assigned for hearing and decision by an Administrative Law Judge at a date and place to be hereafter determined and announced by the presiding Administrative Law Judge;

It is further ordered, That insofar as Docket No. 72–17 is now before the Commission on Replies to Exceptions, and because Agreement No. 10,000–1 is a critical component of Agreement No. 10,000, the presiding Administrative Law Judge expedite this proceeding to the fullest extent possible;

It is further ordered, That in order to avoid delay and duplication of effort, the parties to this proceeding shall have full use, for purposes of this proceeding, of the entire record in Docket No. 72–17;

It is further ordered, That the provision of 46 CFR 502.201(b) requiring leave of the Commission to take testimony by deposition if notice thereof is served within 20 days of commencement of the proceeding, and the provision of 46 CFR 502.206(c) requiring leave of the Commission to serve interrogatories if notice thereof is served within 20 days of commencement of the proceeding, are hereby waived;

It is further ordered, That notice of this Order be published in the FEDERAL REGISTER, and that a copy thereof and notice of hearing be served upon respondents and petitioner, as shown in the Appendix.

It is further ordered, That any person other than respondents and petitioner, having an interest and desiring to participate in this proceeding, shall file a petition for leave to intervene in accordance with Rule 5(1) (46 CFR 502.72) of the Commission's Rules of Practice and Procedure;

It is further ordered, That all future notices, orders and/or decisions issued by or on behalf of the Commission in this proceeding, including notice of the time and place of hearing or prehearing conference, shall be mailed directly to all parties of record.

By the Commission.

[SEAL] FRANCIS C. HURNEY,
Secretary.

APPENDIX A

Mr. FRANCIS HURNEY,
Secretary,
Federal Maritime Commission,
1100 L Street NW.,
Washington, D.C. 20573

DEAR SIR, APRIL 12, 1974.

Agreement 10,000—North Atlantic Pool Agreement

Replies to exceptions in Docket 72–17 will be due April 12th. After such deadline we understand that Agreement 10,000 will be officially before the Commission for approval. If approved it will take effect according to its terms, and no party will thereafter be permitted to withdraw (except for specifically stated reasons) without incurring liability to the remaining pool members for a two million dollar penalty.

Atlantic Container Line Limited finds itself unable to make a final commitment at this time to participate in the pool. Such difficulty stems from changed circumstances occurring since Agreement 10,000 was executed on November 17, 1971. As a result of such changes, a commitment at this time to remain in the pool could subject ACL to financial and competitive risks which it could not prudently assume.

With an assured period of six months following approval in which to make a decision, ACL might find that adherence to the pool was feasible. Accordingly ACL proposed, and the pool signatories have filed, an Agreement amending Article 15.3 of Agreement 10,000 to allow six months after approval in which any pool member could withdraw for any reason without penalty. The pool signatories have requested prompt approval of such amendment, but the Commission has been unable to assure a decision thereon before the deadline for filing exceptions.

In these circumstances ACL has no choice but to withdraw from Agreement 10,000 which we hereby do. If satisfactory to the Commission, we will rescind our withdrawal upon approval by the Commission of the pending amendment to Article 15.3.

This notice is transmitted with regret, since we are reluctant to impair the prospect for a pool on the North Alantic, but in the absence of any assured further period in which to forecast its effect, we feel that we have no alternative.

Yours faithfully,

ATLANTIC CONTAINER
LINE, LTD.,
N. S. THOMPSON,
Chairman.

APPENDIX B

FRANCIS C. HURNEY, Esq.,
Secretary, Federal Maritime Commission,
1100 L Street NW.,
Washington, D.C. 20573

Re: FMC Docket No. 72–17, *North Atlantic Pool Agreement.*

APRIL 23, 1974.

DEAR MR. HURNEY: The signatories to the North Atlantic Pool Agreement (Agreement No. 10,000) regard that agreement and the pending amendment thereto (Agreement No. 10,000–1) as integral parts of a comprehensive understanding, in the sense that Agreement No. 10,000 is not offered for approval unless Agreement No. 10,000–1 is to be approved simultaneously.

On behalf of all signatories, it is requested that the Commission express its concurrence that Agreements Nos. 10,000 and 10,000–1 constitute the complete Pool Agreement before it by reopening the record in this proceeding and by affording the parties a hearing limited to the issues raised by Agreement No. 10,000–1. This agreement has been published in the FEDERAL REGISTER, and it has been the subject of a protest by the Massachusetts Port Authority.

Atlantic Container Limited, which submitted a conditional withdrawal from the Pool Agreement by its letter of April 12, 1974, will rescind that withdrawal notice upon the issuance of the Commission's Order reopening the record herein as requested.

Sincerely yours,

RICHARD W. KURRUS,
Attorney for the Signatories to the North Atlantic Pool Agreement.

FOREIGN-TRADE ZONES BOARD

[Docket No. 2–74]

FOREIGN-TRADE ZONE NO. 1, NEW YORK CITY

Application To Expand Area and Extend Operational Period

Notice is hereby given that the City of New York, through its Economic Development Administration, has, as zone grantee, applied to the Foreign-Trade Zones Board (the Board) for authority to expand the area of Foreign-Trade Zone No. 1, located at the Brooklyn Navy Yard, Borough of Brooklyn, New York City, and to extend the operational period for the site.

Foreign-Trade Zone No. 1 has been located within Building 77 (3rd Floor) at the Brooklyn Navy Yard since September 1972 when the Board authorized relocation of the zone there from its former Staten Island site. Considering the new site a temporary one, the City originally requested authority for three years. This application proposes the addition of some 85,000 sq. ft. of floor space to the zone on the first and second floor of Building 77, and to extend the operational period for the zone site to September 26, 1978.

As reported in the Board's annual report, during fiscal 1973 over $16 million in merchandise was handled at the zone facility which has become fully occupied. The additional space is needed to accommodate the expansion of ongoing activities as well as new firms desiring to use the facility for storing and processing foreign merchandise including liquor, automotive components, aircraft components, toiletries and tobacco products.

Most zone users are engaged in operations primarily for re-export. Those items entering domestic commerce from the zone are dutiable upon importation into U.S. Customs territory.

Copies of the City's application are available for inspection at each of the following locations:

Office of Mr. Norman Frankenheim
Property Management Services
Department of Ports & Terminals
Economic Development Administration
Room 406, Battery Maritime Building
New York, New York 10004

Office of the Executive Secretary
Foreign-Trade Zones Board
Room 6886B, U.S. Department of Commerce
14th & E Streets, N.W.
Washington, D.C. 20230

An examiners committee has been appointed to investigate the application, including the consideration of public comments. The committee consists of: (Chairman) John J. Da Ponte, Jr., Executive Secretary, Foreign-Trade Zones Board, U.S. Department of Commerce, Washington, D.C. 20230; Mr. Bart Van Lenten, Assistant Area Director for Classification and Value, New York Seaport, U.S. Customs Service, 6 World Trade Center, New York, New York 10048; and Colonel Harry W. Lombard, District Engineer, U.S. Army Engineer District New York, 26 Federal Plaza, New York, New York 10007.

Comments concerning the proposal are invited in writing (original and six copies) from interested persons and organizations. They should be addressed to the Board's Executive Secretary at the above address and postmarked on or before May 23, 1974.

Dated: May 1, 1974.

JOHN J. DA PONTE, JR.,
Executive Secretary.

[FR Doc.74–10559 Filed 5–7–74;8:45 am]

GENERAL SERVICES ADMINISTRATION

MISUSE OF INFORMATION SUPPLIED TO THE GOVERNMENT IN CONFIDENCE

Opportunity for Comment

The Office of Management and Budget (OMB), in memoranda to Heads of Executive Departments and Agencies, dated December 7, 1972, and March 14, 1973, established and outlined plans for coordination of executive branch efforts in response to the Commission on Government Procurement (COGP) Report. Interagency task groups made up of assigned lead and participating agencies were formed to examine and recommend executive branch positions on each of the 149 COGP recommendations. Direction of executive branch efforts on COGP matters is a function which was delegated to the General Services Administration (GSA) by Executive Order 11717 on May 9, 1973.

Following is a summary of a proposal for an executive branch position on COGP Recommendation Number 13 in Part I of the Report. The proposal was drafted by a task group which was led by the National Science Foundation (NSF) working through the Executive Subcommittee of the Committee on Government Patent Policy. COGP Recommendation I–13 calls for the formulation, via legislation, of a clear-cut judicial remedy for the benefit of persons supplying information in confidence to the Government, if that information is misused by the Government. The reasons given for the need for such legislation are that lack of such a remedy may be a deterrent in the flow of innovative information to the Government, and that fairness would require a civil remedy for damages inasmuch as the criminal provisions of 18 U.S.C. 1905, according to the COGP, do not provide for compensation of an injured party.

V 39 90
MAY 8 74
XUM

This notice is published for the purpose of public information only and to offer an early opportunity for public comment on a proposal for an executive branch position on COGP Recommendation I–13. The proposal for an executive branch position is also being considered by appropriate agencies. Interested persons should submit their comments to the General Services Administration (AMC), Washington, DC 20405. To be given consideration, written comments must be received not later than 45 days from the date of this publication.

Publication of this notice does not imply acceptance by the executive branch of the proposed executive branch position.

COGP Recommendation I–13 reads as follows:

Establish a remedy for the misuse of information supplied to the Government in confidence.

TASK GROUP PROPOSAL FOR AN EXECUTIVE BRANCH POSITION ON COGP RECOMMENDATION I–13 (SUMMARY)

The task group recommended unanimously that COGP Recommendation I–13 not be adopted by the executive branch at this time. The group added, however, that this COGP recommendation be referred to a group to be appointed to study the implementation of other related COGP recommendations to determine and recommend the appropriate scope and nature of any remedy which may be needed in connection with the misuse of "technical data" (as opposed to "information") by the Government.

The task group proposal not to adopt COGP Recommendation I–13 at this time was formulated after a careful investigation of records on the issues which prompted the COGP recommendation. The task group found that there were no instances where a remedy was not available for cases alleging misuse of information supplied to the Government in confidence.

Specifically, the task group found the following: (1) Title 18 U.S.C. 1905, by providing a criminal penalty for unauthorized disclosure of confidential information by a Government employee, provides a deterrent to such disclosure;

(2) When data supplied in confidence under a contract is misused, a remedy can usually be found in breach of contract under 28 U.S.C. 1346 or 28 U.S.C. 1491;

(3) Owners of data also have available to them the vehicle of lodging a timely protest to prevent award of a contract to other than the data owner, if award would be based on data submitted in confidence.

In the course of its study, the task group examined also the legislative language proposed by the COGP (Section 5 of Appendix B on page 153, Volume 4 of the Report of the Commission on Government Procurement). The task group found that the COGP may have opened the door to unforseen problems in proposing legislation so broad that it would not be limited to information supplied by contractors, or prospective contractors in proposals, but could also include other information supplied to the Government such as income tax returns, business reports, etc.

Instances alleging Government misuse of technical data supplied in confidence appear to have involved no liability on the part of the Government for reasons such as: (1) Failure of the data owner to mark it so as to provide notice of its confidential nature; (2) removal of restrictive markings by persons other than Government personnel; (3) the Government had not agreed to receive the subject data in confidence; or (4) waiver of confidentiality by the owner.

The task group also found no case wherein any criminal action was brought under 18 U.S.C. 1905 for unauthorized disclosure of confidential information of the type discussed here. If misuse of such information is prevalent enough to require a civil remedy, the Task Group reasoned that at least some cases would have been brought under 18 U.S.C. 1905. The Task Group felt that this further supports the position that no immediate need has been shown for the legislation proposed by the COGP.

Responses Received from interested parties regarding this notice of opportunity for comment and official views received from executive departments and agencies in answer to a separate request therefor will be given careful consideration in the formulation of a final executive branch position.

Dated at Washington, D.C. on May 1, 1974.

R. E. ZECHMAN,
Acting Associate Administrator for Federal Management Policy.

[Federal Property-Management Regulations Temporary Regulation F–218]

SECRETARY OF DEFENSE

Revocation of Delegations of Authority

1. *Purpose.* This regulation revokes delegations of authority to represent the Federal Government in proceedings which have been terminated.

2. *Effective date.* This regulation is effective immediately.

3. *Expiration date.* This regulation expires April 30, 1974.

4. *Revocation.* This revocation identifies those delegations which are no longer in force due to completion of the proceedings for which they were issued. Accordingly, the following FPMR temporary regulations are hereby revoked:

No.	Date	Subject
F–111	July 13, 1971	Delegation of Authority to Secretary of Defense—Regulatory Proceeding.
F–183	June 21, 1973	Do.
F–196	Oct. 24, 1973	Do.

DWIGHT A. INK,
Acting Administrator of General Services.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[Notice 74–30]

NASA RESEARCH AND TECHNOLOGY ADVISORY COUNCIL

Notice of Meeting

MAY 23–24, 1974.

The NASA Research and Technology Advisory Council will meet on May 23–24, 1974, in Room 625 of Federal Office Building 10B at NASA Headquarters, 600 Independence Avenue SW., Washington, D.C. 20546. The meeting will be open to the public on a first-come, first-served basis up to the seating capacity of the room, which is about 40 persons.

The NASA Research and Technology Advisory Council was established to advise NASA's senior management in the area of aeronautics and space research and technology. The Council studies issues, pinpoints critical problems, determines gaps in needed technology, points out desirable goals and objectives, summarizes the state of the art, assesses ongoing work, and makes recommendations to help NASA plan and carry out a program of greatest benefit to the nation. Dr. Ronald Smelt is Acting Chairman of the Council. There are 17 members on the Council itself and additional members on eight Committees and one Panel which report to the Council.

The following list sets forth the approved agenda and schedule for the meeting. For further information, please contact the Executive Secretary, Mr. Fred W. Bowen, Jr., Area Code 202, 755–3710.

MAY 23, 1974

Time	Topic
9:00 a.m.	Introduction and NASA and Council Organizational and Personnel Changes (Purpose: To inform the Council of recent personnel and organizational changes within NASA and the Council itself.)
10:00 a.m.	Status of Fiscal Year 1975 Budget (Purpose: To brief the Council on Congressional action taken to date with respect to the fiscal year 1975 Office of Aeronautics and Space Technology (OAST) budget.)
10:30 a.m.	OAST Program Status (Purpose: To brief the Council on the status of major OAST programs. The Council will use this information to guide its assessment of Committee and Panel activities as presented later in the meeting.)
1:30 p.m.	Update on NASA Energy Activities (Purpose: To bring the Council up to date on NASA's work related to energy research and development in our own aerospace programs and in cooperation with other Government agencies.)

MAY 23, 1974

Time	Topic
4:00 p.m.	Committee and Panel Reports (Purpose: Committee and Panel Chairmen will present reports on the activities of their respective groups since the last Council meeting for inclusion in the overall Council report to the NASA Administrator and Deputy Administrator.)

MAY 24, 1974

8:30 a.m.	Continuation of Committee and Panel Reports
11:00 a.m.	Preparation of Council Report (Purpose: The Council will document recommendations and observations to be submitted to the NASA Administrator and Deputy Administrator.)
12:30 p.m.	Adjournment

BOYD C. MYERS, II,
Assistant Associate Administrator for Organization and Management, National Aeronautics and Space Administration.

MAY 6, 1974.

NATIONAL SCIENCE FOUNDATION

ADVISORY PANEL FOR ANTHROPOLOGY

Notice of Meeting

Pursuant to the Federal Advisory Committee Act (P.L. 92–463), notice is hereby given of a meeting of the Advisory Panel for Anthropology to be held at 9 a.m. on May 24 and 25, 1974, in Room 338 at 1800 G Street, NW., Washington, D.C. 20550.

The purpose of this panel is to provide advice and recommendations as part of the review and evaluation process for specific proposals and projects. The agenda will be devoted to the review and evaluation of research proposals.

This meeting is concerned with matters which are within the exemptions of 5 U.S.C. 552(b) and will not be open to the public in accordance with the determination by the Director of the National Science Foundation dated December 17, 1973, pursuant to the provisions of section 10(d) of P.L. 92–463.

For further information concerning this panel, contact Dr. Iwao Ishino, Program Director, Anthropology Program, Room 205, 1800 G Street, NW., Washington, D.C. 20550.

T. E. JENKINS,
Assistant Director for Administration.

APRIL 30, 1974.

[FR Doc.74–10568 Filed 5–7–74;8:45 am]

ADVISORY PANEL FOR ELECTRICAL SCIENCES AND ANALYSIS

Notice of Meeting

Pursuant to the Federal Advisory Committee Act (P.L. 92–463), notice is hereby given of a meeting of the Advisory Panel for Electrical Sciences and Analysis to be held at 9 a.m. on May 29, 1974, in Room 321 and at 9 a.m. on May 30, 1974, in Room 543 at 1800 G Street, NW., Washington, D.C. 20550.

The purpose of this panel is to provide advice and recommendations concerning support for research in electrical sciences and analysis. The session on May 29 will deal with energy systems. On May 30 the topic will concern energy generation, storage, transmission and utilization. The more specific agenda for this meeting follows:

MAY 29

9:00—Welcome, Panel Chairman.
9:05—Introduction, Background and Purpose, Program Director, System Theory and Applications Program.
9:15—Presentation of Opening Remarks on Research Opportunities in Energy Systems, Panel Members.
11:30—Questions and General Discussion.
12:00—Recess for lunch.
1:00—Discussions of Key Issues.
3:00—Formulation of Panel Recommendations and Summary.
5:00—Adjournment.

MAY 30

9:00—Welcome, Panel Chairman.
9:05—Introduction, Background and Purpose, Program Director, Devices and Waves Program.
9:15—Discussion of Research Opportunities in Electrical Energy Generation, Storage, Transmission and Utilization, Panel Members.
10:00—Technology Ad Hoc Subpanel Formation for Investigation of Specific Research Opportunities.
12:00—Recess for lunch.
1:00—Presentations of Subpanels.
2:30—Formulation of Panel Recommendations and Summary.
5:00—Adjournment.

This meeting shall be open to the public. Individuals who wish to attend should inform Dr. Mohammed Ghausi, Head, Electrical Sciences and Analysis Section, by telephone (202–632–5881) or by mail (Room 342, 1800 G Street, NW., Washington, D.C. 20550) prior to the meeting. Persons requiring further information concerning this panel should contact Dr. Mohammed Ghausi at the above address. Summary minutes relative to this meeting may be obtained from the Management Analysis Office, Room K–720, 1800 G Street, NW., Washington, D.C. 20550.

T. E. JENKINS,
Assistant Director for Administration.

APRIL 29, 1974.

ADVISORY PANEL FOR HISTORY AND PHILOSOPHY OF SCIENCE

Notice of Meeting

Pursuant to the Federal Advisory Committee Act (P.L. 92–463), notice is hereby given of a meeting of the Advisory Panel for History and Philosophy of Science to be held at 9 a.m. on May 17, 1974, in Room 246 at 1800 G Street, NW., Washington, D.C. 20550.

The purpose of the panel is to provide advice and recommendations as part of the review and evaluation process for specific proposals and projects. The agenda will be devoted to the review and evaluation of research proposals. The emergency situation prohibiting the publication of this notice within the newly prescribed 15-day lead time occurred due to difficulty in arranging a meeting date acceptable to all of the panel members.

This meeting is concerned with matters which are within the exemptions of 5 U.S.C. 552(b) and will not be open to the public in accordance with the determination by the Director of the National Science Foundation dated December 17, 1973, pursuant to the provisions of section 10(d) of P.L. 92–463.

Individuals requiring further information about this panel may contact Mr. Ronald Overmann, Assistant Program Director, History and Philosophy of Science Program, Room 205, 1800 G Street, NW., Washington, D.C. 20550.

T. E. JENKINS,
Assistant Director for Administration.

APRIL 30, 1974.

OFFICE OF MANAGEMENT AND BUDGET

IMPROVING FEDERAL ENERGY RELATED ACTIVITIES

Announcement of Study

A study requested by President Nixon on ways to improve Federal energy-related regulatory activities has been submitted in preliminary form to the Director of the Office of Management and Budget, by the interagency study group assigned to perform the study.

This study deals with the organizational arrangements for carrying out energy regulation at the Federal level. It does not deal with substantive or policy issues confronting energy regulatory bodies. The report reviews the placement among the Federal agencies of responsibility for regulating the production and distribution of energy, and the consequent interrelationships among such agencies. It does not provide an examination of the internal procedures followed by these agencies.

PUBLIC COMMENT INVITED

The proposals contained in the report are those of the Study Group and not that of the Administration. The Administration position will be developed after receipt of Congressional and public comments. The plan for conducting the study, which was drawn up late last summer, provided for widespread circularization of a preliminary report as a means of obtaining the benefit of many points of view on this important and complex subject. In accordance with this plan, comments are being invited from interested members of Congress, the heads of affected Federal agencies, State and local Governments and organizations representing the energy industry, consumers, environmentalists and other interests. Comments should be received in the

V 39 90 MAY 8 74 XUM

Organization and Special Studies Division, Office of Management and Budget, Washington, D.C. 20503, by May 31, 1974.

Information is provided at the end of this notice as to how a copy of the report may be obtained.

SUMMARY REPORT OF FINDINGS AND RECOMMENDATIONS

The study group concluded that the most pressing need of the Federal energy regulation system at the present time is for mechanisms that coordinate diverse energy regulatory agencies and their functions. Many organizational schemes were explored in the report, but the study group concluded that consolidating the energy regulatory functions of existing Federal agencies into a "super-agency" would be counter-productive and disruptive at this time.

Among the recommendations in the study report are:

1. An independent National Energy Council, to provide comprehensive policy guidance to energy regulatory agencies through the formulation of national energy objectives.

2. A new licensing coordination office, to oversee the Federal licensing process and assure that it is functioning without undue delays or bottle-necks.

3. A new centralized energy data office within the executive branch, to augment the information capabilities of regulatory agencies by gathering and making available energy-related information that will assist them in deciding issues with broad supply, demand and price implications, and the institution of a unified information retrieval system.

4. A new Federal office and new State-level organizations, to work together and exchange information continually, coordinating Federal and State actions on individual energy facilities and overall energy objectives.

AVAILABILITY OF REPORT

Copies of the report entitled, "Federal Energy Regulation: An Organization Study" may be obtained from the Superintendent of Documents. Orders should refer to stock number S/N 5210-00386 and should be sent to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402. Make checks or money orders payable to the Superintendent of Documents in the amount of $2.80 per copy ordered.

VELMA N. BALDWIN,
Assistant to the Director for Administration.

[Declaration of Disaster Loan Area 1059]

VIRGINIA

Declaration of Disaster Loan Area

Whereas, it has been reported that during the month of April, because of the effects of a certain disaster, damage resulted to property located in the State of Virginia;

Whereas, the Small Business Administration has investigated and received reports of other investigations of conditions in the area affected;

Whereas, after reading and evaluating reports of such conditions, I find that the conditions in such area constitute a catastrophe within the purview of the Small Business Act, as amended:

Now, therefore, as Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 7(b)(1) of the Small Business Act, as amended, may be received and considered by the office below indicated from persons or firms whose property situated in Smyth, Roanoke and Bath Counties and Staunton and Roanoke Cities, and adjacent affected areas, suffered damage or destruction resulting from tornadoes and high winds which occurred April 4, 1974.

Applications will be processed under the provisions of Pub. L. 93-24.

Office:
Small Business Administration
District Office
Federal Building, Rm. 3015
400 North Eighth Street
Richmond, Virginia 23240

2. Application for disaster loans under the authority of this declaration will not be accepted subsequent to June 24, 1974.

Dated: April 25, 1974.

TARIFF COMMISSION

[332-70]

CONVERSION OF THE TARIFF SCHEDULES OF THE UNITED STATES INTO FORMAT OF THE BRUSSELS TARIFF NOMENCLATURE

Notice of Hearings on Draft

The U.S. Tariff Commission hereby gives notice that a preliminary draft of the following chapters of the Tariff

V 39 90
MAY 8 74
XUM

Schedules of the United States (TSUS) converted to the format of the Brussels Tariff Nomenclature (BTN):

87 Vehicles, other than railway or tramway rolling-stock, and parts thereof.

is being released today and that a public hearing thereon will begin at 10 a.m., e.d.t., June 3, 1974, in room 859, Federal Building and U.S. Court House, 231 W. Lafayette St., Detroit, Michigan. The purpose of this hearing is to obtain the comments and views of interested parties on the preliminary draft conversion.

Requests to appear at the hearings on this chapter must be filed in writing with the Secretary of the Commission not later than May 24, 1974. Parties who have properly entered an appearance by this date will be individually notified of the date on which they are scheduled to appear. Such notice will be sent as soon as possible after May 24, 1974. Any person who fails to receive such notification by May 30, 1974, should immediately communicate with the Office of the Secretary of the Commission.

In its public notice issued March 8, 1974, regarding hearings on other chapters of the draft converted schedules (39 FR 9719 of March 13, 1974) interested parties were notified regarding the rules governing the conduct of the hearings, and the submission of written statements. The Commission's notice of March 8, 1974, applies to the hearing on the chapter being released today to the extent that it is applicable.

As each of the chapters is completed and released, copies thereof are made available for public inspection at the offices of the Commission in Washington, D.C., and New York, New York; at all field offices in the Department of Commerce. The locations of these offices are listed in the notice of March 8, 1974.

Issued: May 3, 1974.

By order of the Commission.

[SEAL] KENNETH R. MASON, *Secretary.*

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Public Health Service

[42 CFR Part 110]

HEALTH MAINTENANCE ORGANIZATIONS

Proposed Rulemaking

Notice is hereby given that the Assistant Secretary for Health of the Department of Health, Education, and Welfare, with the approval of the Secretary of Health, Education, and Welfare, proposes to establish a new subchapter J of Title 42, Code of Federal Regulations, entitled "Health Care Delivery Systems", and to issue within such subchapter a new Part 110, entitled "Health Maintenance Organizations".

The purpose of the proposed Part 110 is to implement the provisions of The Health Maintenance Organization Act of 1973, Public Law 93–222, 42 U.S.C. 300e et seq. Section 2 of this Act adds a new Title XIII to the Public Health Service Act. This set of proposed regulations is designed to permit the Secretary to provide financial assistance to entities eligible for such assistance under sections 1303, 1304, and 1305 of the Public Health Service Act. Included are subparts setting forth the requirements for a health maintenance organization, general provisions regarding Federal financial assistance, specific provisions relating to assistance for feasibility surveys, planning and initial development projects, and operating costs. Also included is a subpart dealing with the effect of certain restrictive State laws and practices which prevent an entity from doing business as a health maintenance organization.

It is expected that a second Notice of Proposed Rulemaking will be published soon. This latter publication will include regulations implementing sections 1310 ("Employees' health benefits plans") and 1312 ("Continued regulation of health maintenance organizations") of the Public Health Service Act. Section 1310 imposes on certain employers the requirement that they include in any health benefits plan offered to their employees the option of membership in qualified health maintenance organizations. Section 1312 deals with the continued regulation by the Secretary of health maintenance organizations.

The proposed regulations appended below are summarized as follows:

Subpart A. This subpart is based on the statutory definition of a health maintenance organization, found in section 1301 of the Public Health Service Act. Section 1301(b) describes the manner in which basic and supplemental health services must be provided to members, while section 1301(c) imposes certain requirements with respect to the organization and operation of the health maintenance organization. These proposed regulations also include the definitions of section 1302. With respect to determinations of priorities in funding, guidelines will explain the manner in which the criteria for identification of medically underserved areas will be employed.

Subpart B. This subpart contains the general provisions and requirements with respect to the Federal financial assistance authorized by the Health Maintenance Organization Act of 1973.

Subpart C. This subpart describes the assistance authorized by section 1303, for feasibility surveys, and describes the application requirements and project elements for such assistance.

Subpart D. Subpart D describes the assistance authorized by section 1304, for projects for planning and initial development of health maintenance organizations. It sets forth application requirements and project elements for such assistance.

Subpart E. This subpart is based on section 1305, which authorizes the Secretary to make loans and loan guarantees to assist health maintenance organizations in meeting certain operating costs during their first thirty-six months of operation or such costs during the first thirty-six months following their expansion.

Subpart G. Subpart G is based on section 1311 of the Public Health Service Act, "Restrictive State Laws and Practices".

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed new 42 CFR Part 110 to the Director, Bureau of Community Health Services, Parklawn Building, 5600 Fishers Lane, Rockville, Md. 20852, on or before June 7, 1974. Comments will be available for public inspection at Room 13–07, Parklawn Building, between the hours of 8:30 a.m. and 5:00 p.m. Monday through Friday.

It is therefore proposed to establish a new Subchapter J for Title 42, Code of Federal Regulations, and to issue within it a new Part 110, as set forth below.

Dated: May 2, 1974.

CHARLES C. EDWARDS,
Assistant Secretary of Health.

Approved: May 2, 1974.

CASPAR W. WEINBERGER,
Secretary.

PART 110—HEALTH MAINTENANCE ORGANIZATIONS

Subpart A—Requirements for a Health Maintenance Organization

Sec.
110.101 Definitions.
110.102 Delivery of health services.
110.103 Payment for basic health services.
110.104 Payment for supplemental health services.
110.105 Providers of services.
110.106 Availability, accessibility and continuity of basic and supplemental health services.
110.107 Organization and operation.
110.108 Health benefits plan: basic health services.
110.109 Health benefits plan: supplemental health services.

Subpart B—Federal Financial Assistance: General

110.201 Applicability.
110.202 Definitions.
110.203 Application requirements.
110.204 314(b) or 314(a) agency review and comments.
110.205 Records, reports, inspection and audit.
110.206 Additional conditions.
110.207 Nondiscrimination.
110.208 Inventions or discoveries.
110.209 Publications and copyright.
110.210 Confidentiality.
110.211 Applicability of 45 CFR Part 74.
110.212 Use of funds.

Subpart C—Grants and Contracts for Feasibility Surveys

110.301 Applicability.
110.302 Eligibility.
110.303 Project elements.
110.304 Evaluation and award.
110.305 Funding duration and limitation.

Subpart D—Grants, Contracts, and Loan Guarantees for Planning and for Initial Development Costs

110.401 Applicability.
110.402 Eligibility.
110.403 Project elements for planning.
110.404 Project elements for initial development.
110.405 Funding duration and limitation.
110.406 Evaluation and award.
110.407 Loan provisions.

Subpart E—Loans and Loan Guarantees for Initial Operation Costs

110.501 Applicability.
110.502 Definitions.
110.503 Eligibility.
110.504 Project elements.
110.505 Reserve requirements.
110.506 Evaluation and award.
110.507 Funding duration and limitation.
110.508 Loan provisions.

Subpart F—Employees' Health Benefits Plans

[Reserved]

Subpart G—Restrictive State Laws and Practices

110.701 Restrictive laws and practices.

Subpart H—Continued Regulation of Health Maintenance Organizations

[Reserved]

AUTHORITY: Sec. 215, 58 Stat. 690, 42 U.S.C. 216; secs. 1301–1315, 87 Stat. 914–933 (42 U.S.C. 300e–300e–14).

Subpart A—Requirements for a Health Maintenance Organization

§ 110.101 Definitions.

As used in this Part 110:

(a) "Health maintenance organization" means a legal entity which provides basic and supplemental health services to its members in the manner prescribed, is organized and operated in the manner prescribed, and otherwise meets the requirements of section 1301 of the Act and the regulations under this subpart.

(b) "Basic health services" means:

(1) Physicians services (including consultant and referral services by a physician);

(2) Inpatient and outpatient hospital services;

(3) Medically necessary emergency health services;

(4) Short-term (not to exceed twenty visits), outpatient evaluative and crisis intervention mental health services;

(5) Medical treatment and referral services (including referral services to appropriate ancillary services) for the abuse of or addiction to alcohol and drugs;

(6) Diagnostic laboratory and diagnostic and therapeutic radiologic services;

(7) Home health services; and

(8) Preventive health services (including voluntary family planning services, infertility services, preventive dental care for children, and children's eye examinations conducted to determine the need for vision correction).

(c) "Supplemental health services" means:

(1) Services of facilities for intermediate and long-term care;

(2) Vision care not included as a basic health service;

(3) Dental services not included as a basic health service;

(4) Mental health services not included as a basic health service;

(5) Long-term physical medicine and rehabilitative services (including physical therapy); and

(6) The provision of prescription drugs prescribed in the delivery of a basic health service or a supplemental health service provided by the health maintenance organization.

(d) "Member" means an individual who has entered into a contractual arrangement, or on whose behalf a contractual arrangement has been entered into, with the organization under which the organization assumes the responsibility for the provision to such individual of basic health services and of such supplemental health services as may be contracted for.

(e) "Medical group" means a partnership, association, or other group—

(1) Which is composed of health professionals licensed to practice medicine or osteopathy and of such other licensed health professionals (including dentists, optometrists, and podiatrists) as are necessary for the provision of health services for which the group is responsible;

(2) A majority of the members of which are licensed to practice medicine or osteopathy; and

(3) The members of which

(i) As their principal (over 50 percent) professional activity and as a group responsibility engage in the coordinated practice of their profession for a health maintenance organization or which group presents a time phased plan, not to exceed three years, to meet this requirement to which they are committed which is acceptable to the Secretary;

(ii) Pool their income from practice as members of the group and distribute it among themselves according to a prearranged salary or drawing account or other plan;

(iii) Share medical and other records and substantial portions of major equipment and of professional, technical, and administrative staff;

(iv) Utilize such additional professional personnel, allied health professions personnel, and other health personnel as are available and appropriate for the effective and efficient delivery of the services of the members of the group; and

(v) Arrange for and encourage continuing education in the field of clinical medicine and related areas for the members of the group.

(f) "Individual practice association" means a partnership, corporation, association, or other legal entity which has as its primary objective the delivery or arrangements for the delivery of health services and which has entered into a written services arrangement or arrangements with persons who are licensed to practice medicine, osteopathy, dentistry, podiatry, optometry, or other health profession in a State and a majority of whom are licensed to practice medicine or osteopathy. Such written services arrangement shall provide:

(1) That such persons shall provide their professional services in accordance with a compensation arrangement established by the entity; and

(2) To the extent feasible

(i) That such persons shall utilize such additional professional personnel, allied health professions personnel, and other health personnel as are available and appropriate for the effective and efficient delivery of the services of the persons who are parties to the arrangement;

(ii) For the sharing by such persons of medical and other records, equipment, and professional, technical, and administrative staff; and

(iii) For the arrangement and encouragement of the continuing education of such persons in the field of clinical medicine and related areas.

(g) "Medically underserved population" means the population of an urban or rural area designated by the Secretary as an area with a shortage of personal health services. The Secretary shall make such a designation only after consideration of the following factors with respect to such urban or rural area:

(1) Percentage of the population with family incomes below the poverty level, according to the latest U.S. Census data, for both (A) the identified area and (B) the total proposed health maintenance organization service area;

(2) Percentage of the population which is age 65 or over, according to the latest U.S. Census data, for both (A) the identified area and (B) the total proposed health maintenance organization service area;

(3) Infant mortality rate according to local vital statistics data for both (A) the identified area and (B) the total proposed health maintenance organization service area, to the best available approximation; and

(4) Number of primary care physicians (doctors of medicine and doctors of osteopathy) in general or family practice, internal medicine, pediatrics, obstetrics and gynecology, or general surgery, in relation to the population of the total proposed health maintenance organization service area.

(h) "Community rating system" means a system of fixing rates of payments for health services. Under such a system rates of payments may be determined on a per-person or per-family basis and may vary with the number of persons in a family, but except as otherwise authorized in the next sentence, such rates must be equivalent for all individuals and for all families of similar composition. Only the following differentials in rates of payments may be established under such system:

(1) Nominal differentials in such rates may be established to reflect the different administrative costs of collecting payments from the following categories of members:

(i) Individual members (including their families),

(ii) Small groups of members (100 members or less),

(iii) Large groups of members (over 100 members), upon demonstration to the Secretary that such differentials are based upon actual costs of collecting payments or upon projected costs which the Secretary finds to be reasonably sound estimates.

(2) Differentials in such rates may be established for members enrolled in a health maintenance organization pursuant to a contract with a governmental authority under section 1079 ("Contracts for Medical Care for Spouses and Children: Plans") or section 1086 ("Contracts for Health Benefits for Certain Members, Former Members and their Dependents") of Title 10 ("Armed Forces"), United States Code, or under any other governmental program (other than the health benefits program authorized by chapter 89 ("Health Insurance"), of Title 5 ("Government Organization and Employees"), United States Code), or under any health benefits program for employees of States, political subdivisions of States, and other public entities. Any differentials established under this subparagraph must be approved by the Secretary.

(3) A health maintenance organization may establish a separate community rate for separate regional components of the organization upon satisfactory demonstration to the Secretary of the following:

(i) Each such regional component is geographically distinct and separate from any other regional component;

(ii) Membership is established with respect to the individual regional component, rather than with respect to the parent health maintenance organization; and

(iii) Each such regional component provides substantially the full range of basic health services to its members, without extensive referral between components of the organization for such services, and without substantial utilization by any two such components of the same health care facilities. The separate community rate for each such regional component of the health maintenance organization must be based on the different costs of providing health services in such regions. Such differentials must be approved by the Secretary.

(i) "Nonmetropolitan area" means an area no part of which is within an area designated as a standard metropolitan statistical area by the Office of Management and Budget and which does not contain a city whose population exceeds fifty thousand individuals.

(j) "Rural area" means any area not listed as a place having a population of 2,500 or more in Document #PC(1)–A, "Number of Inhabitants", Table VI, "Population of Places", and not listed as an urbanized area in Table XI, "Popula-

V 39 I 90
MAY 8 74
XUM

tion of Urbanized Areas" of the same document (1970 Census, Bureau of the Census, U.S. Department of Commerce).

(k) "Non-Federal lender" means any lender other than an agency or instrumentality of the United States.

(l) "Act" means the Public Health Service Act.

(m) "Secretary" means the Secretary of Health, Education, and Welfare and any other officer or employee of the Department of Health, Education, and Welfare to whom the authority involved has been delegated.

§ 110.102 Delivery of health services.

A health maintenance organization shall:

(a) Provide basic and supplemental health services to its members without limitation as to time or cost other than prescribed in the Act and these regulations; and

(b) Meet the requirements set forth in these regulations: *Provided*, that an entity which otherwise may be considered a health maintenance organization under these regulations may be considered a health maintenance organization if, with respect to its members who are entitled to benefits under Title XVIII or Title XIX of the Social Security Act, (1) it does not furnish health services for which it may not be compensated under Title XVIII or XIX, and (2) it does not fix payments under a community rating system, and (3) it does not assume full financial risk on a prospective basis for the provision to such members of basic and supplemental health services with respect to which it is not required to assume under the Medicare program or a Medicaid contract such financial risk.

§ 110.103 Payment for basic health services.

Each health maintenance organization shall provide each member basic health services for a basic health services payment which—

(a) Is to be paid on a periodic basis without regard to the dates such health services are provided;

(b) Is fixed without regard to the frequency, extent, or kind of such health services actually furnished;

(c) Is fixed under a community rating system; and

(d) May be supplemented by additional nominal copayments which may be required for the provision of specific basic health services. Each health maintenance organization may establish one or more copayment options, calculated on the basis of a single community rated premium. Every copayment option so established shall be offered to each member, whenever enrolled individually or in the case of a voluntary association to that association: *Provided*, That (1) the copayments charged by the health maintenance organization shall not exceed 50 percent of the total cost of providing any single service to its members, nor in the aggregate more than 20 percent of the total cost of providing all basic health services, (2) no copayment may be imposed on any individual or family in any calendar year, when the copayments made by such individual or family in such calendar year total 50 percent of the total annual premium cost which such individual or family would be required to pay if he or it were enrolled under an option with no copayments, and (3) in no event shall copayments be required where or in such a manner that they serve as a barrier to the utilization of health services or membership in the organization.

§ 110.104 Payment for supplemental health services.

(a) A health maintenance organization may require supplemental health services payments, in addition to the basic health services payments, for the provision of each health service included in the supplemental health services set forth in § 110.109, for which the required health manpower are locally available, and for which members have contracted.

(b) Supplemental health services payments may be made in any agreed upon manner, such as prepayment, or fee-for-service. Supplemental health services payments which are fixed on a prepayment basis, however, shall be fixed under a community rating system.

(c) Each health maintenance organization shall adopt a policy to collect payment for services rendered from third parties legally liable to pay therefor.

§ 110.105 Providers of services.

(a) Basic health services shall be provided through health professionals who are members of the staff of the health maintenance organization or through medical groups or individual practice associations, unless

(1) The services are unusual or infrequently used; or

(2) It was medically necessary, and not for reasons of convenience, that the service be provided to a member before he could have it provided by such a health professional.

(b) For purposes of paragraph (a)(1) of this section, unusual or infrequently used basic health services are those services which do not warrant provision through staff of the health maintenance organization, a medical group, and/or an individual practice association as demonstrated by the health maintenance organization to the satisfaction of the Secretary. The provision of such services not provided through the staff of a health maintenance organization or through a medical group or an individual practice association shall be arranged for by the health maintenance organization with other providers in the area. If a health maintenance organization arranges for the provision of basic health services through medical groups or individual practice associations, such arrangements shall be in the form of a written services arrangement which shall include provisions which impose on such groups or associations effective incentives such as risk-sharing and profit-sharing, designed to avoid unnecessary or unduly costly utilization of health services.

(c) Health professionals, for the purposes of the previous paragraph, means physicians, dentists, nurses, podiatrists, optometrists, and other professionals engaged in the delivery of health services who are licensed, practice under an institutional license, are certified, or practice under authority of the health maintenance organization, a medical group, individual practice association, or other authority consistent with State law.

(d) Each health maintenance organization shall provide or arrange for the provision of basic health services, or reimburse its members for the payment of such services in cases of medical necessity when such services are obtained either in-area or out-of-area from other providers when enrollees are unable to obtain such services either from the health maintenance organization in which they are enrolled, or from other providers through arrangements made by the health maintenance organization. Each health maintenance organization shall adopt procedures to review promptly all claims for reimbursement for the provision of basic health services, which procedures shall include the designation of a physician to determine the medical necessity for obtaining such services.

§ 110.106 Availability, accessibility and continuity of basic and supplemental health services.

Within the area served by the health maintenance organization, basic health services and the supplemental health services for which members have contracted shall:

(a) Be available and accessible to each of its members promptly, with respect to:

(1) Its geographic location, hours of operation, and provisions for after-hours services; and

(2) Staffing patterns within generally accepted norms for meeting the projected membership needs;

(b) Be provided in a manner which assures continuity, which will include, but not be limited to:

(1) Provision of a physician who is primarily responsible for providing for and overseeing the member's overall health care needs;

(2) Development of a medical record-keeping system through which all pertinent information relating to the medical management of the patient is accumulated and is readily available to appropriate professionals; and

(3) When medically necessary, be available and accessible 24 hours a day and 7 days a week.

§ 110.107 Organization and operation.

Each health maintenance organization shall—

(a) Have a fiscally sound operation, which will include adequate provision against the risk of insolvency;

(b) Assure continuation of benefits for the duration of the contract period for which payment continues to be made, including provisions for payments to unaffiliated providers for services rendered, and assume full financial risk on a prospective basis for the provision of basic health services, except that a health maintenance organization may obtain insurance or make other arrangements:

(1) For the cost of providing to any member basic health services the aggregate value of which exceeds $5,000 in any year;

(2) For the cost of basic health services provided to its members other than through the organization because medical necessity required their provision before they could be secured through the organization; and

(3) For not more than 90 percent of the amount by which its costs for any of its fiscal years exceed 115 percent of its income for such fiscal year;

(c) After full and fair disclosure of benefits, coverage, rates, location, and hours of service, enroll persons who are broadly representative of the various age, social, and income groups within the area it serves except that in the case of a health maintenance organization which has a medically underserved population located (in whole or in part) in the area it serves, not more than 75 percent of the members of that organization may be enrolled from the medically underserved population unless the area in which such population resides is also a rural area: *Provided*, That in no event shall more than 50 percent of the enrolled population be composed of individuals receiving medical benefits under either Titles XVIII or XIX of the Social Security Act unless for good cause shown the Secretary waives such requirement.

(d) Have an open enrollment period of not less than thirty days at least once during each consecutive twelve-month period during which enrollment period it accepts, up to its capacity, individuals in the order in which they apply for enrollment and without regard to their health status or their requirements for health services, except that if the organization demonstrates to the satisfaction of the Secretary that—

(1) It has enrolled, or would be compelled to enroll, a disproportionate number of individuals who would be likely to utilize its services more often than an actuarially determined average of the utilization of services by current enrollees and that enrollment during an open enrollment period of an additional number of such individuals would jeopardize its economic viability, or

(2) If it maintained an open enrollment period it would not be able to comply with the requirements of paragraph (c) of this section, or

(3) It would be compelled to enroll a number of individuals which would exceed its capacity, based upon a reasonable projection of new enrollments under existing group contracts, the Secretary, at the request of the organization, may waive compliance with the open enrollment requirement of this paragraph for not more than twelve months: *Provided*, That the Secretary may provide additional such waivers to that organization if the organization submits a separate, satisfactory request and justification for each such waiver;

(e) In order to obtain a waiver of the annual open enrollment period required in paragraph (d) of this section,

(1) Submit a plan to (i) compute on a prospective basis an actuarially determined average of the utilization of services by current and/or potential enrollees, and (ii) collect data from potential entrollees and project patterns of utilization and costs in order to determine if open enrollment would jeopardize the economic viability of the organization;

(2) Indicate, upon the basis of reasonable estimates, that an open enrollment period would result in enrolling more than 50 percent Title XVIII and Title XIX beneficiaries, in violation of paragraph (c) of this section or

(3) Indicate, upon the basis of reasonable estimates, that an open enrollment period would result in the enrollment of more members than could be served within the capacity of the organization, considering the new enrollment anticipated under existing group contracts; and

(4) Provide an assurance that an waiver granted on the basis of the occurrence of certain conditions will not be utilized unless and until such conditions actually occur;

(f) Not expel or refuse to re-enroll any member because of his health status or his requirements for health services;

(g) Be organized in such a manner that assures that:

(1) No later than six months after the health maintenance organization becomes operational, at least one-third of the membership of the Board of Directors or other policy-making body of the health maintenance organization will be members of the organization: *Provided*, That no member having ownership or interest in or employed by or gaining financial rewards from his dealings with the health maintenance organization, or with a plan-affiliated institution or organization, and no members of his immediate family shall be included in the minimum one-third member representation on the Board or policy-making body; except none of the foregoing shall prohibit the payment of directors' fees or other similar fees to persons serving on such Board or body; and

(2) There will be equitable representation on such Board of Directors or other policy-making body of members from medically underserved populations served by the organization, but in no instance, if such population is to be served, will such population be without representation on the policy-making body;

(h) Be organized in such a manner that provides meaningful procedures for hearing and resolving grievances between the health maintenance organization (including the medical group or groups and other health delivery entities providing health services for the organization) and the members of the organization, which procedures will assure that grievances and complaints of the members will be transmitted in a timely manner to a decision-making level within the organization which has authority to take corrective action;

(i) Have organizational arrangements, consistent with program emphasis on quality health care, for an ongoing quality assurance program for its health services which program

(1) Stresses health outcomes;

(2) Provides review by physicians and other health professionals of the process followed in the provision of health services;

(3) Provides systematic data collection of performance and patient results, provides interpretation of such data to the practitioners, and institutes needed change; and

(4) Is designed in such a manner as is likely to meet the standards imposed on hospitals and other operating health care facilities or organizations pursuant to section 1155(e) of the Social Security Act;

(j) Provide assurance that the basic and supplemental health services provided by the organization or through arrangements with other providers will meet the requirements contained in the conditions of participation in subparts J, K, L, M, N, and Q of 20 CFR Part 405;

(k) Provide, or make arrangements for, continuing education for its health professional staff;

(l) Provide an effective procedure while safeguarding the confidentiality of the doctor-patient relationship, to develop, compile, evaluate, and report, at such times and in such manner as the Secretary may require, to the Secretary, to its members, and to the general public, statistics and other information relating to:

(1) The cost of its operations;

(2) The patterns of utilization of its services, including the effects on such utilization of its requirements, if any, for nominal copayments;

(3) The availability, accessibility, and acceptability of its services;

(4) To the extent practical, developments in the health status of its members; and

(5) Such other matters as the Secretary may require; and

(m) Be organized and operated in a manner intended to preserve human dignity.

§ 110.108 Health benefits plan: basic health services.

(a) Each health maintenance organization shall have the capacity and the capability to deliver or arrange for the delivery of the basic health services, as follows:

(1) Physician services (including consultant and referral services by a physician). Physician services shall be provided by a licensed physician, or if a service of a physician may also be provided under applicable State law by a dentist, osteopath, optometrist, or podiatrist, or other licensed health professionals, a health maintenance organization may provide physician services through such health professionals licensed to provide such services.

(2) Inpatient and outpatient hospital services. Outpatient hospital services shall include diagnostic and/or treatment services for patients who are am-

V 39 90 MAY 8 74 XUM

bulatory and may be provided at a hospital or in a nonhospital-based health care facility. Outpatient and inpatient hospital services shall include rehabilitation services appropriate to short-term hospital care.

(3) Medically necessary emergency health services. Provisions for covering in-area and out-of-area medically necessary emergency health services are required or members must be reimbursed for payment of such services in accordance with § 110.105(d).

(i) In-area medically necessary emergency health services shall be:

(A) Available 24 hours a day, seven days a week;

(B) Provided through the facilities of and by the health professionals of the health maintenance organization or in special circumstances through arrangements with other providers;

(C) Provided by a physician and other licensed or ancillary personnel, readily available at all times; and

(D) Explained by the health maintenance organization to its members, including instructions on the procedures to be followed to secure such services.

(ii) Members requiring such services but who for reasons of medical necessity are unable to obtain them directly from the health maintenance organization in which they are enrolled or from providers or other persons with whom the health maintenance organization has arrangements for the provision of such services shall be reimbursed for such services by the organization.

(4) Short-term (not to exceed 20 visits per calendar year), outpatient evaluative and crisis intervention mental health services. (i) Short-term outpatient evaluative mental health services shall be available and accessible to health maintenance organization members during the normal hours of services.

(ii) Crisis intervention services shall be accessible in the same manner as are other medically necessary emergency services.

(iii) Mental health services shall be provided by or under the direction of qualified mental health professionals, and where feasible should be provided through community mental health centers.

(5) Medical treatment and referral services (including referral services to appropriate ancillary services) for the abuse of or addiction to alcohol and drugs. The diagnosis and medical treatment of alcohol and drug abuse and addiction shall be provided to health maintenance organization members. Screening, referral, and followup of patients with alcohol or drug problems to appropriate ancillary resources also shall be provided.

(6) Diagnostic laboratory and diagnostic and therapeutic radiologic services. Diagnostic laboratory and diagnostic and therapeutic radiology services shall be provided or arranged for in support of basic health services.

(7) Home health services. Home health services means health services provided at a member's home by health care personnel, as prescribed or directed by the responsible physician or other authority designated by the health maintenance organization. Where feasible, such services should be provided under the auspices of local home health agencies.

(8) Preventive health services (including voluntary family planning services, infertility services, preventive dental care for children, and children's eye examinations conducted to determine the need for vision correction). Preventive health services shall be made available to members and shall include at least the following:

(i) A broad range of voluntary family planning services.

(ii) Infertility services.

(iii) Preventive dental care to protect and maintain the dental health of children through age 11 provided by a licensed dentist or other qualified personnel. Preventive dental care shall include:

(A) Oral prophylaxis, as necessary, and

(B) Topical application of fluorides and/or the prescription of fluorides for systematic use when not available in the community water supply.

(iv) Eye examinations for children through age 11, as medically indicated and in accord with acceptable medical practice, to determine the need for vision correction, and

(v) Pediatric and adult immunizations, in accord with accepted medical practice.

(9) Medical social services.

(10) Health education services and education in the appropriate use of health services and in the contribution each member can make to the maintenance of his own health. A health maintenance organization shall provide its members with (i) instruction in personal health care measures, and (ii) information about its services including recommendations on generally accepted medical standards for use and frequency of such services.

(b) The following are not required to be provided as basic health services:

(1) Corrective appliances and artificial aids;

(2) Treatment of psychiatric conditions, except as required under section 1302(1)(D) of the Act;

(3) Cosmetic surgery, unless medically necessary;

(4) Provision of prescribed drugs and medicines;

(5) Ambulance transportation, unless medically necessary;

(6) Treatment for chronic alcoholism and drug addiction, except as required by section 1302(1)(E) of the Act and paragraph (a)(5) of this section;

(7) Care for military service connected disabilities for which the member is legally entitled to services and for which facilities are reasonably available to this member;

(8) Dental care and dental x-ray, except as required by section 1302(1)(H) of the Act;

(9) Vision care, except as required by section 1302(1)(H) of the Act;

(10) Conditions that State law requires be treated in a public facility; and

(11) Inpatient benefits for the specific spell of illness for which a member is hospitalized on the effective date of his coverage, and for which the member is covered under any form of service or insurance arrangement.

§ 110.109 Health benefits plan: supplemental health services.

(a) Provided that the required health manpower is available, each health maintenance organization shall provide at least the following supplemental health services to members who have contracted therefor:

(1) Services of facilities for intermediate and long-term care;

(2) Vision care not included as a basic health service;

(3) Dental services not included as a basic health service;

(4) Mental health services not provided as a basic health service;

(5) Long-term physical medicine and rehabilitative services (including physical therapy); and

(6) Prescription drugs prescribed in the course of provision of basic or supplemental health services.

(b) A health maintenance organization is authorized, in connection with the prescription or provision of prescription drugs, to maintain, review, and evaluate a drug use profile of its members receiving such services, evaluate patterns of drug utilization to assure optimum drug therapy, and provide for instruction of its members and of health professionals in the use of prescription and nonprescription drugs. Each health maintenance organization providing such services shall insure that:

(1) The program is developed jointly by the physicians and pharmacists associated with the health maintenance organization;

(2) The objectives of the program are described and understood by all physicians, pharmacists, and members of the health maintenance organization;

(3) Individual rights are protected and that all information regarding and identifying an individual is available only to appropriate health professionals of the health maintenance organization;

(4) The primary thrust of the program is optimum drug therapy for the individual member of the health maintenance organization; and

(5) The information obtained in drug utilization review is utilized in educational programs for professionals and members of the health maintenance organization.

Subpart B—Federal Financial Assistance: General

§ 110.201 Applicability.

The regulations of this subpart apply to the award of grants, contracts, loans, and loan guarantees to public or nonprofit private entities or private entities (other than nonprofit private entities) for projects as authorized by sections 1303, 1304, and 1305 of the Act.

§ 110.202 Definitions.

(a) "Nonprofit" as applied to private entity, agency, institution or organization means a private entity, agency, institution, or organization, no part of the net earnings of which inures, or may lawfully inure, to the benefit of any private shareholder or individual.

(b) "Section 314(a) State health planning agency" (314(a) agency) means the agency of a State which administers or supervises the administration of a State's health planning functions under a State plan approved under section 314(a) of the Act; and the term "section 314(b) areawide health planning agency" (314(b) agency) means a public or nonprofit private agency or organization which has developed a comprehensive regional, metropolitan, or other local area plan or plans referred to in section 314(b) of the Act.

(c) "Significant expansion" means (1) an increase over current membership of not less than 25 percent which will be achieved at a rate that will at least double the average annual rate of enrollment growth during the preceding two years; or (2) expansion of the service area if the Secretary determines that the provision of Federal financial assistance will accelerate the existing rate of service area growth.

§ 110.203 Application requirements.

(a) An application for a grant, contract, loan or loan guarantee shall be submitted to the Secretary at such time and in such form and manner as the Secretary may prescribe.

(b) The application shall contain a budget and a narrative describing the manner in which the applicant intends to conduct the project and carry out the requirements of these regulations. The application must describe the project in sufficient detail to identify clearly the nature, need, specific objectives, plan and methods of the project.

(c) The application must be executed by an individual authorized to act for the applicant and to assume in behalf of the applicant the obligations imposed by the statute, the regulations of this subpart, and any additional conditions of the award.

(d) The applicant shall submit with the application:

(1) A full financial statement; and

(2) Written verification from at least two public or two private lending agencies or institutions demonstrating that, after a formal request,

(i) Funds have been denied in the amount requested in the application, or

(ii) Funds in the amount requested in the application are available only at an interest rate in excess of those currently in effect for the loan and loan guarantee program on the date of the application.

On the basis of the information submitted, the Secretary will determine whether the applicant would not be able to complete the project or undertaking for which the application is submitted without the assistance applied for.

(e) Each application must contain or be supported by assurances satisfactory to the Secretary that the applicant will, when operational as a health maintenance organization, enroll and maintain the maximum number of members that it can effectively serve with the available and potential resources of the health maintenance organization.

(f) Each application which evidences or projects an enrollment of at least 66 percent from a nonmetropolitan area shall identify the area in which such population resides and indicate the percent of anticipated enrollment to be drawn from such area.

(g) Each application which evidences or projects an enrollment of at least 30 percent from a medically underserved population when the health maintenance organization first receives financial assistance or becomes operational shall identify the area in which such population resides and the total population of that area, and provide the information described in § 110.101(g).

(h) Each application must verify that each 314(b) agency whose section 314(b) plan covers (in whole or in part) the area to be served by the health maintenance organization for which such application is submitted (or if there is no such agency, the 314(a) agency whose section 314(a) plan covers (in whole or in part) such area) has been given at least 40 days during which to review and comment on the application. The applicant shall request that the comments of such agencies be forwarded to the Secretary through the appropriate Department of Health, Education, and Welfare Regional Office by the time the application is to be submitted to the Secretary.

(i) If under applicable State law, the application may not be submitted without the approval of the 314(b) or the 314(a) agency, the applicant shall obtain such approval which must be included as a part of the application.

(j) The application shall provide written information describing the organization's development and operation of any prior projects which were supported by funds or by loans or loan guarantees under Title XIII of the Act.

(k) Applicants for more than one grant, contract, loan, or loan guarantee under Title XIII of the Act, simultaneously or over the course of time, shall not be required to duplicate information, but shall update such information with each subsequent application.

§ 110.204 314(b) or 314(a) agency review and comments.

The appropriate 314(b) or 314(a) agency shall have an opportunity to evaluate each application for support under Title XIII of the Act submitted from its planning area in relation to such plans as the health planning agency may have developed and its current knowledge of the health planning area. The 314 agency should provide to the Secretary through the appropriate Department of Health, Education, and Welfare Regional Office comments and recommendations on approval, including the general bases for comments pertinent to inadequacies in the applications, with regard to the following:

(a) Compatibility of the proposed project with the areawide or State plan for health services;

(b) Accuracy and thoroughness of description of the medical services area in which the applicant proposes to develop, operate, or expand a health maintenance organization;

(c) Accuracy and thoroughness with which applicant has identified the population groups to be served by the proposed health maintenance organization as required by § 110.203(f) and § 110.203(g);

(d) Anticipated impact of the proposed project on the general accessibility and availability of care in the area, including:

(1) Whether proposed project meets the needs of the community for health services in proposed service area;

(2) Effects of offering an alternative form of health services to individuals or groups; and

(3) Identification and adequate description of existing barriers to the effective delivery of health services, including geographic, economic, cultural and language barriers;

(e) Economic impact, including:

(1) Effects on existing health resources or facilities;

(2) Potential of proposed project to draw new health resources into the area; and

(3) Adequacy of the population of the area as a base for the anticipated enrollment.

(f) Agency cooperation, including:

(1) Adequate plans by applicant for working cooperatively with the appropriate 314(b) and 314(a) agencies; and

(2) The experience of applicant, if any, in dealing with other segments of the health care community.

(g) Whether arrangements for services appear realistic, achievable and appropriate, including, but not limited to:

(1) Potential for proposed project to be adequately staffed to accommodate enrolled members or anticipated membership;

(2) Potential for adequate provision of the services considering availability of manpower and equipment, and success of previous attempts to recruit personnel;

(3) Availability of health professionals in the area, and adequate evidence of cooperative planning with these providers (include summaries of verbal contacts or copies of correspondence); and

(4) Reliability of evidence of support for and acceptance of the proposed project by the community.

§ 110.205 Records, reports, inspection, and audit.

Each grant is subject to the following conditions:

(a) Each grant, contract, loan, or loan guarantee awarded pursuant to this Part 110 shall be subject to the condition that the recipient shall maintain records which disclose the amount and disposition of the proceeds of the grant, contract, or loan (directly made or guaranteed), the total cost of the undertak-

V 39 90
MAY 8
74
XUM

ing in connection with which such assistance was given or used, the amount of that portion of the cost of the undertaking supplied by other sources, and such other records as will facilitate an effective audit.

(b) The Secretary and the Comptroller General of the United States, or any of their duly authorized representatives, shall have access for the purpose of audit, examination or evaluation to any books, documents, papers, and records of the recipients of a grant, contract, loan or loan guarantee under Title XIII of the Act which relate to such assistance.

(c) A report shall be submitted to the Secretary by the recipient of a grant, contract, loan, or loan guarantee under Title XIII of the Act not later than 60 days after the termination date of each project, describing existing and anticipated plans, developments and operations in accordance with information required under section 1306(b)(3) of the Act.

(d) Such other reports shall be submitted as the Secretary may require to meet the provisions of the Act and these regulations.

§ 110.206 Additional conditions.

The Secretary may, with respect to the approval of any grant, contract, loan, or loan guarantee, impose additional conditions prior to or at the time of any approval when, in his judgment, such conditions are necessary to assure or protect advancement of the approved project, the interests of public health, or conservation of project funds.

§ 110.207 Nondiscrimination.

Attention is called to the requirements of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. 2000d et seq.) and in particular section 601 of such Act which provides that no person in the United States shall on the grounds of race, color, or national origin be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. A regulation implementing such Title VI, which applies to all financial assistance under this Part, has been issued by the Secretary of Health, Education, and Welfare with the approval of the President (45 CFR Part 80). In addition no person shall, on the grounds of sex, or creed (unless otherwise medically indicated) be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. Nor shall any person be denied employment in or by such program or activity so receiving Federal financial assistance on the grounds of age, sex, creed, or marital status.

§ 110.208 Inventions or discoveries.

A grant award is subject to the regulations of the Department of Health, Education, and Welfare as set forth in 45 CFR Parts 6, "Inventions and Patents (General)" and 8, "Inventions Resulting from Research Grants, Fellowship Awards, and Contracts for Research". Such regulations shall apply to any activity for which grant funds are in fact used whether within the scope of the project as approved or otherwise. Appropriate measures shall be taken by the grantee and by the Secretary to assure that no contracts, assignments or other arrangements inconsistent with the grant obligation are continued or entered into and that all personnel involved in the supported activity are aware of and comply with such obligations. Laboratory notes, related technical data, and information pertaining to inventions and discoveries shall be maintained for such periods, and filed with or otherwise made available to the Secretary or those he may designate at such times and in such manner as he may determine necessary to carry out such Department regulations.

§ 110.209 Publications and copyright.

Except as may otherwise be provided under the terms and conditions of the award, the applicant may copyright without prior approval any publications, films or similar materials developed or resulting from a project supported by a grant under this Part, subject, however, to a royalty-free, non-exclusive, and irrevocable license or right in the Government to reproduce, translate, publish, use, disseminate, and dispose of such materials and to authorize others to do so.

§ 110.210 Confidentiality.

Each grant award is subject to the condition that all information obtained by the personnel of the project from participants in the project related to their examination, care, and treatment shall be held confidential, and shall not be divulged without the individual's informed consent except as may be required by law or as may be necessary to provide service to the individual or to the Secretary as part of his duties under the Act. Information may be disclosed in summary, statistical, or other form which does not identify particular individuals.

§ 110.211 Applicability of 45 CFR Part 74.

The provisions of 45 CFR Part 74, establishing uniform administrative requirements and cost principles, shall apply to all grants and contracts under this Part to State and local governments as those terms are defined in subpart A of that Part 74. The relevant provisions of Part 74 shall also apply to all other grantee organizations under this Part.

§ 110.212 Use of funds.

Any grants, contracts, loans, and loan guarantees awarded pursuant to this Part as well as other Federal funds to be used in the performance of the approved project shall be expended solely for carrying out the approved project in accordance with the statute, the regulations of this Part, and the terms and conditions of the award or assistance.

Subpart C—Grants and Contracts for Feasibility Surveys

§ 110.301 Applicability.

The regulations of this subpart, in addition to the regulations of subpart B of this Part, are applicable to grants and contracts awarded pursuant to section 1303 of the Act for projects to conduct surveys or other activities to determine the feasibility of developing and operating or expanding the operation of health maintenance organizations.

§ 110.302 Eligibility.

(a) *Eligible applicants.* Any public or private nonprofit entity which is or proposes to develop or become a health maintenance organization is eligible to apply for an award under this subpart.

(b) *Eligible projects.* Awards may be made pursuant to section 1303 of the Act, the regulations of subpart B, and this subpart, to eligible applicants to assist in conducting surveys or other activities to determine the feasibility of developing or expanding the operation of organizations which meet or propose to meet the requirements under subpart A of these regulations.

§ 110.303 Project elements.

An approvable application must provide:

(a) Statements which describe in detail:

(1) The goals and objectives for the proposed health maintenance organization;

(2) The administrative, managerial, and organizational arrangements and resources to be utilized to conduct the feasibility study; and

(3) The intended financial participation of the applicant, specifying the type of contributions, such as cash or services, loans of full- or part-time staff, equipment, spaces, materials, or facilities or other contributions;

(b) An assurance that the applicant will cooperate with the areawide health planning agency;

(c) Written evidence of notification to the local medical societies of the applicant's intention to apply for assistance;

(d) Letters or other forms of evidence that there is support for and acceptance of the proposed health maintenance organization by the community which the applicant proposes to serve;

(e) Concise statements of the tasks planned to accomplish each activity listed below, accompanied by a time-phased milestone chart indicating proposed funding and manpower to be allocated to each activity:

(1) Identify pertinent State laws, regulations, and practices relating to operating as a health maintenance organization;

(2) Identify population groups which would be sources of prepayment and other potential sources of payment for services when the health maintenance organization becomes operational;

(3) Explore potential sources of professional services to provide basic health services;

(4) Develop an estimate of the premium to be charged for basic health services when the proposed health maintenance organization becomes operational;

(5) Develop an estimate of the enrollment and funds required to reach the financial breakeven point; and

(6) Develop a preliminary estimate of the facilities required for operational status, capital investments which will be required, and explore possible sources of financing to provide the proposed amount and type of services as an operational health maintenance organization;

(f) Where the application requests assistance for an existing organization which provides health care services financed on a prepaid capitation basis to an enrolled population and which is or which intends to become a health maintenance organization, the applicant must also include:

(1) An identification of gaps between the applicant's current operation and the requirements of subpart A of this Part which much be addressed by the applicant during expansion;

(2) The enrollment figure, amount and type of health benefits being offered, and premiums being charged at the time of application;

(3) Projections of the proposed significant expansion, as defined in § 110.202(c);

(4) An income and expense report no older than six months;

(5) A description of the current contracts and arrangements for providing health services; and

(6) A description of other formal arrangements (risk, insurance, marketing, etc.).

§ 110.304 Evaluation and award.

Within the limits of funds available for such purpose, the Secretary may make awards to cover up to 90 percent of the cost of projects, or in the case of projects which will serve medically underserved populations, up to 100 percent of the costs, to those applicants whose projects will, in his judgment best promote the purposes of section 1303 of the Act and the regulations of this subpart, taking into account:

(a) The degree to which proposed project satisfactorily provides for elements set forth in § 110.303 above.

(b) The comments of the appropriate 314(b) agency.

(c) The degree to which the goals and objectives of the proposed project will promote the purposes of the Act and are consistent with the generally recognized capability of effectively organized and managed health maintenance organizations to reduce hospitalization, to contain medical care costs, to use effectively medical and allied health manpower, to emphasize early detection and treatment of illness, and to contribute to a better distribution and quality of health care.

(d) The capability of the applicant to organize and manage the project successfully.

(e) The soundness of the proposed plan for conducting the feasibility study and for assuring effective utilization of grant funds.

(f) The potential of the project to obtain indications of the willingness of basic medical and health care providers to participate in the operation of the health maintenance organization.

(g) The probability of financial viability based on potential sources of financial support for development and operations and potential osurces of enrollment.

(h) The inclusion of at least 30 percent of its projected enrollment from a medically underserved area.

(i) Location relative to the number of organizations providing health services to a defined population on a prepaid capitation basis, which are already operating in the proposed geographic area.

(j) The percentage of total anticipated enrollment to be drawn from nonmetropolitan areas to be served.

§ 110.305 Funding duration and limitation.

(a) The amount of any award shall be determined by the Secretary on the basis of his estimate of the sum necessary for project costs, provided, however, that any single grant may not exceed $50,000.

(b) Feasibility survey projects shall be completed within 12 months from the date of the award, provided that, for good cause shown, upon a written request and justification, the Secretary may extend such period for an additional time up to 12 months for completion of the project.

(c) The Secretary may make not more than one additional grant or enter into not more than one additional contract for a project for a feasibility survey for which a grant has previously been made or a contract previously entered into.

(d) Funds under grants and contracts for feasibility surveys shall be utilized only for the activities set forth in § 110.303(e).

Subpart D—Grants, Contracts, and Loan Guarantees for Planning and Initial Development Costs

§ 110.401 Applicability.

The regulations of this subpart, in addition to the regulations of subpart B of this Part 110, are applicable to:

(a) Grants and contracts awarded pursuant to section 1304 of the Act for projects for planning, and initial development of health maintenance organizations, and

(b) Guarantees made to non-Federal lenders of payment of the principal of and interest on loans made to private entities (other than nonprofit private entities) for such projects to serve medically underserved populations.

§ 110.402 Eligibility.

(a) *Eligible applicants.* Any public or nonprofit private entity, which is or which proposes to become a health maintenance organization, is eligible to apply for a grant or contract, and any private entity (other than a nonprofit private entity) which is or which proposes to become a health maintenance organization and which proposes to serve a medically underserved population is eligible to apply for a loan guarantee under this subpart.

(b) *Eligible projects.* (1) Awards of grants or contracts may be made pursuant to section 1304 of the Act and the regulations of subpart B and this subpart to eligible applicants for planning for the establishment of health maintenance organizations, or for the significant expansion of the membership of, or areas served by, health maintenance organizations meeting the requirements of subpart A of these regulations, or for the initial development or actual expansion of such organizations;

(2) Guarantees may be made pursuant to section 1304 of the Act and the regulations of subpart B and this subpart to eligible applicants for the payment of the principal of and the interest on loans for planning projects for the establishment of health maintenance organizations, or the expansion of existing health maintenance organizations meeting the requirements of subpart. A of these regulations, or for the initial development or actual expansion of such organizations: *Provided*, that at least 30 percent of the projected enrollees of such organizations are from medically underserved areas.

§ 110.403 Project elements for planning.

An approvable application must provide:

(a) Statements which describe in detail:

(1) The goals and objectives of the proposed health maintenance organization;

(2) The administrative, managerial, and organizational arrangements and resources to be utilized in the performance of the proposed activities; and

(3) The intended financial participation of the applicant, specifying the type of contributions such as services, loans of full- or part-time staff, equipment, space, materials, facilities, or other contributions.

(b) An assurance that the applicant will cooperate with the appropriate 314 (b) agency.

(c) Written evidence of notification to the local medical societies of the applicant's intention to apply for assistance.

(d) Letters or other forms of evidence that there is support for and acceptance of the project by organizations, institutions, and/or employer groups which may participate in the development of the proposed health maintenance organization.

(e) A detailed report of the results of the survey or study which established the feasibility of developing the health maintenance organization, including information regarding each of the following:

(1) Status of the applicant in terms of pertinent State laws, regulations, and practices relating to operating as a health maintenance organization;

(2) Organizational structure of the proposed health maintenance organization;

V 39 90 MAY 8 74 XUM

(3) Providers of professional services who have agreed or might reasonbly be expected to agree to provide health benefits;

(4) Identification of the population groups which would be sources of prepayment for an operational health maintenance organization and other potential sources of payment for services when operational;

(5) Sources of payment and operational support including:

(i) Preliminary estimate of the premium to be charged for basic health benefits when the proposed health maintenance organization becomes operational; and

(ii) Estimate of enrollment and income required to reach the financial breakeven point; and

(6) A preliminary estimate of facilities required for operational status, additional capital investments required, and sources of financing to provide the proposed amount and type of services as an operational health maintenance organization.

(f) Concise statements of the tasks required to accomplish each activity listed below, accompanied by a time-phased milestone chart indicating proposed funding and manpower to be allocated to each such activity:

(1) Recruit key project staff;

(2) Plan for appropriate action relating to any State legal and/or regulatory restrictions;

(3) Develop formal organization;

(4) Establish community support;

(5) Refine market estimate made in feasibility survey;

(6) Develop health benefits plan;

(7) Develop premium structure;

(8) Develop plans for marketing of the services and enrollment of members;

(9) Develop budget and financial plan; and

(10) Develop preliminary physician service agreements.

(g) Where the application requests assistance for an existing organization which provides health care services financed on a prepaid capitation basis to an enrolled population and which is or which intends to become a health maintenance organization, the application shall also include;

(1) An identification of gaps between the applicant's current operation and the requirements of Subpart A which must be addressed by the applicant during expansion;

(2) The enrollment figure, amount and type of health benefits being offered, and the premium being charged at the time of application;

(3) Projections of the proposed significant expansion, as defined in § 110.202 (c);

(4) An income and expense report no older than six months;

(5) A description of the current contracts and arrangements for providing health services; and

(6) A description of other formal arrangements (risk, insurance, marketing, etc.).

§ 110.404 Project elements for initial development.

An approvable application must provide:

(a) Written evidence satisfactory to the Secretary that the feasibility of the establishment and operation or expansion has been established by the applicant and that sufficient planning for the establishment or expansion has been conducted by the applicant.

(b) An identification of the following activities which are appropriate to the project with concise statements of the tasks necessary to accomplish each identified activity, a time-phased milestone chart and the funding and manpower which would be allocated to each such activity:

(1) Develop a schedule to meet the requirements of subpart A of this Part;

(2) Recruit and train personnel essential for operation as a health maintenance organization;

(3) Develop a comprehensive financial plan;

(4) Organize physician services;

(5) Construct/renovate health maintenance organization facilities;

(6) Organize ambulatory care facility;

(7) Formalize contract arrangements; and

(8) Initiate enrollment plan.

(c) Signed letters from at least three physicians indicating that they intend or are willing to be employed by or to contract with the proposed health maintenance organization for the provision of basic health services to its enrollees; signed letters from one or more hospitals indicating that they intend to or are willing to negotiate an agreement to admit enrollees from the proposed health maintenance organization as necessary.

(d) When the applicant intends to serve Title XIX eligibles as part of the intended enrollment, evidence that the State Title XIX agency is willing to negotiate a prepaid capitation contract in the form of a letter from the State Title XIX agency.

(e) An application for expansion of an existing organization which provides health care services financed on a prepaid capitation basis to an enrolled population and which is or which intends to become a health maintenance organization shall also include:

(1) An identification of gaps between the applicant's current operation and the requirements of subpart A of this Part which must be addressed by the applicant during expansion;

(2) The enrollment figure, amount and type of health benefits being offered, and the premiums being charged at the time of application;

(3) Projections of the proposed significant expansion, as defined in § 110.202 (c);

(4) An income and expense report no older than six months;

(5) A description of the current contracts and arrangements for providing health services; and

(6) A description of other formal arrangements (risk, insurance, marketing, etc.).

§ 110.405 Funding duration and limitation.

(a) *Planning projects.* (1) The amount of any award shall be determined by the Secretary on the basis of his estimate of the sum necessary for project costs, provided, that any single grant or contract, and the amount of principal of any single loan guaranteed under section 1304 of the Act may not exceed $125,000.

(2) Planning projects shall be completed within 12 months from the date of the award, provided that for good cause shown, upon a written request and justification, the Secretary may extend such period for an additional time up to 12 months for completion of the project.

(3) The Secretary may not make more than one additional grant or loan guarantee or enter into not more than one additional contract for a planning project for which a grant or loan guarantee has previously been made or a contract previously entered into.

(4) Funds under grants, contracts, and loans guaranteed for planning projects shall be utilized only for the activities set forth in § 110.403(f) and for activities required to fill the gaps referred to in § 110.403(g)(1).

(b) *Initial development projects.* (1) The amount of any award shall be determined by the Secretary on the basis of his estimate of the sums necessary for project costs, provided, however, that the aggregate amount of loan guarantees, grants, and contracts for any initial development project may not exceed $1,000,000.

(2) A grant or contract may only be awarded for initial development costs in the one year period beginning on the first day of the month in which such award was made, and the combined number of grants made and contracts entered into for any initial development project under section 1304 of the Act may not exceed a total of three. A loan guarantee for an initial development project may only be made for a loan (or loans) for initial development costs incurred in a period not to exceed three years.

(3) Funds under grants, contracts, and loans guaranteed for projects for initial development shall be utilized only for the activities set forth in § 110.404 (b).

§ 110.406 Evaluation and award.

Within the limits of funds available for such purpose, the Secretary may make awards to cover up to 90 percent of the cost of projects, or in the case of projects which will serve medically underserved populations, up to 100 percent of the costs, to those applicants whose projects will, in his judgment, best promote the purposes of section 1304 of the Act and the regulations of this subpart, taking into account:

(a) The degree to which the proposed project satisfactorily provides for the elements set forth in § 110.403 or § 110.404 of this subpart.

(b) The comments of the appropriate 314(b) or 314(a) agency.

(c) Whether the feasibility of the project has been established.

(d) The appropriateness of the goals and objectives of the proposed project.

(e) The effectiveness the proposed organization may reasonably be expected to have in reducing hospitalization, containing health care cost, using medical and allied health manpower, emphasizing early detection and treatment of illnesses, and achieving a better distribution and quality of care.

(f) The capability of the applicant to organize and manage the project successfully.

(g) Evidence of the applicant's intended contribution to the project.

(h) Evidence of intent from providers expressing a willingness to be employed by or contract with the proposed health maintenance organization for the provision of basic health services.

(i) Evidence, in the form of letters, from individuals, groups or organizations indicating that they support the development and operation of the proposed health maintenance organization.

(j) The results of marketing efforts and the prospects for eventual economic viability as an operational health maintenance organization without continued Federal support.

(k) The inclusion of medically underserved populations in groups to be enrolled.

(l) Geographic position relative to the number of organizations providing health services to a defined population on a prepaid capitation basis, which are already operating in the area.

(m) The percentage of anticipated total enrollment to be drawn from nonmetropolitan areas to be served.

§ 110.407 Loan guarantee provisions.

(a) *Disbursement of loan proceeds.* The principal amount of any loan guaranteed by the Secretary under this subpart shall be disbursed to the applicant in accordance with an agreement to be entered into between the parties to the loan and approved by the Secretary.

(b) *Length and maturity of loans.* The principal amount of each loan guarantee, together with interest thereon, shall be repayable over a period of 20 years, beginning on the date of endorsement of the loan guarantee by the Secretary. The Secretary may, however, approve a shorter repayment period where he determines that a repayment period of less than 20 years is more appropriate to an applicant's total financial plan.

(c) *Repayment.* The principal amount of each loan guarantee, together with interest thereon, shall be repayable in accordance with a repayment schedule which is to be agreed upon by the parties to the loan and approved by the Secretary prior to or at the time of his endorsement of the loan. Unless otherwise specifically authorized by the Secretary, each loan guaranteed by the Secretary shall be repayable in substantially level combined installments of principal and interest, to be paid at intervals not less frequently than annually, sufficient to amortize the loan through the final year of the life of the loan.

Subpart E—Loans and Loan Guarantees for Initial Operating Costs

§ 110.501 Applicability.

The regulations of this subpart, in addition to the regulations of subpart B, are applicable to loans and loan guarantees awarded pursuant to section 1305 of the Act.

§ 110.502 Definitions.

(a) "Operating cost" means any cost which under generally accepted accounting principles is not a capital expenditure.

(b) "First 36 months of operations" means the 36 months period running from the day when the health maintenance organization first provides services to members.

§ 110.503 Eligibility.

(a) *Eligible applicants.* Any public or nonprofit private health maintenance organization is eligible to apply for a loan. Any private health maintenance organization (other than a nonprofit private health maintenance organization) which will serve a medically underserved population is eligible to apply for a loan guarantee.

(b) Eligible projects.

(1) Loans may be made pursuant to section 1305 of the Act and the regulations of subpart B and this subpart to eligible applicants to assist them in meeting the amount by which their operating costs in the period of the first 36 months of their operation exceed their revenues in such period, or in meeting the amount by which their operating costs, which the Secretary determines are attributable to significant expansion in their membership or area served, as defined in § 110.202(c), and which are incurred in the period of the first 36 months of their operation after such expansion, exceed their revenues in that period which the Secretary determines are attributable to such expansion.

(2) Loan guarantees may be made pursuant to section 1305 of the Act and the regulations of subpart B and this subpart to guarantee to non-Federal lenders payment of the principal of and the interest on loans made to any private health maintenance organization (other than a private nonprofit health maintenance organization) for the amounts referred to in paragraph (b)(1) of this section, but only if such health maintenance organizations will serve a medically underserved population.

§ 110.504 Project elements.

An approvable application must provide:

(a) Statements which describe in detail:

(1) The applicant's adequate accomplishment of feasibility survey, planning, and development activities; and

(2) The health maintenance organization's management capability.

(b) Detailed information on the health maintenance organization's marketing plan and enrollment forecasts and experience.

(c) A detailed narrative statement describing:

(1) All existing and planned provider arrangements including copies of all executed contracts; and

(2) All facilities to be used in the delivery of health services.

(d) Financial information in such detail as the Secretary may prescribe.

(e) Evidence that any certificate of need required under State law for the operation of the health maintenance organization has been obtained by the applicant.

§ 110.505 Reserve requirement.

The applicant receiving a loan or loan guarantee under section 1305 of the Act shall establish a restricted reserve account beginning at the point when the revenues and expenditures of the health maintenance organization reach the breakeven point, or by the end of the 36-month period following the making of the loan or the guarantee under section 1305 of the Act, whichever is sooner, unless a longer period is approved by the Secretary. This reserve shall be so constituted as to accumulate no later than ten (10) years following the endorsement of the loan or loan guarantee, an aggregate amount equal to one year's principal of and interest on the loan, as determined under the terms of the loan made or guaranteed.

§ 110.506 Evaluation and award.

Within the limits of funds available for such purposes, the Secretary may award loans or loan guarantees to those applicants whose projects will, in his judgment, best promote the purposes of section 1305 of the Act and the regulations of the Part, taking into account:

(a) The ability of the health maintenance organization to achieve financial viability;

(b) The ability of the health maintenance organization to make repayments of the principal and interest when due and to have additional funds to defray the remaining operating deficits;

(c) The comments, if any, of the 314(b) or 314(a) agency;

(d) The relative distribution of qualified applicants with respect to the following factors:

(1) The inclusion of medically underserved populations in the groups to be enrolled;

(2) Geographical position relative to the number of organizations providing health services to a defined population on a prepaid capitation basis, which are already operating in the proposed area; and

(3) The percentage of anticipated total enrollment drawn from nonmetro-

V 39 90 MAY 8 74 XUM

politan areas served or to be served by the applicant.

§ 110.507 Funding duration and limitation.

(a) The principal amount of any loan made or guaranteed under section 1305 of the Act in any fiscal year for a health maintenance organization shall not exceed $1,000,000 and the aggregate amount of principal of loans made or guaranteed under section 1305 for a health maintenance organization shall not exceed $2,500,000.

(b) A loan or loan guarantee under section 1305 of the Act shall be limited to two-thirds of the Secretary's projection of the amount by which operating costs in the first 36 months of operation exceed revenues for such period, except as approved by written waiver by the Secretary for such higher percentage of the total operating deficit.

(c) The approval of any loan or loan guarantee shall not obligate the United States in any way to make any additional loan or loan guarantee with respect to the approved application or portion thereof, except as may be otherwise set forth in the agreement between the United States and the approved applicant.

§ 110.508 Loan provisions.

(a) *Disbursement of loan proceeds.* The principal amount of any loan made or guaranteed by the Secretary under this subpart shall be disbursed to the applicant in accordance with an agreement to be entered into between the parties to the loan and approved by the Secretary.

(b) *Length and maturity of loans.* The principal amount of each loan or loan guarantee, together with interest thereon, shall be repayable over a period of 20 years, beginning on the date of endorsement of the loan or loan guarantee by the Secretary. The Secretary may, however, approve a shorter repayment period where he determines that a repayment period of less than 20 years is more appropriate to an applicant's total financial plan.

(c) *Repayment.* The principal amount of each loan or loan guarantee, together with interest thereon, shall be repayable in accordance with a repayment schedule which is to be agreed upon by the parties to the loan or loan guarantee and approved by the Secretary prior to or at the time of his endorsement of the loan. Unless otherwise specifically authorized by the Secretary, each loan made or guaranteed by the Secretary shall be repayable in substantially level combined installments of principal and interest to be paid at intervals not less frequently than annually, sufficient to amortize the loan through the final year of the life of the loan.

Subpart F—Employee's Health Benefit Plans [Reserved]

Subpart G—Restrictive State Laws and Practices

§ 110.701 Restrictive laws and practices.

(a) In the case of any entity—

(1) Which cannot do business as a health maintenance organization in a State in which it proposes to furnish basic and supplemental health services because that State by law, regulation, or otherwise—

(i) Requires as a condition to doing business in that State that a medical society approve the furnishing of services by the entity,

(ii) Requires that physicians constitute all or a percentage of its governing body,

(iii) Requires that all physicians or a percentage of physicians in the locale participate or be permitted to participate in the provision of services for the entity, or

(iv) Requires that the entity meet requirements for insurers of health care services doing business in that State respecting initial capitalization and establishment of financial reserves against insolvency, and

(2) For which a grant, contract, loan, or loan guarantee was made under the Act or which is a qualified health maintenance organization for purposes of section 1310 of the Act (relating to employees' health benefits plans), such requirements shall not apply to that entity so as to prevent it from operating as a health maintenance organization in accordance with section 1301 of the Act and these regulations.

(b) No State may establish or enforce any law which prevents a health maintenance organization for which a grant, contract, loan, or loan guarantee was made under the Act or which is a qualified health maintenance organization for purposes of section 1310 of the Act (relating to employees' benefits plans), from soliciting members through advertising its services, charges, or other nonprofessional aspects of its operation. This subsection does not authorize any advertising which identifies, refers to, or makes any qualitative judgment concerning, any health professional who provides services for a health maintenance organization.

Subpart H—Continued Regulation of Health Maintenance Organizations [Reserved]

"Bureaucrat's Bible" or
"Guerrilla Handbook"?

United States Government Manual

1973/74 Edition

The Manual has been called the "bureaucrat's bible." It has also been called a "guerrilla warfare handbook for citizens tired of jousting with windmills."

As the United States Government Organization Manual, it has been a familiar aid to businessmen, researchers, lawyers, and students seeking current information about the Federal Government. This year, the title has been changed to reflect a broader emphasis on consumer-interest programs, although the agency organization charts are still included.

A fresh, modern format highlights a "Sources of Information" section for most agencies, with addresses and telephone numbers for obtaining information on:

- Employment
- Government contracts
- Environmental programs
- Small business opportunities
- Federal publications
- Speakers and films available to civic and educational groups

PART I

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

AEROSOL SPRAYS—Consumer Product Safety Commission determines vinyl chloride potentially hazardous ingredient and requires that manufacturers furnish information on defects 16511

UNIFORM TIRE QUALITY GRADING—DoT revokes regulations; effective 5–9–74 16469

PAY ADJUSTMENTS—CSC drops provisions; effective 5–1–74 16439

STUDENT NURSING LOANS—HEW issues regulations on repayment and administration; effective 6–10–74 16473

BROKER-DEALER RECORDKEEPING—SEC issues guidelines clarifying requirements 16440

UNIFORM SYSTEM OF ACCOUNTS—FMC revises regulations regarding subsidized vessels and operators; effective 5–9–74 16445

CONTROLLED SUBSTANCES—Justice Department exempts certain drugs for research purposes; effective 5–9–74 16442

SCHOOL BREAKFAST PROGRAM—USDA list of monies apportioned States for fiscal year 1974 16470

PART II:

EFFLUENT LIMITATIONS—EPA issues regulations for petroleum refining point source category; effective 5–12–74 16560

EPA proposes regulations for users of publicly owned treatment works for petroleum refining point source category; comments 6–10–74 16574

PART III:

EFFLUENT LIMITATIONS—EPA regulates builders paper and board mills point source category; effective 5–9–74 16578

EPA proposes regulations for users of publicly owned treatment works for builders paper and board mills point source category; comments by 6–10–74 16582

PART IV:

GUN CONTROL—Treasury Department list of relevant laws of political subdivisions of States 16633

reminders

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going Into Effect Today

This list includes only rules that were published in the FEDERAL REGISTER after October 1, 1972.

page no. and date

MAY 9

DOT—Response to petitions for reconsideration of vehicle in use inspection standards..... 12866; 4-9-74

EPA—Procedures for employee protection hearings..... 12865; 4-9-74

HEW—Instructional equipment grants for institutions of higher education. 12950; 4-9-74

federal register

Area Code 202 Phone 523-5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

MEETINGS—

USDA: Shippers Advisory Committee, 5–16–74..... 16496
Cibola National Forest Grazing Advisory Board, 5–22 and 5–23–74..... 16497

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 532—PAY UNDER PREVAILING RATE SYSTEMS

Subpart K—Pay Adjustments Under Economic Stabilization Program

REVOCATION

Because of the expiration on April 30, 1974, of the Economic Stabilization Act, as amended, the Commission revokes Subpart K of Part 532 effective May 1, 1974.

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.74–10733 Filed 5–8–74;8:45 am]

Title 10—Energy

CHAPTER I—ATOMIC ENERGY COMMISSION

PART 50—LICENSING OF PRODUCTION AND UTILIZATION FACILITIES

Environmental Effects of the Uranium Fuel Cycle; Correction

In FR Doc. 74–9076 appearing at page 14188 in the issue of Monday, April 22, 1974, the following changes should be made:

1. In the first column of Table S–3, under Effluents-chemical (MT), Liquids, the listings "NH" and "Fe"' should read:

NH_3
Fe

2. In the first and second columns of Table S–3, under Effluents-Radiological (curies), Liquids, the listings "Ru-106" and "".15" should read:

$Ru106^3$ ... .15

3. In the third column of Table S–3, the thirteenth paragraph, lines 32 through 38, should read:

Principally from fuel reprocessing plants—Whole body dose is 6 man-rem per annual fuel requirements for population within 50 mi radius. This is <0.007 percent of average natural background dose to this population. Release from Federal Waste Repository of 0.005 Ci/yr has been included in fission products and transuranics total.

4. In the third column of Table S–3, the fifteenth paragraph, lines 42 through 44, should read:

From UF_6 production-concentration 5 percent of 10 CFR 20 for total processing 27.5 model LWR annual fuel requirements.

5. In the third column of Table S–3, the eighteenth paragraph, lines 51 through 54, should read:

All except 1 Ci comes from mills—included in tailings returned to ground—no significant effluent to the environment, 1 Ci from conversion and fuel fabrication is buried.

Dated at Germantown, Md., this sixth day of May 1974.

For the Atomic Energy Commission.

PAUL C. BENDER,
Secretary of the Commission.

[FR Doc.74–10695 Filed 5–8–74;8:45 am]

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Airspace Docket No. 74–NW–03]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On March 8, 1974, a notice of proposed rulemaking was published in the FEDERAL REGISTER (39 FR 9199) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Burley, Idaho, transition area.

Interested persons were given thirty days in which to submit written comments. No objections to the proposed amendment were received.

In consideration of the foregoing, the proposed amendment is hereby adopted without change.

Effective date. This amendment shall be effective 0901 GMT July 18, 1974.

(Sec. 307(a), Federal Aviation Act of 1958, as amended, (49 U.S.C. 1348(a)) sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c))

Issued in Seattle, Wash., on April 30, 1974.

C. B. WALK, Jr.,
Director, Northwest Region.

BURLEY, IDAHO

"That airspace extending upward from 700 feet above the surface within 6.5 miles each side of the Burley BORTAC 121° radial extending from the VORTAC to 27 miles southeast of the VORTAC; within 6.5 miles each side of the Burley VORTAC 292° radial, extending from the VORTAC to 17 miles west of the VORTAC; within that airspace bounded on the southwest by a line parallel to and 9.5 miles southwest of the Burley VORTAC 323° radial, on the northwest by an arc of a 53-mile radius circle centered on Burley VORTAC, on the north by the north edge of V–500, on the east by a line parallel to and 4.5 miles east of Burley VORTAC 344° radial; and within 2.5 miles southeast and 6 miles northwest of the 036° bearing from Burley Municipal Airport, extending 9.5 miles northeast of the Burley Municipal Airport • • •" the remainder of the description remains as published.

[FR Doc.74–10630 Filed 5–8–74;8:45 am]

[Airspace Docket No. 74–SO–16]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Revocation of Federal Airway Segment

On March 5, 1974, a notice of proposed rulemaking (NPRM) was published in the FEDERAL REGISTER (39 FR 8350) stating that the Federal Aviation Administration (FAA) was considering an amendment to Part 71 of the Federal Aviation Regulations that would revoke the west alternate to VOR Federal Airway No. 37 between Columbia, S.C., and Fort Mill, S.C.

Interested persons were afforded an opportunity to participate in the proposed rulemaking through the submission of comments. No comments were received.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., July 18, 1974, as hereinafter set forth.

Section 71.123 (39 FR 307) is amended as follows:

In V–37 "Fort Mill, S.C., including a W alternate via INT Columbia 294° and Fort Mill 201° radials;" is deleted and "Fort Mill, S.C.;" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c)))

Issued in Washington, D.C., on May 2, 1974.

GORDON E. KEWER,
Acting Chief, Airspace and Air Traffic Rules Division.

[FR Doc.74–10628 Filed 5–8–74;8:45 am]

[Airspace Docket No. 74–SO–30]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On March 25, 1974, a notice of proposed rulemaking was published in the FEDERAL REGISTER (39 FR 11096), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Knoxville, Tenn., transition area.

V 39 91 MAY 9 74 XUM

Interested persons were afforded an opportunity to participate in the rule-making through the submission of comments. All comments received were favorable.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., July 18, 1974, as hereinafter set forth.

In § 71.181 (39 FR 440), the Knoxville, Tenn., transition area is amended as follows:

"* * * excluding the portion within the Morristown, Tenn., transition area * * *" is deleted and "* * * within an 8-mile radius of Knoxville Downtown Island Airport (latitude 35° 57'45" N., longitude 83°52'30" W.); excluding the portion within Morristown, Tenn., transition area * * *" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958. (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act, (49 U.S.C. 1655(c)))

Issued in East Point, Ga., on April 30, 1974.

DUANE W. FREER,
Acting Director, Southern Region.

[FR Doc.74-10631 Filed 5-8-74;8:45 am]

[Airspace Docket No. 74-WA-11]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation and Redesignation of Reporting Points

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to designate the Ainsworth, Nebr., VOR reporting point and to redesignate the Hobe, Palmetto, Shad, Snook, Squid, and Swordfish reporting points. Designation of the Ainsworth, Nebr., domestic low altitude reporting point will reduce controller workload and communication frequency congestion. Reporting points at Hobe INT, Palmetto INT, Snook INT, Squid INT, and Swordfish INT are incorrectly described by inbound bearings. Their redescription by outbound bearings does not change their locations. The Millville, N.J., RBN has been renamed Rainbow, N.J., RBN. The description of the Shad INT reporting point is amended by making this name change.

Because this action merely designates and redescribes reporting points in accordance with the requirements of current air traffic control procedures, and without altering any route structures or designated airspace, this action is a minor matter on which the public would have no particular desire to comment. Therefore, notice and public procedure thereon are unnecessary. In order to provide sufficient time for changes to be depicted on appropriate charts, this amendment will be made effective on July 18, 1974.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., July 18, 1974, as hereinafter set forth.

Section 71.203 (39 FR 620) is amended by adding the following:

Ainsworth, Nebr.

Section 71.209 (39 FR 630) is amended as follows:

a. In Hobe INT: "INT of 195° bearing" is deleted and "INT of 014° bearing" is substituted therefor.

b. In Palmetto INT: "INT of 192° bearing" is deleted and "INT of 011° bearing" is substituted therefor.

c. In Shad INT: "INT of Millville, N.J. RBN" is deleted and "INT of Rainbow, N.J., RBN" is substituted therefor.

d. In Snook INT: "INT of 182° bearing" is deleted and "INT of 002° bearing" is substituted therefor.

e. Squid INT: is amended to read as follows:

Squid INT: INT of 192° bearing Croaton, N.C., RBN and 090° bearing Dinsmore, Fla., RBN.

f. Swordfish INT: is amended to read as follows:

Swordfish INT: INT of 182° bearing Croaton, N.C., RBN and 090° bearing Dinsmore, Fla., RBN.

(Sec. 307(a), Federal Aviation Act of 1958, (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c))

Issued in Washington, D.C., on May 2, 1974.

GORDON E. KEWER,
Acting Chief, Airspace and Air Traffic Rules Division.

Title 17—Commodity and Securities Exchanges

CHAPTER II—SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-10756]

PART 241—INTERPRETATIVE RELEASE RELATING TO THE SECURITIES EXCHANGE ACT OF 1934 AND GENERAL RULES AND REGULATIONS THEREUNDER

Statement Regarding Maintenance of Current Books and Records by Brokers and Dealers

Inquiries have been received by the Commission requesting clarification of the requirement of Rule 17a-3(a) under the Securities Exchange Act of 1934 that every broker-dealer shall "make and keep current" certain books and records enumerated in the rule. Also, subparagraph (c) of Rule 17a-11 requires that telegraphic notice be given to the Commission when a broker or dealer fails to comply with the requirements of Rule 17a-3 to "make and keep current" books and records prescribed by the rule.

Rule 17a-3(a) requires that registered broker-dealers prepare records of transactions and dealings in securities for the accounts of the firm's customers as well as for its own risk and account, and to prepare records of other financial transactions related to the business of the broker-dealer. These requirements are intended to serve three basic regulatory purposes. First, it is expected that the broker-dealer maintain current books and records for the protection and convenience of customers; that is, customers are entitled to prompt responses to inquiries and resolution of claims relating to their accounts. Secondly, these requirements are intended to enable a broker-dealer to be aware of the extent of its compliance with the various rules and requirements, particularly the net capital and other customer protection rules,[1] and be able to demonstrate compliance to the Commission and the self-regulatory authorities without the burden of bringing books and records up-to-date being placed upon the regulatory authorities. Third, a broker-dealer should have current books and records to enable it to fulfill its obligations and responsibilities to other broker-dealers with whom business is transacted. Additionally, good business practice requires timely information for effective management decisions. In order to serve these purposes, we discuss in the following paragraphs general guidelines for the maintenance of current books and records with respect to the requirements of Rules 17a-3(a) and 17a-11.[2]

A. Order tickets and confirmations. Subparagraphs (6) and (7) of Rule 17a-3(a) require the preparation of a memorandum of each brokerage order and each principal transaction and subparagraph (8) requires maintenance of copies of confirmations of transactions for the accounts of customers and partners. These are the basic source documents and transaction records of a broker-dealer. By their nature the memoranda of brokerage and principal transactions should be prepared at the time of the transactions, and the confirmations, which are prepared from the memoranda, should be prepared and mailed on the day of the transaction or the following business day.

B. Records of original entry. The blotters or other records or original entry described in subparagraph (1) of Rule 17a-3 itemize each day's transactions in a format that facilitates posting to the general and subsidiary ledgers. Blotter records relating to securities transactions—e.g., daily purchase and sale blotters—should reflect all transactions as of the trade date and should be prepared no later than the following business day. Similarly, blotter records relating to securities movements and the receipt and disbursement of cash should reflect such transactions on the date they occur and should be prepared no later than the following business day.

C. General ledgers. The ledgers prescribed in subparagraph (2) of Rule 17a-3 are the general records reflecting all asset, liability and capital accounts and all income and expense accounts and include control accounts for subsidiary ledgers. The blotters and other records of original entry should be maintained not only on a daily basis as discussed above, but in a form which will facilitate posting of the general ledger as frequently as necessary to enable the broker-dealer to make the computations necessary to ascertain his compliance with the net capital rule and the customers' reserve requirement rule.[3] For many broker-dealers, compliance with the customers' reserve requirement entails a weekly computation based on updated general ledger account balances.

A broker-dealer is required to be in compliance with the net capital rule at all times and the general ledger must be posted as frequently as may be necessary to make that determination. Compliance with this rule and the concern for frequent computations becomes particularly important in periods of sharp changes in securities prices and increases in trading volume. Firms which are frequent participants in underwriting syndicates or which effect transactions in large blocks of stock may also find it necessary to post their ledger on a daily basis because of the need for making frequent net capital computations. If a broker-dealer effects only a limited number of transactions during an accounting period and it is clear from the nature of the business conducted that such transactions would have no material adverse effect on the broker-dealer's financial and operational condition, net capital or customers' protection requirements during the period it may be appropriate to post the general ledger on a monthly basis.[4]

D. Customer's ledger accounts. Transactions involving the purchase and sale of securities should be posted to the customer's ledger accounts described in subparagraph (3) of Rule 17a-3 no later than settlement date. Other customer transactions relating to securities movements and cash receipts and disbursements should be reflected as of the transaction date and should be posted to the accounts no later than the first business day following the transaction.

E. Subsidiary ledgers. The subsidiary ledgers and other records[5] relating to securities in transfer, dividends and interest received, securities borrowed and securities loaned, and monies loaned required under subparagraph (4)(A)-(D) should be posted no later than two business days subsequent to the date of the securities or money movements. Transactions between brokers not completed on settlement date should be posted to the appropriate fail to deliver or fail to receive ledger (or other record) no later than the first business day following settlement date; resolution of fail transactions should be recorded no later than the first business day following resolution. A broker-dealer who maintains his accounts on the trade date basis of accounting and uses "fail" accounts to reflect transactions with other brokers should post transactions to the accounts no later than two business days subsequent to the transaction date. In accordance with the provisions of Rule 17a-13(b)(5), long and short stock record differences shall be entered in an appropriate ledger account (subparagraph (4)(F)) no later than seven business days after the date of a required quarterly securities examination and verification.[6]

F. Securities position record. The securities record required by subparagraph (5) of Rule 17a-3(a) shall reflect the changes resulting from purchase and sale transactions either as broker or dealer as of clearance date, or settlement date, and should be recorded no later than the following business day.[7] In addition, other changes in securities positions should be reflected on the date of the security movement or on the following business day as of the date of the movement. Long and short securities record differences shall be entered concurrently with their recording in the subsidiary ledger required by subparagraph (4)(F).

G. Transactions in options. The record of puts, calls, spreads, straddles, and other options described in subparagraph (10) should reflect transactions as of the date an option is written, guaranteed, traded or exercised and should be prepared no later than the business day following the transaction.

H. Trial balances and capital computation. Subparagraph (11) requires the monthly preparation of a trial balance of all ledger accounts and a computation of aggregate indebtedness and net capital as of the trial balance date. These records should be prepared no later than 10 business days after the end of the accounting period, except in those instances where the records must be prepared in a lesser period to satisfy any reporting requirements established by any self-regulatory authority of which the broker-dealer is a member.[8]

I. Other records. The record of beneficial ownership of each cash or margin account (subparagraph (9) of Rule 17a-3) should be prepared before transactions are effected in an account. The employment questionnaire or application (subparagraph (12) of Rule 17a-3) should be prepared at or prior to the commencement of employment.

J. Time lag in transmission of data. Under certain limited circumstances the accounting department of a broker-dealer may not be aware of a transaction until a few days after it occurs. Transactions such as receipts and disbursements in out-of-town branches or by correspondents should be recorded no later than the day after the transaction is reported to the accounting department, and dividend and interest claims from other brokers should be recorded no later than the day after the validity of the claim is established.

K. Service bureaus. If a broker-dealer hires or engages an outside service bureau or other recordkeeping service to handle its records, the requirement to make and keep current the broker-dealer's books and records is in no way diminished and under such circumstances the broker-dealer is responsible to the same degree for maintaining current books and records as if he were maintaining them himself. Where a broker-dealer undertakes to have his books and records prepared and maintained by a service bureau or recordkeeping service, he should assure himself that the service will be provided in conformity with the Commission recordkeeping rules.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

APRIL 26, 1974.

[FR Doc.74-10687 Filed 5-8-74;8:45 am]

Title 18—Conservation of Power and Water Resources

CHAPTER I—FEDERAL POWER COMMISSION

SUBCHAPTER A—GENERAL RULES

[Docket No. RM74-24; Order No. 509]

PART 2—GENERAL POLICY AND INTERPRETATIONS

Availability of All Relevant Information Acquired by Staff Investigation in Contested Cases

MAY 2, 1974.

The Commission is herein promulgating a statement of policy with respect to

[1] Including Rule 15c3-1 or comparable requirements of a national securities exchange of which the broker-dealer is a member and Rule 15c3-3.

[2] Subsequent modification or change of applicable rules may result in the revision of the guidelines set forth herein (for example, see proposed revisions to Rule 15c1-4, Securities Exchange Act Release No. 10681, Investment Company Act Release No. 8275).

[3] Rule 15c3-3(e).

[4] In the course of posting the books at interim date during a month, it may not be necessary to make adjustments for accruals and deferrals such as for depreciation or prepaid expenses if they would not materially affect the financial condition of the broker-dealer.

[5] As used in subparagraph (4) and elsewhere in Rule 17a-3, the term, "other records" should be construed to include, where appropriate, copies of vouchers, confirmations, or similar documents which reflect the information required by the applicable subparagraph arranged in appropriate sequence and in permanent form, including similar records developed by the use of automatic data processing systems and produced or reproduced on microfilm.

[6] If counts are made on a cyclical basis in accordance with Rule 17a-3(c), any stock record difference shall be recorded within seven business days subsequent to examination and verification of a particular security.

[7] The requirement for current maintenance of the securities record can be met by broker-dealers through preparation of a full securities record weekly, supplemented by a daily "takeoff" sheet summarizing and balancing each day's securities movements.

[8] Although not specifically referred to in Rule 17a-3, the weekly or monthly computation of the amount to be on deposit under the customers' reserve requirement rule must be made in sufficient time to enable the broker-dealer to make the required deposit no later than one hour after the opening of banking business on the second business day following the date on which the computation is based, as required by Rule 15c3-3(e).

V 39 91 MAY 9 74 XUM

the release of information acquired by investigations of its staff conducted pursuant to sections 8, 10, and 14 of the Natural Gas Act (52 Stat. 825, 15 U.S.C. 717g; 52 Stat. 826, 15 U.S.C. 717i; 52 Stat. 828, 15 U.S.C. 717m) which may be relevant to any matter set for formal hearing. This policy implements subsection (b) of section 8 of the Natural Gas Act which provides that no member, officer, or employee of the Commission shall divulge any fact or information which may come to his knowledge during the course of examination of books, records, data, or accounts of natural gas companies except insofar as he may be directed by the Commission or by a court.

Since the Commission can act under the substantive provisions of the Natural Gas Act only upon required statutory findings [1] based upon substantial evidence,[2] it is imperative that all relevant information be available for examination by all parties to a proceeding so that the Commission will have a complete record, including substantial evidence, upon which to base its findings and make conclusions of law. The Commission is aware that natural gas companies may be reluctant to have revealed certain information obtained by staff investigation. However, when that information is relevant to matters which are the subjects of formal hearings under the substantive provisions of the Natural Gas Act, there must a weighing of the interests involved; [3] and the Commission concludes that the public interest, with which the business of transporting and selling natural gas for ultimate distribution to the public is affected,[4] outweighs the private interests of natural gas companies in maintaining the confidentiality of the information.

The Commission regards the statement of policy promulgated herein as the direction of the Commission under subsection (b) of section 8 of the Natural Gas Act to its members, officers, and employees to release the subject information; and, further, the Commission regards the statement as the legal authorization without which individuals who would disclose information might be subject to criminal sanctions under 18 U.S.C. 1905. The Commission does not regard its determination to release the subject information as limited by the provisions of 5 U.S.C. 552(b) (4) and (9).

The Commisison finds. (1) the policy adopted herein is necessary and appropriate in the administration of the Natural Gas Act.

(2) Since the statement promulgated herein concerns a matter of general policy and agency procedure, compliance with the provisions of 5 U.S.C. 553 relating to notice and hearing is unnecessary.

The Commission, acting pursuant to the authority granted by the Natural Gas Act, particularly subsection (b) of section 8 (52 Stat. 825, 15 U.S.C. 717g) and section 16 (52 Stat. 830, 15 U.S.C. 717o) thereof, and in accordance with 5 U.S.C. 553, orders:

(A) Part 2 of Subchapter A, Chapter I of Title 18 of the Code of Federal Regulations, is amended by adding a new § 2.72 which reads as follows:

§ 2.72 Availability of information acquired by Staff Investigation in contested cases.

Pursuant to the Commission's authority under the Natural Gas Act, particularly subsection (b) of section 8 thereof, upon request by a party to the proceedings, all relevant information acquired by Commission staff, including workpapers pursuant to any staff investigation conducted under sections 8, 10, or 14 of the Natural Gas Act shall, without further order of the Commission, be free from the restraints of said subsection (b) of section 8 regarding the divulgence of information, with respect to any matter hereafter set for formal hearing.

(Subsection (b), sec. 8, 52 Stat. 825, 15 U.S.C. 717g; sec. 16, 52 Stat. 830, 15 U.S.C. 717o)

(B) The amendment adopted herein shall be effective on date of issuance.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

Title 21—Food and Drugs

CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER C—DRUGS

PART 141—TESTS AND METHODS OF ASSAY OF ANTIBIOTIC AND ANTIBIOTIC CONTAINING DRUGS

Sterile Cephapirin Sodium

Correction

In FR Doc. 73-24197 appearing at page 31507 in the issue of Thursday, November 15, 1973, the antibiotic entry in § 141.506(b)(2) reading "Cephapirin Soldium" should read "Cephapirin Sodium".

CHAPTER II—DRUG ENFORCEMENT ADMINISTRATION, DEPARTMENT OF JUSTICE

PART 1308—SCHEDULES OF CONTROLLED SUBSTANCES

Exempt Chemical Preparations

The Administrator of the Drug Enforcement Administration has received applications pursuant to § 1308.23 of Title 21 of the Code of Federal Regulations requesting that several chemical preparations containing controlled substances be granted the exemptions provided for in § 1308.24 of Title 21 of the Code of Federal Regulations.

The Administrator hereby finds that each of the following chemical preparations and mixtures is intended for laboratory, industrial, educational, or special research purposes, is not intended for general administration to a human being or other animal, and either (a) contains no narcotic controlled substance and is packaged in such a form or concentration that the package quantity does not present any significant potential abuse, or (b) contains either a narcotic or nonnarcotic controlled substance and one or more adulterating or denaturing agents in such a manner, combination, quantity, proportion or concentration, that the preparation or mixture does not present any potential for abuse. If the preparation or mixture is formulated in such a manner that it incorporates methods of denaturing or other means so that the preparation or mixture is not liable to be abused, and so that the narcotic substance cannot in practice be removed. The Administrator further finds that exemption of the following chemical preparations and mixtures is consistent with the public health and safety as well as the needs of researchers, chemical analysts, and suppliers of these products.

Therefore, under the authority vested in the Attorney General by sections 301 and 501(b) of the Comprehensive Drug Abuse Prevention and Control Act of 1970 (21 U.S.C. 821 and 871(b)) and delegated to the Administrator of the Drug Enforcement Administration by § 0.100 of Title 28 of the code of Federal Regulations (see 38 FR 18380, July 2, 1973) the Administrator hereby orders that Part 1308 of Title 21 of the Code of Federal Regulations be amended as follows:

By amending § 1308.24(i) by adding the following chemical preparations:

§ 1308.24 Exempt chemical preparations.

Title 23—Highways

CHAPTER I—FEDERAL HIGHWAY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

SUBCHAPTER G—ENGINEERING AND TRAFFIC OPERATIONS

PART 655—TRAFFIC OPERATIONS

Subpart B—Pavement Marking Demonstration Program

The Federal Highway Administrator is adding a new Subpart B to Part 655, Subchapter G, Chapter I of Title 23, CFR. The purpose of the new subpart is to prescribe the policies and procedures that the Federal Highway Administration will follow in administering the new Pavement Marking Demonstration Program established by section 205 of the Highway Safety Act of 1973.

Although certain general concepts relating to funding of projects under the new program are contained in § 655.211, detailed rules relating to the allocation of funds authorized by section 205 of the Highway Safety Act of 1973, as well as procedures for obligating those funds, will be dealt with in separate directives to be issued in the future.

In consideration of the foregoing, Chapter I of Title 23, CFR is amended by adding a new Subpart B in Part 655 of Subchapter G, reading as set forth below.

Since this amendment involves the administration of a program of public grants-in-aid, notice and public procedure thereon are unnecessary, and it is effective on the date of issuance set forth below.

This amendment is issued under the authority of section 205 of the Highway Safety Act of 1973, 23 U.S.C. 151, 23 U.S.C. 315, and the delegation of authority by the Secretary of Transportation at 49 CFR 1.48.

Issued on April 30, 1974.

NORBERT T. TIEMANN,
Federal Highway Administrator.

Subpart B—Pavement Marking Demonstration Program

Sec.
655.201 Scope of the rules in this part.
655.203 Authority.
655.205 General policies.
655.207 Procedures for participation in Pavement Marking Demonstration Program.
655.209 Marking standards.
655.211 Funding.
655.213 Evaluation and reporting.

AUTHORITY: 23 U.S.C. 151, 315 and delegation of authority at 49 CFR 1.48.

Subpart B—Pavement Marking Demonstration Program

§ 655.201 Scope of the rules in this part.

The rules in this part prescribe the policies and procedures followed by the Federal Highway Administration to implement the Pavement Marking Demonstration Program.

§ 655.203 Authority.

The Pavement Marking Demonstration Program is authorized by section 205 of the Highway Safety Act of 1973, 23 U.S.C. 151.

§ 655.205 General policies.

(a) *Eligible projects.* A pavement marking project is eligible for inclusion in a State's program if it is on any paved highway located within the State, except a highway included in the Interstate System. A project may be on either a highway on a Federal-aid system (except the Interstate System) or a highway off the Federal-aid systems, including a highway under the jurisdiction of a political subdivision of the State. However, except as provided in § 655.211, a project must not include renewal of pavement markings that conform to the standards set forth in the 1971 edition of the Manual on Uniform Traffic Control Devices.

(b) *Objective of the Program.* The objective of the Pavement Marking Demonstration Program is to demonstrate the value of pavement markings in providing greater vehicle and pedestrian safety. To this end, each project must produce a highway which has pavement markings that conform to the standards set forth in the 1971 edition of the Manual on Uniform Traffic Control Devices.[1]

(c) *Priorities for approval of programs.* In establishing programs the States shall give priority to—

(1) Projects on two-lane highways which are located in rural areas and which either are on the Federal-aid secondary system or are not included on any Federal-aid system; and

(2) Projects on routes or systems having high accident rates, when it is probable that adequate pavement markings will reduce the high accident rate.

(d) *Methods of performing work on projects.* Work on projects included in a State's program may be performed by either—

(1) Force account methods in accordance with Policy and Procedure Memorandum 21-6.2 [2];

[1] The Manual on Uniform Traffic Control Devices is available from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402, at a price of $3.50 per copy.

[2] Copies of Policy and Procedure Memorandum 21-6.2 are available for inspection and copying as prescribed in 49 CFR Part 7, App. D.

[1] 52 Stat. 822, 15 U.S.C. 717b; 52 Stat. 824, 15 U.S.C. 717f(a); 52 Stat. 824, 15 U.S.C. 717f (b); 56 Stat. 84, 15 U.S.C. 717f(e).

[2] 52 Stat. 831, 15 U.S.C. 717r.

[3] Cf. FCC v. Schreiber, et al., 381 US 279; American Sumatra Tobacco Corp. v. SEC, 110 F.2d 117.

[4] 52 Stat. 821, 15 U.S.C. 717(a).

V3991 MAY 9 74 XUM

(2) Contracts awarded by normal competitive bid methods; or

(3) Negotiated contracts containing firm unit prices.

§ 655.207 Procedure for participation in Pavement Marking Demonstration Program.

(a) *Development of program.* A State which wishes to participate in the Pavement Marking Demonstration Program must develop, and submit to the Federal Highway Administration, a program of proposed pavement marking projects that conform to the rules in § 655.205. A program may consist of a single project for the entire State, or may be broken down by geographic areas or by systems as the State may desire.

(b) *Contents of program.* The State's program must generally describe the work to be accomplished and must include—

(1) A description of the procedures for evaluating the results of each project;

(2) A listing by counties of the number of miles of pavement to be marked by class of road (Federal-aid system and non-Federal-aid system);

(3) A description of the type of striping or other markings to be applied in each project;

(4) An estimate of the total cost of each project and of the program as a whole; and

(5) A description of the method to be used to perform the work on each project.

(c) *Submission and review of program.* A State's program must be submitted to the Federal Highway Administration Division Engineer. The Division Engineer will review the program to determine whether it conforms to the rules in this part.

§ 655.209 Marking standards.

(a) *General rule.* In the performance of pavement marking projects, the marking standards specified in the 1971 edition of the Manual on Uniform Traffic Control Devices, including the standards for pedestrian crosswalks and stop lines, must be followed. In addition, the rules in paragraphs (b) and (c) of this section apply to pavement marking projects.

(b) *Centerlines.* Centerline markings must consist of one of the three types specified in section 3B–1 of the Manual on Uniform Traffic Control Devices. Centerline markings must be applied to a highway which—

(1) Has a paved surface that is 16 feet wide or wider; and

(2) Carries an average daily traffic volume of 250 vehicles or more.

(c) *Edge lines.* Except as otherwise approved by the Administrator, edge lines as prescribed in the Manual on Uniform Traffic Control Devices must be applied to a highway which—

(1) Has a paved surface that is 20 feet wide or wider; and

(2) Carries an average daily traffic volume of 250 vehicles or more.

§ 655.211 Funding.

(a) *Eligible costs.* The entire cost of materials, labor, and equipment rental or depreciation, necessary to apply pavement markings may be paid with funds authorized to carry out the Pavement Marking Demonstration Program. In addition, those funds are available to pay the cost of renewing markings applied under this Program for as long as is necessary to enable the effectiveness of the markings to be evaluated during a period of at least two years.

(b) *Ineligible costs.* Funds authorized to carry out the Pavement Marking Demonstration Program will not be expended—

(1) To pay the cost of renewing pavement markings which were not applied under the Pavement Marking Demonstration Program and which conform to the standards set forth in the 1971 edition of the Manual on Uniform Traffic Control Devices; or

(2) To pay the cost of data collection, analysis, or evaluation. However, the costs of data collection, analysis, or evaluation may be included in a State's Highway Planning and Research Program or its Highway Safety Program, if funds allocated to either program are available.

§ 655.213 Evaluation and reporting.

(a) *Submission of report.* Each State participating in the Pavement Marking Demonstration Program must make an annual report to the Federal Highway Administrator on the progress it has made in implementing its pavement marking program and the effectiveness of the improvements made under that program. The report must be submitted to the Federal Highway Administration Division Engineer. The first report must be submitted on or before August 31, 1974. Subsequent reports must be submitted on or before August 31 of each year after 1974.

(b) *Contents of report.* The State's annual report must include—

(1) An analysis and evaluation of the change in number, rate, and severity of accidents on highways which have been marked under the State's program;

(2) The cost-benefit ratio of pavement marking improvements under the State's program, comparing the results during a period of time after application of new markings which is adequate to enable proper assessment of the benefits of the new markings with data pertaining to the same period of time before application of new markings; and

(3) Completed Form 1451 which may be reproduced locally. Data relating to a project should be in the State's report until at least two years' of data relating to that project have been reported.

Title 46—Shipping

CHAPTER II—MARITIME ADMINISTRATION, DEPARTMENT OF COMMERCE

SUBCHAPTER C—REGULATIONS AFFECTING SUBSIDIZED VESSELS AND OPERATORS

[General Order 22, Rev.]

PART 282—UNIFORM SYSTEM OF ACCOUNTS FOR MARITIME CARRIERS

On October 16, 1973, there was published in the FEDERAL REGISTER (38 FR 28682) a notice of proposed rulemaking with a proposed revision of the Uniform System of Accounts (46 CFR Part 282). The proposed revision would make substantial changes in the Uniform System of Accounts, which sets forth the manner in which operators contracting with the Maritime Administration under Titles VI and VII of the Merchant Marine Act, 1936, as amended (46 U.S.C. 1171–1183, 1191–1206) shall keep their books, records and accounts relating to the maintenance, operation and servicing of vessels, services, routes and lines covered by such contracts. Careful consideration has been given to all comments received with respect to the proposed revision.

As a result of comments received, the following changes and additions are made to the revision as proposed:

(1) The port cost center has been subdivided into port and terminal cost centers.

(2) Account numbers for direct vessel expenses (701–749) have been revised to coincide as closely as possible with the account numbers used in the Uniform System of Accounts prior to this proposed amendment.

(3) Paragraph (k) (2) of the General Instructions has been revised to treat ordinarily delayed items of expense relating to subsidized and unsubsidized voyages alike.

(4) Clearance accounts .001–.095 have been reinstated.

(5) A new control account has been established for accrued liabilities.

(6) A new account for treasury stock transactions has been established.

(7) Account 316 for securities of related companies has been rewritten to comply with Opinion No. 18 of the Accounting Principles Board.

Accordingly, the proposed revision of 46 CFR Part 282 with the changes and additions noted above is hereby adopted.

During an operator's fiscal year beginning on or after January 1, 1974, an operator may employ presently existing accounts and convert its account numbers to conform to this amendment. Thereafter accounts must reflect completely the requirements of 46 CFR Part 282 as herein amended, with the exception of the military expense accounts 764, 766 and 768, until the Maritime Administration shall require the use of these accounts and shall give notice of such requirement in the FEDERAL REGISTER. This requirement will not take effect until the Federal Maritime Commission adopts this Uniform System of Accounts for Maritime Carriers for all operators bidding for Military Sealift Command cargos.

The reporting requirements contained herein have been approved by the Office of Management and Budget in accordance with the Federal Reports Act of 1942.

Part 282 of Title 46 of the Code of Federal Regulations as hereby revised reads as set forth below:

Effective date. This amendment shall be effective May 9, 1974.

Dated: April 26, 1974.

By order of the Assistant Secretary of Commerce for Maritime Affairs.

JAMES S. DAWSON, Jr.,
Secretary.

Sec.
282.1 In general.

General Instructions.

.055 Pool participation.
.060 Stores, supplies, and equipment aboard vessels.
.095 Profit and loss account.

Financial Statements.

(A) Balance sheet.
(B) Income statement.
(C) Waterline operating revenue and expense.
(D) Vessel operating statement.

AUTHORITY: Section 204(b) of Pub. L. 74-835, 49 Stat. 1987, as amended (46 U.S.C. 1114), sec. 801 of Pub. L. 74-835, 49 Stat. 2011, as amended (46 U.S.C. 1211).

§ 282.1 In general.

(a) *Purpose.* The purpose of this Part is to provide a Uniform System of Accounts for Maritime Carriers to be followed by certain designated operators.

(b) *Scope.* Operators of all vessels receiving operating-differential subsidy pursuant to Title VI of the Merchant Marine Act, 1936, as amended (sections 601-606, 608-610; 49 Stat. 2001-2007; 46 U.S.C. 1171-1180) shall be required to keep books, records and accounts relating to such subsidized vessels as prescribed in this part, except operators receiving operating-differential subsidy for the carriage of bulk raw and processed agricultural commodities from the United States to the Union of Soviet Socialist Republics pursuant to Part 294 of this chapter. Operators under Part 294 which otherwise are not receiving operating-differential subsidy shall not be required to follow the requirements of this part, except as prescribed in § 294.15 of this chapter. Other operators may be required by contract or regulation to conform to the accounting system prescribed by this part.

(c) *Other requirements.* The books, records and accounts referred to in this section shall be retained in accordance with the provisions of § 380.24 of this chapter.

(d) *Transitional rule.* The Uniform System of Accounts for Maritime Carriers prescribed herein shall be adopted by affected operators at the start of their Fiscal Year beginning on or after January 1, 1975. During the operator's fiscal year beginning on or after January 1, 1974, the operator may employ presently existing accounts and merely convert its account numbers to conform to this revision. Thereafter, accounts must reflect completely the requirements of this Part, with the exception of the military expense accounts 764, 766 and 768, until the Maritime Administration shall require the use of these accounts and shall give notice of such requirement in the FEDERAL REGISTER. This requirement will not take effect until the Federal Maritime Commission adopts this Uniform

V 39 91 MAY 9 74 XUM

System of Accounts for Maritime Carriers for all operators bidding for Military Sealift Command cargos.

General Instructions

(A) Definitions.

(1) "Additions" means structures, facilities, or equipment added to those in service and not replacing property or equipment previously in service.

(2) "Affiliated companies" or "affiliates" means companies or persons that directly, or indirectly through one or more intermediaries, control, or are controlled by, or are under common control with, the accounting carrier. Where reference is made to control (in referring to a relationship between any person or persons and other person or persons), such reference shall be construed to include actual as well as legal control, whether maintained or exercised through or by reason of the method of or circumstances surrounding organization or operation, through or by common directors, officers, or stockholders, a voting trust or trusts, a holding or investment company or companies, or through or by any other direct or indirect means; and to include the power to exercise control.

(3) "Barge" means a cargo carriage technology type known as a lighter, used in the operation of LASH, SEABEE or similar operation to hold bulk, break bulk, and containerized cargo, and which may be stowed in holds or on deck, and which has the capability of floating on water and being towed from one location to another.

(4) "Break-bulk" means a cargo carriage technology type referring to cargo which is unitized by bagging, drumming, palletizing, or some other similar method, and is transported in holds of vessels without benefit of containers or barges.

(5) "Bulk" means a cargo carriage technology type referring to cargo which is not palletized, bagged, drummed, or otherwise unitized, and is transported in holds of vessels without benefit of containers or barges. Bulk cargo is considered barge cargo when it is placed in barges.

(6) "Cargo carriage technology type (CCTV)" means the classification of cargo for accounting purposes by its mode of carriage, including:

(i) Barge,

(ii) Break-bulk,

(iii) Bulk,

(iv) Container, and

(v) Vehicle.

(7) "Container" means a cargo carriage technology type referring to cargo carrying receptacle, either refrigerated, dry, or liquid, open top, flat rack, or of other configuration, which may be stowed in vessels or on deck, but which is not used as a floating vehicle which may be towed from one location to another.

(8) "Current assets" means cash other than cash held in special funds, as well as those assets that are readily convertible into cash, held for current operation, and other amounts accruing to the carrier and subject to settlement within one year from date of the balance sheet.

(9) "Current liabilities" means those obligations the amounts of which are definitely determined or can be closely estimated and which are either matured at the date of the balance sheet or become due upon demand or within one year from the date of the balance sheet.

(10) "Debt expense" means all expense in connection with the issuance and sale of evidences of long-term debt, such as fees for drafting mortgages and trust deeds; fees and taxes for issuing or recording evidences of debt; cost of engraving and printing bonds, certificates of indebtedness, and other evidences of debt; fees paid trustees; specific cost of obtaining governmental authority; fees for legal services; fees and commissions paid underwriters, brokers, and salesmen for marketing evidences of debt; fees and expenses of listing on exchanges; and other like costs.

(11) "Discount", as applied to securities issued or assumed by the carrier, means the excess of the par or face value of the securities, over the cash value of the consideration received from the sale, plus interest or dividends accrued to the date of the sale.

(12) "Nonshipping property" means property neither used in nor held for use by the carrier in the conduct of its shipping operation.

(13) "Port expense" means an expense incurred as a direct result of the movement of cargo to and from ships and the expenses incurred in the docking and undocking of ships.

(14) "Terminal expense" means all expenses related to maintaining terminals for handling breakbulk, containers, vehicles and barges and the costs of tug, other barge operations and other floating equipment.

(15) "Premiums", as applied to securities issued or assumed by the carrier, means the excess of the cash value of the consideration received at their sale over the sum of their par or face value plus interest or dividends accrued to the date of sale.

(16) "Vehicle" means a cargo carriage technology type referring to cargo carrying receptacles or containers only when mounted on wheeled chassis which can be towed as a unit.

(17) "Shipping property" means property which is used or held for use by the carrier in the conduct of its shipping operation.

(18) "Vessel expense" means an expense incurred as a direct result of owning and operating vessels in the carriage of cargo or passengers in domestic or foreign trade, whether the vessel is in port or at sea.

(B) Records.

(1) The carrier's accounting records shall be kept in sufficient detail to show fully the facts pertaining to all entries in its accounts.

(2) Where the general ledger book entries do not contain complete information they shall be supported by other detailed records, and cross-referenced for ready identification.

(3) All records shall be filed and readily accessible for examination.

(4) All accounts reported shall conform in number and title to those prescribed in this part.

(5) Accounts included in this system may be subdivided if such subaccounts do not impair the integrity of the accounts or records prescribed in this part.

(6) Transactions shall be recorded currently so that whenever possible all transactions applicable to each month are identifiable to that month.

(C) Accrued items.

(1) When it is known that a transaction has occurred but the amount involved and its effect upon the accounts cannot be determined with absolute accuracy, the amount thereof shall be estimated and included in the appropriate revenue, expense and balance sheet accounts. Any such estimate shall be adjusted as soon after the actual amount is determined as is practicable.

(2) Accruals shall not be recorded for purely speculative items, but shall be limited to reasonable estimates based on reliable information of transactions that have been consummated.

(D) Submission of questions.

To promote and maintain uniformity of accounting, carriers shall submit all questions involving an interpretation of the accounting regulations for consideration and decision to the agency having jurisdiction over the carrier's accounts.

(E) Voyage accounts.

(1) The carrier shall keep its records in a manner that will report with respect to operating revenue, operating expense, and other accounts affected, the revenues accrued and the expenses incurred for each terminated voyage of its vessels operated.

(2) The revenues and expenses applicable to unterminated voyages at the end of an accounting period shall be transferred to account 500, "Deferred revenues—unterminated voyages" and account 200, "Deferred expenses—unterminated voyages."

(F) Balance sheet accounts.

The balance sheet accounts are intended to disclose the financial condition of the carrier as of a given date by showing the assets, liabilities, and owner's equity.

(G) Conversion of securities.

Journal entries which record the retirement of capital stock or funded debt securities by issuing in exchange the carrier's capital stock or funded debt shall be submitted to the Interstate Commerce Commission for approval before being recorded upon the books by carriers reporting to that Commission.

(H) Contingent assets and liabilities.

Contingent assets and liabilities shall not be recorded in the accounts; however, appropriate footnote disclosures shall be included as an integral part of the financial statements in order to present fairly the financial position of the carrier as of the balance sheet date. Disclosure of lease commitments by lessee shall include information required by opinion number 31 of the Accounting Principles Board with respect to total rental expense, minimum rental commitments, present value of commitments and additional disclosures. Those companies subject to the regulations of the Security and Exchange Commission (SEC) shall disclose the information required by (SEC) Regulation S–X.

(I) Revenue accounts.

(1) The revenue accounts are designed to show the amount of revenue which the carrier becomes entitled to receive from furnishing of transportation service, including services incidental thereto.

(2) The accounting for operating revenues shall be coincident with the transactions which create them. For the purpose of meeting this requirement, the carrier shall account for revenues upon an accrual basis.

(J) Expense accounts.

(1) The expense accounts are designed to show expenses of the carrier in furnishing transportation service including services incidental thereto, such as the expenses of utilization (repairs and depreciation) of the property used in such service.

(2) The accounting for expenses shall be coincident with the transactions which create them; expenses and revenues shall be matched. For the purpose of meeting this requirement, the carrier shall account for expenses on an accrual basis.

(K) Extraordinary and prior period items.

(1) *In general*—(i) *Extraordinary items.* All items of revenue and expense recognized during the year are includable in ordinary income unless the evidence clearly supports its classification as an extraordinary item as defined in authoritative accounting pronouncements. Such items are rare and should be classified separately in the income statement if material in relation to income before extraordinary items, or if material by other appropriate criteria. Circumstances which give rise to extraordinary items are those such as an act of God, an expropriation or a prohibition under a newly enacted law or regulation, provided such events clearly meet the criteria of being both unusual in nature and infrequent in occurrence. The characteristics of the particular business environment must be taken into account in determining extraordinary items. Items so excludable from ordinary income are to be entered, less applicable income taxes, directly in the account provided for extraordinary items upon approval or direction of the Maritime Administration.

(ii) *Prior period items.* Adjustments related to prior periods—and thus excluded in the determination of net income for the current period—are limited to those material adjustments which (A) can be specifically identified with and directly related to the business activities of particular prior periods, (B) are not attributable to economic events occurring subsequent to the date of the financial statements for the prior period, (C) depend primarily on determination by persons other than management, and (D) were not susceptable of reasonable estimation prior to such determination.

(iii) *Material items.* Material items are those which, unless excluded from ordinary income, would distort the accounts and impair the significance of ordinary income for the year. In determining materiality, the effects of related transactions arising from a single specific and identifiable event or plan of action that meet the criteria for an extraordinary item should be aggregated; otherwise an extraordinary item should be considered individually. As a general standard, an item to qualify for inclusion as an extraordinary or prior period item, shall exceed 1 percent of total waterline operating revenues and 10 percent of ordinary income for the year.

(2) Ordinary delayed items and adjustments arising during the current year which are applicable to voyages terminated in prior years or which are otherwise related to transactions of prior years shall be included as current income and expense but recorded against the vessel and voyage to which they relate. Ordinary delayed items exclude items of the character described in subparagraph (1) of this paragraph.

282.3 Balance Sheet Accounts.

(A) Asset Accounts

ACCOUNT

100 Cash.

(a) This account shall include the amount of current funds available for use on demand in the hands of financial officers or deposited in banks or trust companies including cash in transit for which agents or others have received credit. Cash appropriated for replacement, debt retirements, funded reserves, etc., and cash on deposit to guarantee performance of agreements shall be carried in appropriate accounts numbered 115 and 301 to 312, inclusive. If the withdrawal of any portion of the cash included in this account is restricted for any purpose whatsoever, the balance sheet must carry an appropriate notation to that effect.

(b) This account shall be subdivided into the following sub-accounts: 101, 106, 111, and 114.

101 Cash on deposit—domestic.

This account shall include all cash on deposit in banks in the United States and available for general purposes.

106 Cash on deposit—foreign.

This account shall include all cash on deposit in foreign banks and available for general purposes.

111 Imprest and petty cash funds.

This account shall include cash funds maintained at fixed amounts to be used in making change or in the nature of revolving funds for minor disbursements requiring immediate payment, the funds being regularly reimbursed from the general cash. Subsidiary accounts shall be maintained by agents or by type of fund.

114 Cash on hand and in transit.

This account shall include cash in the hands of financial officers; cash transfers between banks; and cash in transit from agents, branch houses, and employees.

115 Special cash deposits.

(a) This account shall include the amounts of cash on special deposit (other than in special funds or deposits as elsewhere provided) for the payment of dividends, interest, and other debts of a current nature, when such payments are due one year or less from date of deposit; also amounts of cash deposited to insure the performance of contracts to be performed within one year from date of deposit; and other cash deposits of a special nature not provided for elsewhere.

(b) This account shall also include cash realized from the sale of the carrier's securities and deposited with trustees to be held until disbursed for the purpose for which the securities were sold: Provided, that cash held for such purposes, including cash held for redemption of securities, shall be included in the appropriate special funds unless the liability for the disbursement is included under current liabilities.

(c) Cash on deposit in special bank accounts where the funds are available for current requirements shall be included in account 100, "Cash."

120 Marketable securities.

(a) This account shall include the cost of government securities and temporary investments in other readily marketable securities which are available for general purposes of the business. Securities issued or assumed by the carrier or by a related company shall not be included in this account.

(b) Subsidiary accounts shall be maintained as determined necessary.

129 Discounts and premiums on marketable securities.

This account may be charged with accumulation of any discount and may be credited with amortization of any premium on marketable securities, at the time of accrual or collection of interest thereon, with contra entry in Account 675, "Interest income" if it is the practice of the carrier to adjust that account to a yield basis. When the securities are disposed of, any balance applicable thereto in this account shall be transferred to the account in which the cost of such securities is recorded.

130 Notes receivable.

(a) This account shall include the amount of all collectible obligations in the form of short-term notes receivable,

V 39 91 MAY 9 74 XUM

or other similar evidences (except interest coupons) of money receivable on demand or within one year from date of issue, except notes receivable from related companies subject to current settlement, which shall be included in account 140, "Notes receivable—affiliates."

(b) This account shall be divided into the following sub-accounts:

131 . Miscellaneous notes receivable
135 Subscriptions to capital stock

140 Notes receivable—affiliates.

(a) This account shall include the amount of all obligations in the form of short term notes receivable from related companies which are subject to current settlement.

(b) Items which are not subject to current settlement shall be included in account 319, "non-current notes receivable—affiliated companies."

(c) Subsidiary accounts shall be maintained by companies and shall show all essential detail.

150 Accounts receivable.

This account shall be divided into the following subaccounts: 151–153, 155, 160–162, 165 and 168.

151 Traffic accounts receivable—U.S. Government.

(a) This account shall include accounts receivable from U.S. Government agencies arising incident to the carriage of passengers, excess baggage, freight, and mail.

(b) Subsidiary accounts shall be maintained by individual agencies and by vessels and voyages.

152 Traffic accounts receivable—other.

(a) This account shall include accounts receivable from shippers, consignees, connecting carriers, and others (excluding related companies) arising incident to the carriage of passengers, excess baggage, freight and mail.

(b) Subsidiary accounts shall be maintained by individual debtors and by vessels and voyages.

(c) Receivables from any agent with whom assignments are made to disburse vessels from revenue collections shall not be included in this account, but shall be included in account 010, "Agents and branch houses."

153 Accounts receivable—affiliates.

(a) This account shall include the amounts receivable from related companies which are subject to current settlement, such as balances in open accounts for services rendered, materials furnished, traffic accounts, rents for use of property and similar items; also interest, dividends, loans, notes and drafts for which related companies are liable.

(b) Items which are not subject to current settlement shall be included in account 320, "Non-current accounts receivables—affiliated companies."

(c) Subsidary accounts shall be maintained by companies and shall show all essential details.

155 Claims receivable.

(a) This account shall include claims transferred from account 361, "Claims pending" and other adjusted claims collectible within one year.

(b) Subsidiary accounts shall be maintained in the names of the insurance underwriters, connecting carriers, or other entities with whom the claim has been filed and detailed as to the identity of the claims outstanding within each subsidiary account.

160 Accounts receivable—Maritime Administration—operating-differential subsidy.

This account shall include operating-differential subsidy accruals, expected to be collected within one year.

161 Accounts receivable—Maritime Administration—construction-differential subsidy.

This account shall include construction-differential subsidy accruals.

162 Accounts receivable—Maritime Administration—other.

This account shall include all other current receivables that may arise from transactions between the carrier and the Maritime Administration.

165 Accounts receivable—miscellaneous.

(a) This account shall include all accounts receivable from other than related companies for which no other account is specifically provided, including all amounts receivable from officers, employees and others, which are collectible in the ordinary course of business within one year.

(b) Subsidiary accounts shall be maintained by debtors.

168 Accrued accounts receivable.

(a) This account shall be used for periodic accruals of unmatured receivables such as interest, rents, dividends and charter-hires, provided; the collection thereof is reasonably assured by past experience, anticipated provisions, or otherwise.

(b) This account shall not be charged with accrued interest on securities on deposit in account 301 "Capital reserve fund" and account 302 "Capital construction fund," with accrued receivables from related companies, which are chargeable to account 153, "Accounts receivable—affiliates," or with dividends or other returns on securities issued by the company.

169 Estimated allowances for doubtful notes and accounts receivable.

This account shall be credited at the close of each accounting period with the amount charged to account 965 "Doubtful notes and accounts receivable" to provide for estimated uncollectible notes and accounts. For balance sheet purposes, the balance in this account shall be segregated between current and non-current items.

170 Inventories—shoreside.

(a) This account shall include the cost of all unissued and unapplied materials, articles in process of manufacture by the carrier, fuel, tools, stationery, and other stores and supplies, but excluding fuel, stores, and supplies on board vessels, and spare parts includable in account 362 "Spare parts on which construction-differential subsidy has been paid" and account 363 "Spare parts—other."

(b) The costs chargeable to this account are the actual costs of the material and supplies at point of free delivery, plus custom duties, sales and other taxes, insurance, inspection, special tests, loading and unloading, and transportation charges paid from the free point of delivery to the carrier's line. No charge shall be made to this account for the cost of transporting material and supplies when performed by the carrier.

(c) An annual inventory of material and supplies shall be taken, except in instances where inventories are waived by the Interstate Commerce Commission or the Maritime Administration, and the necessary adjustments made to bring this account into harmony with the actual inventory balance. In effecting such adjustments, differences for important classes of material shall be equitably assigned among the accounts to which such classes are ordinarily chargeable.

(d) This account shall be divided into the following sub-accounts: 171–175.

171 Vessels stores, supplies, and equipment ashore.

(a) This account shall include the cost of all stores, supplies, and equipment held for delivery to vessels including quantity purchases warehoused and delivered to vessels as required.

(b) Subsidiary accounts shall be so maintained as to show location of inventories.

172 Other shipping inventories.

(a) This account shall include the cost of all stores, supplies, and equipment held for use in the conduct of the shipping business, including terminal, cargo handling, tug and lighters, and other incidental shipping operations, for which no other account is specifically provided.

(b) Subsidiary accounts shall be maintained to show location of inventories.

173 Non-shipping inventories for sale.

This account shall include inventories of merchandise for sale by firms engaged in non-shipping enterprises and shall be maintained so as to show separately the major classes of inventory such as raw materials, work in process, and finished goods.

174 Non-shipping inventories for consumption.

This account shall include the cost of all stores, supplies and equipment, held for use in the conduct of non-shipping enterprises, other than merchandise for sale.

175 Miscellaneous inventories.

This account shall include the cost of all stores, supplies and equipment acquired for use in the conduct of the business which cannot be allocated as between shipping and non-shipping enterprises.

190 Other current assets.

This account shall be divided into the following sub-accounts: 191–193 and 199.

191 Prepaid current insurance.

This account shall include the unexpired amount of insurance premiums paid, or recorded as a liability in advance of payment, but only to the extent that such premiums apply to the period within one year of the date of the balance sheet and are properly chargeable within that period to appropriate 700, 800 or 900 series of accounts. This account shall be subdivided to show separately prepayments on the several classes of insurance.

192 Advances to officers and employees for expenses.

(a) This account shall include all amounts advanced to officers and employees for travel, entertainment, and similar expenses, from which such expenses are to be paid and accounted for. This account shall not include imprest and petty cash funds in fixed amounts held by employees and branch offices for the purpose of making minor expenditures.

(b) Subsidiary accounts shall be maintained by officers and employees, agents or branch offices.

193 Other prepaid current expenses.

This account shall include the amount of prepaid current expenses, such as interest, taxes, rentals, advertising, charter hire, and similar expense not otherwise specifically provided for, but only to the extent that such prepayments apply to the period within one year from the date of the balance sheet and are properly chargeable within that period to appropriate 700, 800 or 900 series of accounts. Minor items may be charged directly to the appropriate expense accounts.

199 All other current assets.

This account shall include the amount of assets of a current nature not includable in any of the foregoing current asset accounts. Subsidiary accounts shall be maintained so as to show separately each class of other current assets.

200 Deferred expenses—unterminated voyages.

When the accounts are maintained on a terminated voyage basis, the expense of voyages in progress at the end of an accounting period shall be transferred to this account from the related voyage expense accounts. Detail coding shall be maintained by individual vessel and related voyage.

300 Special funds and deposits.

This account shall be divided into the following sub-accounts: 301–310, and 312.

301 Capital reserve fund.

This account shall be subdivided as follows:

(a) *301–1 Cash and securities—non-trust.* This account shall be charged with cash and the value of securities approved for deposit in this fund, and shall be credited with withdrawals therefrom in accordance with the provisions of section 607(b) of the Merchant Marine Act, 1936, as amended, in effect prior to the enactment of Pub. L. 91–4691 (34 Stat. 1018) and under such rules and regulations as the Maritime Administration may issue from time to time. Subsidiary accounts are to be subdivided as to depositories or trustees, as the case may be, and further subdivided to show the amount of (1) cash and (2) marketable securities, and (3) Current balances of mortgages from the sale of vessels.

(b) *301–2 Discounts and premiums, non-trust.* This account may be charged with accumulation of any discount and may be credited with amortization of any premium on securities, at the time of accrual or collection of interest thereon, with contra entry in account 675, "Interest income," if it is the practice of the carrier to adjust that account to a yield basis. When such securities are disposed of, any balance applicable thereto in this account shall be transferred to account 301–1.

(c) *301–3 Common stock trust.* This account shall be charged with the amount of the non-trust portion of the capital reserve fund transferred to the capital reserve fund—common stock trust, the acquisition cost of common stock in which the trust is invested, the income, capital gains, and other principal, and shall be credited with withdrawals therefrom and capital losses in accordance with the provisions of section 607(d) of the Merchant Marine Act, 1936, as amended, in effect prior to the enactment of Pub. L. 91–469 (84 Stat. 1018) and under such rules and regulations as the Maritime Administration may issue. Subsidiary accounts of the capital reserve fund—common stock trust are to be maintained to record cash, common stocks, and other principal.

302 Capital construction fund.

This account shall be subdivided as follows:

(a) *302–1 Cash and securities.* This account shall be charged with cash and the value of securities deposited in this fund as determined in accordance with 26 CFR 3.2(g) and shall be credited with withdrawals therefrom in accordance with the provisions of section 607 of the Merchant Marine Act, 1936, as amended, and under such rules and regulations as the Maritime Administration may issue either independently or together with the Internal Revenue Service. Subsidiary accounts are to be subdivided as to depositories or trustees, as the case may be, and further subdivided to show the amount of (1) cash, (2) marketable securities and (3) current balances of mortgages from the sale of vessels, and further subdivided in accordance with sub-paragraph 607(e)(1) of the Act—namely, (A) capital account, (B) capital gain account, (C) ordinary income account.

(b) *302–2 Discounts and premiums.* This account may be charged with accumulation of any discount and may be credited with amortization of any premium on securities, at the time of accrual or collection of interest thereon, with contra entry in account 675, "Interest income," if it is the practice of the carrier of the adjust that account to a yield basis. When such securities are disposed of, any balance applicable thereto in this account shall be transferred to account 302–1.

303 Construction reserve fund.

(a) This account shall be charged with cash and the cost of approved securities deposited in such fund, and shall be credited with withdrawals therefrom in accordance with the provisions of section 511 of the Merchant Marine Act, 1936, as amended, and section 112(b) of the Internal Revenue Code, and other Internal Revenue Acts. It shall also include accretions on investments in such fund when retained therein.

(b) Subsidiary accounts are to be maintained as described in account 301.

304 Interest accruals for deposit in statutory funds.

This account shall include the periodic (not less frequent than annual) accruals of interest on cash and securities on deposit in account 301 "Capital reserve fund", account 302, "Capital construction fund" and account 303, "Construction reserve fund" with corresponding credit to account 675, "Interest income."

305 Insurance funds.

(a) This account shall include cash, marketable securities, and other quick assets placed on deposit or in the hands of trustees to guarantee the satisfaction of obligations for losses in instances where the carrier is a self-insurer in whole or in part.

(b) Subsidiary accounts shall be maintained by depositories or trustees, as the case may be, and further subdivided as to (1) cash, (2) marketable securities and (3) other quick assets.

306 Debt retirement funds.

(a) This account shall include cash, marketable securities, and other quick assets placed on deposit or in the hands of trustees as a sinking fund to meet obligations maturing in the future, or to carry out such operations as the retirement of preferred stock or the purchase of serial bonds.

(b) Subsidiary accounts shall be maintained by depositories or trustees, further subdivided to show cash or marketable securities, other quick assets and purposes of the fund.

V 3991 MAY 9 74 XUM

307 Escrow Funds.

This account shall be charged with the amounts required to be deposited in the Escrow fund and credited with disbursements therefrom, in connection with the insurance or guarantee of obligations financed by sale of U.S. Government insured or guaranteed obligations, pursuant to the provisions of section 1111 of the Merchant Marine Act, 1936, as amended, the provisions of contracts or agreements entered into and regulations published by the Assistant Secretary of Commerce for Maritime Affairs. These funds shall be reported separately and maintained in accordance with such rules and regulations as the Assistant Secretary for Maritime Affairs may issue.

308 Construction funds.

This account shall be charged with the amounts required to be deposited therein, representing the difference between the principal of insured or guaranteed obligations and the principal amount required to be deposited in the escrow fund or such other amounts required by contracts or agreements, and shall be credited with authorized disbursements therefrom. These funds shall be reported separately and maintained in accordance with such rules and regulations as the Assistant Secretary of Commerce for Maritime Affairs may issue.

309 Other special funds.

(a) This account shall include cash, marketable securities, and other quick assets appropriated for replacement of unsubsidized vessels (except instances where account 303 "Construction reserve fund" is applicable), to fund reserves for pensions and any other special funds for which no specific account is provided.

(b) Subsidiary accounts shall be maintained for each class of fund by depositories or trustees, and further subdivided to show (1) cash, (2) marketable securities and (3) other quick assets.

310 Restricted funds.

This account shall be established at the time of the first deposit required therein, and shall be charged with deposits pursuant to the provisions of contracts or agreements. This account shall be credited with authorized withdrawals therefrom. These funds shall be reported separately and maintained in accordance with such rules and regulations as the Assistant Secretary of Commerce for Maritime Affairs may issue.

312 Special and guaranty deposits.

(a) This account shall include cash and marketable securities deposited to guarantee the performance of conference and similar agreements; also deposits in lieu of mortgaged property sold, and other trust deposits, to be held until equivalent property is acquired or pending other disposition. This account shall also include deposits on oil drums, ammonia cylinders and similar equipment.

(b) Subsidiary accounts shall be maintained by depositories.

315 Investments.

This account shall be divided into the following sub-accounts: 316, 319, 320, 325, and 328.

316 Securities of related companies.

This account shall include a company's investments in securities and shall be accounted for: (a) On the equity accounting basis in accordance with opinion number 18 of the Accounting Principles Board when the security held allow significant influence over the investee; (b) on the cost accounting basis when significant influence is not able to be exercised.

319 Non-current notes receivable—affiliated companies.

(a) This account shall include the amounts of all obligations in the form of notes receivable from affiliated companies which are not subject to current settlement; (b) Subsidiary accounts shall be maintained by companies and show all essential details.

320 Non-current accounts receivable—affiliated companies.

(a) This account shall include receivables from affiliated companies for other than services rendered, supplies furnished, and other transactions customarily subject to current settlement.

(b) Subsidiary accounts shall be maintained by companies and shall show all essential detail.

325 Cash value of life insurance policies.

This account shall include the cash surrender value of life insurance policies, under which the carrier is the beneficiary, less the amount of any loans which have been obtained on such policies and not repaid.

328 Other investments.

This account shall include investment advances to companies and individuals, and miscellaneous investments not provided for elsewhere.

330 Property and equipment.

(a) This account shall include the cost of acquisition or construction, including additions and betterments, of property and equipment owned by the carrier.

(b) This account shall be divided into the following subaccounts: 331, 332, 335—338, 341—359.

331 Floating equipment—vessels.

(a) This account shall include the cost of acquistion or construction and related capitalizable costs, including additions and betterments, of vessels and of appurtenances, furniture and fixtures necessary to equip them for service, including inspection, trial runs and tests. This account also includes those costs, if capitalizable for federal income tax determination directly incurred in placing the vessel into active service, limited to the direct vessel operating expense during the period from delivery of the vessel to arrival at the first loading berth.

(b) Capitalizable costs must be determined in accordance with applicable orders, rules and regulations prescribed or adopted by the Maritime Administration. Subsidiary accounts shall be maintained in such manner as to show by vessels the original cost to the carrier and cost of additions and betterments.

332 Accumulated depreciation—vessels.

(a) This account shall be credited with all depreciation on vessels charged to accounts 742 "Depreciation—vessels" and 842 "Depreciation—idle vessels."

(b) Credit to this account applicable to subsidized vessels shall be computed on an estimated useful life of twenty-five years, except in instances where some other basis is specifically authorized by the Maritime Administration, with such allowances for residual values as approved by that Administration, and in accordance with applicable orders, rules and regulations prescribed or adopted by the Maritime Administration. Subsidiary accounts shall be maintained by individual vessel.

335 Floating equipment—barges.

(a) This account shall include the cost of acquisition or construction and related capitalizable costs, including additions and betterments of barges carried aboard vessels (e.g., LASH, SEABEE or other) and of appurtenances and fixtures necessary to equip them for service, including inspection, trial runs and tests.

(b) Subsidiary accounts shall be maintained by the various types of barges.

336 Accumulated depreciation—barges.

(a) This account shall be credited with all depreciation charged to account 885 "Depreciation—barges."

(b) Subsidiary accounts shall be maintained by the various types of barges.

337 Other floating equipment.

(a) This account shall include the cost of construction or acquisition, including additions and betterments, of other floating equipment, such as tugs, barges (other than barges carried aboard vessels which are included in account 335 "Floating equipment—barges"), scows, launches, lighters, floating cranes, etc., and of appurtenances, furniture, and fixtures necessary to equip for service including inspection, trial runs and tests.

(b) Subsidiary accounts shall be maintained in such manner as to show the foregoing information by the various types of other floating equipment.

338 Accumulated depreciation—other floating equipment.

This account shall be credited with all depreciation charged to account 864 "Depreciation—other floating equipment." Subsidiary accounts shall be maintained in the same manner as the corresponding accounts supporting account 337, "Other floating equipment."

341 Containers.

(a) This account shall include the cost of construction or acquisition of all types of containers except refrigerated containers used for the shipping of cargo.

(b) Subsidiary accounts shall be maintained by the various types of containers within this category.

342 Accumulated depreciation—containers.

(a) This account shall be credited with all depreciation on containers which is charged to account 881 "Depreciation—containers."

(b) Subsidiary accounts shall be maintained by the various types of containers within this category.

343 Refrigerated containers.

(a) This account shall include the cost of construction or acquisition, including additions and betterments, of all types of refrigerated containers used for the shipping of cargo.

(b) Subsidiary accounts shall be maintained by the various types of containers within this category.

344 Accumulated depreciation—refrigerated containers.

(a) This account shall be credited with all depreciation on refrigerated containers which is charged to account 882 "Depreciation—refrigerated containers."

(b) Subsidiary accounts shall be maintained by the various types of containers within this category.

345 Container related equipment.

This account shall include the cost of construction or acquisition, including additions and betterments of all types of container related equipment, including container cranes, yard container movement equipment, generator sets and other auxiliary equipment and similar equipment.

346 Accumulated depreciation—container related equipment.

This account shall be credited with all depreciation on container related equipment which is charged to account 886 "Depreciation—container related equipment."

347 Chassis and trailer equipment.

(a) This account shall include the cost of construction or acquisition, including additions and betterments, of chassis equipment used in the local drayage and inland movement of cargo and cargo carrying equipment.

(b) Subsidiary accounts shall be maintained by the various types of chassis and trailer equipment within this category.

348 Accumulated depreciation—chassis and trailer equipment.

(a) This account shall be credited with all depreciation on chassis and trailer equipment which is charged to account 883, "Depreciation—chassis and trailer equipment."

(b) Subsidiary accounts shall be maintained by the various types of chassis and trailer equipment.

349 Terminal property and equipment.

(a) This account shall include the cost of construction or acquisition, including additions and betterments, of terminal, land, buildings, stevedoring and other cargo handling gear, repair yards, shore cranes, appurtenances, furniture and fixtures; and other terminal gear and equipment.

(b) Subsidiary accounts shall be subdivided between the various types of property and equipment, and shall be maintained in such manner as to show port location, original cost, and cost of additions and betterments.

350 Accumulated depreciation—terminal property and equipment.

(a) This account shall be credited with all depreciation on terminal property and equipment which is charged to account 859 "Depreciation—terminal property and equipment."

(b) Subsidiary accounts shall be maintained in the same manner as the corresponding accounts supporting account 349, "Terminal property and equipment."

351 Other shipping property and equipment.

(a) This account shall include the cost of construction or acquisition, including additions and betterments, of land and buildings, appurtenances, furniture and fixtures, transportation equipment other than barges, containers and chassis and trailer and any other property and equipment used exclusively in shipping and auxiliary operations which are not properly chargeable to accounts 331, 335, 337, 341, 343, 345, 347, and 349.

(b) Subsidiary accounts shall be subdivided between the various types of property and equipment and maintained in such manner as to show location, original cost and cost of additions and betterments.

352 Accumulated depreciation—other shipping property and equipment.

(a) This account shall be credited with all depreciation on other shipping property and equipment (as described in account 351) which is charged to account 970, "Depreciation—other shipping property and equipment."

(b) Subsidiary accounts shall be maintained in the same manner as the corresponding accounts supporting account 351, "Other shipping property and equipment."

353 Non-shipping property and equipment.

(a) In instances where companies are engaged in non-shipping enterprises, cost of all property and equipment which can be directly assigned to such non-shipping enterprises shall be included in this account, including cost of additions, betterments, fixtures, furniture and appurtenances.

(b) Subsidiary accounts shall be subdivided between the various types of non-shipping property and equipment, and maintained in such manner as to show location, original cost, and cost of additions and betterments.

354 Accumulated depreciation—non-shipping property and equipment.

(a) This account shall be credited with all depreciation on non-shipping property and equipment which is charged to account 971 "Depreciation—non-shipping property and equipment."

(b) Subsidiary accounts shall be maintained in the same manner as the corresponding accounts supporting account 353, "Non-shipping property and equipment."

355 Office leaseholds and leasehold improvements.

(a) This account shall include the cost of acquiring long-term leases of office facilities and the cost of alternations thereto and fixtures installed in lease property.

(b) Subsidiary accounts shall be subdivided between the various types of property and equipment and maintained in such manner as to show location, original cost, and cost of additions and betterments.

356 Accumulated amortization—office leaseholds and leasehold improvements.

This account shall be credited with all amortization on office leaseholds and leasehold improvements which is charged to account 975 "Amortization—office leaseholds and leasehold improvements."

357 Terminal leaseholds and leasehold improvements.

(a) This account shall include the cost of acquiring long-term leases of terminals, the cost of alterations thereto and the cost of fixtures installed in leased terminal property.

(b) Subsidiary accounts shall be maintained by individual terminal.

358 Accumulated amortization—terminal leaseholds and leasehold improvements.

(a) This account shall be credited with all amortization on terminal leasehold and leasehold improvements which is charged to account 860 "Amortization—terminal leasehold and leasehold improvements."

(b) Subsidiary accounts shall be maintained in the same manner as the corresponding accounts supporting account 357, "Terminal leasehold and leasehold improvements."

359 Construction work in progress.

(a) This account shall be charged with all payments incident to the costs on vessels or other transportation property in process of construction which are capitalized in accordance with generally accepted accounting procedures.

(b) Subsidiary accounts shall be subdivided as between the various kinds of construction, and maintained in such manner as to show type of construction and location. When the construction is completed, the cost thereof shall be

V 39 91 MAY 9 74 XUM

credited to the account and charged to the appropriate property accounts.

360 Other assets.

This account shall be divided into the following subaccounts: 361–364, 367, 368, 370, and 374.

361 Claims pending.

(a) This account shall include any claims in litigation, and insurance claims in process of compilation or adjustment. After adjudication of claims in litigation, or adjustment of insurance claims, this account shall be credited and a charge made to account 155 "Claims receivable." Deductible average insurance losses (if policies provide deductibles) should at the same time be transferred to account 570 "Estimated allowances for insurance."

(b) Subsidiary accounts shall be subdivided as between hull underwriters, protection and indemnity underwriters, general average claims connecting carriers, and such further classes as may be necessary. Each group of subsidiary accounts shall be maintained by vessels and voyages supported by sufficient detail to permit ready identification and analysis of each claim.

362 Spare parts on which construction-differential subsidy has been paid.

This account shall include the acquisition cost (or other applicable basis) of shore side spare parts and equipment upon which construction-differential subsidy has been paid, such as propellers and tail shafts held for future installation on vessels of the carrier.

363 Spare parts—other.

This account shall include the acquisition cost (or other applicable acquisition basis) of shore side spare parts and equipment for which construction-differential subsidy has not been paid, such as propellers, propeller blades, tail shafts, pumps, rudders, hoisting engines, generators, rotors, anchors, etc. held for future installation on vessels of the carrier, the individual minimum gross book value of which is not less than $1,000.

364 Notes and accounts receivable from officers and employees.

This account shall include all amounts due from officers, directors, and employees other than (a) unpaid subscriptions to capital stock and (b) amounts collectible in the ordinary course of business within one year. Records supporting entries to this account and subsidiary accounts shall be maintained as to show separately such major classes as officers' personal accounts, employees' salary advances, and amounts due for such items as group insurance and retirement annuity deposits. The records referred to in this section shall be retained in accordance with the provisions of § 380.24 of this chapter.

367 Deferred operating-differential subsidy receivable.

This account shall include that part (if any) of accrued operating-differential subsidy receivable, the payment of which is withheld by the Maritime Administration pursuant to Pub. L. 862, 80th Congress, or any subsequent legislation having the same or substantially similar force and effect.

368 Other non-current notes and accounts receivable.

(a) This account shall include all non-current receivables from other than officers, employees, or related companies, which, by agreement, are not collectible within one year. It shall include the non-current portion of Operating-Differential Subsidy due from the Maritime Administration.

(b) Subsidiary accounts shall be maintained by individual debtors.

370 Maritime Administration allowance for obsolete vessels.

This account shall include the gross amounts allowed by the Maritime Administration for obsolete vessels traded in, except where the obsolete vessel is retained under a Use Agreement, in which case this account is charged with the net trade-in allowance. Credit this account and charge account 359 "Construction work in progress" with the amount of progress payments on new construction made by the Maritime Administration for the account of the purchaser (operator).

374 Miscellaneous other assets.

This account shall include the estimated value of salvage recoverable from property retired when the recovery of the salvage is deferred for any reason; funds on deposit with closed banks; and all other deferred items not covered by other deferred asset accounts.

375 Deferred charges and prepaid expenses.

This account shall be divided into the following sub-accounts: 376, 384, 385, and 389.

376 Prepaid long-term insurance.

This account shall include the cost of insurance premiums prepaid or recorded as a liability in advance of payment, but only to the extent that such premiums apply to a period more than one year following the date of the balance sheet. The proportions of the same premium payments properly chargeable to expenses prior to such period are provided for in account 191 "Prepaid current insurance." This account shall be subdivided to show separately prepayments on the several classes of insurance.

384 Debt discount and expense.

(a) This account shall include all discount and expense for all classes of funded debt. The debt and expense shall be amortized periodically over the respective lives of the securities by charge to account 976 "Amortization—debt discount and expense."

(b) When an issue of funded debt, or any part thereof, is refunded and at the date of refunding there is a balance of unamortized discount and expense relating to such issue, such balance, together with any premium paid in retiring such issue, shall be charged to account 990 "Miscellaneous expense" or to account 995 "Extraordinary items," as may be appropriate, in accordance with the text of these accounts.

385 Organization expenses.

This account shall include the unamortized balance of expenses incurred in the formation and development of the business. The balance of this account shall be amortized by annual charges to account 977 "Amortization—organization expense."

389 Deferred prepayments and other deferred charges.

This account shall include the amount of prepaid expenses such as interest, taxes, rentals, advertising, charter hire, and similar expense not otherwise specifically provided for in accounts 384, and 385, but only to the extent that such prepayments apply to a period more than one year following the date of the balance sheet. The proportions of the prepayments and other deferred charges in this account, properly chargeable to expenses prior to such period are provided for in account 193, "Other prepaid current expenses." Minor items and nominal payments covering such expenses may be charged directly to the appropriate expense accounts, even though they relate to periods in excess of one year.

390 Goodwill and other intangible assets.

This account shall be divided into the following sub-accounts: 391, 398 and 399.

391 Goodwill.

This account shall include only Goodwill actually purchased in taking over assets, trade name, etc., calculated to enhance future profits of the business.

398 Other intangible assets.

This account shall include the purchase price or costs of development of such intangible assets as patents, copyrights, operating rights, etc.

399 Accumulated amortization—other intangible assets.

This account shall be credited with all amortization on other intangible assets which is charged to account 979 "Miscellaneous amortization expense."

(B) Liability Accounts

400 Notes payable.

(a) This account shall include the face value of notes, drafts, and other evidences of indebtedness issued by the carrier (except interest coupons) which are payable on demand or within one year.

(b) This account shall be divided into the following subaccounts: 401, 410 and 414.

401 Bank loans.

Subsidiary accounts shall be subdivided by lender to show separately (a) amount secured and (b) amount unsecured.

410 Insurance notes.

This account shall include the face amount of notes issued by the company to cover deferred payments of insurance premiums. This account shall be maintained by creditor to show (a) notes secured and (b) notes unsecured.

414 Other short-term notes.

This account shall include notes payable within one year, for which no other account is specifically provided, but excluding notes issued to related companies. This account shall be maintained by creditor to show (a) notes secured and (b) notes unsecured.

415 Notes and accounts payable—affiliates.

(a) This account shall include notes and accounts payable to affiliated companies which are subject to settlement within one year, such as credit balances in open accounts for services rendered, materials furnished, traffic accounts, claims, rents and for interest, dividends, loans, notes, and drafts.

(b) No amount representing dividends payable shall be included in this account unless they have been declared.

(c) Items which are not subject to current settlement shall be included in account 541 "Non-current payables—affiliated companies."

(d) Subsidiary accounts shall be maintained by companies and shall show all essential detail.

420 Accounts payable.

This account shall be divided into the following sub-accounts: 421, 422, 428, 430, 431, 438, 439.

421 Accounts payable—trade.

This account shall include all liabilities currently due to trade creditors for services rendered and supplies furnished in the general conduct of the business.

422 Accounts payable—traffic.

This account shall include exchange orders and other amounts due connecting carriers, freight and passenger brokerage, amounts due for hotel reservations and sightseeing tours, custodian funds payable such as head taxes, freight and passenger manifest stamp taxes, consular fees; advance, prepaid beyond, and transshipping charges, and claims payable, but excluding amounts due related companies.

428 Accounts payable—officers and employees.

This account shall include amounts due to officers, directors, individual stockholders, and employees, which are payable within one year.

430 Accounts payable—Maritime Administration.

This account shall include all current accounts payable to the Maritime Administration, including accrued interest, that arise from transactions with that agency.

431 Pension and welfare funds payable.

This account shall include the liability of the carrier for the amount of assets (whether contributed by the carrier or by the employees) in the hands of the treasurer or of a trustee or manager as the administrator of employees' pension, savings, relief, hospital, or other association funds.

438 Dividends payable.

This account shall include the amount of dividends declared on actually outstanding capital stock, unpaid at the date of the balance sheet except dividend payable to related companies which shall be reflected in account 415 "Notes and accounts payable—affiliates."

439 Accounts payable—miscellaneous.

This account shall include all current accounts payable to other than related companies, including unclaimed wages, taxes withheld or collected from others for the account of taxing agencies, and other items for which no other account is specifically provided.

440 Accrued Liabilities.

This account shall be divided into the following subaccounts: 441–447 and 459.

441 Accrued voyage payrolls.

This account shall include the accruals of voyage wages payable.

442 Accrued payrolls—other.

This account shall include the accruals of all other wages payable.

443 Accrued liability for Federal income taxes.

This account shall include the accruals for federal income taxes payable.

444 Accrued liability for state and local taxes based upon income.

This account shall include the accruals for state and local income taxes payable based upon income.

445 Accrued liability for foreign taxes.

This account shall include the accruals for foreign taxes payable.

446 Accrued liability for payroll taxes.

This account shall include the accruals for the employer's portion of payroll taxes payable and amounts withheld from employees wages.

447 Accrued liability for other taxes.

This account shall include the accruals for all other taxes payable for which no other account has been specifically provided.

459 Other accrued accounts payable.

(a) This account shall include periodical accruals of amounts payable other than taxes.

(b) Subsidiary accounts shall be maintained as between (1) interest, (2) rentals and (3) such other items as frequently occur.

479 Other current liabilities.

(a) This account shall include all current liabilities for which no other account has been specifically provided.

(b) Subsidiary accounts shall be maintained to show separately each class of current liability.

495 Advance ticket sales and deposits.

(a) This account shall include the credit balance remaining in account 025, "Collections and deposits for passenger transportation," after the balances in the account, have been analyzed and those relating to completed transactions have been transferred to the appropriate other accounts designated in the chart.

500 Deferred revenues—unterminated voyages.

When the accounts are maintained on a terminated voyage basis, the revenue of voyages in progress at the end of an accounting period shall be transferred to this account from the related voyage revenue accounts. Detail coding shall be maintained by individual vessel and related voyage.

525 Long-term debt.

This account shall be divided into the following subaccounts: 526, 527, 530, and 534.

526 Mortgage notes—Maritime Administration.

(a) This account shall include all mortgage notes payable to the Maritime Administration.

(b) Subsidiary accounts shall be maintained by vessel.

527 U.S. Government insured or guaranteed merchant marine bonds and notes.

This account shall include all U.S. Government insured or guaranteed merchant marine bonds and notes issued pursuant to the provisions of contracts or agreements. Subsidiary accounts shall be maintained by vessel.

530 Other bonds and debentures.

This account shall include the face amount of bonds and debentures not provided for in other accounts and shall be maintained to show full particulars in respect to each issue outstanding. Reacquired bonds and debentures shall be charged to this account at face amount.

534 Other long-term debt.

This account shall include all long-term obligations, excluding amounts due related companies, for which no other account has been specifically provided, and shall be subdivided to show separately long-term obligations secured by capital assets and unsecured long-term debt.

540 Other long-term liabilities.

This account shall be divided into the following sub-accounts: 541, 549, 550, and 554.

541 Non-current notes and accounts payable—affiliates.

(a) This account shall include all loans, advances, and other payables to related companies not subject to current settlement.

V 39 91 MAY 9 74 XUM

(b) Subsidiary accounts shall be maintained by companies and shall show all essential detail.

549 Non-current notes and accounts payable—officers and employees.

This account shall include all notes and accounts payable to officers, directors, individual stockholders, and employees, which by arrangement become due later than one year from the balance sheet date.

550 Recapturable profits—Maritime Administration.

If excess profits accrue to the Maritime Administration under the "recapture" provisions of sections 606 and 607 of the Merchant Marine Act, 1936, as amended, in effect prior to the enactment of Pub. L. 91-469 (84 Stat. 1018), such profits shall be credited to this account at the close of each accounting period within a recapture period, adjusted so as to reflect the net amount of such excess profits accrued to the Maritime Administration as at that date.

554 Miscellaneous other long-term liabilities.

This account shall include all long-term liabilities for which no other account has been specifically provided.

555 Deferred credits.

This account shall be divided into the following subaccounts: 556, 563 and 564.

556 Premium on funded debt.

(a) This account shall include premiums for all classes of funded debt which are to be amortized periodically over the respective lives of the securities by credit to account 691 "Release of premium on long-term debt."

(b) When an issue of funded debt or any part thereof is refunded and at the date of refunding there is a balance of unamortized premium relating thereto, the amount of such balance shall be credited to account 690 "Miscellaneous other income" or account 995 "Extraordinary items," as may be appropriate.

563 Accumulated deferred income taxes.

This account shall be charged or credited with all amounts affecting the determination of deferred income taxes.

564 Miscellaneous deferred credits.

This account shall include all deferred income and unadjusted credits for which no other account is specifically provided.

565 Estimated operating allowances.

This account shall be divided into the following subaccounts: 566, 570 and 579.

566 Estimated allowances for repairs.

(a) This account shall be credited and account 740 "Vessel repairs—domestic" charged, when allowances are provided for equalization of domestic repairs to vessels. As actual domestic repair expenses are incurred, they shall be charged to this account. At the end of the accounting year, after all repair expenses incurred and all commitments against terminated voyages have been recorded, any balance in this account, applicable to terminated voyages shall be distributed equitably to such voyages in account 740, "Vessel repairs—domestic."

(b) Subsidiary accounts shall be maintained by vessel and consecutively by voyage.

(c) Repair expenses incurred at foreign ports shall be charged directly to account 741 "Vessel repairs—foreign."

570 Estimated allowances for insurance.

(a) Agreed amounts for Marine and P&I Insurance deductibles (if provided in the policies) should be charged to each voyage in the appropriate vessel insurance expense account and the corresponding credits posted to this account. When the amount within the deductibles average chargeable against each voyage is determined, it should be transferred from account 361 "Claims pending" as a charge to this account.

(b) This account may also be used for equalization of other insurance risks assumed by the carrier, as for example, self-carried workmen's compensation, and public liability insurance. At the end of each accounting year, any balance in this account applicable to voyages, terminated during the preceding accounting year, in those instances where the records indicate that all claims have been settled, shall be transferred to the appropriate insurance expense account, consistent with paragraph (j) of the General Instructions.

(c) Subsidiary accounts shall be maintained by the various classes of insurance for which provisions are made and shall be arranged by vessel and consecutively by voyage.

579 Estimated operating allowances—miscellaneous.

(a) This account shall include all provisions for the equalization of operating expenses for which no other allowance account is specifically provided.

(b) Subsidiary accounts shall be maintained by the various classes of expense arranged by vessels and consecutively by voyages, or by other accounting units.

580 Owners' equity.

This account shall be divided into the following sub-accounts: 581, 585, 587, 590, 591, 598, and 599.

581 Capital stock—issued and outstanding.

(a) This account shall include the par value, or for stock without par value the stated money value of the consideration received, of capital stock or other form of proprietary interest in the carrier which has been issued to purchasers and has not been reacquired and canceled. It shall also include stock issued representing appropriations of surplus for stock dividends. When capital stock is retired, this account shall be charged with the book value at which such stock is recorded herein.

(b) Recordings supporting the entries to this account shall be maintained to show the various classes and series of capital stock.

(c) A separate record shall be kept for each subclass of stock showing the number of shares authorized by the articles of incorporation and amendments, the number of shares issued, the number of shares reacquired, the number of shares canceled, the number of shares outstanding, and their book value.

585 Capital stock subscribed.

This account shall include the amount of subscriptions to capital stock of the carrier. It shall be credited with the par value, or with the subscription price of stock without par value, exclusive of dividends, if any. Concurrently, account 135 "Subscriptions to capital stock" shall be debited with the agreed price and any discount or premium shall be included in the appropriate account. When properly executed stock certificates are issued, this account shall be debited and account 581 "Capital stock—issued and outstanding" credited.

587 Discount on capital stock.

(a) This account shall include the discount incurred in connection with the sale of capital stock. Records supporting the entries to this account shall be maintained to show the discount and commissions on each class and series of capital stock.

590 Additional paid-in capital.

(a) This account shall include the amount of capital donated or paid-in as additional capital (including premiums and assessments on capital stock) and also gains from reacquired or donated shares of capital stock, from forfeiture of subscriptions and from reduction of the par or recorded value of capital stock.

591 Treasury stock.

This account shall be charged with the acquisition cost of all shares of capital stock of the corporation which have been issued and fully paid and thereafter have been reacquired by the corporation through purchase, donation or otherwise not properly includable in sinking or other funds and have not been formally cancelled in conformance with opinion number 6 of the Accounting Principles Board.

598 Retained earnings—restricted.

(a) Retained earnings restricted from distribution by agreement with others shall be credited to this account with a corresponding charge to account 599 "Retained earnings—unrestricted."

(b) Subsidiary accounts shall be maintained by classes of restrictions.

599 Retained earnings—unrestricted.

(a) All nominal accounts at the end of the accounting year shall be closed to this account.

(b) Any part of retained earnings restricted from payment as dividends shall be charged to this account, including excess profits accruing to the Maritime Administration under the "recapture" clauses in sections 606 and 607 of the

Merchant Marine Act, 1936, as amended, in effect prior to the enactment of Pub. L. 91-469 (84 Stat. 1018), which shall be credited to account 550 "Recapturable profits—Maritime Administration."

(c) This account shall include other adjustments, net of assigned federal income taxes, not provided for elsewhere in this system but only after such inclusion has been authorized by the Maritime Administration.

Revenue Accounts

(A) Ordinary Items

ACCOUNT

600 Vessel revenue.

(a) This account shall be credited with all revenue from vessel operations. Revenue items applicable to voyages in progress at the end of each accounting period shall be transferred to account 500 "Deferred revenues—unterminated voyages." Revenue items arising in connection with voyages terminated in prior years shall be accounted for as ordinary delayed items pursuant to paragraph (k) of the General Instructions.

(b) Subsidiary accounts shall be maintained by vessels and consecutively by voyages, according to the classification of revenues, as shown in the chart of accounts. Subsidiary accounts shall be subdivided according to:

(1) Cargo carriage technology type.

(2) Refrigerated and nonrefrigerated cargoes.

(3) Military procurement from competitive bid systems.

(4) Military other.

(5) Outward, intermediate and inward voyage legs.

(c) For purposes of postings in subsidiary accounts, coastwise and intercoastal service shall be deemed to be all commerce conducted by vessels between points in the United States, including Districts, Territories and possessions thereof embraced within the coastwise laws, and foreign commerce shall be deemed to be all commerce conducted by vessels over the seas other than coastwise and intercoastal commerce. Operators receiving operating-differential subsidy shall expand the subdivision in their subsidiary accounts to show, separately, revenue earned on coastwise and intercoastal legs of voyages as described in section 605(a) of Title VI of the Merchant Marine Act, 1936, as amended, as well as commerce between points in the United States including Districts, Territories, and possessions thereof and Puerto Rico embraced within the coastwise laws.

(d) The same subsidiary ledger forms may be used for both account 500 and account 600, and the sheets may be physically transferred or the totals by classification transferred to new sheets, as the carrier elects.

(e) This account shall be divided into the following subaccounts: 601, 605, 608, 612, 620, and 624.

601 Freight—foreign.

(a) This account shall include all revenue accruing from the transportation of freight based upon tariff rates or in the absence of tariff provisions on basis of contracts.

(b) It will also include the surcharge on freight revenue.

(c) It shall be charged with refunds due to errors in classification or computation of rates and charges; refunds due to errors in routing or shipping freight to the extent not reimbursed by insurance refunds and uncollectible charges on lost, damaged or destroyed freight shipments; and with refunds of overcharges assumed by the carrier under the voucher minimum.

605 Freight—coastwise and intercoastal.

(a) This account shall include all revenue accruing from the transportation of freight based upon tariff rates or in the absence of tariff provisions on the basis of contracts.

(b) It will also include the surcharge on freight revenue.

(c) It shall be charged with refunds due to errors in classification or computation of rates and charges; refunds due to errors in routing or shipping freight; refunds and uncollectible charges on lost, damaged or destroyed freight shipments to the extent not reimbursed by insurance and with refunds of overcharges assumed by the carrier under the voucher minimum.

608 Passenger—foreign.

(a) This account shall include all revenue accruing from the transportation of passengers based upon tariff rates. It shall include the revenue from transportation of passengers, the rental of staterooms, berths, or living accommodations and the furnishing of meals.

(b) The credits to this account shall be subdivided as follows among (1) revenue from passenger fares, (2) revenue from staterooms, (3) revenue from meals, and (4) revenue that cannot be separated among items (1), (2) and (3) of this paragraph.

612 Passenger coastwise and intercoastal.

(a) This account shall include all revenue accruing from the transportation of passengers based upon tariff rates. It shall include the revenue from transportation of passengers, the rental of staterooms, berths, or living accommodations, and the furnishing of meals.

(b) The credits to this account shall be subdivided as follows among (1) revenue from passenger fares, (2) revenue from staterooms, (3) revenue from meals, and (4) revenue that cannot be separated among items (1), (2) and (3) of this paragraph.

620 Charter revenue.

This account shall include revenue from the charter of vessels to others when the amount receivable for charter is not directly related to and dependent upon the commodities and volume transported, such as bareboat and time charters. Compensation is usually based upon daily or monthly hire of the vessel.

624 Other voyage revenue.

This account shall include all revenue accruing from other services by and activities aboard vessels, not otherwise provided for, such as:

Advances, prepaid beyond and manifest transactions, net credit.
Assisting vessels in distress or salvage.
Barber shop and other services to passengers aboard vessels.
Concessions aboard vessels granted to others.
Demurrage and dispatch.
Excess baggage.
Parcel rooms aboard vessels.
Radio service aboard vessels.
Refrigeration aboard vessels.
Rent from steamer chairs and other equipment to passengers.
Sale of periodicals and newsstand supplies to passengers.
Sale of buffet and bar supplies to passengers, net credit.
Sale of slop chest supplies to crew, net credit.
Refreshment, weighing and all other vending machines aboard vessels.

(B) Subsidies

ACCOUNT

625 Operating-differential subsidy.

(a) This account shall be credited with sums accruing to the carrier under the subsidy provisions of the operating-differential subsidy agreement.

(b) Subsidiary accounts shall be maintained by vessels and consecutively by voyages.

(C) Other Shipping Revenues

ACCOUNT

640 Collections from pools.

This account shall be credited with collections for each accounting period in accordance with pooling agreements by transfer from account 055, "Pool participation."

645 Revenue from terminal operations.

(a) This account shall include all revenue derived from the rental, lease, or use by others of the carrier's terminal facilities, including dockage, side wharfage, top wharfage, storage, doorways, lights, water, protective service, refrigeration, precooling, and similar service.

(b) Subsidiary accounts shall be maintained to show separately for each terminal the different kinds of revenues earned.

650 Revenue from cargo handling operations.

(a) This account shall include all revenue derived from the performance by the carrier for others of stevedoring and other cargo handling services, such as checking, tallying, receiving, delivering, coopering, loading, and discharging cargo; also use of gear, equipment, etc.

(b) Subsidiary accounts shall be maintained to show separately for each port the different kinds of revenues earned.

655 Revenue from tug and lighter operations.

(a) This account shall include all revenue derived from services performed for others by the carrier's tugs, lighters, barges, scows, launches, floating cranes and other equipment, including rental and charter hire for use of such equipment.

V 39 91 MAY 9 74 XUM

(b) Subsidiary accounts shall be maintained to show separately for each port the different kinds of revenues earned.

660 Revenue from container related operations.

This account shall include all revenue derived from container related operations such as income from inland haulage of military containers, container detention charges and container interline billings.

(b) Subsidiary accounts shall be maintained to show separately for each port the different kinds of revenues earned.

665 Revenue from other shipping operations.

(a) This account shall be credited with gross revenue derived from the performance of repairs, and any other services or operations for others which are incidental to the shipping business and for which no other account is specifically provided.

(b) Subsidiary accounts shall be maintained to show separately for each port the different kinds of revenues earned.

670 Agency fees, commissions, and brokerage earned.

(a) This account shall include revenues received from others covering gross agency fees, commissions, and brokerage, less amounts paid to sub-agents therefrom.

(b) Subsidiary accounts shall be maintained by offices, and postings shall show sources of earnings and classification thereof such as agency fees, management and operating commissions, freight brokerage, passenger brokerage, and names of sub-agents in instances where such payments are charged to this account.

(D) OTHER REVENUE ACCOUNTS

ACCOUNT

675 Interest income.

(a) This account shall be credited with all interest accrued. This account shall be charged with amortization of any premium and shall be credited with accumulation of any discount on securities at the time of accrual or collection of interest thereon.

(b) Interest shall not be credited before actual collection unless its payment is reasonably assured by past experience, guaranty, anticipated provisions, or otherwise.

(c) This account shall not include interest on securities issued or assumed and owned by the carrier.

(d) This account shall be divided into sub-accounts representing sources of significant interest income. Interest from affiliated companies must be identified.

685 Dividend income.

(a) This account shall be credited with all dividends received. Dividends may be credited prior to actual collection if their payment is reasonably assured by past experience, guaranty, anticipated provisions, or otherwise. This account shall not include dividends on the carrier's own capital stock.

(b) This account shall be divided into sub-accounts representing sources of significant dividend income.

690 Miscellaneous other income.

(a) This account shall include all income not provided for elsewhere, such as:

Gain from conversion of foreign currencies (Transferred from account 050, "Foreign exchange account")
Fees collected in connection with exchange of coupon bonds for registered bonds
Gain from sale of securities
Gain from sale of shipping and nonshipping property
Gain from company bonds reacquired

(b) When the gain from the sale of property, equipment or securities, or from reacquisition of the company's own bonds is of an amount sufficiently large to constitute an extraordinary item, pursuant to paragraph (k), of the General Instructions, such gain shall be credited to account 995, "Extraordinary items."

691 Release of premium on long-term debt.

This account shall include for each fiscal period such proportion of the premium on funded debt as is transferred from account 556, "Premium on funded debt."

695 Revenue from non-shipping operations.

(a) This account shall include the gross income derived from ventures other than shipping and shipping auxiliary operations.

(b) Separate accounts shall be maintained for each enterprise and location.

697 Income from affiliated companies.

This account shall be debited or credited with the following:

(a) The accounting company's share of the current earnings or losses of affiliated companies and corporate joint ventures required to be accounted for under equity accounting.

(b) The amortization of any difference between the costs of an investment and the equity of the accounting company in the net assets of the investee.

Operating Expenses

(A) DIRECT VESSEL EXPENSES

(a) Accounts 701–749 shall be charged with all direct expenses of operation and maintenance of all vessels, for terminated and unterminated voyages.

(b) Expenses incurred for vessels in idle status shall be included in the 800 series accounts.

(c) Subsidiary accounts shall be maintained by vessels and consecutively by voyages, according to the classification of expense as shown in the chart of accounts.

(d) The same subsidiary ledger forms may be used for both account 200 and the 700 series of accounts, and the sheets may be physically transferred or the totals, by classifications, transferred to new sheets, as the carrier elects.

(e) At the conclusion of the accounting period, all items relating to unterminated voyages shall be transferred to account 200, "Deferred expenses, unterminated voyages."

(f) Expenses shall be charged according to the provisions of paragraph (k) of the General Instructions.

ACCOUNT

701 Crew wages.

This account shall include salaries and wages of masters, officers, pursers, radio operators, relief crews and other members of crews of vessels including:

(a) Regular wages.
(b) Overtime.
(c) Split wages (overlap).
(d) Bonus.
(e) Shifting allowance.
(f) Extra wages.
(g) Travel wages.
(h) Accrued wage adjustments.
(i) Crew transportation.
(j) Non-watch pay.
(k) Board and lodging.

703 Crew fringe benefits.

This account shall include all compensation to crew members other than salaries and wages. Such compensation will include, but is not limited to, vacation pay, sick leave, retirement and pension, group insurance, welfare plans, medical center contributions and joint committee payments.

704 Union payments unrelated to the crew.

This account shall include all payments to unions, such as quid pro quo and compensatory payments, made for agreed upon crew reductions.

706 Payroll taxes.

This account shall include taxes computed on the basis of a payroll such as old age benefits, unemployment compensation and similar social security taxes.

710 Domestic subsistence.

This account shall include the cost (including sales taxes and delivery and inspection charges thereon) of all edibles (but not bar and slop chest supplies and water) purchased in the United States and its Territories and possessions except the Virgin Islands, American Samoa, Wake Island, Midway Island, Kingman Reef, and the Island of Guam (excluding purchases out of bond) for consumption by passengers, officers, and crews of vessels.

714 Foreign subsistence.

This account shall include the cost (including sales taxes and delivery and inspection charges thereon) of all edibles (except bar and slop chest supplies and water) purchased in foreign countries or in the Virgin Islands, American Samoa, Wake Island, Midway Island, Kingman Reef, and the Island of Guam, or purchased in the United States out of bond, for consumption by passengers, officers and crew of vessels.

715 Domestic consumable stores, supplies and equipment.

This account shall include the cost (and related sales tax and delivery and inspection charges thereon) of all consumable stores and supplies and expendable equipment (other than edibles, bar and slop chest supplies, fuel, and water) purchased in the United States and its Territories and possessions, except the Virgin Islands, American Samoa, Wake Island, Midway Island, Kingman Reef, and the Island of Guam (excluding purchases out of bond), for use aboard vessels. The term "expendable equipment" includes all tools, utensils, instruments, small machinery, and paraphernalia of a portable or removable nature, as distinguished from "permanent equipment" fastened to the vessel or installed as an integral part thereof, and spares required by the classification societies. The cost of such permanent equipment and spares shall be included in account 740 "Vessel Repairs—Domestic," or account 741 "Vessel Repairs—Foreign."

716 Foreign consumable stores, supplies and equipment.

This account shall include the cost (including related sales taxes and delivery and inspection charges thereon) of all consumable stores and supplies and expendable equipment (other than edibles, bar and slop chest supplies, fuel, and water) purchased in foreign countries or in the Virgin Islands, American Samoa, Wake Island, Midway Island, Kingman Reef and the Island of Guam, or purchased in the United States out of bond, for use aboard vessels.

725 Other maintenance expense.

This account shall include such expenses as laundry and pressing services; wages of shoregang labor for cleaning, painting, scraping, or other vessel-upkeep services usually performed by the crew; inspection service charges; and the cost of maintaining expendable equipment, such as adjusting compasses, rating chronometers, retinning utensils, mending linens, upholstering chairs, repairing typewriters, and other such expenses.

730 Insurance—hull and machinery.

This account shall include the cost of hull and machinery insurance, such as premiums, deductibles, and provision for deductible average losses.

732 Insurance—protection and indemnity.

This account shall include the costs of protection and indemnity insurance, such as premiums, personal injury claims, illness claims, cargo claims, provision for deductible average losses and Second Seamen's insurance premiums.

734 Insurance—other marine-risk.

This account shall include the premiums on all classes of marine-risk coverage carried by the carrier which are not properly chargeable to account 730 "Insurance—Hull and Machinery," and account 732 "Insurance—Protection and Indemnity."

735 Vessel fuel.

This account shall include the cost of fuel and of services and facilities incident to delivery, inspection and trimming thereof.

740 Vessel repairs—domestic.

This account shall include the cost of repairs (not recoverable from insurance) directly attributable to replacement by duplication of, or restoration to satisfactory condition of, damaged or worn parts of vessels, machinery, and equipment which are integral parts of vessels, including the purchase of permanent equipment and spares required by the classification societies, in the United States and its Territories and possessions, except the Virgin Islands, American Samoa, Wake Island, Midway Island, Kingman Reef, and the Island of Guam. The cost of repairing or servicing expendable equipment shall be included in account 725 "Other maintenance expense."

741 Vessel repairs—foreign.

This account shall include the cost of repairs (not recoverable from insurance) directly attributable to replacement by duplication of, or restoration to satisfactory condition of, damaged or worn parts of vessels, machinery and equipment which are integral parts of vessels, including the purchase of permanent equipment and spares required by the classification societies, in foreign countries or in the Virgin Islands, American Samoa, Wake Island, Midway Island, Kingman Reef, and the Island of Guam.

742 Depreciation—vessels.

This account shall include the accrual of depreciation of vessels owned by the carrier with a corresponding credit to account 332, "Accumulated depreciation—vessels."

743 Time and trip charter hire.

This account shall include the charter payments for hiring vessels from non-affiliated companies on a time or trip basis.

744 Time and trip charter hire—affiliates.

This account shall include the charter payments for hiring vessels from affiliated companies on a time or trip basis.

745 Short term bareboat charter hire.

This account shall include the rental or lease payments for hiring vessels from non-affiliated companies on a bareboat basis for periods of one year or less.

746 Short-term bareboat charter hire—affiliates.

This account shall include the rental or lease payments for hiring vessels from affiliated companies on a bareboat basis for periods of one year or less.

747 Long-term bareboat charter hire.

This account shall include the rental or lease payments for hiring vessels from non-affiliated companies on a bareboat basis for periods of over one year.

748 Long-term bareboat charter hire—affiliates.

This account shall include the rental or lease payments for hiring vessels from affiliated companies on a bareboat basis for periods of over one year.

749 Other vessel expenses.

This account shall include all miscellaneous expenses directly incident to the operation of vessels which are not properly chargeable to other vessel account classifications, such as:

(a) Expenses of masters.
(b) Expenses of pursers.
(c) Radio equipment rental.
(d) Seaworthy certificate.
(e) Vessel communications.
(f) Water.

(B) ALLOCATED VOYAGE EXPENSE

(a) The practice of terminated voyage accounting requires the allocation to a voyage of indirect costs incurred as a result of operating and maintaining containers and barges as well as terminals. The following accounts represent the container and barge expense and the indirect terminal expenses allocated to terminated and unterminated voyages.

(b) Subsidiary accounts shall be maintained by vessel and consecutively by voyage.

ACCOUNT

750 Allocated container and barge expense.

(a) This account shall be maintained by those operators engaged in the practice of terminated voyage accounting and shall be charged monthly for all container and barge expenses charged to accounts 867 through 894, except for accounts 881 through 886 which will be included in the Water Line Operating Revenue and Expense Statement, with a corresponding credit to account 899, "Allocated container and barge expense—contra."

(b) Subsidiary accounts shall be maintained by vessel and consecutively by voyage.

751 Allocated terminal expense.

(a) This account shall be maintained by those operators engaged in the practice of terminated voyage accounting and shall be charged monthly with all indirect terminal expenses allocated to vessels and related voyages with a corresponding credit to account 866, "Allocated terminal expense—contra" except for accounts 859, 860 and 864 which will be included in the Water Line Operating Revenue and Expense Statement.

(b) Subsidiary accounts shall be maintained by vessel and consecutively by voyage.

(C) PORT EXPENSE

(a) Accounts 752–772 shall be charged with all direct expenses related to (1) the movement of cargo to and from

V 39 91 MAY 9 74 XUM

ships, and (2) port expenses incurred in the docking and undocking of ships.

(b) Subsidiary accounts shall be maintained by individual port, by vessel and consecutively by voyages and in some cases by cargo technology type.

ACCOUNT

752 Cargo handling—loading/discharging.

(a) This account shall include the cost of removing and handling break bulk, bulk, container, and vehicle cargo from the pier or in pier sheds, or from cars, barges, lighters, scows, or booms alongside, and stowing the same in or on any part of the vessel, and the cost of discharging cargo from any part of the vessel onto the pier or into pier sheds, or into or on cars, lighters, scows, or booms alongside the vessel and piling the same on the pier or in pier sheds, such as:

1. Straight time.
2. Overtime.
3. Extra labor.
4. Fringe benefits.
5. Union contributions.
6. Detentions.
7. Transportation, travel & meals.
8. Lashing/unloading.
9. Crane rental.
10. Clerk/tally.
11. Contractors commodity charges.
12. Outside contractors terminal charges.
13. Dunnage, pallets.
14. Shoring and unshoring.
15. Watchmen.

(b) Detail coding shall be maintained by cargo carriage technology types.

(c) Loading or discharging of cargo to and from LASH on SEABEE barges shall be charged to account 753, "cargo handling—loading/discharging barges."

753 Cargo handling—loading/discharging barges.

This account shall include costs of loading and discharging barges into and from vessels, including:

1. Straight time.
2. Overtime.
3. Extra labor.
4. Fringe benefits.
5. Union contributions.
6. Detentions.
7. Transportation—travel and meals.
8. Clerk/tally.
9. Contractors commodity rates.
10. Tug hire.

754 Cargo handling—container yard.

This account shall include all the costs directly incident to the handling of containers within a yard which are not properly assigned to account 752, "Cargo Handling—Loading / Discharging", as above defined.

755 Cargo handling—container freight station.

This account shall include all costs directly incident to the stuffing and unstuffing of containers. In addition, this account shall include the costs directly incident to receiving, delivery and warehousing of such cargo at the container freight station facility.

756 Cargo handling—lighter freight station.

This account shall include all costs directly incident to the loading and discharging of cargo to and from LASH and SEABEE—type barges including tug hire for positioning at the lighter freight station. In addition, this account shall include costs directly incident to receiving, delivery and warehousing of such cargo at the lighter freight station.

757 Cargo handling—lighter consolidation.

This account shall be charged for all costs incident to storing barges at dockside prior to and after delivery from shipside.

758 Cargo handling—commercial cargo.

This account shall be charged for all miscellaneous cargo costs which are unique to carriage of commercial cargo and which are never applicable to carriage of military cargo. Such costs might include:

Baggage Handling
Bill of Lading Fees
Equalizations
Inspections
Measuring Cargo Fees
Railcar Loading & Discharging

759 Cargo handling—other.

This account shall include all expenses not properly assignable to accounts 752–758 including such costs as surveys, cargo dues, etc. and those costs which cannot be assigned to a cargo technology type.

762 Purchased off-dock container freight station services.

This account shall include the costs of off-dock container freight consolidation services purchased.

763 Port transportation expense—commercial.

This account shall include the costs of transporting containers and LASH and SEABEE type barges being used for commercial cargo within the port area for vessel convenience and local pick-up and delivery, such as: Drayage, tug hire, fees and duties, miscellaneous charges, and other such expenses. Detail coding shall be maintained by cargo carriage technology type.

764 Port transportation expense—military.

This account shall include the costs of transporting containers and LASH and SEABEE type barges being used for military cargo within the port area for vessel convenience and local pick-up and delivery, such as: Drayage, tug hire, fees and duties, miscellaneous charges, and other such expenses. Detail coding shall be maintained by cargo carriage technology type. For use of this account see § 282.1(d).

765 Inland transportation expenses—commercial.

This account shall include the cost of transporting containers and LASH and SEABEE type barges being used for commercial cargo out of the port area to inland terminals or locations, overland or upriver, and to other marine terminals, such as: Rail charges, truck charges, handling charges, tug towage, and other such expenses. Detail coding shall be maintained by cargo carriage technology type.

766 Inland transportation expense—military.

This account shall include the cost of transporting containers and LASH and SEABEE type barges being used for military cargo out of the port area to inland terminals or locations, overland or upriver, and to other marine terminals, such as: Rail charges, truck charges, handling charges, tug towage, and other such expenses. Detail coding shall be maintained by cargo carriage technology type. For use of this account see § 282.1(d).

767 Substituted service transportation expense—commercial.

This account shall include the cost of transporting full or partially full containers and LASH and SEABEE type barges being used for commercial cargo from one port area to other port area(s) when such land transportation facilitates the avoidance of a vessel call at the latter port(s), such as: Rail charges, truck charges, handling charges, tug towage, and other such expenses. Detail coding shall be maintained by cargo carriage technology type and by the port avoided by use of the substituted service.

768 Substituted service transportation expense—military.

This account shall include the cost of transporting full or partially full containers and LASH and SEABEE type barges being used for military cargo from one port area to other port area(s) when such land transportation facilities the avoidance of a vessel call at the latter port(s), such as: Rail charges, truck charges, handling charges, tug towage, and other such expenses. Detail coding should be maintained by cargo carriage technology type and by the port avoided by use of the substituted service. For use of this account see § 282.1(d).

770 Wharfage and dockage.

This account shall include the cost of wharfage and dockage. Detail coding shall be maintained by cargo technology type.

771 Other port expenses.

This account shall contain detail coding by cargo technology type and shall include port service charges, dues, taxes, and other such expenses, such as:

(a) Pilotage.
(b) Vessel towage.
(c) Launch hire.
(d) Anchor dues.
(e) Canal tolls other than Panama Canal, Suez Canal and Saint Lawrence Seaway (see Account 773).
(f) Cargo dues.
(g) Entry dues and fees.
(h) Handling lines.
(i) Port dues and taxes.
(j) Dispatch.
(k) Stowage plan.
(l) Demurrage.
(m) Customs.

772 Port costs of passenger operations.

This account shall include all port costs of passenger vessels (vessels which carry more than twelve passengers) that would otherwise be charged to accounts 770, "Wharfage and dockage" and 771, "Other port expenses." Detail coding shall be maintained by cargo technology type.

773 Transit canal tolls.

This account shall include canal tolls for the Panama Canal, Suez Canal and Saint Lawrence Seaway.

(D) IDLE VESSEL EXPENSE

(a) These accounts shall include all expenses incurred during periods of idleness or inactivity between voyages.

(b) Subsidiary accounts shall be maintained by vessel and by related idle period.

ACCOUNT

801 Crew wages.

803 Crew fringe benefits.

804 Union payments unrelated to the crew.

808 Payroll taxes.

810 Subsistence.

815 Consumable stores, supplies and equipment.

825 Other maintenance expense.

830 Insurance—hull and machinery.

832 Insurance—protection and indemnity.

834 Insurance—other marine risk.

835 Vessel fuel.

840 Vessel repairs.

842 Depreciation—idle vessels.

843 Time and trip charter hire.

844 Time and trip charter hire—affiliates.

845 Short-term bareboat charter hire.

846 Short-term bareboat charter hire—affiliates.

847 Long-term bareboat charter hire.

848 Long-term bareboat charter hire—affiliates.

849 Other vessel expense.

(E) TERMINAL EXPENSE

(a) These accounts shall be charged for all expenses incident to maintaining terminals for handling breakbulk, containers, vehicle cargo and barges. In addition, all costs of tug, other barge operations, and other floating equipment shall be maintained under this category.

(b) Subsidiary accounts shall be maintained by individual terminal.

(c) Charges to accounts 855–858 will be made directly whenever possible. When a terminal provides more than one function, costs will be allocated between the individual functions as prescribed in General Order 12.

855 Terminal operations expense—container yards.

This account shall include all costs and fringe benefits related to a carrier operated container yard. These costs will include.

(a) Supervision salaries including terminal management, port captains, port engineers and non-union cargo supervisors.
(b) Supplies.
(c) Maintenance and repair of container yard property and office equipment.
(d) Security costs for permanent watchmen used within the container yard proper.
(e) Utilities for container yard buildings and for lighting of the container yard.
(f) Rent and property taxes for the container yard.
(g) Other maintenance labor including unallocated clerks, sweepers, etc.
(h) Other, including insurance, business fees, etc.

856 Terminal operations expense—container freight station/breakbulk.

This account shall include all costs and fringe benefits related to a carrier operated on dock container freight station or breakbulk terminal such as:

(a) Supervision salaries including terminal management, port captains, port engineers and non-union cargo supervisors.
(b) Supplies.
(c) Maintenance and repair of sheds, terminal property, and office equipment.
(d) Security costs of permanent watchmen used within the CFS and terminal area.
(e) Utilities.
(f) Rent and property taxes for the CFS and breakbulk terminal.
(g) Other maintenance labor including unallocated clerks, sweepers, coopers, baggage masters, etc.
(h) Other, including insurance, business license fees, etc.

857 Terminal operations expense—barges.

This account shall include all costs and fringe benefits related to a carrier operated terminal used to service LASH or SEABEE barges. These costs will include:

(a) Supervision salaries including terminal management, port captains, port engineers and non-union cargo supervisors
(b) Supplies
(c) Maintenance and repairs of terminal property, sheds and office equipment
(d) Security costs for permanent watchmen used within the terminal area
(e) Utilities for buildings and yard areas
(f) Rent and property taxes
(g) Other maintenance labor including unallocated clerks, checkers, sweepers, coopers, etc.
(h) Other, including insurance, business license fees, etc.

858 Terminal operations expense—other.

This account shall include all costs and fringe benefits related to a carrier operated terminal which cannot properly be charged to Account 855, 856 or 857. Costs will include:

(a) Supervision salaries including terminal management, port captains, port engineers and non-union cargo supervisors.
(b) Supplies
(c) Maintenance and repair of terminal property and office equipment
(d) Security costs for permanent watchmen
(e) Utilities
(f) Terminal rent and property taxes
(g) Other maintenance labor including unallocated clerks, checkers, sweepers, coopers, etc.
(h) Other, including insurance, business license fees, etc.

859 Depreciation—terminal property and equipment.

This account shall include the accrual depreciation of terminal buildings, cranes, trucks, furniture and fixtures, cargo handling gear, and equipment, tools and other terminal gear, and equipment with a corresponding credit to account 350, "Accumulated depreciation—terminal property and equipment."

860 Amortization—terminal leaseholds and leasehold improvements.

This account shall include the amortization of the cost of acquiring long-term leases, and the cost of alterations to, and fixtures installed in, leased terminal property, with a corresponding credit to account 357, "Terminal leaseholds and leasehold improvements."

861 Other expense—terminal equipment.

This account shall include costs applicable to owned terminal equipment such as maintenance and repair, licensing, property taxes, insurance, etc.

862 Operating expense of tug and barge operations.

This account shall include the expense incurred in the operation by the carrier of tugs, other barges, scows, launches, floating cranes, and similar floating equipment. Detail coding shall be maintained by port.

863 Maintenance expense of tug and other barge operations.

This account shall include the expense incurred in the maintenance by the carrier of tugs, other barges, scows, launches floating cranes and similar floating equipment and will be identified to a port.

864 Depreciation—other floating equipment.

This account shall include the accrual of depreciation of tugs, barges, scows, launches, floating cranes, and similar floating equipment with a corresponding

V 39 91 MAY 9 74 XUM

credit to account 338, "Accumulated depreciation—other floating equipment."

866 Allocated terminal expense—contra.

This account shall be credited with the allocation of Terminal Expenses to Vessels and related voyages for the following expenses:

855—Terminal operations expense—container yards
856—Terminal operations expense—CFS/breakbulk
857—Terminal operations expense—barges
858—Terminal operations expense—other
861—Other expense—terminal equipment
862—Operating expenses of tug and barge operations
863—Maintenance expense of tug and barge operations

A corresponding debit shall be made to Account 751—Allocated Terminal Expense.

(F) CONTAINER/BARGE EXPENSE

(a) These accounts shall be charged with all expenses related to the use of containers, chassis and barges which are carried aboard vessels. Such costs do not include the labor for loading and unloading nor the transportation charges for moving containers and barges: Instead, such excluded expenses shall be charged to the appropriate port cost center expense accounts:

ACCOUNT

867 Container rental and lease expense.

This account shall include the rental and lease payments to nonaffiliated companies for containers.

868 Container rental and lease expense—affiliates.

This account shall include the rental and lease payments to affiliated companies for containers.

869 Refrigerated container rental and lease expense.

This account shall include the rental and lease payments to non-affiliated companies for refrigerated containers.

870 Refrigerated container rental and lease expense—affiliates.

This account shall include the rental and lease payments to affiliated companies for refrigerated containers.

871 Chassis rental and lease expense.

This account shall include the rental and lease payments to non-affiliated companies for chassis.

872 Chassis rental and lease expense—affiliates.

This account shall include the rental and lease payments to affiliated companies for chassis.

873 Trailer rental and lease expense.

This account shall include the rental and lease payments to non-affiliated companies for trailers used in vehicle operations.

874 Trailer rental and lease expense—affiliates.

This account shall include the rental and lease payments to affiliated companies for trailers used in vehicle operations.

875 Barge rental and lease expense.

This account shall include the rental and lease payments to non-affiliated companies for barges carried aboard vessels, such as LASH and SEABEE barges.

876 Barge rental and lease expense—affiliates.

This account shall include the rental and lease payments to affiliated companies for barges carried aboard vessels, such as LASH and SEABEE barges.

877 Container related equipment rental and lease expense.

This account shall include the rental and lease payments to non-affiliated companies for container related equipment, such as container cranes and yard container movement equipment.

878 Container related equipment rental and lease expense—affiliates.

This account shall include the rental and lease payments to affiliated companies for container related equipment, such as container cranes and yard container movement equipment.

879 Other cargo handling equipment rental and lease expense.

This account shall include the rental and lease payments to non-affiliated companies for other cargo handling equipment not included in accounts 867–878.

880 Other cargo handling equipment rental and lease expense—affiliates.

This account shall include the rental and lease payments to affiliated companies for other cargo handling equipment not included in accounts 867–878.

881 Depreciation—containers.

This account shall include the accrual of depreciation of containers, with a corresponding credit to account 342, "Accumulated depreciation—containers."

882 Depreciation—refrigerated containers.

This account shall include the accrual of depreciation of refrigerated containers, with a corresponding credit to account 344, "Accumulated depreciation—refrigerated containers."

883 Depreciation—chassis and trailer equipment.

This account shall include of depreciation of chassis and trailer and other transportation equipment, with a corresponding credit to account 348, "Accumulated depreciation—chassis and trailer equipment."

885 Depreciation—barges.

This account shall include the accrual of depreciation of barges carried aboard vessels with a corresponding credit to account 336, "Accumulated Depreciation—Barges."

886 Depreciation—container related equipment.

This account shall include the accrual of depreciation of container related equipment, such as container cranes and yard container movement equipment, with a corresponding credit to account 346, "Accumulated depreciation—container related equipment."

888 Other expense—containers.

This account shall include the costs of containers other than depreciation and rental and lease payments, such as insurance, taxes, and maintenance and repairs. Costs relating to the handling of containers will be charged to the appropriate cargo handling or terminal operations account.

889 Other expense—refrigerated containers.

This account shall include the costs of refrigerated containers other than depreciation and rental and lease payments, such as insurance, taxes, maintenance and repairs. Costs relating to the handling of refrigerated containers will be charged to the appropriate cargo handling or terminal operations account.

890 Other expense—chassis.

This account shall include the costs of chassis, other than depreciation and rental and lease payments, such as insurance, taxes, and maintenance and repairs. Costs relating to the handling of chassis will be charged to the appropriate cargo handling or terminal operations account.

891 Other expense—trailers.

This account shall include the costs of trailers, other than depreciation and rental and lease payments, such as insurance, taxes, and maintenance and repairs. Costs relating to the handling of trailers will be charged to the appropriate cargo handling or terminal operations account.

892 Other expense—barges.

This account shall include the costs of barges carried aboard vessels, other than depreciation and rental and lease payments, such as insurance, taxes, and maintenance and repairs. Costs relating to the handling of barges will be charged to the appropriate cargo handling or terminal operations account.

893 Other expense—other container equipment.

This account shall include the cost of maintaining other container equipment including maintenance and repairs, licensing and property tax.

894 Other expense—other cargo handling equipment.

This account shall include the cost of maintaining all other cargo handling equipment including maintenance and repairs, licensing, property taxes etc. not included in accounts 888–893.

899 Allocated container/barge expense—contra.

This account shall be credited with the allocation of container/barge expense to vessels and related voyages with a corresponding charge to Account 750 "Allocated container and barge expense", the expenses for which are included in the following accounts:

867 Container rental and lease expense.
868 Container rental and lease expense—affiliates.
869 Refrigerated container rental and lease expense.
870 Refrigerated container rental and lease expense—affiliates.
871 Chassis rental and lease expense.
872 Chassis rental and lease expense—affiliates.
873 Trailer rental and lease expense.
874 Trailer rental and lease expense—affiliates.
875 Barge rental and lease expense.
876 Barge rental and lease expense—affiliates.
877 Container related equipment rental and lease expense.
878 Container related equipment rental and lease expense—affiliates.
879 Other cargo handling equipment rental and lease expense.
880 Other cargo handling equipment rental and lease expense—affiliates.
888 Other expense—containers.
889 Other expense—refrigerated containers.
890 Other expense—chassis.
891 Other expense—trailers.
892 Other expense—barges.
893 Other expense—other container equipment.
894 Other expense—other cargo handling equipment.

(G) ADMINISTRATIVE AND GENERAL EXPENSES

(a) These accounts shall include all administrative and general expenses incurred in the operation of the business for which no other specific accounts have been provided.

(b) Additional detail coding shall be maintained by vessel and consecutively by voyage to facilitate terminated voyage accounting, with respect to accounts 950, 951 and 952.

ACCOUNT

901 Compensation of officers and directors.

This account shall include the compensation of officers and directors, including salaries, bonuses, fees and other payments for services.

902 Salaries and wages of employees.

This account shall include the compensation of all employees performing administrative and service functions that benefit overall operations other than compensation of officers and directors.

903 Fringe benefits.

This account shall include the cost of all fringe benefits of administrative and general personnel, such as:

(a) Vacation pay
(b) Sick leave
(c) Payroll taxes (employer's portion)
(d) Workmen's compensation
(e) Group insurance
(f) Pension and retirement
(g) Health and welfare
(h) Profit-sharing
(i) Other

905 Legal fees.

This account shall include fees, retainers, and other expenses for professional services of attorneys, including cost of law books, legal forms, testimony, notarial and witness fees, law and court expenses, and lawsuits.

906 Accounting and auditing fees.

This account shall include fees and other expenses for accounting or independent audit services rendered.

907 Other professional fees.

This account shall include fees and other expenses for professional services other than legal, accounting or auditing.

910 Rental expense.

This account shall include the rental costs for use of office buildings, general offices and storage space.

912 Utilities.

This acount shall include the cost of utilities, such as:

(a) Heat
(b) Light
(c) Power
(d) Water
(e) Waste removal

915 Communication expense.

This account shall include all communication expense, such as the cost of telephone, cables, telegrams, radio, postage, telex and teletype.

920 Office expense.

This account shall include the cost of office supplies, printing, equipment rental and all other general expenses relating to the operation of offices.

923 Data processing equipment rental expense.

This account shall include all rental costs of data processing equipment.

925 Dues and subscriptions.

This account shall include membership dues and fees in associations and subscriptions to periodicals and newspapers.

926 Donations and contributions.

This account shall include the cost of donations and contributions.

929 Entertainment and solicitation.

This account shall include all entertainment expenses and expenses of canvassing and solicitation in connection with the procurement of cargo.

930 Travel expense.

This account shall include all traveling expenses of officers and employees on official business of the company.

931 Insurance expense.

This account shall include premiums on insurance such as burglary, theft, robbery, premiums on fidelity bonds on officers and employees, and other such expenses.

934 Repairs and maintenance.

This account shall include the cost of repairing and maintaining general office buildings and equipment, furniture, and machines.

940 Management fees and commissions—affiliates.

This account shall include all commissions paid or payable to affiliated companies for general and financial management services.

941 Management fees and commissions—other.

This account shall include commissions paid or payable to persons or concerns other than affiliated companies acting as managing agents of the carrier. It does not include the customary agency fees and commissions paid to general and sub-agents at out-ports. Such fees should be charged to account 952, "Agency fees and commissions."

945 Advertising—passenger.

This account shall be charged with the cost of all passenger advertising.

946 Advertising—other.

This account shall be charged with all other advertising costs of the carrier.

950 Freight brokerage.

This account shall include commissions paid to brokers for procuring cargo.

951 Passenger brokerage.

This account shall include commissions paid to brokers and booking agencies for procuring passenger business

952 Agency fees and commissions.

This account shall include agency fees, attendance fees, and commissions for services performed by agents at outports. This account shall not include reimbursements to agents for those expenses incurred in the administration and supervision of port activities. Such expense shall be charged to the appropriate port expense account.

955 Contributions to pools.

This account shall be charged with contributions and other related expenses incurred with participation in pooling agreements, by transfer from account 055, "Pool participation."

960 Interest expense.

This account shall include all interest expense, other than amounts to affiliates which shall be charged to account 961. "Interest expense—affiliates", paid or payable. It shall not include interest on obligations issued and assumed and owned by the carrier.

961 Interest expense—affiliates.

This account shall include all interest paid or payable to affiliated companies.

965 Doubtful notes and accounts receivable.

This account shall be charged with provisions for reserves against all notes

V 39 91 MAY 9 74 XUM

and accounts receivable considered doubtful of collection.

970 Depreciation—other shipping property and equipment.

This account shall include the accrual of depreciation of property and equipment incident to shipping and its auxiliary operations for which no other account has been specifically provided, with a corresponding credit to account 352, "Accumulated depreciation—other shipping property and equipment."

971 Depreciation—non-shipping property and equipment.

This account shall include the accrual of depreciation of property and equipment used in ventures other than shipping and shipping auxiliary operations, with a corresponding credit to account 354, "Accumulated depreciation—non-shipping property and equipment."

975 Amortization—office leaseholds and leasehold improvements.

This account shall include the amortization of the cost of acquiring long-term leases, and the cost of alterations to, and fixtures installed in, leased office property, with a corresponding credit to account 355, "Office leaseholds and leasehold improvements."

976 Amortization—debt discount and expense.

This account shall include for each fiscal period such proportion of debt discount and expense on funded debt as is transferred from account 384, "Debt discount and expense."

977 Amortization—organization expense.

Amortization of expenses incurred in the formation or development of the business shall be charged to this account as transferred from account 385, "Organization expense."

979 Miscellaneous amortization expense.

Amortization of any deferred charges for which no other account is specifically provided shall be included in this account.

980 Expense of non-shipping operations.

This account shall include the gross expense other than depreciation incurred in ventures other than shipping and shipping auxiliary operations.

985 Income taxes accrued on ordinary income.

This account shall be charged with accruals for all income taxes which are estimated to be payable and which are applicable to ordinary income.

986 Provision for deferred income taxes.

This account shall include the tax effect of timing differences on ordinary income originating or reversing in the current period.

987 Income taxes on extraordinary items.

This account shall include the estimated income taxes consequences (debit or credit) assignable to the aggregate of items of both taxable income and deductions from taxable income which for accounting purposes are classified as extraordinary items.

988 Provision for deferred income taxes—extraordinary items.

This account shall include the tax effect of timing differences on extraordinary items originating or reversing in the current period.

989 Other taxes.

(a) This account shall include all taxes other than income taxes, sales taxes, and taxes computed on basis of payrolls such as old age benefits, unemployment compensation, and similar social security taxes.

(b) Sales taxes and taxes assessed against carriers for electrical energy, telegraph, telephone, radio, cables, checks, rental and safe deposit boxes, motor vehicle licenses, and other such expenses, shall be included in the respective accounts to which the cost of the material or services is charged. Social security taxes are to be included in the respective accounts to which other fringe benefits are charged.

(c) This account shall also be charged with the costs of business licenses.

990 Miscellaneous expense.

This account shall include all expenses of a general character for which no other account is provided including expenses from conversion of foreign currencies.

995 Extraordinary items.

This account shall include extraordinary items accounted for during the current fiscal year in accordance with generally accepted accounting principles.

APPENDIX

SEC. 282.0 *Clearance accounts.* (a) This group of accounts is designed to accommodate transactions which cannot be allocated directly to balance sheet or income and expense accounts until such transactions have been completely accounted for. In the preparation of periodical financial and operating statements, it is essential that these clearance accounts be analyzed and the balances reflected therein be distributed to appropriate account classifications on such statements.

(b) The balances in this group of accounts applicable to terminated voyages, or other accounting units of a closed fiscal year, must not be carried forward to the succeeding fiscal year.

ACCOUNT

SEC. .001 *Masters and pursers.* (a) This account shall be charged with amounts advanced to or collected by masters and pursers. The account shall be credited with the net amount of vessels' payrolls, with cash advances to members of the crew, with allowable expenses incurred, with endorsed travelers checks, and unexpended cash balances returned.

(b) Subsidiary accounts shall be maintained for each master and pursuer and a separate account maintained for each voyage or other accounting unit.

SEC. .005 *Allotments on wages of crews.* This account shall be charged with payments made to allottees of crews and shall be credited with deductions made therefore on vessels' payrolls.

SEC. .010 *Agents and branch houses.* (a) This account shall serve as a clearance account for all current transactions with foreign and domestic agents, and branch houses of the carrier. The account shall be charged with cash advances to agents and branch houses, and with freight and other voyage revenue collectible by the agent or branch house in instances where arrangements are made with them to disburse vessels therefrom. Freight and other voyage revenues collectible by agents who are required to remit in full shall be recorded in account 150, "Accounts receivable." This account shall be credited with remittances by the agents or branch houses, and with approved disbursements made for the account of the carrier.

(b) Subsidiary accounts shall be maintained by names of agents or branch houses.

SEC. .012 *Sub-agency operations.* (a) This account shall serve as a clearance account for all current transactions with other principals for whom the carrier acts as agent.

(b) The balances in this account shall be reflected in account 165, "Accounts receivable—miscellaneous," and account 421, "Accounts payable" for balance sheet purposes.

SEC. .015 *Related companies; accounts current.* (a) This account shall be charged with receivables and credited with payables which are customarily subject to current settlement. Under no circumstances shall loans, advances, or other transactions, the settlement of which is deferred beyond one year, be recorded in this account.

(b) The balance in this account shall be reflected in account 153, "Accounts receivable—affiliates" or account 415, "Notes and accounts payable—affiliates," for balance-sheet purposes.

(c) Subsidiary accounts shall be arranged by company, and a description of each transaction shall be reflected in the accounts.

SEC. .025 *Collections and deposits for passenger transportation.* (a) Gross passenger ticket sales and deposits including those for future reservations, hotel accommodations, shore excursions, passenger taxes, etc., shall be credited to this account.

(b) As transportation is furnished to passengers by vessels of the carrier, this account shall be charged and account 600, "Vessel revenue," credited. Deposits or collections for other purposes, including commissions earned or payable incident thereto, shall be cleared from this account as soon as practicable to appropriate accounts designated in the Chart. The credit balances remaining in this account shall be reflected in account 495, "Advance ticket sales and deposits," for balance sheet purposes.

(c) Subsidiary accounts shall be maintained in sections corresponding to the classifications shown on the daily ticket sales report, examples of which are: Prepaid orders, one-way tickets, round-trip tickets, exchange orders, railroad fares, hotel reservations, sightseeing tours, head tax, U.S. Government stamp tax, foreign government passenger taxes, commissions due agents and brokers, and commissions earned.

SEC. .030 *Collections on unrecorded freight manifests.* (a) This account shall be credited with all collections of freight revenue from shippers or consignees prior to the recording of the revenue manifests. When the manifest is recorded, the balance in this account applicable thereto shall be cleared with a corresponding credit to account 600, "Vessel revenue."

(b) Subsidiary accounts shall be maintained by vessels and consecutively by voyages or other accounting units.

SEC. .035 *Advance and prepaid beyond charges, and miscellaneous manifested items.* (a) When vessels manifests are journalized, this account shall be credited with advance charges, prepaid beyond charges, and miscellaneous manifested items, such as: Consular fees, cargo insurance, handling, transshipment, and transfer charges. The account shall be charged with expenses incurred in the performance of the services for which these collections were made. As transactions applicable to terminated voyages are completely accounted for net debit balances in this account shall be transferred to the appropriate 700 account and net credit balances to account 600, "Vessel revenue."

(b) Subsidiary accounts should be subdivided as between advance charges, prepaid beyond changes, and miscellaneous manifested items. Each group of account should be maintained by vessels and consecutively by voyages.

SEC. .040 *Bar accounts.* (a) This account shall be charged with inventories of bar supplies aboard vessels at the beginning of each voyage for sale to passengers, and with all purchases of such supplies during the voyage. The account shall be credited with the inventory of bar supplies on hand at the end of each voyage, and with gross sales during the voyage. As transactions applicable to terminated voyages are completely accounted for, net debit balances in this account shall be transferred to the appropriate 700 accounts and net credit balances to account 600, "Vessel revenue." The balance remaining in this account after profits and losses, on sales applicable to voyages terminated during the accounting period, have been cleared to the vessel operating accounts shall be reported on the balance sheet under the classification "Inventories."

(b) The subsidiary accounts shall be maintained by vessels and consecutively by voyages.

SEC. .045 *Slop chest account.* (a) This account shall be charged with inventories of slop chest supplies aboard vessels at the beginning of each voyage for sale to members of the crew, with all purchases of such supplies during the voyage. The account shall be credited with the inventory of slop chest supplies on hand at the end of each voyage, and with all gross sales during the voyage. As transactions applicable to terminated voyages are completely accounted for, net debit balances in this account shall be transferred to the appropriate 700 account and net credit balances to account 600, "Vessel revenue." The balance remaining in this account after profits and losses, on sales applicable to voyages terminated during the accounting period, have been cleared to the vessel operating accounts, shall be reported on the balance sheet under the classification "Inventories."

(b) The subsidiary accounts shall be maintained alphabetically by vessels and consecutively by voyages.

SEC. .050. *Foreign exchange account.* All gains or losses in foreign exchange shall be recorded in this account. At the close of each accounting period the balance in the account shall be transferred to account 690, "Miscellaneous—other income," or account 990, "Miscellaneous expense," as the case may be.

SEC. .055 *Pool participation.* (a) This account shall be charged with contributions to pools for the purpose of equalizing revenues in accordance with pooling agreements and shall be credited with gross collections received from pools for the same purpose.

(b) Charges against the carrier in administering the pooling agreements shall be recorded in account 925, "Dues and subscriptions." The balances in this account at the close of each accounting period, as prescribed in pooling agreements, shall be transferred to account 640, "Collections from pools," and account 955, "Contributions to pools."

(c) This account shall be maintained to show separately transactions under each pooling agreement and accounting period.

SEC. .060 *Stores, supplies, and equipment aboard vessels.* (a) Where inventories of vessels stores, supplies, and/or equipment are not taken and priced at the end of each voyage, the value of such inventories shall be charged to this account at the beginning of each contract period. The account should also be credited with the value of inventories of stores, supplies, and/or equipment at the end of each accounting period, after which any balance therein shall be charged or credited, as the case may be, to the last voyage of each vessel involved terminated during the accounting period.

(b) The accounts will not be used in instances where inventories of stores, supplies, and/or equipment are taken and priced at the end of each voyage.

(c) The balance in the account at the end of each accounting period, applicable to the subsequent account period, will be reflected in balance sheet account 200, "Deferred expense—unterminated voyages."

SEC. .095 *Profit and loss account.* At the end of the accounting year this account shall be credited or charged, as the case may be, with the balances in all ordinary, and extraordinary revenue and expense accounts, except where otherwise specifically indicated. After all entries have been made, the account shall reflect the net income for the accounting year. The net balance in this account after adjustments have been made for the accounting year shall be transferred to account 599, "Retained earnings—unrestricted."

282.6 Financial statements.

(A) BALANCE SHEET

Account Nos.	Assets
	Current assets:
100	Cash.
115	Special cash deposits.
120, 129	Marketable securities.
130	Notes receivable.
140	Notes receivable—affiliates.
150	Accounts receivable.
169	Less: Estimated allowance for doubtful notes and accounts receivable.
170	Inventories—shoreside.
190	Other current assets.
	Total current assets.
	Voyages in progress (when a net debit balance):
200	Deferred expenses—unterminated voyages.
500	Less: Deferred revenues—unterminated voyages.
	Special funds and deposits:
301	Capital reserve fund.
302	Capital construction fund.
303	Construction reserve fund.
304	Interest accounts for deposit in statutory funds.
305	Insurance funds.
306–310, 312	Other special funds and deposits.
	Total special funds and deposits.
	Investments:
316	Securities of related companies.
319	Non-current notes receivable—affiliated companies.
320	Non-current accounts receivables—affiliated companies.
325	Cash value of life insurance.
328	Other investments.
	Total investments.
	Property and equipment:
331	Floating equipment—vessels.
332	Less: Accumulated depreciation—vessels.
335	Floating equipment—barges.
337	Less: Accumulated depreciation—barges.
338	Other floating equipment.
341	Less: Accumulated depreciation—other floating equipment.
342	Containers.
343	Less: Accumulated depreciation—containers.
344	Refrigerated containers.
345	Less: Accumulated depreciation—refrigerated containers.
346	Container related equipment.
347	Less: Accumulated depreciation—container related equipment.
348	Chassis and trailer equipment.
349	Less: Accumulated depreciation—chassis and trailer equipment.
350	Terminal property and equipment.
351	Less: Accumulated depreciation—terminal property and equipment.
352	Other shipping property and equipment.
353	Less: Accumulated depreciation—other shipping property and equipment.
354	Non-shipping property and equipment.
355	Less: Accumulated depreciation — non-shipping property and equipment.
356	Office leaseholds and leasehold improvements.
357	Less: Accumulated amortization—office leaseholds and leasehold improvements.
358	Terminal leaseholds and leasehold improvements.
359	Less: Accumulated amortization—terminal leaseholds and leasehold improvements.
	Construction work in progress.
361	Total property and equipment after accumulated allowances.
362	Other assets:
363	Claims pending.
364	Spare parts on which construction-differential subsidy has been paid.
367	Spare parts—other.
368	Notes and accounts receivable from officers and employees.
370	Deferred operating-differential subsidy receivable.
374	Other non-current notes and accounts receivable.
169	Maritime Administration allowance for obsolete vessels.
	Miscellaneous other assets.
	Total other assets.
	Less: Estimated allowance for doubtful notes and accounts receivable.
	Total other assets after estimated allowance for doubtful notes and accounts receivables.

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19739; FCC 74-469]

PART 73—RADIO BROADCAST SERVICES

Table of Assignments in East Lansing, Mich.

Report and order. In the matter of amendment of § 73.606(b), *Table of assignments*, Television Broadcast Stations. (East Lansing, Michigan), Docket No. 19739, RM-2052.

1. The Commission has before it for consideration the May 9, 1973, notice of proposed rulemaking in this proceeding (38 FR 13491, published May 22, 1973) and comments from the proponent, the Board of Trustees of Michigan State University, seeking the designation of television Channel 23 at East Lansing, Michigan, as an educational assignment.

2. In its petition and comments the Board of Trustees pointed out that it was operating a noncommercial educational station on UHF Channel 23. (Although it was not mentioned in the original petition, it formerly shared time in the operation of VHF Channel 10 licensed to nearby Onondaga, Michigan.) In effect, the petition sought recognition of the actual use of the channel. In addition to Channel 23, Channel 69 was also listed as an East Lansing assignment, and the Board of Trustees urged us to leave the educational designation of this channel undisturbed. Other than the Board of Trustees, no party expressed any interest in the proceeding.

3. Since Channel 23 was already being put the educational use, the proposal to give *de jure* status to this *de facto* situation presents no complication. We believe that it is appropriate for the Table of Television Assignments to reflect the actual usage of the channel and it shall be charged accordingly. As to continuing the reserved status of Channel 69, however, the situation is not quite as simple. If the reservation were terminated, the channel would still be available for educational use, and for the first time it would become available for commercial use as well. On the other hand, since East Lansing has only two assignments, the proposal to maintain the reservation would effectively preclude the establishment of any commercial operation in East Lansing. Ordinarily, we would not be disposed to follow a procedure that would lead to allowing a channel to remain fallow for some period while interest in its educational use develops, when at the same time no commercial channel is available and an educational operation already exists. However, the situation involved here is atypical because of the proximity of Lansing which has three channel assignments.

Only Channel 6 of the three is in use; Channels 36 and 53 are vacant. Lansing is the far larger of the two communities and quite probably the more logical choice for locating a commercial station. In addition, lower UHF channels tend to be selected first, further suggesting that anxiety over foreclosing commercial use of Channel 69 is premature. Under these circumstances, we do not think it necessary to remove the reservation on Channel 69. If an interest in its use on a commercial basis should develop, we could then entertain an appropriate petition for rulemaking. In the meantime, we see no need to act on supposition about such future interest.

4. Therefore in accordance with the provisions of sections 4(i), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended: *It is ordered*, That, effective June 14, 1974, the Television Table of Assignments, Section 73.606(b) of the Commission's rules, insofar as the community listed below is amended to read as follows:

City	*Channel No.*
East Lansing, Mich	23, 69

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI 264]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the last column of the table is followed by a designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 Status of participating communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	State map repository	Local map repository
Alabama	Morgan	Falkville, town of	May 7, 1974. Emergency.			
Do.	Dallas	Selma, city of	do.	Dec. 17, 1973		
Michigan	Oakland	Berkley, city of	do.			
Minnesota	Scott	Shakopee, city of	do.			
Do.	Wadena	Unincorporated areas	do.			
Oregon	Union	do.	do.			

(National Flood Insurance Act of 1968 (title XIII of the Housing and Urban Development Act of 1968), effective Jan. 28, 1969 (33 FR 17804, Nov. 28, 1968), as amended (secs. 408–410, Pub. L. 91–152, Dec. 24, 1969), 42 U.S.C. 4001–4127; and Secretary's delegation of authority to Federal Insurance Administrator, 34 FR 2680, Feb. 27, 1969)

Issued: May 1, 1974.

CHARLES W. WIECKING,
Acting Federal Insurance Administrator.

Title 50—Wildlife and Fisheries

CHAPTER I—BUREAU OF SPORT FISHERIES AND WILDLIFE, FISH AND WILDLIFE, DEPARTMENT OF THE INTERIOR

PART 33—SPORT FISHING

Medicine Lake National Wildlife Refuge, Montana

The following special regulation is issued and is effective on May 9, 1974.

§ 33.5 Special regulations; sport fishing, for individual wildlife refuge areas.

MONTANA

MEDICINE LAKE NATIONAL WILDLIFE REFUGE

Sport fishing by rod, reel, pole and set lines, including use of live bait on the Medicine Lake National Wildlife Refuge, Medicine Lake, Montana, is permitted from June 15, through September 15, 1974, inclusive, but only on the area designated by signs as open to fishing. This open area comprises 800 acres and is delineated on maps available at refuge headquarters, 3 miles southeast of Medicine Lake, Montana 59247 and from the Regional Director, U.S. Fish and Wildlife Service, P.O. Box 25486, Denver, Colorado 80225. Sportfishing is permitted on all of Medicine Lake from December 1, 1974 through March 31, 1975, inclusive. Sport fishing shall be in accordance with all applicable State regulations.

The provisions of this special regulation supplement the regulations which govern fishing on wildlife refuge areas generally which are set forth in Title 50, Code of Federal Regulations, Part 33, and are effective through March 31, 1975.

DONALD M. WHITE,
Refuge Manager, Medicine Lake National Wildlife Refuge, Medicine Lake, Montana 59247.

MAY 3, 1974.

Title 49—Transportation

CHAPTER V—NATIONAL HIGHWAY TRAFFIC SAFETY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 69-31; Notice 6]

PART 573—DEFECT REPORTS

Vehicle Identification Numbers; Response to Petitions for Reconsideration

This notice responds to petitions for reconsideration of the amendment of 49 CFR Part 573, "Defect Reports," requiring the submission to NHTSA of the vehicle identification numbers (VIN) of motor vehicles found to contain safety related defects. The amendment was published February 5, 1974 (39 FR 4578). Except insofar as granted by this notice, the requests of the petitioners are denied.

Two petitions for reconsideration, one from General Motors Corporation and the other from Chrysler Corporation, were received. Both petitions objected to the requirement that VIN's be reported in the second quarterly report filed subsequent to the initiation of the defect notification campaign. Both pointed out that the NHTSA had stated in the amendment published February 5, 1974, that it was desirable to defer reporting VIN's until six months had passed from the time a notification campaign had begun. Both petitioners argued that the time for filing the second quarterly report is frequently less than six months, and suggested that the third quarterly report rather than the second was the more appropriate quarterly report to contain vehicle identification numbers. General Motors indicated that the average elapsed time from the initiation of a notification campaign to the filing of the second quarterly report is four and one-half months, while the elapsed time until the filing of the third quarterly report is, on the average, seven and one half months. The NHTSA still believes it reasonable to allow a six-month period from the initiation of the campaign to elapse before VIN's are submitted. Accordingly, the NHTSA has granted the petitions insofar as they request that VIN's be reported in the third quarterly report submitted to NHTSA by the manufacturer.

Chrysler objected to the VIN reporting requirement generally, on the basis that it is unnecessary and will not produce the desired results. It requested that an evaluation of the usefulness of the requirement be conducted after it is in effect, and that appropriate modifications be made if the requirement fails to achieve the desired results. General Motors requested that NHTSA maintain a public record of requests for VIN's so that future consideration can be given to the extent that the data is useful, and to whom it is useful. The NHTSA believes that public availability of VIN's will facilitate locating and repairing defective vehicles no longer in the hands of first purchasers. At the same time it agrees to conduct an evaluation of the efficacy of the requirement once it is in effect. The extent of usage is a relevant aspect of an evaluation of this type, and the NHTSA sees no prohibition against maintaining a public record of requests for the information.

The amended regulation will be effective August 6, 1974, and as such will require all third quarterly reports submitted to NHTSA on or after that date to contain appropriate vehicle identfication numbers. The effective date has been changed from May 6, 1974, as a result of the change requiring the third rather than the second quarterly report to contain VIN's. As a practical matter, VIN's will be required to be reported in the third quarterly report for all defect notification campaigns initiated on or after January 1, 1974 (NHTSA campaign numbers 74–0001 and subsequent campaigns).

In light of the above, 49 CFR Part 573, Defect Reports, is amended by revising § 573.5(e) as follows:

§ 573.5 Quarterly reports.

* * * * *

(e) The information specified in paragraphs (c)(1) through (c)(8) of this section shall be included in the quarterly reports, with respect to each notification campaign, for six consecutive quarters beginning with the quarter in which the campaign was initiated, or until corrective action has been completed on all defective vehicles involved in the campaign, whichever occurs first. The information specified in paragraph (c)(9) of this section shall be included only in the third quarterly report furnished pursuant to this section.

Effective date: August 6, 1974.

(Secs. 103, 112, 113, and 119, Pub. L. 89-563, 80 Stat. 718; 15 U.S.C. 1392, 1401, 1402, 1407, and the delegation of authority at 49 CFR 1.51; Office of Management and Budget approved 04-R5628)

Issued on May 6, 1974.

GENE G. MANNELLA,
Acting Administrator.

[Docket No. 26; Notice 11]

PART 575—CONSUMER INFORMATION REQUIREMENTS

Uniform Tire Quality Grading; Response to Petitions for Reconsideration; Revocation

This notice revokes the Uniform Tire Quality Grading regulation published January 4, 1974 (39 FR 1037), and responds to petitions for reconsideration received with respect to the regulation.

The Uniform Tire Quality Grading regulation specified the use of "control tires" in the establishment of grades for treadwear and traction. The NHTSA expected that control tires would be manufactured by an industry source pursuant to NHTSA contract, and would be available for both industry and government use. A solicitation for a proposal to manufacture control tires was advertised to the domestic tire industry. Two proposals were received. Each, however, has been determined to be nonresponsive to the solicitation, which has accordingly been cancelled.

Due to the failure of NHTSA to procure a control tire, the agency must revoke the Uniform Tire Quality Grading regulation in its present form. The revocation of the regulation renders moot the petitions for reconsideration received.

On May 2, 1974, an order was entered by the United States District Court for the District of Columbia in the case of "Nash v. Brinegar" (Civil Action No. 177–73) requiring the NHTSA to issue, by June 15, 1974, a notice of proposed rulemaking for a revised Uniform Tire Quality Grading regulation having a proposed effective date of May 1, 1975.

In light of the above, § 575.104 "Uniform Tire Quality Grading" of Chapter V, Title 49, Code of Federal Regulations, is revoked, effective on May 9, 1974.

Title 7—Agriculture

SUBTITLE A—OFFICE OF THE SECRETARY

PART 2—DELEGATIONS OF AUTHORITY BY THE SECRETARY OF AGRICULTURE AND GENERAL OFFICERS OF THE DEPARTMENT

Assistance to Eligible Volunteer Fire Departments

Part 2, Subtitle A of Title 7, Code of Federal Regulations, is amended to delegate to the Assistant Secretary for Conservation, Research, and Education, and to redelegate to the Chief, Forest Service, the authority to administer the program of assistance to eligible volunteer fire departments authorized by section 306(a) of the Consolidated Farm and Rural Development Act, as amended (7 U.S.C. 1926(a)(13)), and to make certain conforming amendments, as follows:

Subpart C—Delegations of Authority to the Under Secretary, Assistant Secretaries, and Director of Agricultural Economics

1. Section 2.19 is amended by adding a new paragraph (d)(20) to read as follows:

§ 2.19 Delegations of authority to the Assistant Secretary for Conservation, Research, and Education.

* * * * *

(d) *Related to forest service.* * * *

(20) Administer the program for assistance to eligible volunteer fire departments authorized by the Consolidated Farm and Rural Development Act, as amended (7 U.S.C. 1926(a)(13)).

* * * * *

2. Section 2.23(a) is amended to read as follows:

§ 2.23 Delegations of authority to the Assistant Secretary for Rural Development.

(a) *Related to farmers home activities.* (1) Administer the Consolidated Farm and Rural Development Act (7 U.S.C. 1921 et seq.), except (i) with respect to loans for rural electrification and telephone facilities and service delegated to the Assistant Secretary for Rural Development in paragraph (c)(2) of this section; and (ii) the authority contained in section 342 of said act, 7 U.S.C. 1013a; and (iii), the authority under 7 U.S.C. 1926(a)(13), for assistance to eligible volunteer fire departments. This delegation includes the authority to collect, service, and liquidate loans made or insured by the Farmers Home Administration, or its predecessor agencies, the Farm Security Administration, the Emergency Crop and Feed Loans Offices of the Farm Credit Administration, the Resettlement Administration, and the Regional Agricultural Credit Corporations of Washington, D.C.

* * * * *

Subpart G—Delegations of Authority by the Assistant Secretary for Conservation, Research, and Education

3. Section 2.60 is amended by adding a new paragraph (a)(19) to read as follows:

§ 2.60 Chief, Forest Service.

(a) *Delegations.* * * *

(19) Administer the program for assistance to eligible Volunteer fire departments as authorized by the Consolidated Farm and Rural Development Act, as amended (7 U.S.C. 1926(a)(13)).

* * * * * *

Subpart I—Delegations of Authority by the Assistant Secretary for Rural Development

4. Section 2.70(a) is amended to read as follows:

§ 2.70 Administrator, Farmers Home Administration.

(a) *Delegations.* * * *

(1) Administration of the Consolidated Farm and Rural Development Act (7 U.S.C. 1921, et seq.), except (i) with respect to loans for rural electrification and telephone facilities and service delegated to the Administrator, Rural Electrification Administration in § 2.72(a)(2); and (ii) the authority contained in section 342 of said act, 7 U.S.C. 1013a; and (iii) the authority under 7 U.S.C. 1926(a)(13), for assistance to eligible volunteer fire departments. This delegation includes the authority to collect, service, and liquidate loans made or insured by the Farmers Home Administration or its predecessor agencies, the Farm Security Administration, the Emergency Crop and Feed Loans Offices of the Farm Credit Administration, the Resettlement Administration, and the Regional Agricultural Credit Corporation of Washington, D.C.

* * * * *

(5 U.S.C. 301 and Reorganization Plan No. 2 of 1953.)

Effective date. This amendment is effective on May 6, 1974.

Dated: May 6, 1974.

For Subpart C:

EARL L. BUTZ,
Secretary.

Dated: April 22, 1974.

For Subpart G:

ROBERT W. LONG,
Assistant Secretary for Conservation, Research, and Education.

Dated: April 25, 1974.

For Subpart I:

WILLIAM W. ERWIN,
Assistant Secretary for Rural Development.

CHAPTER II—FOOD AND NUTRITION SERVICE, DEPARTMENT OF AGRICULTURE

PART 220—SCHOOL BREAKFAST AND NONFOOD ASSISTANCE PROGRAMS AND STATE ADMINISTRATIVE EXPENSES

Appendix—Second Apportionment of Nonfood Assistance Funds Pursuant to Child Nutrition Act of 1966, Fiscal Year 1974

Pursuant to section 5(e) of the Child Nutrition Act of 1966, Pub. L. 89-642, 80 Stat. 887, nonfood assistance funds available for the fiscal year ending June 30, 1974, are reapportioned among the States as follows:

State	Total apportionment	State agency	Withheld for private schools
Alabama			
Alaska	$97,523	$97,523	
Arizona	113,700	113,700	
Arkansas	3,983		$3,983
California	1,034,183	1,034,183	
Colorado	58,846	54,240	4,606
Connecticut	1,085,670	1,085,670	
Delaware	21,616	21,616	
District of Columbia	4,319	4,319	
Florida	70,907	70,907	
Georgia			
Guam			
Hawaii	10,000		10,000
Idaho	97,246	97,246	
Illinois	667,673	667,673	
Indiana	536,734	536,734	
Iowa	33,913	18,346	15,567
Kansas	257,364	257,364	
Kentucky	15,979	15,979	
Louisiana	3,000	3,000	
Maine	292,501	281,876	10,623
Maryland	5,030	5,030	
Massachusetts	1,179,587	1,179,587	
Michigan	624,388	624,388	
Minnesota	348,909	348,909	
Mississippi	19,026	19,026	
Missouri	838	838	
Montana	325,616	324,393	1,222
Nebraska	139,803	101,262	38,541
Nevada	40,000	37,000	3,000
New Hampshire	178,151	178,151	
New Jersey	1,709,388	1,709,388	
New Mexico	22,957	22,957	
New York	696,124	696,124	
North Carolina			
North Dakota	22,613	20,516	2,097
Ohio	1,193,412	1,142,999	50,413
Oklahoma	31,977	31,977	
Oregon	55,430	55,430	
Pennsylvania	881,214	838,105	43,109
Puerto Rico	109,812	109,812	
Rhode Island	928,501	928,501	
South Carolina			
South Dakota	75,137	75,137	
Tennessee	39,112	39,112	
Texas	57,149	46,934	10,215
Utah	98,207	98,207	
Vermont	115,109	115,109	
Virginia	41,465	2,792	38,673
Virgin Islands	254,007	254,007	
Washington	121,050	76,332	44,718
West Virginia	74,165	58,051	16,114
Wisconsin	193,636	183,636	10,000
Wyoming	3,172	3,172	
Subtotal	13,990,141	13,087,260	302,881
Balance	64,859		
Total	14,055,000		

The survey made of nonfood assistance funds provided under section 5(a) of the Child Nutrition Act determined that only $13,219 could be released by States. This amount was determined to be too insignificant to be reapportioned and will be carried over into fiscal year 1975.

(Sec. 2, 5, 6 and 8 through 16, 80 Stat. 885-890; U.S.C. 1771, 1774, 1775, 1777-1785)

Dated: May 3, 1974.

EDWARD J. HEKMAN,
Administrator.

[FR Doc.74-10597 filed 5-8-74;8:45 am]

CHAPTER IV—FEDERAL CROP INSURANCE CORPORATION, DEPARTMENT OF AGRICULTURE

[Amdt. 51]

PART 401—FEDERAL CROP INSURANCE

Subpart—Regulations for the 1969 and Succeeding Crop Years

APPLICATION OF CONTRACT PROVISIONS

Pursuant to the authority contained in the Federal Crop Insurance Act, as amended, the above-identified regulations are amended in the following respect:

1. Section 401.107 of this chapter is amended to read as follows:

§ 401.107 Good faith reliance on misrepresentation.

Notwithstanding any other provision of the insurance contract, whenever an insured person under any contract of crop insurance entered into under these regulations, or any other regulations in this chapter issued pursuant to the Federal Crop Insurance Act, as amended, has suffered a loss to a crop which is not insured, or for which he is not entitled to an indemnity because of failure to comply with the terms of the insurance contract, but which he believed to be insured, or believed the terms of the insurance contract to have been complied with or waived, because of a misrepresentation or other erroneous action or advice by an agent or employee of the Corporation and the Board of Directors of the Corporation, or the Manager in cases involving not more than $5,000.00, finds (a) that an agent or employee of the Corporation did in fact make such misrepresentation or take other erroneous action or give erroneous advice, (b) that said insured person relied thereon in good faith, and (c) that to deny said insured's claim for indemnity would not be fair and equitable, such insured person shall be entitled to such indemnity the same as if otherwise entitled thereto.

(Secs. 506, 516, 52 Stat. 73, as amended, 77, as amended; (7 U.S.C. 1506, 1516))

The only change made by the proposed amendment with respect to § 401.107 is the insertion of "or the Manager in cases involving not more than $5000.00." Thus, the proposed amendment simply authorizes the Manager to make the necessary findings in cases involving not more than $5000.00, and relieves the Board of Directors of the necessity for doing so. Since the foregoing amendment contained only a change in administrative procedure consisting of a delegation of authority within the agency and involved no substantive change in the insurance contract, the Board of Directors found that it would be unnecessary to follow the procedure for notice and public participation prescribed by 5 U.S.C. 553 (b) and (c), as directed by the Secretary of Agriculture in a Statement of Policy, executed July 20, 1971 (36 FR 13804), prior to its adoption. Accordingly, said amendment was adopted by the Board of Directors on April 17, 1974, to become effective May 9, 1974.

[SEAL] LLOYD E. JONES,
Secretary, Federal Crop Insurance Corporation.

Approved on May 6, 1974.

EARL L. BUTZ,
Secretary.

[FR Doc.74-10672 Filed 5-8-74;8:45 am]

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Navel Orange Reg. 324]

PART 907—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation fixes the quantity of California-Arizona Navel oranges that may be shipped to fresh market during the weekly regulation period May 10-16, 1974. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 907. The quantity of Navel oranges so fixed was arrived at after consideration of the total available supply of Navel oranges, the quantity currently available for market, the fresh market demand for Navel oranges, Navel orange prices, and the relationship of season average returns to the parity price for Navel oranges.

§ 907.624 Navel Orange Regulation 324.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 907, as amended (7 CFR Part 907), regulating the handling of Navel oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674), and upon the basis of the recommendations and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the respective quantities of Navel oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Navel orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Navel oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Navel oranges is holding well.

Prices f.o.b. averaged $3.55 a carton on a reported sales volume of 825 carlots last week, compared with an average f.o.b. price of $3.71 per carton and sales of 958 carlots a week earlier. Track and rolling supplies at 285 cars were down 195 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Navel oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meetirig was held on May 7, 1974.

(b) *Order.* (1) The respective quantities of Navel oranges grown in Arizona and designated part of California which may be handled during the period May 10, 1974, through May 16, 1974, are hereby fixed as follows:

(i) District 1: 650,000 cartons;

(ii) District 2: Unlimited movement;

(iii) District 3: Unlimited movement."

(2) As used in this section, "handled," "District 1," "District 2," "District 3," and "carton" have the same meaning as when used in said amended marketing agreement and order.

V 39 91 MAY 9 74 XUM

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: May 8, 1974.

CHARLES R. BRADEN,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service

[FR Doc.74–10928 Filed 5–8–74;11:39 am]

[Valencia Orange Reg. 464]

PART 908—VALENCIA ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

Limitation of Handling

This regulation fixes the quantity of California-Arizona Valencia oranges that may be shipped to fresh market during the weekly regulation period May 10–16, 1974. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 908. The quantity of Valencia oranges so fixed was arrived at after consideration of the total available supply of Valencia oranges, the quantity of Valencia oranges currently available for market, the fresh market demand for Valencia oranges, Valencia orange prices, and the relationship of season average returns to the parity price for Valencia oranges.

§ 908.764 Valencia Orange Regulation 464.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 908, as amended (7 CFR Part 908), regulating the handling of Valencia oranges grown in Arizona and designated part of California, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Valencia Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such Valencia oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) The need for this section to limit the respective quantities of Valencia oranges that may be marketed from District 1, District 2, and District 3 during the ensuing week stems from the production and marketing situation confronting the Valencia orange industry.

(i) The committee has submitted its recommendation with respect to the quantities of Valencia oranges that should be marketed during the next succeeding week. Such recommendation, designed to provide equity of marketing opportunity to handlers in all districts, resulted from consideration of the factors enumerated in the order. The committee further reports that the fresh market demand for Valencia oranges continues to improve.

Prices f.o.b. averaged $3.50 per carton on a reported sales volume of 362 carlots last week, compared with an average f.o.b. price of $3.45 per carton and sales of 259 carlots a week earlier. Track and rolling supplies at 279 cars were up 60 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the respective quantities of Valencia oranges which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for Valencia oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such Valencia oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on May 7, 1974.

(b) *Order.* (1) The respective quantities of Valencia oranges grown in Arizona and designated part of California which may be handled during the period May 10, 1974, through May 16, 1974, are hereby fixed as follows:

(i) District 1: 300,000 cartons;

(ii) District 2: 255,000 cartons;

(iii) District 3: 195,000 cartons."

(2) As used in this section, "handled", "District 1", "District 2", "District 3", and "carton" have the same meaning as when used in said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: May 8, 1974.

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Grapefruit Reg. 14, Amdt. 3]

PART 944—FRUITS; IMPORT REGULATIONS

Minimum Size Requirement for Imports of Pink Seedless Grapefruit

This amendment lowers the minimum diameter restriction applicable to imported pink seedless grapefruit to 3$^{5}/_{16}$ inches on May 6, 1974. The restriction is the same as that applicable to grapefruit produced in Florida and regulated pursuant to Marketing Order No. 905.

This amendment is consistent with section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). This section requires that whenever specified commodities, including grapefruit, are regulated under a Federal marketing order imports of that commodity must meet the same or comparable requirements as those in effect for the domestically produced commodity. This regulation imposes the same size requirement on imported pink seedless grapefruit as is effective under Marketing Order No. 905, as amended (7 CFR Part 905) regulating the handling of oranges, grapefruit, tangerines and tangelos grown in Florida.

Order. In § 944.110 (Grapefruit Regulation 14; 38 FR 26108, 28286; 39 FR 7798) the provisions of paragraph (a) are amended to read as follows:

§ 944.110 Grapefruit Regulation 14.

(a) • • •

(1) Seeded grapefruit shall grade at least U.S. No. 1 and be of a size not smaller than 3$^{1}/_{16}$ inches in diameter except that a tolerance for undersize grapefruit shall be permitted as specified in § 51.761 of the United States Standards for Florida Grapefruit;

(2) Seedless grapefruit shall grade at least Improved No. 2 ("Improved No. 2" shall mean grapefruit grading at least U.S. No. 2 and also meeting the requirements of the U.S. No. 1 grade as to shape (form) and color.); and

(3) Seedless grapefruit other than pink seedless grapefruit shall be not smaller than 3$^{9}/_{16}$ inches in diameter, and pink seedless grapefruit shall be not smaller than 3$^{5}/_{16}$ inches in diameter, except that a tolerance for undersize grapefruit shall be permitted as specified in § 51.761 of the United States Standards for Florida Grapefruit.

• • • • •

It is hereby found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective time of this amendment beyond that hereinafter specified (5 U.S.C. 553) in that (a) the requirements of this amended import regulation are imposed pursuant to section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), which makes such regulation mandatory; (b) this amendment imposes the same restrictions on imports of pink seedless grapefruit as are applicable under amended Grapefruit Regulation 74 (§ 905.551) to the shipment of pink seedless grapefruit grown in Florida; (c) compliance with this amended import regulation will not require any special preparation which cannot be completed by the effective time hereof; and (d) this amendment relieves restrictions on the importation of pink seedless grapefruit.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated, May 2, 1974, to become effective May 6, 1974.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.74–10661 Filed 5–8–74;8:45 am]

Title 42—Public Health

CHAPTER I—PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

SUBCHAPTER D—GRANTS

PART 57—GRANTS FOR CONSTRUCTION OF HEALTH RESEARCH FACILITIES (INCLUDING MENTAL RETARDATION RESEARCH FACILITIES), TEACHING FACILITIES, STUDENT LOANS, EDUCATIONAL IMPROVEMENT AND SCHOLARSHIPS

Nursing Student Loans

In the FEDERAL REGISTER of August 30, 1973 (38 FR 23414) the Acting Director, National Institutes of Health, with the approval of the Secretary of Health, Education, and Welfare, proposed to amend Part 57 by repealing Subpart D of Part 57 and substituting a new Subpart D in lieu thereof. The purpose of the proposed change was to implement certain statutory changes made by the Nurse Training Act of 1971 (Pub. L. 92–158).

Interested persons were afforded the opportunity to participate in the rulemaking through the submission of comments on or before October 1, 1973. The bulk of the comments received requested additions or changes which could be effectuated only through further amendments to the statute. These suggestions were: (1) That § 57.314(a) be modified to provide for deferring repayment of loans until a borrower completes his undergraduate studies, whether in nursing or other fields of study, (2) that the Secretary require schools to notify students of the reason for the approval or disapproval of their loan application (which is already standard procedure for many institutions), (3) that employed nurses aides and attendants be given preference for nursing student loans and (4) that individuals be entitled to receive 100 percent forgiveness for work in service areas.

Two other suggestions were also made The first suggestion was that a provision be added to § 57.309 prohibiting discrimination on the basis of age. This suggestion will be given serious consideration, but inasmuch as its nature requires coordination with other components of the Department, such as the Office for Civil Rights, no addition to the regulations has been made at this time. Such consideration however may dictate future amendment of the regulations in this regard. The second suggestion was that the regulations be modified to require that borrowers be given notification of the various methods for repayment of their loans. This suggestion was not implemented since, although not in the regulations, the Department already requires through its "Manual of Information, Policies, and Procedures" that schools conduct an "exit interview" with each borrower to assure that the student is aware of the obligations and benefits available to him under the program.

There have, however, been a few minor changes in the regulations as proposed, which are merely editorial and technical in nature, and are self-explanatory.

Effective date. The regulations as set forth below shall become effective on or before June 10, 1974.

Dated: February 26, 1974.

CHARLES C. EDWARDS,
Assistant Secretary for Health.

Approved: May 3, 1974.

CASPAR W. WEINBERGER,
Secretary.

Subpart D—Nursing Student Loans

Sec.
57.301 Applicability.
57.302 Definitions.
57.303 Eligibility of schools.
57.304 Application by school.
57.305 Agreements for Federal Capital Contributions and Federal Capital Loans.
57.306 Allotment and payment of Federal Capital Contributions and Federal Capital Loans.
57.307 Federal Capital Loan promissory note.
57.308 Nursing Student Loan Funds.
57.309 Nondiscrimination.
57.310 Eligibility and selection of nursing student loan recipients.
57.311 Maximum amount of nursing student loan.
57.312 Evidence of student indebtedness—promissory note; security.
57.313 Payment of nursing student loans.
57.314 Repayment and collection of nursing student loans.
57.315 Cancellation of nursing student loans for disability and death.
57.316 Loan cancellation or repayment for service.
57.317 Repayment of loans made subsequent to November 17, 1971, for failure to complete course of study.
57.318 Records, reports, inspection and audit.
57.319 Additional conditions.
57.320 Noncompliance.

AUTHORITY: Sec. 215, 58 Stat. 170, as amended (42 U.S.C. 216).

Subpart D—Nursing Student Loans

§ 57.301 Applicability.

The regulations in this subpart are applicable to Federal Capital Contributions and Federal Capital Loans made by the Secretary to public or other nonprofit schools of nursing under sections 822 and 827 of the Public Health Service Act and to loans made to students by such schools pursuant thereto.

§ 57.302 Definitions.

All terms not defined herein shall have the same meaning as given them under title VIII of the Act. As used in this subpart, the following terms shall have the following meanings:

(a) "Act" means the Public Health Service Act, as amended.

(b) "Secretary" means the Secretary of Health, Education, and Welfare, and any other officer or employee to whom the authority involved has been delegated.

(c) "School" means a public or other nonprofit school of nursing as defined in section 843 of the Act.

(d) "Nursing Student Loan Fund or Funds" means a Fund established at a school pursuant to part B of title VIII of the Act, either with Federal Capital Contributions together with Institutional Capital Contributions, or with Federal Capital Loans. Where a school received monies from both sources of payment, reference is made to Funds.

(e) "Federal Capital Contribution" means the capital portion allotted by the Secretary to a school for deposit in a Nursing Student Loan Fund pursuant to section 824 of the Act.

(f) "Institutional Capital Contribution" means the money provided by a school, in an amount not less than one-ninth of the Federal Capital Contribution, and deposited in a Nursing Student Loan Fund.

(g) "Federal Capital Loan" means a loan made by the Secretary to a school pursuant to section 827(a) of the Act; the proceeds of which are to be deposited in a Nursing Student Loan Fund.

(h) "Nursing student loan" means the amount of money advanced to a student by a school from a Nursing Student Loan Fund as defined in paragraph (d) of this section, under a properly executed promissory note.

(i) "Educational loan" means a nursing student loan as defined in paragraph (h) of this section or the amount of money provided to a student under any other bona fide loan which the Secretary determines was reasonably necessary for meeting the student's costs of attending a school of nursing, taking into account the tuition, fees, books, equipment, living expenses, and such other expenses as the Secretary determines were reasonably necessary to enable an individual to attend such school.

(j) "Full-time student" means a student who is enrolled in a school and pursuing a course of study which constitutes a full-time academic workload, as determined by the school, leading to a diploma in nursing, an associate degree in nursing or an equivalent degree, a baccalaureate degree in nursing or an equivalent degree, or a graduate degree in nursing.

(k) "Half-time student" means a student who is enrolled in a school and pursuing a course of study which constitutes at least one-half of a full-time

V 39 91 MAY 9 74 XUM

academic workload but less than a full-time academic workload, as determined by the school, leading to a diploma in nursing, an associate degree in nursing, a baccalaureate degree in nursing or an equivalent degree, or a graduate degree in nursing.

(l) "Good standing" means the eligibility of a student to continue in attendance at the school where he is enrolled as a student in accordance with the school's standards and practices.

(m) "Date upon which a student ceases to be a full-time or half-time student" means the first day of the month which is nearest to the date upon which he ceases to be a full-time or half-time student as defined in paragraphs (j) and (k) of this section, respectively.

(n) "Academic year" means the traditional, approximately 9-month September to June annual session. For the purpose of computing academic year equivalents for students who, during a 12-month period, attend for a longer period than the traditional academic year, the academic year will be considered to be of 9 months' duration.

(o) "Fiscal year" means the Federal fiscal year commencing on the first day of July and ending on the 30th day of June.

(p) "Permanently and totally disabled" means the inability to engage in any substantial gainful activity because of medically determinable impairment, which impairment is expected to continue for a long and indefinite period of time, or to result in death.

(q) "Uniformed service" means the Army, Navy, Air Force, Marine Corps, Coast Guard, National Ocean Survey, and the U.S. Public Health Service.

(r) "National of the United States" means (1) a citizen of the United States or (2) a person who, though not a citizen of the United States, owes permanent allegiance to the United States (8 U.S.C. 1101(a)(22)).

(s) "State health authority" means the Director of the agency responsible for administering or supervising the administration of the State plan for health services under section 314(d) of the Act.

(t) "Registered nurse" means an individual who has been licensed by a State Board of Nursing to practice professional nursing pursuant to State licensing laws requiring as a minimum one of the degrees or diplomas specified in paragraph (j) of this section.

§ 57.303 Eligibility of schools.

To be eligible for a Federal Capital Contribution or a Federal Capital Loan under this subpart, the applicant shall meet the applicable requirements of sections 822(a) and 827(a) of the Act.

§ 57.304 Application by school.

(a) Each school desiring a Federal Capital Contribution or a Federal Capital Loan under Title VIII of the Act shall submit an application in such form and at such time as the Secretary may require.[1] The application shall be executed by an official authorized to act for the applicant school and to assume on behalf of the applicant school the obligations imposed by the terms and conditions of any Federal Capital Contribution or Federal Capital Loan, including the regulations of this subpart.

(b) Each application shall be reviewed to determine institutional eligibility and the reasonableness of the amount requested. When necessary to these ends, the Secretary may require the submission of additional data.

§ 57.305 Agreements for Federal Capital Contributions and Federal Capital Loans.

(a) *Federal Capital Contribution agreements.* No application for a Federal Capital Contribution shall be approved unless there is in effect an Agreement between the Secretary and the applicant school for Federal Capital Contributions pursuant to section 822 of the Act.

(b) *Federal Capital Loan agreements.* No application for a Federal Capital Loan shall be approved unless there is in effect an Agreement between the Secretary and the applicant school for Federal Capital Loans containing the terms required by section 827(b) of the Act and such additional terms and conditions, consistent with the applicable provisions of section 822 of the Act, as the Secretary deems appropriate.

§ 57.306 Allotment and payment of Federal Capital Contributions and Federal Capital Loans.

(a) *Annual allotment.* At a time determined by him, the Secretary shall make allotments to each school with which he has entered into an agreement pursuant to § 57.305. The allotment to each school, whether in the form of Federal Capital Contributions or Federal Capital Loans or a combination of both, shall be an amount which bears the same ratio to the total amount of Federal funds determined by the Secretary at the time of such allotment to be available for such fiscal year for the Nursing Student Loan Program as the number of full-time students in such schools bears to the estimated total number of full-time students in all such schools in all the States during such year.

(b) *Supplementary allotment from revolving fund only.* From funds which become available during any fiscal year for payment to schools from the revolving fund established by section 827(a) of the Act after the allotments pursuant to paragraph (a) of this section for such fiscal year have been made, the Secretary may, in his discretion and at such time as he shall determine, make supplementary allotments to schools with which he has Federal Capital Loan Agreements and who request funds for such fiscal year in excess of the amounts allotted to them pursuant to paragraph (a) of this section. If the total need for supplementary funds exceeds the amount determined by the Secretary to be available for supplementary allotments, the supplementary allotment to each school shall be reduced to whichever of the following is the smaller: (1) The supplementary amount requested or (2) an amount which bears the same ratio to the amount determined by the Secretary to be available for supplementary allotment as the number of full-time students estimated by the Secretary to be enrolled in such school bears to the estimated total number of full-time students enrolled for such year in all schools which request supplementary allotments. Any amounts remaining after such supplementary allotment may be allotted among schools in such manner as the Secretary determines will best carry out the purposes of the Act.

(c) *Payment.* The allotment of Federal Capital Contributions and/or Federal Capital Loans to a school shall be paid in such amounts, at such times, and in such installments as will not result in unnecessary accumulation of money in any Nursing Student Loan Fund.

§ 57.307 Federal Capital Loan Promissory note.

Each Federal Capital Loan shall be made subject to the terms of a promissory note which shall be executed by an authorized official on behalf of the borrowing school. Each such note shall include such terms with respect to the payment of interest and the repayment of principal as are consistent with the provisions of section 827 of the Act, and shall include such other terms as the Secretary finds reasonably necessary to protect the financial interests of the United States and to promote the purposes of the Act.

§ 57.308 Nursing Student Loan Funds.

(a) *Funds established with Federal Capital Contributions.* Any fund established by a school with Federal Capital Contributions shall be deposited and carried in a special account of such school. There shall be in such fund at all times monies representing the Institutional Capital Contribution, equal to at least one-ninth of the amount of the balance of the Federal Capital Contributions in such fund.

(1) Except for funds transferred as provided for in paragraph (a)(2) of this section, such fund shall be used by such school only for (i) nursing student loans to students; (ii) capital distribution as provided in section 826 of the Act or as agreed to by the school and the Secretary; and (iii) costs of litigation and, to the extent specifically approved by the Secretary, other collection costs that are in excess of the usual expenses incurred in the collection of nursing student loans.

(2) Not to exceed 20 percent of the amount paid to any such school from the appropriation for any fiscal year ending after June 30, 1969, for Federal Capital Contributions may be transferred to the sums available to the school for scholarship awards under section 860 of the Act, to be used for the same purpose as such sums; *Provided, however,* That where the Secretary finds in a particular case that a school has demonstrated an unusual need for scholarship funds, he may approve the transfer of any amount in excess of 20 percent of the amount so paid. In the case of any transfer pursuant to this subparagraph, the proportionate amount of the Institutional Capital Contribution (i.e., one-ninth of the amount so transferred) may be withdrawn by the school from such fund.

(b) *Funds established with Federal Capital Loans.* Any fund established by a school with Federal Capital Loans shall be deposited and carried in a special account of such school, and shall be used by such school only for (1) nursing student loans to students; (2) repayments of principal and interest on Federal Capital Loans; and (3) costs of litigation and, to the extent specifically approved by the Secretary, other collection costs that are in excess of the usual expenses incurred in the collection of nursing student loans.

§ 57.309 Nondiscrimination.

(a) No eligible applicant shall be denied a nursing student loan on the grounds of sex or creed.

(b) Attention is called to the requirements of section 845 of the Act and 45 CFR Part 83 which together provide that the Secretary may not enter into a contract under title VIII of the Act with any entity unless he receives satisfactory assurances that the entity will not discriminate on the basis of sex in the admission of individuals to its training programs.

(c) Attention is called to the requirements of Title VI of the Civil Rights Act of 1964 (78 Stat. 252; 42 U.S.C. 2000d et seq.), which provides that no person in the United States shall, on the grounds of race, color or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. A regulation implementing such title VI, which is applicable to Federal Capital Contributions and Federal Capital Loans made under Title VIII of the Act, has been issued by the Secretary with the approval of the President (45 CFR Part 80).

(d) Attention is called to the requirements of Title IX of the Education Amendments of 1972 and in particular to section 901 of such Act which provides that no person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subject to discrimination under any education program or activity receiving Federal financial assistance.

§ 57.310 Eligibility and selection of nursing student loan recipients.

(a) *Eligibility.* Nursing student loans from any fund may be made only to students who are:

(1) Nationals of the United States or who are in a State for other than temporary purposes and intend to become permanent residents of a State;

(2) Enrolled, or accepted for enrollment, in the school as full-time or half-time students, as defined in § 57.302 (j) and (k) respectively;

(3) In need of the amount of the loan to pursue the course of study at the school; and

(4) Capable, in the opinion of the school, of maintaining good standing in such course of study.

(b) *Selection of nursing student loan recipients and determination of need.* It shall be the responsibility of the school to select qualified applicants and to make reasonable determinations of need.

(1) In selecting nursing student loan recipients, the school shall give preference to licensed practical nurses.

(2) In determining whether a student is in need of a nursing student loan to pursue a full-time or half-time course of study at the school, the school shall take into consideration:

(i) The financial resources available to the student, and

(ii) The costs reasonably necessary for the student's attendance at the school, including any special needs and obligations which directly affect the student's financial ability to attend the school on a full-time or half-time basis.

(c) *Records of approval or disapproval.* The records of the school shall indicate the basis for approval or disapproval of all or any part of each student application for a nursing student loan.

§ 57.311 Maximum amount of nursing student loan.

(a) *Maximum per academic year.* Effective on November 18, 1971, the total of the nursing student loans made from a Fund or Funds to any student for an academic year may not exceed $2,500. The maximum amount loaned during a 12-month period to any student enrolled in a school which provides a course of study longer than the 9-month academic year may be proportionately increased.

(b) *Aggregate maximum.* Effective on November 18, 1971, the aggregate of nursing student loans for all years from a Fund or Funds may not exceed $10,000 in the case of any student.

§ 57.312 Evidence of student indebtedness—promissory note; security.

(a) *Evidence of indebtedness—promissory note.* Each nursing student loan to a student from any Fund or Funds shall be evidenced by a promissory note executed by the student borrower, in such form as shall be approved by the Secretary.

(1) Any substantive deviations from the promissory note form so approved shall be made only pursuant to approval by the Secretary prior to the making of any nursing student loan evidenced thereby, except that a school which elects to require security or endorsement in cases permitted under paragraph (b) of this section may include a provision reflecting such election without prior approval.

(2) Each promissory note executed subsequent to June 30, 1969, shall include a provision stating that the nursing student loan evidenced thereby shall bear interest, on the unpaid balance of such loan, computed only for periods during which repayment of the loan is required, at the rate of 3 percent per year.

(3) A copy of each executed note shall be supplied by the school to the student maker thereof.

(b) *Security.* Neither security nor endorsement shall be required except that if the borrower is a minor and if under the applicable State law the note executed by him would not create a binding obligation, then the school is permitted to require security or endorsement.

§ 57.313 Payment of nursing student loans.

(a) Nursing student loans from any Fund or Funds shall be paid to or on behalf of student borrowers in such installments as are deemed appropriate by the school, except that no school shall pay to or on behalf of any borrower more during any given installment period (e.g., semester, term, or quarter) than the school determines that he needs for such period.

(b) No payment shall be made from any Fund to or on behalf of any student borrower if at the time of such payment such borrower is not a full-time or half-time student as defined in § 57.302(j) and (k), respectively.

§ 57.314 Repayment and collection of nursing student loans.

(a) *Repayment of nursing student loans.* Subject to the provisions of this paragraph, any nursing student loan including interest accrued thereon, shall be repayable in equal or graduated periodic installments in amounts calculated on the basis of a 10-year repayment perod. Except as otherwise provided in this paragraph, repayment of any nursing student loan made after June 30, 1969 shall begin 9 months after the student ceases to be a full-time or half-time student: *Provided, however,* That in the case of students who received nursing student loans subsequent to June 30, 1969, but prior to November 18, 1971, repayment shall begin 9 months after the student ceases to be a full-time student.

(1) When a borrower, within such 9-month period, reenters the same or another school of nursing as a full-time or half-time student, the date upon which interest accrual and the repayment period begin shall be related to and determined by the date on which he last ceases to be a full-time or half-time student at any such school: *Provided, however,* That in the case of students who received loans subsequent to June 30, 1969, but prior to November 18, 1971, this provision will apply only if the student reentered such school as a full-time student.

(2) The following periods shall be excluded from the 10-year repayment period:

[1] Applications and instructions are available from the Regional Health Manpower Director at the Regional Office of the Department of Health, Education, and Welfare for the region in which the applicant is located.

V 39 91 MAY 9 74 XUM

(i) All periods of up to a total of 3 years of active duty performed by the borrower as a member of a uniformed service;

(ii) All periods of up to a total of 3 years of service as a volunteer under the Peace Corps Act; and

(iii) All periods up to a total of 5 years during which the borrower is pursuing a full-time course of study at a school leading to a baccalaureate degree in nursing or an equivalent degree, or to a graduate degree in nursing, or is otherwise pursuing advanced professional training in nursing. For purposes of this paragraph, "otherwise pursuing advanced professional training in nursing" shall include only full-time training, beyond the first diploma or degree in nursing received by the particular borrower, of at least one academic year which will advance the borrower's knowledge of and strengthen his skills in the provision of nursing services.

(3) With respect to nursing student loans made before July 1, 1969, all periods specified in paragraph (a)(2) of this section after June 30, 1968, may be excluded from such repayment period where so agreed by the school which made such loan and the borrower: *Provided, however,*

(i) That in no such case may the total of the periods excluded from the repayment period pursuant to paragraphs (a)(2)(i) or (a)(2)(ii) of this section and the period between the date on which the borrower ceases to be a full-time student and the date on which, under the terms of the promissory note evidencing such loan, the repayment period is to begin, exceed 3 years and 9 months; and

(ii) That in any such case all periods during which the borrower is pursuing a full-time course of study at a school leading to a baccalaureate degree in nursing or an equivalent degree, or to a graduate degree in nursing, shall be excluded from the repayment period, without limitation; and

(iii) That in no such case may the total of the periods excluded from the repayment period because the borrower is otherwise pursuing advanced professional training in nursing and the period between the date on which the borrower ceases to be a full-time student and the date on which, under the terms of the promissory note evidencing such loan, the repayment period is to begin, exceed 5 years and 9 months.

(4) Each student borrower may (subject to the provisions of paragraph (b)(3) of this section) choose the repayment schedule which he prefers from those in use by the school and approved by the Secretary, but a student borrower may, at his option and without penalty, prepay all or part of the principal and accrued interest at any time.

(b) *Collection of nursing student loans.* (1) Each school at which a Fund is established shall exercise due diligence in the collection of all nursing student loans due the Fund. The school shall use such collection practices as are generally accepted among institutions of higher education and which are at least as extensive and effective as those used in the collection of other student loan accounts due the school.

(2) With respect to any nursing student loan made after June 30, 1969, the school may assess a charge for failure of the borrower to pay all or part of an installment when it is due, and, in the case of a borrower who is entitled to deferment benefits under section 823(b)(2) of the Act or cancellation benefits under section 823(b)(3) of the Act, for any failure to file timely and satisfactory evidence of such entitlement. The amount of such charge may not exceed $1.00 for the first month or part of a month by which such installment or evidence is late and $2.00 for each such month or part of a month thereafter. The school may elect to add the amount of such charge to the principal amount of the nursing student loan as of the first day after the day on which such installment or evidence was due or to make the amount of the charge payable to the school not later than the due date of the next installment after receipt by the borrower of notice of the assessment of the charge.

(3) With respect to any nursing student loan made after June 30, 1969, the school may provide that during the repayment period of such loan, payments of principal and interest by the borrower with respect to all the outstanding nursing student loans made to him from any Nursing Student Loan Fund shall be at a rate equal to not less than $15.00 per month.

§ 57.315 Cancellation of nursing student loans for disability and death.

(a) *Permanent and total disability.* Determinations as to whether or not a student borrower is entitled to cancellation of indebtedness in accordance with section 823(b)(4) of the Act on the basis of permanent and total disability shall be made by the Secretary on the recommendation of the school to whose fund the borrower is indebted, supported by such medical certifications as the Secretary may require relating to the borrower's disability.

(b) *Death.* The determination as to whether or not a student borrower is entitled to cancellation of indebtedness in accordance with section 823(b)(4) of the Act because of the death of the borrower shall be made by the school to which the borrower is indebted on the basis of a certification of death or such other official proof as is conclusive under State law.

§ 57.316 Loan cancellation or repayment for service.

(a) *Cancellation for full-time employment as a registered nurse.* (1) Any person who obtained one or more nursing student loans from a loan Fund or Funds established under Title VIII of the Act and who engages in full-time employment as a registered nurse (including teaching in any of the fields of nurse training or service as an administrator, supervisor, or consultant in any of the fields of nursing) in any public or nonprofit private agency, institution, or organization (including neighborhood health centers) shall be entitled upon compliance with the statute, the regulations of this subpart and instructions issued pursuant thereto, to have a portion of such nursing student loans canceled as follows: Fifteen percent of the total amount of such loans (plus accrued interest thereon) which is unpaid on the first day of such service, for each of the first, second, and third year of such service, and 20 percent of the total of such amount (plus accrued interest thereon) for each complete fourth and fifth year of such service thereafter, up to 85 percent of the total of such loans, plus accrued interest thereon: *Provided, however,* That with respect to nursing student loans made prior to November 18, 1971 a borrower shall only be entitled to cancellation of an amount not to exceed 50 per centum of any such loan plus accrued interest thereon) at the rate of 10 per centum of the amount of such loan (plus accrued interest thereon), which was unpaid on the first day of such service, for each complete year of such service.

(2) The determination of whether a borrower is entitled to have any portion of his nursing student loan canceled for such full-time employment as a registered nurse shall be made by the institution to whose fund such loan is payable, upon receipt and evaluation of an application for cancellation from such borrower.

(b) *Repayment and cancellation for service in shortage area.* (1) Subject to the provisions of section 823(h) of the Act and of this paragraph, any person who has obtained the degree or diploma specified in § 57.302(j) and who has obtained an educational loan as defined in § 57.302(i) of this subpart and who enters into an agreement with the Secretary to serve as a full-time registered nurse for a period of at least two consecutive years in an area in a State determined by the Secretary, after consultation with the State health authority, to have a shortage of and need for nurses, is entitled to have the principal, and interest on, such loans repaid by the Secretary as follows:

(i) Upon completion by the borrower of the first year of service as specified in the agreement, the Secretary shall pay 30 percent of the principal of, and the interest on, each such loan which is unpaid as of the date the borrower began service.

(ii) Upon completion by the borrower of the second year of such service, the Secretary shall pay another 30 percent of the principal of, and the interest on, each such loan which was unpaid as of the date the borrower began such service.

(iii) Upon completion by the borrower of the second year of such service, the shall pay another 25 percent of the principal of, and interest on, each such loan which was unpaid as of the date the borrower began such service.

(2) Notwithstanding the requirement in paragraph (b)(1) of this section of completion of such service, the Secretary shall on or before the due date thereof, pay any loan or loan installment which may fall due within the period of service for which the borrower is eligible to receive such payments. Such payments will be made contingent upon a declaration by the borrower, at such times and in such manner as the Secretary may prescribe, that the borrower is then engaged in service eligible for such payments and will continue to be so engaged for the period required (in the absence of this subparagraph) to entitle the borrower to have such payments made, except that no more than 85 percent of the principal of any such loan shall be paid by the Secretary pursuant to this subparagraph.

(3) A borrower who fails to complete two years of service pursuant to the agreement entered into with the Secretary shall be liable to reimburse the Secretary for any payments made pursuant to such agreement.

(4) A borrower who fails to complete a third year of service shall be liable to reimburse the Secretary for any payments made pursuant to paragraph (b)(2) of this section in consideration of such service.

(5) In accordance with section 823(h) of the Act, an area in a State shall be determined by the Secretary, after consultation with the State health authority, to have a shortage of and need for nurses, based upon consideration of, among other pertinent factors: (i) The latest reliable statistical data available to him regarding the number of registered nurses in an area and the population to be served by such nurses; (ii) the availability of health services to the residents of the area; (iii) particular local health problems; and (iv) designation of an area under section 329(b) of the Act as one with a critical health manpower shortage. A listing of such areas in which service as a registered nurse would qualify a borrower for repayment under paragraph (b)(1) of this section will be promulgated periodically by the Secretary and published in the FEDERAL REGISTER together with an explanation of the methodology used in determining such areas.

(6) Notwithstanding the above, any person who obtained one or more nursing student loans prior to November 18, 1971, and who engages in full-time employment as a registered nurse in a public or other nonprofit hospital in an area which has been determined by the Secretary pursuant to this subparagraph to have a substantial shortage of nurses at such hospitals shall be entitled, upon compliance with the applicable statute, regulations, and instructions, to have a portion of such loans canceled as follows: Fifteen per centum of the total of such loans (plus accrued interest thereon) which is unpaid on the first day of such service, for each year of such service beginning after August 16, 1968, up to 100 percent of the total of such loans, plus accrued interest thereon.

(i) An area shall be determined to have a substantial shortage of nurses if the number of registered nurse hours of service per patient day in the public or other nonprofit hospital serving such area is lower than the median number of registered nurse hours of service per patient day for all public or other nonprofit hospitals of its category in all States. For purposes of this subparagraph, all public or other nonprofit hospitals in all States shall be grouped by the Secretary according to the following categories:

(A) Short-term general and allied special hospitals,

(B) Psychiatric hospitals,

(C) Tuberculosis hospitals,

(D) Chronic and convalescent hospitals, and

(E) All other hospitals.

(ii) For purposes of this subparagraph, a year of service in a public or other nonprofit hospital means any 12-month period of continuous service (A) after the date the person begins service in such hospital if the area primarily served by the hospital is at that time designated as an area in which there is a substantial shortage of nurses, or (B) after the date as of which the area is designated an area with a substantial shortage of nurses if the area was so designated subsequent to the date that such person began service in the hospital: *Provided,* That, when an area's designation is changed, after a borrower would otherwise be eligible for cancellation of a portion of his loan by serving in the hospital in such area, so that such area no longer has a substantial shortage of nurses, such change in designation shall not affect the eligibility of such borrower to have a portion of his loan cancelled for any year in which he continues to serve as a nurse in the hospital in such area.

(iii) The determination of whether a borrower is entitled to have a portion of his loan cancelled in accordance with this subparagraph shall be made by the institution to whose fund such loan is payable, upon receipt and evaluation of an application for cancellation from such borrower.

(iv) All determinations of the Secretary pursuant to this subparagraph shall be made on the basis of the latest reliable statistical data available to him.

(v) Hospitals in which employment will qualify borrowers for cancellation under the provisions of this subparagraph shall be identified in a list promulgated periodically by the Secretary in the FEDERAL REGISTER.

(7) Nothing in paragraph (b)(6) of this section or paragraph (a) of this section shall be construed to prevent any person from entering into an agreement with the Secretary pursuant to section 823(h) of the Act.

§ 57.317 Repayment of loans made subsequent to November 17, 1971 for failure to complete program of study.

In the event the Secretary undertakes to repay educational loans pursuant to section 830 of the Act, he shall utilize the following criteria in making his determination as to each applicant's eligibility:

(a) An applicant will be considered to have failed to complete the course of study in nursing for which an eligible educational loan was made upon certification by a school of nursing that the individual ceased to be enrolled in such school subsequent to November 17, 1971;

(b) An applicant will be considered to be in exceptionally needy circumstances if, upon comparison of the income and other financial resources of the applicant with his expenses and financial obligations, the Secretary determines that repayment of such loan would constitute a serious economic burden on the applicant. In making such determination the Secretary shall take into consideration the net financial assets of the applicant and the relationship of the income available to the applicant to the low-income levels published annually by the Secretary pursuant to paragraph (c) of this section;

(c) An applicant will be considered to be from a low-income family if the applicant comes from a family with an annual income below a level based on low-income thresholds by family size published by the U.S. Bureau of the Census, adjusted annually for changes in the Consumer Price Index and multiplied by a factor to be determined by the Secretary for adaptation to this program, and the family has no substantial net financial assets. Such factor and income levels as adjusted will be published annually by the Secretary in the FEDERAL REGISTER.

(d) An applicant will be considered to be from a disadvantaged family if the individual comes from a family in which the annual income minus unusual expenses which contribute to the economic burden borne by the family does not exceed the low-income levels published by the Secretary pursuant to paragraph (c) of this section and the family has no substantial net financial assets;

(e) An applicant will be considered as not having resumed his nursing studies within two years following the date the individual ceased to be a student upon a certification so stating from the applicant; and

(f) An applicant will be considered as not reasonably expected to resume his nursing studies within two years following the date upon which he terminated such studies based upon consideration of the reasons for the applicant's failure to complete these studies, taking into account such factors as academic, medical, or financial difficulties: *Provided, however,* That the Secretary shall only repay educational loans made subsequent to November 17, 1971.

§ 57.318 Records, reports, inspection and audit.

(a) *Record and reports.* (1) Each Federal Capital Contribution and Federal Capital Loan shall be subject to the condition that the school shall maintain such records, and file with the Secretary

V391 MAY 9 74 XUM

such reports relating to the operation of the Nursing Student Loan Fund or Funds, as the Secretary may find necessary to carry out the purposes of the Act and the regulations. Where any school has both a Fund established with Federal Capital Contributions and a Fund established with Federal Capital Loans, records shall be kept separately for each Fund. All such records shall be retained until such time as agreed upon with the Secretary that there is no further need for retention and must not be destroyed regardless of completion of a Federal audit.

(2) The following individual student records not related to the operation of the Fund must be retained for five years after the individual student has ceased to be at least a half-time student:

(i) Approved or disapproved student applications for assistance;

(ii) Documentation of the financial need of applicants;

(iii) Reasons for approval or disapproval of applications, and

(iv) Such other records as the Secretary may prescribe.

Such individual student records may be destroyed at the end of such five-year period except that in all cases where questions have arisen as a result of Federal audit, such records shall be retained until resolution of all such questions.

(b) *Inspection and audit.* Any application for a Federal Capital Contribution or a Federal Capital Loan shall constitute the consent of the applicant school to inspection and fiscal audit, by the Secretary and the Comptroller General of the United States or any of their duly authorized representatives, of the fiscal and other records of the applicant school which relate to such Contribution or Loan.

§ 57.319 Additional conditions.

The Secretary may with respect to any agreement entered into with any school pursuant to § 57.305, impose additional conditions prior to or at the time of any award when in his judgment such conditions are necessary to assure or protect advancement of the purposes of the agreement, the interest of the public health or the conservation of funds awarded.

§ 57.320 Noncompliance.

Whenever the Secretary finds that a participating school has failed in a material respect to comply with the applicable provisions of the Act or the regulations of this subpart he may, on reasonable notice to the school, withhold further payments of Federal Capital Contributions or Federal Capital Loans, and take such other action, including the termination of any agreement, as he finds appropriate to carry out the purposes of the applicable provisions of the Act and regulations. In such case no further expenditures shall be made from the Nursing Student Loan Fund or Funds involved until the Secretary determines that there is no longer any such failure of compliance.

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rulemaking prior to the adoption of the final rules.

DEPARTMENT OF AGRICULTURE

Forest Service

[36 CFR Part 212]

ADMINISTRATION OF FOREST DEVELOPMENT TRANSPORTATION SYSTEM

Use of National Forest System Roads

It is proposed to amend several existing regulations in Part 212, Chapter II, Title 36 of the Code of Federal Regulations, as amended on December 5, 1973 (38 FR 33474), to clarify and simplify road system management.

Increased traffic on the Forest Service road system requires some regulations be made applicable to all roads to protect the roads from damage and to increase the safety of the users. No new regulations are proposed. This proposed amendment is intended to make certain regulations applicable to all Forest Service roads and eliminate the requirement to designate the roads as Special Service to apply them.

To accomplish this, § 212.7 is revised, and §§ 212.10 and 212.11 are amended to bring them into accord with § 212.7. Section 212.9 is amended by deleting the last sentence in paragraph (c) which is in conflict with Pub. L. 91-646 as it pertains to compensation limits for easements or rights of use acquired by the United States.

All person who wish to submit written data, views, or objections pertaining to the proposed amendment may do so by submitting them to the Department of Agriculture, Forest Service, Division of Engineering, Washington, D.C. 20250, on or before June 24, 1974.

All written submissions made pursuant to this notice will be available for public inspection in the Forest Service, Division of Engineering, during regular business hours (7 CFR 1.27(b)).

Accordingly, it is proposed to amend Part 212 as follows:

1. Section 212.7 is revised to read as follows:

§ 212.7 Road System Management.

(a) *Traffic rules.* Rules set forth under this paragraph shall apply to all roads under the jurisdiction of the Forest Service.

(1) *General.* Traffic on roads is subject to State traffic laws where applicable except when in conflict with the rules herein prescribed.

(2) *Specific.* The following specific traffic rules shall apply unless otherwise expressly authorized in writing and use in violation of these rules is prohibited.

(i) The load, weight, length, and width limitations of vehicles shall be in accordance with the laws of the States wherein the road is located. Greater or lesser limits may be imposed by the Forest Service and these greater or lesser limits shall be effective when signs giving notice thereof have been posted upon the road or segment of any road affected by these limits.

(ii) Roads, or segments thereof, may be restricted, by the Chief, to use by certain classes of vehicles or types of traffic. Use restrictions shall be effective when signs giving notice thereof have been posted at the entrances to these roads, or road segments, and notices have been made available to the public at the offices designated in § 200.7 of this chapter. Classes of vehicles are defined to include, but not be limited to, distinguishable groupings such as passenger cars, buses, trucks, motorcycles, snowmobiles, and trailers. Types of traffic are defined to include, but not be limited to, groupings such as commercial hauling, recreation, and administrative.

(iii) Permits or other written authorization may be required by the Chief for commercial hauling. Requirements for permit or other written authorization shall be effective when signs giving notice thereof have been posted upon the road.

(3) *Closures.* The Chief may close roads, or segments thereof, to all vehicle use, except when in conflict with written authorization. Closures shall be effective when signs giving notice thereof have been posted at the entrance to these roads or road segments and notices have been made available to the public at the offices designated in § 200.7 of this chapter. Using vehicles upon a road during any period when the road is closed is prohibited.

(4) *Road damage.* Damaging and leaving in a damaged condition any road, or segment thereof, is prohibited.

(b) *Special Service Roads*—(1) *Authority.* Where the traffic rules in paragraph (a) of this section need to be supplemented to accomplish the purpose of these regulations, the Chief may designate a Forest Development Road, or segment thereof, a "Special Service Road" and further control or regulate the use of the road: *Provided*, That

(i) The road is not a part of the highway system of a State, county, or other public road authority.

(ii) The United States controls the right-of-way.

(2) *Traffic Rules.* Traffic on Special Service roads is subject to paragraph (a) of this section, and to State traffic law, where applicable, except to the extent the Chief deems it necessary to prescribe rules in addition thereto or in conflict therewith to accomplish the purposes of the regulations of this Part 212. These additional rules shall be posted at the entrances to the roads and be available to the public at the offices designated in § 200.7 of this chapter. Violation of the posted rules is prohibited.

(c) *Cost Recovery on Forest Service Roads.* The Chief may determine that a share of the cost of acquisition, construction, reconstruction, improvement, or maintenance of a road, or segment thereof, used or to be used for commercial hauling of non-Federal forests products and other non-Federal products, commodities and materials, should be borne by the owners or haulers thereof. The Chief may condition the permission to use a road, or segment thereof, upon payment to the United States of the proportionate share of the cost and bearing proportionate maintenance as determined to be attributable to the owner's or hauler's use in accordance with § 212.11. This condition to use roads would apply where the owners or haulers: (1) have not shared in the cost of acquisition, construction, reconstruction, or improvement, and (2) have not made contributions to pay their proportionate share of the costs.

(d) *Maintenance and Reconstruction of Forest Service Roads by Users.*—(1) *Maintenance.* The Chief may require, but not in conflict with an existing permit, easement, contract, or other agreement, the user or users of a road, including purchasers of Government timber and other products, to maintain the roads in a satisfactory condition commensurate with the particular use requirements of each. The maintenance to be borne by each user shall be proportionate to total use and no individual user shall be required to perform or bear the costs of maintenance other than that commensurate with his use.

(2) *Reconstruction.* The Chief may require, but not in conflict with an existing permit, easement, contract, or other agreement, the user or users of a road to reconstruct it when, at the time the use is requested, reconstruction is determined to be necessary to accommodate his use.

(3) *Deposits in Lieu of Performance.* If the maintenance or reconstruction cannot be so provided or if the Chief determines that maintenance or reconstruction by a user would not be practical, the Chief may require that sufficient funds be deposited by the user to provide his portion of the total maintenance or reconstruction costs. Deposits made to cover maintenance or reconstruction of roads shall be used for the purposes deposited, except that: (1) Deposits received

V 39 91 MAY 9 74 XUM

for work on adjacent and overlapping areas may be combined when it is the most practicable and efficient manner of performing the work, and cost thereof may be determined by estimates, and (ii) unexpended balances upon accomplishment of the purposes for which deposited shall be transferred to miscellaneous receipts or refunded.

(e) *Deposits for Making Delayed Payments to Cooperator.* Any fees or other collections received by the Chief under the terms of an agreement or other document providing for delayed payments to the Government's cooperator for use of a road shall be placed in a fund available for making these payments.

2. Paragraph (c) of § 212.9 is revised to read as follows:

§ 212.9 Access Procurement by the United States.

* * * * *

(c) *Methods of Compensation for Easements and Rights of Use Acquired by the United States.* Compensation in negotiated acquisitions may be: (1) By payment from appropriated funds; (2) pursuant to reservation in the grant of easement to the United States whereby the grantor reserves the right to require haulers of Federal timber or other Federal products over the road conveyed or thereafter constructed by the grantor to make payments to the grantor in accordance with the terms of the reservation; (3) by granting reciprocal rights; or (4) by a combination of these methods.

* * * * *

§ 212.10 [Amended]

3. Paragraph (b) of § 212.10 is deleted.

4. Paragraphs (d) and (f) of § 212.11 are revised to read as follows:

§ 212.11 Principles for Sharing Use of Roads.

* * * * *

(d) *Cost Recovery by the United States from others.* When roads are used under permit for commercial hauling instead of under cooperative agreement, any cost to be recovered by the United States will be calculated in proportion to the planned use of the road. The road cost used in such calculation will be the amount or estimated amount expended in the acquisition, construction, reconstruction, and improvement of that capacity of the road required to serve the use needs of all parties that are or reasonably can be expected to use the road. The road costs shall not exceed the replacement value of the road. Such road share-cost payments will be through deposits in advance of use unless the user provides a payment bond satisfactory to the Chief guaranteeing that payments will be made promptly upon billing by the Forest Service.

* * * * *

(f) *Road Maintenance and Resurfacing.* Cooperators will share the road maintenance and resurfacing costs under suitable agreements to perform, arrange for performance by others, or by making deposits with the Forest Service which will be used to pay the cost of work necessary to keep such roads in satisfactory condition commensurate with use requirements of each cooperator. No cooperator shall be required to perform or bear such costs other than those occasioned by its individual use. Other users will bear costs in accordance with § 212.7(d).

Soil Conservation Service

[7 CFR Part 612]

SNOW SURVEYS AND WATER SUPPLY FORECASTS

Proposed Policy and Procedures for Administration

The Soil Conservation Service (SCS) plans to codify its policy and procedures for the administration of a cooperative snow survey and water supply forecast program.

Interested persons may participate in the proposed rulemaking by submitting written data, views, or arguments as they may desire. All communications received on or before June 17, 1974, will be considered before action is taken on the proposed policy and procedures. The proposal contained in this notice may be changed in the light of comments received.

The policy and procedures are proposed under the authority of 26 Stat. 653; Sec. 8, Reorg. Plan No. IV of 1940, 54 Stat. 1234 (5 U.S.C. App.); 5 FR 2421, 3 CFR 1938–1943 Comp. P 1288.

(Catalog of Federal Domestic Assistance Program No. 10.907, National Archives Reference Services)

Dated May 3, 1974.

KENNETH E. GRANT,
Administrator.

PART 612—SNOW SURVEYS AND WATER SUPPLY FORECASTS

Sec.
612.1 Purpose and scope.
612.2 Snow survey and water supply forecast activities.
612.3 Data collected and forecasts.
612.4 Eligible individuals or groups.
612.5 Dissemination of water supply forecasts and basic data.
612.6 Application for water supply forecast service.
612.7 Forecast user responsibility.

AUTHORITY: 26 Stat. 653; Sec. 8, Reorg. Plan No. IV of 1940, 54 Stat. 1234 (5 U.S.C. App.); 5 FR 2421, 3 CFR 1938–1943 Comp. P. 1288.

§ 612.1 Purpose and scope.

This part sets forth Soil Conservation Service (SCS) policy and procedure for the administration of a cooperative snow survey and water supply forecast program. The program provides agricultural water users and other water management groups in the western states area with water supply forecasts to enable them to plan for efficient water management. The program also provides the public and the scientific community with a data base that can be used to accurately determine the extent of the snow resource. The western states area comprises Alaska, Arizona, California (east side of the Sierra Nevada mountain range only), Colorado, Montana, Nevada, New Mexico, Oregon, Utah, Washington, and Wyoming.

§ 612.2 Snow survey and water supply forecast activities.

To carry out the cooperative snow survey and water supply forecast program, SCS:

(a) Establishes, maintains, and operates manual and automated snow course and related hydrometeorological networks.

(b) Determines and provides information on the expected water supply including seasonal streamflow data. If pertinent and appropriate to the needs of cooperators and not otherwise available to them, the information includes items such as peak flow, date of peak flow, date the flow will recede to a specified value, length of time flow will remain above specific values, volume of flow between or above specific flow values, forecast procedures for operating reservoirs, and forecasts required for operation of reservoirs.

(c) On request and to the extent SCS resources and any required cooperator contributions are available, establishes hydrometeorological stations to collect and provide data and necessary interpretive analyses to the requesting party.

(d) Develops and encourages use of new techniques and equipment for improving data collection and processing.

(e) Cooperates with other federal, state, and local agencies, organizations, and Canadian provinces and agencies in carrying out snow survey activities, and by written agreement SCS may accept cooperators' funds, materials, equipment, and services for this purpose.

§ 612.3 Data collected and forecasts.

(a) Basic data are currently collected at numerous sites in the western states area. Each site includes a snow course where snow depth and the water equivalent of snow is measured. Many of these sites also provide related hydrometeorological data, such as precipitation, temperature, humidity, solar radiation, and wind.

(b) Water supply forecasts in the western states area are generally made monthly from January through June. Forecasts may be made more frequently for an established need when data are available to SCS.

§ 612.4 Eligible individuals or groups.

(a) Any individual or group who is a significant water user and who would benefit from a water supply forecast may obtain forecasts from SCS on a regular basis provided data are available to SCS to develop a forecast at the desired location.

(b) The program collects and interprets data as a service and an aid to agricultural interests, particularly those served by or affiliated with soil, water, and other conservation districts. Information collected by SCS for these agricultural users is also made available to other Federal, state, and private agencies and to the general public without charge. Cooperator financial contribution is usually required for special measurements or interpretations beyond the scope of the regular program.

§ 612.5 Dissemination of water supply forecasts and basic data.

Water supply outlook reports prepared by SCS and its cooperators containing water supply forecasts and basic data are usually issued monthly by each SCS state office in the western states area for the months of January through June. Other reports jointly issued by SCS and its cooperators include a fall water supply summary, annual and accumulative summaries of data, and a western states area report covering water supply outlook.

§ 612.6 Application for water supply forecast service.

Requests for obtaining water supply forecasts or related assistance may be directed to any SCS office in the western states area. SCS offices are described in Part 600 of this chapter.

§ 612.7 Forecast user responsibility.

The forecast user's obligation to the federal government is to give appropriate credit and recognition to SCS for information furnished. The federal government does not assume any responsibility for management decisions the user makes which may be based in whole or part on information provided by SCS.

DEPARTMENT OF TRANSPORTATION

Hazardous Materials Regulations Board

[14 CFR Part 103]

[46 CFR Part 146]

[49 CFR Parts 170, 171, 172, 173, 174, 175, 176, 177]

[Docket Nos. HM–103, 112; Notices 73–9–73–10]

CONSOLIDATION OF HAZARDOUS MATERIALS REGULATIONS

Notice of Extension of Time To File Comments

On January 24, 1974, the Hazardous Materials Regulations Board ("the Board") published Docket No. HM–103; Notice No. 73–10 (39 FR 3164) and Docket No. HM–112; Notice No. 73–9 (39 FR 3022). The comment period in the two notices closes May 28, 1974.

Several petitions have been received by the Board requesting extension of the comment period in both notices. Requests have been filed for time extensions up to September 25, 1974. The Board has considered the reasons submitted in these petitions and has decided that some extension of the comment period is reasonable. Accordingly, the Board has extended the period for comments in both notices of proposed rulemaking from May 28, 1974 to August 31, 1974.

ESTABLISHMENT OF PRIVATE OPERATIONAL-FIXED MICROWAVE RADIO SERVICE

Order Extending Time for Filing Comments

In the matter of amendment of the Commission's rules to establish a Private Operational-Fixed Microwave Radio Service (Part 94), Docket No. 19869; Amendment of Parts 7, 9, 10, 11, and 16 (now 81, 87, 91 and 93) of the Commission's rules to provide for the assignment of frequencies in the bands above 952 MC to operational fixed stations in such services upon a showing that harmful interference will not be caused to existing stations, Docket No. 14179; Petition for rulemaking filed by the National Association of Manufacturers to amend Part 91, RM–1862; Petition for rulemaking filed by the Utilities Telecommunications Council to amend Part 2, RM–339; Petition for rulemaking from American Petroleum Institute to amend Parts 2, 81, 87, 91 and 93, RM–2272. Published at 39 FR 7805, Thursday, February 28, 1974.

In response to a request from the Utilities Telecommunications Council, and for good cause demonstrated therein: *It is ordered*, Pursuant to § 0.331(b)(4) of the Commission's rules, that the time for filing reply comments in the above captioned proceeding is extended from May 1, 1974, until May 15, 1974.

Adopted: April 30, 1974.

Released: May 1, 1974.

[Docket No. 20035; FCC 74–460]

TELEPHONE COMPANIES, WIRE-TELEGRAPH, OCEAN-CABLE CARRIERS AND RADIO-TELEGRAPH CARRIERS

Proposed Changes in Wages and Hours Schedules

In the matter of amendment of Annual Reports Form M, for telephone companies, Form O for wire-telegraph and ocean-cable carriers, and Form R for radiotelegraph carriers to change the wages and hours schedules, Docket No. 20035.

1. Notice is hereby given of proposed rulemaking in the above-entitled matter.

2. It is proposed to amend Schedules 70C of Form M and 408A and 408B of Forms O and R to widen the range of hourly wage categories from the present range of "Less than $1.60" to "$4.75 and over" to "Less than $2.00" to "$8.50 and over." This proposal would replace the present two twenty-cent intervals and eleven twenty-five cent intervals with eight twenty-five cent intervals and nine fifty-cent intervals. The proposal would result in an increase in the total number of wage categories from 15 to 19.

3. These changes are being proposed in recognition (a) of a change in the minimum wage from the present rate of $1.60 per hour to $2.00 per hour and (b) of the substantial increase in wage rates that has been experienced in the communications industry in recent years. The minimum wage rate of $1.60 an hour became effective in 1968 under the Fair Labor Standards Amendments of 1966. Pursuant to our request, the Bureau of Labor Statistics (BLS) of the Department of Labor, which uses the data reported in Schedules 70C, 408A and 408B for statistical purposes has informally recommended that the wage interval begin at "Less than $2.00" followed by eight twenty-five cent intervals to $3.99 and nine fifty-cent intervals to $8.49 with a

V 39 91 MAY 9 74 XUM

terminal category of "$8.50 and over." Because individual pay rates are more dispersed now than when the forms were developed in 1935 the Bureau requests that four wage intervals be added. In addition, it has been determined from data reported in the wages and hours schedules of the annual reports of the communication carriers subject to the reporting requirements of this Commission that in 1971 there were less than .05 percent of employees receiving less than $1.60 an hour and less than 1 percent of employees receiving from $1.60 to $1.99 an hour. However, there was approximately 34 percent of the employees receiving $4.75 and over. Therefore, as suggested by BLS, we are proposing that the wage intervals begin at less than $2.00 and extend to $8.50 and over.

4. In Docket No. 17792 released on June 7, 1968 the Commission stated that in the event of further amendments to the Fair Labor Standards Act with respect to minimum wages, it will order appropriate changes to Schedules 70C, 408A and 408B without issuing any notice of proposed rule making. As previously mentioned, this notice provides for comprehensive revision of these schedules in addition to recognizing the increase in the minimum wage rate from $1.60 to $2.00 per hour. The Commission notes, however, that the "Fair Labor Standards Amendments of 1974" also provide for an increase in the minimum wage rate to $2.10 per hour effective January 1, 1975 and $2.30 per hour effective January 1, 1976. It is the intention of the Commission, therefore, to revise, without a further rule making proceeding the schedules discussed herein in the 1975 and 1976 report forms to recognize the new minimum wage rates which are to become effective January 1, 1975 and January 1, 1976, respectively. The form of the revised schedules will be to establish one category less than the minimum wage fixed by the "Fair Labor Standards Amendments of 1974" in each year with two twenty-cent intervals in 1975 and one twenty cent interval in 1976 together with a combination of twenty-five cent and fifty-cent intervals and one interval for all employees being paid in excess of the range covered by the highest fifty-cent interval with the total number of intervals not to exceed nineteen.

5. If the foregoing proposal is adopted, it is proposed that the amendments will be made effective in the report forms for the year 1974.

6. In view of the foregoing, it is proposed to amend Annual Reports Form M for Telephone Companies, Form O for Wire-Telegraph and Ocean-Cable Carriers, and Form R for Radiotelegraph Carriers as set forth in the attached Appendix below.

7. This notice of proposed rulemaking is issued under authority contained in sections 4(i), 201, 219 and 220 of the Communications Act of 1934, 47 U.S.C. 154 (i), 201, 219 and 220.

8. Pursuant to applicable procedures set forth in 47 CFR 1.415, interested persons may file comments on or before June 17, 1974, and reply comments on or before July 1, 1974. All relevant and timely comments and reply comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision in this proceeding, the Commission may also take into account other relevant information before it in addition to the specific comments invited by this Notice. Comments in response to this Notice will be available for public inspection in the Commission's Broadcast and Dockets Reference Room.

9. In accordance with the provision of 47 CFR 1.419, an original and fourteen copies of all statements or briefs shall be furnished to the Commission.

Adopted: May 1, 1974.

Released: May 6, 1974.

FEDERAL COMMUNICATIONS COMMISSION,[1]

[SEAL] VINCENT J. MULLINS,
Secretary.

APPENDIX

I. In Annual Report Form M for Telephone Companies, columns g through u are amended and new columns v through y are added to Schedule 70C, Wages and Hours, to read as follows:

Less than $2.00, $2.00 to $2.24, $2.25 to $2.49, $2.50 to $2.74, $2.75 to $2.99, $3.00 to $3.24, $3.25 to $3.49, $3.50 to $3.74, $3.75 to $3.99, $4.00 to $4.49, $4.50 to $4.99, $5.00 to $5.49, $5.50 to $5.99, $6.00 to $6.49, $6.50 to $6.99, $7.00 to $7.49, $7.50 to $7.99, $8.00 to $8.49, and $8.50 and over.

II. Annual Report Form O for Wire-Telegraph and Ocean-Cable Carriers and Form R for Radiotelegraph are amended to read as follows:

1. In Schedule 408A, Employees and Their Salaries—Radiotelegraph and Ocean-Cable, columns h through v are amended and new columns w through z are added to read as follows:

Less than $2.00, $2.00 to $2.24, $2.25 to $2.49, $2.50 to $2.74, $2.75 to $2.99, $3.00 to $3.24, $3.25 to $3.49, $3.50 to $3.74, $3.75 to $3.99, $4.00 to $4.49, $4.50 to $4.99, $5.00 to $5.49, $5.50 to $5.99, $6.00 to $6.49, $6.50 to $6.99, $7.00 to $7.49, $7.50 to $7.99, $8.00 to $8.49, and $8.50 and over.

2. In Schedule 408B, Employees and Their Salaries—Wire-Telegraph, columns h through v are amended and new columns w through z are added to read as follows:

Less than $2.00, $2.00 to $2.24, $2.25 to $2.49, $2.50 to $2.74, $2.75 to $2.99, $3.00 to $3.24, $3.25 to $3.49, $3.50 to $3.74, $3.75 to $3.99, $4.00 to $4.49, $4.50 to $4.99, $5.00 to $5.49, $5.00 to $5.99, $6.00 to $6.49, $6.50 to $6.99, $7.00 to $7.49, $7.50 to $7.99, $8.00 to $8.49, and $8.50 and over.

[47 CFR Part 73]

[Docket No. 19928]

FM BROADCAST STATIONS IN CERTAIN CITIES IN ILLINOIS AND INDIANA

Proposed Table of Assignments; Order Extending Time for Filing Reply Comments

In the matter of amendment of § 73.202(b), *Table of assignments*, FM Broadcast Stations. (Danville and Hoopeston, Illinois; Fowler, Lafayette, and Terre Haute, Indiana), Docket No. 19928, RM-1971, RM-2203, RM-2161, RM-2244.

1. On January 25, 1974, the Commission adopted a notice of proposed rule making in the above-entitled proceeding. Publication was given in the FEDERAL REGISTER on February 5, 1974, 39 FR 4586. The date for filing comments has expired and the time for filing reply comments is presently May 8, 1974. (Published at 39 FR 13788, Wednesday, April 17, 1974.)

2. On April 30, 1974, the General Counsel of Wabash College Radio filed a request for an extension of time until June 7, 1974, in order to file comments on the counterproposal of Logansport Broadcasting Company filed on March 27, 1974. Wabash College Radio states that due to prior commitments, counsel that has previously been retained by them is unable to assist them in this matter and therefore Wabash College Radio must retain special counsel. Although actively seeking to secure such special counsel, it is felt by them that a reply comment date of May 8, 1974 will not give the new counsel sufficient time to familiarize himself with Wabash's position and to properly respond to the counterproposal.

3. We are of the view that the public interest would be served by extending the time in this proceeding. *Accordingly, it is ordered*, That the date for filing reply comments is extended to and including June 7, 1974.

4. This action is taken pursuant to authority found in sections 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules.

Adopted: April 30, 1974.

Released: May 3, 1974.

FEDERAL COMMUNICATIONS COMMISSION,

[Docket No. 19974; FCC 74-411]

TELEVISION STATIONS IN PONCE, PUERTO RICO

Table of Assignments; Order Extending Time for Filing Comments and Reply Comments

In the matter of amendment of § 73.606 (b) of the Commission's rules, the table of television assignments, to change Channel 7 at Ponce, Puerto Rico to a Ponce-San Juan assignment; general

policy questions involved in the proposal to move transmitter location of the Ponce, Puerto Rico Channel 7 station to a point closer to San Juan, Puerto Rico, Docket No. 19974.

1. This proceeding was begun by notice of inquiry and of proposed rulemaking or proposed statement of policy, adopted March 13 and released March 20, 1974 (FCC 74-253) and published at 39 FR 11112, Monday, March 25, 1974. Basically, the proceeding involves consideration of various approaches to a proposal by Ponce Television Corporation, licensee of WRIK-TV, Ponce, P.R. (WRIK) to move its transmitter site to a point closer to San Juan than to Ponce; the proceeding was prompted by a "Petition for Declaration of Policies" filed by WRIK last September.

2. The notice specified the dates of comments and reply comments as April 22, and May 3, 1974, respectively. By petitions filed March 28 and March 29, the licensees of the two San Juan Commercial television stations (both VHF), WAPA-TV Broadcasting Corporation (WAPA-TV) and Telemundo, Inc. (WKAQ-TV), ask that the times be extended to June 21 and July 22, 1974, respectively. Their petitions are supported by two other parties, American Colonial Broadcasting Corp. (licensee of WKBM-TV, Caguas-San Juan) and Suburban Broadcasting Corporation, applicant for a UHF permit at San Juan (application tendered last September). WRIK, the original petitioner herein strongly opposes the request, or any extension at least at this time.

3. The two petitioning San Juan licensees urge that the time allotted in the Notice—40 days from its adoption, and 33 from release of the full text—is simply not enough in view of the novel character and wide-ranging scope of the proceeding, involving some fundamental matters, three basic elements (inquiry, proposed rule making and a proposed policy statement), and a number of specific areas and questions, some of them requiring engineering or economic factual analysis. WAPA-TV, in particular, claims that to insist on the schedule set would constitute denial of due process to WRIK's opponents. WAPA-TV submits affidavits from its engineering and economic consultants, the former stating that at least 60 days and probably more (from March 27) will be necessary for preparation of engineering material on the various issues mentioned (coverage of San Juan, "shadowing" and gains and losses in service), which must get into the substantial terrain problems involved in this rugged area. The economic consultant's affidavit states that 60 days beyond April 22 is necessary for work based on economic data, program rating material, and WRIK's annual financial statements. WAPA-TV and WKAQ-TV both urge that the short time allowed is particularly inappropriate in view of the fact that more time is permitted in much simpler rule-making proceedings, and at least three months is generally permitted in inquiry-rule making proceedings. These parties state that WRIK is doubtless anxious for very fast favorable action, in hopes of cutting its losses; but this is not crucial in view of the ultimate ownership of the station by Transamerica Corp., a wealthy conglomerate which is not really seriously affected; and, in any event, the continuation of the present situation is largely the fault of WRIK, which withdrew its move application in June 1972 and then waited 16 months to file the present "Petition for Declaration of Policies". The two supporting statements by the other two parties are to the same effect but less specific.

4. WRIK vigorously opposes the request, urging that expedition is required because of the urgency of this matter (presumably meaning continuing economic problems for the station), an element asserted not present in other rule-making proceedings. Under these conditions, parties seeking more time have a heavy burden, which is certainly not met. It is urged that only WAPA-TV, among these parties, attempted to advance specific reasons why more time is necessary; and even those assertions do not afford justification. It is claimed that the two San Juan stations and others have known of the nature of WRIK's request at least since September when the original petition was filed, and, indeed, have probably done a good deal of the required work in preparation for the hearing on WRIK's earlier application (before it was withdrawn). Thus, assertedly, there is no reason why the dates set in the Notice should not be expected to be met. It is claimed that essentially these parties seek further delay in order to maintain their competitive advantage over WRIK-TV for a longer period; and if WRIK-TV can meet the comment dates set, they should be able to also. WRIK states that if these parties proceed diligently and, later, a short additional period such as 10 days is required, it will not oppose such an extension.

DECISION

5. Upon consideration of the foregoing, we are of the view that a considerably greater amount of time should be granted for comments and replies herein, than that originally given, although not as much as requested in the WAPA-TV and WKAQ-TV petitions. In reaching this conclusion, we are aware of the desirability of expedition from WRIK's standpoint, and we intend to reach a decision herein at a reasonably early date. However, in view of the number of matters involved—both some important legal and policy questions, and factual matters such as those mentioned above—it appears that substantially more time is warranted, to permit the parties to deal with these matters reasonably fully and provide maximum assistance to the Commission. It is also true, of course, that to the extent there has been a delay in this matter, WRIK is as responsible for it as anyone, first by withdrawing its application to move and then by waiting some 15 or 16 months to file the petition which prompted this proceeding.

6. Another factor is that it is unlikely that a postponement of the comment date to the end of May or early June will substantially delay the decision in this matter. As is well known, there are now only four members on the Commission, and one of the four is leaving the country in mid-April to attend an international communications conference, and will not return till about June 17. Unless one or additional Commissioners are confirmed and sworn in, there is no possibility of a decision before that time; and it is not certain whether that will occur, or, even if it does, whether the new Commissioners will feel they can appropriately vote on this matter early after joining the Commission. Under these circumstances, we believe it appropriate to set new dates for comments which are likely to produce a decision by about the beginning of July, and we are specifying June 3 for comments and June 24 (3 weeks later) for reply comments. These periods should be enough to permit adequate treatment of the various matters involved, especially since, as WRIK points out, for the most part the matters are not new to the parties at this point. The further extension requested by WAPA-TV and WKAQ-TV, until late June and late July, appears to be too long, running the risk of postponing a decision until this fall.

7. *Accordingly, it is ordered*, That the time for filing comments in this proceeding is extended to and including June 3, 1974; and the time for filing reply comments herein is extended to and including June 24, 1974.

Adopted: April 16, 1974.

Released: May 2, 1974.

FM BROADCAST STATIONS IN JEFFERSONTOWN, KY.

Table of Assignments; Order Extending Time for Filing Comments and Reply Comments

In the matter of amendment of § 73.202(b), *Table of Assignments*, FM Broadcast Stations. (Jeffersontown, Kentucky), Docket No. 19975, RM-2137.

1. On March 15, 1974, the Commission, under delegated authority, adopted a notice of proposed rulemaking in the above-entitled proceeding. Publication was given in the FEDERAL REGISTER on March 25, 1974 (39 FR 11111). The dates for filing comments and reply comments were set as April 30, 1974 and May 10, 1974, respectively.

2. On April 30, 1974, counsel for the petitioner in this case, Charles N. Cutler, requested an extension of time

V39|91 MAY 9 74 XUM

to May 7, 1974, in which to file comments herein. Counsel states that the additional time is necessary to enable him to file adequate comments in response to the Commission's notice of proposed rulemaking.

3. We are of the view that the public interest would be served by extending the time in this proceeding. *Accordingly, it is ordered,* That the dates for filing comments and reply comments are extended to and including May 7, 1974 and May 17, 1974, respectively.

4. This action is taken pursuant to authority found in sections 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules.

Adopted: May 4, 1974.

Released: May 3, 1974.

[Docket No. 19982]

TV BROADCAST STATIONS IN MOUNTAIN VIEW, ARKANSAS

Table of Assignments; Order Extending Time for Filing Comments and Reply Comments

In the matter of amendment of § 73.606(b), *Table of assignments,* TV Broadcast Stations. (Mountain View, Arkansas), Docket No. 19982, RM-2297.

1. In response to a petition for rulemaking filed by the Arkansas Educational Television Commission (AETC), the Commission, on March 22, 1974, issued a notice of proposed rulemaking in the above-entitled matter which was published in the FEDERAL REGISTER on April 1, 1974 (39 FR 11931). The dates for comments and reply comments are May 6, 1974, and May 16, 1974, respectively.

2. On April 30, 1974, counsel for Mid-America Television Company filed a request for an extension of the comment date for a period of 30 days, to and including June 6, 1974. Mid-America, licensee of television Station KMOS-TV, Sedalia, Missouri, has underway engineering studies relating to the potential of interference to its operation from the proposed transmitter location of the Mountain View station. However, counsel states that the questions raised by the proposal are complex and the time allowed for filing comments is not sufficient for them to complete these studies and to prepare and file its comments.

3. We are of the view that the public interest would be served by extending the time in this proceeding. *Accordingly, it is ordered,* That the dates for filing comments and reply comments are extended to and including June 6, 1974 and June 17, 1974, respectively.

4. This action is taken pursuant to authority found in sections 4(i), 5(d)(1), and 303(r) of the Communications Act of 1934, as amended, and § 0.281 of the Commission's rules.

Adopted: May 2, 1974.

Released: May 3, 1974.

[12 CFR Part 545]

FEDERAL SAVINGS AND LOAN SYSTEM

Electronic Funds Transfer Through Remote Service Units

MAY 6, 1974.

The Federal Home Loan Bank Board considers it desirable to propose amendments to Part 545 of the rules and regulations for the Federal Savings and Loan System (12 CFR Part 545) for the purpose of expanding the Board's existing "pilot" project funds transfer regulation, § 545.4-2, and extending the effectiveness of said § 545.4-2, as amended, until June 30, 1975. Under this proposal, applications to establish remote service units or to participate in the establishment of such units would be accepted by the Board until December 31, 1974. The proposal would also delete those provisions of § 545.14-5, captioned "Satellite office", which refer to "fully automated satellite office" so that all provisions relating to remotely furnished financial services would be contained in a single regulation.

The Board continues to receive requests by Federal savings and loan associations to provide electronic funds transfer services to their customers, including the operation of systems in places of business, even though present § 545.4-2 terminates on July 9, 1974. As amended, § 545.4-2 is of a brief and temporary nature and is designed to permit continued limited experimentation until June 30, 1975, by Federal associations in the operation of electronic funds transfer systems. The Board is of the opinion that reports from, and observations of, the actual operation of one or more systems will continue to furnish valuable experience and information to the Board, the savings and loan industry, and the public relating to the substance of any permanent regulations which the Board may promulgate regarding such systems. The Board is proposing to amend § 545.4-2 for the principal purpose of continuing to permit Federal associations, subject to prior approval by the Board of a plan submitted by such an association, to operate selective "pilot" projects of this kind on a limited basis for the purposes stated above, and for a limited period of time. Existing place-of-business funds transfer systems authorized under present § 545.4-2 would not be affected by the amendment of that section. However, the continued operation of existing place-of-business funds transfer systems after July 9, 1974, would require approval by the Board.

Section 545.4-2(a), *General provisions,* would permit a Federal association to establish, maintain or use one or more "remote service units" located in the State in which such association's home office is located or within the primary service area of any branch office of such association located outside of such State.

Section 545.4-2(b), *Financial services authorized for remote service units,* would establish a list of permitted financial services which could be performed at a remote service unit. Deposits, loan payments and withdrawals would be permitted at such units, but no account could be opened at such a unit nor could withdrawals in excess of an account holder's balance be made. The provision would empower the Board to permit other services to be offered at remote service units upon application on a case-by-case basis.

The first sentence of § 545.4-2(c), *Advertising,* is intended to prohibit misleading or inaccurate advertising. The second sentence would empower the Board to revise or terminate advertisements.

Section 545.4-2(d), *Bonding requirements,* would require Federal associations establishing remote service units to take all steps necessary to protect their interest in the financial services processed at each such unit, including the acquisition of fidelity, forgery and other insurance, and is intended to cover such questions as the physical security of cash dispensing machines and the prevention of fraudulent use of remote service units.

Section 545.4-2(e), *Participation with other financial institutions,* permits a Federal association to share the use of a remote service unit with one or more financial institutions insured by either the Federal Savings and Loan Insurance Corporation or the Federal Deposit Insurance Corporation or with any other financial institutions as the Board may approve. However, § 545.4-2(e) would provide that the Board may require a Federal association to share the use of a remote service unit (at a reasonable cost) with the home office or any branch office of a financial institution insured by the Federal Savings and Loan Insurance Corporation if such unit is located in the primary service area of such office. It is intended that this provision together with paragraph (f) would require each Federal association which desires to share a remote service unit to make application to the Board and require application to the Board for any subsequent sharing of such remote service unit with other financial institutions. The last sentence of paragraph § 545.4-2(e) would prohibit exclusive dealing agreements between a Federal association and business organizations at which remote service units may be located.

Section 545.4-2(f), *Applications,* would require that before establishment, maintenance or use of a remote service unit or participation in the establishment, maintenance or use of such a unit a Federal association must receive written approval by the Board. Applications would be required to demonstrate that safeguards acceptable to the Board to insure the privacy and confidentiality of account information will be established and maintained. Paragraph (f) would prohibit any material alteration of an approved remote service unit without prior approval by the Board. In order that the Board may monitor the pilot pojects established pursuant to this regulation, this provision would require Federal associations to provide the Board with such reports as it may require relating to the operations of remote service units. Section 545.4-2(f) would also provide for the termination or alteration of a Federal association's participation in the establishment, maintenance or use of a remote service unit.

Section 545.4-2(g), *Consideration of competitive implications,* would provide that the Board will consider the competitive implications of applications under § 545.4-2 and may request the views of the Antitrust Division of the Department of Justice or request that an application receive clearance from that Division by means of a business review letter.

Section 545.4-2(h), *Definitions,* would define, inter alia, a "remote service unit" to mean an information processing device and associated equipment by means of which financial services are rendered to the public and which, for activation and account access, is dependent upon the use of a machine-readable instrument (i.e. not a passbook) in the possession and control of the account holder. The term "remote service unit" would include both "on-line" computer terminals and "off-line" cash dispensing machines but would not include terminal or teller machines using passbooks or other systems in which the terminal does not machine-read and verify account numbers.

The Board continues to be of the opinion that the operation by financial institutions of various electronic funds transfer systems is a matter of major importance which involves making decisions in which the public should be given a full opportunity to participate.

Accordingly, the Board hereby proposes to amend Part 545 as set forth below.

Interested persons are invited to submit written data, views and arguments to the Office of the Secretary, Federal Home Loan Bank Board, 101 Indiana Avenue NW., Washington, D.C. 20552 by May 24, 1974, as to whether this proposal should be adopted, rejected, or modified. Written material submitted will be available for public inspection at the above address unless confidential treatment is requested or the material would not be made available to the public or otherwise disclosed under § 505.6 of the general regulations of the Federal Home Loan Bank Board (12 CFR 505.6).

§ 545.4-2 **Remote service units (temporary provision).**

(a) *General provisions.* Notwithstanding any other provision of this part other than this section, a Federal association may establish, maintain or use one or more remote service units located (1) within the State in which the home office of such association is located; or (2) within the primary service area of any branch office of such association located outside of such State. A remote service unit may be, but is not required to be, located in a place of business other than a place of business solely of a Federal association such as a retail sales establishment, shopping center, office building, factory, or transportation terminal.

(b) *Financial services authorized for remote service units.* A Federal association may, to the extent authorized by a resolution of its board of directors, render one or more of the following financial services to the public through or by means of a remote service unit;

(1) The placing or transferring of funds to the credit of savings accounts or deposits of such association, but no savings accounts or deposits may be opened at such a unit;

(2) Withdrawals of savings accounts or deposits in such association, which withdrawals may be total or partial and may be effected through the use of nontransferable orders or authorizations but not through the use of negotiable or transferable orders or authorizations to the association: *Provided,* That in no case may the association permit or authorize withdrawals in excess of a holders balance in such an account or deposit;

V3991 MAY 9 74 XUM

(3) Receiving payments related to loans invested in or being serviced by such association; and

(4) Such other financial services as the Board may approve upon application therefor.

(c) *Advertising.* No advertisement, announcement or solicitation by a Federal association relating to a remote service unit may be inaccurate or misleading with respect to the services which may be effected at such a unit. Any advertisement, announcement or solicitation by a Federal association relating to a remote service unit is subject to revision or termination by the Board.

(d) *Bonding requirements.* A Federal association shall take all steps necessary to protect its interest in the financial services processed at each remote service unit, including acquisition of fidelity, forgery and other appropriate insurance.

(e) *Participation with other financial institutions.* Except as provided in this paragraph, a Federal association may, but is not required to, participate in the establishment, maintenance or use of one or more remote service units with one or more financial institutions insured by the Federal Savings and Loan Insurance Corporation or by the Federal Deposit Insurance Corporation, or with such other financial institutions as the Board may approve. The Board may require a Federal association to permit such participation at a reasonable cost by other institutions insured by the Federal Savings and Loan Insurance Corporation with respect to their home offices or branch offices in whose primary service area a remote service unit is located. A Federal association may not enter into an agreement of any kind for the exclusive right to use a remote service unit at any location of a business organization of any kind, or under which other financial institutions would be excluded from using a remote service unit at any location of such business organization where such Federal association does not use a remote service unit.

(f) *Applications.* (1) A Federal association may not establish, maintain, or use a remote service unit, or participate in the establishment, maintenance, or use of a remote service unit, without prior written approval by the Board. Applications for Board approval to establish a remote service unit shall be filed on or before December 31, 1974. One original and one copy of any application pursuant to this section shall be filed with the Director, Office of Industry Development, Federal Home Loan Bank Board, Washington, D.C. 20552, and two copies of any such application shall be sent to the Supervisory Agent. An applicant may file additional information in support of its application and may amend the application. The Director or the Supervisory Agent may request an applicant to furnish additional information.

(2) Applications shall demonstrate that the applicant will establish and maintain safeguards acceptable to the Board to insure the privacy and confidentiality of account information.

(3) Except as may be otherwise provided in a resolution by the Board in a particular case, the participation in or the establishment, maintenance or use of a remote service unit pursuant to this section shall not be altered in any material respect from that approved by the Board under this section unless in compliance with the procedures of this section an application to do so is filed and approved by the Board prior to making such alteration.

(4) A Federal association which participates in or establishes, maintains or uses a remote service unit pursuant to this section shall submit to the Board, at such association's expense, such reports as the Board may require relating to the operation of such unit. The Board may require such Federal association to modify or terminate, in whole or in part, such participation, establishment, maintenance or use. Any contract, agreement or understanding, whether written or oral, between or among a Federal association and any other financial institution or other business organization relating to the participation, establishment, maintenance or use of a remote service unit by such Federal association shall be subject to any rules and regulations which the Board may hereafter prescribe or any resolution which the Board may adopt, including without limitation, a requirement that any such contract, agreement or understanding be terminated.

(g) *Consideration of competitive implications.* The Board will consider competitive implications of applications made under this section and may, in an appropriate case either (1) request the views of the Antitrust Division of the Department of Justice; or (2) specifically request that a Federal association making an application under this section request a business review letter from the Antitrust Division of the Department of Justice pursuant to the provisions of 28 CFR 50.6, as amended.

(h) *Definitions.* As used in this section—

(1) The term "remote service unit" means an information processing device, including associated equipment, structures and systems, through or by means of which information relating to financial services rendered to the public is stored and transmitted, whether instantaneously or otherwise, to a financial institution and which, for activation and account access, is dependent upon the use of a machine-readable instrument in the possession and control of the holder of an account or deposit. The term "remote service unit" includes both "on-line" computer terminals and "off-line" cash dispensing machines, but does not include terminals or teller machines using passbooks or other systems in which the terminal does not machine-read and verify account numbers.

(2) The term "State" means the States of the Union, the District of Columbia, Puerto Rico, Guam, and the Virgin Islands.

(3) The term "Supervisory Agent" means the President of the Federal Home Loan Bank of the district in which the home office of the Federal association is located or any other officer or employee of such Bank designated by the Board as agent as provided by §§ 501.10 and 501.11 of this chapter.

(i) *Termination.* This section and approval granted under this section shall automatically terminate at the close of June 30, 1975.

§ 545.14–5 Satellite office.

(a) *Nature of a satellite office.* An office of a Federal association which is not its home office or a branch office approved pursuant to § 545.14 shall be deemed to be a satellite office if it meets the requirements of a satellite office as described in this section and if it is a satellite of the association's home office or a branch office in that it is located in the primary service area, as determined by the Board or Supervisory Agent, of such home office or branch office. Any business of a Federal association, as authorized by the association's board of directors, may be transacted at a satellite office.

* * * * *

(d) *Specific provisions.* Each application for permission to establish a satellite office will be considered or processed pursuant to the provisions of this section. Approval of such an application pursuant to this section will be subject to the following provisions and any other conditions, requirements, and limitations the Board may specify in a particular case:

(1) A satellite office may be, but is not required to be, located within premises principally occupied by a retail sales establishment or any other business organization. A satellite office shall be operated in conformity with the following physical requirements:

(i) The satellite office shall not occupy more than 500 square feet of floor space; and

(ii) Provision shall not be made for more than 4 teller stations.

FEDERAL POWER COMMISSION

[18 CFR Part 157]

[Docket No. RM74–23]

INFORMATION ON GAS SUPPLY AND DELIVERABILITY IN APPLICATIONS FOR CERTIFICATES UNDER THE NATURAL GAS ACT

Notice of Proposed Rulemaking

MAY 2, 1974.

Take notice that pursuant to section 553 of Title 5 of the U.S. Code and sections 7 and 16 of the Natural Gas Act (52 Stat. 825, 56 Stat. 83, 15 U.S.C. 717f (c); 56 Stat. 84, 15 U.S.C. 717f(d); 56 Stat. 84, 15 U.S.C. 717f(e); and 52 Stat. 830, 15 U.S.C. 717o) the Commission proposes to amend § 157.14 of Part 157, Subchapter E of Chapter I, Title 18 of the Code of Federal Regulations, by revising paragraph (a)(10) thereof, 18 CFR 157.14(a)(10), to require to be included as Exhibit H to applications for certificates of public convenience and necessity filed pursuant to section 7 of the Natural Gas Act certain information with respect to gas supply and deliverability which presently may be incorporated by reference when applicants have filed annual reports required by § 260.7 of Statements and Reports (Schedules), 18 CFR 260.7. It is proposed to require gas supply and deliverability to be set forth and not incorporated, as now allowed, by reference to FPC Form No. 15, the annual report prescribed by § 260.7. An Exhibit H would be required in all applications for authorization to increase existing sales, facilities or capacity; to construct new facilities to make new sales; to alter any type of gas service; and to attach new sources of supply except budget-type applications filed under paragraph (b) of § 157.7 of the regulations under the Natural Gas Act, 18 CFR 157.7(b).

Paragraph (a)(10) presently provides that companies filing Form No. 15 may incorporate by reference in their certificate applications the gas supply and deliverability information in said reports, except with respect to applications for authorization to serve major new markets or to serve major existing markets from new sources of gas supply over new routes. This procedure does not give the Commission access to the latest available gas reserve data since the most recent Form No. 15 may contain data up to 15 months out of date and in cases of new reserve attachments does not make available any reserve data. Since timely data are necessary in processing applications, Commission personnel are required to seek out such data by protracted correspondence and/or field trips which result in delays in the administrative process. In addition, failure to include gas supply and deliverability data in applications often denies the public access to non-confidential information.

Because of deepening energy supply problems, there is a clear obligation placed on the Commission to review more critically the gas supply aspects of pipeline certificate applications. There is a pressing need for more comprehensive and timely gas reserve and deliverability data that is not filed in applications lacking an Exhibit H. The additional burden placed on the filing company is fully justified by improved service to the public interest.

The Commission proposes to require that gas supply and deliverability information be set forth in all applications made under section 7 of the Natural Gas Act in which the authorization sought may be dependent upon the applicants' gas supply or where the service to be provided may have an effect on the applicants' ability to serve present customers. The data would not be required in budget-type applications under paragraph (b) of § 157.7 of the regulations under the Natural Gas Act or for facilities realignment or replacement. In all other applications the information would have to be set forth to the extent that it is relevant to the particular facility, sale or other authorization which is sought.

The Commission is cognizant of the potential reluctance of some applicant companies to include in their applications supply and deliverability data which they or their producer suppliers may regard as confidential. Therefore, the proposed amended rule requires the filing of summary supply and deliverability information as Exhibit H and permits the furnishing of the complete data to the Commission separately in a confidential status. Applicants should realize, of course, that the Commission cannot be guarantor of the confidential status of supply and deliverability data [1] and that it may not be possible for the Commission to grant authorizations based upon data not available for evaluation by all parties to proceedings in an evidentiary record and which cannot be examined and probed through witnesses. In such cases it might be necessary for applicants and their producer suppliers to release data from a confidential status as a condition to consideration of applications and issuance of certificates. Concurrently herewith the Commission is amending its General Policy and Interpretations by adding § 2.72 thereto which provides that all relevant information acquired by the Commission staff, including workpapers, pursuant to any staff investigation conducted under sections 8, 10, or 14 of the Natural Gas Act shall, without further order of the Commission, be free from the restraints of section 8(b) of the Natural Gas Act regarding the divulgence of information, with respect to any matter set for formal hearing.

The Commission proposes to amend § 157.14 of Part 157, in paragraph (a)(10) by revising (vi) thereof to read as follows:

§ 157.14 Exhibits.

(a) * * *

(10) * * *

(vi) Pipeline companies which have filed annual reports in conformity with § 260.7 of this chapter will be required to file additional information with regard to gas supply and deliverability in support of applications for certificates for authorization to increase existing sales, facilities or capacity; to construct new facilities to make new sales; to alter any type of gas service; and to attach new sources of supply except budget-type applications filed under paragraph (b) of § 157.7. In all other applications the pipeline company may rely on the information set forth in said annual report, by reference thereto, unless otherwise ordered by the Commission. When gas supply and deliverability information is required to be in the application and is not permitted to be incorporated by reference, such information need pertain only to the supply and deliverability for that phase of the company operations which would be affected by the facility or sale for which authorization which is sought, except that total system supply and deliverability information shall be included in all applications for authorization to serve major new markets or to serve major existing markets from new sources of gas supply over new routes. In those instances in which the information contained in the annual report required by § 260.7 of this chapter is not permitted to be incorporated by reference and in which the applicant or his producer supplier regards the required information as confidential, there shall be included in the application as Exhibit H a statement showing total reserves for the proposed project segregated into proven and probable reserves, a description of the leases and/or offshore blocks from which the reserves may be available without relating specific reserves to specific properties, and as much of the information required by subdivisions (i) through (v) of this subparagraph and subdivision (vii) of this subparagraph which the applicant or his supplier do not regard as confidential. Any reserves claimed as possible potential must be accompanied by a description of the leases and/or offshore blocks for which these reserves are claimed and copies of the gas purchase contracts or option agreements under which the applicant has a claim to any reserves discovered. If information is excluded from the application as confidential, there shall be included in the application a statement that such information has been excluded and the reasons therefor, and all of such information shall be

[1] See Reliability of Electric and Gas Service, Docket No. R–405, Order of Modification to Authorize Compliance with Congressional Subpoena Duces Tecum, issued June 22, 1973, 38 FR 17275 (June 29 1973) and Order Updating Nationwide Investigation, issued August 1, 1973, 33 FR 21182 (August 6, 1973), amended August 16, 1973, 38 FR 22823 (August 25, 1973).

V 39 91 MAY 9 74 XUM

furnished to the Commission to be held and examined in a confidential status. The Commission reserves the right to require the release of information from a confidential status as a condition for consideration of an application or issuance of a certificate. The receipt, maintenance, and consideration of information in a confidential status is subject to the requirements of paragraph (f) of § 1.36 and § 2.72 of this chapter and the laws of the United States.

• • • • •

Any interested person may submit to the Federal Power Commission, Washington, D.C. 20426, not later than June 17, 1974, data, views, comments, or suggestions, in writing, concerning all or part of the amendment proposed herein. An original and 14 conformed copies should be filed with the Secretary of the Commission. Written submittals will be placed in the Commission's public files and will be available for public inspection at the Commission's Office of Public Information, Washington, D.C., during regular business hours. Submittals to the Commission should indicate the name, title, mailing address, and telephone number of the person to whom communications concerning the proposal should be addressed, and whether the person filing requests a conference with the staff of the Federal Power Commission to discuss the proposed amendment. The staff, in its discretion, may grant or deny requests for a conference. The Commission will consider all written submittals before acting on the proposed amendment.

The Secretary shall cause prompt publication of this notice to be made in the FEDERAL REGISTER.

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

[Docket No. M 74-95]

BETHLEHEM MINES CORP.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 4861(c) (1970), Bethlehem Mines Corporation has filed a petition to modify the application of 30 CFR 75.1405 to its Mine No. 41 located at Bethlehem, Pennsylvania.

30 CFR 75.1405 provides as follows:

All haulage equipment acquired by an operator of a coal mine on or after March 30, 1971, shall be equipped with automatic couplers which couple by impact and uncouple without the necessity of persons going between the ends of such equipment. All haulage equipment without automatic couplers in use in a mine on March 30, 1970, shall also be so equipped within 4 years after March 30, 1970.

Petitioner proposes that the requirements of 30 CFR 75.1405 be suspended in respect to Mine No. 41 for the duration of its limited operations, for the following reasons:

(a) Automatic couplers provide no greater protection to employees than do the standard link-and-pin couplers presently in use at Mine No. 41. During an 11-year period, the safety experience of Mine No. 41 with automatic couplers in use was better than the safety experience at Mine No. 44, where automatic couplers were in use.

(b) Although automatic couplers are more sophisticated mechanically than the link-and-pin couplers, this degree of sophistication is a liability in terms of increased maintenance requirements due to the fact that they are more easily damaged. In addition, damaged equipment, until it can be repaired and even though it is repaired quickly, poses an obvious threat to safety.

(c) The physical characteristics of the mine make it impossible for automatic couplers to be installed since cars equipped with automatic coupling devices could not be raised and lowered within the confines of the shafts in which the haulage cages are located.

(d) Even if the size of the existing shafts did not make it impossible to raise and lower cars equipped with automatic couplers, the cars could not be equipped with such devices by the time currently projected for cessation of operations of the mine, to wit, the middle of 1975.

Petitioner proposes an alternative method for achieving the result contemplated by 30 CFR 75.1405 which will at all times guarantee no less than the same protection afforded by such standard. Petitioner proposes to:

(a) Issue coupling hooks to members of the transportation crew. These coupling hooks will allow the couplings to be made without endangering the safety of the employee performing the coupling operation.

(b) Instruct all transportation crew employees in the proper use of the coupling hooks, and review such instructions periodically.

(c) Petitioner has been advised that the link-and-pin-coupling apparatus on certain types of mine cars can be modified so that the employee performing the coupling can move a lever located at the side of the car, which in turn will raise and lower the coupling pin. Investigations are currently being conducted to determine if the coupling devices on the mine cars at Mine No. 41 can be modified in a similar manner.

(d) Maintain supervisory observation of the transportation crews while the crews work; continue to make job safety analysis studies; continue to assure that haulage practices comply with company policy, as well as with federal and state requirements; continue to discuss with individual employees job safety analysis studies as well as federal and state regulations; and continue safety discussion classes on a weekly or more frequent basis.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before June 10, 1974. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

GILBERT O. LOCKWOOD,
Acting Director, Office of Hearings and Appeals.

APRIL 30, 1974.

[FR Doc.74-10656 Filed 5-8-74;8:45 am]

[Docket No. M 74-96]

BETHLEHEM MINES CORP.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 861(c) (1970), Bethlehem Mines Corporation has filed a petition to modify the application of 30 CFR 75.303 to its Ellsworth Division's Mines Nos. 51, 58, and 60 located at Bethlehem, Pennsylvania.

30 CFR 75.303 provides as follows:

Within 3 hours immediately preceding the beginning of any shift, and before any miner in such shift enters the active workings of a coal mine, certified persons designated by the operator of the mine shall examine such workings and any other underground area of

V 39 91 MAY 9 74 XUM

the mine designated by the Secretary or his authorized representative. Each such examiner shall examine every working section in such workings and shall make tests in each such working section for accumulations of methane with means approved by the Secretary for detecting methane, and shall make tests for oxygen deficiency with a permissible flame safety lamp or other means approved by the Secretary; examine seals and doors to determine whether they are functioning properly; examine and test the roof, face, and rib conditions in such working section; examine active roadways, travelways, and belt conveyors on which men are carried, approaches to abandoned areas, and accessible falls in such section for hazards; test by means of an anemometer or other device approved by the Secretary to determine whether the air in each split is traveling in its proper course and in normal volume and velocity; and examine for such other hazards and violations of the mandatory health or safety standards, as an authorized representative of the Secretary may from time to time require.

Petitioner proposes an alternative method for achieving the purpose intended by the provisions of section 303(d)(1) of the Act. The alternative method proposed by Petitioner will at all times guarantee no less than the same measure of protection afforded the miners by such standard. In fact, the application of section 303(d)(1) itself involves a diminution of safety to the miners. The diminution of safety introduced by application of the subject standard would be virtually eliminated, or reduced to a minimum, by applying the proposed alternative method.

Petitioner proposes that the application of the subject standard be modified with respect to pre-shift examination of main haulage roads as follows:

(a) Apply eight hours instead of three hours as the time frame for pre-shift examinations of main haulage roads, outby the working section.

(b) After idle periods, and before one designated shift each day of operation, the examination of such main haulage roads outby the working sections shall continue to include tests for methane of all high places where methane is likely to accumulate in the event of interruption to ventilation as defined in section 303(t)(3) of the Act. The other examinations of such main haulage roads, ventilation not having been interrupted since the last prior examination, shall be carried out as a moving examination.

Application of the subject standard will result in a diminution of safety, for the following reasons:

(a) The mines will be forced to utilize a great number of certified persons who are in great demand but in short supply. There is not sufficient personnel available, therefore, to perform such preshift examinations of main haulage roads in addition to the other essential duties of such persons. To the extent that certified persons are required to make such examinations for oncoming shifts in Petitioner's three-shift mines, they will be taken away from other duties that are more important insofar as safety of the miners is concerned. In view of the fact that coal is produced on three consecutive operating shifts on a five or six day basis each week, the possibility of undetected hazards is truly minimal.

(b) Such pre-shift examinations of main haulage roads within a three-hour period will add needless traffic and congestion in these haulage roads at the busiest times of production shifts, will greatly add to the exposure of certified persons, and will also greatly add to the mental strain of motormen who should not be distracted except for essential interruptions.

(c) Such multiplicity of main haulage road examinations when confined to the three-hour period as found in section 303(d)(1) will tend to discourage the future use of one way traffic in separate main haulage roads. The system of one way traffic is being seriously considered for improvement in safety and more orderly operations. A diminution of safety is brought about when the operator is discouraged from installing separate main haulageway systems.

(d) A more thorough examination can be accomplished when more time is available for that purpose, consequently the chances of eliminating possible hazards are increased.

The mines will be examined in the same manner, covering essentially the same route, from examination to examination. The time interval between the points examined throughout the main-track haulage roads, therefore, will be approximately eight hours. Clearly, the method proposed by the Petitioner meets all objectives of the Act, and constitutes a more thorough examination, conducted in a safer manner, than do the provisions of section 303(d)(1).

Persons interested in this petition may request a hearing on the petition or furnish comments on or before June 10, 1974. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

GILBERT O. LOCKWOOD,
Acting Director, Office of Hearings and Appeals.

[Docket No. M 74-110]

CLEAR CREEK COAL COMPANY, INC.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 861(c) (1970), Clear Creek Coal Company, Inc., has filed a petition to modify the application of 30 CFR 75.1405 to its Clear Creek No. 2 Mine located at Monterey, Tennessee.

30 CFR 75.1405 provides as follows:

All haulage equipment acquired by an operator of a coal mine on or after March 30, 1971, shall be equipped with automatic couplers which couple by impact and uncouple without the necessity of persons going between the ends of such equipment. All haulage equipment without automatic couplers in use in a mine on March 30, 1970, shall also be so equipped within 4 years after March 30, 1970.

In support of its petition, Petitioner states the following:

For the past four (4) years solid bottom cars with a rotary dump installed on the surface have been utilized in the subject mine. There have been no accidents, in which employees were injured, arising out of this phase of the company's operation since the mine was opened. The safety record of the mine has consistently lowered it's workmen's compensation rate so that it is currently entitled to the lowest compensation rate which is afforded any coal mining operation in the State of Tennessee.

Detailed haulage procedure, hoisting procedure and safety features employed in the alternate proposal are as follows:

HAULAGE PROCEDURE

Six loaded mine cars are hauled from the loading point to the sidetrack at the foot of the slope by means of a six-ton electric locomotive. A second locomotive follows this loaded trip. The loaded cars are parked on the sidetrack, and the motorman uncouples the locomotive from the trip. The motor man on the No. 2 locomotive switches onto the empty sidetrack and couples to the empty cars. The No. 2 locomotive pulls the empty trip to the switching point near the working section, parks the trip of cars, uncouples from them, and switches out of the way. The motorman on the No. 1 locomotive couples the locomotive to the parked trip of cars, and pushes them to the loading point.

HOISTING PROCEDURE

After the sidetrack is cleared, the rope-hooker uncouples the first loaded car, and connects the safety-dog to the rear of the car. Retreating to the shelter-hole, he signals the hoistman to lower the empty car from the surface to the empty sidetrack. The rope is removed from the empty car and is connected to the loaded car. The loaded car is hoisted to the surface and into the rotary dump. The coal is dumped into the storage bin. The empty car is lowered to the sidetrack. This procedure is continued until the last car has been dumped. This car remains on the surface until another loaded trip has been parked on the sidetrack and the locomotives have cleared the area at the bottom of the slope.

SAFETY FEATURES

1. All mine cars are coupled and uncoupled by the rope-hookers (2) when cars are parked on a straight and level sidetrack with no locomotive coupled to either end of the trip of cars.

2. Operators of the locomotives couple and uncouple from the trip of cars when cars and locomotives are parked on a straight and level, track. The operator, while seated in his control deck of the locomotive, uncouples the locomotive from the loaded trip at the sidetrack and couples to the empty trip at the switching point.

The alternate method will at all times guarantee a standard of protection not less than would be afforded by the application of the mandatory standard.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before June 10, 1974. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

GILBERT O. LOCKWOOD,
Acting Director, Office of Hearings and Appeals.

APRIL 30, 1974.

[FR Doc.74-10655 Filed 5-8-74;8:45 am]

[Docket No. M 74-105]

H & L COAL CO.

Petition for Modification of Application of Mandatory Safety Standard

Notice is hereby given that in accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. 861(c) (1970), H & L Coal Company has filed a petition to modify the application of 30 CFR 77.1605(k) to its No. 1 Mine located at Laurel Branch, Buchanan County, Virginia.

30 CFR 77.1605(k) provides as follows:

Berms or guards shall be provided on the outer bank of elevated roadways.

The alternate method which Petitioner proposes to establish in lieu of the mandatory standard is as follows:

1. A daily inspection of all coal-hauling vehicles shall be made and any defects detected shall be corrected before the vehicle is put into service. A record of the inspection and repair on each vehicle shall be kept and maintained by a supervisory employee.

2. Roadway surfaces shall be kept free of debris, excessive water and snow and ice, and maintained as free as practicable of small ditches (washboard effects).

3. A traffic system should be put into use for these roads requiring that loaded vehicles have the right-of-way on the highwall side of roads regardless of their direction of travel.

4. Warning signs shall be posted designating curves, steep grades where trucks should shift to a lower gear, and where roadways are reduced to one-lane traffic. Stop signs shall be posted where one road intersects another, giving main haulage road traffic the right-of-way. Signs should also be posted designating passing points.

5. All equipment operators should be trained in the use of haulage equipment and the safety of vehicles on haulage roads.

6. All haulage vehicles shall have:
(a) Original manufacturers brakes.
(b) Engine or Jacobs brakes.
(c) Emergency (parking) braking system.

7. Adequate supplies of crushed stone or other suitable materials shall be stored at strategic locations along the haulage roads for use when the road surface becomes slippery.

8. A minimum width of 30 feet shall be provided and maintained along two-lane roads, and where widths of less than 30 feet are provided and maintained, the roads shall be designated as single-lane roads.

9. On roads that afford only one traffic lane, a minimum width of 16 feet shall be maintained, with passing points provided at intervals of not more than 1,000 feet; if visibility is obscured by brush or other materials, passing points shall not be more than 500 feet apart.

10. Where abrupt drop-offs are present along the outer banks, super-elevation shall be provided to cause the vehicles to gravitate toward the highwall side of the road.

11. All rules of the road (traffic system) shall be posted on the bulletin boards throughout the mine area, and such rules of the road shall be made part of the training and retraining programs.

Petitioner further states that the alternate method outlined above, will, at all times, gurantee no less than the same measure of protection afforded the miners at the Petitioner's mine by the mandatory standard.

Persons interested in this petition may request a hearing on the petition or furnish comments on or before June 10, 1974. Such requests or comments must be filed with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, Virginia 22203. Copies of the petition are available for inspection at that address.

GILBERT O. LOCKWOOD,
Acting Director, Office of Hearings and Appeals.

Bureau of Indian Affairs

TURTLE MOUNTAIN RESERVATION, NORTH DAKOTA

Ordinance Legalizing the Introduction, Sale, or Possesion of Intoxicants

MAY 3, 1974.

In accordance with authority delegated by the Secretary of the Interior to the Commissioner of Indian Affairs by 230 DM 2, and in accordance with the Act of August 15, 1953, Pub. L. 277, 83rd Congress, 1st Session (67 Stat. 586), I certify that the following ordinance relating to the application of the Federal Indian Liquor Laws on the Turtle Mountain Reservation, North Dakota was adopted on February 6, 1974 by the Turtle Mountain Tribal Council, which has jurisdiction over the area of Indian Country included in the ordinance, reading as follows:

ORDINANCE 19

TURTLE MOUNTAIN BAND OF CHIPPEWA INDIANS

Pursuant to the authority vested in the Tribal Council of the Turtle Mountain Band of Chippewa Indians, by its Constitution, particularly Article IX, under (a) of section 3.

Be it enacted by the Tribal Council of the Turtle Mountain Band of Chippewa Indians that Titles 18 and 19, "Business Regulations and Licenses," and "Alcohol Beverage Controls," pages 203 through 219, be adopted and added to the Turtle Mountain Tribal Code of 1968.

TITLE 19—ALCOHOL BEVERAGE CONTROLS
CHAPTER 1901—GENERAL PROVISIONS

19.0101 *Definitions.* For the purpose of this chapter:

1. "Alcoholic beverages" shall mean any liquid suitable for drinking by human beings, which contains one-half of one percent or more of alcohol by volume.

2. "Beer" shall mean any malt beverage containing more than one-half of one percent of alcohol by volume.

3. "Liquor" shall mean any alcoholic beverage except beer.

4. "Person" shall mean and include any individual, firm, corporation, association, club, co-partnership, society, or any other organization; and should include the singular and the plural.

5. "Sale" and "sell" shall mean all manner or means of furnishing alcoholic beverages, including the selling, exchange, barter, disposition of, and keeping for sale of such alcoholic beverages.

6. "Package" and "original package" shall mean and include any container or receptacle containing an alcoholic beverage, which container or receptacle is corked or sealed by the manufacturer thereof and which cork or seal has not been removed or broken prior to the sale of such package to the purchaser.

7. "Club" or "lodge" shall include any corporation or association organized for civic, fraternal, social or business purposes, or the promotion of sports, which has at least 200 members at the time of application for license.

8. "Retail sale" shall mean the sale of alcoholic beverages for use or consumption and not for resale.

9. "Off-sale" shall mean the sale of alcoholic beverages in original packages for consumption off or away from the premises where sold, and an off-sale license shall authorize the person named therein to conduct such off-sales only at the place designated in such license and not elsewhere, and shall not permit the opening of the package sold on the premises where sold. Such sale must in each case be completed by delivery of the liquor sold to the actual purchaser thereof on the licensed premises.

10. "On-sale" shall mean the sale of alcoholic beverages for consumption only on the premises where sold, and an on-sale license shall authorize the licensee to conduct such on-sales only at the place designated in such license and not elsewhere.

19.0102 *Exceptions.* 1. This chapter shall not apply to wines delivered to priests, rabbis, and ministers for sacramental use.

2. This Chapter shall not be construed to apply to the following articles, when they are unfit for beverage purposes:

a. Denatured alcohol produced and used pursuant to Acts of Congress and the regulations thereunder;

b. Patent, proprietary, medical, pharmaceutical, antiseptic and toilet preparations;

c. Flavoring extracts, syrups, and food products;

d. Scientific, chemical, and industrial products; nor to the manufacture or sale of said articles containing alcohol.

19.0103 *Licensing required.* No person shall sell at retail within the limits of the Reservation any alcoholic beverage without first having obtained a license therefor as herein provided.

19.0104 *License—term of.* 1. All licenses issued hereunder shall be for a period of not

V 39 91 MAY 9 74 XUM

more than one year and shall expire on the 30th day of June in each year. Where a license is granted for a period less then a year any subsequent renewal thereof must be made for the full annual term.

2. If an application is made for license hereunder during the license year for the unexpired portion of such year, the fees therefore shall be as follows:

a. If the short term be for three months or less, the license fee therefore shall be 25 percent of the annual license fee.

b. If the term be for more than three months and less than six months, the license fee therefore shall be 50 percent of the annual license fee.

c. If the term be for more than six months but less than nine months, the license fee therefore shall be 75 percent of the annual license fee.

d. For any term in excess of nine months, the full annual license fee shall be paid.

19.0105 *License—classes of.* 1. On and off sale liquor licenses at an annual fee of $600.00 dollars.

2. Off sale liquor license at an annual fee of $300.00 dollars.

3. On and off sale beer license at an annual fee of $600.00 dollars.

4. Off sale beer license at an annual fee of $300.00 dollars.

19.0106 *License—lodges or clubs.* The combined fee for all four classes of licenses shall be in the sum of $1200.00 dollars per year for a lodge or club with a membership up to 500, and shall be in the sum of $1200.00 dollars for a lodge or club with a membership over 1,500.

19.0107 *License—qualifications for.* No retail license shall be issued to any person unless the applicant shall file a sworn application, accompanied by the required fee, showing the following qualifications:

1. Applicant, if an individual, must be a citizen of the United States, and be person of good moral character.

2. If applicant is a corporation, the manager of the licensed premises and the officers, directors and stockholders must be citizens of the United States and persons of good moral character. Corporate applicants must first be properly registered with the Secretary of the Tribal Council.

3. If applicant is a co-partnership, all the members must be citizens of the United States and residents of North Dakota for a period of more than one year prior to the date of application, and be persons of good moral character.

4. Applicant or manager must not have been convicted of a felony.

5. Building in which business is to be conducted must meet Tribal and state requirements regarding the sanitation and safety.

6. If applicant's place of business is to be conducted by a manager or agent, said manager or agent must possess the same qualifications required of the licensee.

19.0108 *License—application for.* Any person desiring a license to sell alcoholic beverages at retail as hereinbefore described shall make and present a written verified application to the Tribal Council of this Reservation, filed with the Tribal Secretary, containing the following information:

1. The name and address of the applicant; if the applicant is a co-partnership, the name and address and place of residence of each member of said co-partnership; if the applicant is a corporation, the name and address of the officers of the corporation and the manager of the licensed premises.

2. Whether the applicant is a citizen of the United States, and if a naturalized citizen, the date and place of naturalization and place of residence of the applicant for a period of one year last preceding the date of application; if the applicant is a co-partnership the same preceding information for each member of said co-partnership; and if the applicant is a corporation, the date incorporated, the state where incorporated, the purpose for which said corporation was incorporated, and if such corporation was incorporated, and if such corporation is a subsidiary of any corporation, the name of the parent corporation.

3. The legal description and the address of the premises for which license is sought.

4. The date on which the applicant acquired title to the premises sought to be licensed, and if the applicant does not have title to said premises, the name and address of the owner of the premises together with a copy of the applicant's lease, if written, under which he holds possession of said premises.

5. Whether the applicant has ever engaged in the sale or distribution of alcoholic beverages prior to this application, and if so, the date and type of business and place where so engaged whether within or without the State of North Dakota, the date the applicant first began to operate.

6. Whether the applicant has ever had a license revoked or cancelled by any Tribal, municipal, state or federal authority, and if so, the date of such cancellation, the place and authority cancelling same, and the reason for such cancellation.

7. Whether the applicant has ever been convicted of the violation of any law of any Indian Tribe, the United States or of any state, or of the violation of any local ordinance, with regard to the manufacture, sale, distribution or possession of alcoholic beverages, and if so, the dates, names of places, and courts, in which said convictions were had.

8. Whether the applicant has ever had a license for the sale of alcoholic beverages revoked for any violation of state or Tribal laws or local laws or local ordinances, and if so, the names of the bodies revoking such license, the dates of such revocation, and the reasons assigned therefore.

9. Whether the applicant has ever been convicted of any other crime than stated in subsections (7) and (8) hereof, in this state or any other state, or under any federal law, and if so, the date of such conviction, the name of the crime for which convicted, the amount and terms of sentence passed, and the court in which convicted.

10. The name and address and the place of residence for a period of one year prior to the date of application of any person who will have charge, management, or control of the establishment for which license is sought.

11. Whether any other person than the applicant has any right, title, estate or interest in the leasehold or in the furniture, fixtures, or equipment in the premises for which license is sought, and if so, the names and address of such person, together with a statement of the interest so held.

12. Whether the applicant has any interest whatsoever, directly or indirectly, in any other establishment dispensing alcoholic beverages, either at wholesale or retail, within or without the State of North Dakota, and if so, the names and addresses of such establishments. The provision is meant to include the holders of capital stock in any corporation dealing in alcoholic beverages, either at wholesale or retail, and within the borders of the United States.

13. The occupation which the applicant has followed during the past five years.

14. The names and addresses of at least three business references.

15. Whether the applicant is rated by any commercial agency, and if so, the name and address of said agency.

16. Whether the applicant is engaged in any other business or intends to be engaged in any other business than the sale of alcoholic beverages under the license for which application is made, and if so, the type of business, and if any employee, the name and address of the employer.

17. The classification of license applied for.

18. If the applicant is a lodge or a club, the date of organization, the number of members, the purpose for which organized, and the purpose for which profits to be derived from the sale of alcoholic beverages are to be applied; and whenever required by the Tribal Council a list of the members belonging to such lodge or club.

19. A statement by the applicant that he consents to entry and inspection of the premises for which license is sought or any part thereof at any time by any peace officer of this Tribe.

19.0109 *License—applicant fitness.* The Captain of Police or such other person or officer as may be designated by the Tribal Council shall, upon the filing of an application, investigate the facts as stated in the application and the character, reputation and fitness of the applicant, and shall report on said matters to the Tribal Council.

19.0110 *License—limit to one applicant.* Not more than one license of each classification shall be issued or granted to any applicant, and each license shall be valid only for the specific premises licensed.

19.0111 *License—limit of number.* The maximum number of each classification of license which may be issued shall be limited to one per each 1500 population according to the last official census.

19.0112 *License—location of.* No license shall be issued to or transferred to any person, firm, or corporation to engage in the sale of beer or alcoholic beverages within the Reservation without approval as to the location of said licensed business by the Tribal Council. The application for approval shall be in writing filed with the Council. Public hearing shall then be had of said application, upon notice published in the official minutes of the Tribal Council two (2) times, the first publication to be at least 15 days before the hearing date set for hearing said application. At the time of hearing the Tribal Council shall in its discretion determine if said location is in harmony with the public interest and welfare of the community, and shall consider among other things the following factors:

1. The convenience of police regulation.
2. Public health and sanitation.
3. Proximity of other licensed businesses.
4. Proximity of schools, churches, funeral homes, public buildings, or buildings used by or for minors.
5. Any protests of neighboring property owners or occupants.
6. Zoning regulations.
7. Proposed on or off sale or both of licensee.
8. Interference with or proximity to residential property.
9. Interference with neighboring property.
10. Suitability of premises for sale of beer, liquor or alcoholic beverages.
11. Public convenience and necessity.

19.0113 *License—posting of.* License issued hereunder shall be posted in a conspicuous place in the premises for which the license has been issued.

19.0114 *License—transfer of.* No license under the provision of this chapter shall be transferable and any attempt to do so shall constitute a violation of the provisions of this chapter.

19.0115 *License fees—disposition of.* All license fees collected under this chapter shall be transferable to the treasurer of the Tribal Council and credited to the general fund of the Turtle Mountain Band of Chippewa Indians.

19.0116 *Hours and time of sale.* No licensee shall sell, serve, or permit to be sold, served or consumed on the premises named in the license any alcoholic beverages between the hours of 1:00 a.m. on Sundays and 8:00 a.m. on Mondays, or between the hours of 1:00 a.m. and 8:00 a.m. on all other days of the week or on Memorial Day, Good Friday, Christmas Day or after 8:00 p.m. on Christmas Eve, or between the hours of 1:00 a.m. and 8:00 p.m. on the day of any statewide, Tribal, County, or other election affecting the electors of this Reservation.

19.0117 *Licensee's responsibility.* Every licensee is hereby made responsible for the conduct of his place of business and is required to maintain order and sobriety in such place of business, permitting no disorderly conduct on the premises. Alcoholic beverages shall not be served to any intoxicated person, nor shall any intoxicated person be permitted to remain upon the premises.

19.0118 *Cashing certain checks prohibited.* No licensee hereunder shall cash any bank check, voucher, order, or document of any kind drawn by a County Welfare Board, or any state or federal agency in payment for wages made for work done on any so-called work relief project, or for relief purposes, which by its terms authorizes or permits any person presenting such bank check, voucher, order or document to receive payment of money.

19.0119 *Sales prohibited—items.* No licensee shall sell on the licensed premises any item other than alcoholic beverages, soft drinks, tobacco products, drink mixing supplies, peanuts, pretzels, potato chips and related sundries; except a licensee may sell alcoholic beverages in a restaurant separated from the room in which alcoholic beverages are opened or mixed if gross sales of food are at least equal to sales of alcoholic beverages in the dining area.

19.0120 *Sales prohibited—persons.* No licensee, his agent, or employee shall sell any alcoholic beverages to a person under 21 years of age, a habitual drunkard, an incompetent, or an intoxicated person.

19.0121 *Minors in licensed premises.* No licensee shall permit any person under 21 years of age to remain on the licensed premises while alcoholic beverages are being sold or displayed thereon, except that a person under 21 years may remain in a restaurant where alcoholic beverages are being sold if accompanied by a parent or legal guardian.

19.0122 *Age identification.* Before selling alcoholic beverages to any person, or before determining whether any person shall remain upon the licensed premises, a licensee, his agent or employee may require a statement in writing and signed by said person of such person's age. Any person who makes a false statement as to his or her age, or signs a name other than his own or her own to any such statement, shall be guilty of violation of this Chapter.

19.0123 *Street sales prohibited.* The sale or consumption of alcoholic beverages upon or across any street, alley, or public way is prohibited.

19.0124 *Premises, equipment of.* Premises licensed hereunder for on sale alcoholic beverages shall be equipped with tables, chairs, booths and stools in a sufficient number to accommodate reasonably the patrons.

19.0125 *Closed or screened areas.* No premises licensed for on-sale of alcoholic beverages shall contain any side rooms, closed booths, or other screened enclosures, nor shall any screen, partition, curtain, blind, or obstruction of any kind prevent a clear view at all times of all parts of the interior of the premises licensed. All booths located in such premises shall open directly into the main part of said premises and shall be accessible from the aisles therein.

19.0126 *Purchase from licensed wholesaler.* No licensee hereunder shall purchase, have or possess any alcoholic beverages other than those purchased from a wholesaler duly licensed by the State of North Dakota pursuant to the provisions of Title V of the North Dakota Century Code; and each licensee hereunder shall keep on file all invoices covering purchases by him of such alcoholic beverages showing the name and license number of the wholesaler, and such records shall be retained in the possession of the licensee and shall be at all times open to inspection by any police officer.

19.0127 *Toilets required.* The premises for which an On-Sale License is granted must be equipped with adequate and sufficient lavatories and toilets, separately maintained for men and women, and kept in a clean and sanitary condition. The On-Sale License may be revoked when the foregoing requirements, or any other health ordinance or regulation, is not, at all times, strictly observed.

19.0128 *Bottle clubs.* No person shall operate an establishment whereby persons are allowed to bring their own alcoholic beverages on the premises where the proprietor sells soft drinks, mix, ice, or charges for bringing such beverages on the premises.

19.0129 *Deliveries—off licensed premises.* 1. It shall be unlawful for any person, firm or corporation engaged in the retail sale of liquor, beer or alcoholic beverages to make, or cause to be made any deliveries outside of the licensed place of business of beer, liquor or other alcoholic beverages to any purchaser or prospective purchaser.

2. It shall be unlawful for any person, firm or corporation to deliver by foot, carrier or motor carrier, any beer, liquor or alcoholic beverage, to any person within the reservation provided however, that this section shall not apply to deliveries made by a licensed wholesaler dealer to a licensed retail dealer.

3. Where any retail alcoholic beverage or beer license is a club or lodge, such licensee shall sell to members and their guests only.

19.0130 *Termination or revocation of licenses.* 1. Licenses issued pursuant to this article shall be deemed cancelled and revoked and terminated upon the happening of any one or more of the following contingencies.

a. The death of the licensee unless upon application to the Tribal Council by personal representative of the decedent, the Tribal Council shall consent to the carrying on of the business by the personal representative.

b. When the licensee ceases business at the location licensed, unless a new location has been approved.

c. When the licensee be adjudged bankrupt.

d. When the licensee ceases to possess the qualifications required of an applicant for a license as set out in this Chapter.

e. When the license or permit of the licensee from the United States Government or the State of North Dakota to sell alcoholic beverages at the location licensed has been terminated or been revoked.

2. License issued pursuant to this ordinance may, in the discretion of the Tribal Council, be either revoked or suspended for such period of time as deemed appropriate, upon the following grounds:

a. When the licensee has been convicted of violating any of the provisions of this Chapter.

b. When the business of the licensee at the location licensed shall be conducted in violation of health or sanitary regulations or other ordinances of the Turtle Mountain Indian Reservation.

3. Such causes as are hereinbefore detailed shall not be deemed to be exclusive and such license may also be cancelled and revoked or suspended at any time by the governing body for any cause deemed by said governing body to be sufficient cause and justified by reason of public health or public morals. Such termination shall be subject only to review by the Tribal Courts.

4. When any license is terminated or revoked for cause. Or the licensee voluntarily ceases his business, no portion of the license fee previously paid shall be returned to the licensee or to anyone claiming under or through him.

19.0131 *Persons less than twenty-one years prohibited—exceptions.* It shall be unlawful for any person under twenty-one years of age to purchase, attempt to purchase or be in possession of alcoholic beverages or furnish money to any person for such purchase or enter any licensed premises where such beverages are being sold or displayed, except a restaurant when accompanied by a parent or legal guardian.

19.0132 *Violation of provisions of this chapter (Indian).* Any Indian violating any of the provisions of this chapter, shall be guilty of an offense and shall be punished by a fine of not more than one hundred dollars, or by confinement for not more than thirty days or by both such fine and confinement with costs.

19.0133 *Violations of provisions of this chapter (Non-Indian).* Any non-Indian licensee violating any of the provisions of this Chapter shall be removed from the reservation pursuant to Article IX, Section 4 of the Constitution and By-laws of the Turtle Mountain Band of Chippewa Indians.

LAFOLLETTE BUTLER,
Acting Deputy Commissioner of Indian Affairs.

T. 9 S., R. 20 W.,
Sec. 1, N½S½ and SW¼NW¼;
Sec. 2, lots 1, 2, and 3 and SE¼NE¼.

This pipeline will convey petroleum products across approximately 45 miles of Federal lands in Yuma and Maricopa Counties. The route of the pipeline will follow Right-of-Way granted under Serial AR 08806 and generally will be contained within the present right-of-way on which the railroad tracks of the Southern Pacific Transportation Company run.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons should express their interest and views to the Chief, Division of Technical Services, 3022 Federal Building, Phoenix, Arizona 85025.

Dated: May 2, 1974.

GLENDON E. COLLINS,
Chief,
Division of Technical Services.

[FR Doc.74-10648 Filed 5-8-74;8:45 am]

[Wyoming 45531]

WYOMING

Notice of Application

MAY 2, 1974.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), the Stauffer Chemical Company of Wyoming has applied for a natural gas pipeline in the following townships:

SIXTH PRINCIPAL MERIDIAN, WYOMING

Tps. 18 and 19 N., R. 99 W.
Tps. 17, 18, 19 and 20 N., R. 100 W.
T. 20 N., Rs. 101, 102 and 103 W.

The pipeline will be an extension of the Nitchie Gulch Field to North Baxter Field gathering system.

The purpose of this notice is to inform the public that the Bureau will be proceeding with the preparation of environmental and other analyses necessary for determining whether the application should be approved, and if so, under what terms and conditions.

Interested persons should express their interest and views to the Chief, Branch of Lands and Minerals Operations, Bureau of Land Management, P.O. Box 1828, Cheyenne, Wyoming 82001.

PHILIP C. HAMILTON,
Chief, Branch of Lands
and Minerals Operations.

[New Mexico 20280]

NEW MEXICO

Notice of Application

MAY 1, 1974.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920, as amended (30 U.S.C. 185), Southern Union Gas Company has applied for a 2and 4 inch natural gas pipeline right-of-way across the following land:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 31 N., R. 12 W.,
Sec. 25, N½NW¼.

These pipelines will convey natural gas across .444 miles of national resource land in San Juan County, New Mexico.

The purpose of this notice is to allow the public an opportunity to comment upon the filing of the above right-of-way application.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, 3550 Pan American Freeway, NE, Albuquerque, NM 87107.

FRED E. PADILLA,
Chief, Branch of Lands
and Minerals Operations.

NEW MEXICO

Notice of Application

MAY 2, 1974.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), El Paso Natural Gas Company has applied for a 10¾ inch natural gas pipeline right-of-way across the following lands:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 24 S., R. 26 E.,
Sec. 11, N½S½.
Sec. 12, N½S½.
T. 24 S., R. 27 E.,
Sec. 7, N½S½.
Sec. 8, SW¼NW¼, NW¼SW¼.

This pipeline will convey natural gas across 3.269 miles of national resource land in Eddy County, New Mexico.

The purpose of this notice is to allow the public an opportunity to comment upon the filing of the above right-of-way application.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, P.O. Box 1397, Roswell, NM 88201.

FRED E. PADILLA,
Chief, Branch of Lands
and Minerals Operations.

[INT DES 74-53]

PROPOSED FEDERAL COAL LEASING

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Bureau of Land Management, Department of the Interior, has prepared a draft environmental statement for resumption of competitive leasing of Federal coal reserves from public lands in the western United States.

Program objectives include developing a managed coal leasing program which will determine the amount of coal which should be developed in specific areas on a time schedule to assure that public land coal resources will most effectively meet energy needs. Procedural steps in the proposed program include this coal programmatic 102 statement, preliminary tract identification which will include a call for indications of areas of interest, and lease sale scheduling.

Written comments on this draft statement received on or before June 24, 1974, will be given careful consideration. Public hearings may be scheduled within the same 45-day review period. Upon completion of the review period, the Bureau will weigh all information and comments received, and if the decision is to proceed further, will prepare a final environmental statement. Only after completion of the final environmental statement and compliance with all the requirements of NEPA and the Council on Environmental Quality guidelines issued pursuant to it, will a final decision be made whether to proceed with the coal leasing program.

Copies of this draft have been distributed to State governments, industry representatives, and conservation groups. A limited number of additional copies are available to the public through the BLM State offices in Anchorage, Alaska; Phoenix, Arizona; Sacramento, California; Denver, Colorado; Boise, Idaho; Billings, Montana; Reno, Nevada; Santa Fe, New Mexico; Portland, Oregon; Salt Lake City, Utah; Cheyenne, Wyoming, or from the Bureau of Land Management (723), Washington, D.C. 20240.

Comments concerning the environmental statements and impacts should be addressed to Director, Bureau of Land Management (723), 18th and C Sts., NW, Washington, D.C. 20240. These comments must be submitted on or before June 24, 1974 to be considered in the preparation of the final environmental statement.

Dated: May 3, 1974.

CURT BERKLUND,
Director.

PROPOSED CHARLES M. RUSSELL NATIONAL WILDLIFE RANGE, MONTANA

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, Pub. L. 91-190, the Department of the Interior has prepared a draft environmental statement for the Proposed Charles M. Russell National Wildlife Range, Montana, and invites written comments on or before June 24, 1974.

The proposal recommends 176,140 acres of the Charles M. Russell National Wildlife Range, Fergus, Garfield, McCone, Petroleum, Phillips and Valley Counties, Montana, be designated as wilderness within the National Wilderness Preservation System.

Copies of the draft statement are available for inspection at the following locations:

Bureau of Sport Fisheries and Wildlife
10597 West Sixth Avenue
Denver, Colorado 80215

Headquarters
Charles M. Russell National Wildlife Range
Box 110
Lewiston, Montana 59457

State Director
Bureau of Land Management, Federal Building
316 N. 26th Street
Billings, Montana 59101

Bureau of Sport Fisheries and Wildlife
Office of Environmental Coordination
Department of the Interior
Room 2246
18th and "C" Streets, NW.
Washington, D.C. 20240

Single copies may be obtained by writing the Chief, Office of Environmental Coordination, Bureau of Sport Fisheries and Wildlife, Department of the Interior, Washington, D.C. 20240. Comments concerning the proposed action should also be addressed to the Chief, Office of Environmental Coordination. Please refer to the statement number above.

Dated: May 3, 1974.

ROYSTON C. HUGHES,
Assistant Secretary
of the Interior.

OIL SHALE ENVIRONMENTAL ADVISORY PANEL

Notice of Meeting

Notice is hereby given that the Oil Shale Environmental Advisory Panel will meet May 16 and 17, 1974, at Rangely Junior College, Rangely, Colorado. The agenda will include an on-the-ground tour of the two leased Federal oil shale tracts, consideration of policy guidelines to be recommended to the responsible Federal officials, presentations by the two Colorado lessee groups, recommendations to the U.S. Geological Survey Mining Supervisor on a partial exploration plan for Colorado Tract C-b and discussion of any additional plans submitted to the panel by May 16. The meeting will begin at 8 a.m., Thursday, May 16 and conclude at 5 p.m., Friday, May 17, 1974.

The meeting will be open to the public. Time will be available for a limited number of brief statements by members of the public. Those wishing to make an oral statement should inform the Advisory Panel Chairman prior to the meeting. Any interested person may file a written statement with the Panel for its consideration. The Advisory Panel Chairman is Mr. William L. Rogers. Written statements may be submitted at the meeting or mailed to Mr. William L. Rogers, Office of the Secretary, Department of the Interior, Room 688, Building 67, Denver Federal Center, Denver, Colorado 80225. Further information concerning this meeting may be obtained from Mr. Henry O. Ash, Department of the Interior, Denver Federal Center, Denver, Colorado at (303) 234-3275. Minutes of the meeting will be available for public inspection 30 days after the meeting at the Office of the Special Assistant to the Secretary, Department of the Interior, Room 688,

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[Marketing Order 905]

SHIPPERS ADVISORY COMMITTEE

Notice of Public Meeting

Pursuant to the provisions of section 10(a)(2) of Pub. L. 92-463, notice is hereby given of a meeting of the Shippers Advisory Committee established under Marketing Order No. 905 (7 CFR Part 905). This order regulates the handling of oranges, grapefruits, tangerines, and tangelos grown in Florida and is effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). The Committee will meet in the A. B. Michael Auditorium of the Florida Citrus Mutual Building, 302 South Massachusetts Avenue, Lakeland, Florida, at 10:30 a.m., local time, on May 16, 1974.

The meeting will be open to the public and a brief period will be set aside for public comments and questions. The agenda of the Committee includes the receipt and review of market supply and demand information incidental to consideration of the need for modification of current grade and size limitations applicable to domestic and export shipments of the named fruits.

The names of Committee members, agenda, summary of the meeting and other information pertaining to the meeting may be obtained from Frank D. Trovillion, Manager, Growers Administrative Committee, PO Box R, Lakeland, Florida 33802; telephone 813-682-3103.

Dated: May 3, 1974.

JOHN C. BLUM,
Associate Administrator.

Animal and Plant Health Inspection Service

ENVIRONMENTAL IMPACT STATEMENTS

Notice of Status

The purpose of this document is to give publi cnotice concerning the status of plant protection and quarantine programs of the Department as they relate to environmental impact statemens on continuing programs. Pursuant to the National Environmental Policy Act (Pub. L. 91-190, 42 U.S.C. 4321, et seq.) and Executive Order 11514 (35 FR 4247) of March 7, 1970, in providing timely public information on Federal plans and programs with environmental impact, notice is hereby given that on March 14, 1974, the Animal and Plant Health Inspection Service provided the Council on Environmental Quality with the following status report:

Plant Protection and Quarantine Programs has prepared or collaborated in the preparation of environmental impact statements for the following activities in 1972 and 1973: Airport treatment programs, boll weevil diapause program, gypsy moth, grasshoppers, imported fire ant, and witchweed. The 1974 final gypsy moth statement is in the review stage and should be submitted shortly. An addendum to the imported fire ant statement, USDA-APHIS-ADM-73-2, was submitted on January 11, 1974.

The pesticide use proposed for 1974 on these programs has been reviewed by the Program Review Panel of the Federal Working Group on Pest Management. Only minor comments were received and will not materially affect the planned pest control work.

The statement for airport treatment programs, USDA-APHIS-PPQ-ADM-73-1, is still current and no significant changes are contemplated.

The statement for the cooperative boll weevil diapause control program, USDA-APHIS-PPQ-ADM-72-4, describes our current plans with the following exceptions. In the original plan, aldicarb (Temik) was applied infurrow at planting time in the trap plots at 1 pound per acre and 4 to 6 weeks later as a sidedress treatment at 2 pounds per acre. In the 1974 plan we will only apply Detroit, Michigan 48201. Article: aldicarb as an infurrow treatment at 1 pound per acre. The total acreage of the trap plots will amount to about 200 acres. It is estimated the base acreage to be treated with malathion in 1974 will be about 150,000 acres. In the statement it is approximately 100,000 acres.

The statement for grasshopper control, USDA-APHIS-PPQ-72-2, is essentially the same for 1974. It is estimated about 1.5 million acres could be treated in Colorado, Idaho, Montana, Nebraska, Nevada, New Mexico, Oklahoma, Oregon, Utah, Wyoming, and Washington. Last year approximately 2.8 million acres were treated in the Western States and Texas.

The statement for witchweed control is still current except for the use of ethylene gas on about 12,000 acres. This will involve the use of one application applied by injection to cultivated land at a rate of 1½ pounds per acre. A wide range of agricultural crops may be planted on the treated lands. An exemption for ethylene has been requested from the Environmental Protection Agency under Pesticide Petition Number 4E1457.

There may be some tests conducted on small plots on some of these programs. However, all nonregistered uses will be accomplished under experimental permit or exemption related to section 18 of the Federal Insecticide, Fungicide, and Rodenticide Act, as amended.

Done at Washington, D.C., this 3d day of May, 1974.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

In FR Doc. 74-9596, appearing on page 14983 in the issue of Monday, April 29, 1974, the 1 person entry for monthly income $210 to $229.99 in the *Monthly coupon allotments and purchase requirements-Hawaii* table reading "44" should read "42".

Forest Service

BUCKS LAKE UNIT; PLUMAS NATIONAL FOREST

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the Land Use Plan, Bucks Lake Unit, Plumas National Forest, California, USDA-FS-R5-DES (Adm)-74-3.

The environmental statement concerns a proposed land use management plan for the 44,936 acres of National Forest lands known as the Bucks Lake Unit of the Plumas National Forest, in Plumas County, California. Seven thousand six hundred sixty-three acres within this unit have been inventoried as "Roadless."

This draft environmental statement was filed with CEQ on May 3, 1974.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agriculture Building, Room 3231
12th St. & Independence Ave., SW
Washington, D.C.

Regional Forester's Office
630 Sansome St., Room 531
San Francisco, California

Forest Supervisor's Office
Plumas National Forest
Quincy, California

Oroville Ranger Station
Plumas National Forest
875 Mitchell Ave.
Oroville, California

A limited number of single copies are available, upon request, from Forest Supervisor Lloyd Britton, Plumas National Forest, Box 1500, Quincy, California 95971.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ guidelines.

Comments are invited from the public and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental effect for which comments have not been specifically requested.

Comments concerning the proposed action, and requests for additional information should be addressed to Forest Supervisor Lloyd Britton, Plumas National Forest, Box 1500, Quincy, California 95971. Comments must be received on or before July 8, 1974, in order to be considered in the preparation of the final environmental statement.

Dated: May 1, 1974.

T. W. KOSKELLA,
Acting Regional Forester.

CIBOLA NATIONAL FOREST GRAZING ADVISORY BOARD

Notice of Meeting

The Cibola National Forest Grazing Advisory Board will meet May 22 and 23, 1974 starting at 8 a.m. on May 22 at the Magdalena Ranger Station, Magdalena, New Mexico 87825. From the Ranger Station the group will proceed to the Baldy Allotment and will ride the Allotment on May 22 and May 23.

The purpose of this meeting will be to review the decision of Forest Supervisor Lloyd to reduce cattle numbers on the Baldy Allotment.

The meeting will be open to the public. Anyone attending the meeting should provide his or her own horse that is capable of traversing difficult terrain and long distances. A horse trailer will also be needed.

Persons who wish to attend should notify Supervisor Lloyd through telephone number 766-2185 or at 10308 Candelaria NE, Albuquerque, New Mexico 87112. Written statements may be filed with the committee before or after the meeting.

Dated: May 3, 1974.

W. L. LLOYD,
Forest Supervisor.

GUNNISON NATIONAL FOREST AND GRAND MESA-UNCOMPAHGRE NATIONAL FORESTS MULTIPLE USE ADVISORY COMMITTEES

Notice of Meetings

The Gunnison National Forest Multiple Use Advisory Committee will meet at 1:30 p.m., May 23, 1974 at the Forest Service building, 216 North Colorado, Gunnison, Colorado.

The Grant Mesa-Uncompahgre National Forests Multiple Use Advisory Committee will meet at 1:30 p.m., May 24, 1974 at the Shavano Building, 101 North Uncompahgre Avenue, Montrose, Colorado.

The purpose of these meetings is to discuss land use planning procedures, water use on National Forest lands, and to make preliminary plans for the summer field meeting.

The meetings will be open to the public. Persons who wish to attend should notify Forest Supervisor John T. Minow, 1063 Main, Delta, Colorado (telephone 303-874-4411). Written statements may be filed with the committees before or after the meetings.

The committees have established the following rules for public participation:

1. A member of the public wishing to present an oral statement should notify Forest Supervisor John T. Minow at least three days prior to the meetings.

2. Any member of the public may be permitted to present oral statements at the meetings by the committee chairmen to the extent that time permits.

Dated: May 3, 1974.

JOHN T. MINOW,
Acting Forest Supervisor, Gunnison, National Forest; Forest Supervisor, Grand Mesa-Uncompahgre National Forest.

SPREAD CREEK-NORTH GROS VENTRE PLANNING UNIT

Notice of Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for Spread Creek-North Gros Ventre Planning Unit, Bridger-Teton National Forest, Wyoming. The Forest Service report number is USDA-FS-FES (Adm) R4-74-64.

The purpose of this environmental statement is to allocate National Forest System lands within the unit to specific resource uses and activities; establish management objectives; document management direction, decisions, and the needed coordination between resource uses and activities; and provide for protection, use, and development of a variety of resources found within the planning unit. The plan provides for minimization of adverse effects and maximization of desirable effects. The mix of uses provided for includes moderate levels of consumptive resource uses. Major uses and activities include: livestock grazing, timber harvesting, roadbuilding, mining, camping, hunting, fishing, and general outdoor recreation.

This final environmental statement was transmitted to CEQ on May 2, 1974.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agriculture Bldg., Room 3230

AMERICAN MUSEUM OF NATURAL HISTORY ET AL.

Consolidated Decision on Applications for Duty-Free Entry of Scientific Articles

The following is a consolidated decision on applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C.

Decision: Applications denied. Applicants have failed to establish that instruments or apparatus of equivalent scientific value to the foreign articles, for such purposes as the foreign articles are intended to be used, are not being manufactured in the United States.

Reasons: Section 701.8 of the regulations provides in pertinent part:

The applicant shall on or before the 20th day following the date of such notice, inform the Deputy Assistant Secretary whether it intends to resubmit another application for the same article for the same intended purposes to which the denied application relates. The applicant shall then resubmit the new application on or before the 90th day following the date of the notice of denial without prejudice to resubmission, unless an extension of time is granted by the Deputy Assistant Secretary in writing prior to the expiration of the 90 day period. • • • If the applicant fails, within the applicable time periods specified above, to either (a) inform the Deputy Assistant Secretary whether it intends to resubmit another application for the same article to which the denial without prejudice to resubmission relates, or (b) resubmit the new application, the prior denial without prejudice to resubmission shall have the effect of a final

V 39 91 MAY 9 74 XUM

decision by the Deputy Assistant Secretary on the application within the context of § 701.11.

The meaning of the section is that should an applicant either fail to notify the Deputy Assistant Secretary of its intent to resubmit another application for the same article to which the denial without prejudice relates within the 20 day period, or fails to resubmit a new application within the 90 day period, the prior denial without prejudice to resubmission will have the effect of a final denial of the application.

None of the applicants to which this consolidated decision relates has satisfied the requirements set forth above, therefore, the prior denials without prejudice have the effect of a final decision denying their respective applications.

Section 701.8 further provides:

"• • • the Deputy Assistant Secretary shall transmit a summary of the prior denial without prejudice to resubmission to the FEDERAL REGISTER for publication, to the Commissioner of Customs, and to the applicant."

Each of the prior denials without prejudice to resubmission to which this consolidated decision relates was based on the failure of the respective applicants to submit the required documentation, including a completely executed application form, in sufficient detail to allow the issue of "scientific equivalency" to be determined by the Deputy Assistant Secretary.

Docket number: 73-00126-36-46070. Applicant: American Museum of Natural History, Central Park West & 79th Street, New York, New York 10024. Article: Scanning Electron Microscope, Model S4. Date of denial without prejudice to resubmission: December 13, 1973.

Docket number: 73-00132-01-01100. Applicant: University of Chicago, Department of Pathology, Pritzker School of Medicine, 950 East 59th Street, Chicago, Illinois 60637. Article: Sequence Analyzer, JAS-47K. Date of denial without prejudice to resubmission: December 5, 1973.

Docket number: 73-00329-01-77030. Applicant: Texas A&M University, Department of Chemistry, College Station, Texas 77843. Article: PS-100 High Resolution/Wide Line Multi-Nuclear Spectrometer System. Date of denial without prejudice to resubmission. December 13, 1973.

Docket number: 74-00076-33-43420. Applicant: The University of Oklahoma, Purchasing Department, 660 Parrington Oval, Room 321, Norman, Oklahoma 73069. Article: Micromanipulator, Type MZ-10 and accessories. Date of denial without prejudice to resubmission: December 13, 1973.

Docket number: 74-00079-33-46040. Applicant: DHEW/PHS, Food and Drug Administration, Contracts & Procurement Branch, National Center for Toxicological Research, Jefferson, Arkansas 72079. Article: Electron Microscope, Model EM 201. Date of denial without prejudice to resubmission: December 18, 1973.

Docket number: 74-00093-98-77065. Applicant: Iowa State University, Iowa 50010. Article: Educational Mossbauer Analyzer, Model EMS-21. Date of denial without prejudice to resubmission: December 18, 1973.

Docket number: 74-00217-90-16295. Applicant: Cornell University, Philips Hall, Ithaca, New York 14850. Article: Chromium Doped Indium Phosphide Crystal Slices. Date of denial without prejudice to resubmission: December 13, 1973.

CITY COLLEGE OF N.Y.

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 74-00469-01-77095. Applicant: City College of New York, Department of Chemistry, 138th Street and Convent Avenue, New York, N.Y. 10031. Article: Photoelectron spectrometer. Manufacturer: Perkin-Elmer, United Kingdom. Intended use of article: The article is intended to be used for research into the electronic structure and chemical bonding in metal-organic, inorganic and organic compounds. Particular compounds include organophosphines and organosilicon compounds, nitrones and pyridine N-oxides. The article will also be used by graduate students for their research as partial fulfillment of requirements for the Ph. D. or Masters Degree. The students will be instructed in the use of the instrument, and its application to research problems.

Comments: No comments have been received with respect to this application.

Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: The foreign article provides the capabilities to vaporize a specimen by heating to temperatures up to 250° C and to contain the specimen in the resultant vapor state for analysis. The most closely comparable domestic instrument, the Model ESCA 36, manufactured by McPherson Instrument, Action, Massachusetts, does not possess the sample heating capability. The National Bureau of Standards (NBS) advised in its memorandum dated April 9, 1974 that the sample heating capability is pertinent to the purposes for which the article is intended to be used. We, therefore, find that the ESCA 36 is not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used. NBS also advised that it knows of no domestic instrument of equivalent scientific value to the foreign article for such purposes as the article is intended to be used.

COUNCIL ON LIBRARY RESOURCES, INC.

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 74-00181-99-07795. Applicant: Council on Library Resources, Inc., One DuPont Circle, Suite 620, Washington, D.C. 20036. Article: Automatic Library Card Camera and Transport System. Manufacturer: MEGA System Design Ltd., Canada. Intended use of article: The article is intended to be used to automatically film catalog cards to be used in all courses involving use of library in major academic institutions. Comments: No comments have been received with respect to this application. Decision: Application denied. Because the article possesses no scientific value for the purposes for which it is intended, a prima facie case is not presented upon which to base a finding of scientific equivalency. Reasons: Item 851.60 of the Tariff Schedules of the United States (TSUS) provides, inter alia, for duty-free treatment with respect to "Articles entered for the use of any nonprofit institution, whether public or private, established for educational or scientific purposes * * * if no instrument or apparatus of equivalent scientific value for the purposes for which the instrument or apparatus is intended to be used is being manufactured in the United States". The law provides that the Secretary of Commerce, who has delegated this authority to the Deputy Assistant Secretary for Resources and Trade Assistance, is to determine "whether an instrument or apparatus of equivalent scientific value to such [the foreign] article, for the purposes for which the instrument or apparatus is intended to be used, is being manufactured in the United States" (headnote 6(c), Schedule 8, Part 4, TSUS). In order for the Deputy Assistant Secretary to make this determination of domestic availability (i.e., "being manufactured in the United States"), it is clear that some scientific use for the foreign article, whether educational or research, must be intended.

The National Bureau of Standards (NBS) advised in its memorandum dated April 1, 1974 that the article has "no scientific nor educational purpose pertinent to duty-free entry under Pub. L. 89-651 [Item 851.60, TSUS]. We, therefore, can make no findings on scientific equivalence."

Accordingly, we find that the foreign article does not possess any scientific value for the purposes for which it is intended to be used. Therefore, there being no value against which to gauge equivalency, the possible availability of domestic equivalents cannot be determined.

Director,
Special Import Programs Division.

[FR Doc.74-10665 Filed 5-8-74;8:45 am]

CREIGHTON UNIVERSITY

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 74-00269-33-46040. Applicant: Creighton University, Boyne School of Dental Science, 2810 Webster Street, Omaha, Nebraska 68178. Article: Electron Microscope, Model EM 201. Manufacturer: Philips Electronic Intruments, NVD, The Netherlands. Intended use of article: The article is intended to be used in research to identify the cytological deviations which are evident clinically and experimentally as variations in the process of inflammation and repair. Experiments being carried out include:

(1) Examination of surgical specimens for quantitation of inflammatory types and qualification of activity of these cells based on number and appearance of intracellular organelles,

(2) Examination of experimental specimens which have been altered by pharmacological methods and/or treated with specific reagents. The article will also be used for educational purposes in the course "Advanced Oral Biology" by undergraduate and graduate students.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article for such purposes as this article is intended to be used, was being manufactured in the United States at the time the article was ordered (November 29, 1972).

Reasons: The applicant requires an electron microscope which is suitable for instruction in the basic principles of electron microscopy. The foreign article is a relatively simple, medium resolution electron microscope designed for confident use by beginning students with a minimum of detailed programming. The most closely comparable domestic instrument available at the time the article was ordered was the Model EMU-4C electron microscope which was formerly manufactured by the Forgflo Corporation and which is currently supplied by Adam David Company. The Model EMU-4C electron microscope was a relatively complex instrument designed for research, which required a skilled electron microscopist for its operation. We are advised by the Department of Health, Education, and Welfare in its memorandum dated March 27, 1974 that the relative simplicity of design and ease of operation of the foreign article is pertinent to the applicant's educational purposes. We, therefore, find that the Model EMU-4C electron microscope was not of equivalent scientific value to the foreign article for such purposes as this article is intended to be used at the time the article was ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the article was ordered.

JOSLIN DIABETES FOUNDATION, INC., ET AL.

Consolidated Decision on Applications for Duty-Free Entry of Electron Microscopes

The following is a consolidated decision on applications for duty-free entry of electron microscopes pursuant to Section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.). (See especially § 701.11(e).)

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 74-00212-33-46040. Applicant: Joslin Diabetes Foundation Inc., 170 Pilgrim Road, Boston, Massachusetts 02215. Article: Electron Microscope, Model EM 301. Manufacturer: Philips Electronic Instruments NVD, The Netherlands. Intended use of article: The article is intended to be used for studies of the embryology and developmental aspects of changing pancreatic beta cell function and sensitivity to glucose as well as the morphologic events which are responsible for insulin secretion in the adult organism. These studies will involve conventional and high resolution electron microscopy of stained and unstained sections of biological tissues and high resolution electron microscopy of replicas of freeze-cleaved tissues. Application received by Commissioner of Customs: November 12, 1973. Advice submitted by the Department of Health, Education, and Welfare on: February 25, 1974. Date of order: November 27, 1973.

Docket number: 74-00218-33-46040. Applicant Wayne State University, Kresge Eye Institute, 540 East Canfield, Detroit, Michigan 48201. Article: Electron Microscope, Model EM 301. Manufacturer: Philips Electronic Instruments, NVD, The Netherlands. Intended use of article: The article is intended to be used to analyze various tissues of the eye from experimental animals as well as some from human sources. This will include studies of (a) ultrastructural properties of cell membranes, and how they change during the process of wound healing and regeneration, (b) stimulation of ribosome production following injury or exposure of tissues to blood serum in organ culture, (c) ultrastructural changes which occur during corneal preservation, and (d) Herpes virus infections in the cornea. Other studies involving the extraocular muscles and the iris are also planned. Application received by Commissioner of Customs: November 20, 1973. Advice submitted by the Department of Health, Education, and Welfare on: February 25, 1974. Date of order: November 6, 1973.

Docket number: 74-00253-33-46040. Applicant: Presbyterian University of Pennsylvania Medical Center, 51 N. 39th Street, Philadelphia, Pennsylvania 19104. Article: Electron Microscope, Model EM 301. Manufacturer: Philips Electronic Instruments, NVD, The Netherlands. Intended use of article: The article is intended to be used for studies of isolated blood vessels, heart and skeletal muscle from normal experimental subjects as well as diseased organs. The major objective of the investigations is to determine the source of calcium used for contraction in various muscles and the cellular loci where calcium is sequestered when muscle is relaxed. The investigation of diseased blood vessels will be used to determine the sites of deposition

V 39 91 MAY 9 74 XUM

of calcium in atherosclerosis, while similar studies on blood vessels will be directed toward determining the fundamental defect in producing high blood pressure. The article will also be used in the research training of graduate students and post-doctoral fellows. Application received by Commissioner of Customs: December 19, 1973. Advice submitted by Department of Health, Education, and Welfare on: March 26, 1974. Date of order: December 17, 1973.

Comments: No comments have been received in regard to any of the foregoing applications. Decision: Applications approved. No instrument or apparatus of equivalent scientific value to the foreign articles, for the purposes for which the articles are intended to be used, was being manufactured in the United States at the time the articles were ordered. Reasons: Each foreign article has a specified resolving capability of 3.0 Angstroms. The most closely comparable domestic instrument available at the time the articles were ordered was the Model EMU–4C electron microscope which was formerly produced by the Forgflo Corporation and which is currently supplied by Adam David Company. The Model EMU–4C had a specified resolving capability of five Angstroms. (Resolving capability bears an inverse relationship to its numerical rating in Angstrom units, i.e., the lower the rating, the better the resolving capability.) We are advised by the Department of Health, Education, and Welfare in the respectively cited memoranda, that the additional resolving capability of the foreign articles is pertinent to the purposes for which each of the foreign articles to which the foregoing applications relate is intended to be used. We, therefore, find that the Model EMU–4C was not of equivalent scientific value to any of the articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, at the time the articles were ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to any of the foreign articles to which the foregoing applications relate, for such purposes as these articles are intended to be used, which was being manufactured in the United States at the time the articles were ordered.

HARVARD MEDICAL SCHOOL

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89–651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket number: 74–00156–33–46040. Applicant: Harvard Medical School, 25 Shattuck Street, Boston, Massachusetts 02115. Article: Electron Microscope, Model JEM 100B and Goniometer Stage. Manufacturer: JEOL Ltd., Japan. Intended use of article: The article is intended to be used to carry out a wide variety of studies in the following areas: viral morphogenesis and structure; genetics; immunology, medical and pathogenic bacteriology; physiology, protein and nucleic acid structure and function; and determination of subcellular components of both normal and virally infected bacterial and animal cells. The article will also be used by faculty and technical staff to pursue their research, and by graduate students to carry out research projects needed to complete the Ph. D. degree in Microbiology and Molecular Genetics. In addition, the article will be used in graduate course in Theory and Techniques of Electron Microscopy.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time the article was ordered (July 25, 1973). Reasons: The foreign article has a specified resolving capability of 3.0 Angstroms. The most closely comparable domestic instrument available at the time the article was ordered was the Model EMU–4C electron microscope which was formerly manufactured by the Forgflo Corporation and is currently being supplied by the Adam David Company. The Model EMU–4C had a specified resolving capability of 5 Angstroms. (The lower the numerical rating in terms of Angstrom units, the better the resolving capability.) We are advised by the Department of Health, Education, and Welfare in its memorandum dated January 25, 1974 that the additional resolving capability of the foreign article is pertinent to the purposes for which the foreign article is intended to be used. We, therefore, find that the Model EMU–4C was not of equivalent scientific value to the foreign article for such purposes as the article is intended to be used at the time the article was ordered.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which was being manufactured in the United States at the time the article was ordered.

MEMPHIS HOSPITAL, TENN., ET AL.

Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89–651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, on or before May 29, 1974.

Amended regulations issued under cited Act, as published in the February 24, 1972 issue of the FEDERAL REGISTER (37 FR 3892), prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C. 20230.

Docket Number: 74–00402–33–90000. Applicant: Methodist Hospital, 1265 Union Avenue, Memphis, Tennessee 38104. Article: EMI Scanner System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used for detecting and localizing disease processes of the brain, its coverings, and the eyes. The article will also be of most value in planning treatment such as surgical excision, and radiotherapy. This new technique will be a most valuable tool to be used in the teaching programs in Radiology, Neurosurgery, Ophthalmology, Pathology and others and as an adjunct to existing diagnostic methods. Application received by Commissioner of Customs: March 28, 1974.

Docket Number: 74–00407–33–90000. Applicant: Hahnemann Medical College and Hospital, 230 North Broad Street, Philadelphia, Pa. 19102. Article: EMI Scanner System. Manufacturer: EMI Limited, United Kingdom. Intended use of article: The article is intended to be used for clinical use to evaluate patients for potential intracerebral pathology. The article will also be used to supplement the current training of neuroradiologists, neurosurgeons, and neurologists. Application received by Commissioner of Customs: March 29, 1974.

Docket number: 74–00418–33–46040. Applicant: Health Research Department,

666 Elm Street, Buffalo, New York 14203. Article: Electron Microscope, Model Elmiskop 51. Manufacturer: Siemens AG, West Germany. Intended use of article: The article is intended to be used to examine leukemic blasts from humans as well as other human cancers such as Ewing Sarcoma, breast cancer, etc. Experiments will involve examining material from human tumors as an aid in diagnosis. Different material will be examined and compared with the response to chemotherapy and radiation therapy, on an ultrastructural basis. The article will also be used in the course, Techniques of E.M. to teach students the principals of fixation, dehydration, and embedding of tissues for electron microscopy; and provide practical training in the use of the electron microscope. Application received by Commissioner of Customs: March 29, 1974.

Docket number: 74–00420–33–46040. Applicant: NASA-Ames Research Center, Moffett Field, California 94035. Article: Electron Microscope, Model Elmiskop 101B. Manufacturer: Siemens AG, West Germany. Intended use of article: The article will be used to provide high resolution electron diffraction and microscopy analysis of results of well controlled heterogeneous nucleation, epitaxial thin film growth and in-situ oxidation experiments. In addition, the article will be used in the investigation of the crystallographic structure and chemical composition of microscopic precipitates in titanium alloys which are of particular interest to NASA's hydrogen embrittlement program. Application received by Commissioner of Customs: April 9, 1974.

Docket number: 74–00422–01–77095. Applicant: Emory University, Department of Chemistry, Atlanta, Georgia 30322. Article: Photon Correlation Spectrometer. Manufacturer: Precision Devices & Systems Ltd., United Kingdom. Intended use of article: The article is intended to be used for the study of pure liquids and liquid solutions of materials whose molecules show liquid crystal properties by low angle laser light scattering. Materials in the molecular weight range of 10^2 to 10^5 will be studied. Light scattering experiments as a function of angle temperature, concentration and possibly pressure will be carried out. Application received by Commissioner of Customs: April 9, 1974.

National Bureau of Standards

PROPOSED FEDERAL INFORMATION PROCESSING STANDARD CODE EXTENSION TECHNIQUES IN 7 OR 8 BITS

Request for Comments

Under the provisions of Pub. L. 89–306, the Secretary of Commerce is authorized to establish uniform Federal ADP standards. A proposed standard on code extension techniques in 7 or 8 bits[1] that is based upon the Federal adoption of voluntary industry standards which were developed by the American National Standards Institute and the International Organization for Standardization is being recommended for Federal use. This proposed standard specifies methods of extending ASCII (the American Standard Code for Information Interchange) (FIPS–1) by remaining in either a 7 bit environment or increasing to an 8 bit environment and building upon the structure of ASCII to describe various means of extending the control and graphic sets of the code.

Prior to the submission of a final endorsement of this proposal to the Secretary of Commerce for approval, it is essential to assure that proper consideration is given to the needs and views of manufacturers, the public and state and local governments. The purpose of this notice is to solicit such views.

The proposed Federal Information Processing Standard contains two basic sections: (1) An announcement section which provides information concerning the applicability, implementation, and maintenance of the standard; and (2) a specification section which deals with the technical requirements of the standard. The first section is provided in its entirety in this notice.

Interested parties may obtain copies of the technical specifications from, and may submit comments to, the Associate Director for ADP Standards, Institute for Computer Sciences and Technology, National Bureau of Standards, Washington, D.C. 20234, on or before August 7, 1974.

Dated: May 2, 1974,

RICHARD W. ROBERTS,
Director.

[FR Doc.74–10537 Filed 5–8–74;8:45 am]

PROPOSED REVISION TO FEDERAL INFORMATION PROCESSING STANDARD 21—COBOL

Request for Comments

Under the provisions of Pub. L. 89–306, the Secretary of Commerce is authorized to establish uniform Federal ADP standards. A proposed revision to Federal Information Processing Standard 21—COBOL[1] is being recommended for Federal use. It is based on the Federal adoption of the voluntary industry standard that has been developed by the American National Standards Institute. This proposed revision supersedes FIPS PUB 21 and reflects major changes and improvements to the earlier COBOL specification.

Prior to the submission of a final endorsement of this proposal to the Secretary of Commerce for approval, it is essential to assure that proper consideration is given to the needs and views of manufacturers, the public and state and local governments. The purpose of this notice is to solicit such views.

The proposed Federal Information Processing Standard contains two basic sections: (1) An announcement section which provides information concerning the applicability, implementation, and maintenance of the standard; and (2) a specification section which deals with the technical requirements of the standard. The first section is provided in its entirety in this notice.

Interested parties may obtain a copy of the technical specifications from and may submit comments to the Associate Director for ADP Standards, Institute for Computer Sciences and Technology, National Bureau of Standards, Washington, D.C. 20234, on or before August 7, 1974.

Dated: May 2, 1974.

RICHARD W. ROBERTS,
Director.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

ADVISORY COMMITTEE OF THE EDUCATION OF BILINGUAL CHILDREN

Public Meeting

Notice is hereby given, pursuant to section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), that a subcommittee meeting of the Advisory Committee on the Education of Bilingual Children will be held from 9 a.m. Tuesday, May 14, 1974, to 4:30 p.m. through Friday, May 17, 1974, in Room 3945 Regional Office Building, 26 Federal Plaza, New York, New York 10007.

This is a subcommittee of the Advisory Committee on the Education of Bilingual Children established pursuant to section 708 of the Bilingual Education Act (20 U.S.C. 880b–5) to advise the Secretary of Health, Education, and Welfare and the Commissioner of Education concerning the preparation of general regulations for and with respect to policy matters arising in the administration of the Bilingual Education Act.

The above described meeting shall be open to the public. The proposed agenda for this meeting is the drafting of a position paper on bilingual education which will in final form be turned in to the Commissioner of Education. Other relevant matters which the subcommittee deems germane to the issue shall also be discussed.

Records shall be kept of all proceedings, and shall be available for public inspection at Room 3045, Regional Office Building 3, 7th and D Streets, SW, Washington, D.C. 20202.

Signed at Washington, D.C., on May 2, 1974.

JAMES B. ROBERTS,
Executive Officer, BSS.

Office of the Secretary

SOCIAL AND REHABILITATION SERVICE

Statement of Organization, Functions, and Delegations of Authority

Part 5 of the Statement of Organization, Functions and Delegations of Authority for the Department of Health, Education, and Welfare, Social and Rehabilitation Service (34 FR 1279, January 25, 1969, as amended), is hereby further amended to clarify responsibilities within the Office of Planning, Research, and Evaluation. For such purposes, Section 5–B is amended as follows:

Delete, from Office of Planning, Research, and Evaluation, the heading "Office of Program Analysis and Evaluation" and all that follows under that heading; and "Office of Operational Planning and Control" and all that follows under that heading. Substitute therefor the following:

OFFICE OF PROGRAM ANALYSIS AND EVALUATION

This Office has primary responsibility for advising the Administrator and Associate Administrator for Planning, Research, and Evaluation in matters concerning the analysis and evaluation of SRS programs and their alternatives, and Research and Demonstration priorities. Provides leadership, technical assistance, guidance, and coordination to

program units in matters pertaining to program analysis and evaluation. Serves as a contact point for the Office of the Administrator with the Office of the Assistant Secretary for Planning and Evaluation. Based on the analytic program, the Office provides input in the development of the SRS long-range plan, insuring its adequacy as a basis for deriving operating and legislative planning. In this regard, the Office initiates and directs studies and analyses of program objectives and accomplishments, compares benefits and costs of alternative programs, and explores future needs in relation to planning programs. To support these activities, the Office provides leadership and direction in: (a) The development of an analytical and evaluation plan to address major program and policy issues; (b) the development of study methodologies, measures of program performance, and data to support their implementation; (c) the performance of policy and program analyses to define policy options and possible implications for use in long-range planning; and (d) contributions to the development of Research and Demonstration priorities necessary to initiate a Research and Demonstration plan and formulate Research and Demonstration budgets.

OFFICE OF PROGRAM PLANNING AND CONTROL

This Office provides leadership and direction to all elements of the Central and Regional Offices in: (1) Translating designated program priorities into specific attainable goals; (2) Developing operational objectives and plans which will advance goal attainment, and ensuring that the operational goals are based on a thorough assessment of program capabilities and are thus realistic and feasible; (3) Assuring that necessary resources are deployed to achieve objective plans; (4) evaluating the accomplishment of operational objectives; and (5) the design, development, and implementation of agencywide long-range planning systems and procedures for insuring the optimal participation of SRS organizational units in the development and update of the SRS long-range plan and its linkage to operational plans and budgets."

Dated: May 1, 1974.

S. H. CLARKE,
Acting Assistant Secretary for Administration and Management.

ATOMIC ENERGY COMMISSION

[Docket No. 50-412]

DUQUESNE LIGHT CO. ET AL.

Issuance of Construction Permit

Notice is hereby given that, pursuant to the Initial Decision of the Atomic Safety and Licensing Board, dated April 25, 1974, the Atomic Energy Commission (the Commission) has issued Construction Permit No. CPPR-105 to The Cleveland Electric Illuminating Company, Duquesne Light Company, Ohio Edison Company, Pennsylvania Power Company, and The Toledo Edison Company for construction of a pressurized water nuclear reactor at the applicants' site on the south bank of the Ohio River in Beaver County, Pennsylvania. The proposed reactor, known as the Beaver Valley Power Station, Unit No. 2, is designed for a rated power of approximately 2660 megawatts thermal with a net electrical output of approximately 852 megawatts.

The Initial Decision is subject to review by an Atomic Safety and Licensing Appeal Board prior to its becoming final. Any decision or action taken by an Atomic Safety and Licensing Appeal Board in connection with the Initial Decision may be reviewed by the Commission.

The Commission has made appropriate findings as required by the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations in 10 CFR Ch. I, which are set forth in the construction permit. The application for the construction permit complies with the standards and requirements of the Act and the Commission's rules and regulations.

The construction permit is effective as of its date of issuance. The earliest date for the completion of the facility is February 1, 1979, and the latest date for completion is February 1, 1980. The permit shall expire on the latest date for completion of the facility.

A copy of (1) the Initial Decision, dated April 25, 1974; (2) Construction Permit No. CPPR-105; (3) the report of the Advisory Committee on Reactor Safeguards, dated December 11, 1973; (4) the Directorate of Licensing's Safety Evaluation Report dated November 9, 1973, and Supplements 1 and 2 to the Safety Evaluation Report dated January 29, 1974 and March 20, 1974, respectively; (5) the Preliminary Safety Analysis Report and amendments thereto; (6) the applicants' Environmental Report dated November 6, 1972, and supplements thereto; (7) the Draft Environmental Statement dated March 1973; and (8) the Final Environmental Statement dated July 1973, are available for public inspection at the Commission's Public Document Room at 1717 H Street, NW., Washington, D.C. and the Beaver Area Memorial Library, 100 College Avenue, Beaver, Pennsylvania. A copy of the construction permit and the Safety Evaluation may be obtained upon request addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing—Regulation.

Dated at Bethesda, Md., this 3d day of May 1974.

For the Atomic Energy Commission.

D. B. VASSALLO,
Chief, Light Water Reactors Project Branch 1-1, Directorate of Licensing Regulation.

[FR Doc.74-10694 Filed 5-8-74;8:45 am]

[Docket Nos. 50-416, 50-417]

MISSISSIPPI POWER & LIGHT CO. AND GRAND GULF NUCLEAR STATION

Limited Work Authorization

Pursuant to the provisions of 10 CFR 50.10(e)(1) of the Atomic Energy Commission's (Commission) regulations, the Commission has authorized the Mississippi Power & Light Company to conduct certain site activities in connection with the Grand Gulf Nuclear Station (Units 1 and 2) prior to a decision regarding the issuance of a construction permit.

The activities that are authorized include site clearing and grubbing limited to area needed to construct the facility and dispose of waste materials; excavation and disposal of overburden and spoil in construction area; construction of sediment control structures; preparation of subgrades for railroad spur, access roads, drainage structures, and channels; excavation and drainage of power block area structures; sealing base of excavation with mud mat; erection of construction buildings; construction and improvement of access and work roads and parking lots; construction of a railroad spur; construction of sewage facilities; construction of two water tanks and pipe distribution ssytem; construction of a 115kV transmission line from Port Gibson to the site; and construction of a fence around the work area.

The authorization is subject to certain conditions, including termination of the authorized work if the application for the construction permit is denied or if an amendment to the application concerning financing of the project is not submitted before July 1, 1974, as well as adherence to an environmental protection program during construction work.

Any activities undertaken pursuant to this authorization are entirely at the risk of the applicant, and the granting of the authorization has no bearing on the issuance of a construction permit with respect to the requirements of the Atomic Energy Act of 1954, as amended, and rules, regulations, or orders promulgated pursuant thereto.

An Initial Decision on National Environmental Policy Act issues by the Atomic Safety and Licensing Board in this proceeding was issued on April 5, 1974. An order on site suitability, pursuant to 10 CFR 50.10(e)(2)(ii), was issued by the Board on May 3, 1974. A copy of: (1) The Initial Decision of April 5, 1974; (2) the Board's order of May 3, 1974; (3) the applicant's Preliminary Safety Analysis Report and amendments thereto; (4) the applicant's Environmental Report, and amendments thereto; (5) the staff's Final Environmental Statement dated August 1973; (6) the staff's supplemental testimony concerning site suitability; and (7) the Commission's letter of authorization dated May 3, 1974, are available for public inspection at the Commission's Public Document Room at 1717 H Street NW., Washington, D.C. and the office of the Deputy Chancery Clerk, Claiborne County Courthouse, Port Gibson, Mississippi.

Dated at Bethesda, Md. this 3rd day of May 1974.

For the Atomic Energy Commission,

L. MANNING MUNTZING,
Director of Regulation.

MYER BENDER

Certification

Pursuant to section 205, Title 18 U.S.C. (Pub. L. 87-849, 76 Stat. 1124), I certify that the national interest requires that Mr. Myer Bender, an employee of the Oak Ridge National Laboratory (a Government-owned laboratory operated for the Atomic Energy Commission by the Union Carbide Corporation) and a member of the Atomic Energy Commission's Advisory Committee on Reactor Safeguards (ACRS), be permitted to act as agent for the Union Carbide Corporation in the performance of work under contract W-7405-ENG 26, provided, however, that this exemption from sections 203 and 205 of Title 18 U.S.C. shall not permit Mr. Myer Bender to act as agent for the company in dealing with the Commission's Regulatory Staff or the ACRS in any particular matter involving the company.

This certification is directed to be published in the FEDERAL REGISTER.

Dated: May 3, 1974.

PAUL C. BENDER,
Secretary of the Commission.

[FR Doc.74-10697 Filed 5-8-74;8:45 am]

SPENCER H. BUSH

Certification

Pursuant to Section 205, Title 18 U.S.C. (Pub. L. 87-849, 76 Stat. 1124), I certify that the national interest requires that Dr. Spencer H. Bush, University of California, Berkeley, and a member of the Atomic Energy Commission's Advisory Committee on Reactor Safeguards (ACRS), be permitted to act as agent for the University in the performance of work under contract W-7405 (ENG-48) provided, however, that this exemption from sections 203 and 205 of Title 18 U.S.C. shall not permit Dr. Bush to act as agent for the University in dealing with the Commission's Regulatory Staff or the ACRS in any particular matter involving MIT.

This certification is directed to be published in the FEDERAL REGISTER.

Dated: May 3, 1974.

PAUL C. BENDER,
Secretary of the Commission.

CIVIL AERONAUTICS BOARD

[Docket No. 26245]

AMERICAN AIRLINES, INC., AND PAN AMERICAN WORLD AIRWAYS, INC.

Notice of Hearing Regarding Route Exchange Agreement

Notice is hereby given, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that a hearing in the above-entitled proceeding will be held on June 5, 1974, at 10 a.m. (local time) in Room 726, Universal Building, 1825 Connecticut Avenue, NW., Washington, D.C., before the undersigned Administrative Law Judge.

For details of the issues involved in this proceeding, interested persons are referred to the Prehearing Conference Report, served on February 21, 1974, and other documents which are in the docket of this proceeding on file in the Docket Section of the Civil Aeronautics Board.

Dated at Washington, D.C., May 6, 1974.

[SEAL] WILLIAM H. DAPPER,
Administrative Law Judge.

[FR Doc.74-10715 Filed 5-8-74;8:45 am]

[Docket No. 26560 and 26563; Order 74-5-20]

PAN AMERICAN WORLD AIRWAYS, INC., AND TRANS WORLD AIRLINES, INC.

Order Granting Extension of Time To File Answers

MAY 6, 1974.

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., the 6th day of May 1974.

On April 3, 1974, Pan American World Airways, Inc., and Trans World Airlines, Inc., petitioned the Board for subsidy under section 406(b) of the Federal Aviation Act of 1958. By a motion filed April 23, 1974, the Department of Transportation (DOT) requests a 45-day extension of time for filing answers to these petitions to allow completion of its analysis and preparation of an answer.

In its motion DOT indicates that the issue of whether to provide subsidy for U.S. International carriers is a complicated matter and requires careful study. They note that time is needed to analyze current economic data and to study potential effects of proposed pooling arrangements. Furthermore, they want time to evaluate recently modified rules of the Federal Energy Office which give international carriers access to lower-priced domestic fuels. The Department of Transportation also wants time to examine carrier forecasts recently submitted in the Transatlantic Route Renewal Case in Docket 25908.

The reasons for delay put forward by DOT indicate an intent to consider matters that are evidentiary in nature in preparing its answer. However, answers to mail-rate petitions are intended to provide a vehicle for stating positions on the legal sufficiency of and expressions of initial views on the petitions. The Board cannot consider evidentiary material at this point since the only issue before it is whether to set down the matters for hearings or otherwise dispose of the petitions.

Because of the importance of these cases and the complexity of issues involved we will grant, as requested, an extension of time to file proper answers. However we will limit the extension to 21 days rather than 45 days. Since an answer need not be based on examination of evidence, this should provide ample time in which to prepare an answer.

Accordingly, it is ordered, That:

1. Pursuant to Rule 17 of the Board's rules of practice, the motion of the Department of Transportation is hereby granted, in part, and the due date for filing of answers to petitions in Dockets 26560 and 26563 is hereby extended to May 14, 1974.

2. This order shall be served upon all parties to this proceeding.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.74-10716 Filed 5-8-74;8:45 am]

[Docket No. 26085]

E. ANDREW DEEDS, II

Notice of Proposed Approval

Notice is hereby given, pursuant to the statutory requirements of section 408(b) of the Federal Aviation Act of 1958, as amended, that the undersigned intends to issue the attached order under delegated authority. Interested persons are hereby afforded until May 20, 1974 within which to file comments or request a hearing with respect to the action proposed in the order.

Dated at Washington, D.C., May 6, 1974.

[SEAL] WILLIAM B. CALDWELL, Jr.,
Director, Bureau of Operating Rights.

[Docket No. 26065]

Issued under delegated authority.

Application of E. Andrew Deeds, II, pursuant to section 408 of the Federal Aviation Act of 1958, as amended, Order of approval.

E. Andrew Deeds, II requests that the Board approve, pursuant to section 408(b) of the Federal Aviation Act of 1958, as amended (the Act) or grant other appropriate relief with respect to his ownership of Nordleasco, Ltd. while he controls Air North, Inc.[1]

Air North is a non-certificated commuter air taxi operator providing services in the New England-New York area and is a contractor to both Allegheny Airlines, Inc. and

[1] Mr. Deeds also owns 11% of the stock of ANA, Ltd., a fixed-base operator at Burlington, Vermont International Airport.

V3991 MAY 9 74 XUM

Delta Airlines, Inc. for the purpose of serving various certificated points on those carriers' routes under arrangements which have been approved by the Board.[2] Mr. Deeds is Chairman of the Board, President, and sole stockholder of Air North.

Nordleasco was incorporated in September 1973 and is currently a corporate shell. Mr. Deeds is president and owns all of its stock. When actuated Nordleasco will be engaged in the purchase, sale and lease of aircraft, primarily the Nord 262 and possibly its follow-on version, to be known as the Fregate, and will establish a maintenance and overhaul base at Burlington, Vermont to provide support for Nord aircraft operated in the United States, Canada, the Caribbean and Mexico. The application states that aircraft will be acquired outside the U.S. and that a conditional contract has been entered into by Nordleasco with a Danish operator for the purchase of eight Nord 262's. Nordleasco is also in the process of negotiating a distributorship agreement with Societe Nationale Industriale Aerospatiale, the French manufacturer of the Nord, under which Nordleasco would become an authorized repair center, would provide spare parts and technical support, and would act as sales agent for the Nord and the Fregate, should the latter be certificated for use in the U.S.[3]

The applicant asserts that the common control of Air North and Nordleasco raises no conflicts of interest or other problems inconsistent with the Act; and that there could be no anti-competitive effect on other commuter carriers since the Nord aircraft is available in some quantity (97 were built) and other arrangements have been or are being made to insure their availability.[4] Thus the applicant further submits that the Air North-Nordleasco relationships would not create a monopoly, restrain competition or otherwise jeopardize another air carrier.

Additionally, the applicant asserts that, insofar as transactions between Air North and Nordleasco are concerned, they will be at arms-length and any purchasea or leases will be at prevailing terms;[5] that all intercompany transactions will be available for Board scrutiny if desired and that Air North will suffer no disadvantage as a result of Mr. Deed's common control. The application notes also that, if Air North were the acquiring party, the exemption from section 408 provided by Part 298 of the Board's Economic Regulations would apply.

No comments concerning the matter or requests for a hearing have been received.

[2] See Order 73-6-60, June 15, 1973 and cases cited therein.

[3] The applicant states the view that none of these agreements are subject to section 412 of the Act.

[4] See Allegheny Airlines, Inc. et al., Docket 25988.

[5] Mr. Deeds contends that, in view of his 100 percent ownership of both Air North and Nordleasco, it would be unreasonable to assume that Air North would be forced to accept or be overcharged for Nord aircraft and that any incentive in this direction would be reduced when he sells part interest in Nordleasco as he plans to do.

Notice of intent to dispose of this application without a hearing has been published in the FEDERAL REGISTER and a copy of such notice has been furnished by the Board to the Attorney General not later than one day following the date of such publication, both in accordance with the requirements of section 408(b) of the Act.

Upon consideration of the foregoing it is concluded that Mr. Deeds is a person controlling an air carrier and that Nordleasco is a person engaged in a phase of aeronautics within the meaning of section 408 of the Act and that the transaction described herein is subject to section 408(a)(6). However the transaction does not affect the control of an air carrier directly engaged in the operation of aircraft in air transportation, does not result in creating a monopoly and thereby tend to restrain competition, nor does it appear to jeopardize another air carrier not a party thereto. Furthermore no person disclosing a substantial interest in this proceeding is currently requesting a hearing and it is found that the public interest does not require a hearing. The Board has previously approved the control by persons controlling an air carrier, of aircraft maintenance and leasing activities.[6] Under the circumstances it does not appear that the instant transaction will be inconsistent with the public interest or that the requirements of section 408 will be otherwise unfulfilled.

Pursuant to authority duly delegated by the Board in the Board's Regulations 14 CFR 385.13 it is found that the foregoing acquisition should be approved without a hearing under the third proviso of section 408(b) of the Act.

Accordingly, it is ordered, That:

The acquisition of Nordleasco by Mr. Deeds be and it hereby is approved.

Persons entitled to petition the Board for review of this order pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within ten days after the date of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period unless within such period a petition for review thereof is filed, or the Board gives notice that it will review this order on its own motion.

[SEAL] EDWIN Z. HOLLAND,
Secretary.

[FR Doc.74-10722 Filed 5-8-74;8:45 am]

COMMITTEE FOR THE IMPLEMENTATION OF TEXTILE AGREEMENTS

CERTAIN MAN-MADE FIBER TEXTILE PRODUCTS PRODUCED OR MANUFACTURED IN THE REPUBLIC OF CHINA

Entry or Withdrawal From Warehouse for Consumption

MAY 6, 1974.

On October 1, 1973, there was published in the FEDERAL REGISTER (38 FR 27235) a letter dated September 26, 1973 from the Chairman, Committee for the Implementation of Textile Agreements, to the Commissioner of Customs implementing those provisions of the Bilateral Wool and Man-Made Fiber Textile Agreement of December 30, 1971, as amended, between the Governments of the United States and the Republic of China which establish export limitations on man-made fiber textile products in Category 224, among other categories, produced or manufactured in the Republic of China and exported to the United States during the twelve-month period which began on October 1, 1973. As set forth in that letter, the levels of restraint are subject to adjustment pursuant to paragraph 12(a) of the Bilateral Wool and Man-Made Fiber Textile Agreement of December 30, 1971, as amended, which provides for administrative arrangements.

Accordingly, pursuant to the provision of the bilateral agreement referred to above, there is published below a letter of May 6, 1974 from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs amending the present sublimit for certain man-made fiber textile products in Category 224 to provide sublimits of 200,000 pounds for men's knit suits (T.S.U.S.A. Nos. 380.0420 and 380.8143); and 600,000 pounds for men's knit suit-type coats (T.S.U.S.A. Nos. 380.0402 and 380.8103) for the agreement year which began on October 1, 1973 and extends through September 30, 1974.

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

COMMISSIONER OF CUSTOMS,
Department of the Treasury,
Washington, D.C. 20229.

MAY 6, 1974.

DEAR MR. COMMISSIONER: On September 26, 1973, the Chairman, Committee for the Implementation of Textile Agreements, directed you to prohibit entry during the tewelve-month period beginning October 1, 1973 of wool and man-made fiber textile products in certain specified categories, produced or manufactured in the Republic of China, in excess of designated levels of restraint. The Chairman further advised you that the levels of restraint are subject to adjustment.[1]

Pursuant to paragraph 12(a) of the Bilateral Wool and Man-Made Fiber Textile Agreement of December 30, 1971, as amended, between the Governments of the United States and the Republic of China, and in accordance with the procedures of Executive Order 11651 of March 3, 1972, you are directed to amend, effective as soon as possible, the sublimit established in the aforesaid directive of September 26, 1973, for man-made fiber textile products in Category 224 as follows:

[1] The term "adjustment" refers to those provisions of the Bilateral Wool and Man-Made Fiber Textile Agreement of December 30, 1971, as amended, between the Governments of the United States and the Republic of China which provide, in part, that within the aggregate and applicable group limits, limits on certain categories may be exceeded by not more than 5 percent; for the limited carryover of shortfalls in certain categories to the next agreement year; for limited interfiber flexibility between cotton textiles and man-made fiber textile products of the comparable category; and for administrative arrangements.

[6] Order 73-10-43, October 12, 1973, Docket 25906, Arthur C. Allyn et al.

Category	*Twelve-month level of restraint*
224 ----------	8,589,744 pounds (of which not more than 200,000 pounds shall be in T.S.U.S.A. Nos. 380.0420 and 380.8143, and not more than 600,000 pounds shall be in T.S.U.S.A. Nos. 380.0402 and 380.8103)[2]

[2] The amended sublimits have not been adjusted to reflect any entries made on or after October 1, 1973.

The actions taken with respect to the Government of the Republic of China and with respect to imports of man-made fiber textile products from the Republic of China have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, the directions to the Commissioner of Customs, being necessary to the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553. This letter will be published in the FEDERAL REGISTER.

Sincerely,

SETH M. BODNER,
Chairman, Committee for the Implementation of Textile Agreements, and Deputy Assistant Secretary for Resources and Trade Assistance.

[FR Doc.74-10794 Filed 5-8-74;8:45 am]

CONSUMER PRODUCT SAFETY COMMISSION

CYANOACRYLATE-BASED ADHESIVES

Commision Decision Regarding Cyanoacrylate-Based Adhesives

The purpose of this notice is to announce the Commission's decision in regard to the action it will take concerning cyanoacrylate based adhesives used in or around the household. In response to a letter dated September 19, 1973, from Consumers Union, the Consumer Product Safety Commission began an investigation into the safety aspects of cyanoacrylate based adhesives.

Staff information based on testing indicated that cyanoacrylate glues are "hazardous substances" within the meaning of that term under the Federal Hazardous Substances Act because they are eye irritants. As such, these glues are deemed "misbranded" under the Act unless properly labeled. As a result of the Commission's investigation, the Commission staff discovered that several cyanoacrylate adhesive products were "misbranded" under the Federal Hazardous Susbtances Act because they were not properly labeled in regard to eye irritancy. The Commission has taken appropriate measures pursuant to the Federal Hazardous Substances Act to ensure compliance with the Federal Hazardous Substances Act in this regard.

On February 27, 1974, the Commission held a hearing to obtain information and views on other safety aspects of cyanoacrylate adhesives, particularly the characteristic of this product to almost instantaneously bond skin to skin. As a result of these hearings, investigation by the Commission staff, laboratory data, and literature relating to the safety and use of cyanoacrylate adhesives, the Commission concludes that, at this time, the consumer is not subject to an unreasonable risk of injury from the fast-bonding characteristic of cyanoacrylate adhesives.

In the event that a consumer accidentally (or intentionally) bonds skin to skin, simple procedures such as peeling (rolling) apart the bonded parts rather than pulling apart with a direct opposing action will provide relief. Accordingly, other than insuring compliance with the labeling provision of the Federal Hazardous Substances Act, the Commission does not intend to take further action with regard to cyanoacrylate adhesives at this time.

This decision does not, however, preclude the Commission from reconsidering its position if the receipt of additional data or information should so warrant.

Dated: May 6, 1974.

SADYE E. DUNN,
Secretary, Consumer Product Safety Commission.

[FR Doc.74-10746 Filed 5-8-74;8:45 am]

VINYL CHLORIDE-CONTAINING SELF-PRESSURIZED PRODUCTS

Requirement for Notification as a Potential Substantial Product Hazard

The purpose of this publication is to give notice that the Consumer Product Safety Commission has determined that self-pressurized consumer products containing vinyl chloride as a propellant or ingredient are products with a defect which could create a substantial product hazard. Therefore, anyone who is manufacturing, or has manufactured, such products is required to submit certain information (specified below) to this Commission.
